

**ChargePoint Holdings, Inc.
Annual Report for the
fiscal year ended January 31, 2023**

To our shareholders:

This letter marks the end of our second year as a public company. I am pleased to report that fiscal year 2023 reinforced the strength of our asset-light business model. Rather than exclusively installing charging stations that ChargePoint owns and operates, we sell charging infrastructure with subscription software to third parties — from hotels and coffee shops to parking garages and municipalities and everyone in between. We have weaved all these chargers into a publicly accessible network, and we provide the tools our site hosts need to make charging benefit their business.

ChargePoint is driving the shift to electric mobility by providing these networked charging solutions in North America and Europe across commercial (e.g., retail, workplace, hospitality, parking, recreation, municipal, education and highway fast charge), fleet (e.g., delivery, take home, logistics, motor pool, transit and shared mobility) and residential (e.g., single-family homes and multifamily apartments and condominiums) verticals.

Fiscal year 2023 results

We are exceptionally proud of our fiscal year 2023 results. Despite facing industrywide supply chain headwinds, our revenue grew 94% year-on-year. Of particular note, in the fourth quarter, we surpassed our annualized subscription revenue benchmark of \$100 million, proof that our reoccurring revenue streams have built momentum. We demonstrated growth in fleet as a major vertical globally and our European region outpaced the growth rate of the balance of the company. At the close of fiscal year 2023, we estimate that our network had fueled more than 5 billion electric miles, avoiding more than 220 million cumulative gallons of gasoline and saving over 1 million metric tons of greenhouse gas emissions. By managing our operating expenses throughout the year, we were able to achieve improved operating leverage, which is foundational to our goal of becoming cash flow positive by the end of calendar year 2024.

Business model

ChargePoint was founded in 2007, ahead of any other EV charging network and before there was a single mass-market electric vehicle (EV) on the road. Our differentiated business model has enabled us to do for electric mobility something similar to what other companies have achieved in hospitality, delivery services and rideshare. Once businesses purchase charging solutions from us, they become part of the ChargePoint network, one of the largest, most widely recognized and reliable electric fueling solutions in North America and Europe. Through our powerful platform organizations have access to a comprehensive suite of technology solutions and services that give them complete control over their charging operations, allowing every business, regardless of type or size, to participate in the EV revolution.

Unlike traditional fueling that forces people to travel to a central location to fill up their vehicles, EV drivers can charge wherever they happen to be parked: at home, at work, around town or on the road. ChargePoint enables our customers to take advantage of this shift in consumer behavior by offering charging solutions that best fit the unique needs of their businesses. For example, workplaces or multifamily properties may offer charging as an employee benefit or resident perk. Retail establishments or hotels may rely on it to help drive customer engagement. Municipalities or parking providers may choose to use it as a revenue opportunity. Our model agnostically applies to all those scenarios, making us a ubiquitous presence for drivers, which, in turn, propels a network effect for businesses. Businesses choose ChargePoint because we are a familiar brand that their drivers and ecosystem partners already know and trust.

Our asset-light, recurring revenue model has also enabled ChargePoint to become the only electric fueling network currently operating at scale in nearly every vertical across North America and Europe. As a result of our high level of capitalization and the maturity of the company, we have industry-leading breadth of support for

business and driver use cases. This is showcased in our ability to cover mixed-use customer needs. Examples of this include businesses that use our products for both their employee and fleet needs, cities that timeshare public and fleet charging infrastructure and real estate leaders who deploy our products for multifamily, office parking and retail in the same location.

Partnerships

ChargePoint provides businesses, fleets and ecosystem partners such as auto OEMs and fuel card providers with the software APIs to enable them to build their charging presence on our platform without the need for complex integrations across multiple charging providers. This allows consolidated roaming access to the majority of networked chargers in North America and Europe, making our platform the point of integration for drivers across the geographies we serve.

OEM partners

Vehicle manufacturers play a pivotal role as our partners, and we are here to help them with critical infrastructure needs. For instance, Volvo began installing publicly available, Volvo-branded ChargePoint fast chargers at Starbucks locations along the 1,350-mile route from Seattle to Denver. Partnerships like this, built on the ChargePoint platform, are just the beginning of what we refer to as the “30-minute retail economy,” which will allow naturally aligned retail businesses to cater to EV drivers on road trips longer than their battery range. We enable many OEMs via software integrations with their in-dash infotainment systems and companion apps, as well as the iOS and Android platforms and the native Google car experience. Many of our vehicle manufacturer partners offer our ChargePoint Home Flex charger to their customers and recommend us to their dealers for their charging needs as well.

Fleet partners

In fiscal year 2023, we added numerous OEM fleet partners, further strengthening our position in that segment. We strengthened our partnership with European mobility giant ALD Automotive to accelerate corporate fleet electrification across the continent and, to complement our partnership with WEX, we partnered with UTA Edenred, a leading European fuel card provider, adding to our long list of payment partners.

Channel partners

We also continued to grow our channel partner network and launched a mobile application for installers. This was our first step in creating an education and support platform for these key industry players. Because our channel partners transact the majority of our business, it extends our sales reach in a scalable way. This provides the foundational support that enables ChargePoint to scale quickly, which is critical given the expected growth rate of charging infrastructure as vehicles convert from fossil fuels to electric drive.

Financial partners

We work with partners to offer a variety of financing models that include full subscription (bundled charger, warranty and network fees), third-party asset ownership and advertising subsidies (where applicable), in addition to customer-purchased chargers with subscription network and warranty services.

This is only the beginning. When the story of the modern EV is written, the era we are living in will still be part of the prologue. BloombergNEF (BNEF) estimates that by 2025, EVs will make up 4% of the passenger fleets in North America and more than 7% of passenger fleets in Europe. That means we are at the start of a decades-long cycle that ChargePoint is strategically positioned for — as a clear leader in electric fueling, as an index for the electrification of transportation and as a platform that will continue embedding into the broader ecosystem as the space evolves. I am extremely proud of the ChargePoint team, and our partners who made this year possible. Because ChargePoint is positioned at the center of an expanding electric vehicle ecosystem that we believe has

passed the point of no return, our platform will enable any business, regardless of size, to be part of the largest transformation in transportation in more than a century.

Pasquale Romano

Forward-looking statements

This letter contains forward-looking statements that involve risks, uncertainties, and assumptions including statements regarding our plans, strategy, market opportunity and partnerships. Any statements that are not historical facts, may be forward-looking statements. Words used such as “anticipates,” “believes,” “continues,” “designed,” “estimates,” “expects,” “goal,” “intends,” “likely,” “may,” “ongoing,” “plans,” “projects,” “pursuing,” “seeks,” “should,” “will,” “would” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these words. All forward-looking statements are based on our current assumptions, expectations and beliefs, and involve substantial risks and uncertainties that may cause results, performance or achievement to materially differ from those expressed or implied by these forward-looking statements. There are a significant number of factors that could cause actual results to differ materially from the statements made in this letter, including: macroeconomic trends including changes in inflation or interest rates, or other events beyond our control on the overall economy, our business and those of our customers and suppliers, including due to supply chain disruptions and expense increases; our limited operating history as a public company; our ability as an organization to successfully acquire and integrate other companies, products or technologies in a successful manner; our dependence on widespread acceptance and adoption of EVs and increased installation of charging stations; our current dependence on sales of charging stations for most of our revenues; overall demand for EV charging and the potential for reduced demand for EVs if governmental rebates, tax credits and other financial incentives are reduced, modified or eliminated or governmental mandates to increase the use of EVs or decrease the use of vehicles powered by fossil fuels, either directly or indirectly through mandated limits on carbon emissions, are reduced, modified or eliminated; supply chain interruptions and expense increases; unexpected delays in new product introductions; our ability to expand our operations and market share in Europe; the need to attract additional fleet operators as customers; our ability to attract and retain key partnerships, including with respect to auto manufacturers, potential adverse effects on our revenue and gross margins if customers increasingly claim clean energy credits and, as a result, they are no longer available to be claimed by us; the effects of competition; risks related to our dependence on our intellectual property; and the risk that our technology could have undetected defects or errors. Additional risks and uncertainties that could affect our financial results are included under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Form 10-K filed with the Securities and Exchange Commission (SEC), which is available on our website at investors.chargepoint.com and on the SEC’s website at www.sec.gov. Additional information will also be set forth in other filings that we make with the SEC from time to time. All forward-looking statements in this letter are based on information available to us as of the date hereof, and we do not assume any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made, except as required by applicable law.

ChargePoint Holdings, Inc.
2023 Proxy Statement

Campbell, CA 95008

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To Be Held at 10:00 a.m. Pacific Time on Tuesday, July 18, 2023

Dear Stockholder:

You are cordially invited to attend the Annual Meeting of Stockholders (the “Annual Meeting”) of ChargePoint Holdings, Inc., a Delaware corporation (the “Company”), which will be held on **Tuesday, July 18, 2023** at 10:00 a.m. Pacific Time. The Annual Meeting will be a virtual meeting of stockholders, which will be conducted via a live audio webcast. You will be able to attend the Annual Meeting, submit your questions and vote online during the meeting by visiting www.virtualshareholdermeeting.com/CHPT2023. We believe a virtual meeting provides expanded access, improves communication, enables increased stockholder attendance and participation and provides cost savings for our stockholders and the Company.

The Annual Meeting is being held for the following purposes:

1. To elect the four Class III directors named in this proxy to the Board of Directors (the “Board”), each to hold office until the 2026 Annual Meeting of Stockholders;
2. To ratify the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for its fiscal year ending January 31, 2024;
3. To approve, on an advisory basis, the compensation of our named executive officers, as disclosed in the Proxy Statement;
4. To approve an amendment and restatement of our Second Amended and Restated Certificate of Incorporation to provide for the exculpation of certain officers of the Company as permitted by Delaware law (the “Exculpation Proposal”); and
5. To transact such other business as may properly come before the Annual Meeting or any continuation or adjournment thereof.

These items of business are more fully described in the Proxy Statement accompanying this Notice.

The record date for the Annual Meeting is May 22, 2023. Only stockholders of record at the close of business on that date may vote at the meeting or any adjournment thereof.

On or about May 25, 2023, we expect to mail to our stockholders a Notice of Internet Availability of Proxy Materials (the “Notice”) containing instructions on how to access our Proxy Statement and our Annual Report on Form 10-K for the fiscal year ended January 31, 2023 (“2023 Annual Report”). The Notice provides instructions on how to vote via the Internet or by telephone and includes instructions on how to receive a paper copy of our proxy materials by mail. The accompanying Proxy Statement and our 2023 Annual Report can be accessed directly at the following Internet address: <http://www.proxyvote.com>. All you have to do is enter the control number located on your proxy card.

In the event of a technical malfunction or other situation that the meeting chair determines may affect the ability of the Annual Meeting to satisfy the requirements for a meeting of stockholders to be held by means of remote communication under the Delaware General Corporation Law, or that otherwise makes it advisable to adjourn the Annual Meeting, the meeting chair or secretary of the Annual Meeting will convene the meeting at 4:00 p.m. Pacific Time on the date specified above and at the Company’s address specified above solely for the purpose of adjourning the meeting to reconvene at a date, time and physical or virtual location announced by the meeting chair. Under either of the foregoing circumstances, we will post information regarding the announcement on the Investors page of the Company’s website at www.chargepoint.com.

Important Notice Regarding the Availability of Proxy Materials for the Stockholders' Meeting to Be Held on Tuesday, July 18, 2023 at 10:00 a.m. Pacific Time online at www.virtualshareholdermeeting.com/CHPT2023.

The Proxy Statement and 2023 Annual Report are available at www.ProxyVote.com.

The Board recommends that you vote “FOR” the election of all nominees for director in Proposal No. 1, “FOR” Proposal No. 2, “FOR” Proposal No. 3, and “FOR” Proposal No. 4.

YOUR VOTE IS IMPORTANT. Whether or not you plan to attend the Annual Meeting, we urge you to submit your vote via the Internet, telephone or mail as soon as possible to ensure your shares are represented.

We appreciate your continued support of ChargePoint Holdings, Inc. and look forward to receiving your proxy.

By Order of the Board

/s/ Pasquale Romano

Pasquale Romano
President and Chief Executive Officer

Campbell, California
May 25, 2023

You are cordially invited to attend the Annual Meeting, which will be held virtually via the Internet. Whether or not you expect to attend the Annual Meeting, please vote as promptly as possible in order to ensure your representation at the meeting. You may vote your shares by telephone or over the Internet as instructed in these materials. If you received a proxy card or voting instruction card by mail, you may submit your proxy card or voting instruction card by completing, signing, dating and mailing your proxy card or voting instruction card in the envelope provided. Even if you have voted by proxy, you may still attend the meeting. Please note, however, that if your shares are held of record by a broker, bank or other nominee and you wish to vote at the meeting, you must obtain a proxy issued in your name from that record holder.

**PROXY STATEMENT
FOR THE 2023 ANNUAL MEETING OF STOCKHOLDERS**

To Be Held at 10:00 a.m. Pacific Time on Tuesday, July 18, 2023

QUESTIONS AND ANSWERS ABOUT THESE PROXY MATERIALS AND VOTING

We are providing you with these proxy materials because the Board of Directors of ChargePoint Holdings, Inc. (the "Board") is soliciting your proxy to vote at ChargePoint's 2023 Annual Meeting of Stockholders (the "Annual Meeting"), including at any adjournments or postponements thereof, to be held via a live audio webcast on Tuesday, July 18, 2023 at 10:00 a.m. Pacific Time. The Annual Meeting can be accessed by visiting www.virtualshareholdermeeting.com/CHPT2023 where you will be able to listen to the meeting live, submit questions and vote online.

You are invited to attend the Annual Meeting to vote on the proposals described in this Proxy Statement. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may simply follow the instructions below to submit your proxy.

The proxy materials, including this Proxy Statement and our Annual Report on Form 10-K for the fiscal year ended January 31, 2023 ("2023 Annual Report"), are being distributed and made available on or about May 25, 2023. As used in this Proxy Statement, references to "we," "us," "our," "ChargePoint" and the "Company" refer to ChargePoint Holdings, Inc. and its subsidiaries. ChargePoint was a special purpose acquisition company called Switchback Energy Acquisition Corporation ("Switchback") prior to the closing of the Business Combination on February 26, 2021. As used in this Proxy Statement, the term "Business Combination" represents the transactions contemplated by an agreement and plan of reorganization whereby the entities that previously comprised the business of ChargePoint, Inc. ("Legacy ChargePoint") merged with and into a subsidiary of the Company. For further information on the Business Combination, please refer to our Current Report on Form 8-K as filed with the Securities and Exchange Commission (the "SEC") on March 1, 2021. Our SEC filings are available to the public on a website maintained by the SEC located at www.sec.gov. We also maintain a website at <https://investors.chargepoint.com/financials/sec-filings/default.aspx> with our prior SEC filings.

Why are you holding a virtual meeting and how can stockholders attend?

We have adopted a virtual meeting format for our Annual Meeting. We believe a virtual meeting format will provide a consistent experience to all stockholders regardless of geographic location and enhance stockholder access and engagement. To participate in our virtual Annual Meeting, including to vote, ask questions and to view the list of registered stockholders as of the record date during the meeting, visit www.virtualshareholdermeeting.com/CHPT2023 with your 16-digit control number included in the Notice, on your proxy card, or in the instructions that accompanied your proxy materials. If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, follow the instructions from your broker or bank.

What can I do if I need technical assistance during the Annual Meeting?

If you encounter any difficulties accessing the Annual Meeting during the check-in or meeting time, please call the technical support number that will be posted on the Annual Meeting log-in page.

Why did I receive a notice regarding the availability of proxy materials on the internet?

Pursuant to rules adopted by the SEC, we have elected to provide access to our proxy materials over the Internet. Accordingly, we have sent you a Notice of Internet Availability of Proxy Materials (the “Notice”) because the Board is soliciting your proxy to vote at the Annual Meeting, including at any adjournments or postponements of the meeting. All stockholders will have the ability to access the proxy materials on the website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the internet or to request a printed copy may be found in the Notice.

On or about May 25, 2023, the proxy materials are being distributed to all stockholders of record entitled to vote at the Annual Meeting.

What proxy materials are available on the internet?

The 2023 Proxy Statement and 2023 Annual Report are available at www.ProxyVote.com.

Who can vote at the Annual Meeting?

If you are a stockholder of record as of the record date, you may vote your shares at the Annual Meeting by following the instructions provided on the Notice to log in to www.virtualshareholdermeeting.com/CHPT2023. You will be asked to provide the control number from your Notice.

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you must obtain a valid proxy from your broker, bank or other agent to vote online during the Annual Meeting. Follow the instructions from your broker or bank included with these proxy materials or contact your broker or bank to request a proxy form.

The webcast of the Annual Meeting will begin promptly at 10:00 a.m. Pacific Time. We encourage you to access the meeting prior to the start time. Online check-in will begin at 9:45 a.m. Pacific Time, and you should allow reasonable time for the check-in procedures.

Vote by Proxy

Whether or not you plan to attend the Annual Meeting, we urge you to vote by proxy to ensure your vote is counted. You may still attend and vote at the Annual Meeting even if you have already voted by proxy.

If you are a stockholder of record, you may vote by proxy over the telephone, vote by proxy through the Internet or vote by proxy using a proxy card that you may request or that we may elect to deliver at a later time:

- To vote over the telephone, dial toll-free 1-800-690-6903 using a touch-tone phone and follow the recorded instructions. You will be asked to provide the control number from the Notice. Your vote must be received by 11:59 p.m. Eastern Time on July 17, 2023 to be counted.
- To vote through the Internet, go to www.proxyvote.com to complete an electronic proxy card. You will be asked to provide the control number from your Notice. Your vote must be received by 11:59 p.m. Eastern Time on July 17, 2023 to be counted.
- To vote using the printed proxy card that may be delivered to you, simply complete, sign and date the proxy card and return it promptly in the envelope provided. If you return your signed proxy card to us before the Annual Meeting, we will vote your shares as you instruct. If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you should have received a Notice containing voting instructions from that organization rather than from us. Simply follow the voting instructions in the Notice to ensure that your vote is counted.

We are holding the Annual Meeting online and providing internet voting to provide expanded access and to allow you to vote your shares online, with procedures designed to ensure the authenticity and correctness of your voting instructions. However, please be aware that you must bear any costs associated with your internet access, such as usage charges from internet access providers and telephone companies.

Stockholder of Record: Shares Registered in Your Name

If on May 22, 2023 your shares were registered directly in your name with ChargePoint's transfer agent, Continental Stock Transfer & Trust Company, then you are a stockholder of record. As a stockholder of record, you may vote at the meeting or vote by proxy. Whether or not you plan to attend the meeting, we urge you to vote by proxy to ensure your vote is counted.

Beneficial Owner: Shares Registered in the Name of a Broker or Bank

If on May 22, 2023 your shares were held, not in your name, but rather in an account at a brokerage firm, bank, dealer or other similar organization, then you are the beneficial owner of shares held in "street name" and the Notice is being forwarded to you by that organization. The organization holding your account is considered to be the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent regarding how to vote the shares in your account. You are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares at the meeting unless you request and obtain a valid proxy from your broker or other agent.

What am I voting on?

There are four matters scheduled for a vote:

- Election of the four Class III directors named in this proxy and nominated by the Board, each to serve until the 2026 Annual Meeting of Stockholders;
- Ratification of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for its fiscal year ending January 31, 2024;
- Advisory approval of the compensation of our named executive officers; and
- Approval of the amendment and restatement of our Second Amended and Restated Certificate of Incorporation to provide for the exculpation of certain officers of the Company as permitted by Delaware law (the "Exculpation Proposal").

How does the Board recommend I vote on these proposals?

Our Board recommends a vote:

- "FOR" the election of Pasquale Romano, Elaine Chao, Bruce Chizen and Michael Linse as Class III directors;
- "FOR" the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for our fiscal year ending January 31, 2024;
- "FOR" the advisory approval of the compensation of our named executive officers; and
- "FOR" the approval of the Exculpation Proposal.

What if another matter is properly brought before the meeting?

The Board knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters are properly brought before the meeting, it is the intention of the persons named in the accompanying proxy to vote on those matters in accordance with their best judgment.

How many votes do I have?

On each matter to be voted upon, you have one vote for each share of common stock you own as of May 22, 2023. On this record date, there were 353,271,927 shares of our common stock outstanding.

What happens if I do not vote?*Stockholder of Record: Shares Registered in Your Name*

If you are a stockholder of record and do not vote by completing your proxy card, by telephone, through the internet or online at the Annual Meeting, your shares will not be voted.

Beneficial Owner: Shares Registered in the Name of Broker, Bank or Nominee

If you are a beneficial owner of shares registered in the name of your broker, bank or other nominee, and you do not provide the broker or other nominee that holds your shares with voting instructions, the broker or other nominee will determine if it has the discretionary authority to vote on the particular matter.

What if I return a proxy card or otherwise vote but do not make specific choices?

If you return a signed and dated proxy card or otherwise vote without marking voting selections, your shares will be voted, as applicable, “For” the election of each of the four Class III director nominees, “For” the ratification of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for its fiscal year ending January 31, 2024, “For” the approval, on an advisory basis, of the compensation of our named executive officers, and “For” the Exculpation Proposal. If any other matter is properly presented at the meeting, your proxyholder (one of the individuals named on your proxy card) will vote your shares using his or her best judgment.

Who is paying for this proxy solicitation?

We will pay for the entire cost of soliciting proxies. In addition to these proxy materials, our directors and employees may also solicit proxies online, by telephone, or by other means of communication. Directors and employees will not be paid any additional compensation for soliciting proxies. We may also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners. We have retained Saratoga Proxy Consulting LLC to assist us in soliciting proxies for a fee of approximately \$10,000, plus reasonable out-of-pocket expenses incurred in the process of soliciting proxies.

What does it mean if I receive more than one Notice?

If you receive more than one Notice, your shares may be registered in more than one name or in different accounts. Please follow the voting instructions on the Notices to ensure that all of your shares are voted.

Can I change my vote after submitting my proxy?

Yes. You can revoke your proxy at any time before the final vote at the meeting.

Stockholder of Record: Shares Registered in Your Name

If you are the record holder of your shares, you may revoke your proxy in any one of the following ways:

- You may submit another properly completed proxy card with a later date.
- You may grant a subsequent proxy by telephone or through the internet.
- You may send a timely written notice that you are revoking your proxy to ChargePoint’s Secretary at 240 East Hacienda Avenue, Campbell, CA 95008.

- You may attend the Annual Meeting and vote online. Simply attending the meeting will not, by itself, revoke your proxy.

Your most current proxy card or telephone or internet proxy is the one that is counted.

Beneficial Owner: Shares Registered in the Name of Broker or Bank

If your shares are held by your broker or bank as a nominee or agent, you should follow the instructions provided by your broker or bank.

When are stockholder proposals and director nominations due for next year's annual meeting?

To be considered for inclusion in next year's proxy materials, your proposal must be submitted in writing by January 26, 2024 to ChargePoint's Secretary at 240 East Hacienda Avenue, Campbell, CA 95008 and comply with the requirements in the Company's Amended and Restated Bylaws (the "Bylaws") and all applicable requirements of Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). If you wish to submit a proposal for next year's annual meeting that is not to be included in next year's proxy materials or nominate a director, you must do so no later than April 19, 2024 and not earlier than March 20, 2024, *provided, however*, that if our 2024 annual meeting of stockholders is held before June 18, 2024 or after September 16, 2024, then your proposal must be received no earlier than the close of business on the 120th day prior to such meeting and not later than the close of business on the later of the 90th day prior to such meeting or the 10th day following the day on which notice or public announcement of the date of such meeting is first made. You are also advised to review our Bylaws, which contain additional requirements about advance notice of stockholder proposals and director nominations. In addition to satisfying the foregoing requirements under our bylaws, to comply with the universal proxy rules, shareholders who intend to solicit proxies in support of director nominees other than our nominees must provide notice that sets forth the information required by Rule 14a-19 under the Exchange Act no later than May 20, 2024.

How are votes counted?

Votes will be counted by the inspector of election appointed for the meeting, who will separately count, for the proposal to elect directors, votes "For," "Withhold" and broker non-votes; and with respect to Proposals No. 2, 3 and 4, votes "For," "Against," abstentions and, if applicable, broker non-votes. A broker non-vote occurs when a nominee, such as a broker or bank, holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary authority to vote with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner. In the event that a broker, bank, custodian, nominee or other record holder of our common stock indicates on a proxy that it does not have discretionary authority to vote certain shares on a particular proposal, then those shares will be treated as broker non-votes with respect to that proposal.

- Proposal No. 1: The election of directors is a matter considered non-routine under applicable rules. A broker or other nominee cannot vote without instructions on non-routine matters, and therefore ChargePoint expects broker non-votes on Proposal No. 1. Thus, if you do not instruct your broker how to vote with respect to Proposal No. 1, your broker may not vote with respect to that proposal.
- Proposal No. 2: Ratification of the selection of PricewaterhouseCoopers LLP is considered to be a routine matter and, accordingly, if you do not instruct your broker or other nominee on how to vote the shares in your account for Proposal No. 2, brokers will be permitted to exercise their discretionary authority to vote for the ratification of the selection of PricewaterhouseCoopers LLP. Accordingly, if you own shares through a nominee, such as a broker or bank, please be sure to instruct your nominee how to vote to ensure that your vote is counted on all of the proposals.
- Proposal No. 3: The approval, on an advisory basis, of the compensation of our named executive officers is a matter considered non-routine under applicable rules. As described in Proposal 1 above, a

broker or other nominee cannot vote without instructions on non-routine matters, and therefore ChargePoint expects broker non-votes on Proposal No. 3. Thus, if you do not instruct your broker how to vote with respect to Proposal No. 3, your broker may not vote with respect to that proposal.

- Proposal No. 4: The approval of the Exculpation Proposal is a matter considered non-routine under applicable rules. As described in Proposal 1 above, a broker or other nominee cannot vote without instructions on non-routine matters, and therefore ChargePoint expects broker non-votes on Proposal No. 4. Thus, if you do not instruct your broker how to vote with respect to Proposal No. 4, your broker may not vote with respect to that proposal and such broker non-vote will be counted as a vote “against” Proposal No. 4.

Abstentions and broker non-votes will be treated as shares present for the purpose of determining the presence of a quorum for the transaction of business at the Annual Meeting. Broker non-votes will not be counted for purposes of determining the number of shares present online during the meeting or represented by proxy and entitled to vote with respect to Proposals No. 1 or 3. Thus, a broker non-vote will not affect the outcome of the vote on Proposals No. 1 or 3. A broker non-vote will be counted as a vote “against” Proposal 4.

What are “broker non-votes”?

As discussed above, when a beneficial owner of shares held in “street name” does not give instructions to the broker or nominee holding the shares as to how to vote on matters deemed to be “non-routine,” the broker or nominee cannot vote the shares with respect to such matters. These unvoted shares are considered “broker non-votes” with respect to such matters. In the absence of timely directions, your broker will have discretion to vote your shares on Proposal No. 2, our sole “routine” matter, but brokers and nominees cannot use their discretion to vote “uninstructed” shares with respect to matters that are considered “non-routine”. “Non-routine” matters are matters that may substantially affect the rights or privileges of stockholders, such as executive compensation (including any advisory stockholder votes to approve executive compensation) and certain corporate governance proposals such as the Exculpation Proposal, even if such proposals are supported by management. Accordingly, your broker or nominee may not vote your shares on Proposals No. 1, 3 or 4 without your instructions, but may vote your shares on Proposal No. 2.

How many votes are needed to approve each proposal?

- Proposal No. 1: The election of directors requires a plurality vote of the shares of our common stock present virtually or by proxy at the virtual Annual Meeting and entitled to vote thereon to be approved. “Plurality” means that the nominees who receive the largest number of votes cast “for” such nominees are elected as directors. Only votes “For” will affect the outcome.
- Proposal No. 2: The ratification of the selection of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for fiscal year ending January 31, 2024 requires the affirmative vote of a majority of the votes cast by the holders of shares of our common stock present virtually or by proxy at the virtual Annual Meeting and voting affirmatively or negatively on such matter to be approved. You may vote “for,” “against,” or “abstain” with respect to this proposal. Broker non-votes and abstentions will have no effect on the outcome of this proposal.
- Proposal No. 3: The approval, on an advisory basis, of the compensation of our named executive officers requires the affirmative vote of a majority of votes cast by the holders of shares of our common stock present virtually or by proxy at the virtual Annual Meeting and voting affirmatively or negatively on such matter to be approved. You may vote “for,” “against,” or “abstain” with respect to this proposal. Broker non-votes and abstentions will have no effect on the outcome of this proposal.
- Proposal No. 4: The Exculpation Proposal requires the affirmative vote of 66 2/3% in voting power of the outstanding shares of stock entitled to vote thereon, voting together as a single class, to be approved. You may vote “for,” “against,” or “abstain” with respect to this proposal. Broker non-votes and abstentions will be counted as votes against the Exculpation Proposal.

What is the quorum requirement?

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if stockholders holding at least a majority of the outstanding shares entitled to vote are present online at the meeting, by remote communication, if applicable, or represented by proxy. Your shares will be counted towards the quorum only if you submit a valid proxy (or one is submitted on your behalf by your broker, bank or other nominee) or if you vote online at the meeting. Abstentions and broker non-votes will be counted towards the quorum requirement. If there is no quorum, the meeting's chairperson or holders of a majority of shares represented at the meeting may adjourn the meeting to another date.

How can I find out the results of the voting at the Annual Meeting?

Preliminary voting results will be announced at the Annual Meeting. In addition, final voting results will be published in a Current Report on Form 8-K that we expect to file within four business days after the Annual Meeting. If final voting results are not available to us in time to file a Current Report on Form 8-K within four business days after the meeting, we intend to file a Current Report on Form 8-K to publish preliminary results and, within four business days after the final results are known to us, file an additional Current Report on Form 8-K to publish the final results.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

ChargePoint Holdings, Inc.'s Board of Directors (the "Board") is divided into three classes, designated Class I, Class II and Class III. Each class consists, as nearly as may be possible, of one-third of the total number of directors, and each class has a three-year term. Vacancies on the Board may be filled solely by the affirmative vote of a majority of the directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy or newly created directorship shall hold office until the next election of the class to which such director shall have been appointed or assigned, and until his or her successor is duly elected and qualified, subject to his or her earlier death, disqualification, resignation or removal.

The Board presently has eleven members. There are four directors in the class whose term of office expires in 2023, Pasquale Romano, Elaine Chao, Bruce Chizen and Michael Linse. The Board has proposed that each of Pasquale Romano, Elaine Chao, Bruce Chizen and Michael Linse be elected as a Class III director at the Annual Meeting.

The nominees listed below are currently directors of the Company and were each recommended for election by the Nominating and Corporate Governance Committee of the Board. Mr. Romano is currently the Chief Executive Officer of the Company and was appointed to the Board of Directors of Legacy ChargePoint (the "Legacy ChargePoint Board") in February 2011, Ms. Chao was appointed to the ChargePoint Board in November 2021, Mr. Chizen is currently the Chairman of the Board and was appointed to the Legacy ChargePoint Board in December 2014 and Mr. Linse was appointed to the Legacy ChargePoint Board in April 2012. If elected at the Annual Meeting, the nominees would serve until the 2026 annual meeting and until the election and qualification of her or his successor or, if sooner, her or his death, disqualification, resignation or removal. The Company encourages but does not require its directors to attend its annual meetings. Nine of our eleven directors attended our annual meeting of stockholders in 2022.

Vote Required

Directors are elected by a plurality of the voting power of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors. Proxies cannot be voted for more than one person. Each nominee nominated by the Board to serve as Class III director must receive the most "For" votes (among votes properly cast online during the meeting or by proxy) of nominees for the vacancies in such director class in order to be elected. Shares represented by executed proxies will be voted, if authority to do so is not withheld, "For" the election of the nominees named below. Only votes "For" will affect the outcome.

The brief biographies below include information, as of the date of this Proxy Statement, regarding the specific and particular experience, qualifications, attributes or skills of each of our Class I, Class II and Class III directors.

	Class	Age	Position	Director Since**	Current Term Expires	Expiration of Term for which Nominated
Class III Nominees						
Pasquale Romano	III	57	President and Chief Executive Officer, Director	2011	2023	2026
Elaine L. Chao	III	70	Director	2021	2023	2026
Bruce Chizen ⁽¹⁾⁽³⁾	III	67	Chairman of the Board	2014	2023	2026
Michael Linse ^(3*)	III	48	Director	2012	2023	2026
Class I and Class II Continuing Directors

** Based on service on the boards of ChargePoint and Legacy ChargePoint

(1) Member of the Nominating and Corporate Governance Committee

(2) Member of the Audit Committee

(3) Member of the Compensation and Organizational Development Committee

CLASS III NOMINEES FOR ELECTION FOR A THREE-YEAR TERM EXPIRING AT THE 2026 ANNUAL MEETING

Pasquale Romano has served as President and Chief Executive Officer and a member of the Board for ChargePoint since February 26, 2021 and has held the same positions at Legacy ChargePoint since February 2011. Prior to ChargePoint, Mr. Romano co-founded 2Wire, Inc., a provider of broadband service delivery platforms, where he served as its President and Chief Executive Officer from October 2006 until July 2010 when 2Wire, Inc. was acquired by Pace plc. In 1989, he co-founded Fluent, Inc., a digital video networking company and served as its Chief Architect until the company was sold to Novell Corporation in 1993. In August 2022, Mr. Romano was appointed to President Biden's National Infrastructure Advisory Council which advises the White House on how to reduce physical and cybersecurity risks and improve the security and resilience of the nation's critical infrastructure sectors. Mr. Romano holds an A.B. in Computer Science from Harvard University and an M.S. from Massachusetts Institute of Technology. We believe Mr. Romano is qualified to serve as a member of our Board due to his extensive executive management, public policy, and technology industry leadership experience.

Elaine L. Chao has served as a member of the ChargePoint Board since November 30, 2021. Ms. Chao served as the U.S. Secretary of Transportation from January 2017 to January 2021 and the U.S. Secretary of Labor from January 2001 to January 2009. Ms. Chao has served as a director for numerous public companies and currently serves as a director for Embark Technology, Inc., since March 2021, and for The Kroger Co., since August 2021. Ms. Chao served as a director for Hyliion Holdings Corp from August 2021 to March 2023. Ms. Chao holds a bachelor's degree in economics from Mount Holyoke College and a Master in Business Administration from the Harvard Business School. We believe that Ms. Chao is qualified to serve as a director of the Company due to her experiences in the public, private and nonprofit sectors, extensive public policy experience and her extensive public company services.

Bruce Chizen has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since December 2014. Mr. Chizen is currently an independent consultant and has served as Senior Adviser to Permira Advisers LLP, a private equity fund, since July 2008, and as a Venture Partner at Voyager Capital, a venture capital firm, since August 2009. He has also served as an Operating Partner for Permira Growth Opportunities, a private equity fund since June 2018. From 1994 until 2008, Mr. Chizen served in a number of positions at Adobe Systems Incorporated, a provider of design, imaging and publishing software, including as its Chief Executive Officer from 2000 until 2007, President from 2000 until 2005, acting Chief Financial Officer from 2006 until 2007 and Strategic Advisor from 2007 until 2008. Mr. Chizen currently serves as a director of Synopsys, Inc. since April 2001, Oracle Corporation since July 2008, and Informatica Inc. since August 2015. Mr. Chizen holds a bachelor's degree from Brooklyn College, City University of New York. We believe Mr. Chizen is qualified to serve as a member of our Board based on his extensive executive leadership experience in digital media and software.

