RISK FACTORS

Risks Related to the Company's Business and Industry

The Company's success depends on the experience and skill of the managers, its executive officers and key employees.

In particular, the Company is dependent on Roy Slater, Ritesh Johar, and Jeff Tennery who are the Chief Operating Officer, the Chief Technology Officer, and the Chief Executive Officer, respectively, of the Company. The Company has or intends to enter into employment agreements with Roy Slater, Ritesh Johar, and Jeff Tennery, although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Roy Slater, Ritesh Johar, Jeff Tennery or any manager or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Roy Slater, Ritesh Johar, and Jeff Tennery in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if Roy Slater, Ritesh Johar, or Jeff Tennery dies or becomes disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

The amount of capital the Company is attempting to raise in this Offering is not enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company will need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we will not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause a Purchaser to lose all or a portion of his or her investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in the U.S.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any

material differences could have an adverse effect on our financial position and results of operations in the period or periods for which such determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

We collect sensitive data, including intellectual property, our proprietary business information and that of our customers, business partners and personally identifiable information of our customers, in our data centers and on our networks. The secure processing, maintenance and transmission of this information is critical to our operations and business strategy. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information and regulatory penalties, damage our reputation and cause a loss of confidence in our services, which could adversely affect our business/operating margins, revenues and competitive position.

Negative public opinion could damage our reputation and adversely affect our business.

Reputation risk, or the risk to our business from negative public opinion, is inherent in our business. Negative public opinion can result from our actual or alleged conduct in any number of activities. Negative public opinion can also result from media coverage, whether accurate or not. Negative public opinion can

adversely affect our ability to attract and retain customers and employees and can expose us to litigation and regulatory action.

The Company could be negatively impacted if found to have infringed on intellectual property rights.

Technology companies, including many of the Company's competitors, frequently enter into litigation based on allegations of patent infringement or other violations of intellectual property rights. In addition, patent holding companies seek to monetize patents they have purchased or otherwise obtained. As the Company grows, the intellectual property rights claims against it will likely increase. The Company intends to vigorously defend infringement actions in court and before the U.S. International Trade Commission. The plaintiffs in these actions frequently seek injunctions and substantial damages. Regardless of the scope or validity of such patents or other intellectual property rights, or the merits of any claims by potential or actual litigants, the Company may have to engage in protracted litigation. If the Company is found to infringe one or more patents or other intellectual property rights, regardless of whether it can develop non-infringing technology, it may be required to pay substantial damages or royalties to a third-party, or it may be subject to a temporary or permanent injunction prohibiting the Company from marketing or selling certain products. In certain cases, the Company may consider the desirability of entering into licensing agreements, although no assurance can be given that such licenses can be obtained on acceptable terms or that litigation will not occur. These licenses may also significantly increase the Company's operating expenses.

Regardless of the merit of particular claims, litigation may be expensive, time-consuming, disruptive to the Company's operations and distracting to management. In recognition of these considerations, the Company may enter into arrangements to settle litigation. If one or more legal matters were resolved against the company, the Company's consolidated financial statements for that reporting period could be materially adversely affected. Further, such an outcome could result in significant compensatory, punitive or trebled monetary damages, disgorgement of revenue or profits, remedial corporate measures or injunctive relief against the Company that could adversely affect its financial condition and results of operations.

The Company competes with other organizations that target the freelance and talent recruiting market, some of whom may have significantly greater resources than the Company.

The Company competes with other major online and mobile app recruiting companies, talent management groups and in-house human resources. These competitors include organizations that may have a longer operating history and greater financial resources than the Company. The Company may not be able to acquire market share from its competitors and it therefore may not achieve its projected revenue.

Risks Related to the Offering

Investment Commitments that are made and are later cancelled will reduce net-proceeds due to the Company due to Escrow Agent Fees.

You should be aware that the Escrow Agent will charge the Company cancellation fees for investment commitments that not funded or fulfilled, reducing the total amount of proceeds due to the Company.

Risks Related to the Securities

The Units of Crowd SAFE will not be freely tradable until one year from the initial purchase date. Although the Units of Crowd SAFE may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Units of Crowd SAFE. Because the Units of Crowd SAFE have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Units of Crowd SAFE have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Units of Crowd SAFE may also adversely affect the price that you might be able to obtain for the Units of Crowd SAFE in a private sale. Purchasers

should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No guarantee of return on investment.

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

Purchasers will not become equity holders until the Company decides to convert the Securities into CF Shadow Securities or until an IPO or sale of the Company.

Purchasers will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time, and depending on when and how the Securities are converted, the Purchasers may never become equity holders of the Company. Purchasers will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity Securities Purchasers are entitled to receive upon such conversion). In certain instances, such as a sale of the Company, an IPO or a dissolution or bankruptcy, the Purchasers may only have a right to receive cash, to the extent available, rather than equity in the Company.

Purchasers will not have voting rights, even upon conversion of the Securities into CF Shadow Securities.

Purchasers will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities. Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to vote the same way as a majority of the Series B Preferred Shareholders vote. Thus, Purchasers will never be able to freely vote upon any director or other matters of the Company.

Purchasers will not be entitled to any inspection or information rights other than those required by Regulation CF.

