Prospectus Summary

Forward Purchase Agreement, page 5

4. We note your disclosure related to the Prepaid Forward Purchase Agreement between you and RiverNorth SPAC Arbitrage Fund. Please revise to disclose who RiverNorth agreed to purchase the shares from. In this regard we note that Section (1)(a)(i) of the Form of Prepaid Forward Purchase Agreement filed as Exhibit 10.27 refers to "redeeming shareholders" without identifying the shareholders. In addition, disclose if any of the redeeming shareholders are your related parties. If applicable, include this agreement in the related party transactions section of the registration statement or advise.

Risk Factors, page 9

5. Please revise your risk factor disclosure to discuss risks associated with your access to additional financial resources. The risk factor should include a discussion of the equity line and the possibility that you may not have access to the full amount available to you under the equity line.
6. We note that on page 55 of your Form 10-K for the fiscal year ended March 31, 2023, you stated that on June 29, 2023 you had received a "Wells Notice" from the staff of the SEC's Division of Enforcement, "stating that the Staff has made a preliminary determination to recommend that the SEC file a civil enforcement action against [you] alleging violations of certain provisions of the Securities Act and the Securities Exchange Act relating to your association with GWG Holdings." We further note that you stated other parties, including your CEO, Brad Heppner, also received Wells Notices related to the investigation of GWG Holdings. Please revise your disclosure of the SEC investigation to provide the information required under Item 103 of Regulation S-K, in particular a description of the factual basis alleged to underlie the contemplated proceedings. Please also revise to include a separate risk factor that discusses any potential material consequences and penalties you may face if the SEC proceeds with enforcement actions related to the Wells Notice including financial penalties and sanctions and the risk of losing the ability to sell securities using the Regulation D exemption.
7. We note your disclosure on page iv that GWG Holdings Inc., one of your significant equity holders, filed a voluntary petition for reorganization under Chapter 11 of the United States Bankruptcy Code, and the Bankruptcy Court for the Southern District of Texas confirmed GWG Holdings Inc.'s bankruptcy plan. We further note that per your annual report on Form 10-K for the fiscal year ended March 31, 2023, GWG Holdings Inc. as of July 10, 2023 owned 169,751,487 shares or 72.4% of your Class A common stock. Please include a separate risk factor discussing both quantitatively and qualitatively the possible dilutive effect on your shares that could occur if the court orders the liquidation of GWG Holdings Inc.'s assets, including their holdings of your Class A common stock, and the selling of those shares in the open market.
8. Please provide a separate risk factor that discusses, in detail, the related party transfer of

funds received by Beneficient to related parties. In particular, the revised risk factor should address any payments or other interests held by your CEO, Brad Heppner, directly or as a beneficial owner/beneficiary, whether held through trusts, or other holdings. The disclosure should address both material holdings and aggregate holdings that:

- Have an ownership interest in Beneficient; or
- Have provided credit or funds that have a priority interest in Beneficient or its component parts, or in the event of bankruptcy, compared to the common shareholders.

Please further discuss the conflict of interest that could arise from a conflict between Mr. Heppner's financial interests and those of Beneficient's shareholders.

9. Please include an additional risk factor highlighting the negative pressure potential sales of shares pursuant to this registration statement could have on the public trading price of the Class A common stock. To illustrate this risk, disclose the purchase price of the securities being registered for resale on the two additional registration statements on Form S-1 filed on July 19, 2023, as well as the securities that may be sold by RiverNorth under the forward purchase agreement. Also disclose that even though the current trading price is significantly below the SPAC IPO price, some of the selling securityholders have an incentive to sell because they will still profit on sales because of the lower price that they purchased their shares than the public investors.
10. We also note that you did not timely file a Form 10-K for the year ended March 31, 2023. Please update and revise your risk factor section to include a risk factor similar to the last risk factor on page 59 of the 10-K filed for the fiscal year ended March 31, 2023. The new risk factor should state that you did not timely file the report, the reasons for the late report, and to assess the risks of continued inability to make timely filings.
11. Revise to add risk factor disclosure to disclose that the securities obtained by the RiverNorth may create an artificial ceiling for your securities, as the purchaser has an incentive to recover its investment. Also note that, if the market price for your securities remain below the designated price, you may be obligated to issue senior preferred securities to RiverNorth, and you may never gain access to the full \$20 million in reserved funds.

Plan of Distribution, page 49

12. Please clarify how the provisions of Regulation M may prohibit YA II PN, Ltd. and any other participants in the distribution of your securities from:
 - Engaging in market making activities (e.g., placing bids or making purchases to stabilize the price of the common stock) while the equity line is in effect; and
 - Purchasing shares in the open market while the equity line is in effect.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
