The new issue of securities that the “Qualified Purchasers” and/ or DTC will be dealing with in this transaction are Commercial Paper Notes; Book-Entry-Only Issue. Said issue of securities falls under Article 8 of the N.Y. U.C.C. governing Investment Securities. Article 8 as it relates to this transaction provides clarity regarding the definition of Issuer and Security. Also, under Article 8 the transfer of the issue may be registered upon books as a “Book-Entry” on behalf of the Issuer. The Put/Tender Feature will be elected to provide greater marketability to Qualified Institutional Buyers, which will give them the right to resell the issue at a predetermined price if the value of the issue falls below said price prior to the expiration of the put option. The new issue of securities falls under Rule 144A, a safe harbor from the registration requirements of the Securities Act of 1933 for certain private resale’s of restricted securities to Qualified Institutional Buyers (QIB). Because the issue is eligible for domestic resale under Rule 144A, the issue is eligible for resale under Regulation S by election of the issuer. This allows for greater marketability amongst Foreign Qualified Institutional Buyers. Regulation S provides safe harbor for the sale and resale of securities, potentially deemed to come to rest abroad, to and between foreign QIB’s; hence, not subject to the registration obligations impose under section 5 of the 1933 Act. Foreign Qualified Institutional Buyers may purchase from U.S. Corporations but only sell to other foreign Qualified Institutional Buyers. The ’33 Act is the Securities Act of 1933, and as amended, which established regulation for the offer and sale of securities in response to the market crash of 1929 and conditions thereafter. It requires that any offer or sale of securities using the means of instrumentality of interstate commerce be registered unless an exemption from registration exists under the law. The company understands that “All issuers” of securities deposited at DTC are required to adhere to the requirements stated in the DTC’s Operational Arrangements and are obligated among other things, to follow precisely the procedures outlined in the Agreements and provide DTC with complete and accurate information. In connection with utilizing DTC’s services, the company comprehends that it must comply with all applicable laws, including all applicable laws relating to securities, taxation, and money laundering, as well as sanctions administered and enforced by the Office of Foreign Assets Control (“OFAC”). Pursuant to Rule 144A of the 33 Act; hence, said securities may be sold or resold to “Qualified Purchasers”. Said services would consist of certain particulars that must be satisfied per DTC’s Operational Arrangements. The company’s core objective is to utilize proceeds and to collaborate with other companies who are interested on setting forth global humanitarian projects with the purpose of providing sustainable relief for under privileged individuals around the world. Examples of said projects notwithstanding would consist of providing solar and wind energy, organic food(s), clean drinkable water, affordable housing, clothing, and employment opportunities. In conclusion, the Company understands the importance of positioning one’s self in a favorable outcome where equality is considered justifiable. For instance, offer and exchange is rendered to the company, the company renders services to the issuers and in return, at the discretion of the company, global humanitarian projects are institutionalized in order to provide sustainable relief for under privileged individuals around the world. The company is looking forward on establishing a business relationship with “Qualified Purchasers” as well as the DTCC in order to meet said company’s objective.

Article 8 as it relates to this transaction provides clarity regarding the definition of Issuer and Security. Also, under Article 8 the transfer of the issue may be registered upon books as a “Book-Entry” on behalf of the Issuer. The Put/Tender Feature will be elected to provide greater marketability to Qualified Institutional Buyers, which will give them the right to resell the issue at a predetermined price if the value of the issue falls below said price prior to the expiration of the put option.

The new issue of securities falls under Rule 144A, a safe harbor from the registration requirements of the Securities Act of 1933 for certain private resale’s of restricted securities to Qualified Institutional Buyers (QIB). Because the issue is eligible for domestic resale under Rule 144A, the issue is eligible for resale under Regulation S by election of the issuer. This allows for greater marketability amongst Foreign Qualified Institutional Buyers. Regulation S provides safe harbor for the sale and resale of securities, potentially deemed to come to rest abroad, to and between foreign QIB’s; hence, not subject to the registration obligations impose under section 5 of the 1933 Act. Foreign Qualified Institutional Buyers may purchase from U.S. Corporations but only sell to other foreign Qualified Institutional Buyers. The ’33 Act is the Securities Act of 1933, and as amended, which established regulation for the offer and sale of securities in response to the market crash of 1929 and conditions thereafter. It requires that any offer or sale of securities using the means of instrumentality of interstate commerce be registered unless an exemption from registration exists under the law.

