

Oz. Tap House Video Script

Hi my name is Krista Kanter my husband and I are excited to open up a craft beer restaurant with 40 taps on our craft beer wall and we're opening up in the River Place community and we love this community and this is what this community needs. Being in the restaurant business for 20 years I wanted to bring something invaluable to the community. I want to provide great local craft beers and great local food while also providing a great place for families to come together. We're really excited to be offering local craft beer along with local farm to market fresh produce and burgers and also to be partnering with lick ice cream. The reason behind the name Oz. House is that when you come in you get an RFID card and you can walk up to the beer wall and you can pour one ounce of all 40 beers if you like and you don't have to feel guilty about

tasting 40 beers and then you can take a
crowler with you to go take it to the
lake and we're excited that we have a
huge lawn out front where kids can run
and play we're gonna have lots of games
for them potato sack races and cornhole.
My husband and I are just excited to
offer this to the local community. So
follow us on Instagram like us on
Facebook and stay tuned for our grand
opening of November.