Purchasers will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. This lack of information could put Purchasers at a disadvantage in general and with respect to other security holders.

In a dissolution or bankruptcy of the Company, Purchasers will be treated the same as common equity holders.

In a dissolution or bankruptcy of the Company, Purchasers of Securities which have not been converted will be entitled to distributions as if they were common stockholders. This means that such Purchasers will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred stockholders, have been paid in full. If the Securities have been converted into CF Shadow Securities, the Purchasers will have the same rights and preferences (other than the ability to vote) as the holders of the Securities issued in the equity financing upon which the Securities were converted.

Purchasers will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which the Purchasers will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company’s current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other risks, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The Securities

We request that you please review our organizational documents and the Crowd Safe instrument in conjunction with the following summary information.

Authorized Capitalization

At the initial closing of this Offering (if the minimum amount is sold), we will have membership interests outstanding.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and can be thought of as the right to receive equity at some point in the future upon the occurrence of certain events.

Dividends

The Securities do not entitle the Purchasers to any dividends.

Conversion

Upon each future equity financing of greater than \$4,000,000.00 (an "Equity Financing"), the Securities are convertible at the option of the Company, into CF Shadow Series Securities, which are securities identical to those issued in such future Equity Financing except 1) they do not have the right to vote on any matters except as required by law, 2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and 3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Purchaser will receive the number of CF Shadow Series Securities equal to the greater of the quotient obtained by dividing the amount the Purchaser paid for the Securities (the “Purchase Amount”) by:

(a) the quotient of \$28,000,000.00 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable Securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) the issuance of all shares of capital stock reserved and available for future issuance under any of the Company’s existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “Safes”), and (iv) any equity Securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes,

OR

(b) the lowest price per share of the Securities sold in such Equity Financing multiplied by 80.00%.

The price (either (a) or (b)) determined immediately above shall be deemed the “First Financing Price” and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the Purchaser will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of an initial public offering of the Company (“IPO”) or Change of Control (see below) (either of these events, a “Liquidity Event”) of the Company prior to any Equity Financing, the Purchaser will receive, at the option of the Purchaser, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of shares of common stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$28,000,000.00 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company’s capital stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of common stock reserved and available for future grant under any equity incentive or similar plan; (ii) any Safes; and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the Purchaser immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Purchasers and holders of other Safes (collectively, the “Cash-Out Investors”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“Change of Control” as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than 50% of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Purchaser will receive, at the option of the Purchaser, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of shares of the most recently issued preferred stock equal to the Purchase Amount divided by the First Financing Price. Shares of preferred stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of preferred stock issued in connection with the Company's most recent Equity Financing.

Dissolution

If there is a Dissolution Event (see below) before the Securities terminate, the Company will distribute, subject to the preferences applicable to any series of preferred stock then outstanding, all of its assets legally available for distribution with equal priority among the Purchasers, all holders of other Safes (on an as converted basis based on a valuation of common stock as determined in good faith by the Company's board of directors at the time of the Dissolution Event) and all holders of common stock.

A "Dissolution Event" means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially limited in scope compared to an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Going Concern

As discussed in the Notes and Additional Disclosures, certain conditions indicate the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments which might be necessary should the Company be unable to continue as a going concern. Our conclusion is not modified with respect to that matter.

MOONLIGHTING LLC
NOTES TO FINANCIAL STATEMENTS
For the Years ended December 31, 2017 and 2016
(unaudited)

NOTE 1 - NATURE OF OPERATIONS

Moonlighting LLC (which may be referred to as the “Company,” “we,” “us,” or “our”) was formed on October 10, 2013 in Virginia. The Company is a staffing and recruiting technology company focused on the development and commercialization of on-demand hiring solutions for the freelance economy with a United States based community of more than 650,00 users.

Since Inception, the Company has relied on advances from founders, short-term loans and raising capital through sale of member units and convertible notes to fund its operations. As of December 31, 2017, the Company had working capital of \$227,233 and will likely incur losses prior to generating additional positive working capital. These matters raise substantial concern about the Company’s ability to continue as a going concern. During the next 12 months, the Company intends to fund its operations with funding from a crowdfunding campaign and a private placement (see Note 9), capital contributions from the founders and funds from revenue producing activities, if and when such can be realized. If the Company cannot secure additional short-term capital, it may cease operations. These financial statements and related notes thereto do not include any adjustments that might result from these uncertainties.

Company is headquartered in Charlottesville, Virginia. The Company began operations in 2015.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the footnotes thereto. Actual results could differ from those estimates. It is reasonably possible that changes in estimates will occur in the near term.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include: recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations. As of December 31, 2017, the Company is operating as a going concern. See Note 1 and Note 8 for additional information.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of December 31, 2017, and 2016, the Company had \$345,560 and \$1,343,655, respectively, of cash on hand.

Receivables and Credit Policy

Trade receivables from customers are uncollateralized customer obligations due under normal trade terms, primarily requiring payment before services are rendered. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoice. The Company, by policy, routinely assesses the financial strength of its customer. As a result, the Company believes that its accounts receivable credit risk exposure is limited and it has not experienced significant write-downs in its accounts receivable balances. As of December 31, 2017 and 2016, the Company had \$5,688 and \$1,618, respectively, of accounts receivable outstanding.

