Buy The Block, LLC do not make investment recommendations and no communication, through this website or in any other medium, should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Principal Security Holders

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for

which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Blackcommerce LLC was founded as a crowdsourcing marketplace where employers, buyers, and businesses can source products and services from a network of Black professionals, freelancers and businesses. Founded in 2016, the Company is in the process of launching its platform.

Through the podium of BlackCommerce LLC, the company has planned to provide the mechanism for Black America to pool and aggregate resources to produce, distribute, market and consume in a way that creates goods, services and wealth within Black communities. To enter the market, BlackCommerce, LLC has developed its digital marketplace platform that brings consumers, producers, professionals, portals, and mobility in one place. The platform offers a crowdsourcing marketplace to hire freelancers and find freelance jobs online. Individuals and companies can post their jobs and receive competitive responses from freelancers/sellers/professionals through the marketplace. The marketplace allows vendors to market, sell and accept a digital payment for products.

BlackCommerce is seeking investor financing to complete the development of the marketplace, finalize operational infrastructure, and to reach the targeted monthly traffic and post. We are seeking \$107,000 to assist with executing our business plan.

For additional information, please see attached *businessplan.pdf*

Blackcommerce LLC currently has 2 employees.

Risk Factors

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been

recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

7. Material factors that make an investment in Blackcommerce LLC speculative or risky:

1. If Blackcommerce LLC is unable to raise additional capital on acceptable terms, it may be unable to maintain sufficient growth or commercialize its products. The Company will require substantial future capital in order to continue to conduct research and development as well as marketing required to scale the business. There can be no assurance that additional funding will be available on acceptable terms. Failure to satisfy our capital requirements will adversely affect the Company's business, financial condition and results of operations because the Company would be left without the capital required to complete product development, or establish sales and marketing capabilities.
2. Our business is recently formed and has a limited operating history. We face the general risks associated with any new business operating in a competitive industry, including the ability to fund our operations from unpredictable cash flow and capital raising transactions. There can be no assurance that we will achieve our anticipated investment objectives or operate profitably.
3. The Company is faced with all of the risks associated with a company in the early stage of development. In addition, the Company's business is subject to numerous risks associated with a new company engaged in work with manufactured product. Such risks include, among other things, competition from well-established and well-capitalized companies and unanticipated development difficulties and risks associated with the need for regulatory approval. Because the Company is focused on product development, the Company has not generated significant product revenues to date.
4. The process of developing the Company's products requires significant research and development which is costly and does not result in revenues or profits. There can be no assurance that the Company will ever generate sufficient commercial sales or achieve profitability. Should this be the case, investors could lose their entire investment.
5. New competitors could enter the market and could therefore prevent the company from growing as anticipated. This can result in significantly reduced revenues and larger operating losses.
6. We are highly dependent on the services of our founder. Our future business and results of operations depend in significant part upon the continued contributions of our CEO and founder. If we lose those services or if he fails to perform in his current position, or if we are not able to attract and retain skilled employees in addition to our CEO and the current team, this could adversely affect the development of our business plan and harm our business. In addition, the loss of any other member of the board of directors or executive officers could harm the Company's business, financial condition, cash flow and results of operations.
7. Start-up investing is risky. Investing in early-stage companies is very risky, highly speculative, and should not be made by anyone who cannot afford to lose their entire investment. Unlike an investment in a mature business where there is a track record of revenue and income, the success of a startup or early-stage venture often relies on the development of a new product or service that may or may not find a market. Before investing, you should carefully consider the specific risks and disclosures related to both this offering type and the company.
8. Our future growth depends on our ability to develop and retain customers. Our future growth depends to a large extent on our ability to effectively anticipate and adapt to customer requirements and offer services that meet customer demands. If we are unable to attract customers and/or retain customers, our business, results of operations and financial condition may be materially adversely affected.

