Distribution Rate

Reflects the initial quarterly distribution declared by the Fund's Board of directors on February 6, 2020, which was paid to stockholders of record as of June 10, 2020 and is based on the initial offering price of \$10 per share. The Fund's distribution may exceed its earnings. Therefore, a portion of the Fund's distribution may be a return of the money you originally invested and represent a return of capital to you for tax purposes. The Yieldstreet Prism Fund Distribution Rate Explained

The Yieldstreet Prism Fund (the "Fund") will make payments based on a distribution rate, which is different from quarterly interest payments paid from most of Yieldstreet's other asset class offerings. We want to make sure that the Yieldstreet Prism Fund's distribution rate process is completely transparent. For more information, please view a detailed breakdown below.

But, before we dive into the Yieldstreet Fund's distribution rate, let's first take a closer look at distribution rates in general.

What is the distribution rate?

Shareholders of a Closed-End Fund, such as the Yieldstreet Prism Fund, are typically paid dividends on a quarterly basis. We've set the rate of payment with the goal of creating a predictable quarterly distribution. We call this the Yieldstreet Prism Fund's distribution rate.

What is the Yieldstreet Prism Fund distribution rate and policy?

As noted on the Fund's offering page, the Yieldstreet Prism Fund's annualized distribution rate is 7%¹. Distributions are expected to be made quarterly, subject to the authorization of the Fund's board of directors. The board has declared the Fund's initial quarterly distribution.

The aim of the Yieldstreet Prism Fund is to provide its shareholders with quarterly distributions. If the Fund did not earn enough interest in the prior quarter to support the declared distribution, the difference would be made up of a return of the shareholder's principal.

How exactly would this work? Say the Fund earned 1.5% (6% annualized) in the prior quarter, net of fees. In the quarterly distribution, shareholders of the Fund would receive a 1.5% distribution and then, in addition, would have 0.25% of their principal returned to meet the predetermined 1.75% (7% annualized) distribution rate.

If my principal is returned do I still pay fees and expenses? No. If your principal, or a portion of your principal, is returned you will not pay either the 1% Annual Management Fee², the 0.5% Annual Administrative Fee³, or the 0.25% Estimated Leverage Expense⁴, on that portion of your capital. This is known as a "non-destructive return of capital." At Yieldstreet, we don't believe an investor should have to pay to receive their return of capital.

What if the Fund earns more than the distribution rate? In a scenario where the Fund earns greater than 7% annualized, net of fees, the excess would remain in the Fund. As a Closed-End Fund is required to distribute 90% of its earnings on an annual basis, we may choose to pay out a special dividend at the end of the year. As the Fund and its investments eventually terminate, the balance of the Fund will be distributed back to shareholders.

Can I reinvest my distributed dividends?

As mentioned above, the Fund will distribute dividends, as opposed to interest. Shareholders in the Yieldstreet Prism Fund will have the

Can I reinvest my distributed dividends?

As mentioned above, the Fund will distribute dividends, as opposed to interest. Shareholders in the Yieldstreet Prism Fund will have the opportunity to compound their earnings by reinvesting their dividends. When a shareholder chooses to reinvest dividends, this means that the dividend payments are automatically used to purchase additional shares of the Yieldstreet Prism Fund. There are a few different reasons shareholders may want to reinvest their dividends:

It's free with the Yieldstreet Prism Fund

When you reinvest your dividends with the Yieldstreet Prism Fund, the transaction is free. Shareholders are not charged a fee for reinvesting their dividends back into the Fund.

Your Earnings Compound

Just like compounding interest when it comes to your bank account, reinvesting your dividends allows your earnings to compound. In this situation, you are essentially earning 7%¹ from not only your initial principal, but also from your dividends. Finally, reinvesting your dividends enables you to potentially grow your wealth faster by decreasing cash drag in your investment portfolio.

Tax Efficiency

Another reason shareholders might want to reinvest their dividends is tax efficiency. Due to its tax status, the Yieldstreet Prism Fund is not taxed at the corporate level, so only the investor's distributions are taxed. As a result, the investor avoids double taxation, which is common with corporate stocks. In addition, investing in the Fund with your Yieldstreet IRA will enable you to either defer (Traditional IRA) or avoid (Roth IRA) tax on these earnings.

- 1 Reflects the initial quarterly distribution declared by the Fund's Board of directors on February 6, 2020, which was paid to stockholders of record as of June 10, 2020 and is based on the initial offering price of \$10 per share. The Fund's Board declared a distribution to stockholders in the amount of \$0.1750 per share to be paid on September 14, 2020 to stockholders of record as of September 10, 2020. The Fund's distribution may exceed its earnings. Therefore, a portion of the Fund's distribution may be a return of the money you originally invested and represent a return of capital to you for tax purposes.
- 2 The Fund will cease investing and seek to liquidate its remaining portfolio no later than 48 months after the Fund's initial closing. It may take up to twelve months thereafter to fully monetize any remaining illiquid investments in the Fund's portfolio.
- 3 The Fund intends to offer to repurchase shares from investors at the discretion of the Fund's Board and depending upon the performance of the Fund. The Fund will limit the number of shares to be repurchased in any calendar year to no more than 20% of the weighted average number of shares outstanding in the prior calendar year, or no more than 5% in each quarter. If the number of shares submitted for repurchase by investors exceeds the number of shares the Fund seeks to repurchase, the Fund will repurchase shares from investors on a pro-rata basis, and not on a first-come, first-served basis.
- 4 The management fee is calculated at an annual rate of 1.00% of the average of the Fund's net assets, excluding cash and cash-equivalents, at the end of the two most recently completed calendar quarters.
- 5 The Fund's administrator will provide facilities and administrative services necessary for the Fund to operate. The Fund has agreed to reimburse the administrator and its affiliates for the fees, costs and expenses incurred by the administrator and its affiliates in providing such services, up to 0.125% (0.50% annualized) of the Fund's net assets (excluding cash and cash equivalents), as determined as of the end of each calendar quarter. Please refer to the Fund's prospectus for additional information regarding this reimbursement.
- 6 The securities described in the prospectus are not offered for sale in the states of Nebraska or North Dakota or to persons residing or located in such states. No subscription for the sale of Fund shares will be accepted from any person residing or located in Nebraska or North Dakota.
- 7 The Yieldstreet Prism Fund is a non-diversified closed-end fund for the purposes of the Investment Company Act of 1940, as amended ("40 Act"), and is therefore not a "40 Act" diversified product.
- 8 As a result of the continued change in market conditions, and our current investment strategy, we do not intend to use any leverage for our portfolio Investments for the next twelve (12) months following August 6, 2020, as documented in the Prospectus.
