Business Overview

We were formed on June 30, 2016 for the purpose of operating BudTrader.com, an Internet-based cannabis social media marketplace that enables consumers residing in legal cannabis states to network and to advertise their products and services in accordance with state regulation. Our two million users can post, rate, comment, and connect on various cannabis and CBD related products. We believe that our company is the largest medical marijuana marketplace in the world. Our mission is to provide cannabis patients better and more reliable, information while providing businesses with hyper-targeted advertising access to our registered user base.

We were formerly known as Teldar Paper, Inc., and changed our name to P5 Systems, Inc. on October 21, 2016. We do business as BudTrader.

Business Plan

To date, our primary user base has consisted of licensed companies that create cannabis-related products, cannabis dispensaries, and consumers. As more states legalize cannabis, we expect that will be able to expand our reach and we expect our user base will continue to grow. We believe the recent legal changes in states such as Michigan, Utah, and Missouri will create great opportunities for our company to further expand our network in North America. The marginal cost for BudTrader is minimal in comparison to growers or retail operations. The costs for us to enter a new market are minimal. These costs include the replication of our technology for such market and relatively minimal marketing dollars to grow the user base in each given area. We intend to duplicate our existing model in new markets in order to grow our business and user base.

See Question 10 for additional information on the use of proceeds from this Offering in executing the business plan.

Our Products and/ or Services

BudTrader Platform

We have an online social media and networking platform and portal, BudTrader, which allows for those interested in Marijuana, CBD, and other cannabis related products to connect in a safe and verified environment. This platform is available in all U.S. states where the use of cannabis is legalized and in Canada.

We believe that BudTrader is the largest cannabis social media and networking platform in the world with over 2 million registered users in the U.S. and Canada. Our platform is free and features 20+ categories and continues to grow even as our competitors’ user base and traffic has not. One of our key differentiators is BudTrader’s proprietary data on our 2 million registered users in North America, which allows us to better target and serve the people who trust us to bring the cannabis-related products, services and events they want. Additionally, the BudTrader platform has unique features like the cannabis price per pound ticker in each individual state.

Many successful online companies of today rely heavily on user-created content. These users provide content to a site and the host company secures increased advertising dollars because the content has created additional interest in the site. Therefore, the more input that is put forth by a user, the more advertising revenue we expect to receive.

BudTrader adds a unique new aspect to tracking and gathering detailed information of users and is able to provide advertisers a unique marketing platform to create effective pinpoint advertising campaigns: **Users (1)** are drawn to the site because of the meaningful, applicable **Content (2)** or valid posts or connections. The underlying dynamic content is created not by programmers, but by users utilizing the site. As in many social media sites including YouTube and Facebook, users simultaneously contribute content to the site as well as **Participate (3)**. Through the content creation and site participation, users drive **Traffic (4)** which in turn will help create more **Data (5)** which will in-turn be aggregated and compartmentalized to create accurate user profiles (based on demographics, interests, product offerings, etc.) The BudTrader model then reinforces a user's profile by combining basic demographic profiling with a user's clicks on various product offerings.

These user profiles are stored and analyzed within BudTrader's database and then used to offer reinforced pinpoint advertising and "one-to-one" marketing solutions. Advertisers pay us for an effective, quantifiable marketing platform, based upon our user profiles.

BudTrader Delivery App

The BudTrader delivery app, a cannabis mobile delivery app, is scheduled to be released in 2019. We anticipate that this app will scale up the use of our services and our presence in the cannabis community.

Our Brand

Marketing at mainstream entertainment venues and events has been a key component in building the BudTrader brand and has helped broaden our user base. On February 24, 2019, we supplied gift bags with branded marketing materials to some of the participants in the Oscars/Academy Awards. We were also present at Sundance Film Festival in January 2019, where we were interviewed by several local and national television stations and supplied some participants with branded gift bags. We are planning monthly events in 2019 to further market cannabis as a viable and credible industry and to drive more users to our platform.

Intellectual Property

We have trademarked "BudTrader" in the United States and have been approved for a trademark in the European Union. We have also filed for trademarks in Australia, Mexico and Canada, but the authorities there have not yet approved the applications. Additionally, we have the following domain names and websites: budtrader.com, budtrader.directory, budtrader.info, themarijuanajournal.com, budtradercanada.com, Budtraderpromo.com, mmjbuy.com, themarijuanajournal.org, BudtraderTV.com, and 43 others.

Competition

Our primary competitors are Leafly, MassRoots, Weedmaps, Bong Appetite, Weediquette, Marijuana Man.

The markets for our services are highly competitive and we are confronted by aggressive competition in all areas of our business. These markets are characterized by frequent product and services introductions, new marketing strategies and rapid technological advances. Our competitors may employ aggressive marketing strategies or expand their product and services offerings to gain or maintain market share. Principal competitive factors important for our company include our low operating costs, less regulatory exposure as an ancillary business to the cannabis industry, our large platform user base of more than 2 million and the availability of our platform at no cost to consumers and business owners.

We believe the recent legal changes in states such as Michigan, Utah, and Missouri will create great opportunities for our company to further expand our network in North America. The marginal cost for BudTrader is minimal in comparison to growers or retail operations. The costs for us to enter a new market are minimal. These costs include the replication of our technology for such market and relatively minimal marketing dollars to grow the user base in each given area. We intend to duplicate our existing model in new markets in order to grow our business and user base.

Other companies who deal with cannabis directly have significant legal and capital barriers impeding their growth into another state. However, since we are an ancillary company, most of the current regulations and strict cannabis

laws do not pertain to our operations. Because of the overall growth in the market and low legal barriers, we believe that growth opportunities are very significant for the foreseeable future.

Customer Base

To date, our primary user base has consisted of licensed companies that create cannabis-related products, cannabis dispensaries, and consumers in North America. As more states legalize cannabis, we will be able to expand our reach and our user base will continue to grow.

