FORM C-AR

Improper Goods Inc.

This Form C-AR (including the cover page and all exhibits attached hereto, the "Form C-AR") is being furnished by Improper Goods Inc., a Oregon Corporation (the "Company," as well as references to "we," "us," or "our") for the sole purpose of providing certain information about the Company as required by the Securities and Exchange Commission ("SEC").

**No federal or state securities commission or regulatory authority has passed upon the accuracy or adequacy of this document. The U.S. Securities and Exchange Commission does not pass upon the accuracy or completeness of any disclosure document or literature. The Company is filing this Form C-AR pursuant to Regulation CF (§ 227.100 et seq.) which requires that it must file a report with the Commission annually and post the report on its website at <https://thebitterhousewife.com/> no later than 120 days after the end of each fiscal year covered by the report. The Company may terminate its reporting obligations in the future in accordance with Rule 202(b) of Regulation CF (§ 227.202(b)) by 1) being required to file reports under Section 13(a) or Section 15(d) of the Exchange Act of 1934, as amended, 2) filing at least one annual report pursuant to Regulation CF and having fewer than 300 holders of record, 3) filing annual reports for three years pursuant to Regulation CF and having assets equal to or less than \$10,000,000, 4) the repurchase of all the Securities sold pursuant to Regulation CF by the Company or another party, or 5) the liquidation or dissolution of the Company.**

The date of this Form C-AR is April 19, 2024.

THIS FORM C-AR DOES NOT CONSTITUTE AN OFFER TO PURCHASE OR SELL SECURITIES.

***Forward Looking Statement Disclosure***

*This Form C-AR and any documents incorporated by reference herein or therein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C-AR are forward-looking statements. Forward-looking statements give the Company's current reasonable expectations and projections relating to its financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These*

statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C-AR and any documents incorporated by reference herein or therein are based on reasonable assumptions the Company has made in light of its industry experience, perceptions of historical trends, current conditions, expected future developments and other factors it believes are appropriate under the circumstances. As you read and consider this Form C-AR, you should understand that these statements are not guarantees of performance or results. They involve risks, uncertainties (many of which are beyond the Company's control) and assumptions. Although the Company believes that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect its actual operating and financial performance and cause its performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect or change, the Company's actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Any forward-looking statement made by the Company in this Form C-AR or any documents incorporated by reference herein or therein speaks only as of the date of this Form C-AR. Factors or events that could cause our actual operating and financial performance to differ may emerge from time to time, and it is not possible for the Company to predict all of them. The Company undertakes no obligation to update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

## About this Form C-AR

You should rely only on the information contained in this Form C-AR. We have not authorized anyone to provide you with information different from that contained in this Form C-AR. You should assume that the information contained in this Form C-AR is accurate only as of the date of this Form C-AR, regardless of the time of delivery of this Form C-AR. Our business, financial condition, results of operations, and prospects may have changed since that date.

Statements contained herein as to the content of any agreements or other document are summaries and, therefore, are necessarily selective and incomplete and are qualified in their entirety by the actual agreements or other documents.

## **SUMMARY**

The following summary is qualified in its entirety by more detailed information that may appear elsewhere in this Form C-AR and the Exhibits hereto.

Improper Goods Inc. (the "Company") is an Oregon Corporation, formed on January 1, 2018. The Company is currently also conducting business under the name of The Bitter Housewife.

The Company is located at 537 SE Ash St., Unit 102, Portland, OR 97214.

The Company's website is <https://thebitterhousewife.com/>.

The information available on or through our website is not a part of this Form C-AR.

## **The Business**

Maker of craft cocktail bitters and non-alcoholic adult beverages.

## **RISK FACTORS**

### **Risks Related to the Company's Business and Industry**

#### ***Uncertain Risk.***

An investment in the Company (also referred to as "we", "us", "our", or "Company") involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the common stock should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company.

#### ***Our business projections are only projections.***

There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our product, that people think it's a better option than a competing product, or that we will be able to provide the service at a level that allows the Company to make a profit and still attract business.

#### ***Any valuation at this stage is difficult to assess.***

The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

***The transferability of the Securities you are buying is limited.***

Any common stock purchased through this crowdfunding campaign is subject to SEC limitations of transfer. This means that the stock/note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an "accredited investor," as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce.

***Your investment could be illiquid for a long time.***

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the beverage industry. However, that may never happen, or it may happen at a price that results in you losing money on this investment.