9. Any forecasts we make about our operations may prove to be inaccurate. We must, among other things, determine appropriate risks, rewards, and level of investment in our product lines, respond to economic and market variables outside of our control, respond to competitive developments and continue to attract, retain, and motivate qualified employees. There can be no assurance that we will be successful in meeting these challenges and addressing such risks and the failure to do so could have a materially adverse effect on our business, results of operations, and financial condition. Our prospects must be considered in light of the risks, expenses, and difficulties frequently encountered by companies in the early stage of development. As a result of these risks, challenges, and uncertainties, the value of your investment could be significantly reduced or completely lost.
10. Maintaining our reputation is critical to our ability to attract and retain clients, and our failure, or perceived failure, to appropriately operate our business or deal with matters that give rise to reputation risk may materially and adversely harm our business, prospects and results of operations. Our failure to deliver appropriate standards of service and quality could result in customer dissatisfaction, litigation and heightened regulatory scrutiny, all of which can lead to lost revenue, higher operating costs and harm to our reputation. Further, negative publicity regarding us, whether or not true, may be detrimental to our business.
11. These documents have not been reviewed or approved by the government. No government agency or authority has reviewed or approved this offering or any of the documents provided to you relating to our crowd funding efforts, including these Risk Factors. You are expected to conduct your own review and analysis before deciding whether to purchase the securities.
12. If we are unable to protect our proprietary technology it would disrupt our business. We rely, in part, on trademark, copyright, and trade secret law to protect our intellectual property in the United States and abroad. We seek to protect our product, documentation, and other written materials under trade secret and copyright law, which afford only limited protection. We have received two utility patents in the United States. we cannot predict whether such patents will effectively protect our intellectual property. The intellectual property rights we obtain may not be sufficient to provide us with a competitive advantage, and could be challenged, invalidated, infringed or misappropriated. We may not be able to protect our proprietary rights in the United States or internationally (where effective intellectual property protection may be unavailable or limited), and competitors may independently develop technologies that are similar or superior to our technology, duplicate our technology or design around any patent of ours. Litigation may be necessary in the future to enforce our intellectual property rights, to determine the validity and scope of our proprietary rights or the rights of others, or to defend against claims of infringement or invalidity. Such litigation could result in substantial costs and diversion of management time and resources and could have a material adverse effect on our business, financial condition, and operating results. Any settlement or adverse determination in such litigation would also subject us to significant liability.
13. We may need to commence proceedings against others to enforce our patents or trademarks, to protect our trade secrets or know-how, or to determine the enforceability, scope and validity of the proprietary rights of others. These proceedings would result in substantial expense to us and significant diversion of effort by our technical and management personnel. We may not prevail in any lawsuits that we initiate and the damages or other remedies awarded, if any, may not be commercially meaningful. We may not be able to stop a competitor from marketing and selling products that are the same or similar to our products or from using product names that are the same or similar to our product names, and our business may be harmed as a result.
14. As a non-reporting company, the Company is not required to provide you with annual audited financial statements or quarterly unaudited financial statements.
15. We may be incorrect in our conclusion that the Blackcommerce is a crossover product that disrupts the marketplace by creating a new novel product category that we refer to a digital marketplace based on a community of interest. We may also be incorrect with our assumption that a comprehensive DRTV campaign will generates sales of our product.

The Offering

Blackcommerce LLC ("Company") is offering securities under Regulation CF, through Buy The Block, LLC ("Portal"). Buy The Block, LLC is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.5% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$1,000 and \$107,000 through an offering under Regulation CF. Specifically, if we reach the target offering amount of \$1,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

In the event The Company fails to reach the offering target of \$1,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

8. What is the purpose of this offering?

Blackcommerce LLC will need to market, sell and distribute 'The Blackcommerce subscription and marketplace services'. In order to achieve these goals, Blackcommerce LLC hopes to raise capital through a seed round of 107,000 in exchange for the sale of Convertible Promissory Notes. Once fully funded, we expect that job one is to improve and optimize the Blackcommerce experience and operations support. We have completed the testing phase for the platform and it is fully operational. A number of Web Development companies have begun posting job offers and a number of Freelancers have taken notice. The next milestone for our company is making ourselves known and being adopted by Black Americans. The history of Blacks in America and the current state of the Black community is well documented. In our opinion BlackCommerce.com is uniquely positioned to become a central focus in Black American Business life, and become a profitable enterprise.

