Please respond to these comments within ten business days by providing the requested information or advise us as soon as possible when you will respond. If you do not believe our comments apply to your facts and circumstances, please tell us why in your response.

Form 10-K for the Year Ended December 31, 2021

Item 9A. Controls and Procedures, page 46

1. We note that you identified material weaknesses in your internal control over financial reporting for the year ended December 31, 2021. However, it does not appear as though you have included management's report on internal control over financial reporting, including an explicit conclusion whether your ICFR was effective or not effective. Please revise to include this management's report and a statement as to whether or not internal control over financial reporting is effective in accordance with Item 308(a) of Regulation S-K.

Revenue, page F-12

2. Your disclosure indicates that you recognize revenue from XL Grid Solutions “when persuasive evidence of an arrangement exists, delivery has occurred, the price is fixed or determinable and the company has the right to payment for the transferred asset.” However, you also note in the preceding sentence that transfer of control is upon the acceptance and certification of project completion by both the end customer and the utility. Please note that under ASC 606, revenue should be recognized upon completion of the performance obligation in accordance with ASC 606-10-05-4.e and ASC 606-10-25-30. In this regard, please tell us and revise to disclose if this acceptance and certification occurs prior to the recognition of revenue.

3. Please revise to include the amount of expense for each year presented related to the 401(k) plan in accordance with ASC 715-70-50-1.

Please explain to us, and revise future filings to disclose how you determined the accounting acquirer in this transaction. As part of your response and revised disclosure, please refer to the guidance in ASC 805-10-55-10 through 55-15.