Michael Linse has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since April 2012. Mr. Linse has served as the Founder and Managing Director of Linse Capital LLC since October 2015, a growth equity firm investing in late-stage technology companies, and Levitate Capital, a venture capital firm, since March 2017. Prior to founding Linse Capital, Mr. Linse served as a partner at Kleiner Perkins Caufield & Byers ("KPCB") from 2008 until March 2016. Prior to joining KPCB, Mr. Linse worked at Goldman Sachs for over a decade, most recently as Managing Director of the alternative energy investing team. Mr. Linse currently serves as a director of Valens Semiconductor Ltd. Mr. Linse holds a B.A. in Economics from Harvard University and an M.B.A. from Harvard Business School. We believe Mr. Linse is qualified to serve as a member of our Board based on his extensive experience in corporate finance and investing in alternative energy space.

**THE BOARD UNANIMOUSLY RECOMMENDS A VOTE "FOR" EACH OF THE NAMED
NOMINEES IN CLASS III**

BOARD AND CORPORATE GOVERNANCE

Continuing Directors

In addition to the director nominees, ChargePoint has seven other directors who will continue in office after the Annual Meeting with terms expiring in 2024 and 2025. The following includes a brief biography of each director composing the remainder of the Board with terms expiring as shown, with each biography including information regarding the experiences, qualifications, attributes or skills that caused the Nominating and Corporate Governance Committee and the Board to determine that the applicable director should serve as a member of our Board.

Class I Directors Continuing in Office Until the 2024 Annual Meeting

Roxanne Bowman has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since August 2019. Ms. Bowman has served as Operating Executive at NMS Capital, a private investment firm, since March 2019. From September 2013 to November 2018, Ms. Bowman served as Chief Executive Officer of PowerTeam Services, LLC, a gas and electric utility service provider. Ms. Bowman holds a B.S. in Electrical Engineering from Clemson University and an M.B.A. from the Pamplin College of Business at Virginia Polytechnic Institute and State University. We believe Ms. Bowman is qualified to serve as a member of our Board based on her wide-ranging experience in management, sales, marketing and strategic planning within the utilities industry.

Axel Harries has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since October 2016. Mr. Harries has served as Vice President of Product Management and Sales for Mercedes-Benz AG, an automotive manufacturing and supply company, since June 2017. Prior to this, from June 1993 to June 2017, Mr. Harries held several roles at Daimler AG, including leading the Connected, Autonomous, Shared & Services and Electric Drive unit, which is responsible for all-electric vehicle architecture from July 2016 to June 2017 and Quality Management of Mercedes-Benz Cars from July 2014 until July 2016 and Head of the G-Wagon Business Unit at Mercedes-Benz Cars from July 2008 until June 2014. Mr. Harries studied product engineering with finance and management accounting at Furtwangen University, Germany. We believe Mr. Harries is qualified to serve as a member of our Board based on his extensive management experience in the automotive industry and knowledge of Europe's auto charging market.

Mark Leschly has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since December 2009. Since July 1999, Mr. Leschly has served as a managing partner of Rho Capital Partners, Inc., an investment and venture capital management company. Since 2017, Mr. Leschly has been the chairman and chief executive officer of Universal Tennis, LLC, which is the developer of a software platform for tennis analytics and tournament management. Since 2014, Mr. Leschly has also been the owner and managing member of Iconica LLC, which primarily focuses on investments at the intersection of sports, media and technology. Mr. Leschly served as a director of NGM Biopharmaceuticals, Inc. from January 2008 to May 2022. Mr. Leschly holds an M.B.A. from Stanford Graduate School of Business and a B.A. from Harvard University. We believe Mr. Leschly is qualified to serve as a member of our Board based on his extensive experience in corporate finance and investing in energy companies.

Ekta Singh-Bushell has served as a member of ChargePoint's Board since April 5, 2022. From May 2016 to June 2017, Ms. Singh-Bushell served as deputy to the first vice president, chief operating officer executive office, at the Federal Reserve Bank of New York. Prior to 2016, Ms. Singh-Bushell worked at Ernst & Young, serving in various roles including global IT Effectiveness leader, U.S. innovation & digital strategy leader, and chief information security officer. Ms. Singh-Bushell has served as a director for numerous public companies including, TTEC Holdings, Inc., since May 2017, Lesaka Technologies Inc., since October 2018, Huron Consulting Group, since May 2019. Ms. Singh-Bushell previously served as director of Designer Brands, Inc. from September 2018 until May 2022. Ms. Singh-Bushell received her Master of Science in Electrical

Engineering & Computer Science from the University of California, Berkeley and her undergraduate degree in engineering from the University of Poona, India. We believe that Ms. Singh-Bushell is qualified to serve as a director due to her operational experiences with finance, audit, technology and cybersecurity matters and her prior public company services.

Class II Directors Continuing in Office Until the 2025 Annual Meeting

Jeffrey Harris has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since December 2018. In 2012, Mr. Harris founded Global Reserve Group LLC, a financial advisory and investment firm focused primarily on the energy and technology industries. In addition, he has been a Venture Partner of Quantum Energy Partners, a private equity firm focused on the energy industry, since 2012. Previously, Mr. Harris was a managing director of Warburg Pincus LLC, a private equity firm, from 1983 until 2011. Mr. Harris served as a director of Knoll, Inc., until July 2021 and of InterPrivate II Acquisition Corp., until December 2022. Mr. Harris holds a B.S. in Economics from the Wharton School of the University of Pennsylvania and an M.B.A. from Harvard Business School. We believe Mr. Harris is qualified to serve as a member of our Board based on his extensive financial expertise and knowledge of the energy industry and clean technology.

Susan Heystee has served as a member of ChargePoint's Board since May 26, 2021. From January 2017 to June 2018, Ms. Heystee was Senior Vice President of Global Automotive Business at Verizon Connect, a fleet management solutions software company. Prior to Verizon Connect, Ms. Heystee served as Executive Vice President of Global Sales and OEM Business at Telogis, Inc. which was acquired by Verizon in July 2016, from February 2010 to December 2016. Ms. Heystee has served as a director of Ouster, Inc., since September 2018. Ms. Heystee holds Bachelor's degrees in mathematics and business from the University of Waterloo and has completed the Advanced Management Program at Harvard Business School. We believe that Ms. Heystee is qualified to serve as a member of our Board of Directors due to her extensive experience in the technology sector and knowledge of market driven strategies.

G. Richard Wagoner, Jr. has served as a member of ChargePoint's Board since February 26, 2021 and previously served as a director of Legacy ChargePoint since February 2017. From 1977 to 2009, Mr. Wagoner held numerous senior positions at General Motors Corporation, including Chairman and Chief Executive Officer from 2003 to 2009. Mr. Wagoner currently serves as a director of Invesco Ltd., since October 2013, and Graham Holdings Inc., since June 2010. Mr. Wagoner previously served as a director of Aleris Corporation from August 2010 until April 2020. Mr. Wagoner holds a bachelor's degree from Duke University and an M.B.A. from Harvard Business School. We believe Mr. Wagoner is qualified to serve as a member of our Board based on his extensive experience in the automobile industry, general management experience and public company board service.

Independence of the Board of Directors

As required under the New York Stock Exchange ("NYSE") listing standards, a majority of the members of a listed company's board of directors must qualify as "independent," as affirmatively determined by the Board. The Board consults with the Company's counsel to ensure that the Board's determinations are consistent with relevant securities and other laws and regulations regarding the definition of "independent," including those set forth in pertinent listing standards of NYSE, as in effect from time to time.

Consistent with these considerations, after review of all relevant identified transactions or relationships between each director, or any of his or her family members, the Board has affirmatively determined that the following ten directors are independent directors within the meaning of the applicable NYSE listing standards: Mses. Bowman, Chao, Heystee and Singh-Bushell, and Messrs. Chizen, Harries, Harris, Leschly, Linse and Wagoner. In making this determination, the Board found that none of these directors or nominees for director had a material or other disqualifying relationship with the Company. Mr. Romano, our President and Chief Executive Officer, is not an independent director by virtue of his current employment with ChargePoint.

Family Relationships

There are no familial relationships among the ChargePoint directors and executive officers.

Board Leadership Structure

Our Corporate Governance Guidelines provide that our Board may separate or combine the roles of Chairman of the Board and Chief Executive Officer when and if it deems it advisable and in the best interests of the Company and its stockholders to do so. Currently, the roles are separated, with Pasquale Romano serving as President and Chief Executive Officer and Bruce Chizen serving as the independent Chairman of the Board. The Chairman of the Board presides over all executive sessions of the Board. The Company believes that the separation of the positions of Chairman and Chief Executive Officer aligns the Chairman role with our independent directors and further enhances the independence of our Board from management.

Role of the Board in Risk Oversight

The Board recognizes the importance of effective risk oversight in running a successful business and in fulfilling its fiduciary responsibilities to ChargePoint and its stockholders. While the executive team is responsible for the day-to-day management of risk, one of the Board's key functions is informed oversight of the Company's risk management process and regular review and discussion with members of management regarding potential and identified risks, and responses to significant threats or risk events. The Board does not have a standing risk management committee, but rather administers this oversight function directly through the Board as a whole, as well as through various Board standing committees that identify, categorize and address risks inherent in their respective areas of oversight. In particular, our Board is responsible for monitoring and assessing strategic risk exposure over the short-term, intermediate-term and long-term, including a determination of the nature and level of risk appropriate for the Company. Our Audit Committee has the responsibility to consider and discuss our major financial risk exposures and the steps our management has taken to monitor and control these exposures, including guidelines and policies to govern the process by which risk assessment and management is undertaken. Such risk oversight also includes reviewing the Company's cybersecurity and other information technology risks, controls and procedures, including the Company's plans to mitigate cybersecurity risks and to respond to data breaches.

The Audit Committee also reviews with management when appropriate any significant regulatory and legal developments that may have a material impact on ChargePoint's financial statements, compliance programs and policies. Our Nominating and Corporate Governance Committee monitors the effectiveness of our corporate governance guidelines, including whether they are successful in preventing illegal or improper liability-creating conduct. Our Compensation and Organizational Development Committee assesses and monitors whether any of our compensation policies and programs has the potential to encourage excessive risk-taking.

Meetings of the Board

During our fiscal year ended January 31, 2023, our Board held ten meetings (including regularly scheduled and special meetings), and each director attended at least 75% of the aggregate of (i) the total number of meetings of our Board held during the period for which he or she has been a director and (ii) the total number of meetings held by all committees of our Board on which he or she served during the periods that he or she served.

Information Regarding Committees of the Board

ChargePoint's Board has established three committees: an Audit Committee; a Compensation and Organizational Development Committee; and a Nominating and Corporate Governance Committee. During the fiscal year ended January 31, 2023, the Audit Committee met six times, the Compensation and Organizational Development Committee met seven times and the Nominating and Corporate Governance Committee met three times.

Below is a description of each committee of the Board. Each of the committees has authority to engage legal counsel or other experts or consultants, as it deems appropriate to carry out its responsibilities. The Board has determined that each member of each committee meets the applicable NYSE rules and regulations regarding “independence” and each member is free of any relationship that would impair his or her individual exercise of independent judgment with regard to the Company.

Audit Committee

The Audit Committee is comprised of four directors: Mses. Heystee and Singh-Bushell and Messrs. Harris and Wagoner.

The composition of our Audit Committee meets the requirements for independence for audit committee members under the listing standards of the NYSE and the rules and regulations of the SEC. In determining that Mr. Harris is independent, our board of directors considered his role as partner of Quantum Energy Group, which holds approximately 10% of our outstanding voting stock, and the fact that Rule 10A-3 under the Exchange Act provides that an audit committee member may still be considered independent if he or she does not fall within the less-than-10% stock ownership safe harbor provision of this rule. Each member of our Audit Committee also meets the financial literacy requirements of the listing standards of the NYSE. In addition, our Board has determined that Mr. Harris qualifies as an audit committee financial expert within the meaning of SEC regulations and meets the financial sophistication requirements of the NYSE.

The Audit Committee has direct responsibility for oversight of the following:

- evaluating the qualifications, independence and performance of the independent registered public accounting firm, including leading the review and selection of the lead audit engagement partner;
- overseeing and reviewing the integrity of the Company’s accounting and financial reporting process and the audit of the Company’s financial statements;
- overseeing the Company’s compliance with legal and regulatory requirements;
- overseeing the design and implementation of our internal audit function and risk assessment and risk management;
- reviewing the Company’s cybersecurity and other information technology risks, controls and procedures, including the Company’s plans to mitigate cybersecurity risks and to respond to data breaches;
- reviewing and discussing with management the adequacy and effectiveness of our disclosure controls and procedures;
- discussing with the Company’s management and independent registered public accounting firm the annual audit plan and scope of audit activities, scope and timing of the annual audit of the Company’s financial statements, and the results of the audit, quarterly reviews of our financial statements and, as appropriate, initiates inquiries into certain aspects of the Company’s financial affairs;
- establishing and overseeing procedures for the receipt, retention and treatment of any complaints regarding accounting, internal accounting controls or auditing matters, as well as for the confidential and anonymous submissions by the Company’s employees of concerns regarding questionable accounting or auditing matters; and
- reviewing and overseeing all related person transactions in accordance with the Company’s policies and procedures.

The Audit Committee has sole authority to approve the hiring and discharging of the Company’s independent registered public accounting firm, all audit engagement terms and fees and all permissible non-audit engagements with the independent auditor.

The Board has adopted a written Audit Committee charter that is available to stockholders on the Company's website at <https://investors.chargepoint.com> under "Governance."

Compensation and Organizational Development Committee

The Compensation and Organizational Development Committee is comprised of three directors: Messrs. Chizen, Leschly, and Linse.

The Compensation and Organizational Development Committee meets the requirements for independence for compensation committee members under the listing standards of the NYSE and the rules and regulations of the SEC. Each member of our Compensation and Organizational Development Committee is also a "non-employee director," as defined pursuant to Rule 16b-3 promulgated under the Exchange Act.

The Compensation and Organizational Development Committee assists the Board in discharging certain of the responsibilities with respect to compensating our executive officers, and the administration and review of the incentive plans for employees and other service providers, including our equity incentive plans, and certain other matters related to our compensation programs. The Compensation and Organizational Development Committee reviews, modifies and approves the overall compensation strategy and policies for the Company, including:

- reviewing annually and recommending to the Board for approval all compensation to be paid or awarded to the Chief Executive Officer. In consultation with the Chief Executive Officer, review annually and determine and approve all compensation to be paid or awarded to all other executive "officers," as defined in the rules promulgated under Section 16 of the Exchange Act, of the Company, in each case including any severance or change in control agreements, and special or supplemental benefits applicable to such executive officers, evaluating and approving the compensation plans and programs advisable for the Company, as well as evaluating and approving the modification or termination of existing plans and programs. The Chief Executive Officer may not be present during voting or deliberations on his or her compensation;
- establishing annually corporate performance goals and objectives relevant to compensation, in consultation with the Chief Executive Officer, for other executive officers, and evaluating annually, in consultation with the Chief Executive Officer, other executive officer performance against any corporate goals and objectives relevant to such officers' compensation;
- reviewing periodically and making recommendations to the Board with respect to adoption and approval of, or amendments to, the Company's equity incentive plans;
- overseeing the management of risks associated with the Company's compensation policies and programs, including to determine whether any such program encourages undue or inappropriate risk-taking by Company personnel that is reasonably likely to have a material adverse effect on the Company;
- reviewing and providing feedback on Company's recruitment strategies, diversity and inclusion initiatives, and talent development; and
- preparing the compensation committee report that the SEC requires accompany the Compensation Discussion and Analysis contained in this Proxy Statement.

The Board has adopted a written Compensation and Organizational Development Committee charter that is available to stockholders on the Company's website at <https://investors.chargepoint.com> under "Governance."

Compensation and Organizational Development Committee Processes and Procedures

The Compensation and Organizational Development Committee plans to meet at least twice each year and may otherwise meet at such times and places as the committee determines. The agenda for each meeting is usually

developed by the Chair of the Compensation and Organizational Development Committee, in consultation with the Chief Executive Officer and Chief People Officer. The Compensation and Organizational Development Committee meets regularly in executive session. However, from time to time, various members of management and other employees as well as outside advisors or consultants may be invited by the Compensation and Organizational Development Committee to make presentations, provide financial or other background information or advice or otherwise participate in Compensation and Organizational Development Committee meetings. The Chief Executive Officer may not be present during voting or deliberations of the Compensation and Organizational Development Committee regarding his compensation.

The charter of the Compensation and Organizational Development Committee grants the committee full access to all books, records, facilities and personnel of the Company. In addition, the Compensation and Organizational Development Committee has the authority, in its sole discretion, to retain or obtain the advice of compensation consultants, independent legal counsel, or other advisors of its choosing, and the Company must provide for appropriate funding for payment of reasonable fees to any such advisor retained by the committee. The Compensation and Organizational Development Committee has direct responsibility for the appointment, compensation, termination and oversight of the work of any such advisors engaged for the purpose of advising the committee. Under the charter, the Compensation and Organizational Development Committee may select, or receive advice from, a compensation consultant, legal counsel or other adviser to the Compensation and Organizational Development Committee, other than in-house legal counsel and certain other types of advisers, only after taking into consideration the factors, prescribed by the SEC and NYSE, that bear upon the adviser's independence; however, there is no requirement that any adviser be independent.

In the Company's fiscal year 2023, the Compensation and Organizational Development Committee engaged Frederic W. Cook & Co., Inc. ("FW Cook"), a national compensation consulting firm, to advise the Compensation and Organizational Development Committee regarding the amount and types of compensation provided to our executive officers and non-employee directors. FW Cook does not provide any services to us other than the services provided to the Compensation and Organizational Development Committee. The Compensation and Organizational Development Committee assessed the independence of FW Cook pursuant to SEC and NYSE rules and concluded that no conflict of interest exists that would prevent FW Cook from independently representing the committee.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is comprised of three directors: Ms. Bowman and Messrs. Chizen and Leschly.

The composition of our Nominating and Corporate Governance Committee meets the requirements for independence under the listing standards of the NYSE and the rules and regulations of the SEC. The Nominating and Corporate Governance Committee is responsible for, among other things:

- identifying individuals qualified to become members of the Board and the Board's committees, consistent with criteria approved by the Board, including diversity of race, ethnicity, national origin, gender and sexual orientation;
- selecting, or recommending that the Board select, the director nominees for the next annual meeting of stockholders;
- developing, evaluating, and recommending to the Board a set of corporate governance guidelines applicable to the Company; and
- leading the periodic performance review of the Board, its committees and management; and any related matters required by the federal securities laws.

The Board has adopted a written Nominating and Corporate Governance Committee charter that is available to stockholders on the Company's website at <https://investors.chargepoint.com> under "Governance."

Considerations in Evaluating Director Nominees

The Nominating and Corporate Governance Committee believes that candidates for director should have certain minimum qualifications, including the ability to read and understand basic financial statements, and high personal integrity and ethics. The Nominating and Corporate Governance Committee also intends to consider such factors as possessing relevant expertise upon which to be able to offer advice and guidance to management, having sufficient time to devote to the affairs of ChargePoint, having demonstrated excellence in his or her field, having the ability to exercise sound business judgment and having the commitment to rigorously represent the long-term interests of our stockholders. Candidates for director nominees are reviewed in the context of the current composition of the Board, the operating requirements of the Company and the long-term interests of stockholders. In conducting this assessment, the Nominating and Corporate Governance Committee considers diversity (including race, ethnicity, national origin, gender and sexual orientation), age, skills, and such other factors as it deems appropriate given the current needs of the Board and the Company to maintain a balance of knowledge, experience and capability.

In the case of incumbent directors whose terms of office are set to expire, the Nominating and Corporate Governance Committee reviews these directors' overall service to the Company during their terms, including the number of meetings attended, level of participation, quality of performance and any other relationships and transactions that might impair the directors' independence. In the case of new director candidates, the Nominating and Corporate Governance Committee also determines whether the nominee is independent for NYSE purposes, which determination is based upon applicable NYSE listing standards, applicable SEC rules and regulations and the advice of counsel, if necessary. The Nominating and Corporate Governance Committee then uses its network of contacts to compile a list of potential candidates, including direct inquiry from the then appointed members of the Board, but may also engage, if it deems appropriate, a professional search firm. The Nominating and Corporate Governance Committee conducts any appropriate and necessary inquiries into the backgrounds and qualifications of possible candidates after considering the function and needs of the Board. The Nominating and Corporate Governance Committee meets to discuss and consider the candidates' qualifications and then selects a nominee for recommendation to the Board by majority vote of those present at a meeting at which a quorum is present.

Stockholder Recommendations for Nominations to the Board

The Nominating and Corporate Governance Committee will consider director candidates recommended by stockholders. The Nominating and Corporate Governance Committee does not intend to alter the manner in which it evaluates candidates, including the minimum criteria set forth above, based on whether or not the candidate was recommended by a stockholder. However, the Nominating and Corporate Governance Committee has the power and authority to establish procedures for submission of director nominees to the Board, including stockholder nominees, as approved by the Board in the Company's policies and procedures for director candidates and to review and evaluate any stockholder nominees for director submitted in accordance with the Company's Bylaws and any candidates for the Board recommended by stockholders in accordance with the Company's policies and procedures for director candidates.

Subject to advance notice provisions contained in our Bylaws, a stockholder may propose the nomination of someone for election as a director at our annual meeting of stockholders by timely written notice to our Secretary. Stockholders who wish to recommend individuals for consideration by the Nominating and Corporate Governance Committee to become nominees for election to the Board may do so by delivering a written notice to ChargePoint's Corporate Secretary at 240 East Hacienda Avenue Campbell, CA 95008 not later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the preceding year's annual meeting. Stockholders may not nominate more candidates than are up for election. As discussed in the Company's Bylaws, the notice must set forth: (A) certain information as to each nominee such stockholder proposes to nominate at the meeting as set forth in the Company's Bylaws, including such person's written consent to being named in the Proxy Statement as a nominee and to serving as a director if elected, and (B) certain information as to, and certain representations and certifications from, the stockholder

giving the notice and the beneficial owner, if any, on whose behalf the nomination is being made, as set forth in the Company's Bylaws. In accordance with our Bylaws and Rule 14a-19 of the Exchange Act, a nominating stockholder must also represent that he or she intends to solicit proxies in accordance with Rule 14a-19. Nominations will be disregarded if the nominating shareholder gives notice of its intent to solicit proxies using a universal proxy but subsequently fails to meet the requirements of Rule 14a-19 to file a proxy statement or solicit at least 67% of the shares entitled to vote.

Communicating with the Board

Stockholders and any interested party may communicate directly with the independent directors either by writing to the Board, a Board committee, or an individual director at the Company's principal executive offices at 240 East Hacienda Avenue, Campbell, CA 95008 or by emailing investors@chargepoint.com. Management receives all letters and emails sent and forwards proper communications to the Board, a Board committee, or an individual director, who facilitates an appropriate response. Management generally will not forward communications that are primarily solicitations for products or services, matters of a personal nature that are not relevant for stockholders, matters that are of a type that render them improper or irrelevant to the functioning of the Board, or requests for general information about the Company.

Compensation and Organizational Development Committee Interlocks and Insider Participation

None of the members of the Compensation and Organizational Development Committee has ever been a member of the board of directors or compensation committee of any other entity that has or has had one or more executive officers serving as a member of the Board or Compensation and Organizational Development Committee.

Environmental, Social, and Governance Initiatives

In keeping with our values, we are committed to improving our management of Environmental, Social and Governance ("ESG") matters and their impact on our business. As a newly public company, we have taken several steps in recent years to align our approach to ESG matters with the interests of our stakeholders, including our stockholders, including the following:

Environmental

We believe the availability and use of the charging stations in our charging network reduces fossil fuel reliance by our customers. We measure the reduction in greenhouse gas ("GHG") emissions from our customers' use of the charging stations in our charging network. Since 2007 through January 31, 2023, we estimate we've powered over 5 billion electric miles driven which is:

- Equivalent to avoiding use of more than 220 million gallons of gasoline; and
- Equivalent to 1 million metric tons of GHG avoided because of avoiding such gasoline consumption.

We further believe in the merit of reducing GHG through measures aimed at reducing our energy consumption and carbon output, including the following efforts:

- We achieved LEED Certification (gold) at our headquarters in Campbell, CA which is a proven method for improving energy efficiency, reducing carbon emissions and creating healthier working environments.
- Recycling is a standard practice at all office locations as part of our International Organization for Standardization 14001 environmental management standard compliance practices.
- We maintain a re-use program for dated/obsolete charging station equipment. We refurbish returned charging units for sale as part of our return merchandise authorization program. For any charging station units that cannot be refurbished, we ensure that the materials are properly recycled.

Social

- Driven by our commitment to partner with responsible suppliers who share our values, we became a member of the Responsible Business Alliance in 2022, a leader in social, environmental and ethical industry standards, and adopted their form of Supplier Code of Conduct, detailing our requirements for compliance, business integrity, fair labor practices, health and safety, environmental protection, and other relevant protections.
- As part of our mission to cultivate a diverse and inclusive workforce that enables ChargePoint to recruit, promote, retain, and engage all people with the hopes of helping them maximize their careers and drive value for the organization and our customers, we built a DEI infrastructure and began modeling our commitment to workplace diversity over the past year. This included various efforts to create space and structure for cultural and DEI-related celebrations surrounding Black History Month, Hispanic Heritage Awareness Month, Diwali, Women's History Month, etc. and the development of ChargePoint's Diversity Inclusion Council framework and plan.
- In an effort to help employees give back to their local communities, we hosted a virtual food drive in partnership with Second Harvest, a virtual giving tree in partnership with Family Giving Tree and various global giving opportunities through World Food Program, United Help Ukraine, Global Giving, Giving Tuesday India, and Action for Children. We also provided support to our Ukraine-based and affiliated colleagues and a list of reputable, non-profit organizations to which interested employees could contribute in support of the people of Ukraine. We promoted various mental health offerings through Spring Health webinars and Well Springs on key stressors to help employees improve their mental health and build resiliency.

Governance

- In 2021 and 2022, we welcomed three new members of our Board, Elaine L. Chao, Susan Heystee and Ekta Singh-Bushell, improving the gender and ethnic diversity of our Board, an important objective outlined in our Corporate Governance Guidelines.
- In 2023, our Compensation and Organizational Committee adopted minimum stock ownership guidelines that require our executive officers to achieve and maintain minimum levels of ownership of our common stock to more closely align the interests of our key executives with the interests of our stockholders by maintaining a strong link between the Company's long-term success and the ultimate compensation of our key executives.

For more information about our ESG initiatives, please see our Sustainability website at <https://www.chargepoint.com/about/sustainability/> (The inclusion of any website address in this proxy statement does not incorporate by reference the information on or accessible through the website into this proxy statement.)

Code of Conduct

The Board has adopted a Code of Conduct. The Code of Conduct applies to all of our employees, officers and directors, as well as all of our contractors, consultants, suppliers and agents in connection with their work for the Company. The full text of the Code of Conduct is on our website at <https://investors.chargepoint.com> under "Governance." We intend to disclose future amendments to, or waivers of, the Code of Conduct, as and to the extent required by SEC regulations, at the same location on the website identified above or in public filings. Information contained on the website is not incorporated by reference into this Proxy Statement, and you should not consider information contained on our website to be part of this Proxy Statement.

Corporate Governance Guidelines

The Board documented the governance practices followed by the Company by adopting Corporate Governance Guidelines, as amended, to assure that the Board will have the necessary authority and practices in place to

review and evaluate the Company's business operations as needed and to make decisions that are independent of the Company's management. The guidelines are also intended to align the interests of directors and management with those of the Company's stockholders. The Corporate Governance Guidelines set forth the practices the Board intends to follow with respect to the role of the board and management, principal responsibilities and duties of the Board, Board structure and composition, Board procedures, Board communication with Company stockholders. The Corporate Governance Guidelines, as well as the charters for each committee of the Board, may be viewed on the Company's website at <https://investors.chargepoint.com> under "Governance."

Transactions in the Company's Securities

Our Board has adopted an Insider Trading Policy, which applies to all of our directors, officers, employees and agents (such as consultants and independent contractors), as well as certain family members, economic dependents, and any other individuals or entities whose transactions in securities such individual influences, directs or controls. Under this policy, such individuals are prohibited from transacting in publicly-traded options, such as puts and calls, and other derivative securities with respect to the Company's securities, and such prohibition extends to any hedging or similar transaction designed to decrease the risks associated with holding Company securities. Stock options, restricted stock units, restricted stock, stock appreciation rights and other securities issued pursuant to the Company benefit plans or other compensatory arrangements with the Company are not subject to this prohibition.

In addition, individuals subject to the Insider Trading Policy may not pledge Company securities as collateral for loans without the approval of a compliance officer as defined under the Policy. In May 2021, Pasquale Romano, our President and Chief Executive Officer, pledged 436,364 shares of the Company's Common Stock to collateralize a personal loan entered into on May 10, 2021. The personal loan had a maturity date of January 31, 2022, with the option for a one-time nine-month extension, which Mr. Romano exercised. Mr. Romano repaid the loan in full on August 23, 2022, at which time the pledge of the shares was terminated. The proceeds of the loan were used to pay a tax obligation incurred in connection with his exercise of certain stock options, which tax obligation could not be paid through the proceeds of sales of such pledged shares due to the shares being subject to a lockup agreement. In addition, in August 2022, Mr. Romano pledged an aggregate of 2,284,710 shares of the Company's Common Stock to collateralize personal loans entered into in August 2022. The personal loans have a maturity date of August 25, 2023, with the option for a one-time six-month extension. The proceeds from the loans were used in connection with the purchase of a primary residence. Each of these pledging transactions was reviewed by the Board or appropriate Committee thereof and was approved under the Insider Trading Policy in light of the unique circumstances.

Fiscal Year 2023 Director Compensation

Annual Retainer

Pursuant to our non-employee director compensation program, non-employee directors receive the following cash compensation paid quarterly in arrears, which did not change as compared to fiscal year 2022:

Board service	\$40,000
plus (as applicable):	
Board Chair	\$30,000
Audit Committee Chair	\$20,000
Compensation and Organizational Development Committee Chair	\$15,000
Nominating and Corporate Governance Committee Chair	\$ 8,000

The Company will reimburse non-employee directors for their reasonable out-of-pocket expenses incurred in connection with attending Board and committee meetings.

Equity Awards

Non-employee directors receive automatic grants of equity awards under our 2021 Equity Incentive Plan. Upon joining the Board, a new non-employee director will receive restricted stock units (“RSUs”) with an approximate grant date value of \$350,000. This new director equity award will vest in three annual installments on each anniversary of the date of grant subject to the director’s continued service on the Board through each such anniversary. In connection with each annual meeting of stockholders, each non-employee director who will continue to serve on our Board (other than a director who joined the Board within three months prior to the annual meeting) will receive RSUs with an approximate grant date value of \$185,000 (\$92,500 in the case of a non-employee director who joined the Board at least three, but less than six, months prior to the date of the annual meeting). The number of RSUs subject to both the new director equity awards and the annual equity awards is determined by dividing the target equity value allocated to such award by the average closing price of the Company’s Common Stock during the 20 trading days ending on (and including) the trading day prior to the date of grant, rounded down to the nearest whole share. These annual equity awards will vest in full on the earlier of the one-year anniversary of the date of grant or the date of the next annual meeting of stockholders subject to the director’s continued service on the Board through such date. Both new director equity awards and annual equity awards will vest in full in the event of a change in control while the non-employee director remains in service.

The following table sets forth information regarding the compensation of ChargePoint’s non-employee directors during the fiscal year ended January 31, 2023.

<u>Name</u>	<u>Fees Earned or Paid in Cash (\$)</u>	<u>Stock Awards (\$)⁽¹⁾⁽²⁾</u>	<u>Total (\$)</u>
Roxanne Bowman	40,000	162,349	202,349
Elaine L. Chao	40,000	162,349	202,349
Bruce Chizen	70,000	162,349	232,349
Axel Harries	40,000	162,349	202,349
Jeffrey Harris	60,000	162,349	222,349
Susan Heystee	40,000	162,349	202,349
Mark Leschly	48,000	162,349	210,349
Michael Linse	55,000	162,349	217,349
Ekta Singh-Bushell ⁽³⁾	40,000	415,052	455,052
G. Richard Wagoner, Jr.	40,000	162,349	202,349

- (1) The amounts in this column represent the aggregate grant date fair value of stock awards granted to the non-employee director in the applicable fiscal year computed in accordance with FASB ASC Topic 718. See Note 13 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K, as filed with the SEC on April 3, 2023, for a discussion of the assumptions made by ChargePoint in determining the grant date fair value of its equity awards.
- (2) As of January 31, 2023, the following individuals who served as non-employee directors during the year had outstanding equity awards with respect to the following number of shares: Bowman - options to purchase 348,810 shares and 13,563 RSUs; Chao - 24,411 RSUs; Chizen - options to purchase 338,640 shares and 13,563 RSUs; Harries, Harris, Leschly and Linse - each 13,563 RSUs; Heystee - 21,617 RSUs; Singh-Bushell - 23,912 RSUs; and Wagoner - options to purchase 379,717 shares and 13,563 RSUs.
- (3) Ms. Singh-Bushell joined the Board on April 5, 2022, and was granted an initial non-employee director award of 17,131 RSUs on April 5, 2022, with a grant date fair value of \$333,883. The RSUs are scheduled to vest equally over 3 years, subject to the director’s continued service through such date. Because Ms. Singh-Bushell joined the Board within six months of our annual stockholder meeting she was eligible to receive 50% of the annual non-employee director award, and as a result, was granted an annual award of 6,781 RSUs on July 12, 2022, with a grant date fair value of \$81,169. The RSUs are scheduled to vest fully on the earlier of the one-year anniversary of the date of grant or the date of the regular annual meeting of the Company’s stockholders held in the year following the date of grant.

Stock Ownership Policy

In March 2023, we adopted stock ownership guidelines requiring that our non-employee directors achieve and maintain minimum levels of ownership of our common stock. The levels are based on multiples of each non-employee director's base cash retainer for Board service. The Compensation Committee, with input from management, recommended to our Board in March 2023 to adopt the Stock Ownership Policy and include it in our Corporate Governance Guidelines. Under our policy, our non-employee directors are required to hold at least three (3) times the value of the director's base cash retainer for Board service in our common stock. The non-employee directors are expected to achieve ownership of our common stock within five years of the date of such director's appointment to our Board, and such ownership is required to be maintained through such director's term of service. For more information about our Stock Ownership Policy see "Executive Compensation- Stock Ownership Policy."

PROPOSAL NO. 2

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board has selected PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending January 31, 2024, and has further directed that management submit the selection of its independent registered public accounting firm for ratification by the stockholders at the Annual Meeting. PricewaterhouseCoopers LLP has served as the auditor of Legacy ChargePoint since 2016 and of the Company since 2021. Representatives of PricewaterhouseCoopers LLP are expected to be present during the Annual Meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Neither the Company's Bylaws nor other governing documents or law require stockholder ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm. However, the Audit Committee of the Board is submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee of the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee of the Board in its discretion may direct the appointment of different independent auditors at any time during the year if they determine that such a change would be in the best interests of the Company and its stockholders.

Vote Required

The affirmative vote of the holders of a majority in voting power of the votes cast by the holders of all of the shares of stock present or represented at the meeting and voting affirmatively or negatively on such matter will be required to ratify the selection of PricewaterhouseCoopers LLP.

Change in Independent Registered Accounting Firm

As previously disclosed, on February 26, 2021, the Audit Committee dismissed WithumSmith+Brown, PC ("Withum"), Switchback's independent registered public accounting firm prior to the appointment of PricewaterhouseCoopers LLP. Withum's report on the Company's financial statements as of December 31, 2020 and December 31, 2019 and the related statements of operations, changes in stockholders' equity and cash flows for the year ended December 31, 2020 and the period from May 10, 2019 (inception) through December 31, 2019 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles, other than the Company's ability to continue as a going concern due to the Company's obligation to either complete a business combination by July 30, 2021 or cease all operations except for the purpose of winding down and liquidating. On February 26, 2021, the Board approved the engagement of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm to audit the Company's consolidated financial statements for the year ended January 31, 2021.