Risks Related to Our Business and Industry

General Economic Conditions

The Company’s success is based in large part upon the results of the economy in general. Changes in the general economic conditions, including broad economic downturns and economic expansions, including changes in federal or governmental regulations, may affect the value of the Company. Changes in the European and world economy from time to time may have an adverse or favorable impact on the profitability of the Company.

Operating History

The TIMOTHY RAY HOWARD II WHFIT has only a short operating history. As a result, we have very little operating history to aid in assessing our prospects. We will encounter risks and difficulties as an early-stage company in a rapidly evolving, and often volatile, market. We may not be able to successfully address these risks and difficulties, which could materially harm our business and operating results.

The Date of This Offering Memorandum is September 21, 2021

Management of Growth

The TIMOTHY RAY HOWARD II WHFIT has experienced, and continues to experience, growth in our headcount and operations, which has placed, and will continue to place, significant demands on our management, operational, and financial infrastructure. If we do not effectively manage our growth, the quality of our products and services could suffer, which could negatively affect our brand and operating results. Our expansion and operations throughout the United States and beyond heightens these risks as a result of the particular challenges of supporting a growing business in an environment of varying cultures, customs, legal systems, alternative dispute systems, regulatory systems and commercial infrastructures. To effectively manage this growth, we will need to continue to improve our operational, financial and management controls and our reporting systems and procedures. These systems enhancements and improvements will require significant capital expenditures and management resources. Failure to implement these improvements could hurt our ability to manage our growth and our financial position.

Brand Enhancement

Our business will depend on a strong brand and failing to maintain and enhance our brand would hurt our ability to expand our base of clients and partners. We believe that the importance of brand recognition will increase due to the relatively low barriers to entry in the various markets that we intend to enter. If we fail to maintain and enhance our brand, or if we incur excessive expenses in this effort, our business, operating results and financial condition will be materially and adversely affected. Maintaining and enhancing our brand will depend largely on our ability to be an industry leader and to continue to provide high-quality products and services, which we may not do successfully.

Risks associated with expansion

Any expansion of operations the Company may undertake will entail risks such actions may involve specific operational activities which may negatively impact the profitability of the Company. Consequently, Note holders must assume the risk that (i) such expansion may ultimately involve expenditures of funds beyond the resources available to the Company at that time, and (ii) management of such expanded operations may divert Management's attention and resources away from its existing operations, all of which factors may have a material adverse effect on the Company's present and prospective business activities.

Unanticipated obstacles to the execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

Risks Related to Management

Reliance on Management

The Agent, who is the acting CEO, has sole responsibility and authority for all decisions in connection with the management of The TIMOTHY RAY HOWARD II WHFIT. Investors will have a limited right to participate in the management of the Company. The capital required by the Company to commence operations and carry on its business is being sought entirely from the proceeds of the Offering.

Our business may suffer if we lose key personnel

We depend to a large extent on the services of certain key management personnel, including our President, Howard II, Timothy Ray and Tarjsha Lashon Howard, our Vice President/ Secretary. These individuals have extensive experience and expertise in project and business management. Additionally, our success is dependent on our ability to continue to employ and retain skilled technical personnel. The loss of Howard II, Timothy Ray or Tarjsha Lashon Howard or other key personnel could have a material adverse effect on our business, financial condition and results of operations.

The Date of This Offering Memorandum is September 21, 2021

Management discretion as to use of proceeds

The net proceeds from this Offering will be used for the purposes described under “Use of Proceeds.” The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Noteholders in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management, in particular, the Chairman, with respect to application and allocation of the net proceeds of this Offering. Investors for the Securities offered hereby will be entrusting their funds to the Company’s Management, upon whose judgment and discretion the investors must depend.

