## Experience

**Co-Founder & Chief Business Development Officer**  
The New Pet Airways®, Inc.  
2017 – Present • 1 yr

The New Pet Airways® is a pet-only airline where pets fly in the main cabin, NOT in cargo.

Pet Airways is dedicated to a pet-friendly, safe and comfortable air travel experience for pets. Our pawsengers® fly in the climate-controlled main cabins of our airplanes, under the supervision of our On-Board Pet Attendants.

As Co-Founder, my first priority is to raise the capital required to re-launch our Pet-Only Service after which I will take on the role of implementing our marketing strategy.

**President**