Governmental/Regulatory Approval and Compliance

Our business has been and will continue to be subject to the Food and Drug Administration and various other U.S. laws and regulations. Failure to comply with these laws and regulations could subject us to administrative and legal proceedings and actions by these various governmental bodies. The increasingly complex and rapidly changing legal and regulatory environment creates additional challenges for our ethics and compliance programs. Our ability to continue to meet these challenges could have an impact on our legal, reputational and business risk.

Litigation

There are no existing legal suits pending, or to our knowledge, threatened, against our company, which would have a material effect on the business of our company.

8. **Discuss the material factors that make an investment in the issuer speculative or risky:**

An investment in the Company involves a high degree of risk. You should carefully consider the risks described above and those below before deciding to purchase any Shares in this Offering. If any of these risks actually

occurs, our business, financial condition or results of operations may suffer. As a result, you could lose part or all of your investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were incorporated under the laws of the State of California on June 30, 2016. We have limited operations and nominal operating revenue to date. We are in the development stage, and its future operations are subject to all of the risks inherent in the establishment of a new business enterprise. The likelihood of the success of our company must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with the development of an entity in the business of operating an Internet-based cannabis social media marketplace, a BudTrader Delivery App, our cannabis delivery app, and BudTrader TV in the competitive environment in which we operate. There can be no assurance that we will be able to generate revenues, that future revenues will be significant, that any sales will be profitable or that we will have sufficient funds available to complete its marketing and development programs or to market any new products which it may develop. We currently have operating losses, have no substantive source of operating revenue, are unable to self-finance operations, have limited resources, and there can be no assurance that we will be able to develop such revenue sources or that our operations will become profitable, even if we are able to commercialize our products and build brand awareness.

We have incurred operating losses in every quarter since we launched our business and may continue to incur quarterly operating losses, which could negatively affect the value of our company.

We have incurred operating losses in every quarter since we founded our business in 2016, and we may not be able to generate sufficient revenue in the future to generate operating income. We also expect our costs to increase materially in future periods, which could negatively affect our future operating results. We expect to continue to expend substantial financial and other resources on the continued development of our software solutions. The amount and timing of these costs are subject to numerous variables and such initiatives may require additional funding. If we fail to continue to grow the overall business and begin to generate substantive revenue, it could adversely affect our financial condition and results of operations.

We face significant competition for our Internet-based Cannabis Social Media Marketplace, a BudTrader Delivery App, our cannabis delivery app, and BudTrader TV.

The cannabis industry is highly competitive and we compete with a number of other companies that provide similar services to the cannabis industry. Our ability to compete successfully in the case of our Internet-based cannabis social media marketplace, a BudTrader Delivery App, our cannabis delivery app, BudTrader TV, and to manage our planned growth will depend primarily upon the following factors:

- maintaining continuity in our management and key personnel;
- the strength of our brand;
- increasing the productivity of our existing employees;
- effectively marketing and selling our services;
- acquiring new users for our services;
- acquiring new manufacturers, producers, consumers and advertisers on our platforms;
- improving our operational, financial and management controls;
- improving our information reporting systems and procedures; and
- the design and functionality of our services.

Many of our competitors have greater financial, technical, product development, marketing and other resources than we do. These organizations may be better known than we are and may have more customers or users than we do. Our competitors include MassRoots, Leafly, Weedmaps, Bong Appetite, Weediquette, Marijuana Man and other companies we may be unaware of. We cannot provide assurance that we will be able to compete successfully against

these organizations, which may lead to lower customer satisfaction, decreased demand for our solutions, loss of market share and reduction of operating profits.

The forecasts of market growth included in our business plan and investor presentations may prove to be inaccurate, and even if the markets in which we compete achieve the forecasted growth, we cannot assure you our business will grow at similar rates, if at all.

Growth forecasts are subject to significant uncertainty and are based on assumptions and estimates that may not prove to be accurate. The forecasts in our business plan and investor presentations may prove to be inaccurate. Even if these markets experience the forecasted growth described in our business plan, we may not grow our business at similar rates, or at all. Our growth is subject to many factors, including our success in implementing our business strategy, which is subject to many risks and uncertainties. Accordingly, the forecasts of market growth included in our business plan should not be taken as indicative of our future growth.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

Our business is subject to a variety of U.S. and international laws, rules, policies and other obligations regarding data protection.

We are subject to federal, state and international laws relating to the collection, use, retention, security and transfer of personally identifiable information. In many cases, these laws apply not only to third-party transactions, but also to transfers of information between us and other parties with which we may develop commercial relations. Several jurisdictions have passed recent laws in this area, and other jurisdictions are considering imposing additional restrictions. These laws continue to develop and may be inconsistent from jurisdiction to jurisdiction. Complying with emerging and changing international requirements may cause us to incur substantial costs or require us to change our business practices. Noncompliance could result in penalties or significant legal liability.

Our privacy policies and practices concerning the use and disclosure of data will be posted on our website. Any failure by us or other parties with whom we do business to comply with our posted privacy policies or with other federal, state or international privacy-related or data protection laws and regulations could result in proceedings against us by governmental entities or others, which could have a material adverse effect on our business, results of operations and financial condition.

Our company may not be able to effectively manage its growth or improve its operational, financial, and management information systems, which could have a material adverse effect on our business, results of operations, and financial condition.

In the near term, our company intends to expand the scope of its operations activities significantly. If our company is successful in executing its business plan, it will experience growth in its business that could place a significant strain on its business operations, finances, management and other resources. The factors that may place strain on its resources include, but are not limited to, the following:

- The need for continued development of financial and information management systems;
- The need to manage strategic relationships and agreements with manufacturers, producers, consumers, advertisers and partners; and
- Difficulties in hiring and retaining skilled management, technical, and other personnel necessary to support and manage the business.

Additionally, the strategy of our company could produce a period of rapid growth that may impose a significant burden on its administrative and operational resources. Its ability to effectively manage growth will require our company to substantially expand the capabilities of its administrative and operational resources and to attract, train, manage, and retain qualified management and other personnel. There can be no assurance that our company will be successful in recruiting and retaining new employees, or retaining existing employees.

Our company cannot provide assurances that its management will be able to manage this growth effectively. Its failure to successfully manage growth could result in its sales not increasing commensurately with capital investments or could otherwise have a material adverse effect on the business, results of operations, and financial condition of our company.

