May 10, 2018

SolarSi Costa Rica LLC

A CROWDFUNDING INVESTMENT INVOLVES RISK. YOU SHOULD NOT INVEST ANY FUNDS IN THIS OFFERING UNLESS YOU CAN AFFORD TO LOSE YOUR ENTIRE INVESTMENT.

IN MAKING AN INVESTMENT DECISION, INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THE ISSUER AND THE TERMS OF THE OFFERING, INCLUDING THE MERITS AND RISKS INVOLVED. THESE SECURITIES HAVE NOT BEEN COMMENDED OR APPROVED BY ANY FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THESE AUTHORITIES HAVE NOT PASSED UPON THE ACCURACY OR ADEQUACY OF THIS DOCUMENT.

THE U.S. SECURITIES AND EXCHANGE COMMISSION DOES NOT PASS UPON THE MERITS OF ANY SECURITIES OFFERED OR THE TERMS OF THE OFFERING, NOR DOES IT PASS UPON THE ACCURACY OR COMPLETENESS OF ANY OFFERING DOCUMENT OR LITERATURE.

THESE SECURITIES ARE OFFERED UNDER AN EXEMPTION FROM REGISTRATION; HOWEVER, THE U.S. SECURITIES AND EXCHANGE COMMISSION HAS NOT MADE AN INDEPENDENT DETERMINATION THAT THESE SECURITIES ARE EXEMPT FROM REGISTRATION.

No person has been authorized to give any information or to make any representations in connection with the offer made by this investment memorandum, nor has any person been authorized to give any information or make any representations other than those contained in this investment memorandum, and if given or made, such information or representations must not be relied upon. This investment memorandum does not constitute an offer to sell or solicitation of an offer to buy in any jurisdiction in which such offer or solicitation would be unlawful or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this offering statement nor any sale made hereunder shall, under any circumstances, create an implication that there has been no change in the affairs of our company since the date hereof.

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

SolarSi Costa Rica LLC
Up to \$200,000.00 in ten year interest bearing Notes
\$1,000.00 per Note

SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere in this investment memorandum. See “Risk Factors” for information to be considered by prospective investors.

SolarSi Costa Rica LLC (the “Company”), an Delaware limited liability company, is realizing small scale photovoltaic solar projects on a PPA (Power Purchase Agreement) basis, with companies in Costa Rica. The Company will use the proceeds from this offering to make realize more such projects.

We are offering a minimum of \$100,000.00 and total of \$200,000.00 worth of ten-year interest bearing notes (the “Notes”). The Notes will be paid quarterly from the date of issue to 10 years after, with an interest of 7% per year.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

For purposes of this section, the terms “we,” “us,” and “our” refer to SolarSi Costa Rica LLC (the “Company”), and the term “you” refers to Purchaser. You are urged to consider carefully, with your advisers, all of the risks described below before deciding whether to purchase the Note. Each of the risks identified below could have a material adverse effect on your investment in the Note and may result in the loss of your entire investment.

Nothing contained in these Risk Factors is or may be relied on as a promise or representation as

to any future performance or event. These Risk Factors speak only as of the date of this Agreement, and we have no duty to update these Risk Factors. These Risk Factors do not purport to contain all information that might be required to evaluate your decision to purchase the Note, and you must conduct your own independent analysis.

These Risk Factors contain forward-looking statements that are based on our expectations, assumptions, estimates, and projections about our business and its future. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those described in these Risk Factors. In addition to the risks specifically identified in these Risk Factors, we may face additional risks and uncertainties not presently known to us or that we currently deem immaterial, which risks or uncertainties may ultimately have a material adverse effect on your investment.

No person has been authorized to give any information or to make any representation other than those contained in this memorandum. You should not rely on any information or representations other than those contained in this Offering Statement.

Company Risks

1. Our ability to repay the Note is dependent on the payment of our Costa Rican subsidiary's (SPV SolarS SRL) customers. We will be able to repay the Note in full only more than 50% of our customers pay their bills to us.
2. We have no financial statements. We currently have no actual financial statements. Consequently, your ability to assess our financial condition, our results of operations, and our cash flow is severely limited. We encourage you to consult with your legal and financial advisors to determine whether you have sufficient financial information to evaluate the merits and risks of purchasing the Note. However, our Costa Rican subsidiary (SPV SolarSi SRL) does have financial statements. They are annexed.
3. Any financial projections that may have been disclosed to you (in writing, orally, or otherwise) were for illustrative purposes only. Any financial projections that may have been disclosed to you, were based on a variety of estimates and assumptions which may not be realized, and are inherently subject to significant business, economic, legal, regulatory, and competitive uncertainties, most of which are beyond our control. There can be no assurance that any projections that may have been disclosed to you will be realized, and actual results may differ materially from such projections.
4. Our success depends on the skills and expertise of Barend J Goossens and Linda D Ravenswaay ("Executive Team"). Our success substantially depends on the skills, talents, abilities, and continued services of the Executive Team. There is no guarantee that Executive Team will manage our business successfully. We do not carry life or disability insurance on the Executive Team. The loss of the services of the Executive Team, for any reason, may have a material adverse effect on your investment.

5. You will not have any right to control management. You will be a creditor of the Company without any right to control the management of the Company. Barend J Goossens in his capacities as our manager will have complete control over all of the decisions related to our business. Barend J Goossens could cause the Company to take actions over your objections. Additionally, Barend J Goossens will not be obligated to cause the Company to pursue any alternative course of action that may be suggested or advocated by you.

