Experience

Senior Program Manager, Virtual Reality & Augmented Reality

Google

Dec 2006 – Present • 11 yrs 7 mos

San Francisco Bay Area

- Senior Program Manager, Virtual Reality, Lead for Partnership Engineering.
<https://vr.google.com/>
- Head of Program Management, Satellite Production & Launch, Terra Bella (formerly Skybox Imaging). Established the world's first high definition commercial Earth imaging spacecraft production line for 18 satellites. Successfully launched 4 spacecraft on a Vega rocket.
<https://terrabella.google.com/>
- Flight Operations Manager, Google Air - Established aircraft payload development effort for Solar powered UAV (Titan Aerospace acquisition). Established flight operations partner, led aircraft acquisition, and selected US & international flight test sites.
<https://gigaom2.files.wordpress.com/2014/04/titan-aerospace-drone-3.jpg>
- Android Manufacturing and Supply Chain Program Manager, Strategic Projects - Led new product introduction operations across 12+ factories in China, US, Japan and Malaysia for launch of Nexus products, including Android TV.
www.google.com/tv/
- Mobile Payments Global Test Manager, Google Mobile Wallet - Core launch team member. Executed highly confidential worldwide testing and certification operations with credit card and banking partners. 2010 Google Top Ten Engineering Accomplishments.
<http://www.google.com/wallet/>
- Global Problem Solver, Global Capacity Delivery Group - Internal "gunslinger" for critical, urgent and sensitive special projects worldwide. Confidential projects with successful results: increased global server utilization rate; led investigation for Audit Committee of the Google Board of Directors.
- Global Planning and Production Manager, Global Capacity Delivery Group - Responsible for global operations of data center hardware production of servers, network equipment, rack

systems and cooling infrastructure. Led supply chain re-architecture that redefined the value-add chain, internationally relocated server production, reduced warehouse inventories, and re-directed global logistic routes.