Risks Related to this Offering

No independent appraisal

The Company is consummating sale or pledge of the Bond based upon the purchase price noted in the Subscription Agreement and after Subscribers have received all information, they deem necessary to make an informed decision as to agree to the terms of the transaction. The price at which the Bond is being purchased or pledged was determined by an arms-length transaction and the Company’s negotiating position and the final agreed upon purchase price may bear no relationship to the assets, book value, earnings or net worth of the Company. No independent appraisal has been prepared for evaluating the Company’s securities or the net worth of the Company and the Company does not intend to obtain any such appraisal. Consequently, the purchase price should not be considered an indication of the actual value of the Company and no assurance is given that the Bond or underlying securities, if transferable by the Company or the investor, may be sold for the purchase price negotiated or for any other amount.

Control by management

The Company’s directors, officers and affiliates control a majority of the outstanding shares on a fully diluted basis, excluding any options reserved for employees or warrants issuable to investors or any placement agents. As a result, the directors, officers and affiliates will have significant voting power when electing the board of directors, which in turn influences the policies of the Company.

Future capital needs; Uncertainty of additional funding

Management of The TIMOTHY RAY HOWARD II WHFIT currently anticipates that the net proceeds of the Offering will be enough to meet its marketing, design evolution and other working capital requirements through the first stages of its business development plan. Future capital may be required. The Company may need to raise additional funds to sustain its development activities, particularly if there is a major shift in marketplace. Adequate funds may not be available on terms favorable to the Company, if at all, to deal with such issues.

Risks related to our securities

An investment in the Securities may be long term and illiquid. As discussed above, the offer and sale of the Securities will not be registered under the Securities Act or any foreign or state securities laws by reason of exemptions from such registration which depends in part on the investment intent of the investors. Prospective investors will be required to represent in writing that they are purchasing the Securities for their own account for long-term investment and not with a view towards resale or distribution. Accordingly, purchasers of Securities must be willing and able to bear the economic risk of their investment for an indefinite period. It is likely that investors will not be able to liquidate their investment in the event of an emergency.

Restrictions on transfer of Bond; lack of market

All persons who purchase the Bond offered hereby will be required to execute a Subscription Agreement, the form of which is attached hereto as Exhibit A, which provides, in part, that a purchaser may not sell, transfer, pledge, or otherwise dispose of any of such securities in the absence of an effective registration statement covering such transaction under the Securities Act and applicable state securities laws, or the receipt by the Company of an opinion of counsel to the effect that registration is not required.

The Date of This Offering Memorandum is September 21, 2021

Transfers of the Company's securities may be restricted by state securities "blue sky" laws

Transfers of the Company's Bond may be restricted under the securities or securities regulations and laws promulgated by various states and foreign jurisdictions, commonly referred to as "blue sky" laws. Absent compliance with such individual state laws, the Company's Bond may not be traded in such jurisdictions. Because the securities registered hereunder have not been registered for resale under the blue sky laws of any state, the holders of such securities and persons who desire to purchase them should be aware that there may be significant state blue sky law restrictions upon the ability of investors to sell the securities and of purchasers to purchase the securities. These restrictions may prohibit the secondary trading of the Company's Bond. Investors should consider the secondary market for our securities to be a limited one.

The Company's officers and directors have limited liability and have indemnity rights which may discourage stockholders from bringing an action against them

The Company has agreed to indemnify the Company's officers and directors against losses sustained or liabilities incurred which arise from any transaction in that officer's or director's respective managerial capacity unless that officer or director violates a duty of loyalty, did not act in good faith, engaged in intentional misconduct or knowingly violated the law, approved an improper dividend, or derived an improper benefit from the transaction. The Company also provides for the indemnification by the Company of its officers and directors against any losses or liabilities incurred as a result of the manner in which the officers and directors operate the business or conduct the Company's internal affairs, provided that in connection with these activities they act in good faith and in a manner which they reasonably believe to be in, or not opposed to, the Company's best interests of and their conduct does not constitute gross negligence, misconduct or breach of fiduciary obligations. The existence of these provisions may discourage holders of our Common Stock from bringing an action against management because the Company may be responsible for paying all costs associated therewith, which could negatively impact the value of the Bond.

