

A photograph of a family of four (mother, father, and two young children) walking away from the camera through a grassy field. The image is overlaid with a semi-transparent teal filter. The family is positioned in the center-right of the frame, with the mother on the left, the father on the right, and two children in between. They are all holding hands and walking towards a hazy horizon.

FamTerra

Making life simpler
for the modern family

ELENA KRASNOPEROVA

ELENA@FAMTERRA.COM

Founding team

Elena Krasnoperova

Co-founder, CEO

Led strategy, analytics and operations at eBay, PayPal, oDesk, Zong (acq. by PayPal for \$240M)

2nd time family tech founder
(1st company: SimplyCircle)

Stanford Ph.D. in Psychology

Marcelo Ribeiro

Co-founder, CTO

16 years of software, mobile app development, and engineering management experience

Founded software consultancy RubyThree (offices in US & Brazil)

Physics B.S.

Dad of 2 boys, ages 4 and 7

Families are a large, underserved market

35M US families spend \$550B+ annually on their kids and families

- \$200 Groceries & dining
- \$150 Family travel
- \$54 Private schools
- \$53 Daycare & sitters
- \$30 Apparel
- \$25 Toys & books
- \$23 Baby products
- \$8 Sports & Camps
- \$8 Edtech

Our vision for FamTerra

PHASE I

Solve collaboration problem for families with Calroo app

PHASE II

Solve co-parenting problem with WeParent

PHASE III

Open our Family APIs to 3rd party developers

PHASE IV

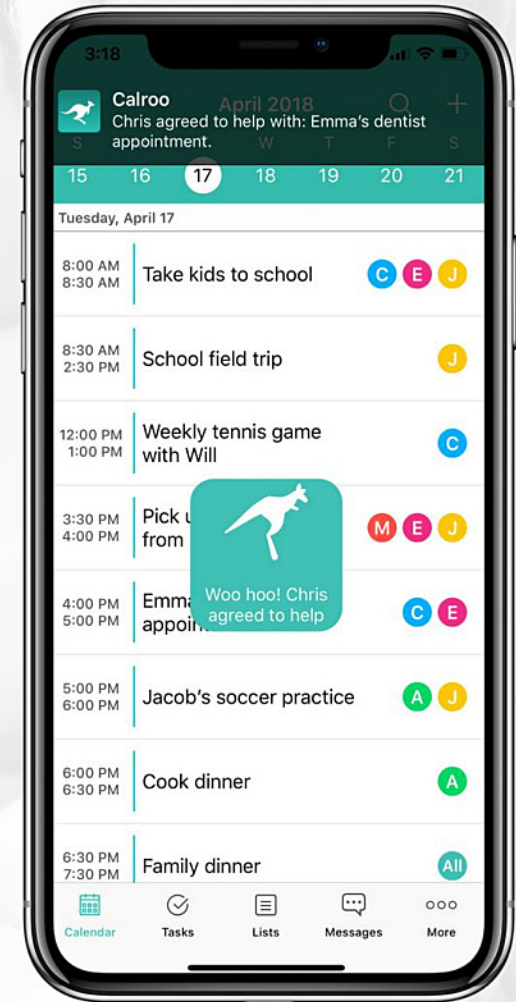

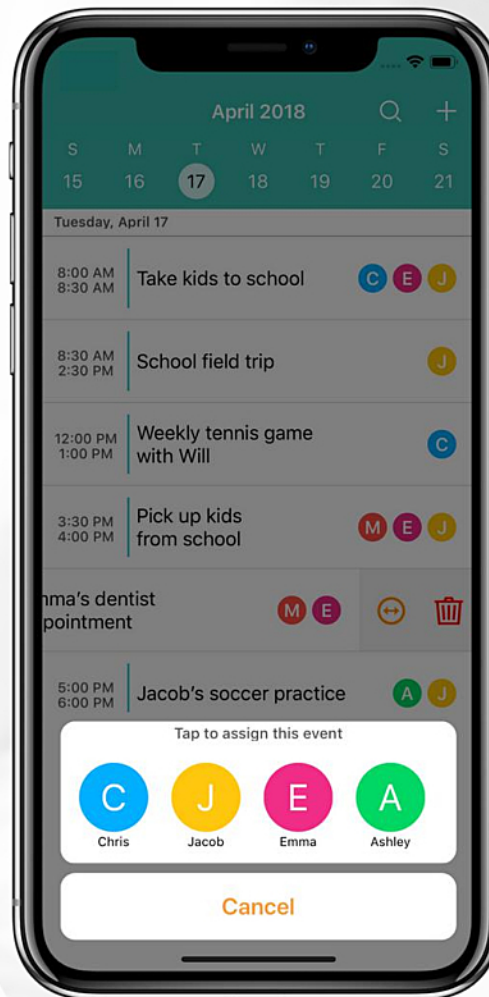

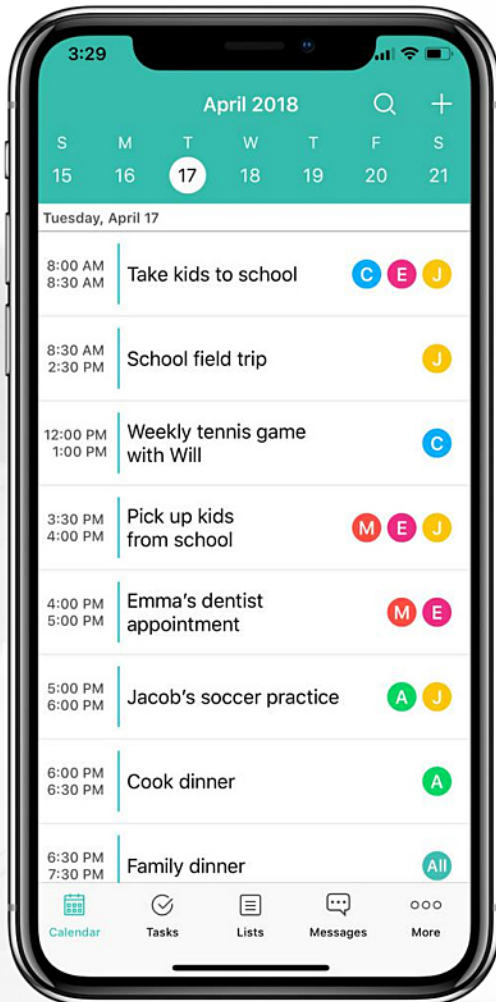

Create a new ecosystem and discovery platform of family apps

Phase I: Calroo app

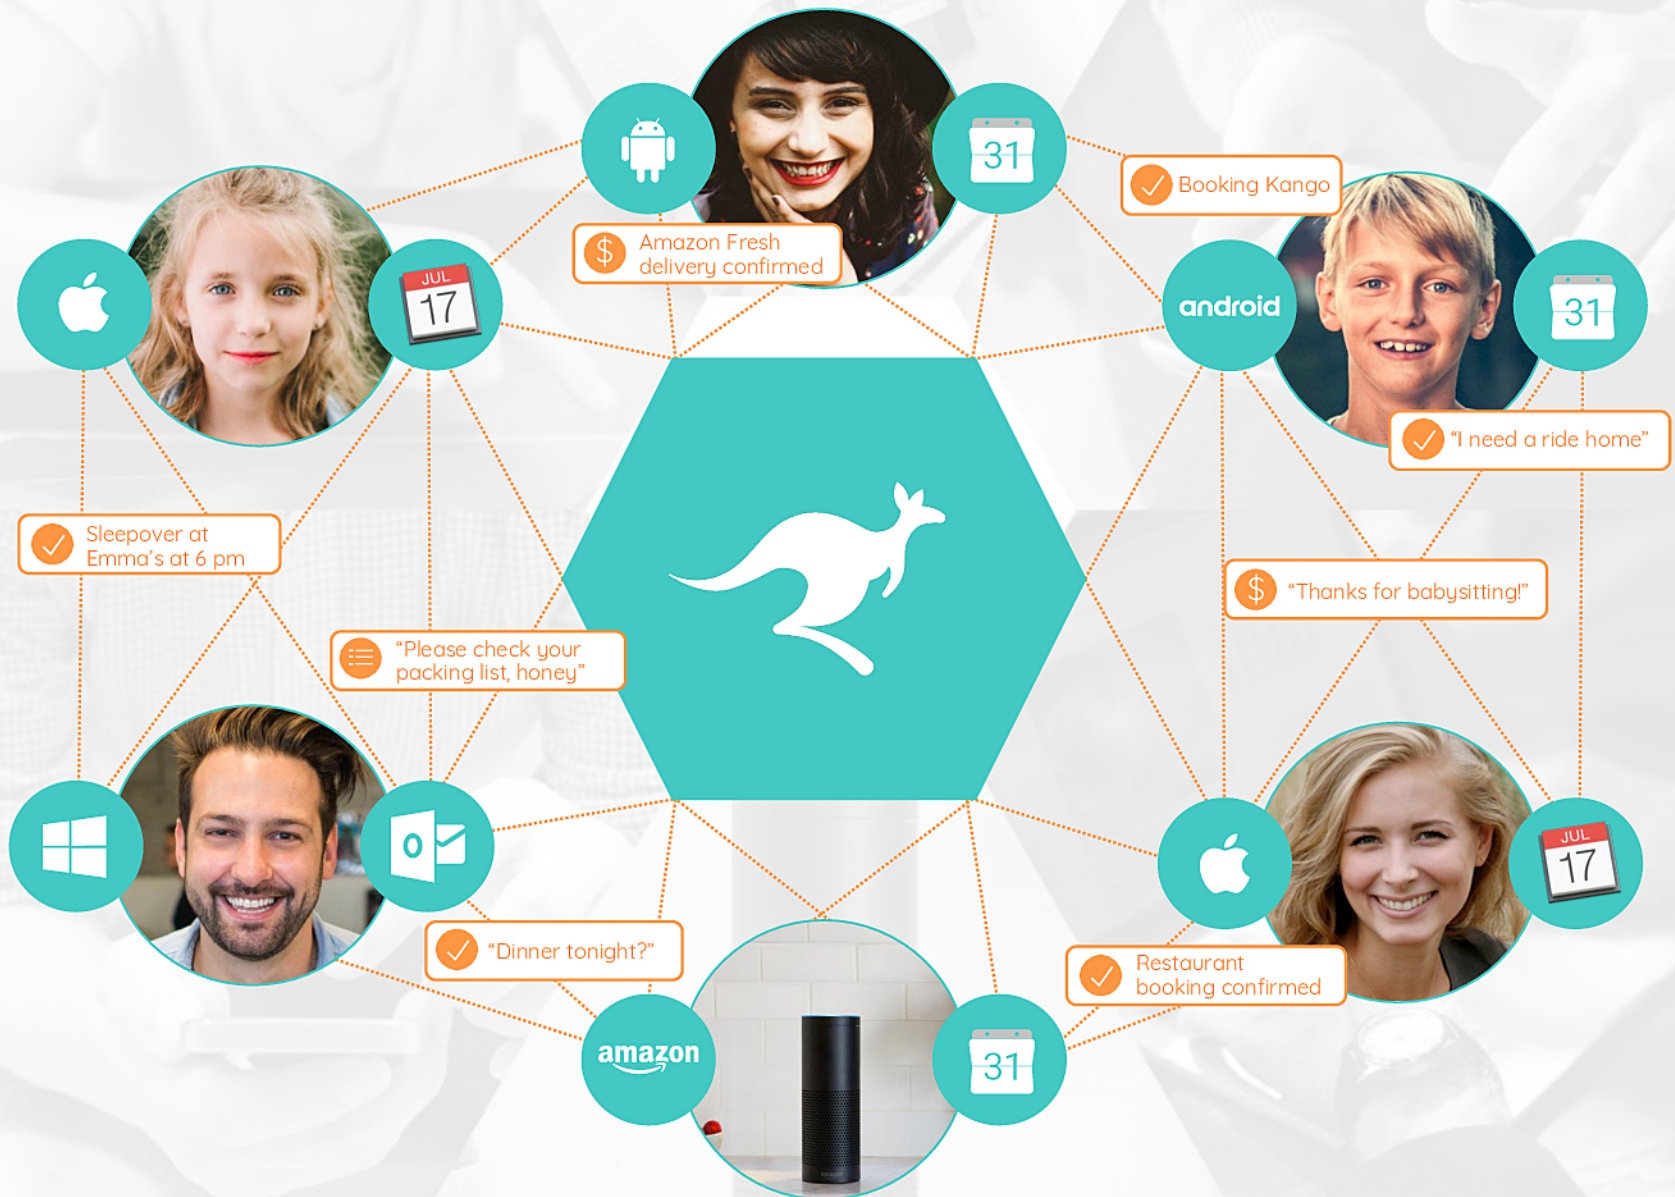

Like G-suite for families, but in a single app

We disambiguate handoffs of tasks

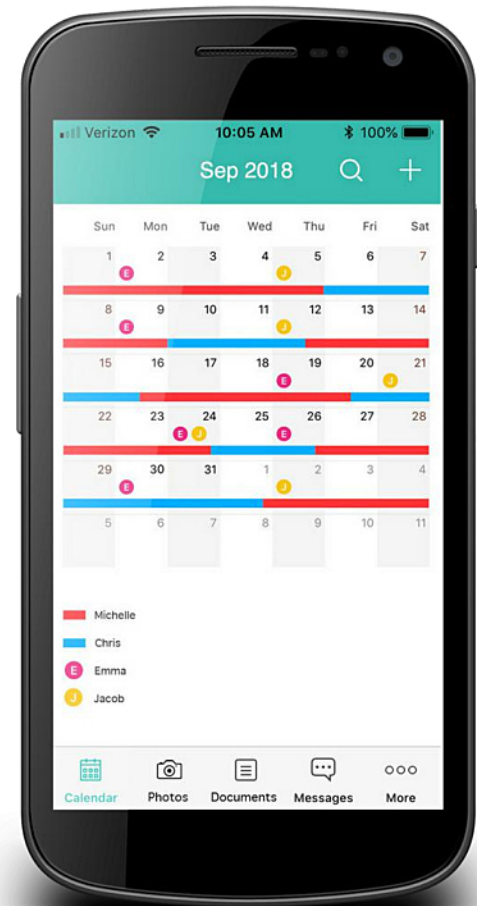