Property and Equipment

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are expensed as incurred. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the balance sheet accounts and the resultant gain or loss is reflected in income.

Depreciation is provided using the straight-line method, based on useful lives of the assets which range from two to five years.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. The Company had no impairment as of December 31, 2017.

Fair Value Measurements

The Company has determined the fair value of certain assets and liabilities in accordance with United States generally accepted accounting principles ("GAAP"), which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Income Taxes

The Company is a limited liability company. Accordingly, under the Internal Revenue Code, all taxable income or loss flows through to its members. Therefore, no provision for income tax has been recorded in the statements. Income from the Company is reported and taxed to members on their individual tax returns.

The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

The Company may in the future become subject to federal, state and local income taxation though it has not been since its inception. The Company is not presently subject to any income tax audit in any taxing jurisdiction.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers". Under this guidance, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration expected to be received for those goods or services. The updated standard will replace most existing revenue recognition guidance under U.S. GAAP when it becomes effective and permits the use of either the retrospective or cumulative effect transition method. Early adoption is not permitted. The updated standard for nonpublic entities will be effective after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. We are currently evaluating the effect that the updated standard will have on our financial statements and related disclosures.

In February 2016, FASB issued ASU No. 2016-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2016-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on our financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact our balance sheet.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

Legal Matters

Company is not currently involved with and does not know of any pending or threatening litigation against the Company or its member.

NOTE 6 – SHORT-TERM CONVERTIBLE NOTES

During 2015, the Company issued \$1,885,000 of convertible notes (“2015 Notes”). The convertible notes are automatically convertible into equity on the completion of an equity offering of \$1,200,000 or more (“Equity Financing”), or may be converted into equity upon an acquisition event or initial public offering, or at the lender’s election after 90 days following the maturity date. The conversion price is equal to the quotient obtained by dividing the outstanding principal and unpaid accrued interest due on the outstanding convertible notes, on the date of conversion, by the lower of (i) a discount rate of 80% multiplied by the lowest price per equity security sold to the investors in the Equity Financing or (ii) the quotient resulting from dividing \$6,000,000 (the “Valuation Cap”) by the common equity outstanding.

During 2016, the Company issued \$1,800,000 of convertible notes (“2015 Notes”). The convertible notes are automatically convertible into equity on the completion of an equity offering of \$1,200,000 or more (“Equity Financing”), or may be converted into equity upon an acquisition event or initial public offering, or at the lender’s election after 90 days following the maturity date. The conversion price is equal to the quotient obtained by dividing the outstanding principal and unpaid accrued interest due on the outstanding convertible notes, on the date of conversion, by the lower of (i) a discount rate of 80% multiplied by the lowest price per equity security sold to the investors in the Equity Financing or (ii) the quotient resulting from dividing \$13,000,000 (the “Valuation Cap”) by the common equity outstanding.

During 2017, the 2015 Notes and 2016 Notes totaling \$4,033,685 of principal and interest converted into 4,811,769 of member units.

NOTE 7 – MEMBERS’ EQUITY

During 2017, the Company sold \$1,219,171 of member units.

As of December 31, 2017, the Company had outstanding warrants to two investors. One warrant expires during 2019 and allows the investor to purchase 51,382 member units for a price of \$66,796. The second warrant expires during 2020 and allows the investor to purchase 260,869 member units for a price of \$50,000. Both warrants were issued as part of the consideration of prior investments in the Company.

NOTE 8 – GOING CONCERN

These financial statements are prepared on a going concern basis. The Company began operation in 2016 and incurred a loss for the period from Inception through December 31, 2017. The Company’s ability to continue is dependent upon management’s plan to raise additional funds (see Note 1), capital contributions from the founder and the ability to achieve profitable operations. The financial statements do not include any adjustments that might be necessary if the Company is not able to continue as a going concern.

NOTE 9 – SUBSEQUENT EVENTS

Anticipated Crowdfunded Offering

The Company is offering (the “Crowdfunded Offering”) up to 1,070,000 SAFEs for up to \$1,070,000. The Company is contemplating a private placement for the sale of purchase rights for tokens through a Simple Agreement for Future Equity with Token Allocation ("SAFE-T") to accredited investors. The Company is attempting to raise up to \$40,000,000 with no minimum amount.

Management's Evaluation

Management has evaluated subsequent events through August 14, 2018, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.