No requirement to adopt certain corporate governance measures

The Sarbanes-Oxley Act of 2002, as well as rule changes proposed and enacted by the Commission, the New York and American Stock Exchanges and the NASDAQ Stock Market as a result of Sarbanes-Oxley, require the implementation of various measures relating to corporate governance. These measures are designed to enhance the integrity of corporate management and the securities markets and apply to securities which are listed on those exchanges or the NASDAQ Stock Market. Because the Company is not presently required to comply with many of the corporate governance provisions and because it chose to avoid incurring the substantial additional costs associated with such compliance any sooner than necessary, it has not yet adopted these measures. As of the date of this Offering Memorandum, the Company is not in compliance with requirements relating to the distribution of annual and interim reports, the holding of stockholders' meetings and solicitation of proxies for such meeting and requirements for stockholder approval for certain corporate actions. Until the Company complies with such corporate governance measures, regardless of whether such compliance is required, the absence of such standards of corporate governance may leave the Company's stockholders without protections against interested director transactions, conflicts of interest and similar matters and investors may be reluctant to provide the Company with funds necessary to expand its operations.

There can be no assurance that this Offering qualifies for exemption from federal registration

This Offering is being made in reliance upon the "private placement" exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended and Rule 144A promulgated pursuant thereto. Reliance on these exemptions does not, however, constitute a representation or guarantee that such exemptions are indeed available. If for any reason this Offering is deemed to be a public offering of the Company's securities (and if no other exemption from registration is available) and the offered Bond and underlying securities are not registered or qualified with the applicable federal or state authorities, the sale of the offered Bond and underlying securities would be deemed to have been made in violation of the applicable laws requiring registration of the offered securities and the delivery of a prospectus. As a remedy in the event of such violation, each purchaser of the offered securities would have the right to rescind his or her purchase of the offered securities and to have his or her purchase price returned. If such a purchaser requests a return of his or her purchase price, funds might not be available for that purpose. In that event, liquidation of the Company might be required. Any refunds made would reduce funds available for our working capital needs. A significant number of requests for rescission would probably cause the Company to be without funds sufficient to respond to such requests or successfully to proceed with our activities. The Company does not currently plan but may use placement agents consistent with state and federal exemptions from registration. In certain circumstances payment to agents could result in the loss of an exemption and would give rise to all of the aforementioned risks.

This Offering is being placed on a “best efforts” basis only and the Company may not raise the entire \$10,000,000,000.

The Bond is being marketed by the Company on a “best efforts” basis only. There is no commitment, firm or otherwise, on the part of anyone to purchase any of the Bond and the Company has the right to close the sale of any Bond sold at any time following receipt of any subscriptions and without any minimum sale required. As a result of this flexibility, the Company may not obtain all of the funds required to fund all of the proposed uses of proceeds as identified in the Use of Proceeds section of this Offering Memorandum, and the Company may, therefore, find itself without sufficient working capital despite having closed on a portion of this Offering.

No underwriter’s due diligence to confirm the accuracy of the disclosures contained herein.

Because this Offering is being conducted on a self-underwritten basis, you will not have the benefit of an underwriter’s due diligence to confirm the accuracy of the disclosures made in this Offering Memorandum.

If the Company pay finder’s fees to persons who are found to have been acting as unregistered broker dealers in violation of the Securities and Exchange Act of 1934 and/or state securities laws, the Company may subject to consequences that could have an adverse impact on its financial position.