***If the Company cannot raise sufficient funds, it will not succeed.***

The Company is offering common stock in the amount of up to \$1,070,000 in this offering and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds, sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

***We may not have enough capital as needed and may be required to raise more capital.***

We anticipate needing access to credit in order to support our working capital requirements as we grow. Although interest rates are low, it is still a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

***Terms of subsequent financings may adversely impact your investment.***

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Common Stock. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Common Stock. In addition, if we need to raise more equity capital from the sale

of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share.

***Management Discretion as to Use of Proceeds.***

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

***Projections: Forward Looking Information.***

Any projections or forward-looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants.

These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

***You are trusting that management will make the best decision for the company.***

You are trusting in management discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

***This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.***

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

***Our new product could fail to achieve the sales projections we expected.***

Our growth projections are based on an assumption that with an increased advertising and marketing budget our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

***We face significant market competition.***

We will compete with larger, established companies who currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that the products developed by us will be preferred to any existing or newly developed products. It should further be assumed that competition will intensify.

***We are an early-stage company and have not yet generated any profits.***

Improper Goods, Inc was formed on February 1, 2018. Accordingly, the Company has a limited history upon which an evaluation of its performance and future prospects can be made. Our current and proposed operations are subject to all business risks associated with new enterprises. These include likely fluctuations in operating results as the Company reacts to developments in its market, managing its growth and the entry of competitors into the market. We will only be able to pay dividends on any shares once our directors determine that we are financially able to do so. Improper Goods, Inc. has incurred a net loss and has had limited revenues generated since inception. There is no assurance that we will be profitable in the next 3 years or generate sufficient revenues to pay dividends to the holders of the shares.

***Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective.***

Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property and/or find prior art to invalidate it. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company's value will be materially and adversely impacted. This could also impair the Company's ability to compete in the marketplace. Moreover, if our trademarks and copyrights are deemed unenforceable, the Company will almost certainly, lose any potential revenue it might be able to raise by entering into sublicenses. This would cut off a significant potential revenue stream for the Company.

***The cost of enforcing our trademarks and copyrights could prevent us from enforcing them.***

Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not to enforce our trademark(s) or copyright(s) could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected.

***We rely on third parties to provide services essential to the success of our business.***

We rely on third parties to provide a variety of essential business functions for us, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and

distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance.

***The Company is vulnerable to hackers and cyber-attacks.***

As an internet-based business, we may be vulnerable to hackers who may access the data of our investors. Further, any significant disruption in service on Improper Goods, Inc or in its computer systems could reduce the attractiveness of the company and result in a loss of investors and companies interested in using our product. Further, we rely on a third-party technology provider to provide some of our back-up technology. Any disruptions of services or cyber-attacks either on our technology provider or on Improper Goods, Inc could harm our reputation and materially negatively impact our financial condition and business.

***Covid Related Risks.***

Covid restrictions on bars and restaurants may continue to curtail on premise sales. Opening of bars and restaurants may impact retail sales of cocktail and beverage related products.

***Supply Chain Risks.***

While the company has taken steps to source continued supply of packaging and other required ingredients and materials, covid, weather, international instability (wars), and market conditions continue to make supply chain concerns acute in 2022. There was a severe shortage in the summer of 2022 that cause us to be out of stock during peak summer months. These conditions may continue or worsen in the future.

***We could fail to achieve the growth rate we expect even with additional investments.***

We expect to generate a significant amount of growth from the investments we will make into marketing and distribution expansion following this offering and the private placement that we are conducting concurrently. However, it is possible that retail velocity will not increase as we expect. As a result, for that, or some other reason, our marketing efforts may not generate a significant increase in sales volume. If this is the case, we may be forced to cease this additional marketing spend and reduce our growth rate. A slower growth rate will lengthen the time it takes for us to achieve our revenue goals and reduce the value of the Company, thereby reducing the value of your investment.

***Additional Risks.***

While we have a high Accounts Receivable of \$86k, we currently do not have enough cash to cover revolving debt and rent expenses. We are in danger of default on several accounts, which may result in severe interruption in business operations.

***Needs.***

We need immediate refinancing of \$100k in short term debt and current obligations. Ideally, we would also secure an additional \$100k in long term financing to secure inventory and cover operating expenses to avoid using short term expensive debt to manage cashflow.

