NOTE 1 – NATURE OF OPERATIONS

Hustle Fitness, Inc. was formed on February 1, 2016] (“Inception”) in the State of Delaware. The financial statements of Hustle Fitness, Inc. (which may be referred to as the "Company", "we," "us," or "our") are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters are located in Pittsburgh, Pennsylvania.

Hustle partners with professional athletes, trainers and coaches to produce instructional content that helps amateur coaches and youth players excel at sports. The company generates revenue by selling access to this content to its users.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amount of expenses during the reporting periods. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

*Fair Value of Financial Instruments*

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

	Level 1	- Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
	Level 2	- Include other inputs that are directly or indirectly observable in the marketplace.
	Level 3	- Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2016 and 2015. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values.

*Cash and Cash Equivalents*

For purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

*Revenue Recognition*

The Company will recognize revenues from the sale of instructional content on its mobile application and website when (a) persuasive evidence that an agreement exists; (b) the service has been performed; (c) the prices are fixed and determinable and not subject to refund or adjustment; and (d) collection of the amounts due is reasonably assured.

*Income Taxes*

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities.

ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax in the United States ("U.S.") and files tax returns in the U.S. Federal jurisdiction and Pennsylvania state jurisdiction. The Company is subject to U.S. Federal, state and local income tax examinations by tax authorities for all periods since Inception. The Company currently is not under examination by any tax authority.

*Concentration of Credit Risk*

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

**NOTE 3 – COMMITMENTS AND CONTINGENCIES**

We are currently not involved with or know of any pending or threatening litigation against the Company or any of its officers.

**NOTE 4 – SUBSEQUENT EVENTS**

The Company has evaluated subsequent events that occurred after December 31, 2016 through November 27, 2017, the issuance date of these financial statements. There have been no other events or transactions during this time which would have a material effect on these financial statements.

**NOTE 5 - RELATED PARTY TRANSACTIONS**

The Company has SAFE notes ("the Notes") payable to a related party. The Notes have a valuation cap of \$2million. In the event that the Company issues and sells shares of its Common Stock in an equity financing which is priced higher than the valuation cap, then the outstanding principal amount of the Notes shall automatically convert into fully paid and non-assessable shares of the Preferred Stock issued in such financing at the price per share paid by the other participating investors in such financing.

**NOTE 6 - Scoring Factory App LLC Transferral of Assets to Hustle Fitness, Inc.**

On February 1, 2016, The Scoring Factory App, LLC merged into Hustle Fitness, Inc. On this date, The Scoring Factory App, LLC transferred all assets to and reincorporated as Hustle Fitness, Inc.