Jeff Tennery: Hi, my name is Jeff Tennery, and I'm the founder and CEO of Moonlighting. We're one of the fastest growing marketplaces that's focused solely on trying to help you create your own job, own work experience, and pursue your own version of the American dream. We're a three old company, we've raised over \$6 million, and we're backed by three of the largest news media companies, publishers of the USA Today, the Chicago Tribune and the LA Times, and they're helping us spread the word, the revolution of freelancing, and doing so across 150 news media sites every single day. You know, we've been called by the press the Swiss Army Knife of the gig economy, which we really like. Because we're looking to add tools and provide tools for people to be able to build their own business and create new earnings opportunities without having to rely on others. We have a big vision. We want to disrupt LinkedIn, we don't think LinkedIn has been inclusive enough, they've been exclusive and it's really for more of the corporate crowd, the fortune top 500 but really we want to invite everyone to participate on Moonlighting, so not only are we looking to help people that might be in the pet sitting business, we're looking to help attorneys, accountants, consultants, it's a wide range, and it's intended to be that way, so that we can help everyone and millions people across the world. You know, by 2020, you'll see over 40% of the workforce will be generating some form of income from freelancing. What we also see is it that's going to amount to over \$1.4 trillion. We're addressing a market that's massive and is growing at a stealth like pace. There's a huge gap in really the number of full time jobs that are available, and really the number of people from a population [standpoint], population is just growing so much faster than full time jobs so people need to create their own using Moonlighting. You know, one of the things also that we're looking at is we address a lot of different markets. Because when you're an inclusive platform, we help people like millennials coming right out of school that are looking for their first job, but really want to create their own career and work on their own, much more entrepreneurial. We have baby boomers that have come to us that are not quite ready to retire, and would like to continue working with great work experience and want to create their own work income. We also have moms who want that work life balance, which is very elusive for a mom. She's got great skills, would like to continue to work, really manage the household and do so from there. And then we have Gen X folks in the corporate world that are getting squeezed, and are being left behind, and they need to find alternative ways for them to support the families, and to continue to work. Moonlighting continues to focus on the mobile experience so that you can find work right from your mobile device, and you could use it very quickly. People are turning more and more to the internet to find work as opposed to other medium. So really, that pace of growth is fueling Moonlighting and people don't want to wait weeks to find a job, they want to create one immediately, in less than 24 hours, and you do that on Moonlighting as well. You know, one of the things too that's plaguing the overall gig economy is a lot people don't trust you they're hiring and don't know that the information is really authentic, and we've moved into blockchain, we're going to take these profiles, we're going to create a very safe work environment and safe process for people to hire one another because that information is true and it's authentic. We're also looking at cryptocurrency. So people get to keep 100% of their hard earned paycheck and not pay all these silly fees you see out of marketplaces, or even currencies, exchange fees from banks

in other countries, when you're looking to do business internationally. To really the end Moonlighting, is coming together really with the sole focus of helping millions of people, not only here in the United States but globally as we look to expand to other countries, so that we can bring that independence that spirit of working for yourself and really democratize the freelance economy. Thank you very much for letting me share our story with you, and we hope that not only will you come in potentially invest, but also be a participant and use Moonlighting for your own work career and to further your cause. Thanks very much for having me.

Video 2 (Moonlighting History)

Screen reads: 2008

News Reporter 1: The dow traders are standing there watching in amazement and I don't blame them.

News Reporter 2: The stock market is now down 21%, what in the world is happening on Wall Street.

News Reporter 3: It was the worst day on Wall Street since the crash of 1987.

News Reporter 4: It is the worst jobless rate in a generation. U.S unemployment now running in 10.2%.

Jeff Tennery: Back in 2008, when the market collapsed and unemployment spiked, it's really when the gig economy was born. And I was thinking through this idea of how could I help people that really needed it the most. And there was so many my friends, so much family that were really hurting for employment. And so that's really when it started in my mind.

Jeff Tennery: Discover-ability was our number one objective. We wanted to build a platform that could help people very quickly connect with someone who's looking to hire.

Jeff Tennery: And we wanted to help people get paid faster, so they can make the rent so they can make a bill and that was what inspired Roy, Ritesh and I to get Moonlighting off the ground.

Screen reads: In 2014 Moonlighting was formed.

Roy Slater: The most challenging piece of this whole thing was that initial launch. Now all of the pieces of the puzzle that have to come together to go from zero to 100 miles an hour in three months. And it was just a lot of work. And it was scary. Getting that first app filled was exciting. And then seeing the things break. There were moments where you look at yourself, and you think can we really do this.

News Reporter 5: An app developed in Charlottesville, is spreading nationwide and helps connect people to with specific chores, with workers willing to complete the task.

News Reporter 6: It's more than 8000 users in all 50 states that bought into the idea of Moonlighting.

News Reporter 7: Part of the shared economy, Jeff, Is this about honey-do type work or is it anything?

Jeff Tennerly: A lot of web and tech jobs, actually our number two job, we have accountants, we have professionals really all the way through your baby sitters and your dog walkers.

Screen reads: One year after a successful launch, Investors pushed Moonlighting to copy the Uber model.

Jeff Tennerly: Every institutional investor, every venture capital firm that we talked to, they all had pretty much the same feedback which is: you need to do what Uber did. Go and focus in on one city and also pick one vertical, but we knew we can impact more people if our app worked everywhere. We have a 10 o'clock call every single day as a company, and we review statistics that are all about impacting connections, and making sure people are making money.

Jeff Tennerly: This is the difference of life and death for some people in the way of making money. And the way they carry their lives on. So it could be making rent, it could be putting their kids through school. So let's make sure that we're doing everything possible to make that connection. And you guys are at the forefront of that.

Screen reads: By May 2016 Moonlighting spread virally through social media and eclipsed 100,000 users.

Jeff Tennerly: I'm going to give a little speech here in a second.

Jeff Tennerly: It's been a long road over the past couple years. Moonlighting has gone from this little idea to thousands of people signing up a day that want to be a part of this because they feel that sense of empowerment, that sense of freedom. How cool is it that we have over 100,000 people in our marketplace!?