Failure to secure \$100k in the very short term puts the future of the company at risk. We had thought we had secured \$150k until last week, when the private lender backed out.

If you have any questions or concerns, please do not hesitate to reach out to us. Additionally, if you have any information on possible financing options please share. We are following every lead to see what we can secure.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

## **BUSINESS**

### **Description of the Business**

2021 was a year of big growth and transformation for The Bitter Housewife. We saw some significant wins highlighted below. 2022 started strong, but Q2 saw a drop in momentum and our overall challenges have hampered projected growth.

#### **Wins:**

In 2021 we nearly doubled the previous year's revenue to close the year over \$700k in revenue. We leaned deep into direct-to-consumer sales. Direct wholesale via Faire.com also took off adding 366 new independent retailers. We started moving towards a blended co-packing model with the intention of cutting overhead expenses and increasing production capacity. January 2022 brought a Bitters & Soda spotlight on the TODAY show!!!! (did you see us?)

New Products Launched: Sampler Kits #1 and #2 Bitters & Soda: Grapefruit and Cardamom  
Premium cocktail bitters: Rogue Dead Guy Chicory Bitters

#### **Challenges:**

Q4 2021 sales were hampered by out-of-stocks. This problem continues as supply chain issues continue to arise. We are also struggling to secure canning time with canners. Q2 2022 growth has not met projections and our direct-to-consumer sales have fallen off 40%. The expected overhead savings of copacking have not materialized as we haven't been able to sublet our warehouse.

#### **Bitters & Soda - Hard Decisions**

Contribution Margin of Bitters & Soda well behind Bitters While sales are growing, we have not grown enough to overcome significant cost of goods challenges. In addition, logistics and shipping costs have nearly doubled in the last 12 months, making it difficult to maintain margins on the Bitters & Soda.

Currently Bitters & Soda is 28% of revenue, and 19% of gross profit. The 11% Contribution Margin of Bitters & Soda is not inclusive of Performance Marketing (Social Media Advertising). When Performance Marketing is considered, Bitters & Soda contribution margin drops to about 1%.

In simple terms - the soda takes 80% of our efforts and results in no net profit. Bitters on the other hand, continue to grow in sales organically, have very large margins, and take far less our attention.

## **History of the Business**

We were originally an Oregon Partnership formed in 2014, we converted to an Oregon LLC in 2016, and then into an Oregon C-Corp in 2018.

## **Supply Chain and Customer Base**

We manufacture all our products in our own facility and fulfill out of our warehouse.

Our products are sold across the United States, Canada, and Japan at stores like William Sonoma, New Seasons, Market of Choice, and Safeway/Albertsons, as well as growing direct-to-consumer businesses online. We sell primarily via our distribution partners Crown Pacific, A Priori, and Point-Blank Distribution. We also sell direct to independent retailers via direct sales and B2B Markets such as Faire.

## **Intellectual Property**

The Company is dependent on the following intellectual property: None.

## **Litigation**

There are no existing legal suits pending, or to the Company's knowledge, threatened, against the Company.

## **Other**

## FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C-AR and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

## Operations

Increased distribution would help this issue by lowering our cost of goods and generally increasing revenue. However, the velocity of Bitters & Soda in retail has not returned to pre-covid levels. This creates a few challenges.

Selling into new stores isn't as easy, as we can't use evidence of high turns. Because of the competitive space and our lack of velocity, we are being asked to do Free Fills or Slotting Fees. The ROI on Slotting Fees is 8-9 months, which we can't support since we don't have cash on hand, nor margins to support.

Our efforts in the last 6 months have been directed to increase velocity as a cure to all of these issues. However, we have failed to move the needle on this.

It has come to the point where we need to make decisions on the future of Bitters & Soda. The brand is loved, and the product has found a strong fanbase. However, the costs to manufacture, combined with a lackluster velocity and many new entrants to the category have made continuing production a questionable strategy. Especially, in light of the general economic conditions, which we are not optimistic about.

If we had a significant infusion of capital we could pay slotting fees, increase marketing, expand distribution. This would allow us to decrease cogs while increasing revenue. We estimate however, this would need to be north of \$1 million dollars, and not something we see as viable.

Therefore, it is our conclusion that we should plan to discontinue the Bitters & Soda and focus on the higher margin product line. We still have inventory, so we plan to continue selling until at least the end of summer. This is extremely disappointing to us, but a cold recognition of our current state of business makes this an imperative decision.
