This Annual Report is dated April 26, 2021.

### BUSINESS

Como Audio, Inc. was formed originally as Como Audio, LLC in 2016 as a consumer electronics business. In 2019, the company transitioned from an LLC to a C-Corp. Como Audio is based in the Boston suburb, Braintree, Massachusetts, and was founded by Tom DeVesto.

Tom DeVesto is a leading consumer electronics Hall of Fame Legend and Visionary who has stayed true to a single-focused mission over the last 40 years, and that is to bring a new experience to the consumer electronics market – one that enhances and improves upon expectations.

Whether he is introducing the theater experience to the home audiences with Advent and Kloss Video big-screen TVs, or selling stereo systems direct to the consumer with Cambridge SoundWorks, or making high-performance radios and music systems with great design and great sound reflective of another era with Tivoli Audio, Tom DeVesto never loses sight of the goal: make a high-quality product that supports the latest technology — is simple to operate — has a distinctive design — takes up a small amount of space — and doesn't become obsolete. Today, Como Audio designs and manufactures music systems with an emphasis on high-fidelity sound. Their models include LCD display screens and aluminum knobs so you can interact with them directly, and enjoy your music without relying on a phone or smart device. With custom wood and piano-gloss cabinets, the music systems are also built to prioritize design and actually match your decor.

The first two models - Solo and Duetto - launched on Kickstarter in the summer of 2016. The next year, the company introduced Amico, the first portable model, and Musica, a top-of-the-line

model with a built-in CD player. In 2019, the company expanded the product line to include their first turntable. In 2020, the company introduced a second and lower priced turntable.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION**

## **AND RESULTS OF OPERATION**

### **Operating Results – 2020 Compared to 2019**

Year ended December 31, 2020 compared to year ended December 31, 2019

#### **Revenue**

Revenue for fiscal year 2020 was \$1,651,992, \$206,920 higher compared to fiscal year 2019 revenue of \$1,445,072. The increase from sales came from our Domestic Direct Consumer business which was up 53%. Due to the COVID pandemic, our International Business was down almost 30% in the same period.

#### **Cost of Sales**

Cost of sales in 2020 was \$932,634, an increase of \$72,703, from costs of \$859,931 in fiscal year 2019. The higher Cost of Sales is directly related to our increase in sales, as mentioned above. We sold more product, so we paid more for the product we sold.

#### **Gross Margins**

2020 gross profit increased by \$134,216 or 23% over 2019 gross profit and gross margins as a percentage of revenues increased from 40.5% in 2019 to 43.5% in 2020, an increase of 3%. This was again due to a increase in Domestic Direct to Consumer sales.

#### **Expenses**

The Company's expenses consist of, among other things, general and administrative, sales and marketing, and research and development expenses. Expenses in 2020 decreased \$365,534 from 2019. This decrease primarily resulted from the reduction of Warehouse related expenses in the United States and the Far East as our logistics were moved to our new facility in Braintree, Massachusetts in August 2020.

#### **Additional Notes**

The accompanying financial statements attached have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

The Company incurred net losses of \$771,192 and \$1,290,441 for the years ended December 31, 2020 and 2019, respectively, incurred negative cash flows from operating activities for the years ended December 31, 2020 and 2019.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No

assurance can be given that the Company will be successful in these efforts.

Historical results and cash flows:

In our view, we do not believe that historical results of the company are indicative of the future for an investor even with the current business climate and status of the economy. Our goal is to continue to search for funding to be able to support the business' growth. Until that funding is achieved we expect growth to be slow and steady with tight cash flow. We expect COVID-19 to continue to adversely effect our sales through retailers, but our direct to consumer sales remain strong.

### **Liquidity and Capital Resources**

At December 31, 2020, the Company had cash of \$142,790.00. [*The Company intends to raise additional funds through an equity financing.*]

### **What it means to be a minority holder**

As a minority holder you will have limited ability, if at all, to influence our policies or any other corporate matter, including the election of directors, changes to our company's governance documents, additional issuances of securities, company repurchases of securities, a sale of the company or of assets of the company or transactions with related parties.

### **Dilution**

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will decrease, even though the value of the company may increase. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible notes, preferred shares or warrants) into stock.

If we decide to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if we offer dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

The type of dilution that hurts early-stage investors most occurs when the company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings.

If you are making an investment expecting to own a certain percentage of the company or expecting each share to hold a certain amount of value, it's important to realize how the value of those shares can decrease by actions taken by the company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share.

### **RESTRICTIONS ON TRANSFER**

The common stock sold in the Regulation CF offering, may not be transferred by any purchaser, for a period of one-year beginning when the securities were issued, unless such securities are transferred:

- (1) to the Company;
- (2) to an accredited investor;
- (3) as part of an offering registered with the SEC; or
- (4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the

equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

## **SIGNATURES**

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100-503), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned, on April 26, 2021.