Jeff Tennerly: We've grown over 50% in just the last four weeks alone. It's why we've gone to number four in the job posting category within iTunes, right behind LinkedIn.

Cameraman: Rolling.

Jeff Tennerly: The one thing that is really paramount to any company that's in the sharing economy is that it has to have trust. Not only have we build trust with people using moonlighting, but we're getting further validated by the largest wireless carrier in the world, and the largest local news media companies in the United States want to attach their brand with moonlighting. I think it further validates the mission that we're on as we revolutionize and change the way people work.

Jeff Tennery: What's exciting is we have so much in place ready to take this big step forward from hundreds of thousands of users to millions of users and really making a difference in so many different things.

Screen reads: In 2017 Moonlighting experienced astonishing growth, eclipsing 600,000 users.

Jeff Tennery: In 2017 our marketplace has exploded with over half a million users that's taking this worldwide. The initial coin offering, or ICO, is going to give us an opportunity to expand our platform to keep up with the growing demand of freelancers who need to build their own business and do so not just in the United States but across the world.

Screen reads: In 2018 Moonlighting is faced with the largest challenge yet, keeping up with the demand & building out blockchain technology.

Jeff Tennery: 2018 promises to be an even more exciting year as we now introduced cryptocurrency, the moon bit as we call it, into our marketplace, we'll be going to the United Kingdom, Canada and Latin America and expanding globally from they're using our Moonlighting marketplace as the platform for freelancers. They'll be able to use that token to remove painful commissions, currency fees, bank fees, and will be able to keep more of their harder earned check.

- Taking the “Gig Economy to the Next Freelancing Level” - Forbes

By 2030, Freelancers Will Account for as much as 80% of the Global Workforce

Traditional Hiring Platforms Aren't Ready

The growth of freelancing worldwide is staggering. In the US alone, freelancers make up 35% of the current workforce, some 55 million workers who collectively earned \$1 trillion in 2016. That number is predicted to reach 43% by 2020, with some analysts citing that figure at 80% of the global workforce by 2030.

While the freelance economy is booming, participants are at the mercy of flawed and individually-centralized job marketplaces. These traditional marketplaces struggle to engage new members and eliminate fraud, all while controlling freelancer earnings by setting pay rates, taking a steep cut of earnings, charging for bids, and withholding or even denying payment. As a result, freelancers are powerless to control their personal data and retain their full earnings. Conversely, employers have

limited access to consistent, trusted, and verified worker data, putting them at the risk of losing money and wasting time in the process.

The Solution: Moonlighting

On a Mission to Help Millions

A few years ago, we started Moonlighting to help empower people everywhere to pursue the career they always wanted, to lead a better life, and to do work that they truly love. We wanted to create a free and open marketplace that gives everyone a shot at getting discovered and building their own workplace independence. This mission has turned into a movement, spreading quickly throughout the country and soon, across the globe.

A More Trusted, Global, and Inclusive Freelance Economy

Moonlighting removes the middleman between employers and freelancers, connecting them directly to empower on-demand employment. In addition, it offers a suite of powerful SaaS tools that simplify communications and small business accounting.

With the upcoming blockchain integration, Moonlighting will decentralize worker profiles (including reviews, recommendations, education, licensing credentials) and allow freelancers to port their profile to any employment marketplace in the gig economy.

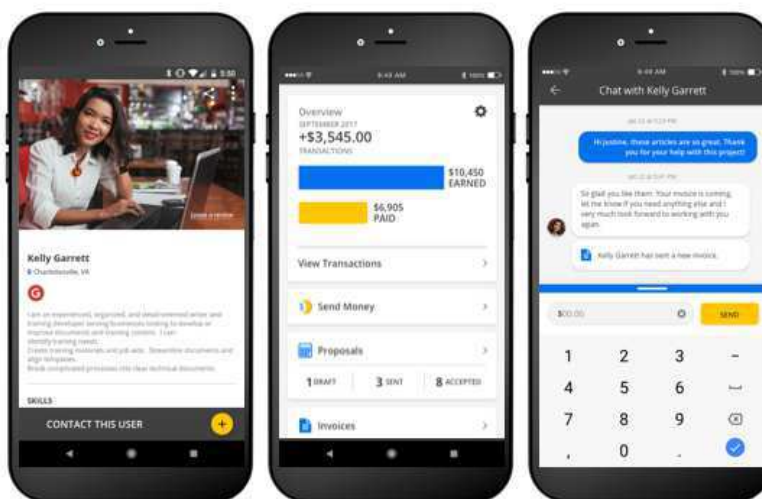

Removing the middleman

Thanks to the peer-to-peer model, platform commission fees are eliminated.

Providing powerful SaaS tools

Moonlighting provides a full turnkey solution with a suite of tools including online portfolios, instant chat to accept direct hire requests, proposals, invoicing, and online payments.

Getting a blockchain upgrade

Trust is a major problem for freelancers and employers. With the upcoming blockchain integration, once a blockchain profile is created on Moonlighting, independent workers will no longer have to create and maintain multiple online profiles. They can simply port their profile and earned reviews to other participating platforms providing employers with more consistent and accurate ratings and profiles. No more guessing which source(s) to trust – Moonlighting blockchain user profiles will make hiring online safe and trusted.