Assertions by third parties of infringement, misappropriation or other violation by us of their intellectual property rights could result in significant costs and substantially harm our business and operating results.

In recent years, there has been significant litigation involving intellectual property rights in many technology-based industries. Any infringement, misappropriation or related claims, whether or not meritorious, is time-consuming, diverts technical and management personnel and is costly to resolve. As a result of any such dispute, we may have to develop non-infringing technology, pay damages, enter into royalty or licensing agreements, cease providing our products or take other actions to resolve the claims. These actions, if required, may be costly or unavailable on terms acceptable to us. Any of these events could result in increases in operating expenses, limit our product offerings or result in a loss of business.

We may not be able to protect our intellectual property rights.

We regard our trademarks, service marks, copyrights, patents, trade secrets, proprietary technologies, domain names and similar intellectual property as important to our success. We rely on trademark, copyright and patent law, trade secret protection and confidentiality agreements with our employees, vendors, customers and others to protect our proprietary rights. We have sought and are working to possibly obtain patent protection for our delivery technologies. Many of the trademarks that we use contain words or terms having a somewhat common usage and, as a result, we may have difficulty registering them in certain jurisdictions. We have not yet obtained registrations for our most important marks. If other companies have registered or have been using in commerce similar trademarks for products similar to ours, we may have difficulty in registering, or enforcing an exclusive right to use, our marks.

There can be no assurance that our efforts to protect our proprietary rights will be sufficient or effective, that any pending or future patent and trademark applications will lead to issued patents and registered trademarks in all instances, that others will not develop or patent similar or superior technologies, products, or that our patents, trademarks and other intellectual property will not be challenged, invalidated, misappropriated or infringed by others. Additionally, the intellectual property laws and enforcement practices of other countries in which our product is or may in the future be offered may not protect our products and intellectual property rights to the same extent as the laws of the United States. If we are unable to protect our intellectual property from unauthorized use, our brand image may be harmed and our business and results of operations may suffer.

We will need additional financing to execute our business plan, which we may not be able to secure on acceptable terms, or at all.

We will require additional financing in the near and long term to fully execute our business plan. Our success depends on our ability to raise such additional financing on reasonable terms and on a timely basis. Conditions in the economy and the financial markets may make it more difficult for us to obtain necessary additional capital or financing on acceptable terms, or at all. If we cannot secure sufficient additional financing, we may be forced to forego strategic opportunities or delay, scale back or eliminate further development of our goals and objectives, operations and investments or employ internal cost savings measures.

We plan to implement new lines of business or offer new products and services within existing lines of business.

There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we

may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

Security breaches and improper access to or disclosure of our data or user data, or other hacking and phishing attacks on our systems, could harm our reputation and adversely affect our business.

Many industries are prone to cyber-attacks, including ours, with third parties seeking unauthorized access to our data or users' data. Any failure to prevent or mitigate security breaches and improper access to or disclosure of our data or user data could result in the loss or misuse of such data, which could harm our business and reputation and diminish our competitive position. In addition, computer malware, viruses, and hacking and phishing attacks by third parties have become more prevalent in many industries and may occur on our systems in the future. Such attacks may cause interruptions to the products we provide, degrade our customers' experience, cause customers to lose confidence in our products, or result in financial harm to us. Our efforts to protect our company data or the information we receive may also be unsuccessful due to software bugs or other technical malfunctions, employee error or malfeasance, government surveillance, or other factors. In addition, third parties may attempt to fraudulently induce employees or users to disclose information in order to gain access to our data or our customers' data. Although we have developed systems and processes that are designed to protect our data and customer data and to prevent data loss and other security breaches, we cannot assure you that such measures will provide absolute security.

A failure to protect the integrity and security of our customers' information could expose us to litigation, materially damage our reputation and harm our business. Furthermore, the unanticipated costs of protecting against such a failure could adversely affect our results of operations.

Our business involves the collection and use of confidential information of our customers and vendors. We cannot assure you that our efforts to protect this confidential information will be successful. If any compromise of this information security were to occur, we could be subject to legal claims and government action, experience an adverse effect on our reputation and need to incur significant additional costs to protect against similar information security breaches in the future, each of which could adversely affect our financial condition, results of operations and growth prospects. In addition, because of the critical nature of data security, any perceived breach of our security measures could cause existing or potential customers not to order our products and could harm our reputation.

The Company's success depends on the experience and skill of the board of directors, the management team, its executive officers and key employees.

In particular, the Company is dependent on Bradley McLaughlin and Angus Stone Douglass to execute the business strategy and business plan, and to manage any employees and consultants. As the Company grows, a corporate body of knowledge will be produced and taught to other employees in order to facilitate growth. As this happens, any change in management's ability to operate the business due to disability, illness, or for any other reason, would cause a significant loss in production capability, which would have a material adverse effect on the Company's business and prospects.

The Company has or intends to enter into employment agreements with Bradley McLaughlin and Angus Stone Douglass although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss any of the founders could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, we do not have any key man life insurance policies on any such people.

We are dependent on on Bradley McLaughlin and Angus Stone Douglass in order to conduct our operations and execute our business plan, however, we have not purchased any insurance policies with respect to those individuals

in the event of their death or disability. Therefore, if either of them were to die or become disabled, we will not receive any compensation to assist with such person's absence. The loss of either such person could negatively affect our company and its operations.

Changes in government regulation could adversely impact our business.