During the course of this Offering the Company may in the future engage one or more finders to assist it in the placement of the Bond who may receive finder’s fee compensation of up to three percent (3%) of the offering price of the Bond that is purchased by investors that they introduce to us. To the extent that the activities of these finders are found to require registration as a broker/dealer by either state or federal securities administrators, the failure of the finders to be so registered could result in adverse consequences both to the finders and to us. These consequences could include: (1) criminal or civil enforcement actions; (2) monetary fines or penalties; (3) rescission of the sale of the securities to investors who purchased securities as a result of the efforts of those finders; and (4) injunctions against future violations of state and/or federal securities laws. If the Company was subject to one or more of these consequences, that event could have a material adverse impact on its financial results and capital position, and it could make it more difficult or expensive for the Company to register or sell its securities or raise capital in the future.

BOOK-ENTRY; DELIVERY AND FORM

The Bond is eligible for resale to any purchaser who is a qualified institutional buyer (each a “QIB”) as defined in Rule 144A of the Securities Act. The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the Bond. The Bond will be issued as fully registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Security certificate will be issued for the Bond, in the principal amount of such issue, and will be deposited with DTC. DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 2.2 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instrument from over 100 countries that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, FICC, and EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has Standard & Poor’s highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC’s records. The ownership interest of each actual purchaser of each Security (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered the transaction.

The Date of This Offering Memorandum is September 21, 2021

Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except if use of the book-entry system for the Securities is discontinued. To facilitate subsequent transfers, all Bond deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Bond with DTC and their registration in the name of Cede & Co. or such other nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bond; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bond is credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bond may wish to take certain steps to augment transmission to them of notices of significant events with respect to the Securities, such as tenders, defaults, and proposed amendments to the security documents. For example, Beneficial Owners of Bond may wish to ascertain that the nominee holding the Bond for their benefit has agreed to obtain and transmit notices to Beneficial Owners, in the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them. Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Bond unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bond is credited on the record date (identified in a listing attached to the Omnibus Proxy). DTC may discontinue providing its services as securities depository with respect to the Bond at any time by giving reasonable notice to Issuer or Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Security certificates are required to be printed and delivered. Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that Issuer believes to be reliable, but Issuer takes no responsibility for the accuracy thereof.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

TO ENSURE COMPLIANCE WITH TREASURY DEPARTMENT CIRCULAR 230, PROSPECTIVE HOLDERS ARE HEREBY NOTIFIED THAT: (A) ANY DISCUSSION OF UNITED STATES FEDERAL TAX ISSUES IN THIS OFFERING MEMORANDUM IS NOT INTENDED OR WRITTEN TO BE RELIED UPON, AND CANNOT BE RELIED UPON, BY HOLDERS OF BOND FOR THE PURPOSE OF AVOIDING PENALTIES THAT MAY BE IMPOSED ON SUCH HOLDERS UNDER THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"); (B) SUCH DISCUSSION IS WRITTEN IN CONNECTION WITH THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) PROSPECTIVE HOLDERS OF BOND SHOULD SEEK ADVICE BASED ON THEIR PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

The following discussion summarizes certain U.S. federal income tax considerations that may be relevant to the acquisition, ownership and disposition of the Bond. This discussion is based upon the provisions of the Code, applicable U.S. Treasury Regulations promulgated thereunder, judicial authority and administrative interpretations, as of the date of this document, all of which are subject to change, possibly with retroactive effect, or are subject to different interpretations. We cannot assure you that the Internal Revenue Service, or the IRS, will not challenge one or more of the tax consequences described in this discussion, and we have not obtained, nor do we intend to obtain, a ruling from the IRS or an opinion of counsel with respect to the U.S. federal tax consequences of acquiring, holding or disposing of the Bond.