The blockchain integration will allow for faster payments via instant payments through cryptocurrencies.

Blockchain technology also supports tokenization and smart contracts that create new incentives for participation in Moonlighting and the freelance economy. The upcoming Moonlighting Rewards Program will incentivize freelancers and clients to act fairly and professionally, while building a stronger marketplace.

How it works for employers:

1. Search for the type of worker needed or simply post a job
2. Qualified freelancers receive job notifications and will begin to respond instantly
3. Hire the worker you choose and pay securely right through Moonlighting

How it works for workers:

1. Freelancers create a professional online portfolio
2. Search jobs and respond to direct hire requests
3. Accept job requests and receive online payments with no commission fees

Revenue Opportunities

How Does Moonlighting Make Money?

In April 2016, Moonlighting began monetizing its freelancer advertising services and SaaS tools, creating the Pro membership, while also monetizing enterprise employer job postings to create a 30-day job posting product called Blast.

In July 2017, Moonlighting partnered with leading recruitment platform, Recruitology, to accelerate recruitment advertising revenue generated through third-party sales of the Moonlighting Blast product. As a result of these monetization efforts, Moonlighting has generated more than \$750K in revenue to date.

Moonlighting currently monetizes both the employee and employer sides of the marketplace:

- **\$40-\$100 30-day job listings** are available for recruiters and small businesses. These job posts enable these users to instantly connect with the best professional flexible, part-time, and freelance candidates to source, recruit, and hire instantly.
- **\$10/mo per user** subscription based offer is available for freelancers and small businesses. This subscription provides promotion within the Moonlighting marketplace, unlimited use of SaaS tools, unlimited direct communication with potential employers, 0% processing fees on payments received through Moonlighting, and will soon include blockchain verified user profiles.

Additionally, we keep 5% commission of funds raised through Moon\$hot Stories.

A Growing Market

Moonlighting's freelance economy market is substantial and only getting bigger, with potential customers that include 7.5 billion freelance professionals worldwide, large and small companies,

recruiters and sole-proprietors looking to hire. By 2020, freelancers workers are expected to make up 43% of the US workforce. By 2030, freelancers will account for 80% of the global workforce. If Moonlighting can capture just 1% of this market, it's a multi-billion dollar opportunity.

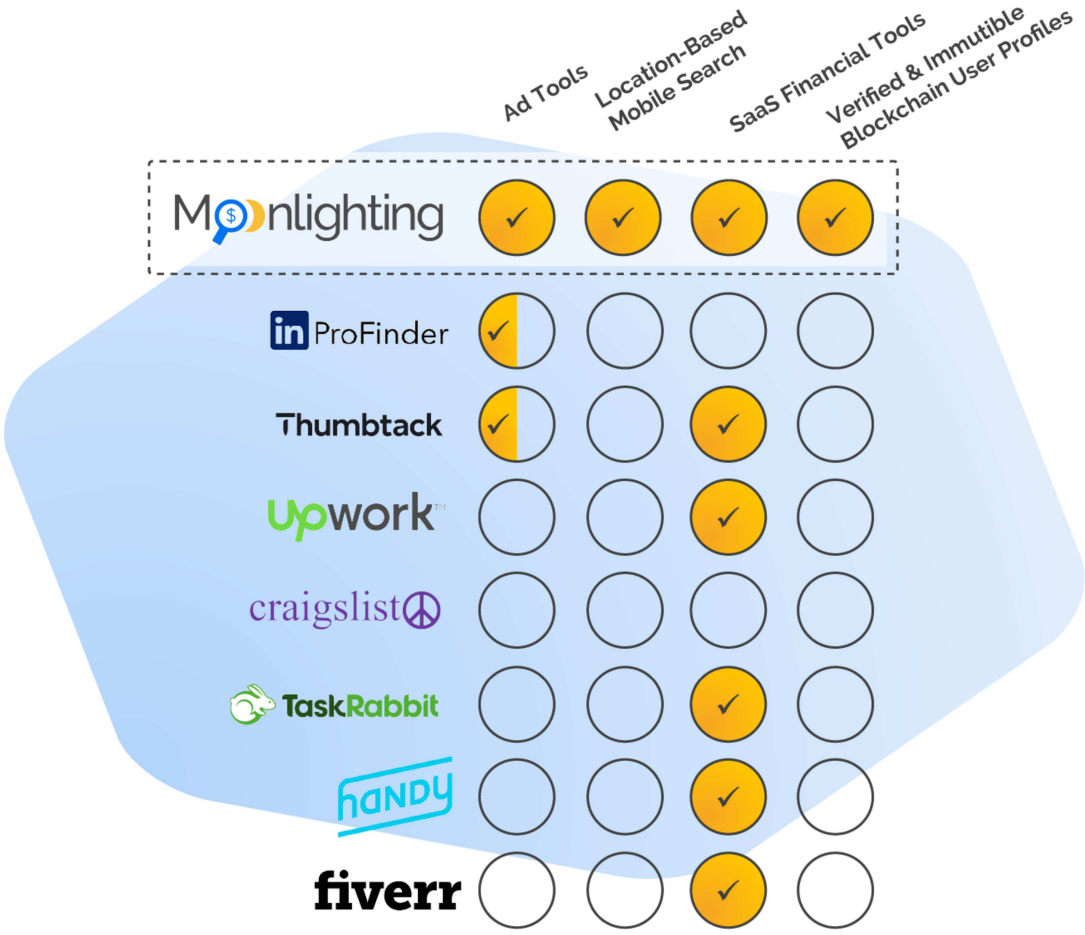

In the near term, Moonlighting is focused on expanding to two new markets, Canada and the United Kingdom, through partnerships secured with the top news media companies in each country. With this expansion, Moonlighting is on track to grow its user base to 500M+ and generate \$100M by 2021.

