

SEVEN STILLS

Series A Investor Deck
July, 2018

Seven Stills was founded by Tim Obert and Clint Potter in August of 2013 in San Francisco.

We began by renting a 400 sq ft storage unit and contracting local brewery & distillery production space.

We quit our day jobs, invested \$50k of our savings, and began self-distributing in San Francisco.

By the end of 2014 we
had won two medals at
the World Spirits
Competition...

...were voted Zagat's
Top 30 Under 30...

...and secured a
distribution agreement
with Pacific Edge for sales
throughout the state of
California.

A MORE

In 2015 we completed our first financing round via friends & family and private lenders.

We moved out of the storage unit and opened a 4,400 sq.ft. brewery, distillery and tasting room in San Francisco's Bayview district.

We were the first distillery open to the public in San Francisco, and business took off.

With the increased cash flow, we opened our first satellite location in 2016, and generated \$1.2M in our first year.

By the end of 2016, we had grown from three people to a team of 18.

Adding craft beer to the mix

In October 2017 we expanded our portfolio to include a line of craft beers. The response was overwhelming. sales spiked again, with a projected natural growth of \$3.5M by the end of 2018.

so good I had to make a trip back

one of the best beers of 2018

believe the hype, these guys are getting it

They've been pumping out some killer brews lately

they haven't been in the beer game too long, but it sure tastes like they have

@sevenstills has been killing it

it's insane how much fire Seven stills has been putting out

like always @sevenstills delivered

really on point marketing... nice work @sevenstills ofsf

We've hired three sales
reps, one driver, a
logistics manager, and a
dedicated
marketing/social media
manager to support the
growth.

We've opened a second satellite bar atop San Francisco's Nob Hill, in the heart of the City's tourist and business center.

Our existing facility is now at capacity and we are turning down an average of 50 inquiries per week to carry our beers nationwide.

100 hooper

To keep up with the demand, we're now opening an 18,000 sq.ft. facility in the heart of San Francisco. This flagship brewery/distillery will also include a restaurant, cocktail bar, outdoor beer garden, retail merchandise & bottle shop, and private, rentable, hidden speakeasy bar.

To pay for the project, we raised another \$700k from our original investors, were granted a \$1.2m TI allowance from our developers, and received \$2.65m from our lender.

expansion

conservative estimates project this expansion to generate \$13.5m by the end of 2019, versus our natural growth trajectory of \$7m.

Upon completion of 100 Hooper in February 2019, we will have a combined capacity of 75k barrels per year with a \$250M+ valuation.