This discussion is limited to holders who purchase the Bond in this offering for a price equal to the issue price of the Bond (i.e., the first price at which a substantial amount of the Bond is sold other than to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and who hold the Bond as capital assets (generally, property held for investment). This discussion does not address the tax considerations arising under U.S. federal estate or gift tax laws or the laws of any foreign, state, local or other jurisdiction. In addition, this discussion does not address all tax considerations that may be important to a holder considering the holder's circumstances, or to certain categories of investors that may be subject to special rules, such as:

The Date of This Offering Memorandum is September 21, 2021

- dealers in securities or currencies.
- traders in securities that have elected the mark-to-market method of accounting for their securities.
- U.S. holders (as defined below) whose functional currency is not the U.S. dollar.
- persons holding Bond as part of a hedge, straddle, conversion or other “synthetic security” or integrated transaction.
- U.S. expatriates.
- financial institutions.
- insurance companies.
- regulated investment companies.
- real estate investment trusts.
- persons subject to the alternative minimum tax.
- entities that are tax-exempt for U.S. federal income tax purposes; and
- partnerships and other pass-through entities and holders of interests therein.

If any entity treated as a partnership for U.S. federal income tax purposes holds Bond, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership acquiring the Bond, you are urged to consult your own tax advisor about the U.S. federal income tax consequences of acquiring, owning and disposing of the Bond.

INVESTORS CONSIDERING THE PURCHASE OF BOND ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP OR DISPOSITION OF THE BOND UNDER U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR FOREIGN JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

In certain circumstances, we may elect or be obligated to pay amounts on the Bond that are in excess of stated interest or principal on the Bond. We do not intend to treat the possibility of paying such additional amounts as causing the Bond to be treated as “contingent payment debt instruments” within the meaning of U.S. Treasury Regulations. However, additional income will be recognized if any such additional payment is made. Our determination that the Bond is not contingent payment debt instruments is binding on you unless you disclose your contrary position to the IRS in the manner that is required by applicable U.S. Treasury Regulations. Our determination, however, is not binding on the IRS, and it is possible that the IRS may take a different position, in which case you might be required to accrue interest income at a higher rate than the stated interest rate and to treat as ordinary interest income any gain recognized on the sale, exchange, retirement or other taxable disposition of the Bond. The remainder of this discussion assumes that the Bond will not be treated as contingent payment debt instruments.

Tax Consequences to U.S. Holders

- You are a “U.S. holder” for purposes of this discussion if you are a beneficial owner of a Bond and you are for U.S. federal income tax purposes:
 - An individual who is a U.S. citizen or U.S. resident alien.
 - A corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, that was created or organized in or under the laws of the United States, any state thereof or the District of Columbia.
 - An estate whose income is subject to U.S. federal income taxation regardless of its source; or
 - A trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or that has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a U.S. person.

Interest on the Bond

Interest on the Bond generally will be taxable to you as ordinary income at the time it is received or accrued in accordance with your regular method of accounting for U.S. federal income tax purposes.

Disposition of the Bond

You will generally recognize capital gain or loss on the sale, exchange, retirement or other taxable disposition of a Bond. This gain or loss will equal the difference between your adjusted tax basis in the Bond and the proceeds you receive (excluding any proceeds attributable to accrued but unpaid stated interest which will be recognized as ordinary interest income to the extent you have not previously included such amounts in income). The proceeds you receive will include the amount of any cash and the fair market value of any other property received for the Bond. Your adjusted tax basis in the Bond will generally equal the amount you paid for the Bond. The gain or loss will be long-term capital gain or loss if you held the Bond for more than one year at the time of the sale, exchange, retirement or other taxable disposition. Long-term capital gains of individuals, estates and trusts generally are subject to a reduced rate of U.S. federal income tax. The deductibility of capital losses is subject to limitation.

The Date of This Offering Memorandum is September 21, 2021

Information Reporting and Backup Withholding

Information reporting will apply to payments of interest on, and the proceeds of the sale, exchange, retirement or other taxable disposition of, Bond held by you, and backup withholding may apply to such payments unless you provide the withholding agent with a taxpayer identification number, certified under penalties of perjury, as well as certain other information. Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules is allowable as a credit against your U.S. federal income tax liability, if any, and a refund may be obtained if the amounts withheld exceed your actual U.S. federal income tax liability and you timely provide the required information or appropriate claim form to the IRS.

