3. We note your response to prior comment 17 and we reissue this comment. We note that the projected revenues for 2021 were \$230 million, as set forth in the unaudited prospective financial information Microvast's management prepared and provided to the Microvast Board, Microvast's financial advisors and Tuscan in connection with the evaluation of the Business Combination. We also note that your actual revenues for the year ended December 31, 2021, that you reported in your Form 10-K, was approximately \$152 million. You missed your 2021 revenue projection. Please update your disclosure here and elsewhere to address this.

General

4. On page 58, you refer to your business in Russia. Please describe the impact of Russia's invasion of Ukraine on your business. In addition to the general impact, please also consider the impact on your supply chain, any impact from sanctions and export controls and whether you will need to evaluate any aspects of your business for impairment. If the impact is not material, please explain why.
5. Please identify whether any export control restrictions and sanctions are applicable to your business and describe the impact on the company and investors.
6. If you conduct operations or have assets in Russia, consider disclosing the risk that the Russian government may nationalize your assets and quantifying the potential impact to your financial statements, if material.
