REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**To the Managing Member of
Peachtree PC Investors, LLC**

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Peachtree PC Investors, LLC (the "Company") as of December 31, 2023, and the related notes to the financial statements (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Emphasis of a Matter

As more fully described in Notes 1 and 3 to the financial statements, the Company has material transactions with related parties and its future operations may be dependent upon continued support from its parent company, Peachtree PC Advisors Holdings, LLC. Because of this relationship, it is possible that the terms of these transactions are not the same as those that would result from transactions between unrelated parties. Our opinion is not modified with respect to this matter.

We have served as the Company's auditor since 2021.

Note 2 - Significant Accounting Policies

Basis of Presentation

The Company has adopted the Financial Accounting Standards Board ("FASB") Codification ("Codification"). The Codification is the single official source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash

For the purposes of reporting cash flows and amounts in the Statement of Financial Condition, the Company defines cash as cash on hand and demand deposits.

PEACHTREE PC INVESTORS, LLC

Notes to Financial Statements

December 31, 2023

Note 2 - Significant Accounting Policies - continued

Revenue Recognition

The Company earns commission revenues from the sale of limited partnership or limited liability interest in funds owned by the Parent. Revenues are recognized upon satisfaction of its performance obligations, which occurs on the trade date. Commission revenue is based on a percentage of the amounts invested. The Company views the selling, distribution and marketing, or any combination thereof, of limited partnership or limited liability interests as a single performance obligation. The Company is the principal for commission revenue, as it is responsible for the execution of the clients' purchases and sales and maintains relationships with the investment sponsor. Accordingly, total commission income is reported on a gross basis in the accompanying Statement of Operations.

The revenues earned were comprised of the following for the year ended December 31, 2023:

| | | |
|-------------------------------|----|-------------------|
| Soliciting dealer commissions | \$ | 3,079,995 |
| Managing dealer commissions | | 8,591,926 |
| Private placement fees | | <u>3,197,676</u> |
| | \$ | <u>14,869,597</u> |

Commissions Receivables

Commissions are recorded on a trade date basis as securities transactions occur. Expected losses from uncollectible receivables are measured at an amortized cost basis and are estimated in accordance with FASB ASC 326-20, *Financial Instruments – Credit Losses – Measured at Amortized Cost*. FASB ASC 326-20 requires expected credit losses to be estimated over the life of financial assets and certain off-balance sheet exposures based on relevant information about past events, current conditions, and reasonable and supportable forecasts of future economic conditions and events. The estimate of expected credit losses is established at the inception date in accordance with FASB ASC 326-20-30-1 and is recorded as an allowance for credit losses at the reporting date. Management believes that these conditions do not exist with regard to the receivables, and, as such, an allowance for doubtful accounts has not been established.

Income Taxes

The Company is included in the federal and state income tax returns filed by the Parent. The Parent was formed as a limited liability company and is treated as a partnership for federal income tax purposes and is generally not subject to federal and state income taxes. Accordingly, no recognition has been given to income taxes in the accompanying financial statements since the income or loss is to be included in the tax returns of the individual partners. The Partner's tax return is subject to examination by federal and state taxing authorities. If such examinations result in adjustments to distributive shares of taxable income or loss, the tax liability of the members would be adjusted accordingly.

Allowance for Credit Losses

In June 2016, the FASB issued guidance (FASB ASC 326) which significantly changed how entities will measure credit losses for most financial assets and certain other instruments that aren't measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss model. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Company that are subject to the guidance in FASB ASC 326 were trade accounts.

The Company adopted the standard effective January 1, 2023. The adoption did not have a material impact to the financial statements.

Note 3 - Related Party Transactions

The Company is a party to a Shared Services Agreement ("SSA") with a related party, Peachtree Hotel Group II, LLC ("PHG II") and its affiliates, to reimburse those entities for certain shared services, including but not limited to: compensation costs of employees performing services for the Company, direct costs for activities attributable to the Company, and indirect costs for activities conducted jointly with the Company. The shared services charged were comprised of the following, which are included in the statement of operations for the year ended December 31, 2023:

**Included in General and administrative expenses on the Statement of Operations.*

The outstanding balance in connection with the above expenses at December 31, 2023, was \$457,857, which is shown under "Due to related party" on the Statement of Financial Condition.

The employees of the Company may, from time to time, incur costs that are allocated to the capital-raising efforts of the investment offerings. The agreement automatically renews on an annual basis until terminated by either party. Note 6 – Concentrations of Credit Risk

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and commissions receivable. The Company maintains its cash in bank demand deposit accounts, which, at times, may exceed federally insured limits. The Company's commissions receivable are due from certain customers and arose in the normal course of business. The Company has not experienced any losses in these accounts and believes it is not exposed to any significant credit risk with respect to its cash and cash equivalents and commissions receivable. The total amount above federally insurance limits as of December 31, 2023, was \$1,032,674.