During the period from May 10, 2019 (inception) through December 31, 2019, the year ended December 31, 2020 and the subsequent period through February 26, 2021, there were no: (i) disagreements with Withum on any matter of accounting principles or practices, financial statement disclosures or auditing scope or procedures, which disagreements if not resolved to Withum's satisfaction would have caused Withum to make reference to the subject matter of the disagreement in connection with its report or (ii) reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

During the period from May 10, 2019 (inception) through December 31, 2019, the year ended December 31, 2020 and through February 26, 2021, neither the Company nor anyone on the Company's behalf consulted PricewaterhouseCoopers LLP with respect to either (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Company's financial statements, and no written report or oral advice was provided to the Company by PricewaterhouseCoopers

LLP that PricewaterhouseCoopers LLP concluded was an important factor considered by the Company in reaching a decision as to the accounting, auditing or financial reporting issue; or (ii) any matter that was either the subject of a disagreement, as that term is described in Item 304(a)(1)(iv) of Regulation S-K under the Exchange Act and the related instructions to Item 304 of Regulation S-K under the Exchange Act, or a reportable event, as that term is defined in Item 304(a)(1)(v) of Regulation S-K under the Exchange Act.

PRINCIPAL ACCOUNTANT FEES AND SERVICES

The following table represents aggregate fees billed to the Company for the fiscal years ended January 31, 2023 and 2022 by PricewaterhouseCoopers LLP.

	Fiscal Year Ended (In thousands)\$	
	2022	2023
Audit Fees ⁽¹⁾	3,352	3,703
Audit-related Fees ⁽²⁾	1,889	240
Tax Fees ⁽³⁾	323	129
All Other Fees ⁽⁴⁾	5	9
Total Fees	5,569	4,081

- (1) “Audit Fees” consist of fees for professional services rendered in connection with the audit of our annual consolidated financial statements, including audited financial statements as filed with the SEC on April 3, 2023, review of our quarterly financial statements to be presented in our quarterly report on Form 10-Q and services that are normally provided by our independent registered public accounting firm in connection with statutory and regulatory filings or engagements for those fiscal years.
- (2) “Audit-related Fees” consist of fees related to audit and assurance procedures not otherwise included in Audit Fees, which in fiscal year 2022 includes fees related to Sarbanes-Oxley compliance, the application of generally accepted accounting principles to proposed transactions, and new accounting pronouncements and in fiscal year 2023 includes fees for services provided in connection with the preparations and submissions of registration statements.
- (3) “Tax Fees” consist of tax return preparation, international and domestic tax studies, consulting and planning.
- (4) “All Other Fees” consist of the cost of a subscription to an accounting research tool.

All fees described above were pre-approved by the Audit Committee.

Pre-Approval Policies And Procedures

Pursuant to its charter, the Audit Committee may pre-approve audit and permissible non-audit and tax services provided to the Company by the independent auditors, except where pre-approval is not required because such non-audit services are de minimis under the rules of the SEC, in which case subsequent approval may be obtained. The Audit Committee may delegate to one or more designated members of the Audit Committee the authority to pre-approve audit and permissible non-audit services, provided such preapproval decision is presented to the full Audit Committee at its scheduled meetings.

THE AUDIT COMMITTEE AND THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” THE RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP

PROPOSAL NO. 3
ADVISORY VOTE TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, and Section 14A of the Exchange Act, our stockholders are entitled to vote to approve, on an advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with SEC rules.

This proposal, commonly known as a “Say-on-Pay” proposal, gives our stockholders the opportunity to express their views on our named executive officers’ compensation as a whole. This vote is not intended to address any specific item of compensation or any specific named executive officer, but rather the overall compensation of all of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. The compensation of our named executive officers is disclosed in the Compensation Discussion and Analysis, the compensation tables, and the related narrative disclosure contained in this Proxy Statement. As discussed in these disclosures, we believe that our compensation policies and decisions are based on principles that reflect a “pay-for-performance” philosophy and are strongly aligned with our stockholders’ interests and consistent with current market practices. Compensation of our named executive officers is designed to enable us to attract and retain talented and experienced executives to lead us successfully in a competitive environment.

Accordingly, our Board is asking our stockholders to indicate their support for the compensation of our named executive officers, as described in this Proxy Statement, by casting a non-binding advisory vote “FOR” the following resolution:

“RESOLVED, that the stockholders of ChargePoint Holdings, Inc. (the “Company”) approve, on an advisory basis, the compensation paid to the Company’s named executive officers, as disclosed pursuant to Item 402 of Securities and Exchange Commission Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables, narrative disclosures, and other related disclosure.”

Vote Required

The affirmative vote of the holders of a majority in voting power of the votes cast by the holders of all of the shares of stock present or represented at the meeting and voting affirmatively or negatively on such matter will be required to approve, on an advisory basis, the compensation of our named executive officers.

Because the vote is advisory, it is not binding on us, our Compensation and Organizational Development Committee or our Board. Nevertheless, the views expressed by the stockholders, whether through this vote or otherwise, are important to management and our Board and, accordingly, the Board and the Compensation and Organizational Development Committee intend to consider the results of this vote in making determinations in the future regarding executive compensation arrangements.

**THE BOARD RECOMMENDS A VOTE “FOR”
THE APPROVAL, ON AN ADVISORY BASIS, OF THE
COMPENSATION OF THE NAMED EXECUTIVE OFFICERS.**

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS⁽¹⁾

The Audit Committee serves as the representative of our Board with respect to its oversight of:

- our accounting and financial reporting processes and the audit of our financial statements;
- the integrity of our financial statements, including our internal controls and disclosure controls and procedures;
- our compliance with legal and regulatory requirements;
- overseeing and reviewing our policies for risk assessment and risk management, including cybersecurity risk, and assessing the steps management has taken to control these risks; and
- the independent registered public accounting firm's appointment, qualifications and independence.

The Audit Committee also reviews the performance of our independent registered public accounting firm, PricewaterhouseCoopers LLP, in the annual audit of our financial statements and in assignments unrelated to the audit, and reviews the independent registered public accounting firm's fees.

The Audit Committee is currently composed of four non-employee directors. Our Board has determined that each current member of the Audit Committee is independent under NYSE and SEC rules, and that Mr. Harris qualifies as an "audit committee financial expert" under the SEC rules.

The Audit Committee provides our Board with such information and materials as it may deem necessary to make our Board aware of financial matters requiring its attention. The Audit Committee reviews our financial disclosures and meets privately, outside the presence of our management, with our independent registered public accounting firm. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements in for the fiscal year ended January 31, 2023 included in our Annual Report on Form 10-K with management, including a discussion of the quality and substance of the accounting principles, the reasonableness of significant judgments made in connection with the audited financial statements, and the clarity of disclosures in the financial statements. The Audit Committee reports on these meetings to our Board.

The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended January 31, 2023 with management of the Company. The Audit Committee has discussed with the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board ("PCAOB") and the SEC. The Audit Committee has also received the written disclosures and the letter from PricewaterhouseCoopers LLP required by applicable requirements of the PCAOB regarding the independent accountants' communications with the Audit Committee concerning independence, and has discussed with PricewaterhouseCoopers LLP the accounting firm's independence.

Based on the foregoing, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K, as filed with the SEC on April 3, 2023, for the fiscal year ended January 31, 2023 for filing with the SEC.

Jeffrey Harris (Chair)
Susan Heystee
Ekta Singh-Bushell
G. Richard Wagoner, Jr.

⁽¹⁾ *The material in this report is not "soliciting material," is not deemed "filed" with the SEC and is not to be incorporated by reference in any of our filings under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act, except to the extent that we specifically incorporate this information by reference.*

PROPOSAL NO. 4
AMENDMENT AND RESTATEMENT OF THE COMPANY'S SECOND AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION TO PROVIDE FOR THE EXCULPATION OF OFFICERS AS
PERMITTED BY DELAWARE LAW

The Delaware General Corporation Law (the "DGCL") was amended in 2022 to permit Delaware corporations to exculpate their officers, in addition to their directors, for personal liability in certain actions. After careful consideration, on March 1, 2023, the Board unanimously approved and adopted, and recommends that our stockholders approve, an amendment and restatement of our Second Amended and Restated Certificate of Incorporation (the "Charter") to include the exculpation of officers pursuant to these recent amendments to the DGCL.

As amended, the DGCL only permits, and our proposed amendment to the Charter would only permit, exculpation of officers for claims that do not involve breaches of the duty of loyalty, acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law, or any transaction in which the officer derived an improper personal benefit. In addition, the exculpation of officers would not apply to claims brought by or in the right of the Company, such as derivative claims.

Taking into account the limits on the type of claims for which officers' liability would be exculpated, and the benefits the Board believes would accrue to the Company and its stockholders in the form of an enhanced ability to attract and retain talented officers and the potential to discourage frivolous lawsuits, the Board determined that it is in the best interests of the Company and our stockholders to amend the Charter as described herein.

The proposed amendments to Article Seventh of the Charter are as follows, with added text underlined.

A. Limitation of Director and Officer Liability. To the fullest extent permitted by the DGCL as the same exists or may hereafter be amended, a director or officer of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director or officer, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL as the same exists or may hereafter be amended ~~or unless he or she violated his or her~~ and provided that such exemption shall not eliminate or limit the liability of: (i) a director or an officer for any breach of the director's or officer's duty of loyalty to the Corporation or its stockholders, ~~acted in bad faith, knowingly or intentionally violated the law;~~; (ii) a director or an officer for acts or omissions not in good faith or which involved intentional misconduct or knowing violation of law; (iii) a director for authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, ~~or~~; (iv) a director or officer for any transaction from which the director or officer derived improper personal benefit ~~from his or her action as a director~~; (v) or an officer in any action by or in the right of the Corporation. Any amendment, modification or repeal of the foregoing sentence shall not adversely affect any right or protection of a director or officer of the Corporation hereunder in respect of any act or omission occurring prior to the time of such amendment, modification or repeal. If the DGCL is hereafter amended to authorize corporate action further limiting or eliminating the personal liability of directors or officers, then the liability of the directors or officers of the Corporation shall be limited or eliminated to the fullest extent permitted by the DGCL, as the same exists or may hereafter be amended. For purposes of this Part A of Article SEVENTH, "officer" shall have the meaning provided in Section 102(b)(7) of the DGCL, as the same exists or may hereafter be amended.

The full text of the proposed Third Amended and Restated Certificate of Incorporation is attached as Appendix A to this Proxy Statement.

Vote Required

The affirmative vote of the holders of at least 66 2/3% in voting power of the outstanding shares of stock entitled to vote thereon, voting together as a single class, will be required to authorize the proposed amendment to the Charter.

If this proposal to amend our Charter is approved by our stockholders, the resulting Third Amended and Restated Certificate of Incorporation for the Company will be filed with the Secretary of State of the State of Delaware shortly after the Annual Meeting. If this proposal to amend our Charter is not adopted and approved, the current Charter will remain unchanged.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE EXCULPATION PROPOSAL.

EXECUTIVE OFFICERS

The following table sets forth certain information with respect to our current executive officers as of January 31, 2023. Biographical information for our President, Chief Executive Officer and Director Mr. Romano is included above with the Director biographies in Proposal No. 1 “Election of Directors” under the caption “Class III Nominees For Election For A Three-Year Term Expiring At The 2026 Annual Meeting.”

<u>Name</u>	<u>Age</u>	<u>Position(s)</u>
Pasquale Romano	57	President, Chief Executive Officer and Director
Rex Jackson	63	Chief Financial Officer
Rebecca Chavez	45	General Counsel and Secretary
Michael Hughes	55	Chief Commercial and Revenue Officer
William Loewenthal	60	Chief Product Officer
Eric Sidle	48	Chief Technology Officer ⁽¹⁾
Rick Wilmer	61	Chief Operating Officer

⁽¹⁾ Mr. Sidle resigned as our Chief Technology Officer and separated from service effective as of January 31, 2023.

Executive Officers

Rex Jackson. Mr. Jackson has served as Chief Financial Officer for ChargePoint since February 26, 2021 and has held the same position at Legacy ChargePoint since May 2018. Prior to ChargePoint, Mr. Jackson served as Chief Financial Officer of Gigamon, Inc., a developer of network and security visibility solutions, from October 2016 to April 2018 through its go-private transaction. Mr. Jackson served as Chief Financial Officer of Rocket Fuel Inc., an advertising technology company, from March 2016 to October 2016. Prior, Mr. Jackson served as Chief Financial Officer of JDS Uniphase Corporation (“JDSU”), a provider of network and service enablement solutions and optical products for service providers, cable operators and network equipment manufacturers, from January 2013 to September 2015, where he drove the separation of JDSU into two independent public companies (Lumentum Holdings Inc./Viavi Solutions) in August 2015. Mr. Jackson joined JDSU in January 2011 as Senior Vice President, Business Services, with responsibility for corporate development, legal, corporate marketing and information technology. Prior to JDSU, Mr. Jackson served as Chief Financial Officer of Symyx Technologies from 2007 to 2010, where he led the company’s acquisition of MDL Information Systems and subsequent merger of equals with another public company. Previously, Mr. Jackson also served as acting Chief Financial Officer for Synopsys and General Counsel at Avago Technologies Limited (now Broadcom, Inc.), AdForce and Read-Rite. Mr. Jackson has served on the board of directors of EMCORE Corporation since December, 2015 and chairs the audit and compensation committees. Mr. Jackson previously served on the board of directors of Energos Corporation from 2014 to 2019. Mr. Jackson holds a B.A. from Duke University and a J.D. from Stanford Law School.

Rebecca Chavez. Ms. Chavez has served as ChargePoint’s General Counsel and Secretary since February 2021. Prior to ChargePoint, Ms. Chavez served in various legal leadership roles at Palo Alto Networks, Inc., a global cybersecurity company, including serving as the Vice President, Deputy General Counsel, Corporate, Securities and M&A, from November 2018 to February 2021, Associate General Counsel and Senior Director, Corporate and Securities, from November 2016 to November 2018 and Director, Corporate and Securities, from August 2015 to November 2016. Prior to joining Palo Alto Networks, Inc., she served as Associate General Counsel, Finance & Governance at Levi Strauss & Co., an American clothing company, from April 2013 to July 2015. Ms. Chavez began her legal career working at Morrison & Foerster LLP followed by Sidley Austin LLP. Ms. Chavez holds a B.A. in Latin American Studies and M.A. in Education from Stanford University and a J.D. from the University of California, Davis School of Law.

Michael Hughes. Mr. Hughes has served as Chief Commercial and Revenue Officer for ChargePoint since February 26, 2021 and has held the same position at Legacy ChargePoint since August 2019. Prior to ChargePoint, Mr. Hughes served as Senior Vice President of Worldwide Sales and Services for Barracuda Networks, Inc., a provider of security, networking and storage products, from June 2009 to August 2019. Before Barracuda Networks, Inc., Mr. Hughes served as Vice President of Sales for Asempra Technologies, a provider of one click, instant recovery solutions for Microsoft® Exchange, SQL and Windows File Servers. Mr. Hughes also serves as a board advisor for technology start-ups in the areas of data residency and security, threat intelligence and multi-cloud container data management. He holds a B.S. in Marketing from Miami University and an M.B.A. from the University of Michigan.

William Loewenthal. Mr. Loewenthal has served as Chief Product Officer for ChargePoint since May 2022. Prior to May 2022, Mr. Loewenthal was the Senior Vice President, Product at ChargePoint since February 26, 2021 and held the same position at Legacy ChargePoint since July 2018. Prior to ChargePoint, Mr. Loewenthal served as Vice President of Product Portfolio Management at Avaya, a provider of business communication solutions, from July 2017 until February 2018. Since 2010, Mr. Loewenthal held various roles at audio communications leader Poly (formerly Plantronics), including from February 2012 to February 2016 when he served as Vice President Enterprise Solutions. His career includes leadership roles in public and startup companies with an emphasis on hardware and software solutions. Mr. Loewenthal holds a B.S. from San Jose State University.

Eric Sidle. Mr. Sidle served as Chief Technology Officer of ChargePoint since March 2022 until his resignation on January 31, 2023. Prior to March 2022, Mr. Sidle was the Senior Vice President of Engineering for ChargePoint since February 26, 2021 and had held the same position at Legacy ChargePoint since September 2018. Prior to ChargePoint, Mr. Sidle served in several leadership roles at NIO, a manufacturer of electric vehicles, including Senior Director of Autonomous Driving Hardware, from December 2017 to August 2018 and as Director of Hardware and Advanced Technologies from December 2016 to December 2017. Before NIO, Mr. Sidle led multiple teams in special projects as well as Mac development at Apple, Inc., a multinational technology company that designs, develops and sells consumer electronics, computer software, and online services, from September 2011 to December 2016. He holds a B.S. in Electrical Engineering from the University of Illinois at Urbana-Champaign.

Rick Wilmer. Mr. Wilmer has served as Chief Operating Officer of ChargePoint since December 2022. Prior to December 2022, Mr. Wilmer served as Chief Customer and Operations Officer after joining ChargePoint in July 2022. Prior to joining ChargePoint, Mr. Wilmer served as the Head of Chowbotics at DoorDash, Inc., a company that operates an online food ordering and food delivery platform, from February 2021 until July 2022. Previously, Mr. Wilmer served as Chief Executive Officer of Chowbotics, Inc., a manufacturer of a fresh food robot, from September 2019 until February 2021. Prior to Chowbotics, Inc., Mr. Wilmer served as Chief Executive Officer of Mojo Networks, a provider of cloud-managed wireless networking, from December 2014 until the acquisition of Mojo Network, Inc. by Arista Networks in August 2018, and following such acquisition, as the General Manager of Arista Networks, Inc.'s Wi-Fi business until September 2019. With more than 30 years of global technology, operations and customer support experience, Mr. Wilmer has global operations experience across North America, Europe and Asia and industry knowledge across multiple technology segments as well as overseas manufacturing and supply chain management. Mr. Wilmer holds a Bachelor of Science in Chemistry from the University of California, Berkeley.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis describes the material elements of our executive compensation program for our named executive officers during fiscal 2023, provides an overview of our executive compensation philosophy and objectives, and discusses how and why the Compensation and Organizational Development Committee (the “Compensation Committee”) of our Board arrived at the specific compensation decisions for our named executive officers for fiscal 2023. During our fiscal year ended January 31, 2023 (“fiscal 2023”), our named executive officers were:

- Pasquale Romano, our President and Chief Executive Officer;
- Rex Jackson, our Chief Financial Officer;
- Michael Hughes, our Chief Commercial and Revenue Officer;
- Eric Sidle, our former Chief Technology Officer*; and
- Rick Wilmer, our Chief Operating Officer.

* Mr. Sidle resigned from his position as Chief Technology Officer, effective as of January 31, 2023, and provided transition services through March 30, 2023.

Executive Summary

Who We Are

For more than a decade, ChargePoint has been singularly focused on enabling the movement of all people and goods on electricity. Today, we are facilitating mass electric vehicle (EV) adoption with one of the largest charging networks in the world, a strong leadership position in North America and a growing presence in Europe. We are a market leader in electric vehicle fueling and have helped pioneer networked fueling, offering one of the industry’s most comprehensive portfolios of hardware, software and services for commercial, fleet and residential customers. Businesses, fleets and drivers turn to the ChargePoint team for EV charging education, resources and technology as they look to participate in the electrification of transportation.

Fiscal 2023 Business Highlights

Fiscal 2023 was an exceptional year for the Company. We successfully executed on our growth and expansion initiatives, including the following:

- Revenue increased from approximately \$241 million at fiscal year-end 2022, to approximately \$468 million at fiscal year-end 2023, an increase of 94%.
- Worldwide networked ports under management increased from approximately 174,000 at fiscal year-end 2022, to approximately 225,000 ports at fiscal year-end of 2023, an increase of 29%.
- Worldwide roaming port count increased from approximately 300,000 at fiscal year-end 2022, to more than 465,000 ports at fiscal year-end of 2023, an increase of 55%.
- We increased our worldwide full-time employees from approximately 1,400 full-time employees as of fiscal year-end 2022 to approximately 1,650 full-time employees as of fiscal year-end 2023.

Compensation Philosophy and Objectives

We believe that to be successful we must hire and retain talented leadership. We recognize that there is significant competition for qualified executives within our industry, especially in California where our headquarters are located, and it can be particularly challenging for companies to recruit executive officers of the caliber necessary to achieve our short-term and long-term objectives. Accordingly, our executive compensation

programs are intended to attract and retain this leadership team in a highly competitive talent market and to motivate them to achieve our business objectives. We believe our leadership team possesses the skillset necessary to support our near-term objectives and create long-term value for our stockholders, grow our business and assist in the achievement of our strategic goals.

Our named executive officer compensation program focuses on total compensation composed of a mix of cash and equity compensation, including performance-based equity, which we believe attracts, motivates and retains our leadership team.

Fiscal 2023 Executive Compensation Highlights

In connection with a review of our compensation practices for fiscal 2023, we reviewed all aspects of our executive compensation programs and made a number of changes:

- **Equity awards to the named executive officers reflected a two-year front-load of equity compensation for fiscal 2023 and fiscal 2024.** The fiscal 2023 equity awards provided to our executive officers were intended to reflect two years of equity incentive compensation and includes an additional fifth year of vesting to ensure the front-loaded nature of the grant does not result in less retention over time. As a result of the design of the fiscal 2023 RSU and PRSU awards, described below we do not intend to grant additional equity awards to our named executive officers during fiscal 2024, other than in the event of a substantial change in roles or responsibilities for such executive officer. Further, a portion of the fiscal 2023 equity awards were structured to provide the named executive officers with stock price appreciation objectives, as described below, as well as to provide for significant employment retention incentives following our transition to a publicly traded company.
- **Our equity compensation program includes performance-based restricted stock units.** Beginning in fiscal 2023, we awarded equity in the form of time-based restricted stock units (“RSUs”) and performance-based restricted stock units (“PRSUs”), with each named executive officer provided 50% of the aggregate target value of their equity awards in the form of RSUs and 50% of such value in the form of PRSUs. The PRSUs require stock price appreciation objectives to be achieved within five years of the date of grant of such awards and are designed with a progressive earnout schedule so that a higher percentage of the total award is earned when the highest stock price goals are achieved. For each PRSU award, the performance-based condition is satisfied for a respective percentage of the award upon achievement of the following price appreciation targets for our common stock:
 - \$17 per share/25% of the total PRSUs,
 - \$22 per share/35% of the total PRSUs, and
 - \$30 per share/40% of the total PRSUs.

In addition, each PRSU award includes a corresponding five-year service-based vesting requirement. The PRSUs service-based vesting dates are each March 20th, June 20th, September 20th, and December 20th annually during the service period. PRSUs that satisfy the achievement of service-based conditions but have not satisfied performance-based conditions are not vested and not released. Conversely, in the event any performance-based condition is satisfied with respect to the PRSUs, any portions of the PRSUs awards that have satisfied the service-based conditions will be deemed fully vested and will be released. Finally, the RSU and PRSU service-based vesting schedules for our CEO, Mr. Romano, is back-end loaded to increase retention so that such awards vest in equally quarterly installments commencing on June 20, 2024, subject, in the case of the PRSU award, to achievement of the same stock price appreciation targets applicable to our other named executive officers.

- **A substantial portion of the total compensation awarded to our executive officers in fiscal 2023 was comprised of “performance-based” compensation components.** As described more completely below under “Executive Compensation – Equity Compensation” the PRSUs granted to our executive officers in

fiscal 2023 will not vest, and will be forfeited, in the event the PRSUs fail to meet the designated performance-based objectives. Our fiscal 2023 PRSU awards are viewed as an integral part of our executive compensation program and comprise a primary “performance-based” portion of our named executive officer’s total compensation. As of January 31, 2023, no portion of the PRSUs had vested. In addition, our executive 2023 annual performance-based cash bonus opportunities (the “2023 Cash Bonus”) are subject to meeting financial performance objectives that are designed to be aligned with our long-term strategy. In fiscal 2023, our 2023 Cash Bonus awards were paid pursuant to our bonus formula and our Chief Executive Officer and other named executive officers received an aggregate cash bonus equal to 75% of their target annual cash bonuses under the 2023 Cash Bonus. These bonuses were tied to achievement of our annual financial performance objectives, which were set at levels designed to be aggressive but achievable with significant effort, as further detailed below under “Executive Compensation - 2023 Cash Bonus.” For more information about the “performance-based” portion of the total compensation awarded to our executive officers in fiscal 2023, see the section “Executive Compensation – Performance-Based Compensation” set forth below.

Advisory Vote on Executive Compensation

At our 2022 Annual Meeting of Stockholders, our stockholders approved, on an advisory basis, the compensation of our named executive officer as disclosed in our 2022 proxy statement. The Compensation Committee reviewed and considered the level of support for the 2022 “say-on-pay” vote (86.6% of total votes cast with respect to the advisory proposal). Given the strong vote result, the Compensation Committee determined not to adjust our executive compensation policies or program as a result of the vote. The PRSU equity awards we adopted in fiscal 2023 were, in part, in response to shareholder feedback and to better align our executives’ interests with those of our stockholders through stock price appreciation targets that correlate with our stockholders’ total return and are tied to increasing our common stock price. Our Compensation Committee will continue to monitor and evaluate our executive compensation program, considering our stockholders’ views and our evolving business needs. Our Board and our Compensation Committee value the opinions of our stockholders, and we believe that it is important for our stockholders to have an opportunity to vote on this proposal annually, which is consistent with the frequency preferred by our stockholders who voted on the “say-on-pay” frequency proposal at our 2022 Annual Meeting.

Executive Compensation Policies and Practices

We endeavor to design and implement our executive compensation policies and practices in accordance with sound governance standards. The Compensation Committee meets regularly throughout the year to review our executive compensation program to evaluate whether it is consistent with our short-term and long-term goals given the dynamic nature of our business and the markets in which we compete for executive talent. Our executive compensation practices include the following, each of which the Compensation Committee believes reinforces our executive compensation objectives:

- Independent Compensation Committee—The Compensation Committee is comprised solely of independent directors.
- Independent Compensation Committee Consultant—The Compensation Committee engaged its own compensation consultant to assist with its fiscal 2023 compensation reviews and determinations. This consultant performed no other consulting or other services for us during fiscal 2023.
- Annual Executive Compensation Review—The Compensation Committee conducts an annual review and approval of our compensation practices and strategy.
- Establishing Peer Compensation Group—The Compensation Committee utilizes a compensation peer group for comparative compensation purposes, which is evaluated on an annual basis with the assistance of the Compensation Committee’s independent compensation consultant.

- Executive Compensation Policies and Practices—Our compensation philosophy and related corporate governance policies and practices are complemented by several specific compensation practices that are designed to align our executive compensation with long-term stockholder interests, including the following:
 - Multiple Performance Metrics: We use more than one performance metric for our annual cash incentive bonus program which is linked to our financial objectives and a minimum threshold of each performance metric must be achieved to fund the annual cash incentive bonus program.
 - “At Risk” Long-Term Performance-Based Equity Incentives: A substantial portion of our named executive officers’ equity incentive awards in fiscal 2023 were PRSUs, with vesting tied to an increased trading price of our common stock and time-based vesting.
 - No Special Health or Welfare Benefits: Our named executive officers participate in broad-based company-sponsored health and welfare benefit programs on the same basis as our other full-time, salaried employees.
 - No Post-Employment Tax Reimbursements: We do not provide any tax reimbursement payments (including “gross-ups”) on any severance or change in control payments or benefits.
 - “Double-Trigger” Change in Control Arrangements: All cash-based change in control payments and benefits for our current executive officers are based on a “double-trigger” arrangement (that is, they require both a change in control *plus* a qualifying termination of employment before payments and benefits are paid).
 - Stock Ownership Guidelines: Effective as of March 2023, we require that our executive officers achieve and maintain minimum levels of ownership of our common stock.

Compensation Governance and the Compensation-Setting Process

Role of Our Compensation Committee and Board

The Compensation Committee is responsible for the oversight of our executive compensation programs, with our Board determining the compensation of our Chief Executive Officer based on recommendations from the Compensation Committee. In setting the compensation of our other executive officers, the Compensation Committee takes into account our Chief Executive Officer’s review of each executive officer’s performance and his recommendations with respect to their compensation. The Compensation Committee’s responsibilities regarding executive compensation are further described in the “Corporate Governance” section of this proxy statement.

Roles of our Executive Officers

In discharging its responsibilities, the Compensation Committee works with members of management, including our Chief Executive Officer. As manager of the executive team, our Chief Executive Officer provides recommendations to the Compensation Committee regarding the compensation of the other named executive officers. Other members of management support the Compensation Committee’s work by providing data, information and their perspective on the tax and human resource implications of our compensation programs. No named executive officer participates directly in final decisions regarding his or her compensation.

Role of Compensation Consultant

In fiscal 2023, the Compensation Committee engaged FW Cook, a national compensation consulting firm. FW Cook assisted the Compensation Committee in developing a compensation peer group, conducting a review of the compensation of our executive officers, as well as support on other ad hoc matters throughout the year. In fiscal 2023, the Compensation Committee assessed the independence of FW Cook and determined that no conflict existed that would prevent FW Cook from independently representing the Compensation Committee.

Competitive Data

Our Board and Compensation Committee believe that competitive compensation data provides useful context in making compensation decisions even though our Board and Compensation Committee do not make decisions based solely on compensation data. The Compensation Committee regularly reviews market compensation levels to determine whether total compensation for our executives remains competitive and adjusts when deemed appropriate. Prior to fiscal 2023, the Compensation Committee assesses the competitive market based on survey data. However, beginning in fiscal 2023, the Compensation Committee adopted a peer group of companies to evaluate the competitive market. Working with FW Cook, the Compensation Committee established criteria for the committee to consider peer group companies for evaluating the competitiveness of the Company's executive compensation program. The criteria generally excluded companies that recently went public either through an initial public offering or by means of a transaction similar to the Business Combination because the data available and the structure of those companies' compensation programs was viewed as too underdeveloped to use as a metric for our fiscal 2023 compensation decisions. The criteria included U.S.-based companies with market capitalizations between \$1.5 billion and \$25 billion, with a focus on companies in the electrical, software, automotive and technology related fields. The analysis included a review of the relevant peer group companies' trailing last twelve-month revenue, market capitalization, number of worldwide employees and annualized total shareholder return.

The peer companies used by the Compensation Committee for pay comparisons and for evaluating relative performance leading to approval of fiscal 2023 executive compensation are shown below (the "Peer Data"). The median annual revenue of the peer group at the time it was approved was approximately \$505 million and the average market capitalization of the peer group at the time it was approved was approximately \$10 billion.

Fiscal 2023 Peer Group		
Alteryx, Inc.	Enphase Energy, Inc.	Sunnova Energy International, Inc.
Anaplan, Inc.	Five9, Inc.	Sunrun Inc.
AppFolio, Inc.	Novanta Inc.	Universal Display Corporation
Cognex Corporation	Plug Power Inc.	Vicor Corporation
Coupa Software Incorporated	Power Integrations, Inc.	Zscaler, Inc.

The Peer Data was changed after making compensation decisions for fiscal 2023 in order to better reflect our updated market capitalization and the relative market capitalization of the members of the Peer Data. The changes included removing Anaplan, Inc. Enphase Energy, Inc., Sunnova Energy International, Inc. and Zscaler, Inc. due to differences in market capitalization, and primary geographic location or labor market. Those companies were replaced with additional companies chosen for industry overlap, similar market capitalization, and projected growth valuation. The companies added to the Peer Data for fiscal year 2024 include Bloom Energy Corporation, Fastly, Inc., Lyft, Inc., New Relic, Inc., Teradata Corporation, and Vontier Corporation.

Compensation Setting Process

In the annual assessment of our executive compensation program, our Board and Compensation Committee consider a number of factors to determine compensation levels and design. Our Board and Compensation Committee adopts a holistic review of the Company's executive compensation program and did not use a single method or measure in making compensation decisions nor did it adopt a policy for allocating between different compensation elements. In making fiscal 2023 compensation decisions, our Board and Compensation Committee considered the following factors:

- The experience and skills of each named executive officer;
- The scope of each named executive officer's role;
- The size and vesting schedules of existing equity holdings of each named executive officer;
- A subjective assessment of the performance of each named executive officer;

- The Company's overall performance;
- Internal parity among the named executive officers;
- An analysis of competitive market conditions and the peer group described above; and
- The recommendations of our CEO in the case of named executive officers other than himself.

Compensation decisions are informed by a variety of factors and the importance of each factor can vary from year to year.

Compensation Elements

The annual compensation of our named executive officers consists of three principal elements: base salary; annual cash bonus opportunities; and long-term incentives in the form of equity awards. The RSU and PRSU awards issued to our named executive officers in fiscal 2023 were designed to cover two years of equity award compensation applicable to fiscal years 2023 and 2024 and included an extended vesting schedule of five years. The structure of the awards and the vesting schedule is designed as though the RSU and PRSU awards were granted on an annual schedule over two consecutive years. The purpose of such a design was to properly incentivize our named executive officers to maintain a strong ownership mentality, to enhance immediate employment retention and to increase the potential compensation reward from equity holdings without granting more equity compensation than otherwise would have been awarded over the two years. As a result of the design of the fiscal 2023 RSU and PRSU awards we do not intend to grant additional equity awards to our named executive officers during fiscal 2024, other than in the event of a substantial change in roles or responsibilities for such executive officer.

The design of our executive compensation program is influenced by a variety of factors. We do not have a specific policy on the percentage allocation between short-term and long-term compensation elements. We also do not target specific percentiles and consider both Peer Data and internal relationships, contributions, experience, performance, and roles when making named executive officer compensation decisions. While the pay mix may vary from year to year, the ultimate goal is to achieve our compensation objectives as described above.

Base Salary

Base salaries are designed to provide a stable source of income for our named executive officers and reflect differences in roles, degree of difficulty to replace, experience, and performance. In general, the initial base salary of each of our named executive officers is established through arms-length negotiations at the time the officer is hired, considering the competitive market as well as the compensation received by the executive's prior employer and predecessor within the Company. Thereafter base salaries are reviewed annually or in connection with any promotion or substantial change in duties. During our fiscal 2023 review of salary compensation for our executive officers, our Compensation Committee determined to implement salary adjustments to better reflect our transition from a private company to a public company and after giving consideration to the Peer Data as compared to the survey data previously used by the Compensation Committee in fiscal 2022. In addition, the salary for Mr. Hughes was adjusted to reflect the termination of a separate cash commission incentive plan previously available to him in fiscal year 2022 and his participation in our 2023 Cash Bonus program, described more completely below.

The base salaries of our named executive officers during fiscal 2023 were as follows:

<u>Named Executive Officer</u>	<u>Fiscal 2022 Base Salary</u>	<u>Fiscal 2023 Base Salary</u>
Mr. Romano	\$500,000	\$575,000
Mr. Jackson	\$400,000	\$430,000
Mr. Hughes	\$350,000	\$430,000
Mr. Sidle	\$350,000	\$410,000
Mr. Wilmer ⁽¹⁾	N/A	\$475,000

- (1) Mr. Wilmer joined the Company on July 11, 2022, as our Chief Customer and Operations Officer with a base salary of \$400,000 annually. Mr. Wilmer's base salary was increased to \$475,000 annually on December 22, 2022, in connection with his appointment as our Chief Operating Officer.