New Legislation

For taxable years beginning after December 31, 2012, newly enacted legislation is scheduled to impose a 3.8% tax on the “net investment income” of certain U.S. citizens and resident aliens, and on the undistributed “net investment income” of certain estates and trusts. Among other items, “net investment income” would generally include gross income from interest and, net gain from the sale, exchange, retirement or other taxable disposition of a Bond, less certain deductions.

Tax Consequences to Non-U.S. Holders

You are a “non-U.S. holder” for purposes of this discussion if you are a beneficial owner of Bond that is an individual, corporation, estate or trust that is not a U.S. holder.

Interest on the Bond

Payments to you of interest on the Bond generally will be exempt from withholding of U.S. federal income tax under the “portfolio interest” exemption if you properly certify as to your foreign status as described below, and:

- You do not own, actually or constructively, 10% or more of the capital or profits interests of TIMOTHY RAY HOWARD II WHFIT.
- You are not a “controlled foreign corporation” that is related to the Company.
- You are not a bank whose receipt of interest on the Bond is in connection with an extension of credit made pursuant to a loan agreement entered into in the ordinary course of your trade or business; and
- Interest on the Bond is not effectively connected with your conduct of a U.S. trade or business.

The portfolio interest exemption and several of the special rules for non-U.S. holders described below generally apply only if you appropriately certify as to your foreign status. You can generally meet this certification requirement by providing a properly executed IRS Form W-8BEN (or successor form) to the withholding agent. If you hold the Bond through a financial institution or other agent acting on your behalf, you may be required to provide appropriate certifications to the agent. Your agent will then generally be required to provide appropriate certifications to the withholding agent, either directly or through other intermediaries. Special rules apply to foreign estates and trusts, and, in certain circumstances, certifications as to foreign status of trust owners or beneficiaries may have to be provided to the withholding agent. In addition, special rules apply to qualified intermediaries that enter into withholding agreements with the IRS.

If you cannot satisfy the requirements described above, payments of interest made to you will be subject to U.S. federal withholding tax at a 30% rate, unless you provide the withholding agent with a properly executed IRS Form W-8BEN (or successor form) claiming an exemption from (or a reduction of) withholding under the benefit of a tax treaty (in which case, you generally will be required to provide a U.S. taxpayer identification number), or the payments of interest are effectively connected with your conduct of a trade or business in the United States and you meet the certification requirements described below. See “—Tax Consequences to Non-U.S. Holders—Income or Gain Effectively Connected With a U.S. Trade or Business.”

Disposition of Bond

You generally will not be subject to U.S. federal income tax on any gain realized on the sale, exchange, retirement or other taxable disposition of a Bond unless:

- the gain is effectively connected with the conduct by you of a U.S. trade or business (and, if required by an applicable income tax treaty, is treated as attributable to a permanent establishment maintained by you in the United States); or
- you are an individual who has been present in the United States for 183 days or more in the taxable year of disposition and certain other requirements are met.

The Date of This Offering Memorandum is September 21, 2021

If you are a non-U.S. holder described in the first bullet point above, you will be subject to tax as described below. See “—Tax Consequences to Non-U.S. Holders—Income or Gain Effectively Connected With a U.S. Trade or Business.” If you are a non-U.S. holder described in the second bullet point above, you generally will be subject to a flat 30% U.S. federal income tax on the gain derived from the sale, exchange, retirement or other taxable disposition of a Bond, which may be offset by certain U.S. source capital losses.

Income or Gain Effectively Connected with a U.S. Trade or Business

If any interest on the Bond or gain from the sale, exchange, retirement or other taxable disposition of the Bond is effectively connected with a U.S. trade or business conducted by you (and, if required by an applicable income tax treaty, is attributable to a U.S. “permanent establishment” maintained by you), then the income or gain will be subject to U.S. federal income tax at regular graduated income tax rates. Effectively connected income will not be subject to U.S. withholding tax if you satisfy certain certification requirements by providing to the withholding agent a properly executed IRS Form W-8ECI (or IRS Form W-8BEN if a treaty exemption applies) (or successor form, as applicable). If you are a corporation, that portion of your earnings and profits that is effectively connected with your U.S. trade or business may also be subject to a “branch profits tax” at a 30% rate, unless an applicable income tax treaty provides for a lower rate.