The Company anticipates that all or a large portion of the net proceeds from this placement will be used to launch its Market Adoption Program.

The Company is currently seeking \$107,000 in funding through this offering. There can be no assurance, however, that the Company will achieve this objective and the Company may close on subscribed funds and begin using the proceeds received from investors at any time following the 21st day of this Offering going live.

9. How does the issuer intend to use the proceeds of this offering?

Uses	If Target Offering Amount Sold	If Maximum Amount Sold
BuyTheBlock Fees (4.5%)	\$49	\$4,815
KFM Promotions Fee	\$50	\$5,000
Market Adoption Program	\$385	\$38,500
Platform Operation	\$385	\$38,500
Working Capital	\$201	\$20,185
Total Use of Proceeds	\$1,000	\$107,000

10. How will the issuer complete the transaction and deliver securities to the investors?

In entering into an agreement on the Buy The Block, LLC Funding Portal to purchase securities, both investors and Blackcommerce LLC must agree that a transfer agent, which keeps records of our outstanding Convertible Promissory Notes (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed). Similar to other online investment accounts, the transfer agent will give investors access to a web site to see the number of Securities that they own in our company. These Securities will be issued to investors after the deadline date for investing has passed, as long as the targeted offering amount has been reached. The transfer agent will record the issuance when we have received the purchase proceeds from the escrow agent who is holding your investment commitment.

11. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering by logging in to your account with Buy The Block, browsing to the Investments screen, and clicking to cancel your investment commitment. Buy The Block will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

12. Can the Company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing.

Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

13. Describe the terms of the securities being offered.

We are issuing Securities at an offering price of \$100.00 per share.

Capital Raise

The Company is targeting a capital raise from this offering of \$107,000. The Convertible Promissory Notes are being offered on a “best efforts” basis. As such, no minimum amount of subscriptions needs to be received before the Company may close on funds and begin using the proceeds received from investors.

Minimum Investment

The minimum capital commitment of an Investor will be One Hundred Dollars (\$100), although commitments of lesser amounts may be accepted at the discretion of the Manager.

Unit Series Ownership

The Manager is the sole Member of the Company and will own all the Preferred Units issued by the Company and therefore control voting of the Company

Use of Proceeds

The Company intends to use the net proceeds of this Offering for a Market Adoption Program, for Platform Operation, and for any necessary working capital, in addition to fees for Promotion and Hosting of the Campaign.

Units: General Terms

The Common Units are non-voting units and the Preferred Units are voting, except as required by law; provided that the Company may not take certain actions affecting the rights of the Preferred Members without the vote or consent of majority of the Preferred Units voting as a single class. The Common and Preferred Members have distribution rights as described below. See the “Distributions” section.

Closing

This is a “best efforts” offering, and as such, no minimum subscription amount is required before the Company may close on the sales of Units.

Distributions

The Company will have the right to make distributions of cash and property to the Members on a pro rata basis in proportion to the respective Percentage Interest held by each Member. The timing and amount of distributions will be determined by the Members in accordance with the Michigan Limited Liability Company Plan Act

Allocation of Profits and Losses

Income, expenses, gains, and losses of the Company will be allocated among the Unit holders consistent with the provisions of the Operating Agreement, as described in “Allocation” below

Indemnification

The Company will indemnify the Manager and its respective personal representatives, heirs, successors, officers, directors, governors, partners, members, managers, shareholders, employees and affiliates, against claims, liabilities, costs and expenses, including legal fees, judgments and amounts paid in settlement, as incurred by them, by reason of their activities on behalf of the Company, other than for bad faith, gross negligence or willful malfeasance.

Offering Expense

The Company will bear offering expenses, including, but not limited to, legal and financial advisory. See “Use of Proceeds.”

Other Expenses

The Manager is responsible for all ordinary administrative and overhead expenses of the management of the Company, including compensation for employees, rent, utilities, furniture, fixtures, and other office equipment.

In addition to the Management Fee, the Company is responsible for all other costs and expenses of the Company, including legal, accounting, annual auditing, consulting, insurance, financing, taxes, and any other governmental fees.