Competition

Our competitors include traditional job marketplaces like LinkedIn, Thumbtack and Upwork.

Moonlighting is the only company integrating blockchain technology to build a safer and more secure hiring platform.

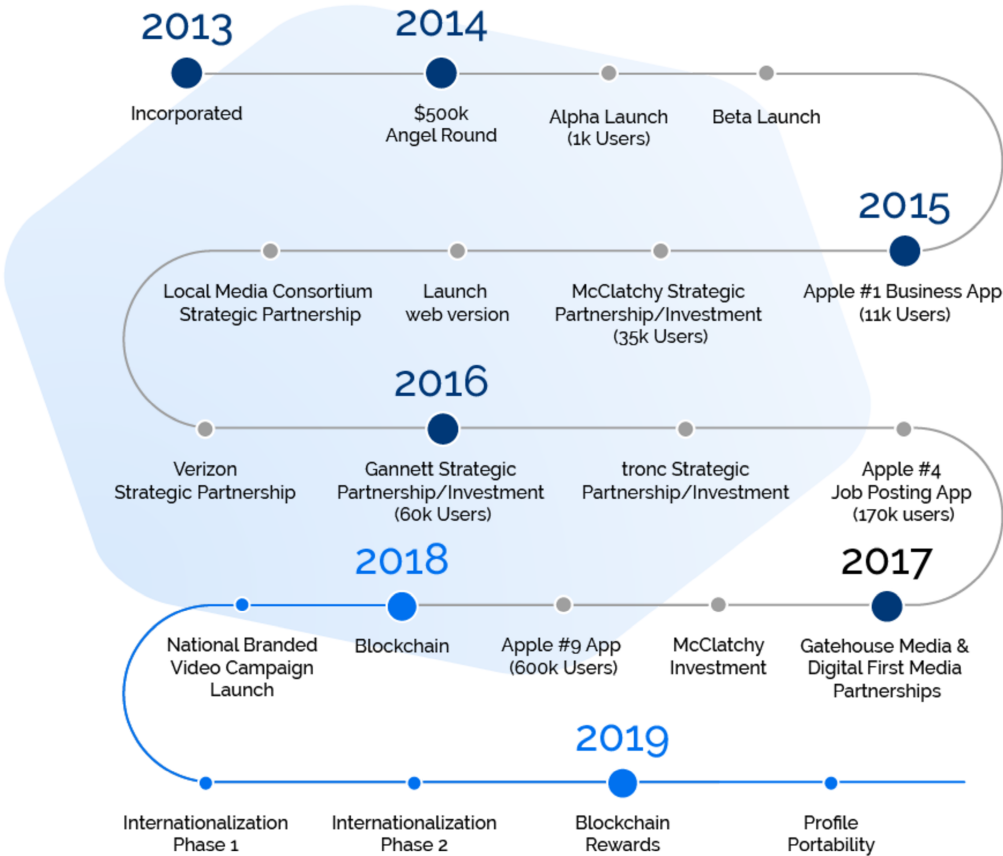

Investors

To date, Moonlighting has raised \$6.3M from local Charlottesville, Virginia Angel investor Network (CAN), New Richmond Ventures (NRV), and media giants McClatchy (NYSE: MNI), Gannett (NYSE: GCI), and Tronc (NASDAQ: TRNC).

In connection with this Section 1(b)(i), the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investor and holders of other Crowd Safes (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

(b) The execution, delivery and performance by the Company of this instrument is within the power of the Company and, other than with respect to the actions to be taken when equity is to be issued to the Investor, has been duly authorized by all necessary actions on the part of the Company. This instrument constitutes a legal, valid and binding obligation of the Company, enforceable against the Company in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors' rights generally and general principles of equity. To the knowledge of the Company, it is not in violation of (i) its current charter or bylaws; (ii) any material statute, rule or regulation applicable to the Company; or (iii) any material indenture or contract to which the Company is a party or by which it is bound, where, in each case, such violation or default, individually, or together with all such violations or defaults, could reasonably be expected to have a material adverse effect on the Company.

4. *Investor Representations*

(a) The Investor has full legal capacity, power and authority to execute and deliver this instrument and to perform its obligations hereunder. This instrument constitutes a valid and binding obligation of the Investor, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors' rights generally and general principles of equity.

(b) The Investor has been advised that this instrument and the underlying securities have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act. The Investor understands that neither this instrument nor the underlying securities may be resold or otherwise transferred unless they are registered under the Securities Act and applicable state securities laws or pursuant to Rule 501 of Regulation CF, in which case certain state transfer restrictions may apply.