The media industry is subject to extensive legislation and regulation at the federal and local levels and, in some instances, at the state level. Additionally, our ads are also subject to regulation, and additional regulation is under consideration. Many aspects of such regulation are currently the subject of judicial and administrative proceedings, legislative and administrative proposals, and lobbying efforts by us and our competitors. Legislation under consideration could entirely rewrite our principal regulatory statute, and the FCC and/or Congress may attempt to change the classification of or change the way that our ads are regulated and/or change the framework under which broadcast signals are carried, remove the copyright compulsory license and changing rights and obligations of our competitors. We expect that court actions and regulatory proceedings will continue to refine our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

In addition, since our media operations are focused on the cannabis industry, we may become subject to various federal, state and local laws affecting the possession, consumption, production, supply and sale of cannabis and/or changes in these laws may negatively affect our business and operations. The Federal Food and Drug Administration, the Federal Drug Enforcement Agency and equivalent state agencies regulate all aspects of cannabis and the advertising and representations made by businesses in the sale of cannabis or cannabis-related products. The inability of our company to fully comply with these regulations, particularly as they evolve and are subject to varying degrees of regulatory oversight and discretion, would have material adverse effect on the business, reputation, results of operations, and financial condition of our company.

We face additional risks related to the Cannabis Industry.

As a company focused on the cannabis industry, our company faces all of the risks that are unique to operating in this emerging industry. Federal law prohibits the use of cannabis, and our business is dependent on the growth of the cannabis industry. If the current, or a future, federal administration adopts policies promoting the stricter enforcement of federal law, our business would be materially adversely affected. In addition, the cannabis industry is extremely speculative. Although a number of states have decriminalized cannabis to varying degrees and other states have created exemptions specifically for medical cannabis, it remains fully illegal in 18 states (as of January 2019). Additionally, in most states the cultivation of cannabis for personal use continues to be prohibited. Active enforcement of these state laws could have a material adverse effect on our business, operations and prospects. In addition, although we do not cultivate, dispense or sell cannabis or any derivatives of the cannabis plant, it is possible that we may be accused by federal or state agencies of violating certain laws or regulations that involve cannabis as a result of the promotion through our media platforms of those companies that do cultivate, dispense or sell cannabis. An adverse finding could have a material adverse impact on our business, operations and prospects.

Our ability to grow our business depends on state and federal laws pertaining to the cannabis industry.

Continued development of the medical-use cannabis industry depends upon continued legislative authorization of cannabis at the state level. The status quo of, or progress in, the regulated medical-use cannabis industry is not assured and any number of factors could slow or halt further progress in this area. While there may be ample public support for legislative action permitting the manufacture and use of cannabis, numerous factors impact the legislative process. For example, states that voted to legalize medical and/or adult-use cannabis in the November 2016 election cycle have seen significant delays in the drafting and implementation of regulations related to the industry. In addition, burdensome regulation at the state level could slow or stop further development of the medical-use cannabis industry, such as limiting the medical conditions for which medical cannabis can be recommended by physicians for treatment, restricting the form in which medical cannabis can be consumed, imposing significant registration requirements on physicians and patients or imposing significant taxes on the growth, processing and/or retail sales of cannabis, which could have the impact of dampening growth of the cannabis industry and making it difficult for cannabis businesses to operate profitably in those states.

FDA regulation of medical-use cannabis and the possible registration of facilities where medical-use cannabis is grown could negatively affect the medical-use cannabis industry and our financial condition.

Should the federal government legalize cannabis for medical-use, it is possible that the U.S. Food and Drug Administration, or the FDA, would seek to regulate it under the Food, Drug and Cosmetics Act of 1938. Additionally, the FDA may issue rules and regulations including certified good manufacturing practices, or cGMPs, related to the growth, cultivation, harvesting and processing of medical cannabis. Clinical trials may be needed to verify efficacy and safety. It is also possible that the FDA would require that facilities where medical-use cannabis is grown register with the FDA and comply with certain federally prescribed regulations. In the event that some or all of these regulations are imposed, we do not know what the impact would be on the medical-use cannabis industry, including what costs, requirements and possible prohibitions may be enforced. If manufacturers and distributors are unable to comply with the regulations or registration as prescribed by the FDA, this could negatively impact our financial condition.

We derive most of our revenues from the sale of advertising, and a decrease in overall advertising expenditures could lead to a reduction in the amount of advertising that companies are willing to purchase and the price at which they purchase it.

Expenditures by advertisers tend to be cyclical and have become less predictable in recent years, reflecting domestic and global economic conditions. If the economic prospects of advertisers or current economic conditions worsen, such conditions could alter current or prospective advertisers' spending priorities. In particular, advertisers in certain industries that are more susceptible to weakness in domestic and global economic conditions, such as beauty, fashion and retail and food, account for a significant portion of our advertising revenues, and weakness in these industries could have a disproportionate negative impact on our advertising revenues. Declines in consumer spending on advertisers' products due to weak economic conditions could also indirectly negatively impact our advertising revenues, as advertisers may not perceive as much value from advertising if consumers are purchasing fewer of their products or services. As a result, our advertising revenues are less predictable.

The SEC is monitoring the cannabis industry and may halt or prevent the Offering or sale of our securities due to the bad acts of others.

On May 16, 2014, the SEC's Office of Investor Education and Advocacy issued an Investor Alert to warn investors about potential risks involving investments in marijuana-related companies. The SEC noted an increase in the number of investor complaints regarding marijuana-related investments. The SEC issued temporary trading suspensions for the common stock of five different marijuana-related companies. Due to the stigma created by the bad acts of others in the industry, the SEC may halt trading and offerings in all marijuana-related companies which would have a material adverse effect on our ability to raise capital and our business.

We operate in a turbulent market populated by businesses that are highly volatile.

The US market for cannabis products is highly volatile. While we believe that it is an exciting and growing market, many companies involved in cannabis products and services used to be involved in illegal activities, some still are, and many of them operate in unconventional ways. Some of these differences which represent challenges to us include not keeping appropriate financial records, inexperience with business contracts, not having access to customary business banking relationships, not having quality manufacturing relationships, and not having customary distribution arrangements. Any one of these challenges, if not managed well, could materially adversely impact our business.

Many cannabis activities, products, and services still violate law.

The legal patchwork to which cannabis companies are subject is still evolving and frequently uncertain. While we believe that anti-cannabis laws are softening and that the trend is toward legalization of cannabis products, many states and the US government still view some or all cannabis activity as illegal. Notwithstanding this uncertainty we intend to do our best to engage in activities that are unambiguously legal and to use what influence we have with our affiliates for them to do the same. But we will not always have control over those companies with whom we do business and there is a risk that we could suffer a substantial and material loss due to routine legal prosecution. Similarly, many jurisdictions have adopted so-called "zero tolerance" drug laws. If our, or our affiliates' activities

related to cannabis activities, products, and services are deemed to violate one or more federal or state laws, we may be subject to civil and criminal penalties, including fines, for aiding and abetting those activities through the provision of our software products.

