PROSPECTUS

**Minimum Offering of 1,500,000 Shares
Maximum Offering of 100,000,000 Shares**

YIELDSTREET PRISM FUND INC.

We are a newly-formed, externally managed, non-diversified, closed-end management investment company that has registered as an investment company under the Investment Company Act of 1940, as amended, or the "1940 Act." As such, we are required to comply with certain regulatory requirements. See "Regulation" in our statement of additional information, or "SAI." Our investment objective is to generate current income and, as a secondary objective, capital appreciation. On March 9, 2020, we completed our initial closing, selling the minimum number of shares required pursuant to this offering, and raised approximately \$15,400,000 in gross proceeds.

We intend to seek to achieve our investment objective by primarily investing in debt securities and other credit instruments across multiple sectors, either directly or through separate investment structures or vehicles that provide us with exposure to such securities, which we refer to collectively as "Credit Investments." Such Credit Investments may include instruments directly or indirectly secured by real or personal property. We may also acquire Credit Investments that include, but are not limited to, automotive loans, corporate loans, receivable financing, litigation financing, art financing, oil and gas financing, purchase order financing, consumer loans, retail point of sale financing, marine and shipping finance, aircraft leasing and financing, asset based financing, working capital loans, cash flow loans, short term loans, merchant cash advances, equipment financing, residential and commercial loans and mortgages, loan participations and assignments, and delayed funding loans and credit facilities, as well as instruments that are directly or indirectly secured by such assets, including in certain cases participation interests in the underlying loans, which we refer to as "Participation Interests." The Credit Investments may be of any type, including those with fixed, floating or variable interest rates, those with interest rates that change based on multiples of changes in a specified reference interest rate or index of interest rates and those with interest rates that change inversely to changes in interest rates, as well as those that do not bear interest, and may be of any maturity or duration. Our exposure to below investment grade instruments involves certain risks, including speculation with respect to the issuer's capacity to pay interest and repay principal when due, and are commonly referred to as "junk bonds" or "high yield securities." In addition to Credit Investments, we may also selectively acquire equity or similar ownership interests in assets of the type underlying the Credit Investments we intend to target, including, without limitation, real estate, litigation financing, securitizations or structured investments and merchant cash advances secured by cash flow or future earnings, which we refer to as "Equity Investments." We refer to our Credit Investments and Equity Investments together collectively as our "Investments." We have the flexibility to allocate assets across various segments of the securities markets and may focus on particular countries, regions, asset classes and sectors to the exclusion of others at any time and from time to time. While we expect that a substantial portion of our Investments will be in the United States, we will also acquire Investments that are located outside the United States or that are directly or indirectly secured by assets located outside the United States, including in emerging markets. Risks may be more pronounced for portfolio companies located or operating primarily in emerging markets, whose economies, markets and legal systems may be less developed.

An investment in our shares is not suitable for investors that require short-term liquidity:

i

- Our shares have no history of public trading and will not be publicly traded and you should not expect to be able to sell your shares regardless of how we perform.
- If you are able to sell your shares, you will likely receive less than your purchase price.
- Our shares are not currently listed on any securities exchange, and you should not rely on a secondary market in the shares developing in the foreseeable future, if ever.
- We intend to, but are not obligated to, implement a share repurchase program, but only a limited number of shares will be eligible for repurchase by us.
- You will have no right to require us to repurchase your shares or any portion thereof. See "Share Repurchase Program."
- Accordingly, you should consider that you may not have access to the money you invest until we cease our investment operations and liquidate our remaining portfolio, which will not occur until four years following March 9, 2020, the date on which we initially accepted subscriptions from investors in connection with this offering (the "Initial Closing").
- This offering will be complete when we have sold the maximum number of shares offered hereby, or earlier in the event we determine in our sole discretion to cease offering additional shares for sale to investors.
- Although we intend to cease our investment operations and will seek to liquidate our remaining investment portfolio beginning four years following the Initial Closing in connection with this offering, which we refer to as our "termination date," it may take up to twelve months thereafter to fully monetize any remaining illiquid investments in our portfolio.

Accordingly, you may be unable to sell your shares and receive proceeds until at least four years following our Initial Closing (which may be later than the date on which we close the offering on March 9, 2020).

We may invest any amount of assets in securities, including residential or commercial mortgages, of any