2023 Cash Bonus

Our 2023 Cash Bonus program was designed to incentivize achievement of key annual financial performance objectives. Each of our named executive officers has a target bonus expressed as a percentage of the officer's base salary. These target bonus opportunities are typically reviewed annually. The resulting fiscal 2023 target bonus opportunities for our named executive officers were:

<u>Named Executive Officer</u>	<u>Fiscal 2022 Target Bonus Opportunity (as a percentage of base salary)</u>	<u>Fiscal 2023 Target Bonus Opportunity (as a percentage of base salary)</u>
Mr. Romano	100%	100%
Mr. Jackson	75%	75%
Mr. Hughes ⁽¹⁾	100%	75%
Mr. Sidle	50%	50%
Mr. Wilmer ⁽²⁾	N/A	75%

- (1) Prior to fiscal 2023, Mr. Hughes was eligible to earn quarterly commissions up to an amount equal to 100% of his annual salary, with certain accelerators. In fiscal 2023, Mr. Hughes participated in our 2023 Cash Bonus program available to all our named executive officers and his target bonus opportunity was adjusted accordingly.
- (2) Mr. Wilmer joined the Company on July 11, 2022, as our Chief Customer and Operations Officer with a target bonus opportunity of 50% of salary. Mr. Wilmer's target bonus opportunity was increased to 75% of salary on December 22, 2022, in connection with his appointment as our Chief Operating Officer. Mr. Wilmer's final fiscal 2023 target bonus was pro-rated based on the number of days served during the period when he was eligible for a 50% of salary and 75% of salary target bonus opportunity, respectively.

For fiscal 2023, our Compensation Committee selected annual revenue and adjusted EBITDA as the performance metrics for our 2023 Cash Bonus program. These metrics were selected to balance top-line growth with a profitability measure to support growth in a disciplined manner with an objective to achieve future positive cash flow within our publicly-stated objectives. Revenue represents the Company's total revenue measured in accordance with generally accepted accounting principles (GAAP). The Compensation Committee believes annual revenue is the best measure of overall sales performance for the Company and closely aligns with our stockholders' expectations for our growth. For purposes of the 2023 Cash Bonus, adjusted EBITDA is defined as our non-GAAP gross margin minus non-GAAP operating expenses plus depreciation. The Compensation Committee believes adjusted EBITDA provides the correct and appropriate incentives for the management team to balance the growth and expansion of ChargePoint with its announced positive cash flow and profitability objectives.

The 2023 Cash Bonus program included two separate factors, a formulaic factor tied to the revenue and adjusted EBITDA performance metrics and a qualitative factor tied to a potential adjustment, which, when both added together, resulted in a maximum target bonus pool percentage of 200%. With regard to the formulaic factor, each performance metric of the 2023 Cash Bonus was weighted 50% and in order for our named executive officers to earn any bonus under this factor, we had to achieve at least 81.5% of the annual revenue target and 73.9% of the adjusted EBITDA target. The payout for the formulaic component of the 2023 Cash Bonus could be increased to 150% in the event the management team achieved up to 110% of the annual revenue target and 120% of the adjusted EBITDA target or could be decreased to 50% in the event we achieved the minimum targets for annual revenue and adjusted EBITDA. With respect to each performance metric, the target bonus percentage was adjusted using linear interpolation for achievement of final performance metrics between the minimum and maximum performance goals. We consider these specific target performance goals to be confidential commercial and financial information, the disclosure of which could result in competitive harm to us. The goals were designed to be challenging but achievable with strong execution against our operating plan.

The second factor used in the 2023 Cash Bonus program was an independent potential qualitative factor adjustment equal to any percentage within the range of plus or minus (+/-) 50% based on the Compensation Committee's qualitative assessment of the Company's performance relative to the revenue and adjusted EBITDA goals, in addition to special or significant achievements with respect to employees, customers, partners and stockholders.

We achieved 85% of the revenue target and 91% of the adjusted EBITDA target resulting in an aggregate 2023 Cash Bonus payout formulaic percentage of 75%. The Compensation Committee and Board did not apply any qualitative factor adjustment to the final 2023 Cash Bonus payout so the final 2023 Cash Bonus reflected only the achievement of the formulaic factor. As a result of the achievement of 75% of the 2023 Cash Bonus performance goals, our named executive officers became eligible for a cash bonus equal to 75% of their respective fiscal 2023 target bonus opportunity as set forth in the table above. The final 2023 Cash Bonus amounts payable to our named executive officers for fiscal 2023 appear in the "Non-Equity Incentive Plan Compensation" column of our Fiscal Year 2023 Summary Compensation Table below.

Equity Compensation

Equity awards are an important part of our executive compensation strategy as we believe they help align our named executive officers' long-term incentives with those of our stockholders and provide longer term retention incentives. Prior to the Business Combination, we used stock options as our primary form of equity compensation. Following completion of the Business Combination in fiscal 2022, we introduced RSUs as our primary equity compensation vehicle. In general, we grant RSUs in connection with the hire and promotion of a named executive officer and in connection with retention purposes aligned with our annual review process. In fiscal 2023, we introduced PRSUs for the purpose of more completely aligning our overall executive compensation objectives with specific and measurable shareholder total return goals tied to increasing our common stock price. As a result, in fiscal 2023, our total equity compensation strategy was 50% time-based RSUs and 50% PRSUs.

The RSU and PRSU awards issued to our named executive officers in fiscal 2023 were designed to cover two years of equity award compensation applicable to fiscal years 2023 and 2024 and included an extended vesting schedule of five years. The structure of the awards and the vesting schedule is designed as though the RSU and PRSU awards were granted on an annual schedule over two consecutive years. The purpose of such a design was to properly incentivize our named executive officers to maintain an ownership mentality, to enhance immediate employment retention, and to increase the potential compensation reward from equity holdings without granting more equity compensation than otherwise would have been awarded over the two years. We believe that this design aligns our executives' interests with those of our stockholders through stock price appreciation targets that correlate with our stockholders' total return and are tied to increasing our common stock price. As a result of the design of the fiscal 2023 RSU and PRSUs, we do not intend to grant additional equity awards to our named executive officers during fiscal 2024, other than in the event of a substantial change in roles or responsibilities of such executive officer.

RSU Grants

In fiscal 2023, our named executive officers received RSU awards, with the size of these RSU awards determined after a review of each officer's role, responsibilities and performance, each officer's existing equity position, our overall compensation and retention objectives and the Peer Data. The RSU awards granted in fiscal 2023 to our named executive officers are set forth below. The grant date fair value of these fiscal 2023 RSU awards are included in the "Stock Awards" column of our Fiscal Year 2023 Summary Compensation Table:

<u>Name</u>	<u>Grant Date Value of RSUs (\$)</u>
Pasquale Romano ⁽¹⁾	8,248,673
Rex Jackson ⁽²⁾	4,124,336
Michael Hughes ⁽²⁾	4,124,336
Eric Sidle ⁽²⁾	1,649,725
Rick Wilmer ⁽³⁾	4,944,190

- (1) The RSUs are subject to a service-based vesting requirement, which will be satisfied over a 3-year period starting after June 20, 2024, with respect to 1/12th of the shares underlying the RSU quarterly, provided that Mr. Romano remains in continuous service on each such vesting date.
- (2) The RSUs are subject to a service-based vesting requirement, which will be satisfied over a 5-year period commencing on June 20, 2022, with respect to 1/20th of the shares underlying the RSU quarterly, provided that the executive officer remains in continuous service on each such vesting date.
- (3) Mr. Wilmer was granted two separate RSU awards in fiscal 2023. \$3,336,539 of the RSUs are subject to a service-based vesting requirement, which shall be satisfied over a 5-year period pursuant to which 20% of the RSUs will vest on June 20, 2023, and the remainder will vest in equal quarterly installments thereafter, provided that Mr. Wilmer remains in continuous service on each such vesting date. \$1,607,651 of the RSUs are subject to a service-based vesting requirement, which will be satisfied over a 4-year period commencing on March 20, 2023, with respect to 6.25% of the RSUs and the remainder in equal quarterly installments thereafter, provided that Mr. Wilmer remains in continuous service on each such vesting date.

Our CEO, Mr. Romano, was granted a significant option award in fiscal 2021 and was not granted an RSU award in fiscal 2022 at the time when the then-serving named executive officers were granted equity awards. A substantial portion of Mr. Romano's existing outstanding unvested equity is scheduled to vest in January 2024. As a result, in order to provide sufficient incentive and retention objectives, our CEO's fiscal 2023 RSU award was granted so that it does not commence vesting until June 2024 and vests in quarterly installments thereafter for three years to align with the vesting schedule of the fiscal 2023 RSU awards granted to our other executive officers. The RSU awards for our other named executive officer vest over five years, rather than the four-year schedule we use for most employee grants to reflect that the grant is intended to cover two years of equity compensation and should not vest sooner than as if the awards were granted under an annual award schedule in consecutive years. Mr. Wilmer was granted two RSUs awards in fiscal 2023. The initial RSU award, in the amount of 217,932 shares, was granted to Mr. Wilmer in connection with his initial hiring as our Chief Customer and Operations Officer in July 2022. Mr. Wilmer's second RSU award, in the amount of 180,635 shares, was granted to him December 2022, in connection with his promotion to Chief Operating Officer.

PRSU Grants

In fiscal 2023, we introduced PRSUs as an element of our executive compensation program, with our named executive officers receiving PRSU awards as 50% of their target annual equity grant. The size of these awards was determined in fiscal 2023 after a review of each officer's role, responsibilities and performance, each officer's existing equity position, our overall compensation and performance-based objectives and the Peer Data. Vesting of the PRSUs is dependent upon the satisfaction of both performance- and service-based conditions. The performance-based condition is achieved if the closing price of our common stock is greater than or equal to the applicable stock price appreciation target for at least 20 consecutive trading days at any time during the five-year

performance period for the PRSU awards, ending on the fifth anniversary of the date of grant. There are three stock appreciation targets applicable to each PRSU award, the achievement of which will cause the performance-based condition to be satisfied with respect to the following percentage of each award (each of which we refer to as a tranche):

- \$17 per share/25% of the total PRSUs;
- \$22 per share/35% of the total PRSUs; and
- \$30 per share/40% of the total PRSUs.

Other than in the case of the PRSUs granted to our CEO, Mr. Romano, which is described below, the PRSUs are also subject to service-based vesting conditions prior to and following achievement of the market condition, with vesting occurring quarterly over five-years from the date of grant. PRSUs that satisfy the achievement of service-based conditions but have not satisfied performance-based conditions are not vested and not released. Conversely, in the event any performance-based condition is satisfied with respect to the PRSUs, any portions of the PRSUs awards that have satisfied the service-based conditions will be deemed fully vested and will be released. PRSUs earned by our CEO, Mr. Romano, is subject to a back-end loaded service-based vesting schedule with quarterly installments over a three-year period beginning June 2024 until June 2027. The purpose of including a service-based vesting condition to the performance-based stock performance requirement is designed to ensure that a high performing management team is retained after performance-based performance goals are achieved. PRSUs that do not satisfy the performance-based stock price conditions are not eligible to vest and will be forfeited five years after the date of grant. Once the performance-based condition for an applicable tranche has been achieved, the PRSUs service-based vesting dates are each March 20th, June 20th, September 20th, and December 20th. As of January 31, 2023, no portion of the PRSUs had vested.

The PRSU awards granted in fiscal 2023 to our named executive officers are set forth below. The grant date fair value of these fiscal 2023 PRSU awards are included in the “Stock Awards” column of our Fiscal Year 2023 Summary Compensation Table:

<u>Name</u>	<u>Grant Date Value of PRSUs (\$) ⁽¹⁾</u>
Pasquale Romano ⁽²⁾	7,499,638
Rex Jackson	3,749,820
Michael Hughes	3,749,820
Eric Sidle	1,499,924
Rick Wilmer ⁽³⁾	3,499,996

- (1) Other than for Mr. Romano and Mr. Wilmer, the service-based conditions applicable to 1/20th of the PRSUs subject to each tranche will be satisfied if such officer remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2022, or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The PRSUs service-based vesting dates are each March 20th, June 20th, September 20th, and December 20th.
- (2) In the case of Mr. Romano, the service-based conditions applicable to 1/12th of the PRSUs subject to each tranche will be satisfied if he remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2024, or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The PRSUs service-based vesting dates are each March 20th, June 20th, September 20th, and December 20th.
- (3) In the case of Mr. Wilmer, the PRSUs will vest over a 5-year period. 20% of the PRSUs shall vest June 20, 2023, and the remainder shall vest in equal quarterly installments thereafter, provided he remains in continuous service on each such vesting date or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The PRSU’s service-based quarterly vesting dates are March 20th, June 20th, September 20th and December 20th.

Annualized Equity Grants

The following 2023 RSU and 2023 PRSU Award Two-Year Annualized Grant Table shows the aggregate grant date fair value of the 2023 RSU and 2023 PRSU awards on an actual basis and on any annualized basis with the full grant date fair value of each equity award represented over a two-year period.

2023 RSU and 2023 PRSU Award Two-Year Annualized Grant Table⁽¹⁾

Name	2023 RSU (Actual) (\$)	2023 PRSU (Actual) (\$)	Total Grant Value (Actual) (\$)	2023 RSU⁽²⁾ (Annualized) (\$)	2023 PRSU⁽²⁾ (Annualized) (\$)	Total Grant Value⁽²⁾ (Annualized) (\$)
Pasquale Romano	8,248,673	7,499,638	15,748,310	4,124,336	3,749,819	7,874,155
Rex Jackson	4,124,336	3,749,820	7,874,156	2,062,168	1,874,910	3,937,078
Michael Hughes	4,124,336	3,749,820	7,874,156	2,062,168	1,874,910	3,937,078
Eric Sidle	1,649,725	1,499,924	3,149,649	824,862	749,962	1,574,824
Rick Wilmer	4,944,190	3,499,996	8,444,186	2,472,095	1,749,998	4,222,093

- (1) The amounts in this table represent the aggregate grant date fair value of RSU or PRSU awards, as applicable, granted to the named executive officer computed in accordance with FASB ASC Topic 718. See Note 13 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K filed on April 3, 2023, for a discussion of the assumptions made in determining the grant date fair value of our equity awards.
- (2) The amount in this column represents the aggregate grant date fair value of RSU or PRSU awards, as applicable, annualized over a two-year period to reflect the period that the front-loaded award was intended to cover.

Performance-Based Compensation

We believe that aligning our executive compensation with the long-term growth of ChargePoint is in the best interest of our stockholders. As a result, a substantial portion of the total compensation granted to our executive officers in fiscal 2023 was made subject to the achievement of specific performance objectives, in the case of our 2023 Cash Bonus program, to the achievement of specific revenue and adjusted EBITDA targets, and in the case of our PRSUs to the achievement of specific stock price appreciation targets.

The portion of the total compensation granted to our named executive officers in fiscal 2023 that is subject only to service-based requirements and subject to performance-based requirements is set forth below.

Name	Service-Based Compensation Components⁽¹⁾			Performance-Based Compensation Components⁽¹⁾			
	Salary (\$)	2023 RSU⁽²⁾ (\$)	All Other Compensation (\$)	2023 Cash Bonus⁽³⁾ (Target) (\$)	2023 Cash Bonus (Actual) (\$)	2023 PRSUs⁽²⁾ (Target) (\$)	2023 PRSUs (Vested) (\$)
Pasquale Romano	562,500	8,248,673	13,472	575,000	431,250	7,499,638	—
Rex Jackson	425,000	4,124,336	—	322,500	241,875	3,749,820	—
Michael Hughes	416,667	4,124,336	4,016	322,500	241,875	3,749,820	—
Eric Sidle	400,000	1,649,725	224,037	205,000	153,750	1,499,924	—
Rick Wilmer	232,628	4,944,190	—	128,904	96,678	3,499,996	—

- (1) The amounts in this table, other than the column “2023 Cash Bonus (Target)” are based on actual compensation earned or granted to our executive officer as set forth in our Fiscal Year 2023 Summary Compensation Table.

- (2) The amounts in this column represent the aggregate grant date fair value of RSU or PRSU awards, as applicable, granted to the executive officer computed in accordance with FASB ASC Topic 718. See Note 13 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K filed on April 3, 2023, for a discussion of the assumptions made in determining the grant date fair value of our equity awards.
- (3) The amounts in the column “2023 Cash Bonus (Target)” is the target cash bonus opportunity for each executive officer assuming achievement of 100% of the performance-based targets.

The percentage of the total target compensation granted to our named executive officers in fiscal 2023 that is subject only to service-based requirements and subject to performance-based requirements, and therefore “at-risk” is set forth below.

Health and Welfare Benefits

Our named executive officers are eligible to participate in the same employee benefit plans, and on the same terms and conditions, as all other full-time, salaried employees. In the U.S. these benefits include medical, dental, and vision insurance, an employee assistance program, health and dependent care flexible spending accounts, health savings account, basic life insurance, accidental death and dismemberment insurance, short-term and long-term disability insurance and commuter benefits.

We design our employee benefits programs to be affordable and competitive in relation to the market. We adjust our employee benefits programs as needed based upon regular monitoring of applicable laws and practices and the competitive market. In structuring these benefit programs, we seek to provide an aggregate level of benefits that are comparable to those provided by similar companies.

Retirement Benefits

We maintain a 401(k) retirement plan for our employees, including our named executive officers. Currently, we do not provide company matching contributions to participants in the Section 401(k) plan.

We do not provide pension arrangements for our named executive officers or other employees, nor do we provide any nonqualified defined contribution or other deferred compensation plans to any of our employees.

Perquisites and other Personal Benefits

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly in fiscal 2023, we provided limited perquisites to Messrs. Romano and Hughes. We provided each with spouse travel and expenses to an annual vacation award for top sales performers.

In the future, we may provide perquisites or other personal benefits if our Compensation Committee deems it appropriate, for example if helpful in recruiting an individual or to assist an individual in the performance of his or her duties, particularly for roles that are outside the United States where certain perquisites are more common.

Employment Arrangements

We have entered into employment offer letters with each of our named executive officers setting forth the initial terms of the officer's employment. Offer letters with our U.S. named executive officers provide that the officer's employment will be "at will" and may be terminated at any time.

Severance and Change in Control Protection

In connection with becoming a publicly-traded company, we entered into severance and change in control agreements with each of our named executive officers after the consummation of the Business Combination. We also enter into the same form of severance and change in control agreement with each new executive officer that joins us, such as in the case of Mr. Wilmer who joined ChargePoint in July 2022. These agreements provide for cash severance in connection with qualifying terminations of employment before and after a change in control and for equity acceleration in the event of qualifying terminations of employment in connection with a change in control. The agreements have three-year terms beginning on the consummation of the Business Combination and are set to expire in March of 2024. The shorter term allows our Compensation Committee to reassess the terms and conditions periodically.

The primary purpose of the change in control benefits in these agreements is to keep our named executive officers focused on pursuing corporate transaction activity that is viewed to be in the best interests of our stockholders regardless of whether those transactions may result in their own job loss. We also believe it is necessary to offer these protections in order to offer competitive compensation packages.

As noted above, Mr. Sidle resigned, effective January 31, 2023. In connection with such resignation and based on Mr. Sidle's agreement to provide transition services, Mr. Sidle and the Company entered into a Transition and Separation Agreement and General Release (the "Sidle Agreement"). Under the terms of the Sidle Agreement, Mr. Sidle continued to provide transition services through March 30, 2023 (the "Transition Period") and, during the Transition Period, continued to receive payment of his base salary as in effect on his resignation date and participated in the Company's welfare and retirement benefit plans, subject to the terms and conditions of those plans. During the Transition Period, Mr. Sidle continued to provide substantial services to us in the form of continuing project management services, transition of responsibilities and assistance with key vendor selection processes related to contract manufactures. At the end of the Transition Period, Mr. Sidle further entered into a separate release agreement in favor of ChargePoint upon his final separation from service. Mr. Sidle's equity incentive awards remained outstanding and continued to vest in accordance with their terms during the Transition Period. In addition, Mr. Sidle remained eligible to receive his fiscal 2023 bonus. Following the conclusion of the Transition Period, Mr. Sidle's employment with the Company terminated and he became eligible to receive severance benefits in accordance with the terms of his existing severance and change in control agreement as well as reimbursement for the employer portion of monthly COBRA premiums until September 30, 2023.

For detailed descriptions of the post-employment compensation arrangements with our named executive officers, as well as an estimate of the potential payments and benefits payable under these arrangements, including the amounts received by Mr. Sidle in connection with his termination of employment, see "Fiscal 2023 Potential Payments upon Termination or Change in Control" below.

Stock Ownership Policy

In March 2023, we adopted stock ownership guidelines requiring that our executive officers achieve and maintain minimum levels of ownership of our common stock. The levels are based on multiples of each officer's base salary. The Compensation Committee established the stock ownership policy in February 2023 based on its review of market practices. The Compensation Committee, with input from management, recommended to our Board in March 2023 to adopt the Stock Ownership Policy and include it in our Corporate Governance Guidelines. Under our policy, our CEO is required to hold at least five (5) times the value of the CEO's base salary in our common stock and our other executive officers are required to hold at least one (1) time the value of their respective base salary in our common stock. The CEO and other executive officers are expected to achieve ownership of our common stock within five years of the date of the CEO's or other executive officer's appointment, as applicable, such ownership is required to be maintained through such officer's term of service. This policy is intended to align the interests of our key executives with the interests of our stockholders by maintaining a strong link between the Company's long-term success and the ultimate compensation of key executives. The stock ownership requirements are as follows:

Positions	Stock Ownership Level (Multiple of Base Salary)
Chief Executive Officer	5X
All Other Named Executive Officers	1X

Report of the Compensation and Organizational Development Committee²

Our Compensation and Organizational Development Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on such review and discussion, our Compensation and Organizational Development Committee has recommended to our Board of Directors that the Compensation Discussion and Analysis be incorporated by reference into our Annual Report on Form 10-K for the year ended January 31, 2023, and included in this proxy statement.

Respectfully submitted by the members of the Compensation and Organizational Development Committee of our Board of Directors:

Michael Linse (Chair)
Bruce Chizen
Mark Leschly

² *The material in this report is not "soliciting material," is not deemed "filed" with the SEC and is not to be incorporated by reference in any filing of ChargePoint Holdings, Inc. under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.*

Fiscal Year 2023 Summary Compensation Table

The following table shows information regarding the compensation of our named executive officers for the fiscal year ended January 31, 2023 and, to the extent required by SEC disclosure rules, the fiscal years ended January 31, 2022 and January 31, 2021.

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Stock Awards ⁽¹⁾ (\$)	Option Awards ⁽¹⁾ (\$)	Non-Equity Incentive Plan Compensation (\$)	All Other Compensation (\$)	Total (\$)
Pasquale Romano	2023	562,500	—	15,748,311	—	431,250	13,472 ⁽⁶⁾	16,755,533
Chief Executive Officer	2022	500,000	—	—	43,823,305 ⁽³⁾	—	14,355,780 ⁽²⁾	58,679,085
	2021	454,167	405,000	—	—	—	—	859,167
Rex Jackson ⁽⁴⁾	2023	425,000	—	7,874,156	—	241,875	—	8,541,031
Chief Financial Officer	2022	362,500	90,000	9,555,000	—	—	3,181,229 ⁽²⁾	13,188,729
Michael Hughes	2023	416,667	—	7,874,156	—	241,875	4,016 ⁽⁶⁾	8,536,714
Chief Commercial and Revenue Officer	2022	345,833	—	4,095,000	—	383,250 ⁽⁵⁾	2,699,709 ⁽²⁾	7,523,793
	2021	272,500	97,200	—	—	294,000 ⁽⁵⁾	—	663,700
Eric Sidle ⁽⁴⁾	2023	400,000	—	3,149,649	—	153,750	224,037 ⁽⁶⁾	3,927,436
Chief Technology Officer	2022	350,000	52,500	1,365,000	—	—	1,225,637 ⁽²⁾	2,993,137
	2021	317,917	151,200	—	—	—	—	469,117
Rick Wilmer ⁽⁴⁾	2023	232,628	—	8,444,186	—	96,678	—	8,773,492
Chief Operating Officer								

- (1) The amounts in this column represent the aggregate grant date fair value of stock and option awards granted to the officer in the applicable fiscal year computed in accordance with FASB ASC Topic 718. See Note 13 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K filed on April 3, 2023, for a discussion of the assumptions made in determining the grant date fair value of our equity awards. In accordance with SEC rules, the grant date fair value of an award subject to a performance condition is based on the probable outcome of the performance condition. Under FASB ASC Topic 718, the vesting condition related to the PRSUs is considered a market condition and not a performance condition. Accordingly, there is no grant date fair value below or in excess of the amount reflected in the table above for the named executive officers that could be calculated and disclosed based on achievement of the underlying market condition.
- (2) Reflects the value of shares of our common stock issued to holders of vested options upon achievement of earnout conditions in connection with the Business Combination. See Note 12 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K filed on April 3, 2023, for a discussion of the contingent earnout shares.
- (3) Reflects the incremental fair value associated with a modification of an option granted to Mr. Romano in the fiscal year ended January 31, 2020. As originally granted, the option was eligible to vest if we achieved positive operating income for the fiscal year ending January 31, 2024. Effective upon consummation of the Business Combination, the option was amended so that it will fully vest in a single installment on January 31, 2024, subject to Mr. Romano's service through the vesting date.
- (4) Mr. Jackson was employed by us, but was not a named executive officer, in the fiscal years ending January 31, 2021. Accordingly, compensation information is only provided for the fiscal years ending January 31, 2022 and January 31, 2023. Mr. Wilmer commenced employment with us in July 2022. Mr. Sidle resigned as our Chief Technology Officer effective January 31, 2023, and separated from service with us effective March 30, 2023.
- (5) Reflects sales commissions.

- (6) In the case of Messrs. Romano and Hughes, includes travel and accommodations for themselves and their respective spouses in connection with a corporate event. In the case of Mr. Sidle, includes the full amount of salary severance benefit (\$205,000) and COBRA payments (\$19,037) pursuant to his Transition and Separation Agreement and General Release, dated January 10, 2023.

Fiscal 2023 Grants Of Plan-Based Awards Table

The following table sets forth certain information regarding each plan-based award granted to our named executive officers during our fiscal year ended January 31, 2023.

Name	Date of Board/Committee Approval ⁽¹⁾	Grant Date ⁽¹⁾	Estimated Possible Payouts Under Non-Equity Incentive Plan Awards ⁽²⁾			Estimated Future Payouts Under Equity Incentive Plan Awards			All Other Stock Awards: Number of Shares of Stock or Units (#)	Grant Date Fair Value of Stock and Option Awards ⁽³⁾ (\$)
			Threshold (\$)	Target (\$)	Maximum (\$)	Threshold (#)	Target (#)	Maximum (#)		
Pasquale Romano . . .	5/25/22	6/1/22	—	—	—	179,083 ⁽⁴⁾	250,716 ⁽⁴⁾	286,533 ⁽⁴⁾	—	7,499,638

- (1) Pursuant to our equity grant policy, unless the board or compensation committee approves an exception, employee equity awards are granted effective as of March 1, June 1, September 1 and December 1 each year.
- (2) Represents each officer's fiscal 2023 Cash Bonus opportunity as described in greater detail in "Compensation Discussion and Analysis" above. The actual fiscal 2023 bonuses paid to our named executive officers are reported in the "Non-Equity Incentive Plan Compensation" column of the Fiscal Year 2023 Summary Compensation Table. In the case of Mr. Wilmer, his fiscal 2023 Cash Bonus opportunity was pro-rated based on his service during the year as well as the number of days he was eligible for a 50% and 75% target bonus opportunity.
- (3) The amounts in this column represent the aggregate grant date fair value of the equity awards granted to the officer computed in accordance with FASB ASC Topic 718. See Note 13 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K filed on April 3, 2023 for a discussion of the assumptions made in determining the grant date fair value of our equity awards.
- (4) Represents PRSU awards made pursuant to our 2021 Equity Incentive Plan. The service-based conditions applicable to 1/12th of the PRSUs subject to each tranche will be satisfied if Mr. Romano remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2024, or,

if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The stock price appreciation targets are described in greater detail in “Compensation Discussion and Analysis” above. The PRSU’s service-based vesting dates are each March 20th, June 20th, September 20th, and December 20th.

- (5) Represents RSU awards made pursuant to our 2021 Equity Incentive Plan. The RSUs are subject to a service-based vesting requirement, which shall be satisfied over a 3-year period after June 20, 2024, with respect to 1/12th of the shares underlying the RSU quarterly, provided that Mr. Romano remains in continuous service on each such vesting date.
- (6) Represents PRSU awards made pursuant to our 2021 Equity Incentive Plan. The service-based conditions applicable to 1/20th of the PRSUs subject to each tranche will be satisfied if such officer remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2022, or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The stock price appreciation targets are described in greater detail in “Compensation Discussion and Analysis” above. The PRSU’s service-based vesting dates are each March 20th, June 20th, September 20th, and December 20th.
- (7) Represents RSU awards made pursuant to our 2021 Equity Incentive Plan. The RSUs are subject to a service-based vesting requirement, which shall be satisfied over a 5-year period commencing on June 20, 2022, with respect to 1/20th of the shares underlying the RSU quarterly, provided that the executive officer remains in continuous service on each such vesting date.
- (8) Represents PRSU awards made pursuant to our 2021 Equity Incentive Plan. The service-based conditions applicable to the PRSUs will vest over a 5-year period. 20% of the PRSUs shall vest June 20, 2023, and the remainder shall vest in equal quarterly installments, thereafter, provided Mr. Wilmer remains in continuous service on each such vesting date or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The stock price appreciation targets are described in greater detail in “Compensation Discussion and Analysis” above. The PRSU’s service-based quarterly vesting dates are March 20th, June 20th, September 20th and December 20th.
- (9) Represents RSU awards made pursuant to our 2021 Equity Incentive Plan. The RSUs are subject to a service-based vesting requirement, which shall be satisfied over a 5-year period pursuant to which 20% of the RSUs shall vest on June 20, 2023, and the remainder shall vest in equal quarterly installments thereafter, provided that Mr. Wilmer remains in continuous service on each such vesting date.
- (10) Represents RSU awards made pursuant to our 2021 Equity Incentive Plan. The RSUs are subject to a service-based vesting requirement, which shall be satisfied over a 4-year period commencing on March 20, 2023 with respect to 6.25% of the RSUs and the remainder in equal quarterly installments thereafter, provided that Mr. Wilmer remains in continuous service on each such vesting date.

Outstanding Equity Awards at Fiscal Year 2023 Year-End

The following table provides information regarding outstanding equity awards held by our named executive officers as of January 31, 2023.

The vesting schedule applicable to each outstanding award is described in the footnotes to the table below. For information regarding the vesting acceleration provisions applicable to our named executive officers' equity awards, see "Fiscal 2023 Potential Payments Upon Termination or Change in Control" below.

- (1) Option vests in a single installment on January 31, 2024, subject to the named executive officer's continuous service through the applicable vesting date.
- (2) Option vests in 48 equal monthly installments beginning with the vesting commencement date set forth above, subject to the named executive officer's continued employment through the applicable vesting date.
- (3) Represents the unvested portion of RSU award vesting which vests in 12 equal quarterly installments on each March 20, June 20, September 20 and December 20 after June 20, 2024, subject to the named executive officer's continued employment through the applicable vesting date.

- (4) Represents the unvested portion of an RSU award which vests in 16 equal quarterly installments on each March 20, June 20, September 20 and December 20 after the vesting start date above, subject to the named executive officer's continued employment through the applicable vesting date.
- (5) Represents the unvested portion of RSU award vesting which vests in 20 equal quarterly installments on each March 20, June 20, September 20 and December 20 after the vesting start date above, subject to the named executive officer's continued employment through the applicable vesting date.
- (6) Represents the unvested portion of RSU award which shall vest over a 5-year period. 20% of the RSUs shall vest on June 20, 2023, and the remainder shall vest in equal quarterly installments thereafter, on each March 20, June 20, September 20 and December 20, subject to the named executive officer's continued employment through the applicable vesting date.
- (7) Represents the unearned portions of PRSU awards. The service-based conditions applicable to 1/12th of the PRSUs subject to each tranche will be satisfied if Mr. Romano remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2024, or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The stock price appreciation targets are described in greater detail in "Compensation Discussion and Analysis" above and must be achieved on or prior to the five-year anniversary of the grant date. The PRSUs service-based vesting dates are each March 20, June 20, September 20 and December 20.
- (8) Represents the unearned portions of PRSU awards. The service-based conditions applicable to 1/20th of the PRSUs subject to each tranche will be satisfied if such officer remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2022, or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The stock price appreciation targets are described in greater detail in "Compensation Discussion and Analysis" above and must be achieved on or prior to the five-year anniversary of the grant date. The PRSUs service-based vesting dates are each March 20, June 20, September 20 and December 20.
- (9) Represents the unearned portions of PRSU awards. The service-based conditions applicable to the PRSUs will vest over a 5-year period. 20% of the PRSUs shall vest June 20, 2023, and the remainder shall vest in equal quarterly installments, thereafter, provided Mr. Wilmer remains in continuous service on each such vesting date or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The stock price appreciation targets are described in greater detail in "Compensation Discussion and Analysis" above and must be achieved on or prior to the five-year anniversary of the grant date. The PRSU's service-based quarterly vesting dates are March 20, June 20, September 20 and December 20.
- (10) The total amounts and values reported equals the total number of unvested PRSUs granted in fiscal 2023 that may be earned and vest based on the Company's stock price appreciation performance targets over a five-year period, at the threshold level, held by each named executive officer and the market value of such awards, determined by multiplying the number of unvested PRSUs, at the threshold level, by the market price of the Company's common stock at the close of the last trading day in fiscal 2023, which was \$12.14 per share. In calculating the number of PRSUs and their value, we are required by SEC rules to compare our performance through fiscal 2023 under the PRSU grants against the threshold, target and maximum performance levels for the grant and report in these columns the applicable potential share number and payout amount. If the performance is between levels, we are required to report the potential payout at the next highest level. Through January 31, 2023, we were below threshold levels of the stock price appreciation performance targets and have accordingly reported the PRSUs at the threshold award level. The stock price appreciation targets are described in greater detail in "Compensation Discussion and Analysis" above and must be achieved on or prior to the five-year anniversary of the grant date. The PRSUs service-based vesting dates are each March 20, June 20, September 20 and December 20.
- (11) In accordance with SEC rules market value is based on the closing price of our common stock on the last trading day of fiscal 2023 of \$12.14 per share multiplied by the number of unvested RSUs.
- (12) Mr. Sidle separated from service with ChargePoint effective March 30, 2023. In connection with his separation from the Company, Mr. Sidle forfeited his unvested equity awards as of the date of his separation.

Fiscal 2023 Option Exercises and Stock Vested Table

The following table shows the number of shares our named executive officers acquired upon exercise of options and vesting of RSUs during the fiscal year ending January 31, 2023.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$) ⁽¹⁾	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting ⁽²⁾ (\$)
Pasquale Romano	875,802	11,783,392	—	—
Rex Jackson	50,196	510,493	120,627	1,708,141
Michael Hughes	200,000	3,153,915	70,627	977,766
Eric Sidle	433,656	5,520,059	25,750	354,579
Rick Wilmer	—	—	—	—

- (1) In accordance with SEC rules, value realized is based on the closing price of our common stock on the date of exercise less the exercise price multiplied by the number of shares exercised.
- (2) In accordance with SEC rules, value realized is based on the closing price of our common stock on the vesting date multiplied by the number of shares vested.

Fiscal 2023 Potential Payments Upon Termination or Change in Control

Each of our named executive officers is entitled to severance payments pursuant to their severance and change in control agreements. These agreements have a three-year term from closing of the Business Combination and supersede any severance provisions in the officer's offer letter or employment agreement. Pursuant to these agreements, if a named executive officer's employment is terminated by ChargePoint without Cause (as defined below) or if the officer resigns for Good Reason (as defined below) (either of which, an "Involuntary Termination"), the officer is eligible to receive a lump sum payment equal to six months of the officer's then current base salary and COBRA premiums. If an Involuntary Termination occurs within 3 months prior to, or within 12 months after, a Change in Control, then the cash severance payment the officer is eligible to receive is increased to 12 months of the officer's base salary and COBRA premiums, 100% of the officer's time-based equity awards outstanding at the time the officer's employment terminates will vest and any outstanding performance-based equity awards will vest at the greater of the target level of achievement or based on actual performance, other than with respect to the fiscal 2023 PRSUs. As a condition to the receipt of severance benefits, the officer must execute a release of claims, resign from all positions with ChargePoint and return all company property. Mr. Jackson previously waived any severance benefits in connection with an Involuntary Termination other than in connection with a Change in Control.