We provide family “inter-operability”

Phase II: Leverage Calroo IP to build WeParent

- Large market with a big problem
 - 55M US parents live separately
 - Coordinating with an ex is hard
- High willingness to pay
 - “Not having to talk to my ex = priceless”
 - Customers need a solution for a long time, up to 10 years
- For some families, app usage is legally mandated by family court
- Existing solutions provide poor UX

Phase III: Open FamTerra APIs to third party developers

- Sign-in with FamTerra
 - Like sign-in with Google, but for families
 - Avoid having to re-enter repetitive info: e.g., ages of the kids
 - Data privacy and sharing rules are controlled by the family
- Premium APIs (a la Twilio model)
 - Family calendaring
 - Family messaging
 - Family sharing of notes, images and documents
 - COPPA-compliance, etc.
- Shortens time to market for developers as they don't have to re-create the back-end / API for each app

Phase IV: Family app ecosystem

The Smith Family Profile

Mom: Karen

33 years old; accountant; works full-time; PTA leader; loves Zumba; wants kids to be more independent

Dad: John

35 years old; engineer; loves tennis; building a treehouse; looking for fun activity to do with kids next weekend

Son: Zak

10 years old; in 4th grade; loves sports and Minecraft; struggling with math; wants to learn Spanish

Daughter: Eva

4 years old; attends preschool; loves dinosaurs and drawing; wants to have more playdates with friends

Zip code: 94024

Recommended apps

Calroo: organize playdates, assign chores, sync calendar

Activity Hero: find a math summer camp for Zak

SimplyCircle: manage PTA volunteers, inform parents

Leela Kids: find kid-friendly podcasts about dinosaurs

PandaTree: find Spanish language tutor for Zak

Winnie: discover fun things to do with your kids