Reductions in marketing sales or sales of our services will have an adverse effect on our profitability and ability to generate cash to fund our business plan.

The following factors, among others, could affect continued market acceptance and profitability of our future products:

- the introduction of competitive services;
- changes in consumer preferences among cannabis products;
- changes in consumer perception about trendy products;
- changes in consumer perception regarding the healthfulness of cannabis products;
- the level and effectiveness of our marketing efforts;
- any unfavorable publicity regarding our services or similar services;
- any unfavorable publicity regarding our brand;
- litigation or threats of litigation with respect to our services;
- any changes in government policies and practices related to our services, and markets;
- regulatory developments affecting the marketing or use of our services;
- new science or research that disputes the healthfulness of cannabis; and
- adverse decisions or rulings limiting our ability to promote the benefits of cannabis.

Adverse developments with respect sales of cannabis would indirectly reduce our user base and profitability and have a material adverse effect on our ability to maintain profitability and achieve our business plan.

We plan to obtain insurance that may not provide adequate levels of coverage against claims.

We plan to obtain insurance customary for businesses of our size and type. However, there are types of losses we may incur that cannot be insured against or that we believe are not economically reasonable to insure. Such losses could have a material adverse effect on our business and results of operations.

Establishing, maintaining, extending and expanding our reputation and brand image are essential to our business success.

We plan to establish, maintain, extend, and expand our brand image through marketing investments, including advertising and consumer promotions. Increasing attention on marketing could adversely affect our brand image. It could also lead to stricter regulations and greater scrutiny of marketing practices. Existing or increased legal or regulatory restrictions on our advertising, consumer promotions and marketing, or our response to those restrictions, could limit our efforts to maintain, extend and expand our brands. Moreover, adverse publicity about regulatory or legal action against us could damage our reputation and brand image, undermine our customers' confidence and reduce long-term demand for our products, even if the regulatory or legal action is unfounded or not material to our operations.

In addition, our success in establishing, maintaining, extending, and expanding our brand image depends on our ability to adapt to a rapidly changing media environment. We increasingly rely on social media and online dissemination of advertising campaigns. The growing use of social and digital media increases the speed and extent that information or misinformation and opinions can be shared. Negative posts or comments about us, our brands or products marketed on our platform or on social or digital media, whether or not valid, could seriously damage our brands and reputation. If we do not establish, maintain, extend and expand our brand image, then our financial condition and results of operations could be adversely affected.

Risks Related to the Company's Securities and this Offering

Affiliates of our company, including officers, directors and existing stockholder of our company, may invest in this Offering and their funds will be counted toward our achieving the Minimum Amount.

There is no restriction on our affiliates, including its officers, directors and existing stockholders, investing in the Offering. As a result, it is possible that if we have raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and our company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them, may be invested in this Offering.

We intend to use some of the proceeds from the Offering for unspecified working capital.

This means that we have ultimate discretion to use this portion of the proceeds as we see fit and have chosen not to set forth any specific uses for you to evaluate. The net proceeds from this Offering will be used for the purposes, which our management deems to be in our best interests in order to address changed circumstances or opportunities. As a result of the foregoing, our success will be substantially dependent upon our discretion and judgment with respect to application and allocation of the net proceeds of this Offering. We may choose to use the proceeds in a manner that you do not agree with and you will have no recourse. A use of proceeds that does not further our business and goals could harm our company and its operations and ultimately cause you to lose all or a portion of your investment.

We are subject to income taxes as well as non-income-based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and foreign jurisdictions.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals; and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Our securities will not be freely tradable until one year from the initial purchase date. Although our securities may be tradable under federal securities law, state securities regulations may apply, and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for our securities. Because our securities have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, our securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of our securities may also adversely affect the price that you might be able to obtain for our securities in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Shares for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to us.

No governmental agency has reviewed or passed upon this Offering, our company or any Securities of our company. We also have relied on exemptions from securities registration requirements under applicable state securities laws. Investors, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of our company is owned by a small number of owners.

Prior to the Offering, our company's current owners of 20% or more beneficially own up to 55.10% of our company. Subject to any fiduciary duties owed to our other owners or investors under California law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant company transactions, and will have significant control over our management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of our company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for our company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of our company, or support or reject other management and board proposals that are subject to owner approval.

We have the right to extend the Offering deadline.

We may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while we attempt to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without our company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or until we receive the Minimum Amount, at which time it will be released to us to be used as set forth herein. Upon or shortly after release of such funds to us, the Shares will be issued and distributed to you.

Your ownership of the shares will be subject to dilution.

If we conduct subsequent Offerings of Common Stock, issue shares pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares, investors who purchase Shares in this Offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of our company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their shares depending on the terms and pricing of any future share issuances (including the shares being sold in this Offering) and the value of the our assets at the time of issuance.

The Securities will be equity interests in our company and will not constitute indebtedness.

The Securities will rank junior to all existing and future indebtedness and other non-equity claims on our company with respect to assets available to satisfy claims on the Company, including in a liquidation of our company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends are payable only if, when and as authorized and declared by us and depend on, among other matters, our historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors our board of directors deems relevant at the time. In addition, there is no limit on the amount of debt or other obligations we may incur in the future. Accordingly, we may incur substantial amounts of additional debt and other obligations that will rank senior to the Shares, which are the most junior securities of our company.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of our company or a registration of the Shares.

There can be no assurance that any form of merger, combination, or sale of our company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Shares for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Shares unless an exemption from registration is available.

The offering price in this Offering may not represent the value of our Shares.

The price of the Shares being sold in this Offering has been determined based on a number of factors and does not necessarily bear any relationship to our book value, assets, operating results or any other established criteria of value. Prices for our Shares may not be indicative of the fair market value of our Shares now or in the future.