For purposes of the severance and acceleration benefits described above, the terms "Cause," "Change in Control" and "Good Reason" have the following meanings:

"Cause" means a named executive officer's unauthorized use or disclosure of our confidential information or trade secrets which causes material harm, material breach of any agreement with us, material failure to comply with our written policies or rules, conviction of (or plea of guilty or "no contest" to) a felony, gross negligence or willful misconduct in the performance of the officer's duties, continuing failure to perform assigned duties or failure to cooperate in good faith with a governmental or internal investigation.

"Change in control" means any person acquires ownership of more than 50% of our voting stock, a sale of all or substantially all of our assets, consummation of a merger of the company with or into another entity if our capital stock represents less than 50% of the voting power of the surviving entity or its parent or certain changes in the composition of our board of directors.

“Good Reason” means a material diminution in the named executive officer’s responsibilities, authority, powers, functions or duties (other than a change of title), a material reduction in the officer’s base salary or benefits or the named executive officer’s office is relocated more than 50 miles from its then current location. In order to resign for Good Reason, the named executive officer must provide written notice to ChargePoint of the existence of one or more of the above conditions within 90 days of its initial existence and ChargePoint must be provided with 30 days to cure the condition. If the condition is not cured within such 30-day period, the named executive officer must terminate employment within 30 days of the end of such cure period.

In addition, Mr. Romano was granted an option to purchase 1,494,900 shares of our common stock in June 2020 that will accelerate with respect to 6/48th of the total option shares if Mr. Romano is subject to a termination without cause or a resignation for good reason prior to January 31, 2024. As a condition to such acceleration, Mr. Romano must execute a release of claims.

In fiscal 2023 we granted PRSUs to our executive officers that included both service- and performance-based vesting requirements with a term of five years. In connection with any change in control, the five-year performance period will end and, to the extent not previously satisfied, the performance-based conditions will be assessed using the closing price of the Company’s common stock three trading days prior to closing of the change in control (the “Change in Control Price”), with straight-line interpolation used for a Change in Control Price in between the three stock price appreciation targets of \$17, \$22 and \$30. Any PRSUs for which the performance-based conditions have not been satisfied will be automatically forfeited, will not be subject to any acceleration and will be cancelled immediately prior to, but contingent upon, the closing of the change in control transaction. The service-based conditions applicable to the PRSUs will be satisfied immediately prior to, but contingent upon, closing of the change in control, subject to the executive officer’s continuous service through such time. Because the Company’s trading price in the three trading days prior to January 31, 2023, did not meet the minimum stock price appreciation target for any tranche of the fiscal 2023 PRSUs, there is no value attributable to the PRSUs in the table below assuming a change in control occurred as of January 31, 2023.

The following table describes the potential payments and benefits upon termination of our named executive officer’s employment before or after a change in control of the Company described above, assuming both a change in control (if applicable) and each officer’s termination of employment occurred on January 31, 2023.

<u>Name</u>	<u>Cash Severance (\$)</u>	<u>Equity Acceleration⁽¹⁾ (\$)</u>	<u>Total (\$)</u>
Pasquale Romano			
<i>Non-Change in Control Termination</i>	306,537	2,126,495	2,433,032
<i>Change in Control Termination</i>	613,073	29,662,553	30,275,626
Rex Jackson ⁽²⁾			
<i>Non-Change in Control Termination</i>	—	—	—
<i>Change in Control Termination</i>	456,757	5,743,980	6,200,737
Michael Hughes			
<i>Non-Change in Control Termination</i>	233,922	—	233,922
<i>Change in Control Termination</i>	467,844	4,529,980	4,997,824
Eric Sidle			
<i>Non-Change in Control Termination</i>	224,037	—	224,037 ⁽³⁾
<i>Change in Control Termination</i>	448,073	2,034,791	2,482,864

<i>Non-Change in Control Termination</i>	250,810	—	250,810
<i>Change in Control Termination</i>	501,619	4,838,603	5,340,222

- (1) Reflects the number of options and/or RSUs held by the officer that would have vested on January 31, 2023, under each scenario, multiplied by the closing price of our common stock on the last day of the fiscal year of \$12.14 per share, less (in the case of options) the exercise price per share.

- (2) Mr. Jackson previously waived any severance benefits in connection with an Involuntary Termination other than in connection with a Change in Control.
- (3) Mr. Sidle resigned as our Chief Technology Officer effective as of January 31, 2023, and became eligible to receive the severance benefits described here.

CEO Pay Ratio Disclosures

This section includes a comparison of the annual total income of our Chief Executive Officer, Mr. Romano, against the median of the annual total compensation of all of our employees (other than Mr. Romano), for our fiscal 2023, determined in accordance with SEC rules. The methodology we used to calculate the pay ratio is described below.

(A) Annual Total Compensation of Mr. Romano ⁽¹⁾	\$16,755,533
(B) Annual Total Compensation of Median Employee	..	\$ 141,781
(C) Ratio of A/B	118 : 1

- (1) This amount equals Mr. Romano's total compensation as reported in our Fiscal Year 2023 Summary Compensation Table consistent with the applicable SEC rules.

The pay ratio was calculated in a manner consistent with Item 402(u) of Regulation S-K and based upon our reasonable judgment and assumptions. The SEC rules do not specify a single methodology for identification of the median employee or calculation of the pay ratio, and other companies may use assumptions and methodologies that are different from those used by us in calculating their pay ratio. Accordingly, the pay ratio disclosed by other companies may not be comparable to our pay ratio as disclosed above.

Methodology

For fiscal 2023, we identified our median employee in the following manner which reflects the growth of our employee population and international expansion:

- We determined the pool of employees (i.e., employees whose compensation data would be considered in our analysis) by identifying each individual who was a full-time, part-time, seasonal or temporary worker for us or any of our consolidated subsidiaries as of January 31, 2023. For the purpose of this analysis, we did not exclude any part of our employee population based on geographic location or based on any other *de minimis* exceptions. We do not typically hire seasonal or temporary workers, so it was determined not to be necessary to exclude any part of the employee population based on these criteria as well.
- We calculated the target worldwide employee population compensation by reviewing their annual base salary as of January 31, 2023. For all employees that have been employed for less than a full year, their annualized salary figures were used for the analysis. We selected base salary to identify the median employee as it represents the principal form of compensation delivered to all of our employees and is readily available in each geographic location.
- For employees who were paid in currency other than U.S. dollars, we converted their salary into U.S. dollars based on the applicable exchange rates as of January 31, 2023.
- We did not make any cost-of-living adjustments.

Next, we ordered all of the qualifying employees based on their annual base salary and identified the median as the appropriate employee nearest to the middle of the ordered list. We believe the "median" employee's compensation characteristics accurately reflect the compensation of a typical employee.

Once we identified our median employee, we determined the median employee's total annual compensation, for purposes of the disclosure in the table above, in accordance with the Summary Compensation Table rules, as required by Item 402(c) of Regulation S-K.

Pay Versus Performance Disclosure

Pursuant to the Exchange Act, we are required to disclose in this proxy statement certain information comparing the total compensation of our Chief Executive Officer (our “CEO”) and the average total compensation of our other named executive officers (whom we also refer to below as our “NEOs”), in each case both as reported in the Summary Compensation Table presented in this proxy statement and as “compensation actually paid” to such named executive officers as determined pursuant to applicable SEC rules, to the Company’s performance as presented in the table below.

Fiscal Year	Summary Compensation Table Total for CEO	Compensation Actually Paid to CEO ⁽¹⁾	Average Summary Compensation Table Total for Other NEOs ⁽²⁾	Average Compensation Actually Paid to Other NEOs ⁽¹⁾⁽²⁾	Value of Initial \$100 Investment Based On:		Net Income (\$ Millions)	Revenue (\$ Millions)
					ChargePoint TSR	Peer Group TSR ⁽³⁾		
2023	\$16,755,533	\$ 12,734,139	\$7,444,668	\$ 6,379,049	\$121	\$118	\$(345.1)	\$468.1
2022	\$58,679,085	\$(43,687,041)	\$6,277,153	\$ (842,989)	\$139	\$149	\$(132.2)	\$241.0
2021	\$ 859,167	\$118,772,104	\$ 598,305	\$16,150,311	\$381	\$132	\$(197.0)	\$146.5

(1) SEC rules require certain adjustments be made to the Summary Compensation Table totals to determine “compensation actually paid” as reported in the Pay versus Performance table. “Compensation Actually Paid” does not necessarily represent cash and/or equity value transferred to the applicable NEO without restriction, but rather is a value calculated under applicable SEC rules. In general, “compensation actually paid” is calculated as Summary Compensation Table total compensation adjusted to include the fair market value of equity awards as of the last day of the applicable fiscal year or, if earlier, the vesting date (rather than the grant date). Our NEOs do not participate in a defined benefit plan so no adjustment for pension benefits is included in the table below. The following table details these adjustments to compensation as reported in the Summary Compensation Table:

		CEO		
		2021	2022	2023
	Summary Compensation Table Total	\$859,167	\$58,679,085	\$16,755,533
Less:	Grant Date Fair Value of Equity Awards	+\$0	\$(43,823,305)	\$(15,748,310)
Plus:	Year End Fair Value of Equity Awards Granted in the Year*	+\$52,485,939	+\$0	+\$14,905,745

* All performance-based PRSU award valuations included in Compensation Actually Paid values were performed using the Monte Carlo probability model in a manner consistent with the process used to determine their grant date fair values, and all stock option valuations included in Compensation Actually Paid values were performed using the Black-Scholes option pricing model in a manner consistent with the process used to determine stock option grant date fair values (refer to our annual report for additional detail).

(1) The other NEOs in each covered year were as follows:

2023 - Rick Wilmer, Rex Jackson, Michael Hughes, Eric Sidle

2022 - Rex Jackson, Michael Hughes, Colleen Jansen, Eric Sidle, Christopher Burghardt

2021 - Michael Hughes, Christopher Burghardt

(2) S&P Application Software index, consistent with our stock performance chart in our annual report.

The relationship between Compensation Actually Paid (CAP) and the financial performance elements reflected in the above Pay versus Performance table are described in the below charts:

Compensation Actually Paid versus GAAP Net Income 2021-2023

Compensation Actually Paid versus Revenue 2021-2023

The following measures, in our assessment, represent the most important financial performance measures that link Compensation Actually Paid to our named executive officers, for fiscal 2023, to ChargePoint's performance:

- 1) Revenue
- 2) Adjusted EBITDA
- 3) Absolute Stock Price Performance

EQUITY COMPENSATION PLAN INFORMATION

The following table provides certain information as of January 31, 2023, with respect to shares that may be issued under ChargePoint's existing equity compensation plans.

<u>Plan Category</u>	<u>(a) Number of Securities to Be Issued Upon Exercise of Outstanding Options, Warrants and Rights⁽¹⁾</u>	<u>(b) Weighted Average Exercise Price of Outstanding Options, Warrants and Rights (\$) ⁽²⁾</u>	<u>(c) Number of Securities Remaining Available For Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))⁽³⁾</u>
Equity compensation plans approved by security holders	32,683,303	\$0.70	50,326,379
Equity compensation plans not approved by security holders	0	0	0
Total	32,683,303	\$0.70	50,326,379

- (1) This amount includes (a) 17,600,524 options to purchase shares of ChargePoint common stock under the Coulomb Technologies, Inc. 2007 Stock Incentive Plan and ChargePoint, Inc. 2017 Stock Plan, and (b) 15,082,779 shares of ChargePoint common stock that may be issued upon the vesting of RSUs and PRSUs granted under the ChargePoint Holdings, Inc. 2021 Equity Incentive Plan.
- (2) Represents the weighted average exercise price as of January 31, 2023, of options to purchase 17,600,524 shares of ChargePoint common stock.
- (3) This amount includes 39,406,473 shares of ChargePoint common stock available under the ChargePoint Holdings, Inc. 2021 Equity Incentive Plan and 10,919,906 shares of ChargePoint common stock reserved for issuance under the 2021 Employee Stock Purchase Plan. On the first day of each March, beginning on March 1, 2021, and continuing through March 1, 2030, the ChargePoint Holdings, Inc. 2021 Equity Incentive Plan reserve will automatically increase by a number equal to the lesser of (a) 5% of the total number of shares of ChargePoint common stock issued and outstanding on the last day of the preceding month and (b) a number of shares determined by the Board. On the first day of each March during the term of the 2021 Employee Stock Purchase Plan, commencing on March 1, 2021 and ending on (and including) March 1, 2040, the aggregate number of shares of ChargePoint common stock that may be issued under the 2021 Employee Stock Purchase Plan shall automatically increase by a number equal to the lesser of (i) one percent (1%) of the total number of shares of ChargePoint common stock issued and outstanding on the last day of the preceding month, (ii) 5,400,000 shares (subject to standard anti-dilution adjustments), or (iii) a number of shares determined by the Board.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information known to ChargePoint regarding the beneficial ownership of the Company's Common Stock by:

- each person who is known by ChargePoint to be the beneficial owner of more than five percent (5%) of the outstanding shares of Common Stock;
- each current named executive officer and director of the Company; and
- all current executive officers and directors of the Company, as a group.

Beneficial ownership for the purposes of the following table is determined in accordance with the rules and regulations of the SEC. A person is a "beneficial owner" of a security if that person has or shares "voting power," which includes the power to vote or to direct the voting of the security, or "investment power", which includes the power to dispose of or to direct the disposition of the security or has the right to acquire such powers within 60 days.

The beneficial ownership percentages set forth in the table below are based on 353,081,102 shares of Common Stock issued and outstanding as of April 30, 2023.

Unless otherwise noted in the footnotes to the following table, and subject to applicable community property laws, the persons and entities named in the table have sole voting and investment power with respect to their beneficially owned Common Stock.

Unless otherwise noted in the footnotes to the following table, the business address of each executive officer and director is 240 East Hacienda Avenue, Campbell, California 95008.

- (1) Includes (a) 9,100,767 shares of Common Stock held directly by Linse Capital CP LLC (“Linse I”), (b) 2,635,162 shares of Common Stock held directly by Linse Capital CP II LLC (“Linse II”), (c) 2,964,948 shares of Common Stock held directly by Linse Capital CP III, LLC (“Linse III”), (d) 2,052,052 shares of Common Stock held directly by Linse Capital CP IV, LLC (“Linse IV”), (e) 2,173,711 shares of Common Stock and 2,166,266 shares of Common Stock subject to a warrant exercisable within 60 days of April 30, 2023, all of which is held directly by Linse Capital CP V, LLC (“Linse V”), (f) 3,463,235 shares of Common Stock and 9,389,424 shares of Common Stock subject to a warrant exercisable within 60 days of April 30, 2023, all of which is held directly by Linse Capital CP VI, LLC, (“Linse VI”), (g) 762,713 shares of Common Stock all of which is held by Linse Capital LLC (“Linse Capital”) and (h) 21,692 shares of Common Stock subject to restricted stock units held by Michael Linse for the benefit of Linse Capital. Michael Linse is the managing director of Linse Capital, which is the manager of Linse I, Linse II, Linse III, Linse IV and Linse V, and the manager of Linse Capital Management PR LLC (“LCMPR”). LCMPR is the general partner of Linse Capital CP VI GP LP (“Linse GP VI”), which is the manager of Linse VI. Each of Michael Linse and Linse Capital possesses power to direct the voting and disposition of the shares owned by Linse I, Linse II, Linse III, Linse IV and Linse V, and each of Michael Linse and Linse Capital may be deemed to have an indirect beneficial ownership of such shares. Each of Linse GP VI, LCMPR, Linse Capital and Michael Linse possesses power to direct the voting and disposition of the shares owned by Linse VI, and each of Linse GP VI, LCMPR, Linse Capital and Michael Linse may be deemed to have an indirect beneficial ownership of such shares. The principal address of Linse I, Linse II, Linse III, Linse IV, Linse V and Linse VI is 53 Calle Palmeras, Suite 601, San Juan, Puerto Rico 00901.
- (2) Includes 24,757,128 shares of Common Stock, 11,124,073 shares of Common Stock subject to warrants exercisable within 60 days of April 30, 2023, all of which is held directly by Q-GRG VII (CP) Investment Partners, LLC (“Q-GRG”) and 21,692 shares of Common Stock subject to restricted stock units held by Jeffrey Harris for the benefit of Q-GRG. QEM VII, LLC (“QEM VII”) is the managing member of Q-GRG. Therefore, QEM VII may be deemed to share voting and dispositive power over the securities held by Q-GRG and may also be deemed to be the beneficial owner of these securities. QEM VII disclaims beneficial ownership of such securities in excess of its pecuniary interest in the securities. Any decision taken by QEM VII to vote, or to direct to vote, and to dispose, or to direct the disposition of, the securities held by Q-GRG has to be approved by a majority of the members of its investment committee, which majority must include S. Wil VanLoh, Jr. Therefore, Mr. VanLoh, Jr. may be deemed to share voting and dispositive power over the securities held by Q-GRG and may also be deemed to be the beneficial owner of these securities. Mr. VanLoh, Jr. disclaims beneficial ownership of such securities in excess of his pecuniary interests in the securities. The principal address of Q-GRG is 800 Capitol Street, Suite 3600, Houston, TX 77002.
- (3) Includes (a) 104,994 shares of Common Stock with respect to shared voting power, (b) 24,021,708 shares of Common Stock with respect to sole dispositive power, and (c) 343,390 shares of Common Stock with respect to shared dispositive power, as reported on Schedule 13G/A filed with the SEC on February 9, 2023. The address of The Vanguard Group is 100 Vanguard Blvd., Malvern, PA 19355.
- (4) Includes (a) 2,769,178 shares of Common Stock and (b) 4,446,002 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023, all of which is held directly by Mr. Romano. 2,284,710 shares of Common Stock held by Mr. Romano are pledged to collateralize a personal loan entered into in August 2022.
- (5) Includes (a) 15,432 shares of Common Stock and (b) 327,012 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023, all of which is held by Ms. Bowman.
- (6) Includes 5,423 shares of Common Stock held directly by Ms. Chao.
- (7) Includes (a) 10,599 shares of Common Stock and 247,285 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023, all of which is held directly by Mr. Chizen, (b) 747,256 shares of Common Stock and 87,821 shares of Common Stock subject to a warrant exercisable within 60 days of April 30, 2023, all of which is held directly by the Bruce Chizen 2009 Irrevocable Trust, dated January 24, 2009 (the “Chizen Trust”) and (c) 3,966 shares of Common Stock held directly by the Gail Chizen 2009 Irrevocable Trust (the “Gail Chizen Trust”). Mr. Chizen is the co-trustee of each the Chizen Trust and the Gail Chizen Trust and has shared voting and investment power over the shares held by each of the Chizen Trust and the Gail Chizen Trust.

- (8) Includes 21,692 shares of Common Stock held by Mr. Harries.
- (9) Includes (a) 4,026 shares of Common Stock held directly by Ms. Heystee, (b) 4,027 shares of Common Stock subject to restricted stock units vesting within 60 days of April 30, 2023, held directly by Ms. Heystee and (c) 12,500 shares of Common Stock held directly by the CHELST Irrevocable Trust. Ms. Heystee is the trustee of the CHELST Irrevocable Trust and has sole voting and investment power over the shares held by the CHELST Irrevocable Trust.
- (10) Includes (a) 21,692 shares of Common Stock held by Mr. Leschly, and (b) 420,946 shares of Common Stock held directly by Iconica LLC. As the managing member of Iconica LLC, Mr. Leschly possesses sole power to direct the voting and disposition of the shares owned by Iconica LLC. The principal address of Iconica LLC is c/o Iconica Partners, 525 University Avenue, Suite 1350, Palo Alto, CA 94301.
- (11) See footnote 1.
- (12) Includes 5,710 shares of Common Stock held directly by Ms. Singh-Bushell.
- (13) Includes (a) 22,420 shares of Common Stock and 379,717 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023 all of which is held by Mr. Wagoner and (b) 62,235 shares of Common Stock and 35,129 shares of Common Stock subject to a warrant exercisable within 60 days of April 30, 2023, all of which is held directly by the G. Richard Wagoner, Jr. Trust dated July 13, 1989, as amended and restated October 19, 2018 (the “Wagoner Trust”). Mr. Wagoner is the trustee of the Wagoner Trust and has sole voting and investment power over the shares held by the Wagoner Trust.
- (14) Includes (a) 228,521 shares of Common Stock, (b) 1,191,174 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023, and (c) 25,939 shares of Common Stock subject to restricted stock units vesting within 60 days of April 30, 2023, all of which is held directly by Mr. Hughes.
- (15) Includes (a) 293,596 shares of Common Stock, 1,476,060 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023, and 38,439 shares of Common Stock subject to restricted stock units vesting within 60 days of April 30, 2023, all of which is held by Mr. Jackson and (b) 197,335 shares of Common Stock which is held directly by the Jackson 1997 Trust Dated November 6, 1997 (the “Jackson Trust”). Mr. Jackson is the co-trustee of the Jackson Trust and has shared voting and investment power over the shares held by the Jackson Trust.
- (16) Includes 576,360 shares of Common Stock all of which is held directly by Mr. Sidle.
- (17) Includes (a) 9,712 shares of Common Stock, and (b) 54,877 shares of Common Stock subject to restricted stock units vesting within 60 days of April 30, 2023, all of which is held directly by Mr. Wilmer.
- (18) Includes (a) 28,104,577 shares of Common Stock, (b) 8,110,846 shares of Common Stock subject to options exercisable within 60 days of April 30, 2023, (c) 141,907 shares of Common Stock subject to restricted stock units vesting within 60 days of April 30, 2023, and (d) 11,678,640 shares of Common Stock subject to warrants exercisable within 60 days of April 30, 2023.

TRANSACTIONS WITH RELATED PERSONS AND INDEMNIFICATION

Policies and Procedures for Related Party Transactions

The Board reviews and considers the interests of its directors, executive officers and principal stockholders in its review and consideration of transactions and forms committees of non-interested directors when it determines that the formation of such committees is appropriate under the circumstances.

We have a written related party transaction policy. The policy provides that officers, directors, nominees for directors, holders of more than 5% of any class of our voting securities, and any member of the immediate family of and any entity affiliated with any of the foregoing persons, will not be permitted to enter into a related-party transaction with ChargePoint without the prior consent of the Audit Committee, or other independent members of our Board in the event it is inappropriate for the Audit Committee to review such transaction due to a conflict of interest. Any request for us to enter into a transaction with an executive officer, director, principal stockholder, or any of their immediate family members or affiliates, in which the amount involved exceeds \$120,000, must first be presented to the Audit Committee for review, consideration and approval. In approving or rejecting the proposed transactions, the Audit Committee will take into account all of the relevant facts and circumstances available. Approval of such transactions is given only if it is determined by the Audit Committee that such transactions is in, or not inconsistent with, the best interests of ChargePoint and its stockholders.

In addition to the compensation arrangements, including employment, termination of employment, and change in control arrangements and indemnification arrangements, discussed, when required, in this Proxy Statement, the following is a description of each transaction since February 1, 2022 and each currently proposed transaction in which:

- ChargePoint has been or is to be a participant;
- the amount involved exceeded or exceeds \$120,000; and
- any of ChargePoint's directors, nominees for directors, executive officers or holders of more than 5% of its capital stock, or any immediate family member of, or person sharing the household with, any of these individuals, had or will have a direct or indirect material interest.

Registration Rights

In connection with the closing of the Business Combination, ChargePoint and the holders of registration rights in Switchback and Legacy ChargePoint (the "Registration Rights Holders") entered into an amended and restated Registration Rights Agreement (the "A&R Registration Rights Agreement"). Pursuant to the A&R Registration Rights Agreement, we filed a Registration Statement on Form S-1 on March 2, 2021 (the "First Registration Statement") and further filed a Post-Effective Amendment No. 3 to Form S-1 on Form S-3 on March 1, 2022, to maintain the effectiveness of the First Registration Statement. In certain circumstances, the Registration Rights Holders can demand up to four underwritten offerings and will be entitled to customary piggyback registration rights. Pursuant to the terms of the A&R Registration Rights Agreement, we filed an additional registration statement on Form S-1 on July 12, 2021, registering for resale 12,000,000 shares of our common stock held by the Registration Rights Holders.

Indemnification Agreements

Our Second Amended and Restated Certificate of Incorporation contains provisions limiting the liability of our directors, and our Bylaws provide that we will indemnify each of our directors to the fullest extent permitted under Delaware law. In addition, the proposed Third Amended and Restated Certificate of Incorporation, which is the subject of Proposal No. 4 in this Proxy Statement, contains provisions which, if approved by our stockholders at the Annual Meeting, would provide for the exculpation of certain of our officers for personal liability in certain actions as permitted by the DGCL. The Second Amended and Restated Certificate of

Incorporation and our Bylaws also provide (and, if approved by our stockholders at the Annual Meeting, the proposed Third Amended and Restated Certificate of Incorporation would provide) us with discretion to indemnify officers and employees when determined appropriate by the Board.

We entered into indemnification agreements with each of our directors and executive officers and certain other key employees. The indemnification agreements provide that we indemnify each of our directors, executive officers and such other key employees against any and all expenses incurred by that director, executive officer or other key employee because of his or her status as one of our directors, executive officers or other key employees, to the fullest extent permitted by the DGCL, the Charter and our Bylaws. In addition, the indemnification agreements provide that, to the fullest extent permitted by Delaware law, we will advance all expenses incurred by our directors, executive officers, and other key employees in connection with a legal proceeding involving his or her status as a director, executive officer or key employee.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for Notices of Internet Availability of Proxy Materials or other Annual Meeting materials with respect to two or more stockholders sharing the same address by delivering a single Notice of Internet Availability of Proxy Materials or other Annual Meeting materials addressed to those stockholders. This process, which is commonly referred to as “householding,” potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of brokers with account holders who are ChargePoint Holdings, Inc. stockholders will be “householding” the Company’s proxy materials. A single Notice of Internet Availability of Proxy Materials will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be “householding” communications to your address, “householding” will continue until you are notified otherwise or until you revoke your consent. If you and another stockholder of record with whom you share an address participate in householding and you wish to receive an individual copy of our Proxy Materials now or discontinue your future participation in householding, please contact Broadridge Financial Solutions, Inc. toll-free at 1-866-540-7095 or by writing to Broadridge Financial Solutions, Inc., Attn: Household Department, 51 Mercedes Way, Edgewood, NY 11717.

OTHER MATTERS

Delinquent Section 16(a) Reports

Section 16(a) of the Exchange Act requires that our executive officers and directors, and persons who own more than 10% of our common stock, file reports of ownership and changes of ownership with the SEC. Such directors, executive officers and 10% stockholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

SEC regulations require us to identify in this proxy statement anyone who filed a required report late during the most recent fiscal year. Based on our review of forms we received, or written representations from reporting persons stating that they were not required to file these forms, we believe that during our fiscal year ended January 31, 2023, all Section 16(a) filing requirements were satisfied on a timely basis with the exception of (i) a late Form 4 for Eric Sidle filed on February 8, 2022 and (ii) a late Form 4 for William Loewenthal filed on January 11, 2023.

Fiscal Year 2023 Annual Report and SEC Filings

Our financial statements for our fiscal year ended January 31, 2023, are included in our 2023 Annual Report, which we filed with the SEC on April 3, 2023 and which we will make available to stockholders at the same time as this Proxy Statement. This Proxy Statement and our 2023 Annual Report are posted on our website at www.chargepoint.com and are available from the SEC at its website at www.sec.gov. You may also obtain a copy of our 2023 Annual Report without charge by sending a written request to: Corporate Secretary, ChargePoint Holdings, Inc., 240 East Hacienda Avenue, Campbell, CA 95008.

The Board knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters are properly brought before the meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.

APPENDIX A

Third Amended and Restated Certificate of Incorporation

ChargePoint Holdings, Inc.

Third Amended and Restated Certificate of Incorporation

ChargePoint Holdings, Inc., a corporation organized and existing under the laws of the State of Delaware (the “**Corporation**”), hereby certifies as follows:

1. The present name of the Corporation is ChargePoint Holdings, Inc. The Corporation was incorporated under the name “Switchback Energy Acquisition Corporation” by the filing of its original Certificate of Incorporation with the Secretary of State of the State of Delaware was May 10, 2019, which was subsequently amended and restated by the filing of the Corporation’s Amended and Restated Certificate of Incorporation on July 25, 2019, which was further amended and restated by the filing of the Corporation’s Second Amended and Restated Certificate of Incorporation on February 26, 2021 (the “**Second Amended and Restated Certificate**”).

2. This Third Amended and Restated Certificate of Incorporation of the Corporation (as amended, the “**Certificate of Incorporation**”), which restates, integrates and further amends the Second Amended and Restated Certificate, has been duly adopted by the Corporation in accordance with Sections 242 and 245 of the General Corporation Law of the State of Delaware or any applicable successor act thereto, as the same may be amended from time to time (the “**DGCL**”) and has been adopted by the requisite vote of the stockholders of the Corporation.

3. The Second Amended and Restated Certificate is hereby amended and restated in its entirety to read as follows:

FIRST: The name of the Corporation is ChargePoint Holdings, Inc.

SECOND: The address of the registered office of the Corporation in the State of Delaware is 3500 South Dupont Highway, in the City of Dover, County of Kent, Delaware 19901. The name of the registered agent of the Corporation in the State of Delaware at such address is Incorporating Services, Ltd.

THIRD: The purpose of the Corporation is to engage in any lawful act or activity for which corporations may be organized and incorporated under the DGCL.

FOURTH: The total number of shares of all classes of capital stock that the Corporation is authorized to issue is 1,010,000,000 shares, consisting of (i) 1,000,000,000 shares of common stock, par value \$0.0001 per share (the “**Common Stock**”), and (ii) 10,000,000 shares of preferred stock, par value \$0.0001 per share (“**Preferred Stock**”). Subject to the rights of the holders of any series of Preferred Stock, the number of authorized shares of any of the Common Stock or Preferred Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority in voting power of the capital stock of the Corporation entitled to vote thereon irrespective of the provisions of Section 242(b)(2) of the DGCL, and no vote of the holders of any of the Common Stock or Preferred Stock voting separately as a class shall be required therefor.

A. Common Stock. The powers, preferences and relative participating, optional or other special rights, and the qualifications, limitations and restrictions of the Common Stock are as follows:

1. Ranking. The voting, dividend and liquidation rights of the holders of the Common Stock are subject to and qualified by the rights of the holders of the Preferred Stock of any series as may be designated by the Board of Directors of the Corporation (the “**Board**”) upon any issuance of the Preferred Stock of any series.

2. Voting. Except as otherwise provided by law or by this Certificate of Incorporation, the holders of outstanding shares of Common Stock shall have one vote for each share of Common Stock held of record by such holder as of the applicable record date on any matter that is submitted to a vote of all of the stockholders of the Corporation, including the election or removal of directors. Notwithstanding any other provision of this Certificate of Incorporation to the contrary, the holders of Common Stock shall not be entitled to vote on any amendment to this Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock) that relates solely to the terms of one or more outstanding series of Preferred Stock if the holders of such affected series are entitled, either separately or together as a class with the holders of one or more other such series, to vote thereon pursuant to this Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock) or the DGCL.

3. Dividends. Subject to applicable law and the rights, if any, of the holders of one or more outstanding series of Preferred Stock, holders of shares of Common Stock shall be entitled to receive such dividends and distributions and other distributions in cash, stock or property of the Corporation when, as and if declared thereon by the Board in its discretion from time to time out of assets or funds of the Corporation legally available therefor and shall share equally on a per share basis in all such dividends or other distributions.

4. Liquidation. Subject to the rights, if any, of the holders of one or more outstanding series of Preferred Stock and after payment or provision for payment of the debt and other liabilities of the Corporation, holders of shares of Common Stock shall be entitled to receive (ratably in proportion to the number of shares held by them) the assets and funds of the Corporation available for distribution in the event of any liquidation, dissolution or winding up of the affairs of the Corporation, whether voluntary or involuntary. A liquidation, dissolution or winding up of the affairs of the Corporation, as such terms are used in this Section A(4), shall not be deemed to be occasioned by or to include any consolidation or merger of the Corporation with or into any other person or a sale, lease, exchange, exclusive license, conveyance or other disposition of all or any part of its assets.

B. Preferred Stock.

Shares of Preferred Stock may be issued from time to time in one or more series. The Board is hereby authorized to the fullest extent as may now or hereafter be permitted by the DGCL, to provide by resolution or resolutions from time to time for the issuance, out of the authorized but unissued shares of Preferred Stock, of one or more series of Preferred Stock, without stockholder approval (except as otherwise expressly required by this Certificate of Incorporation) by filing a certificate of designation pursuant to the applicable law of the State of Delaware, setting forth such resolution and, with respect to each such series, establishing the number of shares to be included in such series, and fixing the powers, including voting powers of the shares of such series, and the designation, preferences and relative, participating, optional or other special rights, and the qualifications, limitations or restrictions thereof, of the shares of each such series. The powers, designation, preferences and relative, participating, optional and other special rights, and the qualifications, limitations and restrictions thereof, of each series of Preferred Stock may differ from those of any and all other series at any time outstanding. The authority of the Board with respect to each series of Preferred Stock shall include, but not be limited to, the determination of the following:

1. the designation of the series, which may be by distinguishing number, letter or title;
2. the number of shares of the series, which number the Board may thereafter increase or decrease (but not below the number of shares thereof then outstanding) without any vote of stockholders (except as otherwise expressly required by this Certificate of Incorporation);
3. the amounts or rates at which dividends will be payable on, and the preferences, if any, of shares of the series in respect of dividends, and whether such dividends, if any, shall be cumulative or noncumulative;
4. the dates on which dividends, if any, shall be payable;

5. the redemption rights and price or prices, if any, for shares of the series;
6. the terms and amount of any sinking fund, if any, provided for the purchase or redemption of shares of the series;
7. the amounts payable on, and the preferences, if any, of shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Corporation;
8. whether the shares of the series shall be convertible into or exchangeable for, shares of any other class or series, or any other security, of the Corporation or any other corporation, and, if so, the specification of such other class or series or such other security, the conversion or exchange price or prices or rate or rates, any adjustments thereof, the date or dates at which such shares shall be convertible or exchangeable and all other terms and conditions upon which such conversion or exchange may be made;
9. restrictions on the issuance or reissuance of shares of the same series or any other class or series;
10. the voting rights, if any, of the holders of shares of the series generally or upon specified events;
and
11. any other powers, preferences and relative, participating, optional or other special rights, and the qualifications, limitations or restrictions thereof, of each series of Preferred Stock, all as may be determined from time to time by the Board and stated in the resolution or resolutions providing for the issuance of such Preferred Stock.

Without limiting the generality of the foregoing, subject to the rights of one or more series of Preferred Stock then outstanding, the resolutions providing for issuance of any series of Preferred Stock may provide that such series shall be superior or rank equally or be junior to any other series of Preferred Stock to the extent permitted by law.

FIFTH: This Article FIFTH is inserted for the management of the business and for the conduct of the affairs of the Corporation.

A. General Powers. The business and affairs of the Corporation shall be managed by or under the direction of the Board, except as otherwise provided by this Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock) or the DGCL.

B. Number of Directors; Election of Directors. Subject to the rights of holders of any series of Preferred Stock to elect directors, the number of directors of the Corporation shall exclusively be fixed from time to time by resolution of the majority of the Whole Board. For purposes of this Certificate of Incorporation, the term “**Whole Board**” will mean the total number of authorized directors, whether or not there exist any vacancies in previously authorized directorships. No decrease in the number of directors constituting the Board shall shorten the term of any incumbent director.

C. Classes of Directors. Subject to the rights of holders of any series of Preferred Stock to elect directors, the Board shall be and is divided into three classes, designated Class I, Class II and Class III, and each class shall consist, as nearly as may be possible, of one third of the total number of directors. The Board is authorized to assign members of the Board already in office to Class I, Class II or Class III at the time such classification becomes effective.

