BLOCK id

Jan 2018 – Present · 8 mos

Greater St. Louis Area

Trusted digital identity is critical to doing anything important in the new digital economy. Takeover of your identity can be catastrophic. When others have your sensitive information you are at risk as we have seen with the large scale breaches of "trusted" organizations. It is now time for individuals and organizations to take back control.

BLOCK id enables individuals and organizations to secure and manage their identity information and other private information in the cloud using Blockchain technologies and multi factor authentication.... See more

Noble

David Noble

Innovative Leader/ Team Builder/ Veteran

October 4, 2016, David worked with Paul but at different companies

Every time I meet with Paul, I am energized to work! I have greater clarity of purpose and my sense of direction has crystallized. This is because he is such an approachable person, I am at ease around him. Therefore I am able to express those projects that I am truly passionate about and when I see how excited I am, that is energizing. I know what I need to do and I know that my motivation to do so is connected to something deep within me.

Thanks again for taking the time to meet with this me this morning, Paul!