Management has discretion over proceeds of this Offering.

We expect to use the net proceeds of this Offering, over time, for general corporate purposes, including working capital. However, we have no current specific plans for the net proceeds of this Offering other than as outlined in the use of proceeds section of this offering statement. As a result, our management will have the discretion to allocate the net proceeds to uses that investors may not deem desirable. There can be no assurance that the net proceeds can or will be invested to yield a significant return.

We do not anticipate paying any cash dividends for the foreseeable future.

We currently intend to retain future earnings, if any, for the foreseeable future, to repay indebtedness and to support our business and planned growth strategies. We do not intend in the foreseeable future to pay any dividends to holders of our Shares.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, we cannot predict whether we will successfully effectuate our current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Shares and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

Terms of the Offering

We are offering up to 856,000 shares of Common Stock for up to \$1,070,000.00. We are attempting to raise a minimum amount of \$25,000.00 in this Offering, which we refer to as the minimum amount or target amount. We must receive commitments from investors in an amount totaling the minimum amount by September 30, 2019, which we refer to as the Offering Deadline, in order to receive any funds. If the sum of the investment commitments does not equal or exceed the minimum amount by the Offering Deadline, no Shares will be sold in the Offering, investment commitments will be cancelled, and committed funds will be returned to potential investors without interest or deductions. We have the right to extend the Offering Deadline at our discretion. We will accept investments in excess of the minimum amount up to \$1,070,000.00, which we refer to as the maximum amount, and the additional Shares will be allocated as set forth in Question 10 of this Form C.

The price of the Shares does not necessarily bear any relationship to our company's asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Shares.

In order to purchase the Shares, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Prime Trust, who we refer to as the Escrow Agent, until the minimum amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. We will notify Purchasers when the minimum amount has been reached. If we reach the minimum amount prior to the Offering Deadline, we may close the Offering at least five (5) days after reaching the minimum amount and providing notice to the Purchasers. If any material change (other than reaching the minimum amount) occurs related to the Offering prior to the Offering Deadline, we will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled, and the committed funds will be returned without interest or deductions. We do not have any voting agreements or shareholder/equity holder agreements in place.

16. **Explain how the terms of the securities being offered may be modified?**

The rights of the holders of Common Stock of our company may only be modified by the majority vote of the shares of common stock of our company outstanding and entitled to vote, unless a greater number of voting shares is required by applicable law.

The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. **What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.**

The only securities of our Company that are outstanding are Common Stock. The total amount of Common Stock issued and outstanding prior to this Offering is 13,829,731 Shares.

We may also offer other debt or equity securities, including derivative securities like options, warrants and convertible debentures or notes in the future.

18. **How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?**

The Shares do not have anti-dilution rights, which means that future equity financings or other issuances of securities will dilute the ownership percentage that the Investor may eventually have in the Company.

19. **Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?** Yes No

20. **How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered.**

If the principal shareholders exercise their voting rights, then the minority shareholders will have no ability to override the principal shareholders' votes. As a minority shareholder in our company, you will have limited ability, if at all, to influence our policies or any other corporate matters.

21. **How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.**

The Shares being offered have been arbitrarily valued. Also, see the "The offering price in this Offering may not represent the value of our Securities" risk factor.

22. **What are the risks to purchasers of the securities relating to minority ownership in the issuer?**

As a minority shareholder in our company, you will have limited ability, if at all, to influence our policies or any other corporate matters such as amendments to our articles of incorporation, the creation of securities that are senior to the Shares, mergers, the sale of all or substantially all of our assets, the election of board members, the liquidation or dissolution of our company and all other major corporate events.

23. **What are the risks to purchasers associated with corporate actions including: additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?**

The Shares do not have anti-dilution rights, which means that corporate actions, including: additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets, or transactions with related parties could dilute the ownership percentage that the Investor may eventually have in the Company.

24. **Describe the terms of any indebtedness of the issuer.**

The Company has an outstanding Convertible Promissory Note, which we refer to as the Note, in the amount of \$75,000. The Note was issued on January 9, 2019 and matures on July 9, 2019. The interest rate of the Note is 8%. The Note is secured by a lien on our intellectual property. The Note is convertible at \$0.20 per share. The Note may be prepaid without the prior written consent of the investors.

Ladies and Gentlemen:

1. Background. The undersigned understands that P5 Systems, Inc., a California corporation doing business as BudTrader (the “**Company**”), is conducting an offering (the “**Offering**”) under Section 4(a)(6) of the Securities Act of 1933, as amended (the “**Securities Act**”) and Regulation Crowdfunding promulgated thereunder. This Offering is made pursuant to the Form C, dated May 16, 2019, as the same may be amended from time to time, filed by the Company with the SEC (the “**Form C**”) and the Offering Statement, which is included therein (the “**Offering Statement**”). The Company is offering to both accredited and non-accredited investors up to 856,000 shares of its Common Stock, no par value (each a “**Share**” and, collectively, the “**Shares**”) at a price of \$1.25 per Share (the “**Purchase Price**”). The minimum amount or target amount to be raised in the Offering \$25,000 (the “**Target Offering Amount**”) and the maximum amount to be raised in the offering is \$1,070,000 (the “**Maximum Offering Amount**”). If the Offering is oversubscribed beyond the Target Offering Amount, the Company will sell Shares on a basis to be determined by the Company’s management. The Company is offering the Shares to prospective investors through the EquiFund Crowd Funding Portal (the “**Portal**”). The Portal is registered with the Securities and Exchange Commission (the “**SEC**”), as a funding portal and is a funding portal member of the Financial Industry Regulatory Authority. The Company will pay the Portal a commission equal to 7% of gross monies raised in the Offering and Common Stock that is equal to 7% of the total shares of Common Stock sold in the Offering. Investors should carefully review the Form C and the accompanying Offering Statement, which are available on the website of the Portal at www.equifundcfp.com.