D. Terms of Office. Subject to the rights of holders of any series of Preferred Stock to elect directors, each director shall serve for a term ending on the date of the third annual meeting of stockholders following the

annual meeting of stockholders at which such director was elected; provided that each director initially assigned to Class I shall serve for a term expiring at the Corporation's first annual meeting of stockholders held after the effectiveness of this Certificate of Incorporation; each director initially assigned to Class II shall serve for a term expiring at the Corporation's second annual meeting of stockholders held after the effectiveness of this Certificate of Incorporation; and each director initially assigned to Class III shall serve for a term expiring at the Corporation's third annual meeting of stockholders held after the effectiveness of this Certificate of Incorporation; provided further, each director shall continue to serve as a director until his or her successor is duly elected and qualified, subject to his or her earlier death, disqualification, resignation or removal.

E. Newly Created Directorships and Vacancies. Subject to the rights of holders of any series of Preferred Stock, any newly created directorship that results from an increase in the number of directors or any vacancy on the Board that results from the death, disability, resignation, disqualification or removal of any director or from any other cause shall be filled solely by the affirmative vote of a majority of the directors then in office, even if less than a quorum, or by a sole remaining director, and shall not be filled by the stockholders. Any increase in the number of directors shall be apportioned among the classes so as to maintain the number of directors in each class as nearly equal as possible. The Board is authorized to assign members of the Board already in office to their respective class. Any director elected to fill a vacancy or newly created directorship shall hold office until the next election of the class to which such director shall have been appointed or assigned, and until his or her successor is duly elected and qualified, subject to his or her earlier death, disqualification, resignation or removal.

F. Preferred Directors. During any period when the holders of any series of Preferred Stock have the special right to elect additional directors, upon commencement and for the duration of such period during which such right continues: (i) the then otherwise total authorized number of directors of the Corporation shall automatically be increased by such specified number of additional directors, and the holders of such series of Preferred Stock shall be entitled to elect the additional directors so provided for or fixed pursuant to this Certificate of Incorporation; and (ii) each such additional director shall serve until such director's successor shall have been duly elected and qualified, or until such director's right to hold such office terminates pursuant to the certificate of designation establishing such series of Preferred Stock, whichever occurs earlier, subject to his or her earlier death, resignation, disqualification or removal. Except as otherwise provided by this Certificate of Incorporation, whenever the holders of any series of Preferred Stock having the special right to elect additional directors are divested of such right pursuant to this Certificate of Incorporation (including any certificate of designation relating to any series of Preferred Stock), the terms of office of all such additional directors elected by the holders of such series, or elected to fill any vacancies resulting from the death, resignation, disqualification or removal of such additional directors, shall automatically terminate and the total authorized number of directors of the Corporation shall be reduced accordingly.

G. Removal. Subject to any rights of the holders of one or more series of Preferred Stock to elect directors, any director or the entire Board may be removed from office at any time, but only for cause and only by the affirmative vote of the holders of at least 66 2/3% in voting power of the outstanding stock of the Corporation entitled to vote thereon, voting as a single class. For purposes of this Section G, "cause" shall mean, with respect to any director, (i) the willful failure by such director to perform, or the gross negligence of such director in performing, the duties of a director, (ii) the engaging by such director in willful or serious misconduct that is injurious to the Corporation or (iii) the conviction of such director of, or the entering by such director of a plea of *nolo contendere* to, a crime that constitutes a felony.

H. Stockholder Nominations and Introduction of Business. Advance notice of stockholder nominations for election of directors and other business to be brought by stockholders before a meeting of stockholders shall be given in the manner provided by the bylaws of the Corporation (as then in effect, the "Bylaws").

SIXTH: Unless and except to the extent that the Bylaws shall so require, the election of directors of the Corporation need not be by written ballot.

SEVENTH:

A. Limitation of Director and Officer Liability. To the fullest extent permitted by the DGCL as the same exists or may hereafter be amended, a director or officer of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director or officer, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL as the same exists or may hereafter be amended and provided that such exemption shall not eliminate or limit the liability of: (i) a director or an officer for any breach of the director's or officer's duty of loyalty to the Corporation or its stockholders; (ii) a director or an officer for acts or omissions not in good faith or which involved intentional misconduct or knowing violation of law; (iii) a director for authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions; (iv) a director or officer for any transaction from which the director or officer derived improper personal benefit; (v) or an officer in any action by or in the right of the Corporation. Any amendment, modification or repeal of the foregoing sentence shall not adversely affect any right or protection of a director or officer of the Corporation hereunder in respect of any act or omission occurring prior to the time of such amendment, modification or repeal. If the DGCL is hereafter amended to authorize corporate action further limiting or eliminating the personal liability of directors or officers, then the liability of the directors or officers of the Corporation shall be limited or eliminated to the fullest extent permitted by the DGCL, as the same exists or may hereafter be amended. For purposes of this Part A of Article SEVENTH, "officer" shall have the meaning provided in Section 102(b)(7) of the DGCL, as the same exists or may hereafter be amended.

B. Indemnification and Advancement of Expenses.

1. To the fullest extent permitted by applicable law, as the same exists or may hereafter be amended, the Corporation shall indemnify and hold harmless each person who is or was made a party or is threatened to be made a party to or is otherwise involved in any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (a "**proceeding**") by reason of the fact that he or she is or was a director or officer of the Corporation or, while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust, other enterprise or nonprofit entity, including service with respect to an employee benefit plan (an "**indemnitee**"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer, employee or agent, or in any other capacity while serving as a director, officer, employee or agent, against all liability and loss suffered and expenses (including, without limitation, attorneys' fees, judgments, fines, ERISA excise taxes and penalties and amounts paid in settlement) reasonably incurred by such indemnitee in connection with such proceeding. The Corporation shall to the fullest extent not prohibited by applicable law pay the expenses (including attorneys' fees) incurred by an indemnitee in defending or otherwise participating in any proceeding in advance of its final disposition; provided, however, that, to the extent required by applicable law, such payment of expenses in advance of the final disposition of the proceeding shall be made only upon receipt of an undertaking, by or on behalf of the indemnitee, to repay all amounts so advanced if it shall ultimately be determined that the indemnitee is not entitled to be indemnified under this Part B of Article SEVENTH or otherwise. The rights to indemnification and advancement of expenses conferred by this Part B of Article SEVENTH shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer, employee or agent and shall inure to the benefit of his or her heirs, executors and administrators. Notwithstanding the foregoing provisions of this Part B(1) of Article SEVENTH, except for proceedings to enforce rights to indemnification and advancement of expenses, the Corporation shall indemnify and advance expenses to an indemnitee in connection with a proceeding (or part thereof) initiated by such indemnitee only if such proceeding (or part thereof) was authorized by the Board.

2. The rights to indemnification and advancement of expenses conferred on any indemnitee by this Part B of Article SEVENTH shall not be exclusive of any other rights that any indemnitee may have or hereafter acquire under law, this Certificate of Incorporation, the Bylaws, an agreement, vote of stockholders or disinterested directors, or otherwise.

3. Any repeal or amendment of this Part B of Article SEVENTH by the stockholders of the Corporation or by changes in law, or the adoption of any other provision of this Certificate of Incorporation inconsistent with this Part B of Article SEVENTH, shall, unless otherwise required by law, be prospective only (except to the extent such amendment or change in law permits the Corporation to provide broader indemnification rights on a retroactive basis than permitted prior thereto), and shall not in any way diminish or adversely affect any right or protection existing at the time of such repeal or amendment or adoption of such inconsistent provision in respect of any proceeding (regardless of when such proceeding is first threatened, commenced or completed) arising out of, or related to, any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision.

4. This Part B of Article SEVENTH shall not limit the right of the Corporation, to the extent and in the manner authorized or permitted by law, to indemnify and to advance expenses to persons other than indemnitees.

EIGHTH: Subject to the terms of any series of Preferred Stock, any action required or permitted to be taken by the stockholders of the Corporation must be effected at an annual or special meeting of the stockholders called in accordance with the Bylaws and may not be effected by written consent in lieu of a meeting.

NINTH: Except as otherwise required by law and subject to the terms of any series of Preferred Stock, special meetings of stockholders of the Corporation for any purpose or purposes may be called at any time by the majority of the Whole Board or the Chairman of the Board or the Chief Executive Officer of the Corporation and may not be called by stockholders or any other person or persons. Business transacted at any special meeting of stockholders shall be limited to matters relating to the purpose or purposes stated in the notice for such meeting.

TENTH: If any provision or provisions of this Certificate of Incorporation shall be held to be invalid, illegal or unenforceable as applied to any circumstance for any reason whatsoever: (i) the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this Certificate of Incorporation (including, without limitation, each portion of any paragraph of this Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby and (ii) to the fullest extent possible, the provisions of this Certificate of Incorporation (including, without limitation, each such portion of any paragraph of this Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to permit the Corporation to protect its directors, officers, employees and agents from personal liability in respect of their good faith service or for the benefit of the Corporation to the fullest extent permitted by law.

The Corporation reserves the right at any time from time to time to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, and any other provisions authorized by the DGCL may be added or inserted, in the manner now or hereafter prescribed by law; and all rights, preferences and privileges of whatsoever nature conferred upon stockholders, directors or any other persons whomsoever by and pursuant to this Certificate of Incorporation in its present form or as hereafter amended are granted subject to the right reserved in this Article TENTH. Notwithstanding any other provision of this Certificate of Incorporation or any provision of law that might otherwise permit a lesser vote or no vote, but in addition to any affirmative vote of the holders of any series of Preferred Stock required by law or by this Certificate of Incorporation, the affirmative vote of the holders of at least 66 2/3% in voting power of the outstanding stock of the Corporation entitled to vote thereon, voting together as a single class, shall be required to amend, alter, change or repeal, or adopt any provision inconsistent with, any of Parts A and B of Article FOURTH, Article FIFTH, Article SEVENTH, Article EIGHTH, Article NINTH, Article ELEVENTH, Article TWELFTH, and this Article TENTH, and in each case, the definition of any capitalized terms used therein or any successor provision (including, without limitation, any such article or section as renumbered as a result of any amendment, alteration, change, repeal or adoption of any other provision of this Certificate of Incorporation). Any amendment, repeal or modification of any of Article SEVENTH, and this sentence shall not adversely affect any right or protection of any person existing thereunder with respect to any act or omission occurring prior to such repeal or modification.

ELEVENTH: In furtherance and not in limitation of the powers conferred upon it by law, the Board is expressly authorized and empowered to adopt, amend or repeal, in whole or in part, the Bylaws by the affirmative vote of a majority of the Whole Board. The stockholders shall also have power to adopt, amend or repeal the Bylaws; provided, however, that, notwithstanding any other provision of this Certificate of Incorporation or any provision of law that might otherwise permit a lesser or no vote, but in addition to any vote of the holders of any class or series of stock of the Corporation required by applicable law or by this Certificate of Incorporation or the Bylaws, the affirmative vote of the holders of at least 66 2/3% in voting power of the outstanding shares of the stock of the Corporation entitled to vote thereon, voting together as a single class, shall be required for the stockholders to adopt, amend or repeal any provision of the Bylaws; provided, further, however, that no Bylaw hereafter adopted by the stockholders shall invalidate any prior act of the Board that was valid at the time of such act prior to the adoption of such Bylaw.

TWELFTH:

A. Forum Selection.

(a) Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware (the “**Court of Chancery**”) (or, if the Court of Chancery does not have jurisdiction, the state or federal courts in the State of Delaware) shall, to the fullest extent permitted by law, be the sole and exclusive forum for (1) any derivative action or proceeding brought on behalf of the Corporation, (2) any action asserting a claim of breach of a fiduciary duty owed by any current or former director, officer, stockholder or other employee of the Corporation to the Corporation or the Corporation’s stockholders, (3) any action arising pursuant to any provision of the DGCL or this Certificate of Incorporation or the Bylaws (as the foregoing may be amended, modified, supplemented and/or restated from time to time), or (4) any action asserting a claim against the Corporation or any director or officer or other employee of the Corporation governed by the internal affairs doctrine, except for, as to each of (1) through (4) above, (a) any action as to which the Court of Chancery determines that there is an indispensable party not subject to the personal jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten (10) days following such determination) and (b) any action asserted to enforce any liability or duty created by the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, or, in each case, rules and regulations promulgated thereunder, for which there is exclusive federal or concurrent federal and state jurisdiction.

(b) Unless the Corporation consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall, to the fullest extent permitted by law, be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended.

(c) Any person or entity purchasing or otherwise acquiring or holding any interest in shares of capital stock of the Corporation shall be deemed to have notice of and consented to the provisions of this Article TWELFTH.

B. Personal Jurisdiction. If any action the subject matter of which is within the scope of Section A immediately above is filed in a court other than a court located within the State of Delaware (a “**Foreign Action**”) in the name of any stockholder, such stockholder shall be deemed to have consented to (i) the personal jurisdiction of the applicable state and federal courts located within the State of Delaware in connection with any action brought in any such court to enforce Section A immediately above (an “**FSC Enforcement Action**”) and (ii) having service of process made upon such stockholder in any such FSC Enforcement Action by service upon such stockholder’s counsel in the Foreign Action as agent for such stockholder.

THIRTEENTH: The doctrine of corporate opportunity, or any other analogous doctrine, shall not apply with respect to the Corporation or any of its officers or directors, or any of their respective affiliates, in circumstances where the application of any such doctrine would conflict with any fiduciary duties or contractual obligations they may have as of the date of this Certificate of Incorporation or in the future, and the Corporation renounces any expectancy that any of the directors or officers of the Corporation will offer any such corporate opportunity of which he or she may become aware to the Corporation. In addition to the foregoing, the doctrine of corporate opportunity shall not apply to any other corporate opportunity with respect to any of the directors or officers of the Corporation unless such corporate opportunity is offered to such person solely in his or her capacity as a director or officer of the Corporation and such opportunity is one the Corporation is legally and contractually permitted to undertake and would otherwise be reasonable for the Corporation to pursue.

ChargePoint Holdings, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)
240 East Hacienda Avenue
Campbell, CA
(Address of Principal Executive Offices)

84-1747686
(I.R.S. Employer Identification No.)

95008
(Zip Code)

(408) 841-4500

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common Stock, par value \$0.0001	CHPT	New York Stock Exchange

Securities registered pursuant to section 12(g) of the Act:

<u>Common Shares</u> (Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☐

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes ☐ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☐ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>
	Emerging growth company <input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☐

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☐

The aggregate market value of voting stock held by non-affiliates of the Registrant on July 29, 2022, the last business day of the Registrant's most recently completed second fiscal quarter, based on the closing price of \$15.11 for shares of the Registrant's common stock as reported by the New York Stock Exchange, was approximately \$4.1 billion. Shares of common stock beneficially owned by each executive officer, director, and their affiliated holders have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

The registrant had outstanding 350,493,445 shares of common stock as of March 28, 2023.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's definitive proxy statement relating to its 2023 annual meeting of shareholders (the "2023 Proxy Statement") are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. The 2023 Proxy Statement will be filed with the U.S. Securities Exchange Commission within 120 days after the end of the fiscal year to which this report relates.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This annual report on Form 10-K (this “Annual Report”) includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements could include, among other things statements regarding the future financial performance of ChargePoint Holdings, Inc. (“ChargePoint” or the “Company,” or “we,” “us,” “our” and similar terms), as well as ChargePoint’s strategy, future operations, future operating results, financial position, expectations regarding revenue, losses, and costs, margins and prospects, as well as management plans and objectives. All statements, other than statements of present or historical fact included in this Annual Report, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “continue,” “project” or negatives of such terms and other similar expressions that predict or indicate future events or trends or that are not statements of present or historical matters. These statements are based on various assumptions, whether or not identified herein, and on the current expectations of ChargePoint’s management and are not predictions of actual performance. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on by any investor as, a guarantee, an assurance, a prediction or a definitive statement of, fact or probability. Actual events and circumstances are difficult or impossible to predict and may differ from assumptions, and such differences may be material. Many actual events and circumstances are beyond the control of ChargePoint. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about ChargePoint that may cause the actual results, level of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. If any of these risks materialize or ChargePoint’s assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that ChargePoint does not presently know or that ChargePoint currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect ChargePoint’s expectations, plans or forecasts of future events and views as of the date hereof. ChargePoint anticipates that subsequent events and developments will cause ChargePoint’s assessments to change. These forward-looking statements should not be relied upon as representing ChargePoint’s assessments as of any date subsequent to the date hereof. Accordingly, undue reliance should not be placed upon the forward-looking statements. ChargePoint cautions you that these forward-looking statements are subject to numerous risk and uncertainties, most of which are all difficult to predict and many of which are beyond the control of ChargePoint.

The following factors, among others, could cause actual results to differ materially from forward-looking statements:

- supply chain disruptions, delays, component shortages and expense increases, including those associated with the ongoing COVID-19 pandemic and the conflict between Ukraine and Russia may adversely affect our sales, revenue and gross margins;
- delays in new product introductions;
- ChargePoint’s ability to expand its business in Europe;
- ChargePoint’s ability to integrate newly acquired assets and businesses into ChargePoint’s own business and the expected benefits from newly acquired assets to ChargePoint, its customers and its market position;
- the electric vehicle (“EV”) market and deliveries of passenger and fleet vehicles may not grow as expected;
- ChargePoint may not attract a sufficient number of fleet owners or operators as customers;

- incentives from governments or utilities may not materialize or may be reduced, which could reduce demand for EVs, or the portion of regulatory credits that customers claim may increase, which would reduce ChargePoint's revenue from such incentives;
- the impact of competing technologies or technological changes that result in reduced demand for EVs or other adverse effects on the EV market or our business;
- data security breaches or other network outages;
- ChargePoint's ability to remediate its material weaknesses in internal control over financial reporting;
- ChargePoint's success in retaining or recruiting, or changes in, its officers, key employees or directors;
- changes in applicable laws or regulations;
- ChargePoint's ability to maintain a strong balance sheet and to raise capital as needed to support its business and pursue growth opportunities; and
- the possibility that ChargePoint may be adversely affected by other economic factors including macroeconomic conditions such as inflation, rising interest rates, foreign exchange volatility, adverse developments in the financial service industry, slower growth or recession or other business factors or other competitive factors.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other risk factors included herein. Forward-looking statements reflect current views about ChargePoint's plans, strategies and prospects, which are based on information available as of the date of this Annual Report. Except to the extent required by applicable law, ChargePoint undertakes no obligation (and expressly disclaims any such obligation) to update or revise the forward-looking statements whether as a result of new information, future events or otherwise.

PART I

Item 1. Business.

ChargePoint Holdings, Inc. (“ChargePoint”) is a leading electric vehicle (“EV”) charging technology solutions provider. ChargePoint is broadly driving the shift to electric mobility by providing networked charging solutions in North America and Europe across commercial (e.g., retail, workplace, hospitality, parking, recreation, municipal, education and highway fast charge), fleet (e.g., delivery, take home, logistics, motor pool, transit and shared mobility) and residential (e.g., single family homes and multi-family apartments and condominiums) verticals. As of January 31, 2023, ChargePoint has activated approximately 225,000 ports on its network, including approximately 18,900 direct current, or “DC,” “fast charging” ports, excluding single family home ports. ChargePoint’s roaming integrations enable EV drivers to access more than 465,000 additional third-party ports in North America and Europe through ChargePoint’s mobile and in-dash applications.

ChargePoint believes its business model is distinct in the EV charging industry. ChargePoint sells networked charging hardware, connected through cloud-based software services (“Cloud” or “Cloud Services”) and supported by extended parts and labor warranty solutions (“Assure”). ChargePoint sells these solutions to commercial, fleet and residential customers to enable electrification, and has developed a strong network of channel partners and distributors to support its growth. ChargePoint does not sell networked charging hardware without its software, typically does not own or operate EV charging assets, does not monetize drivers, and does not rely upon profits from the sale of electricity. By pursuing this “capital light” business model, ChargePoint has been able to focus its investments on research and development of its diverse portfolio of networked Level 2, or alternating current (“AC”), and Level 3 DC fast charging hardware, and its software solutions for drivers, hosts and fleet operators, while simultaneously scaling active networked ports more cost efficiently as compared to other models in the EV industry, where the charging station operator, or “CPO,” owns and operates the charging station and depends upon profits on the sale of electricity. Finally, ChargePoint believes its go-to-market strategy of ensuring site owners or CPOs have full control over branding, access, pricing and policies, enables them to provide their employees and customers a better charging experience.

ChargePoint’s networked charging solutions can charge most types of EVs—from cars, trucks and delivery vehicles to buses and 18-wheelers—regardless of manufacturer. ChargePoint believes it will benefit directly and proportionately from the broad trend in vehicle electrification because the breadth of its solutions means it does not need to identify which vehicles will come to market first nor which segments or manufacturers will be successful. For example, as an early entrant in the EV charging industry, ChargePoint has seen a correlation between new passenger EV sales in North America and its charging port growth in North America, which gives ChargePoint confidence in its growth prospects going forward as its verticals and geographic markets continue to go electric.

ChargePoint believes its distinct business model, breadth of offerings and increasing scale are also supported by significant positive trends in the industry. In the last several years, most major manufacturers of passenger cars, trucks of all sizes, buses and industrial vehicles have committed to electrification, and governments have made it clear from both policy and funding perspectives that the future of transportation is electric. For example, passenger EV sales are expected to increase from 2% of new vehicles sold in 2019 to 44% in 2030 in the United States and 3% of new vehicles sold in 2019 to 60% in 2030 in Europe according to the Bloomberg New Energy Finance Electric Vehicle Outlook (the “BNEF Report” issued in February 2023). Additional factors propelling this shift to vehicle electrification include existing and proposed fossil fuel bans or restrictions, transit electrification mandates and utility and government incentive programs. With these trends, the BNEF Report projects that the cumulative EV charging infrastructure investment in North America and Europe is expected to be approximately \$178 billion by 2030 and increase to approximately \$505 billion by 2040.

ChargePoint is focused on supporting a sustainable future. Since 2007, ChargePoint estimates it has powered over 5 billion electric miles driven, avoiding use of more than 220 million gallons of gasoline and the

emission of over 1 million metric tons of greenhouse gases as of January 31, 2023. ChargePoint estimates the avoided amount of greenhouse gas emissions equates to planting approximately 22 million tree seedlings, capturing carbon from 1.6 million acres of U.S. forests or recycling 57 million bags of waste, according to the United States Environmental Protection Agency's Greenhouse Gas Equivalencies.

The ChargePoint Model and Network Effect for EV Fueling

ChargePoint believes fueling EVs is radically different from the current “gas station” model for fueling traditional gas-powered vehicles. Passenger vehicles spend 95% of their time parked, and most fleet vehicles also have substantial “dwell time.” Unlike gasoline, electricity is pervasively and safely distributed, so fueling can shift to a model where vehicles charge where they are parked and while their drivers—individual or fleet—are engaged in other activities.

Accordingly, with application-specific exceptions such as occasional trips beyond a passenger vehicle's battery range or the need to support fleet depots, ChargePoint believes EV charging will principally transition from an inconvenient, dedicated stop at a destination to convenient charging mapped to the dwell time, and for certain fleet applications, the size and route requirements, of the vehicle. These factors in turn drive the selection of charging solutions, since ChargePoint estimates that DC ports are 10 times or more expensive than AC ports to purchase and install, and significantly more expensive to operate due to the higher charging rate. In short, our customers want to choose the most cost-effective solutions for their vehicle charging applications, which can be AC or DC only or a blend, based on their specific needs. ChargePoint has developed a comprehensive platform of AC and DC charging products, Cloud subscriptions, Assure warranty coverages and professional services designed to ensure it can cost effectively deliver the solutions that best meet the customer's specific requirements.

ChargePoint's comprehensive portfolio is vital because its customers' requirements vary by use case. For example, ChargePoint believes passenger EV drivers will typically charge overnight at home or during the day at work, top-up with AC charging while parked at a shopping center or other commercial locations for a few hours, and access DC charging for occasional road trips beyond their battery range. For fleet, ChargePoint believes fleet vehicles will also typically charge overnight, but with charging infrastructure mapped to vehicle types, dwell time and route lengths. Most fleets will use either all AC or a blend of AC and DC, with heavier duty applications using only DC. And in all cases, ChargePoint's model is to provide the owner of the infrastructure full control of branding, access, pricing and policies.

From a network effect perspective, ChargePoint's goals are ubiquity, accessibility, useability and reliability. Charging infrastructure should be broadly distributed, easily found, easy to use and should always work. ChargePoint believes its ports under management and roaming relationships support one of the largest and growing networks of EV charging infrastructures available. Charging ports are easily located via ChargePoint's mobile and in-dash applications, and ChargePoint's networked hardware is easy to use through those applications and to manage via its Cloud services provided to hosts. And most importantly, ChargePoint's networked hardware is designed for high uptime, monitored and managed through our Cloud application, and supported via our customer support organization and a large network of service partners. These attributes and mobile and in-dash applications create a charging network that encourages hosts and drivers to expand with ChargePoint.

The Portfolio

ChargePoint primarily generates revenue through the sale of networked charging hardware combined with its Cloud Services billed as a subscription. ChargePoint also provides an extended parts and labor warranty, Assure, as an annual subscription. ChargePoint offers both an upfront sale of the charging station hardware with separate subscriptions for Cloud Services and Assure, or ChargePoint as a Service, referred to as CPaaS, in

which charging station hardware, Cloud Services and Assure are bundled into a multi-year or annual subscription.

- ***Hardware Portfolio Powered by Cloud Services.*** ChargePoint believes it offers among the industry's leading hardware for AC and DC charging and does not sell these solutions without a Cloud Services subscription. ChargePoint's solutions deliver differentiated features and high efficiency in power and footprint, with a modular and scalable architecture created for high availability, easy expansion and efficient serviceability. ChargePoint thoroughly tests its products, including interoperability checks for different types of EVs, for a range of functional, climate and environmental conditions and for high, long-term reliability. ChargePoint's stations are available with customizable video and signage options for customers who want to promote their brand.
- **AC Solutions:**
 - ChargePoint's newest family of charging stations, the CP6000 series, is part of a complete commercial and fleet charging solution, including power management and enhanced maintenance services. The CP6000 family of charging stations feature dual SAE J1772 AC charging ports, is UL® and ENERGY STAR® certified as well as compliant with the ISO 15118 communication standard and can deliver up to 19.2kW per port.
 - ChargePoint's CT4000 family of charging stations is UL® and ENERGY STAR® certified. All CT4000 models offer one or two standard SAE J1772 AC charging ports with locking holsters, capable of delivering up to 7.2kW per port. With this standard connector, ChargePoint's CT 4000 charging stations can charge almost any EV model in North America.
 - ChargePoint's AC solutions further includes the CPF50 family of charging station designed for use in fleet and multi-family applications and the ChargePoint Home Flex designed for fast, flexible home charging. Both the CPF50 and ChargePoint Home Flex are UL® and ENERGY STAR® certified with standard SAE J1772 AC charging ports making them safe, reliable, and energy efficient.
- **DC Solutions:**
 - ChargePoint's family of Express and Express Plus fast charging DC solutions are configurable and extensible solutions intended to serve high-powered charging applications necessary for interstate corridor, fueling and convenience applications. ChargePoint's Express and Express Plus fast charging DC solutions are compatible with global charging connector standards including CCS1, CCS2 and CHAdeMO connector types as well as ISO communication standards. ChargePoint's Express products are capable of dispensing up to 62.5kW per port and up to 500kW per port depending on configuration with Express Plus.
- ***Advanced Cloud Services to Scale Charging Infrastructure.*** Cloud Services subscription enables commercial and fleet customers to manage charging in their parking lots and depots. Features are tuned for a variety of settings. Retailers can optimize charging station locations and pricing for foot traffic and loyalty, employers can make fueling an efficient benefit to attract talent, parking operators can vary pricing to reflect market conditions, and fleet operators can manage use cases from having drivers take their own vehicles home every day to high-power, high-complexity centralized fleet depots. Cloud Services capabilities include the functionality below.
 - **Station and site host management:** making charging accessible to the public or select users, simplifying management of multiple charging sites and their parking policies, enabling sub-hosts, delivery of analytics, utilization reporting, remote diagnosis and updates with the latest software features.

- **Host pricing and payment remittance capabilities:** enabling site hosts or station owners to set pricing, including support for pricing scenarios (e.g., by driver group, time of day, idle status, energy dispensed, by session). Remittance is possible to one or many accounts.
- **Energy management:** enabling stations to share circuits, oversubscribing electrical panels to add more ports beyond the peak electrical capacity, and supporting the creation of advanced groups and rules which enable energy use policies. Energy management can be integrated with support for building load management and integration with utility load management programs.
- **Driver management tools:** enabling convenience features including specific user access via the ChargePoint connections system, the creation of driver groups to support a site host policy and the waitlist feature for drivers to reserve a place in line, among other features.
- **Integration with route planning systems for fleets:** enabling on-budget deadline scheduling in accordance with energy rate structures and on-site energy storage. On-site and on-route charging are supported and fueling payment is facilitated by integration with leading fuel cards.

ChargePoint believes that as EV penetration rises, so does the importance of Cloud Services to help manage charging complexity. Some examples include:

- The ability for commercial customers to adjust the rate at which vehicles charge to match the natural parking duration at the site and to avoid peak or demand charges.
- Charging infrastructure made available to the public during the day can be reserved for private fleets at night. Fleet software integrations also offer load control, charging scheduling and alerts to reduce cost and improve reliability. The software is designed to integrate with fuel management systems, fleet operations software and vehicle telematics to enable seamless integration into fleet processes.
- Ecosystem integrations enable drivers to access charging functionality via in-vehicle infotainment systems, consumer mobile applications, payment systems, mapping tools, home automation assistants, fleet fuel cards, wearables and residential utility programs.

All ChargePoint commercial ports are integrated into one network available to drivers who can use the ChargePoint mobile application to find charging locations, check availability, start sessions, pay for charging, use their ChargePoint account to roam across networks, access preferential pricing and loyalty offers and track the estimated avoidance of CO2 emissions in comparison to the use of liquid fuel.

- ***Parts and Labor Warranty Subscriptions and Customer Support Foster Loyalty.*** ChargePoint offers the Assure warranty services which include proactive monitoring, fast response times, parts and labor warranty, expert advice and robust reporting. ChargePoint also provides phone support in multiple languages to both site hosts and drivers. Rising EV adoption creates more awareness and utilization. ChargePoint believes the quality of the ChargePoint experience generates driver satisfaction and therefore encourages customers to purchase additional networked chargers and Cloud Services, creating a virtuous cycle of growth from customers expanding their charging capacity.

Go to Market Strategy

ChargePoint sells networked charging solutions in North America and Europe, and as of January 31, 2023, its customers base includes 80% of the 2021 Fortune 50 list of companies. It is focused on three key verticals: commercial, fleet and residential.

- ***Commercial:*** Commercial businesses already own or lease parking and many wish to electrify. These include retail centers, offices, medical complexes, schools, airports, municipalities, convenience stores, recreation centers and fast fueling sites, among others. ChargePoint believes commercial businesses view charging as essential and invest to attract tenants, employees, customers and visitors, generate direct and indirect income, and achieve sustainability goals. ChargePoint believes commercial businesses choose ChargePoint based on solution completeness (they are not responsible for being the integrator or support agent for drivers) and the quality that comes from designing hardware, software

and services together. These customers benefit from drivers that are typically familiar with ChargePoint's products and services, including access to a free, top-rated application, around-the-clock support, and integration to popular mapping platforms, payment systems and wearables. Brand awareness, education and demand marketing programs generate sales opportunities. ChargePoint accesses the commercial market via its direct sales force (inside and field teams) and by channel partners.

- **Fleet:** Fleet customers are organizations that operate vehicle fleets in delivery/logistics, sales/service/motor pool shared transit and ride-sharing service operators. ChargePoint believes these customers choose to electrify their fleets for economic reasons, as the comparative total cost of ownership compellingly favors electrification. EV charging solutions can help them design and fuel operations, manage operating costs and achieve sustainability goals. ChargePoint provides a flexible architecture of networked charging stations, Cloud Services subscriptions, professional services, support, monitoring and parts and labor warranties needed to support all use cases, from single vehicle take-home fleets to full-scale electrified depots. ChargePoint accesses the fleet market via its direct sales force and a curated set of channel partners.
- **Residential:** ChargePoint offers residential EV charging solutions for drivers in single-family residences who want the convenience of fueling at home with the ability to optimize energy costs and full integration with the same mobile application they use for charging away from home. Residential charging solutions include the capability to manage grid load in conjunction with utility programs and EV fueling rate programs. ChargePoint accesses single-family residential opportunities through direct marketing to the consumer using proprietary and third-party e-commerce platforms. For apartments and condominium settings, ChargePoint offers landlords and owner associations the ability to offer charging billed directly to the tenant. ChargePoint also offers customer support around-the-clock and in multiple languages. ChargePoint accesses this residential aspect via marketing and direct and channel partners.

Because ChargePoint rarely owns and operates charging infrastructure, it is able to allocate capital strategically towards ChargePoint's initiatives in research and development, marketing and sales and public policy.

- **Research and Development.** With a singular focus on EV charging, ChargePoint offers a complete set of networked charging solutions for most EV charging use cases in North America and Europe.
- **Go to Market.** ChargePoint has built a strong marketing and sales engine in North America and Europe, with an established direct sales channel, digital marketing capability and substantial channel sales. ChargePoint's success is dependent in part upon establishing and maintaining relationships with a variety of channel partners that it utilizes to extend its geographic reach and market penetration. ChargePoint uses a two-tiered, indirect fulfillment model whereby ChargePoint sells its products and services to its distributors, which in turn sell to resellers, which then sell to end users. ChargePoint refers to these end users as its customers. ChargePoint anticipates that it will continue to rely on this two-tiered sales model in order to help facilitate sales of ChargePoint's products and to grow its business internationally. ChargePoint also has nationwide and local partners who sell, install and maintain ChargePoint solutions.
- **Public Policy.** ChargePoint has also supported early and sustained investments in government and utility relationships. ChargePoint advocates for policies that advance electric mobility and ensure a healthy industry with a focus on competition, innovation and customer choice, including:
 - Support for vehicle electrification policy and climate action, such as zero emission vehicle requirements, fossil fuel bans and transit electrification directives;
 - Partnership with North America's leading utilities to scale the new electric fueling network, including enabling the resale of electricity, securing fast charging-friendly tariffs, developing

make-ready programs, creating customer incentive programs and informing utility commission decisions and legislation; and

- Reduction in barriers to infrastructure deployment including construction costs, permitting, building codes and right to charge policies for renters and tenants.

Competition

ChargePoint believes its business model is unique. Others in the EV charging landscape consist principally of (i) manufacturers of non-networked hardware charging systems, such as ABB Ltd. and Tritium DCFC Ltd, (ii) software providers that offer solutions to access and manage such non-networked hardware charging systems, (iii) CPOs that acquire access to sites and leverage third-party hardware and software to build out charging infrastructure to sell energy, such as EVgo, Inc. and Electrify America, and (iv) e-mobility service and software providers, or eMSPs, that focus on enabling EV drivers to access third-party charging systems.

ChargePoint does not compete directly with these models. ChargePoint does not sell charging system hardware without its Cloud Services software. While ChargePoint is “network first” and may support a customer’s need to “on ramp” third-party hardware onto the ChargePoint network, ChargePoint’s focus is to provide the full functionality that comes with its integrated solutions. As a non-asset owner, ChargePoint does not compete directly with CPOs. And with respect to eMSPs, ChargePoint seeks to provide the best driver experience but does not monetize drivers.

ChargePoint thus believes its primary differentiators are:

- comprehensive and fully integrated Cloud Services stack for all AC and DC charging system solutions for each charging vertical—commercial, fleet and residential;
- size and scale of its networked charging system, including roaming partners;
- variety and quality of networked charging system product offerings for AC and DC applications;
- reliable product performance, testing and certifications;
- ease of use of its Cloud Services, mobile and in-dash driver applications and features;
- brand awareness;
- quality of driver and charging system owner support; and
- scale of operations.