Transfer of Interests

A Member may transfer Membership Interests to any other Person without the consent of any other Member. A person may acquire Membership Interests directly from the Company upon the written consent of all Members. A Person that acquires Membership Interests in accordance with this Section 7.2 will be admitted as a Member of the Company only after the requirements of Section 2.3(b) are complied with in full.

Reports and Meetings

The Manager will furnish to Unit holders: (i) annual financial statements of the Company; (ii) tax information regarding the Unit holder which will be necessary for the completion of tax returns; and (iii) periodic reports providing summary financial and other information on the Company.

14. Do the securities offered have voting rights?

The Securities are being issued with no voting rights.

15. Are there any limitations on any voting or other rights identified above?

No.

16. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be canceled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer’s Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Securities

Class of Security	Amount Authorized	Amount Outstanding	Voting Rights	Other Rights
Convertibles Notes	1070	8,000,000	No	

Options, Warrants and Other Rights

None.

18. **How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?**

The Company has no convertible debt, and there are no warrants, options, or other convertible instruments outstanding, which if exercised, would dilute the investors who purchase shares in this offering.

19. **Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?**

No.

20. **How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?**

As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of convertible promissory notes give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as the issuance of new shares, or the sale of debt, convertible debt or assets of the company.

21. **How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.**

At issuer's discretion.

22. **What are the risks to purchasers of the securities relating to minority ownership in the issuer?**

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

23. **What are the risks to purchasers associated with corporate actions including:**

- additional issuances of securities,
- issuer repurchases of securities,
- a sale of the issuer or of assets of the issuer or
- transactions with related parties?

The issuance of additional shares of our convertible promissory notes will dilute the ownership of the Buy The Block investors. As a result, if we achieve profitable operations in the future, our net income per share will be reduced because of dilution, and the market price of our convertible promissory notes, if there is a market price, could decline as a result of the additional issuances of securities. If we repurchase securities, so that the above risk is mitigated, and there are fewer shares of convertible

promissory notes outstanding, we may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our convertible promissory notes would decline. A sale of our company or of the assets of our company may result in an entire loss of your investment. We cannot predict the market value of our company or our assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to ask related parties to lend us money. Such financing may not be available when needed. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to minority owners. There can be no assurance that we will be able to obtain financing if and when it is needed on terms we deem acceptable.

24. Describe the material terms of any indebtedness of the

issuer: Not applicable.

25. What other exempt offerings has Blackcommerce LLC conducted within the past three years?

None.

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- 1. any director or officer of the issuer;**
- 2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;**
- 3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or**
- 4. any immediate family member of any of the foregoing persons.**

No.

Financial Condition of the Issuer

27. Does the issuer have an operating history?

No.

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Blackcommerce LLC is a new company seeking seed capital to launch our marketplace product 'The Blackcommerce Subscription' into the marketplace. Blackcommerce LLC will need to market, sell and distribute 'The Blackcommerce Subscription'. We currently have no revenues, but we anticipate revenues may be generated within the first 6 months after fully funding and executing this business plan.

The Company is entering the market at a time when the industry in which it operates is experiencing substantial growth. According to market research firm IBISWorld, the Crowdsourcing Service Providers Industry has seen an average annual growth rate of 45.5% over the last five years, positioning industry revenue to be around \$1.2 billion in 2016. Growth has largely been the result of increasing in services conducting online and increasing in outsourcing business models. These trends are expected to continue over the next several years, as is the overall growth in the industry.

The Crowdsourcing Service Providers industry is projected to see an average annual growth rate of 15.2% over the next five years, placing industry revenue at \$2.4 billion in 2021.¹ These trends bode extremely well for organizations as BlackCommerce LLC, as they show the long-term potential that the market and industry in general hold.

We are seeking \$107,000 to execute our business plan. We currently have no revenues, but we anticipate revenues may be generated within the first 6 months after fully funding and executing this business plan. The fixed overhead are related to digital hosting infrastructure.

Blackcommerce LLC has no liquid assets in the form of cash on hand or any capital assets or resources that can be readily converted to cash.