2. Subscription. Subject to the terms of this Agreement and the Form C and related Offering Statement, the undersigned hereby subscribes to purchase the number of Shares equal to the quotient of the undersigned’s subscription amount as indicated through the Portal’s platform divided by the Purchase Price and shall pay the aggregate Purchase Price in the manner specified in the Form C and Offering Statement and as per the directions of the Portal through the Portal’s website. Such subscription shall be deemed to be accepted by the Company only when this Agreement is countersigned on the Company’s behalf. No investor may subscribe for a Share in the Offering after the Offering campaign deadline as specified in the Offering Statement and on the Portal’s website (the “**Offering Deadline**”).

3. Closing.

(a) Closing. Subject to this Section 3(b), the closing of the sale and purchase of the Shares pursuant to this Agreement (the “**Closing**”) shall take place through the Portal within five Business Days after the Offering Deadline (the “**Closing Date**”).

(b) Closing Conditions. The Closing is conditioned upon satisfaction of all the following conditions:

(i) prior to the Offering Deadline, the Company shall have received aggregate subscriptions for Shares in an aggregate investment amount of at least the Target Offering Amount;

at the time of the Closing, the Company shall have received into the escrow account established with the Portal and the escrow agent in cleared funds, and is accepting, subscriptions for Shares having an aggregate investment amount of at least the Target Offering Amount; and

(ii) the representations and warranties of the Company contained in Section 7 hereof and of the undersigned contained in Section 5 hereof shall be true and correct as of the Closing in all respects with the same effect as though such representations and warranties had been made as of the Closing.

4. Termination of the Offering; Other Offerings. The undersigned understands that the Company may terminate the Offering at any time. The undersigned further understands that during and following termination of the Offering, the Company may undertake offerings of other securities, which may or may not be on terms more favorable to an investor than the terms of this Offering.

5. Representations. The undersigned represents and warrants to the Company and the Company’s agents as follows:

investment advice or as a recommendation to purchase the Shares. It is understood that information and explanations related to the terms and conditions of the Shares provided in the Form C and accompanying Offering Statement or otherwise by the Company, the Portal or any of their respective affiliates shall not be considered investment advice or a recommendation to purchase the Shares, and that neither the Company, the Portal nor any of their respective affiliates is acting or has acted as an advisor to the undersigned in deciding to invest in the Shares. The undersigned acknowledges that neither the Company, the Portal nor any of their respective affiliates have made any representation regarding the proper characterization of the Shares for purposes of determining the undersigned's authority or suitability to invest in the Shares.

(f) The undersigned is familiar with the business and financial condition and operations of the Company, all as generally described in the Form C and accompanying Offering Statement. The undersigned has had access to such information concerning the Company and the Shares as it deems necessary to enable it to make an informed investment decision concerning the purchase of the Shares.

(g) The undersigned understands that, unless the undersigned notifies the Company in writing to the contrary at or before the Closing, each of the undersigned's representations and warranties contained in this Agreement will be deemed to have been reaffirmed and confirmed as of the Closing, taking into account all information received by the undersigned.

This Agreement shall thereafter have no force or effect and the Company shall return any previously paid subscription price of the Shares, without interest thereon, to the undersigned.

(i) The undersigned understands that no federal or state agency has passed upon the merits or risks of an investment in the Shares or made any finding or determination concerning the fairness or advisability of this investment.

(j) The undersigned has up to 48 hours before the campaign end date to cancel the purchase and get a full refund.

(l) The undersigned has such knowledge, skill and experience in business, financial and investment matters that the undersigned is capable of evaluating the merits and risks of an investment in the Shares. With the assistance of the undersigned's own professional advisors, to the extent that the undersigned has deemed appropriate, the undersigned has made its own legal, tax, accounting and financial evaluation of the merits and risks of an investment in the Shares and the consequences of this Agreement. The undersigned has considered the suitability of the Shares as an investment in light of its own circumstances and financial condition and the undersigned is able to bear the risks associated with an investment in the Shares and its authority to invest in the Shares.

(m) The undersigned is acquiring the Shares solely for the undersigned's own beneficial account, for investment purposes, and not with a view to, or for resale in connection with, any distribution of the Shares. The undersigned understands that the Shares have not been registered under the Securities Act or any state securities laws by reason of specific exemptions under the provisions thereof which depend in part upon the investment intent of the undersigned and of the other representations made by the undersigned in this Agreement. The undersigned understands that the Company is relying upon the representations and agreements contained in this Agreement (and any supplemental information provided by the undersigned to the Company or the Portal) for the purpose of determining whether this transaction meets the requirements for such exemptions.

The undersigned understands that the Company has no obligation or intention to register any of the Shares, or to take action so as to permit sales pursuant to the Securities Act. Even if and when the Shares become freely transferable, a secondary market in the Shares may not develop. Consequently, the undersigned understands that the undersigned must bear the economic risks of the investment in the Shares for an indefinite period of time.

(o) The undersigned agrees that the undersigned will not sell, assign, pledge, give, transfer or otherwise dispose of the Shares or any interest therein or make any offer or attempt to do any of the foregoing, except pursuant to Section 227.501 of Regulation Crowdfunding.

(p) If the undersigned is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the undersigned hereby represents and warrants to the Company that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Shares or any use of this Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Shares, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of the Shares. Investing in Regulation CF offerings involves a high degree of risk. Securities sold through Regulation CF Offerings are typically not publicly traded and, therefore, are less liquid. Additionally, investors will receive restricted stock that is subject to holding period requirements. Companies seeking capital through Regulation CF Offerings tend to be in earlier stages of development and have not yet been fully tested in the public marketplace. Investing in Regulation CF Offerings requires a tolerance for high risk, low liquidity, and a long-term commitment. Investors must be able to afford to lose their entire investment. Such investment products are not FDIC insured, may lose value, and have no bank guarantee.