ChargePoint believes it competes favorably with respect to each of these factors.

North America

ChargePoint believes it leads the North America market in the sale of commercial AC chargers. ChargePoint also has a strong market position in AC chargers for use at home or multifamily settings and high-power DC chargers for urban fast charging, corridor or long-trip charging and fleet applications. Because ChargePoint’s primary business model does not include owning and operating networked charging stations, ChargePoint believes its primary competitors include other OEMs, manufacturers and providers of EV charging station solutions, such as Blink Charging Co. in AC chargers; Wallbox N.V in AC residential chargers; and ABB Ltd. and Tritium DCFC Ltd. in DC chargers.

Europe

In Europe, ChargePoint primarily competes with smaller providers of EV charging solutions. The market in Europe is highly fragmented in terms of both providers and solutions, with many companies providing hardware only or software only, and few providing both. To succeed in a large, early-stage market such as Europe, providers must invest in early engagement across verticals and customers to gain market share, and in ongoing

efforts to scale channels, installers, teams and processes. ChargePoint believes its portfolio breadth and range of Cloud solutions position it well to succeed broadly in Europe, and thus has invested, and will continue to invest, heavily in its strategy to establish a successful pan-European presence that maps to major pan-European customers and provides a seamless experience for drivers as they travel.

Growth Strategies

ChargePoint estimates it had approximately a 70% market share in publicly available networked AC charging in North America as of January 31, 2023. ChargePoint began European operations in late 2017 and currently operates in 16 European countries. It expects significant market opportunities for fleet solutions as fleet EVs begin to arrive in more meaningful volume. ChargePoint believes the breadth and quality of its networked EV charging solutions, market share and driver awareness typically lead to customer loyalty, whereby customers typically choose to expand their charging footprint with ChargePoint as EV penetration rises and/or charging utilization at their location increases. Over the years, ChargePoint's customers have typically renewed their Cloud Services subscriptions and have expanded the number of charging ports they purchase from ChargePoint. Growth is also supported by comprehensive ecosystem integrations ChargePoint has enabled that keep the ChargePoint brand top of mind with drivers, including in-vehicle infotainment systems, consumer mobile applications, payment systems, mapping tools, home automation assistants, fleet fuel cards, wearables and residential utility programs.

ChargePoint's growth strategies to continue to scale networked EV charging are as follows:

- ***Accelerate alternative EV charging offerings.*** ChargePoint intends to maintain its leadership position with continued efficient investment in the development of charging station technologies and Cloud solutions. In addition, ChargePoint intends to expand its product offerings beyond its historical model of a site host or customer owning and operating charging as a capital expenditure. ChargePoint intends to enter into partnerships and similar strategic relationships with third-party owners and operators of charging stations and alternative energy infrastructure providers to provide customers a financed charging solution that enables customers to pay for charging infrastructure as an operational expense, and a turnkey charging solution that enables customers offering public charging to host a station at zero cost to them.
- ***Invest incrementally in marketing and sales.*** In both North America and Europe, ChargePoint intends to continue attracting new customers and pursuing a "land-and-expand" model which encourages existing customers to increase their charging footprint with ChargePoint over time as EV penetration increases.

Manufacturing, Logistics and Fulfillment

ChargePoint designs its products in-house and outsources production to contract manufacturers based in the United States, Mexico and Europe. The majority of its hardware products are manufactured in Mexico. Components are sourced from a number of global suppliers, with concentrations in the United States and Asia. ChargePoint deploys a global supply chain management team that works proactively with piece part and final assembly supply partners. That supply management team readies factories for new products, puts in place and monitors quality control points, plans ongoing production, issues purchase orders and coordinates deliveries to distribution hubs that ChargePoint manages in North America and Europe.

ChargePoint works with third-party fulfillment partners that deliver its charging stations from multiple locations, which it believes allows it to reduce order fulfillment time and shipping costs.

Seasonality

Almost all of ChargePoint's commercial and fleet charging stations are installed and utilized outdoors and ChargePoint operates and conducts its sales primarily in the Northern Hemisphere. Seasonal changes and other

weather-related conditions can affect the sales volumes and installation rates of ChargePoint's products, primarily due to the impact of winter weather on construction timelines and delays. In addition, many of ChargePoint's customers complete their annual budget approval cycle in ChargePoint's fourth quarter. Therefore, the financial results for any quarter do not necessarily indicate the results expected for the fiscal year. Normally, the highest sales and earnings are in ChargePoint's fourth quarter and the lowest are in its first quarter, commencing in February annually.

Government Regulation

ChargePoint's business is subject to a changing framework of laws and regulations at the federal, state, regional and local level as well as in foreign jurisdictions. For example, substantially all of ChargePoint's manufacturing operations are subject to complex trade, import and customs laws, regulations and tax requirements such as sanctions orders or tariffs. In addition, the countries in which ChargePoint's products are manufactured or imported may from time to time impose additional duties, tariffs or other restrictions on ChargePoint's imports or adversely modify existing restrictions. Changes in tax policy or trade regulations or the imposition of new tariffs on imported products, could have an adverse effect on ChargePoint's business, results of operations and competitive position. State, regional and local regulations for installation of EV charging stations also apply to ChargePoint and vary from jurisdiction to jurisdiction and may include permitting requirements, inspection requirements, licensing of contractors and certifications as examples. Compliance with such regulation(s) may cause shipping, installation, or commissioning delays. ChargePoint is also subject to other complex foreign and United States laws and regulations related to anti-bribery and corruption laws, antitrust or competition laws and sanctions compliance, among others. ChargePoint has policies and procedures in place to promote compliance with these laws and regulations, however, government regulations are subject to change, and accordingly ChargePoint is unable to assess the possible effect of compliance with future requirements or whether ChargePoint's compliance with such regulations, or failure to adequately comply, will adversely affect ChargePoint's business, competitive position or ability to invest in capital expenditures in the future.

OSHA

ChargePoint is subject to the Occupational Safety and Health Act of 1970, as amended ("OSHA"). OSHA establishes certain employer responsibilities, including maintenance of a workplace free of recognized hazards likely to cause death or serious injury, compliance with standards promulgated by OSHA and various record keeping, disclosure and procedural requirements. Various standards, including standards for notices of hazards, safety in excavation and demolition work and the handling of asbestos, may apply to ChargePoint's operations. ChargePoint believes it is in full compliance with OSHA regulations.

Metrology

ChargePoint products are subject to regulations and certification requirements governing accuracy and other characteristics of embedded metrology for dispensing of electricity through charging stations. ChargePoint has received certification for some products in the European Union under the Measurement Instrument Directive (MID), in the United Kingdom under the Measurement Instrument Regulation (MIR), the United States under the National Type Evaluation Program (NTEP), and in California under the California Type Evaluation Program (CTEP) as regulated by the Department of Food and Agriculture Division of Measurement Standards. ChargePoint is in the process of seeking additional certifications on products in Germany and in the United States. Field testing to validate meter accuracy may also be carried out by various government entities responsible for ensuring the accuracy of transactions based on measured quantities, similar to the way gasoline pumps or grocery store scales are audited.

Privacy and Data Security Laws

ChargePoint is currently subject, and may in the future be subject, to numerous privacy and data security laws. For example, some U.S. states, members of the European Economic Area, the United Kingdom, Mexico,

China, and many other jurisdictions in which ChargePoint operates or plans to operate have adopted some form of privacy and data security laws and regulations that impose significant compliance obligations.

The European Union's General Data Protection Regulation ("GDPR") covers the European Economic Area ("EEA"), and countries such as Switzerland and the UK have adopted similar regulations. Member states have and may impose stricter regulations for certain issues. The GDPR governs a wide range of data protection and security issues, including EEA residents' control over personal data about them or relating to them, the disclosures and choices provided to those individuals, the documentation ChargePoint must maintain, requirements for certain contracts, the security and confidentiality of the personal data, the uses or "processing" of personal data, data breach notification, and the use of third-party entities to process personal data. The GDPR includes employee data among the personal data the regulation governs. The GDPR also imposes strict rules on the transfer of personal data outside of the EEA, designates each member state's data supervisory authority as the enforcement body, and authorizes the imposition of large penalties for noncompliance, including the potential for significant fines. The GDPR requirements apply not only to third-party transactions, but also to transfers of information between ChargePoint and its subsidiaries, including employee information. The GDPR has increased ChargePoint's responsibility and potential liability in relation to all EU personal data that ChargePoint processes and ChargePoint may be required to put in place additional mechanisms to ensure compliance with the GDPR, which could divert management's attention and increase its cost of doing business, and despite ChargePoint's ongoing efforts to bring its practices into compliance with the GDPR, it may not be successful.

ChargePoint is also subject to the e-Privacy Directive and the EU member states' additions to and implementation of that directive. The e-Privacy Directive's provisions include requirements concerning the use of cookies and other tracking technologies and the use of personal information in marketing, including requirements for consents to marketing emails and opt-outs. Similarly, the CAN-SPAM Act in the United States governs email marketing. These and other cookie, email and marketing regulations increase ChargePoint's regulatory compliance obligations and risks.

Additionally, ChargePoint is governed by a California state privacy law called the California Consumer Privacy Act of 2018 ("CCPA"), which contains requirements similar to the GDPR for the handling of personal information of California residents. The CCPA establishes a privacy framework for covered businesses, including an expansive definition of personal information and data privacy rights for California residents. The CCPA includes a framework with potentially severe statutory damages and private rights of action. The CCPA requires covered companies to provide new disclosures to California consumers (as that word is broadly defined in the CCPA), and new ways for such consumers to opt-out of certain sales of personal information, and to allow for a new cause of action for data breaches. Further, California voters approved a new privacy law amending the CCPA, the California Privacy Rights Act ("CPRA") in November, 2020. Effective January 1, 2023, the CPRA significantly modifies the CCPA, including by expanding consumers' rights with respect to certain sensitive personal information, and sunseting exemptions for business-to-business personal information and employee information. The CPRA also creates a new state agency vested with authority to implement and enforce the CCPA and the CPRA. This new agency, known as the California Privacy Protection Agency ("CPPA") is authorized to implement regulations, and has drafted broad and new privacy requirements in this role. New legislation proposed or enacted in various other states will continue to shape the data privacy environment nationally. For example, Virginia enacted the Virginia Consumer Data Protection Act ("CDPA"), which became effective on January 1, 2023, the Colorado Privacy Act ("CPA") which takes effect on July 1, 2023; the Utah Consumer Privacy Act ("UCPA") which becomes effective December 1, 2023; and the Connecticut Data Privacy Act, which becomes effective on July 1, 2023. These state laws are similar to the CCPA and CPRA, but aspects of these state privacy statutes remain unclear, resulting in further legal uncertainty. The United States federal government is also considering legislation governing privacy and security issues, including the possibility of private rights of action. This creates legal uncertainty with respect to federal law as well as the impact such laws will have on state statutes. Additionally, the Federal Trade Commission ("FTC") engages in regulatory investigations of privacy and security practices that may violate Section 5(a) of the Federal Trade Commission Act, which prohibits unfair methods of competition, and unfair or deceptive acts or practices affecting commerce.

These regulatory investigations can lead to consent decrees or litigation with the FTC and the Department of Justice. FTC consent decrees often mandate detailed privacy and security programs with annual audits for up to twenty years. Furthermore, state attorneys general may also join together to file lawsuits based on violations of applicable state privacy acts. In the event ChargePoint is subject to litigation, penalties, or enforcement actions pursuant to the GDPR, CCPA, CPRA, the FTC or applicable state laws, ChargePoint may be subject to fines and penalties, remediation measures which will divert management's time and attention, as well as harm to its reputation.

The GDPR, CCPA, CPRA, and other state laws exemplify the vulnerability of ChargePoint's business to the evolving regulatory environment related to personal data. Other states in the United States may pass or are considering privacy laws, and additional countries have in recent years implemented new privacy laws. ChargePoint's compliance costs and potential liability may increase as the result of additional national and international regulatory requirements related to data privacy and data security.

Waste Handling and Disposal

ChargePoint is subject to laws and regulations regarding the handling and disposal of hazardous substances and solid wastes, including electronic wastes and batteries. These laws generally regulate the generation, storage, treatment, transportation and disposal of solid and hazardous waste, and may impose strict, joint and several liability for the investigation and remediation of areas where hazardous substances may have been released or disposed. For instance, Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), also known as the Superfund law, in the United States and comparable state laws impose liability, without regard to fault or the legality of the original conduct, on certain classes of persons that contributed to the release of a hazardous substance into the environment. These persons include current and prior owners or operators of the site where the release occurred as well as companies that disposed or arranged for the disposal of hazardous substances found at the site. Under CERCLA, these persons may be subject to joint and several strict liability for the costs of cleaning up the hazardous substances that have been released into the environment, for damages to natural resources and for the costs of certain health studies. CERCLA also authorizes the Environmental Protection Agency and, in some instances, third-parties to act in response to threats to the public health or the environment and to seek to recover from the responsible classes of persons the costs they incur. ChargePoint may handle hazardous substances within the meaning of CERCLA, or similar state statutes, in the course of ordinary operations and, as a result, may be jointly and severally liable under CERCLA for all or part of the costs required to clean up sites at which these hazardous substances have been released into the environment.

ChargePoint also generates solid wastes, which may include hazardous wastes that are subject to the requirements of the Resource Conservation and Recovery Act ("RCRA") and comparable state statutes. While RCRA regulates both solid and hazardous wastes, it imposes strict requirements on the generation, storage, treatment, transportation and disposal of hazardous wastes. Certain components of ChargePoint's products are excluded from RCRA's hazardous waste regulations, provided certain requirements are met. However, if these components do not meet all of the established requirements for the exclusion, or if the requirements for the exclusion change, ChargePoint may be required to treat such products as hazardous waste, which are subject to more rigorous and costly disposal requirements. Any changes in the laws and regulations, or ChargePoint's ability to qualify the materials it uses for exclusions under such laws and regulations, could adversely affect ChargePoint's operating expenses.

Similar laws exist in other jurisdictions where ChargePoint operates. Additionally, in the EU, ChargePoint is subject to the Waste Electrical and Electronic Equipment Directive ("WEEE Directive"). The WEEE Directive provides for the creation of a collection scheme where consumers return electrical and electronic equipment waste to merchants, such as ChargePoint. If ChargePoint fails to properly manage such electrical and electronic equipment waste, it may be subject to fines, sanctions, or other actions that may adversely affect ChargePoint's financial operations.

Research and Development

ChargePoint has invested significant time and expense into research and development for its networked charging platform technologies and for its Cloud software. ChargePoint's ability to maintain its leadership position depends upon its ongoing research and development activities. ChargePoint's research and development team is responsible for designing, developing, manufacturing, testing and sustaining its products.

ChargePoint's research and development teams are primarily located in the Company's headquarters in Campbell, California, its facilities in Gurgaon, India, and its European locations in Radstadt, Austria, Amsterdam, Netherlands and Reading, the United Kingdom.

Intellectual Property

ChargePoint relies on a combination of patent, trademark, copyright, unfair competition and trade secret laws, as well as confidentiality procedures and contractual restrictions, to establish, maintain and protect its proprietary rights. ChargePoint's success depends in part upon its ability to obtain and maintain proprietary protection for ChargePoint's products, technology and know-how, to operate without infringing the proprietary rights of others, and to prevent others from infringing ChargePoint's proprietary rights.

As of January 31, 2023, ChargePoint had 89 U.S. patents issued and 45 U.S. pending non-provisional patent applications. Additionally, ChargePoint had 33 issued foreign patents and 15 foreign patent applications currently pending in various foreign jurisdictions. In addition, as of January 31, 2023, there were three pending Patent Cooperation Treaty applications. These patents relate to various EV charging station designs and/or EV charging functionality. Such issued patents and any patents derived from such applications or applications that claim priority from such applications, if granted, would be expected to expire between 2024 and 2042, excluding any additional term for patent term adjustments. ChargePoint cannot be assured that any of its patent applications will result in the issuance of a patent or whether the examination process will require ChargePoint to narrow the scope of the claims sought. ChargePoint's issued patents, and any future patents issued to ChargePoint, may be challenged, invalidated or circumvented, may not provide sufficiently broad protection and may not prove to be enforceable inactions against alleged infringers.

ChargePoint enters into agreements with its employees, contractors, customers, partners and other parties with which it does business to limit access to and disclosure of its technology and other proprietary information. ChargePoint cannot be certain that the steps it has taken will be sufficient or effective to prevent the unauthorized access, use, copying or the reverse engineering of ChargePoint's technology and other proprietary information, including by third-parties who may use its technology or other proprietary information to develop products and services that compete with ChargePoint's. Moreover, others may independently develop technologies that are competitive with ChargePoint or that infringe on, misappropriate or otherwise violate its intellectual property and proprietary rights, and policing the unauthorized use of ChargePoint's intellectual property and proprietary rights can be difficult. The enforcement of ChargePoint's intellectual property and proprietary rights also depends on any legal actions ChargePoint may bring against any such parties being successful, but these actions are costly, time-consuming and may not be successful, even when ChargePoint's rights have been infringed, misappropriated or otherwise violated.

ChargePoint intends to continue to regularly assess opportunities for seeking patent protection for those aspects of its technology, designs and methodologies that ChargePoint believes provide a meaningful competitive advantage. However, ChargePoint's ability to do so may be limited until such time as it is able to generate cash flow from operations or otherwise raise sufficient capital to continue to invest in ChargePoint's intellectual property. For example, maintaining patents in the United States and other countries requires the payment of maintenance fees which, if ChargePoint is unable to pay, may result in loss of its patent rights. If ChargePoint is unable to pay these maintenance fees, its ability to protect its intellectual property or prevent others from infringing its proprietary rights may be impaired.

Human Capital Resources

As of January 31, 2023, ChargePoint had over 1,650 worldwide employees. ChargePoint's talent is the foundation of its success. ChargePoint strives to become the employer of choice within its industry, facilitating the transition to electric mobility by placing its talent at the heart of its success. To achieve this mission, ChargePoint aims to develop its individual, team and leadership capabilities, attract the best talent from diverse backgrounds, retain its talent through a variety of means including competitive rewards and benefits, creating a winning culture, and engaging its talent by building a culture of feedback, inclusion and recognition. Key focus and investment areas to achieve this goal include, among others, diversity and inclusion, emphasis on ethical business practices, and employee safety and wellness.

Diversity and Inclusion. ChargePoint believes that by cultivating a diverse and inclusive workforce where employees can bring diversity of thought, background and experiences, ChargePoint will ultimately drive better business outcomes and drive value for the organization and customers. This commitment includes adopting policies and other initiatives designed to provide equal access to, and participation in, equal employment opportunities, programs, and services without regard to race, religion, color, national origin, disability, sex, sexual orientation, or gender identity. ChargePoint's Compensation and Organizational Development Committee of its Board of Directors reviews and provides feedback on ChargePoint's diversity and inclusion initiatives.

Ethical Business Practices. ChargePoint also fosters a strong corporate culture that promotes high standards of ethics and compliance for its business, including policies that set forth principles to guide employees, executives, and directors, such as its Code of Business Conduct and Ethics. In addition, ChargePoint has joined the Responsible Business Alliance (RBA) and adopted its Supplier Code of Conduct, which emphasizes business ethics in its supply chain through audit and oversight programs focused on promoting ethical and sustainable labor, health and safety, and environmental business practices. ChargePoint also maintains a whistleblower policy and anonymous hotline for the confidential reporting of any suspected policy violations or unethical business conduct on the part of its businesses, employees, executives, directors, or vendors.

Employee Safety and Wellness. ChargePoint provides various health and wellness resources to help its employees maintain and improve their well-being. In addition to health, medical and dental benefits, ChargePoint offers all employees access to several wellness offerings which provide a variety of mental and physical health solutions, therapy and coaching sessions, fertility, family forming and pregnancy support, virtual baby care, and mobile access to doctors.

Compensation and Benefits. ChargePoint offers competitive salaries and benefits programs such as medical, dental, and vision insurance, health and dependent care flexible spending accounts, a 401(k) plan, health savings account, life insurance, accidental death and dismemberment insurance, short-term and long-term disability insurance, and commuter benefits. Employees are also eligible to participate in its Employee Stock Purchase Program and discretionary equity awards program. ChargePoint designs its employee benefits programs to be competitive in relation to the market. ChargePoint adjusts its employee benefits programs as needed to retain key talent based upon regular monitoring of applicable laws and practices and the competitive market. In structuring these benefit programs, ChargePoint seeks to provide an aggregate level of benefits that are comparable to those provided by similar companies.

Available Information

The Company's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), are made available free of charge on ChargePoint's website, investors.chargepoint.com as soon as reasonably practicable after they are electronically filed with or furnished to the Securities and Exchange Commission ("SEC"). In addition, the SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at www.sec.gov.

Item 1A. Risk Factors.

An investment in ChargePoint's securities involves a high degree of risk. You should carefully consider the risks described below before making an investment decision. ChargePoint's business, prospects, financial condition, or operating results could be harmed by any of these risks, as well as other risks not known to ChargePoint or that it considers immaterial as of the date of this annual report on Form 10-K (the "Annual Report"). The trading price of ChargePoint's securities could decline due to any of these risks, and, as a result, you may lose all or part of your investment.

Summary of Principal Risks Associated with ChargePoint's Business

- ChargePoint operates in the early-stage market of electric vehicle ("EV") adoption and has a history of losses, and expects to incur significant expenses and continuing losses for the near term.
- ChargePoint has experienced rapid growth and expects to invest in growth for the foreseeable future. If it fails to manage growth effectively, its business, operating results and financial condition could be adversely affected.
- ChargePoint currently faces competition from a number of companies, particularly in Europe, and expects to face significant competition in the future as the market for EV charging develops.
- ChargePoint relies on a third-party channel partner network of distributors and resellers to generate a substantial amount of its revenue, and failure on the part of ChargePoint to continue to develop and expand this network may have an adverse impact on its business and prospects for growth.
- Failure to effectively expand ChargePoint's sales and marketing capabilities could harm its ability to increase its customer base and achieve broader market acceptance of its solutions.
- Supply chain disruptions, component shortages, manufacturing interruptions or delays, or the failure to accurately forecast customer demand, could adversely affect ChargePoint's ability to meet customer demand, lead to higher costs, and adversely affect ChargePoint's business and results of operations. For example, supply chain challenges related to the COVID-19 pandemic, Russia's invasion of Ukraine and global chip shortages have impacted companies worldwide and may have adverse effects on ChargePoint's suppliers and customers and, as a result, ChargePoint.
- ChargePoint relies on a limited number of suppliers and manufacturers for its charging stations. A loss of any of these partners could negatively affect its business.
- ChargePoint's business is subject to risks associated with construction, cost overruns and delays, and other contingencies that may arise in the course of completing installations, and such risks may increase in the future as ChargePoint expands the scope of such services with other parties.
- Acquisitions or strategic investments could be difficult to identify and integrate, divert the attention of key management personnel, disrupt ChargePoint's business, dilute stockholder value and adversely affect its results of operations and financial condition.
- If ChargePoint is unable to attract and retain key employees and hire qualified management, technical engineering and sales personnel, its ability to compete and successfully grow its business would be harmed.
- ChargePoint is expanding operations internationally, particularly in Europe, which will expose it to additional tax, compliance, market and other risks.
- Some members of ChargePoint's management have limited experience in operating a public company.
- ChargePoint's future revenue growth will depend in significant part on its ability to increase sales of its products and services to fleet operators.

- ChargePoint faces risks related to global epidemics and health pandemics which could have a material and adverse effect on its business and results of operations.
- Future sales of ChargePoint's common stock ("Common Stock") in the public market, or the perception that such sales may occur, could reduce ChargePoint's stock price, and any conversions of its unsecured Convertible Senior PIK Toggle Notes (the "2027 Convertible Notes") will, and any additional capital raised through the sale of equity or any future convertible securities ChargePoint may issue could, dilute existing stockholders' ownership.
- ChargePoint may need to raise additional funds and these funds may not be available when needed or may not be available on terms that are favorable to ChargePoint.
- ChargePoint has incurred substantial indebtedness that may decrease its business flexibility, access to capital, and/or increase its borrowing costs, and ChargePoint may still incur substantially more debt, which may adversely affect its operations and financial results.
- ChargePoint is highly reliant on its networked charging solution and information technology systems and data, and those of its service providers and component suppliers, any of which systems and data may be subject to cyber-attacks, service disruptions or other security incidents, which could result in data breaches, loss or interruption of services, intellectual property theft, claims, litigation, regulatory investigations, significant liability, reputational damage and other adverse consequences.
- Computer malware, viruses, ransomware, hacking, phishing attacks and similar disruptions could result in security and privacy breaches and interruption in service, which could harm ChargePoint's business.
- ChargePoint's business is subject to risks associated with natural disasters and the adverse effects associated with climate change, including earthquakes, wildfires, or other types of natural disasters or resource shortages, including public safety power shut-offs that have occurred and may continue to occur in California, the effects of which could disrupt and harm its operations and those of ChargePoint's customers.
- Concentration of ownership among ChargePoint's existing executive officers, directors and their affiliates may prevent new investors from influencing significant corporate decisions.
- ChargePoint has never paid cash dividends on its capital stock and does not anticipate paying dividends in the foreseeable future.
- The price of ChargePoint's Common Stock may be subject to wide fluctuations.
- ChargePoint's future growth and success is highly correlated with and thus dependent upon the continuing rapid adoption of EVs for passenger and fleet applications.
- The EV market currently benefits from the availability of rebates, tax credits and other financial incentives from governments, utilities and others to offset the purchase or operating costs of EVs and EV charging stations. In particular, ChargePoint's marketing efforts have historically promoted federal tax credits available to purchasers of its EV charging stations that effectively provide purchasers with a significantly discounted purchase price. The reduction, modification, or elimination of such benefits could cause reduced demand for EVs and EV charging stations, which would adversely affect ChargePoint's financial results.
- ChargePoint's business may be adversely affected if it is unable to protect its technology and intellectual property from unauthorized use by third parties.
- ChargePoint has identified, and has previously identified, material weaknesses in its internal control over financial reporting. If ChargePoint is unable to remediate these material weaknesses, or if ChargePoint identifies additional material weaknesses in the future or otherwise fails to maintain an effective system of internal control over financial reporting, this may result in material misstatements contained within ChargePoint's consolidated financial statements or cause ChargePoint to fail to meet its periodic reporting obligations.

Risks Related to ChargePoint's Business

ChargePoint operates in the early-stage market of EV adoption and has a history of losses, and expects to incur significant expenses and continuing losses for the near term.

ChargePoint incurred net losses of \$345.1 million, \$132.2 million, and \$197.0 million for the fiscal years ended January 31, 2023, 2022, and 2021, respectively. As of January 31, 2023 and 2022, ChargePoint had an accumulated deficit of \$1,156.8 million and \$811.7 million, respectively. ChargePoint believes it will continue to incur significant operating expenses and net losses in future quarters for the near term. There can be no assurance that it will be able to achieve or maintain profitability in the future. ChargePoint's potential profitability is particularly dependent upon the continued adoption of EVs by consumers and fleet operators and the widespread adoption of electric trucks, other vehicles and other electric transportation modalities, each of which are still in the very early stages of adoption and may not occur.

ChargePoint has experienced rapid growth and expects to invest in growth for the foreseeable future. If it fails to manage growth effectively, its business, operating results and financial condition could be adversely affected.

ChargePoint has experienced rapid growth in recent periods. For example, the number of employees has grown from over 800 as of January 31, 2021 to over 1,400 as of January 31, 2022 and to over 1,650 as of January 31, 2023. The growth and expansion of its business has placed and continues to place a significant strain on management, operations, financial infrastructure and corporate culture. In the event of further growth, ChargePoint's information technology systems and ChargePoint's internal control over financial reporting and procedures may not be adequate to support its operations and may introduce opportunities for data security incidents that may interrupt business operations and permit bad actors to obtain unauthorized access to business information or misappropriate funds. ChargePoint may also face risks to the extent such bad actors infiltrate the information technology infrastructure of its contractors.

To manage growth in operations and personnel, ChargePoint will need to continue to improve its operational, financial and management controls and reporting systems and procedures. Failure to manage growth effectively could result in difficulty or delays in attracting new customers, declines in quality or customer satisfaction, increases in costs, difficulties in introducing new products and services or enhancing existing products and services, loss of customers, inability to retain or hire new employees effectively, information security vulnerabilities or other operational difficulties, any of which could adversely affect its business performance and operating results.

ChargePoint currently faces competition from a number of companies, particularly in Europe, and expects to face significant competition in the future as the market for EV charging develops.

The EV charging market is relatively new and competition is still developing. ChargePoint primarily competes with smaller providers of EV charging station networks for installations, particularly in Europe. Large early-stage markets, such as Europe, require early engagement across verticals and customers to gain market share, and ongoing effort to scale channels, installers, teams and processes. Some European customers require solutions not yet available and ChargePoint's recent entrance into Europe requires establishing itself against existing competitors. In addition, there are multiple competitors in Europe with limited funding, which could cause poor user experiences, hampering overall EV adoption or trust in any particular provider.

In addition, there are other means for charging EVs, which could affect the level of demand for onsite charging capabilities at businesses. For example, Tesla Inc. continues to build out its supercharger network across the United States for its vehicles and has opened its supercharger network up to non-Tesla EVs, which could reduce overall demand for EV charging at other sites, including ChargePoint's. Also, third-party contractors can provide basic electric charging capabilities to potential customers seeking to have on premise EV charging capability or individual customers seeking home charging. In addition, many EV charging

manufacturers, including ChargePoint, are offering home charging equipment, which could reduce demand for on premise charging capabilities of potential customers and reduce the demand for onsite charging capabilities if EV owners find charging at home to be sufficient.

Further, ChargePoint's current or potential competitors may be acquired by third-parties with greater available resources. In addition, certain of ChargePoint's competitors are engaging in or have completed transactions to become publicly traded companies and may have ready access to the capital markets for additional funding. As a result, competitors may be able to respond more quickly and effectively than ChargePoint to new or changing opportunities, technologies, standards or customer requirements and may have the ability to initiate or withstand substantial price competition. In addition, competitors may in the future establish cooperative relationships with vendors of complementary products, technologies or services to increase the availability of their solutions in the marketplace. This competition may also materialize in the form of costly intellectual property disputes or litigation involving ChargePoint.

New competitors or alliances may emerge in the future that have greater market share, more widely adopted proprietary technologies, greater marketing expertise and greater financial resources, which could put ChargePoint at a competitive disadvantage. Future competitors could also be better positioned to serve certain segments of ChargePoint's current or future target markets, which could create price pressure. In light of these factors, even if ChargePoint's offerings are more effective and higher quality than those of its competitors, current or potential customers may accept competitive solutions. If ChargePoint fails to adapt to changing market conditions or continue to compete successfully with current charging providers or new competitors, its growth will be limited which would adversely affect its business and results of operations.

ChargePoint relies on a third-party channel partner network of distributors and resellers to generate a substantial amount of its revenue and failure on the part of ChargePoint to continue to develop and expand this network may have an adverse impact on its business and prospects for growth.

ChargePoint's success is dependent in part upon establishing and maintaining relationships with a variety of channel partners that it utilizes to extend its geographic reach and market penetration. ChargePoint uses a two-tiered, indirect fulfillment model whereby ChargePoint sells its products and services to its distributors, which in turn sell to resellers, which then sell to end users. ChargePoint refers to these end users as customers. ChargePoint anticipates that it will continue to rely on this two-tiered sales model in order to help facilitate sales of ChargePoint's products and to grow its business internationally. In the fiscal years ended January 31, 2023, 2022, and 2021, ChargePoint derived a majority of its billings from products and subscriptions sold through channel partners. ChargePoint's agreements with its channel partners are non-exclusive and do not prohibit them from working with ChargePoint's competitors or offering competing solutions, and some of ChargePoint's channel partners may have more established relationships with ChargePoint's competitors. Similarly, ChargePoint's channel partners have no obligations to renew their agreements with ChargePoint on commercially reasonable terms or at all, and certain of the agreements governing these relationships may be terminated by either party at any time, with no or limited notice. If ChargePoint's channel partners choose to place greater emphasis on products of their own or those offered by ChargePoint's competitors or a result of an acquisition, competitive factors or for other reasons do not continue to market and sell ChargePoint's solutions in an effective manner or at all, ChargePoint's ability to grow its business and sell its solutions may be adversely affected. In addition, ChargePoint's failure to recruit additional channel partners, or any reduction or delay in their sales of ChargePoint solutions and subscriptions, including because of economic uncertainty, or due to conflicts between channel sales and ChargePoint's direct sales force may harm ChargePoint's results of operations. Finally, even if ChargePoint is successful in establishing and maintaining relationships with channel partners, these relationships may not result in greater customer usage of ChargePoint's solutions and professional services or increased revenue.

Failure to effectively expand ChargePoint's sales and marketing capabilities could harm its ability to increase its customer base and achieve broader market acceptance of its solutions.

ChargePoint's ability to grow its customer base, achieve broader market acceptance, grow revenue, and achieve and sustain profitability will depend, to a significant extent, on its ability to effectively expand its sales and marketing operations and activities. Sales and marketing expenses represent a significant percentage of ChargePoint's total revenue, and its operating results will suffer if sales and marketing expenditures do not contribute significantly to increasing revenue.

ChargePoint is substantially dependent on its channel partners and direct sales force to obtain new customers. ChargePoint plans to continue to expand its direct sales force both domestically and internationally but it may not be able to recruit and hire a sufficient number of sales personnel, which may adversely affect its ability to expand its sales capabilities. New hires require significant training and time before they achieve full productivity, particularly in new sales territories. Recent hires and planned hires may not become as productive as quickly as anticipated and ChargePoint may be unable to hire or retain sufficient numbers of qualified individuals. Furthermore, hiring sales personnel in new countries can be costly, complex and time-consuming, and requires additional set up and upfront costs that may be disproportionate to the initial revenue expected from those countries. There is significant competition for direct sales personnel with strong sales skills and technical knowledge. ChargePoint's ability to achieve significant revenue growth in the future will depend, in large part, on its success in recruiting, training, incentivizing and retaining a sufficient number of qualified direct sales personnel and on such personnel attaining desired productivity levels within a reasonable amount of time. ChargePoint's business will be harmed if continuing investment in its sales and marketing capabilities does not generate a significant increase in revenue.

Supply chain disruptions, component shortages, manufacturing interruptions or delays, or the failure to accurately forecast customer demand, could adversely affect ChargePoint's ability to meet customer demand, lead to higher costs, and adversely affect ChargePoint's business and results of operations. For example, supply chain challenges related to the COVID-19 pandemic, Russia's invasion of Ukraine and global chip shortages have impacted companies worldwide and may have adverse effects on ChargePoint's suppliers and customers and, as a result, ChargePoint.

ChargePoint depends on the timely supply of materials, services and related products to meet the demands of its customers, which depends in part on the timely delivery of materials and services from suppliers and contract manufacturers. Significant or sudden increases in demand for EV charging stations, as well as worldwide demand for the raw materials and services that ChargePoint requires to manufacture and sell EV charging stations, including component parts, may result in a shortage of such materials or may cause shipment delays due to transportation interruptions or capacity constraints. Such shortages or delays could adversely impact ChargePoint's suppliers' ability to meet ChargePoint's demand requirements.

Disruptions in the manufacturing, delivery and overall supply chain of vehicle manufacturers and suppliers, such as prolonged port congestion and intermittent supplier shutdowns and delays, each of which has been exacerbated by the COVID-19 pandemic, have resulted in additional costs and, to a lesser extent, component shortages, and have led to fluctuations in EV sales in markets around the world. Increased demand for personal electronics and trade restrictions that affect raw materials have contributed to a shortfall of semiconductor chips, which has caused additional supply challenges both within and outside of ChargePoint's industry. Ongoing supply chain challenges, component shortages and heightened logistics costs have adversely affected ChargePoint's gross margins in recent quarters and ChargePoint expects that gross margins will continue to be adversely affected by increased material costs and freight and logistic expenses for the foreseeable future. Costs incurred to expedite delivery of components and replacement parts used in charging stations or in providing installation or maintenance services or to proactively increase inventory could cause ChargePoint to raise its prices, impose surcharges or other fees or refuse to negotiate discounts. Further, any sustained downturn in demand for EVs would also harm ChargePoint's business.