(c) The Investor is purchasing this instrument and the securities to be acquired by the Investor hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Investor has no present intention of selling, granting any participation in, or otherwise distributing the same. Each Investor understands that the Securities have not been, and will not be, registered under the Securities Act or any state securities laws, by reason of specific exemptions under the provisions thereof which depend upon, among other things, the bona fide nature of the investment intent and the accuracy of each Investor's representations as expressed herein.

(d) The Investor acknowledges, and is purchasing this instrument in compliance with, the investment limitations set forth in Rule 100(a)(2) of Regulation CF, promulgated under Section 4(a)(6)(B) of the Securities Act.

(e) The Investor acknowledges that the Investor has received all the information the Investor has requested from the Company and the Investor considers necessary or appropriate for deciding whether to acquire this instrument and the underlying securities, and the Investor represents that the Investor has had an opportunity to ask questions and receive answers from the Company regarding the terms and conditions of this instrument and the underlying securities and to obtain any additional information necessary to verify the accuracy of the information given to the Investor. In deciding to purchase this instrument, the Investor is not relying on the advice or recommendations of the Company or of Republic.co and the Investor has made its own independent decision that an investment in this instrument and the underlying securities is suitable and appropriate for the Investor. The Investor understands that no federal or state agency has passed upon the merits or risks of an investment in this instrument and the underlying securities or made any finding or determination concerning the fairness or advisability of this investment.

(f) The Investor understands and acknowledges that as a Crowd Safe investor, the Investor shall have no voting, information or inspection rights, aside from any disclosure requirements the Company is required to make under relevant securities regulations.

(g) The Investor understands that no public market now exists for any of the securities issued by the Company, and that the Company has made no assurances that a public market will ever exist for this instrument and the securities to be acquired by the Investor hereunder.

(h) If the Investor is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the Investor hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for this instrument, including (a) the legal requirements within its jurisdiction for the purchase of this instrument; (b) any foreign exchange restrictions applicable to such purchase; (c) any governmental or other consents that may need to be obtained; and (d) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, conversion, redemption, sale, or transfer of this instrument. The Investor's subscription and payment for and continued beneficial ownership of this instrument and the

underlying securities will not violate any applicable securities or other laws of the Investor's jurisdiction. The Investor acknowledges that the Company has taken no action in foreign jurisdictions with respect to this instrument and the underlying securities.

(i) Each Investor understands that no public market now exists for the Securities and that the Company has made no assurances that a public or private market will ever exist for the Securities, and accordingly, Investor may never be able to sell to any third party the Securities issued hereunder.

(j) Each Investor further acknowledges that it has read, understood, and had ample opportunity to ask Company questions about its business plans, "Risk Factors," and all other information presented in Form C and the offering documentation.

(k) Each Investor represents that the Investor understands the substantial likelihood that the Investor will suffer a **TOTAL LOSS** of all capital invested, and that Investor is prepared to bear the risk of such total loss.

5. Transfer Restrictions.

(a) The Investor hereby agrees that during the Lock-up Period it will not, without the prior written consent of the managing underwriter: (A) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock (whether such shares or any such securities are then owned by the Investor or are thereafter acquired); or (B) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities; whether any such transaction described in clause (A) or (B) above is to be settled by delivery of Common Stock or other securities, in cash, or otherwise.

(b) The foregoing provisions of Section 5(a) will: (x) apply only to the IPO and will not apply to the sale of any shares to an underwriter pursuant to an underwriting agreement; (y) not apply to the transfer of any shares to any trust for the direct or indirect benefit of the Investor or the immediate family of the Investor, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer will not involve a disposition for value; and (z) be applicable to the Investor only if all officers and directors of the Company are subject to the same restrictions and the Company uses commercially reasonable efforts to obtain a similar agreement from all stockholders individually owning more than 5% of the outstanding Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock. Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Company may impose stop transfer instructions with respect to the Investor's registrable securities of the Company (and the Company shares or securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. The Investor agrees that a legend reading substantially as follows will be placed on all certificates representing all of the Investor's registrable securities of the Company (and the shares or securities of the Company held by every other person subject to the restriction contained in Section 5(a)):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE COMPANY'S REGISTRATION STATEMENT FILED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN THE COMPANY AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT THE COMPANY'S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

(d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Company to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd Safe and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

THIS INSTRUMENT HAS BEEN ISSUED PURSUANT TO SECTION 4(A)(6) OF THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND NEITHER IT NOR ANY SECURITIES ISSUABLE PURSUANT HERETO HAVE BEEN REGISTERED UNDER THE SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE. THESE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED, PLEDGED OR HYPOTHECATED EXCEPT AS PERMITTED BY RULE 501 OF REGULATION CROWDFUNDING UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT OR EXEMPTION THEREFROM.

6. *Miscellaneous*

(d) The Investor is not entitled, as a holder of this instrument, to vote or receive dividends or be deemed the holder of Capital Stock for any purpose, nor will anything contained herein be construed to confer on the Investor, as such, any of the rights of a stockholder of the Company or any right to vote for the election of directors or upon any matter submitted to stockholders at any meeting thereof, or to give or withhold consent to any corporate action or to receive notice of meetings, or to receive subscription rights or otherwise until shares have been issued upon the terms described herein.