BUDTRADER

- ▶ **Largest cannabis social media platform in the world**
- ▶ **2,000,000+ register users**
- ▶ **Over \$2 Million in revenues** in the past 24 months
- ▶ There is **no advertising or networking platform** in the legal cannabis industry for cannabis business owners except for marijuana delivery services and dispensaries
- ▶ **Better on-site analytics** than other cannabis platforms like Weedmaps, Leafly and Massroots
- ▶ Set for **rapid expansion** across the U.S. and internationally

▶ **BudTrader is seeking a limited number of investors to join them at an exclusive pre-IPO valuation**

3 BACKGROUND:

Cannabis is the fastest growing industry in the nation

- ▶ In 2018, sales increased 34% nationwide to \$10.8 billion. In 2019, that number is expected to hit \$12.9 billion. And by 2025, legal cannabis sales are projected to grow to **\$26.3 billion**.

FASTEST GROWING JOB MARKET IN THE U.S.

The cannabis industry consists of thousands of small businesses and dozens of different market segments.

(for example: growers, suppliers, dispensaries, equipment, real estate, casual users, medicinal users...etc).

“The marijuana industry looks like the fastest-growing job market in the country.”

- ▶ The total number of full-time American jobs that depend on legal cannabis is estimated at 296,000... nearly twice the number of kindergarten teachers.
- ▶ The marijuana industry added 64,389 jobs in 2018. That's almost the same number as the entire coal industry (76,572 jobs)

4 THE PROBLEM:

There is no advertising or networking platform in the legal cannabis industry for business owners

▶ *The only exception is delivery services and dispensaries but these make up a small percentage of all cannabis-related businesses.*

▶ **MAINSTREAM MEDIA IS NOT YET AVAILABLE TO THOSE WHO SEEK A RELIABLE ADVERTISING PLATFORM.**

Online marketing is also tough for cannabis business owners...

- ▶ **Social media are notorious for deleting/blocking cannabis related posts and shutting down entire accounts.** Sites like Facebook, YouTube and Instagram connect over half of all internet users in the U.S.
- ▶ **Major search engines don't permit cannabis-related advertising.** Google, Bing, and Yahoo control more than 95% of all internet searches in the United States.

“You have to be very careful on social media. We’ve already been taken down once. What BudTrader offers is a very open forum for people to exchange ideas, communicate, post ads. It’s been very helpful to us in promoting our business and expanding our network and things like that. From a business standpoint, it’s really good to have a place that’s a hub for all things [cannabis]. What I really love about it is that the technology is there to support all players. What’s great about it is that you have everyone mixing together. That’s a really powerful thing to have, because it covers all aspects of this industry from the consumer to the retailer all the way down. For an industry that’s really integrated, I think that’s very beneficial as well. In that you have business owners that own everything up and down the chain and then you have the consumers and they’re all able to interact.”

▶ *It's all about education, and BudTrader helps us reach more people.*

“Even though I only provide tours, I’m still having a really hard time advertising, selling tickets. So Brad’s helped me tremendously with that. With the education aspect, we’re starting to work with retirement communities. They’re the largest growing demographic of cannabis users. So you know, going into the retirement communities with an actual doctor, offering 1:1 cannabis courses, and then setting up transportation with a knowledgeable rep. It’s all about education, and BudTrader helps us reach more people. Now, I get at least three ticket sales a week through BudTrader. We have a lot of private events, too. I booked a couple of weddings through his site and some other events. People are always looking for private VIP tours and BudTrader is a great connecting-tool for me and MJ Tours.”

- ▶ We started a non-profit “Save The Weed, Save The World” which promotes cannabis- and hemp-based solutions to better society.
- ▶ We released a whitepaper challenging President Trump to forgo concrete and steel for his border wall, in favor of “Hempcrete” -- a cheaper, cement-like substance made from hemp.

- ▶ And last but not least, we’re **even helping to reshape the NFL.** We recently undertook a study involving more than 150 current and former players that showed overwhelming support for the use of medicinal cannabis as an alternative to opioid-based pain killers. The NFLPA may use this in their next collective bargaining agreement.

“I’ll fight for the cannabis community. For the ambitious entrepreneur. For the little guy. The mom-and-pop shop. The recreational consumer. And last but not least, the medicinal user -- just like myself.”

Hi I'm Brad McLaughlin, CEO of BudTrader.com. BudTrader is the world's largest cannabis social media platform. In less than three years, we've grown to over 2 million registered users in the United States and almost 100,000 registered users in Canada. We've expanded to Puerto Rico with plans to expand to the European Union, Australia and Mexico in the next 18 months.

We've started a non-profit called Save the Weed, Save the World and we've become one of the most influential brands in the cannabis industry. And we've used that influence to meet with elected officials. The president of the United States and the former president of Mexico. We know we're only as strong as our audience and we wouldn't be here if it wasn't for you and we think we would be stronger with you behind us.

BudTrader has always been about community and that's why we want to give you the cannabis community the first opportunity to invest in BudTrader. Before the Wall Street banks, hedge funds and VC firms get an opportunity.

So what's important about BudTrader is that it's the only place you can really market and advertise your cannabis business online because you're still restricted from using Google, Yahoo, Bing, Facebook, Twitter, to promote your cannabis business and the fact that we have two million registered users posting 150,000 new ads everyday where else can you find the cannabis community in one place?

So here are some of the advanced BudTrader analytics that we collect and there's things that we can identify because we can look at the data. These are some of our numbers just in the state of California, which is one of our more popular sections. They are averaging looking at around 620,000 pages, which is up 13% from last month. And they're spending about 11 minutes on the site and on average, the user comes back to the site twice a day.

We're looking at the back end and there's considerably more ads in the delivery section than there are in the dispensary section. So to me, this is proof of like a market trend that's coming here in the state of California, where the delivery service is going to become more important than the brick-and-mortar dispensary.

If you compare us to some of our competitors and the amount of time that people spend on their sites and how much time they spend on ours. People go to Leafly and spend about 3 minutes there. Weedmaps, they spend about 5 minutes. On BudTrader, they spend 16 minutes. So it's significantly more time than our competition, which I think speaks to how powerful BudTrader really is to the cannabis community and what a powerful marketing and advertising tool can be.

The numbers don't lie and what the numbers are telling us is that BudTrader is the premier platform for the cannabis community in the cannabis community. And if you're serious about growing your cannabis business or you're a cannabis enthusiast you're likely on BudTrader.
