1. Summary of Significant Accounting Policies

Nature of Business

The consolidated financial statements have been prepared to present the financial position and results of operations of the following related entities (collectively, the “Company”). The financial statement includes information from January 1, 2019 through December 31, 2020.

Audiobridge, Inc. was incorporated in the State of Delaware on March 1, 2019. The entity was previously a Virginia LLC registered in the Commonwealth of Virginia on April 19, 2018 under the name audiobridge LLC but was converted to a Delaware corporation on the above stated date.

audiobridge is revolutionizing how the world makes music by being mobile-first and mobile-only, bringing the professional recording studio process to the mobile devices that the majority of the world already uses every day. By combining modern software techniques with a carefully planning user experience, audiobridge will be the world’s first fully guided music creation platform, allowing creators to focus on the nuances of their song rather than the nuances of the software.

audiobridge, originally released as a product under CEO Matt Miller’s consultancy Miller Media LLC, became independent in 2018 and is headquartered in Walnut Creek, CA.

Fiscal Year

The Company operates on a December 31st year-end.

Principles of Consolidation and Basis of Accounting

The consolidated financial statements include the accounts of audiobridge LLC and Audiobridge, Inc. audiobridge LLC was the original California LLC entity under which the company operated but was converted to a Delaware C-Corporation on March 1, 2019. The accompanying consolidated financial statements have been prepared on the cash basis of accounting in accordance with accounting principles generally accepted in the United States (“GAAP”) as determined by the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”).

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management’s estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include, recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments purchased with maturities of three months or less to be cash equivalents. As of December 31, 2020, the Company held no cash equivalents.

Accounts Receivable

At December 31, 2020, the company currently has no accounts receivable.

Inventory

At December 31, 2020 the company has no physical inventory requirements for finished goods. All company product is virtual, including, but not limited to the customer-facing mobile application and proprietary codebase therein.

Employee Benefit Plans

The Company currently does not provide health insurance or life insurance to its employee. Paid vacation plans are applied as needed in accordance with the employee's state employment laws.

Intangible Assets

The Company has recorded intangible assets at cost. The intangible assets consist of the company trademark, proprietary software and R&D.

Foreign Currency

The financial statements are presented in United States Dollars, ("USD"), which is the reporting currency and the functional currency of the Company. In accordance with ASC 830, Foreign Currency Matters, foreign denominated monetary assets and liabilities are translated to their USD equivalents using foreign exchange rates which prevailed at the balance sheet date. Nonmonetary assets and liabilities are translated at exchange rate prevailing at the transaction date. Revenue and expenses were translated at the prevailing rate of exchange at the date of the transaction. Related translation adjustments are reported as a separate component of stockholders' equity/(deficit), whereas gains or losses resulting from foreign currency transactions are included in results of operations.

Concentrations of Credit Risk

With additional funding and monetization, cash balances, held at a major financial institution may exceed federally insured limits of \$250,000. Management believes that the financial institution is financially sound and the risk of loss is low.

Revenue Recognition

The Company characterizes itself as pre-revenue as of December 31, 2020 having not begun execution of a monetization strategy. The Company has recorded \$514.91 in revenue from inception through December 31, 2020 in the form of direct, fixed-price sales of the mobile application and fixed-price in-app purchases.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Research and Development

Research and development costs are expensed as incurred. Total expense related to research and development was \$379,156.80 from inception through December 31, 2020.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Office equipment is depreciated over five years. Repair and maintenance costs are charged to operations as incurred and major improvements are capitalized. The Company reviews the carrying amount of fixed assets whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a corporation in the federal jurisdiction of the United States. The Company sustained net operating losses during fiscal year 2019. Net operating losses will be carried forward to reduce taxable income in future years. Due to management's uncertainty as to the timing and valuation of any benefits associated with the net operating loss carryforwards, the Company has elected to recognize an allowance to account for them in the financial

statements but has fully reserved it. Under current law, net operating losses may be carried forward indefinitely.

The Company is subject to franchise and income tax filing requirements in the States of Delaware and California.

Fair Values of Financial Instruments

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgement regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

Leases

The Company does not currently have any lease commitments.

Long-term debt and available credit

The Company does not currently hold any long-term debt. The Company has available credit totalling \$12,000 minus any liabilities.

Investments

The Company does not currently have any investments or financial accounts outside of its operating accounts.

Deferred Compensation

The Company does not currently have any deferred compensation commitments.

Business Segments

The Company currently has one operating segment represented by the preceding Balance Sheet, Profit and Loss Statement and Statement of Cash Flows.

2. Commitments and Contingencies

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company or its members.

3. Property and Equipment

Property and equipment consisted of the following at December 31, 2020:

Property and equipment at cost:

Office equipment \$ 887.87

Depreciated over five years

Total \$ 177.57

4. Loans Receivable – Related Parties

No loans have been issued by the Company.

5. Equity

Common Stock

Under the articles of incorporation, the total number of common shares of stock that the Corporation shall have authority to issue is fifteen million (15,000,000). As of December 31, 2020, 9,949,500 shares have been issued and are outstanding.

Equity Based Compensation

The equity-based compensation plan authorizes 1,500,000 stock options to be granted. The remaining are available for future issuance. The Company maintains the following two vesting schedules:

1. One fourth (1/4th) of the shares subject to the option will vest on the one year anniversary of the Vesting Commencement Date and an additional one forty-eighth (1/48th) of the aggregate number of shares subject to the option will vest on the corresponding day of each month thereafter (or if there is no such corresponding day, on the last day of such month), subject to the Participant continuing to be an employee or Service Provider of the Company through each such date.
2. Three forty-eighths (3/48th) of the shares subject to the option will vest on the three month anniversary of the Vesting Commencement Date and an additional one forty-eighth (1/48th) of the aggregate number of shares subject to the option will vest on the corresponding day of each month thereafter (or if there is no such corresponding day, on the last day of such month), subject to the Participant continuing to be an employee or Service Provider of the Company through each such date.
3. One twenty-fourth (1/24th) of the shares subject to the option will vest on the one month anniversary of the Vesting Commencement Date and an additional one twenty-fourth (1/24th) of the aggregate number of shares subject to the option will vest on the corresponding day of each month thereafter (or if there is no such corresponding day, on the last day of such month), subject to the Participant continuing to be an employee or Service Provider of the Company through each such date.

6. Subsequent Events

The Company is in the process of granting 300,000 stock options to a current employee through a standard vesting schedule (#2 above) commencing on March 18, 2020. These options will fully vest on March 5, 2024.

The Company is also in the process of granting 150,000 stock options to a current employee through a standard vesting schedule (#3 above) commencing on May 27, 2020. These options will fully vest on May 27, 2022.