6. There will be significant restrictions on your ability to assign the Note. The Note is nonnegotiable, and you may not assign the Note to any person. Additionally, federal and state securities laws may place additional restrictions on your ability to transfer your units. Because of these restrictions, you may be unable to liquidate your investment in the event of an emergency or for any other reason. As a result, you should purchase the Note only if you are prepared to hold the Note for an indefinite period of time, or at least until the maturity date of the Note.

7. This offering has not been reviewed or approved by the government. No government agency or authority has reviewed or approved this Agreement or any of the documents provided to you relating to this memorandum, including these Risk Factors. Further, no government agency or authority will review or approve any of the documents provided to you if the Note is converted into units of the Company. You are expected to conduct your own review and analysis before deciding whether to purchase the Note.

8. An investment in the Note has tax consequences. The tax consequences of purchasing the Notes may vary depending on your particular tax situation. We strongly encourage you to consult with your legal and tax advisors to determine the tax implications of purchasing the Note.

OFFERING

SolarSi Costa Rica LLC (“Issuer”), is offering up to \$200,000.00 in ten-year interest bearing Notes (the “Notes”) in increments of \$1,000.00, the proceeds of which will be used to realize solar photovoltaic projects on PPA basis in Costa Rica. The Notes bear simple interest at a rate of seven percent per annum, which will be paid together with the invested sum quarterly during 10 years according to the French system (where the sum of repayment and interest is constant). The Notes are general obligations of the Issuer.

The offering deadline is May 10, 2019 (“Offering Deadline”); if the target offering amount of \$100,000.00 (the “Target Amount”) is not achieved by the Offering Deadline (and the Issuer does not extend the Offering Deadline), purchase commitments will be canceled and returned. The Issuer will accept purchases in excess of the Target Amount and sell Notes up to an aggregate Offering amount of \$200,000.00.

USE OF PROCEEDS

Our subsidiary SPV SolarSi SRL, a Costa Rican-registered limited liability company, has \$211,000.00 invested in Solar photovoltaic projects with Power Purchase Agreements (PPA).

SPV SolarSi will use the proceeds to make more of such investments. SPV SolarSi SRL is managed by Barend J Goossens and he will find customers and contract the Engineering Procurement and Construction of the Solar Photovoltaic installations at the customer's premise.

ABOUT THE ISSUER

The Issuer is a limited liability company organized under the laws of the State of Delaware, and was formed for the sole purpose of obtaining funds for SPV Solar Si SRL.

The Issuer is:

- Organized under the laws of the State of Delaware.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

Neither the Issuer nor any of its predecessors has previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding.

The Company has no directors. The Issuer's sole member is Barend J Goossens. The Issuer's Manager is Barend J Goossens (see "About the Founder" below).

ABOUT THE PROJECT

We are requesting a loan to expand our existing portfolio of current Solar Energy projects in Costa Rica. The existing projects have been operational for more than 2 years and have been financed entirely from equity.

We offer our customers, small and medium-sized companies, a solar installation based on an energy purchase contract. We do 100% of the investment, the installation is ours, and the customer buys the energy for an agreed price per kWh. (At the end of the contract we hand over the installation to the customer.) This is a saving for the customer of 10-40% on his electricity bill.

We work without subsidies, the electricity prices and sun in Costa Rica are such that it is profitable without help. Costa Rica is not Puerto Rico, nor is it an island, but the country of 5

million inhabitants with penalty kicks lost to the Netherlands in the 2014 quarterfinal football. It is one of the most developed countries in Latin America, safe, with a good legal system, a well-functioning democracy and little corruption.

Our current portfolio of current projects is sufficient to repay the loan. We have a pipeline of potential customers where we have a binding proposal. The idea is that at the moment the customer signs, we can immediately start with the already collected Suncrowd loan.

We use proven technology and very big brands, such as Canadian Solar panels and Kaco inverters. The contract with the customer has been checked several times by different lawyers, from other investors. The law in Costa Rica supports what we do.

For investors of \$20,000 or more, we organize a tour of the projects and other tourist destinations, with 5 nights in double room included (we have many hotels among our clientele!).

For more information on us, please see our website at www.ra-newables.com

ABOUT THE FOUNDER

Barend Goossens

Function: general manager.

Barend has been working in solar energy since 2005. Until 2010 with Ra Solar in Spain, where he was co-responsible for the realization of 10 large projects total 15MW for sale to the net. In 2011 moved to Costa Rica, where he founded Ra Newables SRL and realizes small Solar projects based on PPA contracts. First with own money, then for an international investment fund. So far 20 Solar projects and 10 energy efficiency projects realized in Costa Rica.

Linda Goossens - DGA

Function: commercial director

Linda founded the company Ra Solar in 2005, where she led the realization of 10 large projects totaling 15MW for sale to the grid. In 2011 she moved to Costa Rica, where she is commercial director and co-owner at Ra Newables SRL, and realizes small Solar projects on the basis of PPA contracts. First with own money, then for an international investment fund. So far 20 Solar projects and 10 energy efficiency projects realized in Costa Rica.

ABOUT THE MARKET

In Costa Rica the electricity prices are very high, around 0.25 US\$ per kWh. There is also a lot of sun, about 2000 kWh / m² / year. This means that solar energy is profitable for private use without subsidies. SPV SolarSi offers a unique product to the customer that competes with bank loans. Our offer is a PPA, power purchase agreement, a contract that is often used in large-scale renewables projects. The customer only pays the received energy, and does not have to worry about anything. We are the experts, and we do daily monitoring, preventive maintenance and corrective maintenance. (The customer only needs to clean the panels twice a year.) If for some reason the system produces less than expected, then this is not a big problem for the customer, he simply buys more at the electricity company (albeit more expensive). We, the experts, ensure an optimal solution in the long term, and the customer simply has cheaper energy. And beautiful solar panels.
