 <b>Net loss</b>	 <u><u>\$ (2,682,291)</u></u>

**ONEDOME GLOBAL, INC.**  
**Notes to Financial Statements**  
**November 30, 2018**

These financial statements were prepared for internal purposes and have not been reviewed or audited by an independent CPA. There are known departures from US GAAP, as noted below. These statements were prepared prior to the regularly scheduled closing of November books, and as such are draft. November results are expected to change, with additional expenses and accruals to be recorded as outlined below.

1. Stock based compensation expense has not yet been calculated or recorded in the financial statements. There are many employees with stock options. Most but not all stock options have a one year cliff before vesting starts, and then vest evenly over 4 years. A full analysis has not yet been performed.

2. Nov. 30 YTD statements were produced on Dec. 12, which is ahead of the normal scheduled monthly close of the accounting period. As such, vendor invoices are still being received for November and our expenses and accounts payable are understated for the period by \$50,000 or more due to outstanding vendor invoices. November expenses and accounts payable (AP) will be updated accordingly as invoices are received as part of the normal financial statement close process and AP.

3. Depreciation expense is an estimate for 2018 and will be re-calculated at year end.

4. Vacation accrual has not yet been calculated or recorded. There are currently 43 active part-time and full time employees.

5. Product Development costs and initial Marketing costs likely meet the GAAP criteria for capitalization, however management has chosen not to capitalize them. A full analysis has not yet been performed.

6. Estimates were used in the preparation of these financial statements based on the best information available at the time. Circumstances could change that would impact these estimates, which could have an adverse effect on the results of the business. Management is not able to assess the likelihood, size or impact of such changes.