Information Reporting and Backup Withholding

Payments to you of interest on a Bond, and amounts withheld from such payments, if any, generally will be required to be reported to the IRS and to you. U.S. backup withholding generally will not apply to payments to you of interest on a Bond if the required certification described in “Tax Consequences to Non-U.S. Holders—Interest on the Bond” is duly provided or you otherwise establish an exemption, provided that we do not have actual knowledge or reason to know that you are a U.S. person. Payment of the proceeds of a sale, exchange, retirement or other taxable disposition of a Bond effected by the U.S. office of a U.S. or foreign broker will be subject to information reporting requirements and backup withholding unless you properly certify under penalties of perjury as to your foreign status and certain other conditions are met or you otherwise establish an exemption. Information reporting requirements and backup withholding generally will not apply to any payment of the proceeds of the sale, exchange, retirement or other taxable disposition of a Bond effected outside the United States by a foreign office of a broker. However, unless such a broker has documentary evidence in its records that you are a non-U.S. holder and certain other conditions are met, or you otherwise establish an exemption, information reporting will apply to a payment of the proceeds of a sale, exchange, retirement or other taxable disposition of a Bond effected outside the United States by a broker that has certain relationships with the United States.

Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules is allowable as a credit against your U.S. federal income tax liability, if any, and a refund may be obtained if the amounts withheld exceed your actual U.S. federal income tax liability and you timely provide the required information or appropriate claim form to the IRS.

THE PRECEDING DISCUSSION OF CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE. WE URGE EACH PROSPECTIVE INVESTOR TO CONSULT ITS OWN TAX ADVISOR REGARDING THE PARTICULAR FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF ACQUIRING, OWNING AND DISPOSING OF OUR BOND, INCLUDING THE CONSEQUENCES OF ANY PROPOSED CHANGE IN APPLICABLE LAWS.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of the Bond by employee benefit plans that are subject to Title I of Employee Retirement Income Security Act of 1974, as amended, (“ERISA”), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code or provisions under any federal, state, local, non-U.S. or other laws, rules or regulations that are similar to such provisions of ERISA or the Code (collectively, “Similar Laws”), and entities whose underlying assets are considered to include “plan assets” of such plans, accounts and arrangements (each, a “Plan”).

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an “ERISA Plan”) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the management or administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan. In considering an investment in the Bond of a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary’s duties to the Plan including, without limitation, the prudence,

The Date of This Offering Memorandum is September 21, 2021

diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are “parties in interest,” within the meaning of ERISA, or “disqualified persons,” within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the ERISA Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. The acquisition and/or holding of Bond by an ERISA Plan with respect to which we or the purchasers are considered a party in interest or disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or PTCEs, that may apply to the acquisition and holding of the Bond. These class exemptions include, without limitation, PTCE 84-14, as amended, respecting transactions determined by independent qualified professional asset managers, PTCE 90-1, respecting insurance company pooled separate accounts, PTCE 91-38, respecting bank-maintained collective investment funds, PTCE 95-60, respecting life insurance company general accounts and PTCE 96-23, respecting transactions determined by in-house asset managers, although there can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, the Bond should not be purchased or held by any person investing “plan assets” of any Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under ERISA and the Code or similar violation of any applicable Similar Laws.

Representation

By acceptance of a Bond, each purchaser and subsequent transferee will be deemed to have represented and warranted that either (i) no portion of the assets used by such purchaser or transferee to acquire and hold the Bond or an interest therein constitutes assets of any Plan or (ii) the purchase and holding of the Bond (or any interest therein) by such purchaser or transferee, throughout the period that it holds such Bond (or any interest therein), and the disposition of such Bond or an interest therein, will not constitute (a) a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, (b) a breach of fiduciary duty under ERISA, or (c) a similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing the Bond on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such transactions and whether an exemption would be applicable to the purchase and holding of the Bond.
