BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

DWEALTH LLC (a registered Limited Liability Company in Texas) would utilize our mobile app DWEALTH for its operations. DWEALTH is the first app in Nigeria to connect retirement accounts, personal investments and bank information into one, and provide paperless account opening, transfer and funding process, investment planning based on goals, account management and automatic rebalancing, exposure to investing internationally and ease of beneficiary payout on death. It's also the first robo-advising app in the United States that enables users to purchase securities at fractional prices and not just limited to only stocks or ETFs.

More than 60% of public service Nigerians have a Retirement Account, and about 40% have investments in Nigerian stock. Over the past 6 years, investments in bonds and treasury bills have been on the rise, as well as an increased demand of investing internationally.

We've developed our first dummy prototype that conducts the test, selects a portfolio based on each investor's investment criteria (utilizing historical data).

Pension management in Nigeria is a flat fee (average is \$0.25). While private investment would be charged a 0.15% (annually) for portfolios above \$5,000, we hope to work with asset fund managers to offer a reduced management fee to users and get commissions, this way we provide our service to users for less.

Building on our success, we plan on creating a financial service for citizens of developing nations. We plan on expanding in other African countries first, and have our eyes set on south Asia. We see an opportunity in creating Personal Demand Deposit Account in addition to Investment Management Services. Developing Nations in Africa have investments valued at over \$460 Billion, with a portfolio growth at over 15% annual.

We see an opportunity to create a whole finance organization that's effective and runs online. Using the power of the internet, we're not limited to specific regions, and targeting groups not within the scope of major financial institutions, we're poised to be first and keep our leverage. With Sub-Sahara Africa heading to a \$29 Trillion market by 2050, Wealth in 2019 would be a key player in opening up this economy to the rest of the world.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

WE HAVE A LIMITED OPERATING HISTORY THAT YOU CAN USE TO EVALUATE US, AND THE LIKELIHOOD OF OUR SUCCESS MUST BE CONSIDERED IN LIGHT OF THE PROBLEMS, EXPENSES, DIFFICULTIES, COMPLICATIONS AND DELAYS FREQUENTLY ENCOUNTERED BY A SMALL DEVELOPING COMPANY.

We were organized in Texas in February 2018. We have limited financial resources and only limited revenues to date. The likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered by a small developing company starting a new business enterprise and the highly competitive environment in which we will operate. Since we have a limited operating history, we cannot assure you that our business will be profitable or that we will ever generate sufficient revenues to fully meet our expenses and totally support our anticipated activities. As such, the Company will be dependent upon its ability to finance its operations from the sale of equity or other financing alternatives. There can be no assurance that the Company will be able to successfully raise operating capital. The failure to successfully raise operating capital, and the failure to generate revenue from operations, could result in the bankruptcy of the Company or other event, which would have a material adverse effect on the Company. The Company has no significant assets or financial resources, so such adverse event could put your investment dollars at significant risk.

MEMBERS WILL HAVE NO CONTROL.

The membership units being offered have no voting rights and thus, the members will have no control over the decisions of the Company.

BECAUSE OF COMPETITIVE PRESSURES FROM COMPETITORS WITH MORE RESOURCES, WE MAY FAIL TO IMPLEMENT ITS BUSINESS MODEL PROFITABLY.

The financial planning business extremely competitive. The market for customers is intensely competitive and such competition is expected to continue to increase (see “Competition”). We believe that our ability to compete depends upon many factors within and beyond our control, including the timing and market acceptance of new solutions and enhancements to existing businesses developed by us, our competitors, and their advisors.

WE ARE DEPENDENT ON INVESTMENTS AND RETIREMENT ACCOUNTS INCREASING IN NIGERIA.

Our ability to generate revenue and be successful in implementing our business plan is in large part dependent on our ability to develop, produce, acquire and/or distribute our mobile financial investment and planning app to users in Nigeria. Fluctuations in Nigeria’s financial markets may cause an increase or decrease to our revenues.

WE ARE DEPENDENT ON THE APPROVAL OF A BROKER LICENSE TO SELL SECURITIES IN NIGERIA

Part of our business model involves acting as a broker-dealer for Nigerian citizens who wish to purchase US-based securities through our proprietary app. In order to do so, we have filed for the appropriate broker-dealer licenses in Nigeria and the United States which are currently pending approval. If either of our applications is not approved, we may not be able to achieve some or all of our business objectives.

WE MAY BE UNABLE TO COMPETE WITH LARGER OR MORE ESTABLISHED FINANCIAL PLANNING COMPANIES.

We face a large and growing number of competitors in the financial industry. Many of these competitors have substantially greater financial, technical and marketing resources, larger customer bases, longer operating histories, greater name recognition, and more established relationships in the industry than does the Company. As a result, certain of these competitors may be in better positions to compete with us for product and customers. We cannot be sure that we will be able to compete successfully with existing or new competitors.

WE MAY REQUIRE ADDITIONAL FINANCING IN ORDER TO IMPLEMENT OUR BUSINESS PLAN. IN THE EVENT WE ARE UNABLE TO ACQUIRE ADDITIONAL FINANCING, WE MAY NOT BE ABLE TO IMPLEMENT OUR BUSINESS PLAN RESULTING IN A LOSS OF REVENUES AND ULTIMATELY THE LOSS OF ANY SHAREHOLDER’S INVESTMENT.

Due to our limited operating history, we will have to use all our existing resources to complete and market our financial planning app products.

Following this offering we may need to raise additional funds to expand our operations. We may raise additional funds through private placements, registered offerings, debt financing or other sources to maintain and expand our operations. Adequate funds for this purpose on terms favorable to us may not be available, and if available, on terms significantly more adverse to us than are manageable. Without new funding, we may be only partially successful or completely unsuccessful in implementing our business plan, and our investors will lose part or all of their investment.

OUR PRODUCTS OR PROCESSES COULD GIVE RISE TO CLAIMS THAT OUR PRODUCTS INFRINGE ON THE RIGHTS OF OTHERS.

We are potentially subject to claims and litigation from third parties claiming that our products or processes infringe their patent or other proprietary rights. If any such actions are successful, in addition to any potential liability for damages, we could be required to obtain a license in order to continue to manufacture, use or sell the affected product or process. Litigation, which could result in substantial costs to us, may also be necessary to enforce our proprietary rights and/or to determine the scope and validity of the proprietary rights of others. Any intellectual property litigation would be costly and could divert the efforts and attention of our management and

technical personnel, which could have a material adverse effect on our business, financial condition and results of operations. We cannot assure you that infringement claims will not be asserted in the future or that such assertions, if proven to be true, will not prevent us from selling our products or materially and adversely affect our business, financial condition and results of operations. If any such claims are asserted against us, we may seek to enter into a royalty or licensing arrangement. We cannot assure you that a license will be available on commercially reasonable terms, or at all.

WE MAY BE SUBJECT TO CLAIMS OF TRADEMARK INFRINGEMENT, WHICH MAY HARM OUR BUSINESS.

We currently do not have any trademarks filed or protection of our intellectual property. We may be subject to legal proceedings alleging claims of trademark infringement in the future. If we must rebrand, it may result in significant marketing expenses and additional management time and resources, which may adversely affect our business.

Additionally, we cannot guarantee that our trademarks will be completely protected. This could cause harm to our brand and ultimately, to us. We could also spend additional time and resources fighting other entities that might infringe upon our trademarks.

WE MAY BE UNABLE TO SCALE OUR OPERATIONS SUCCESSFULLY.

Our plan is to grow rapidly. Our growth will place significant demands on our management and technology development, as well as our financial, administrative and other resources. We cannot guarantee that any of the systems, procedures and controls we put in place will be adequate to support the commercialization of our operations. Our operating results will depend substantially on the ability of our officers and key employees to manage changing business conditions and to implement and improve our financial, administrative and other resources. If we are unable to respond to and manage changing business conditions, or the scale of our products, services and operations, then the quality of our services, our ability to retain key personnel and our business could be harmed.

MR. ODUMUSI AND MR. AMUDA HAVE LIMITED EXPERIENCE IN THE FINANCIAL INDUSTRY AND MAY BE RELIANT ON CONSULTANTS AND OTHERS WHO HAVE GREATER MANAGEMENT EXPERIENCE. THIS COULD IMPACT OUR RETURN ON INVESTMENT, IF ANY.

Reliance on Mr. Odumusi and Mr. Amuda's limited experience in developing comparable businesses, puts our investors at risk in losing their entire investment. Manager intends to hire additional personnel in the future who will have the experience required to help manage our company, when the Company is sufficiently capitalized.

AS THERE IS NO PUBLIC MARKET FOR THE INTERESTS BEING SOLD, THEY ARE AN ILLIQUID INVESTMENT AND INVESTORS MAY NOT BE ABLE TO SELL THEIR INTERESTS.

No market currently exists for our securities and we cannot assure you that such a market will ever develop, or if developed, will be sustained.

Our membership interests are not currently eligible for trading on any stock exchange.

THIS PROSPECTUS CONTAINS FORWARD LOOKING STATEMENTS WHICH ARE SPECULATIVE IN NATURE.

This prospectus contains forward-looking statements. These statements relate to future events or our future financial performance. Forward looking statements are speculative and uncertain and not based on historical facts. Because forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, future results, levels of activity, performance, or achievements cannot be guaranteed.

OUR MANAGEMENT MAY NOT USE THE PROCEEDS OF THIS OFFERING EFFECTIVELY.

Our management has broad discretion over the use of proceeds from this offering. In addition, our management has not designated a specific use for a substantial portion of the proceeds from this offering. Accordingly, it is possible that our management may allocate the proceeds in ways that do not improve our operating results. In addition, these proceeds may not be invested to yield a favorable rate of return.

WE HAVE NOT PAID, AND DO NOT INTEND TO PAY, CASH DISTRIBUTIONS IN THE FORESEEABLE FUTURE.

We have not paid any cash distributions to our members and do not intend to pay cash distributions in the foreseeable future. We intend to retain future earnings, if any, for reinvestment in the development and expansion of our business. Cash distribution payments in the future may also be limited by other loan agreements or covenants contained in other securities that we may issue. Any future determination to pay cash distributions will be at the discretion of our managers and depend on our financial condition, results of operations, capital and legal requirements and such other factors as our managers deems relevant.