ChargePoint may also experience significant interruptions of its manufacturing operations, delays in its ability to deliver products, or increased costs as a result of:

- the failure or inability to accurately forecast demand and obtain sufficient quantities of quality raw materials or replacement parts on a cost-effective basis;
- volatility in the availability and cost of materials or services, including rising prices due to inflation;
- shipment delays due to transportation interruptions or capacity constraints, such as reduced availability of air or ground transport or port closures;
- information technology or infrastructure failures, including those of a third party supplier or service provider;
- difficulties or delays in obtaining required import or export approvals;
- natural disasters or other events beyond ChargePoint's control (such as earthquakes, utility interruptions, tsunamis, hurricanes, typhoons, floods, storms or extreme weather conditions, fires, regional economic downturns, regional or global health epidemics, including the ongoing COVID-19 pandemic); and
- geopolitical turmoil, including the ongoing invasion of Ukraine by Russia or increased trade restrictions between the United States, Russia, China and other countries, social unrest, political instability, terrorism, or other acts of war which may further adversely impact supply chains, shipping, transportation and logistics disruptions.

Further, the United States has imposed extraordinary tariffs and extensive export controls targeted primarily at the semiconductor industry in China. If China retaliates to such measures or there is a conflict between China and Taiwan, which is a leading producer of semiconductors, there could be further disruption to the semiconductor industry and global supply chains. ChargePoint or the suppliers it procures components from may be unable to manufacture products at prices ChargePoint's customers would accept, or at all. Any inability to pass on future increased costs to customers would put downward pressure on ChargePoint's gross margins and adversely affect ChargePoint's business, results of operations and financial condition. In addition, while ChargePoint has not yet experienced a direct impact to its supply chain due to the conflict between Russia and Ukraine, ChargePoint may experience an impact in the future due to increased fuel and shipping costs, limited supply of components or replacement parts used by ChargePoint in its manufacturing process, or the automotive industry in general, and delays caused by changes to global shipping routes and logistics. Such adverse impacts on ChargePoint's supply chain could limit its ability to manufacture and sell its products on a timely and cost-effective basis and adversely affect its gross margins, which could materially adversely affect ChargePoint's business and results of operations.

ChargePoint relies on a limited number of suppliers and manufacturers for its charging stations. A loss of any of these partners could negatively affect its business.

ChargePoint relies on a limited number of suppliers to manufacture its charging stations, including in some cases only a single supplier for some products and components. This reliance on a limited number of manufacturers increases ChargePoint's risks, since it does not currently have proven reliable alternatives or replacement manufacturers beyond these key parties. In the event of interruption, including or resulting in a sudden failure by a supplier to meet its obligation, ChargePoint may not be able to increase capacity from other sources or develop alternate or secondary sources without incurring material additional costs and substantial delays. Thus, ChargePoint's business could be adversely affected if one or more of its suppliers is impacted by any interruption at a particular location.

As the demand for EV charging increases, ChargePoint's suppliers and manufacturers may not be able to dedicate sufficient supply chain, production or sales channel capacity to keep up with the required pace of

charging infrastructure expansion. By relying on contract manufacturing, ChargePoint is dependent upon the manufacturer, whose interests may be different from ChargePoint's. For example, ChargePoint's suppliers and contract manufacturers may have other customers with demand for the same components or manufacturing services and may allocate their resources based on the supplier's or manufacturer's interests or needs to maximize their revenue or relationships with other customers rather than ChargePoint's interest. As a result, ChargePoint may not be able to assure itself that it will have sufficient control over the supply of key components, inventory or finished goods in a timely manner or with acceptable cost and expense, which may adversely affect ChargePoint's revenue, cost of goods and gross margins.

If ChargePoint experiences a significant increase in demand for its charging stations in future periods, or if it needs to replace an existing supplier, it may not be possible to supplement or replace them on acceptable terms, which may undermine its ability to deliver products to customers in a timely manner. For example, it may take a significant amount of time to identify a manufacturer that has the capability and resources to build charging stations in sufficient volume. Identifying suitable suppliers and manufacturers could be an extensive process that requires ChargePoint to become satisfied with such party's quality control, technical capabilities, responsiveness and service, financial stability, regulatory compliance, and labor and other ethical practices. Accordingly, a loss of any significant suppliers or manufacturers could have an adverse effect on ChargePoint's business, financial condition and operating results. In addition, ChargePoint's suppliers may face supply chain risks and constraints of their own, which may impact the availability and pricing of its products. For example, supply chain challenges related to global chip shortages have impacted companies worldwide both within and outside of ChargePoint's industry and may continue to have adverse effects on ChargePoint's suppliers and, as a result, ChargePoint.

In addition, in fiscal year 2023, ChargePoint became subject to requirements under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act") to diligence, disclose and report whether or not its products contain minerals originating from the Democratic Republic of the Congo and adjoining countries, or conflict minerals. ChargePoint will incur additional costs to comply with these disclosure requirements, including costs related to determining the source of any of the relevant minerals and metals used in ChargePoint's products. These requirements could adversely affect the sourcing, availability and pricing of minerals used in the components used in ChargePoint's products. It is also possible that ChargePoint's reputation may be adversely affected if it determines that certain of its products contain minerals not determined to be conflict-free or if it is unable to alter its products, processes or sources of supply to avoid use of such materials. ChargePoint may also encounter end-customers who require that all of the components of the products be certified as conflict free. If ChargePoint is not able to meet this requirement, such end-customers may choose to purchase products from a different company.

ChargePoint's business is subject to risks associated with construction, cost overruns and delays, and other contingencies that may arise in the course of completing installations, and such risks may increase in the future as ChargePoint expands the scope of such services with other parties.

ChargePoint does not typically install charging stations at customer sites. These installations are typically performed by ChargePoint partners or electrical contractors with an existing relationship with the customer and/or knowledge of the site. The installation of charging stations at a particular site is generally subject to oversight and regulation in accordance with state and local laws and ordinances relating to building codes, safety, environmental protection and related matters, and typically requires various local and other governmental approvals and permits that may vary by jurisdiction. In addition, building codes, accessibility requirements or regulations may hinder EV charger installation because they end up costing the developer or installer more in order to meet the code requirements. Meaningful delays or cost overruns may impact ChargePoint's recognition of revenue in certain cases and/or impact customer relationships, either of which could impact ChargePoint's business and profitability. In addition, the proper preparation, configuration and installation of charging stations requires specialized electrical certifications and skills. If ChargePoint is unable to identify sufficient partners and contractors to satisfy its customers' installation needs, specifically electricians and construction partners with sufficient skill and expertise installing charging stations, it may delay deployment projects or cause its customers

to delay making an investment or commitment to purchase charging stations, which may adversely affect ChargePoint's business.

Furthermore, ChargePoint may in the future elect to install charging stations at customer sites or manage contractors, likely as part of offering customers a turnkey solution. Working with contractors may require ChargePoint to obtain licenses or require it or its customers to comply with additional rules, working conditions and other union requirements, which can add costs and complexity to an installation project. In addition, if these contractors are unable to provide timely, thorough and quality installation-related services, customers could fall behind their construction schedules leading to liability of ChargePoint, or cause customers to become dissatisfied with the solutions ChargePoint offers and ChargePoint's overall reputation would be harmed.

Acquisitions or strategic investments could be difficult to identify and integrate, divert the attention of key management personnel, disrupt ChargePoint's business, dilute stockholder value and adversely affect its results of operations and financial condition.

As part of ChargePoint's business strategy, ChargePoint has made and continues to consider making acquisitions of, or investments in, businesses, services or technologies that are complementary to its existing business. For example, on August 11, 2021, ChargePoint acquired ViriCiti B.V. ("ViriCiti"), a provider of electrification solutions for eBus and commercial fleets, and on October 6, 2021, ChargePoint acquired has-to-be gmbh ("HTB"), an e-mobility and charging software platform. The process of identifying and consummating acquisitions and investments and the subsequent integration of new assets and businesses into ChargePoint's own business, requires attention from management and could result in a diversion of resources from its existing business, which in turn could have an adverse effect on its operations. Acquired assets or businesses may not generate the expected financial results. Acquisitions or investments could also result in the use of cash, potentially dilutive issuances of equity securities, the occurrence of goodwill impairment charges, amortization expenses for other intangible assets and exposure to potential unknown liabilities of the acquired business or investment. ChargePoint may also incur costs and management time on transactions that are ultimately not completed. In addition, ChargePoint's due diligence may fail to identify all of the problems, liabilities or other shortcomings or challenges of an acquired business, product, technology or investment, including issues related to intellectual property, product quality or product architecture, regulatory compliance practices, revenue recognition or other accounting practices or issues with employees or customers.

ChargePoint's acquisitions or investments may not ultimately strengthen its competitive position or achieve its goals and business strategy; ChargePoint may be subject to claims or liabilities assumed from an acquired company, product or technology; acquisitions or investments ChargePoint completes could be viewed negatively by its customers, investors and securities analysts; and ChargePoint may incur costs and expenses necessary to address an acquired company's failure to comply with laws and governmental rules and regulations. Additionally, ChargePoint may be subject to litigation or other claims in connection with the acquired company, including claims from terminated employees, former stockholders or other third parties, which may differ from or be more significant than the risks ChargePoint's business faces of similar litigation or other claims. An acquired company may also need to implement or improve its controls, procedures and policies, and ChargePoint may face risks associated if any of those controls, procedures or policies are insufficiently effective. ChargePoint may also face retention or cultural challenges associated with integrating employees from the acquired company into its organization. If ChargePoint is unsuccessful at integrating acquisitions or investments in a timely manner, the revenue and operating results of the combined company could be adversely affected. Any integration process may require significant time and resources, which may disrupt ChargePoint's ongoing business and divert management's attention, and ChargePoint may not be able to manage the integration process successfully or in a timely manner. ChargePoint may not successfully evaluate or utilize the acquired technology or personnel, realize anticipated synergies from the acquisition or investment, or accurately forecast the financial impact of an acquisition or investment transaction or the related integration of such acquisition or investment, including accounting charges and any potential impairment of goodwill and intangible assets recognized in connection with such transaction. ChargePoint may have to pay cash, incur debt, or issue equity or equity-linked securities to pay

for any acquisitions or investments, each of which could adversely affect its financial condition or the market price of its Common Stock. Furthermore, the sale of equity or issuance of equity-linked debt to finance any such transaction could result in dilution to ChargePoint's stockholders. The occurrence of any of these risks could harm ChargePoint's business, operating results and financial condition.

If ChargePoint is unable to attract and retain key employees and hire qualified management, technical, engineering and sales personnel, its ability to compete and successfully grow its business would be harmed.

ChargePoint's success depends, in part, on its continuing ability to identify, hire, attract, train and develop and retain highly qualified personnel. The inability to do so effectively would adversely affect its business. For example, in fiscal year 2023, ChargePoint's Chief Marketing Officer and Chief Technology Officer resigned and ChargePoint hired a new Chief Operating Officer. ChargePoint's future performance depends on the continued services and continuing contributions of its senior management to execute on its business plan and to identify and pursue new opportunities and product innovations. The loss of services of senior management, or the ineffective management of any leadership transitions, especially within ChargePoint's sales organization, could significantly delay or prevent the achievement of its development and strategic objectives, which could adversely affect its business, financial condition and operating results.

Competition for employees can be intense, particularly in Silicon Valley where ChargePoint is headquartered, and the ability to attract, hire and retain them depends on ChargePoint's ability to provide competitive compensation. In addition, job market dynamics have been impacted by the "great resignation," with a significant number of people leaving the workforce, and future challenges related to ChargePoint's "return-to-office" plans, hybrid work model or workplace practices could lead to attrition and difficulty attracting high-quality employees. ChargePoint may not be able to attract, assimilate, develop or retain qualified personnel in the future, and failure to do so could adversely affect its business, including the execution of its global business strategy.

ChargePoint is expanding operations internationally, particularly in Europe, which will expose it to additional tax, compliance, market and other risks.

ChargePoint's primary operations are in the United States and it maintains contractual relationships with parts and manufacturing suppliers in the Asia-Pacific region, Mexico and other locations. Also, ChargePoint is continuing to invest to increase its presence in Europe, including by its acquisitions of ViriCiti and HTB, and to expand primarily research and development teams in Gurgaon, India, Reading, England and Radstadt, Austria. Managing these expansions requires additional resources and controls, and could subject ChargePoint to risks associated with international operations, including:

- cost of alternative power sources, which could vary meaningfully outside the United States;
- conformity with applicable business customs, including translation into foreign languages and associated expenses;
- lack of availability of government incentives and subsidies;
- challenges in arranging, and availability of, financing for customers;
- potential changes to its established business model;
- difficulties in staffing and managing foreign operations in an environment of diverse culture, laws, and customers, and the increased travel, infrastructure, and legal and compliance costs associated with international operations;
- installation challenges;
- differing driving habits and transportation modalities in other markets;
- different levels of demand among commercial, fleet and residential customers;

- compliance with multiple, potentially conflicting and changing governmental laws, regulations, certifications, and permitting processes including environmental, banking, employment, tax, information security, privacy, and data protection laws and regulations such as the California Consumer Privacy Act (“CCPA”) and newer state privacy laws in the United States, the European Union (the “EU”) General Data Protection Regulation (“GDPR”), national legislation implementing the same, the United Kingdom Data Protection Act 2018 (“UK GDPR”), and certain other changing requirements for legally transferring data out of the European Economic Area;
- compliance with U.S. and foreign anti-bribery laws including the Foreign Corrupt Practices Act (“FCPA”) and the U.K. Anti-Bribery Act of 2020 (the “Anti-Bribery Act”);
- conforming products to various international regulatory and safety requirements as well as charging and other electric infrastructures;
- difficulty in establishing, staffing and managing foreign operations;
- difficulties in collecting payments in foreign currencies and associated foreign currency exposure;
- restrictions on repatriation of earnings;
- compliance with potentially conflicting and changing laws of taxing jurisdictions and compliance with applicable U.S. tax laws as they relate to international operations, the complexity and adverse consequences of such tax laws, and potentially adverse tax consequences due to changes in such tax laws; and
- regional economic and political conditions, including the outbreak of war or other hostilities.

As a result of these risks, ChargePoint’s current expansion efforts and any potential future international expansion efforts may not be successful.

Some members of ChargePoint’s management have limited experience in operating a public company.

Some of ChargePoint’s executive officers have limited experience in the management of a publicly-traded company. The management team may not successfully or effectively continue the management of a public company that is subject to significant regulatory oversight and reporting obligations under federal securities laws, particularly in light of the Securities and Exchange Commission’s (“SEC”) increasing focus on former shell companies.

Their limited experience in dealing with the increasingly complex laws pertaining to public companies could be a significant disadvantage in that it is likely that an increasing amount of their time may be devoted to these activities, which will result in less time being devoted to the management and growth of ChargePoint. ChargePoint may not have adequate personnel with the appropriate level of knowledge, experience and training in the accounting policies, practices or internal control over financial reporting required of public companies. The development and implementation of the standards and controls and the hiring of experienced personnel necessary to achieve the level of accounting standards required of a public company may require greater costs than expected.

ChargePoint’s future revenue growth will depend in significant part on its ability to increase sales of its products and services to fleet operators.

ChargePoint’s future revenue growth will depend in significant part on its ability to increase sales of its products and services to fleet operators. The electrification of fleets is an emerging market, and fleet operators may not adopt EVs on a widespread basis and on the timelines ChargePoint anticipates. In addition to the factors affecting the growth of the EV market generally, transitioning to an EV fleet can be costly and capital intensive, which could result in slower than anticipated adoption. The sales cycle could also be longer for sales to fleet

operators, as they are often larger organizations, with more formal procurement processes than smaller commercial site hosts. Fleet operators may also require significant additional services and support, and if ChargePoint is unable to provide such services and support, it may adversely affect its ability to attract additional fleet operators as customers. Any failure to attract and retain fleet operators as customers in the future would adversely affect ChargePoint's business and results of operations.

ChargePoint faces risks related to global epidemics and health pandemics which could have a material and adverse effect on its business and results of operations.

ChargePoint faces risks related to global epidemics and health pandemics, like the COVID-19 pandemic, which may create significant volatility in the global economy and may have a long-lasting adverse impact on ChargePoint and its industry. For instance, such epidemics may cause local, regional or national governments to implement measures to contain pandemic risks, such as travel restrictions, quarantines, shelter in place order or business shutdowns. Any of these measures may adversely affect ChargePoint's employees and operations and the operations of its customers, suppliers, vendors and business partners, and may negatively impact demand for EV charging stations, particularly at workplaces, or the supply of components necessary for the manufacture of charging stations.

For example, during calendar years 2020, 2021, and 2022, in response to the COVID-19 pandemic, ChargePoint modified its business practices by recommending that all non-essential personnel work from home and cancelling or reducing physical participation in sales activities, meetings, events and conferences. As a result, many non-essential ChargePoint personnel have been working from home for almost three years in light of the COVID-19 pandemic. In May 2022, ChargePoint commenced a "return-to-office" plan, which included shifting to a hybrid model where employees have the flexibility to work from home or from the office. In the fall of 2022, ChargePoint further refined its hybrid model to require most employees to return to office at least two days a week. A hybrid work model may create challenges, including challenges maintaining ChargePoint's corporate culture, increasing attrition or limiting ChargePoint's ability to attract employees if individuals prefer to continue working full time at home, or if there are instances of COVID-19 infections at the office. Future challenges related to ChargePoint's "return-to-office" plans, hybrid work model or workplace practices could lead to attrition and difficulty attracting high-quality employees.

The effect of future health pandemics and the ongoing COVID-19 pandemic on ChargePoint's business, prospects and results of operations will depend on their duration and sustained impact. Difficult macroeconomic conditions, such as supply shortages, increased inflation, increased and prolonged unemployment or a decline in consumer confidence as a result of pandemics, as well as reduced spending by businesses, could have a material adverse effect on the demand for ChargePoint's products and services. The effect of, or even the threats of, a new global pandemic can also vary over time and across the geographies in which ChargePoint operates. For example, variations in "work-from-home" or "return-to-office" policies can cause fluctuations in ChargePoint's revenues because conditions caused by global pandemics, such as more permanent work-from-home policies, are likely to continue affecting the rate of global infrastructure spending, and thus to continue to adversely impact ChargePoint's gross margins as ChargePoint's commercial business tends to contribute higher gross margins than its residential and fleet businesses. Even after the acute impact from any pandemic has subsided, ChargePoint may continue to experience an adverse impact to its business as a result of the pandemic's global economic impact, including any recession that has occurred or may occur in the future.

ChargePoint is highly reliant on its networked charging solution and information technology systems and data, and those of its service providers and component suppliers, any of which systems and data may be subject to cyber-attacks, service disruptions or other security incidents, which could result in data breaches, loss or interruption of services, intellectual property theft, claims, litigation, regulatory investigations, significant liability, reputational damage and other adverse consequences.

ChargePoint continues to expand its information technology systems in the form of its networked charging solution, and as its operations grow, its internal information technology systems, such as product data

management, procurement, inventory management, production planning and execution, sales, service and logistics, financial, tax and regulatory compliance systems. This includes the implementation of new internally developed systems and the deployment of such systems in the United States and abroad. The implementation, maintenance, segregation and improvement of these systems require significant management time, support and cost, and there are inherent risks associated with developing, improving and expanding ChargePoint's core systems as well as implementing new systems and updating current systems, including disruptions to the related areas of business operations. These risks may affect ChargePoint's ability to manage its data and inventory, procure parts or supplies or manufacture, sell, deliver and service products, adequately protect its intellectual property or achieve and maintain compliance with, or realize available benefits under, tax laws and other applicable regulations.

While ChargePoint maintains information technology measures designed to protect it against intellectual property theft, data breaches, sabotage and other external or internal cyber-attacks or misappropriation, its systems and those of its service providers are potentially vulnerable to malware, ransomware, viruses, denial-of-service attacks, phishing attacks, social engineering, computer hacking, unauthorized access, exploitation of bugs, defects and vulnerabilities, breakdowns, damage, interruptions, system malfunctions, power outages, terrorism, acts of vandalism, security breaches, security incidents, inadvertent or intentional actions by employees or other third parties, and other cyber-attacks. To the extent any security incident results in unauthorized access or damage to or acquisition, use, corruption, loss, destruction, alteration or dissemination of ChargePoint data, including intellectual property and personal information, or ChargePoint products, or for it to be believed or reported that any of these occurred, it could disrupt ChargePoint's business, harm its reputation, compel it to comply with applicable data breach notification laws, subject it to time consuming, distracting and expensive litigation, regulatory investigation and oversight, mandatory corrective action, require it to verify the correctness of database contents, or otherwise subject it to liability under laws, regulations and contractual obligations, including those that protect the privacy and security of personal information. This could result in increased costs to ChargePoint and result in significant legal and financial exposure and/or reputational harm.

Because ChargePoint also relies on third-party service providers, it cannot guarantee that its service providers' and component suppliers' systems have not been breached or that they do not contain exploitable defects, bugs, or vulnerabilities that could result in a security incident, or other disruption to, ChargePoint's or ChargePoint's service providers' or component suppliers' systems. ChargePoint's ability to monitor its service providers' and component suppliers' security measures is limited, and, in any event, malicious third parties may be able to circumvent those security measures.

If ChargePoint does not successfully implement, maintain or expand its information technology systems as planned, its operations may be disrupted, its ability to accurately and/or timely report its financial results could be impaired and deficiencies may arise in its internal control over financial reporting, which may impact its ability to certify its financial results (see also "Risks Related to Legal Matters and Regulations—ChargePoint may face litigation and other risks as a result of the material weaknesses in its internal control over financial reporting and the restatement of its financial statements," and "Financial, Tax and Accounting-Related Risks—ChargePoint has identified, and has previously identified, material weaknesses in its internal control over financial reporting. If ChargePoint is unable to remediate these material weaknesses, or if ChargePoint identifies additional material weaknesses in the future or otherwise fails to maintain an effective system of internal control over financial reporting, this may result in material misstatements contained within ChargePoint's consolidated financial statements or cause ChargePoint to fail to meet its periodic reporting obligations," for more detail). Moreover, ChargePoint's proprietary information, including intellectual property and personal information, could be compromised or misappropriated, its reputation may be adversely affected if these systems or their functionality do not operate as expected and ChargePoint may be required to expend significant resources to make corrections or find alternative sources for performing these functions.

Computer malware, viruses, ransomware, hacking, phishing attacks and similar disruptions could result in security and privacy breaches and interruption in service, which could harm ChargePoint's business.

Computer malware, viruses, physical or electronic break-ins and similar disruptions could lead to interruption and delays in ChargePoint's services and operations and loss, misuse or theft of data. Computer malware, viruses, ransomware, hacking and phishing attacks against online networks have become more prevalent and may occur on ChargePoint's systems in the future. Cyber security organizations in many countries have published warnings of increased cybersecurity threats to U.S. businesses, and external events, like the conflict between Russia and Ukraine, may increase the likelihood of cybersecurity attacks, particularly directed at energy, fueling or infrastructure service providers. Any attempts by cyber attackers to disrupt ChargePoint's services or systems, if successful, could harm its business, introduce liability to data subjects, result in the misappropriation of funds, be expensive to remedy, subject ChargePoint to substantial fines, penalties, damages and other liabilities under applicable laws and regulations, lead to a loss of protection of its intellectual property or trade secrets and damage its reputation or brand. Insurance may not be sufficient to cover significant expenses and losses related to cyber-attacks. Efforts to prevent cyber attackers from entering computer systems are expensive to implement, and ChargePoint may not be able to cause the implementation or enforcement of such preventions with respect to its third-party vendors. Though it is difficult to determine what, if any, harm may directly result from any specific interruption or attack, any failure to maintain performance, reliability, security and availability of systems and technical infrastructure may, in addition to other losses, harm ChargePoint's reputation, brand and ability to attract customers.

ChargePoint has previously experienced, and may in the future experience, service disruptions, outages and other performance problems due to a variety of factors, including infrastructure changes, third-party service providers, component supplier and manufacturer disruptions, human or software errors and capacity constraints. If ChargePoint's services are unavailable when users attempt to access them, they may seek other services, which could reduce demand for ChargePoint's solutions from target customers.

ChargePoint has processes and procedures in place designed to enable it to quickly recover from a disaster or catastrophe and continue business operations and has tested this capability under controlled circumstances. However, there are several factors ranging from human error to data corruption that could materially impact the efficacy of such processes and procedures, including by lengthening the time services are partially or fully unavailable to customers and users. It may be difficult or impossible to perform some or all recovery steps and continue normal business operations due to the nature of a particular disaster or catastrophe, especially during peak periods, which could cause additional reputational damages, or loss of revenue, any of which could adversely affect its business and financial results.

ChargePoint's business is subject to risks associated with natural disasters and the adverse effects associated with climate change, including earthquakes, wildfires, or other types of natural disasters or resource shortages, including public safety power shut-offs that have occurred and may continue to occur in California, the effects of which could disrupt and harm its operations and those of ChargePoint's customers.

ChargePoint conducts a majority of its operations in the San Francisco Bay Area in an area projected to be vulnerable to future water scarcity and sea level rise due to climate change as well as in an active earthquake zone. The occurrence of a natural disaster such as an earthquake, drought, flood, fire (such as the increasingly frequent wildfires in California), localized extended outages of critical utilities (such as California's public safety power shut-offs) or transportation systems, or any critical resource shortages could cause a significant interruption in its business, damage or destroy ChargePoint's facilities or inventories, and cause it to incur significant costs, any of which could harm its business, financial condition and results of operations. The insurance ChargePoint maintains against fires, earthquakes and other natural disasters may not be adequate to cover losses in any particular case.

In addition, rolling public safety power shut-offs in California or other states can affect user acceptance of EVs, as charging may be unavailable at the desired times, or at all during these events. These shut-offs could also

affect the ability of fleet operators to charge their EVs, which, for example, could adversely affect transportation schedules or any service level agreements to which either ChargePoint or the fleet operator may be a party. If these events persist, the demand for EVs could decline, which would result in reduced demand for charging solutions.

Seasonality may cause fluctuations in ChargePoint's revenue.

ChargePoint believes there are seasonal factors that may cause ChargePoint to record higher revenue in some quarters compared with others. A significant share of ChargePoint's annual revenues are typically generated in the fourth fiscal quarter, which coincides with customers with a December 31 year-end choosing to spend remaining unused portions of their budgets. ChargePoint's revenues have historically been lower in its first fiscal quarter than its preceding fourth quarter, due to, in part, unfavorable weather conditions which result in a decrease in construction activity during the winter months, periods of wet weather and times when other weather and climate conditions would impair construction activity. While ChargePoint believes it has visibility into the seasonality of its business, various factors, including difficult weather conditions (such as flooding, hurricanes, prolonged rain or periods of unseasonably cold temperatures or snowstorms) in any quarter, may materially and adversely affect its business, financial condition and results of operations.

ChargePoint is susceptible to risks associated with an increased focus by stakeholders and regulators on climate change, which may adversely affect its business and results of operations.

Climate-related events, including the increasing frequency of extreme weather events and their impact on critical infrastructure in the United States and elsewhere, have the potential to disrupt ChargePoint's business and those of its third-party suppliers, and customers, and may cause ChargePoint to experience higher attrition, losses and additional costs to maintain or resume operations. In addition, ChargePoint's customers may begin to establish sourcing requirements related to sustainability. As a result, ChargePoint may receive requests for sustainability related information about its products, business operations, use of sustainable materials and packaging. ChargePoint's inability to comply with these and other sustainability requirements in the future could adversely affect sales of and demand for its products.

Further, there is an increased focus, including by governmental and nongovernmental organizations, investors, customers, and other stakeholders, on climate change matters, including increased pressure to expand disclosures related to the physical and transition risks related to climate change or to establish sustainability goals, such as the reduction of greenhouse gas emissions, which could expose ChargePoint to market, operational and execution costs or risks. ChargePoint's failure to establish such sustainability targets or targets that are perceived to be appropriate, as well as to achieve progress on those targets on a timely basis, or at all, could adversely affect the reputation of its brand and sales of and demand for its products. To the extent legislation is passed, such as proposed rules by the SEC with respect to enhanced and standardized climate-related disclosures, ChargePoint would incur significant additional costs of compliance due to the need for expanded data collection, analysis, and certification with respect to greenhouse gas emissions and other climate change related risks. ChargePoint may also incur additional costs or require additional resources to monitor, report and comply with such stakeholder expectations and standards and legislation, and to meet climate change targets and commitments if established.

Risks Related to the EV Market

ChargePoint's future growth and success is highly correlated with and thus dependent upon the continuing rapid adoption of EVs for passenger and fleet applications.

ChargePoint's future growth is highly dependent upon the adoption of EVs by businesses and consumers. The market for EVs is still rapidly evolving, characterized by rapidly changing technologies, competitive pricing and competitive factors, evolving government regulation and industry standards and changing consumer demands

and behaviors, changing levels of concern related to environmental issues and governmental initiatives related to energy independence, climate change and the environment generally. Although demand for EVs has grown in recent years, there is no guarantee of continuing future demand. If the market for EVs develops more slowly than expected, or if demand for EVs decreases, ChargePoint's business, prospects, financial condition and operating results would be harmed. The market for EVs could be affected by numerous factors, such as:

- perceptions about EV features, quality, safety, performance and cost;
- perceptions about the limited range over which EVs may be driven on a single battery charge;
- competition, including from other types of alternative fuel vehicles, plug-in hybrid electric vehicles and high fuel-economy internal combustion engine vehicles;
- volatility in the cost of oil and gasoline, including as a result of trade restrictions;
- concerns regarding the reliability and stability of the electrical grid;
- the change in an EV battery's ability to hold a charge over time;
- the availability and reliability of a national electric vehicle charging network or infrastructure;
- availability of maintenance and repair services for EVs;
- consumers' perception about the convenience and cost of charging EVs;
- increases in fuel efficiency of non-electric vehicles;
- government regulations and economic incentives, including adverse changes in, or expiration of, favorable tax incentives related to EVs, EV charging stations or decarbonization generally;
- relaxation of government mandates or quotas regarding the sale of EVs; and
- concerns about the future viability of EV manufacturers.

In addition, sales of vehicles in the automotive industry can be cyclical, which may affect growth in acceptance of EVs. It is uncertain how macroeconomic factors will impact demand for EVs, particularly since EVs can be more expensive than traditional gasoline-powered vehicles, when the automotive industry globally has been experiencing a recent decline in sales. Furthermore, because fleet operators often make large purchases of EVs, this cyclicity and volatility in the automotive industry may be more pronounced with commercial purchasers, and any significant decline in demand from these customers could reduce demand for EV charging and ChargePoint's products and services in particular.

Demand for EVs may also be affected by factors directly impacting automobile prices or the cost of purchasing and operating automobiles, such as sales and financing incentives, prices of raw materials and parts and components, cost of fuel and governmental regulations, including tariffs, import regulation and other taxes. Further, the automotive industry in general and EV manufacturing have experienced recent substantial supply chain interruptions due in part to COVID-19 and a worldwide semiconductor shortage adversely impacting the automotive industry, resulting in reduced EV production schedules and sales. Volatility in demand or delays in EV production due to global supply chain constraints may lead to lower vehicle unit sales, which may result in reduced demand for EV charging solutions and therefore adversely affect ChargePoint's business, financial condition and operating results.

The EV market currently benefits from the availability of rebates, tax credits and other financial incentives from governments, utilities and others to offset the purchase or operating costs of EVs and EV charging stations. In particular, ChargePoint's marketing efforts have historically promoted federal tax credits available to purchasers of its EV charging stations that effectively provide purchasers with a significantly discounted purchase price. The reduction, modification, or elimination of such benefits could cause reduced demand for EVs and EV charging stations, which would adversely affect ChargePoint's financial results.

The U.S. federal government, foreign governments and some state and local governments provide incentives to end users and purchasers of EVs and EV charging stations in the form of rebates, tax credits and regulations

like clean fuel programs, which can provide other financial incentives. The EV market benefits from these governmental rebates, tax credits and other financial incentives to significantly lower the effective price of EVs and EV charging stations to customers. For example, the Infrastructure Investment and Jobs Act signed into law on November 15, 2021 provided additional funding for EVs and EV charging infrastructure through the creation of new programs and grants and the expansion of existing programs, including \$7.5 billion for EV charging along highway corridors. In addition, the Inflation Reduction Act of 2022 signed into law on August 16, 2022 includes numerous incentives and tax credits aimed at reducing the effects of climate change, such as the extension of EV charging infrastructure tax credits under Section 30C and tax credits for EVs under Section 30D of the Internal Revenue Code of 1986, as amended (the “Code”) through 2032. However, these incentives may expire on a particular date, end when the allocated funding is exhausted, or be reduced or terminated as a matter of regulatory or legislative policy. Any other reduction in rebates, tax credits or other financial incentives for EVs or EV charging stations could materially reduce the demand for EVs and ChargePoint’s solutions and, as a result, may adversely impact ChargePoint’s business and expansion potential.

ChargePoint also derives other revenue as set forth on its consolidated statements of operations from regulatory credits. If government support of these credits declines, ChargePoint’s ability to generate this other revenue in the future would be adversely affected. In years prior to fiscal year 2021, ChargePoint has derived a slight majority of its other revenue from regulatory credits. However, revenue from this source as a percentage of other and total revenue has declined in recent quarters and it may continue to decline over time. Further, the availability of such credits may decline even with general governmental support of the transition to EV infrastructure.

Changes to fuel economy standards or the success of alternative fuels may negatively impact the EV market and thus the demand for ChargePoint’s products and services.

As regulations have required an increase in the mileage capabilities of cars, consumption of renewable transportation fuels, such as ethanol and biodiesel, and the prevalence of other alternative vehicles has been increasing. If fuel efficiency of non-electric vehicles continues to rise, whether as the result of regulations or otherwise, and affordability of vehicles using renewable transportation fuels improves, the demand for electric vehicles could diminish. In addition, the EV fueling model is different than gas or other fuel models, requiring behavior change and education of influencers, consumers and others such as regulatory bodies. Developments in alternative technologies, such as advanced diesel, ethanol, fuel cells or compressed natural gas, or improvements in the fuel economy of the internal combustion engine, may materially and adversely affect demand for EVs and EV charging stations. For example, fuel which is abundant and relatively inexpensive in the United States, such as compressed natural gas, may emerge as a preferred alternative to petroleum-based propulsion. Regulatory bodies may also adopt rules that substantially favor certain alternatives to petroleum-based propulsion over others, which may not necessarily be EVs, or may adopt rules to eliminate, modify or reduce penalties or incentives to maintain minimum fuel economy standards. Any of these changes may impose additional obstacles to the purchase of EVs or the development of a more ubiquitous EV market. If any of the above influence consumers or businesses to no longer purchase EVs or purchase them at a lower rate, it would materially and adversely affect ChargePoint’s business, operating results, financial condition and prospects.

The EV charging market is characterized by rapid technological changes often due to technical improvements, regulatory requirements and customer requirements, which requires ChargePoint to continue to develop new products and product innovations. Any delays in such development could adversely affect market adoption of its products and ChargePoint’s financial results.

Continuing technological changes in battery and other EV technologies could adversely affect adoption of current EV charging technology and/or ChargePoint’s products. ChargePoint’s future success will depend upon its ability to develop and introduce a variety of new capabilities and innovations to its existing product offerings, as well as introduce a variety of new product offerings, to address the changing needs of the EV charging market. As new products are introduced, gross margins tend to decline in the near term and improve as the product becomes more mature with a more efficient manufacturing process.

As EV technologies change or governmental regulations impose new requirements on EV charging technology, ChargePoint may need to upgrade or adapt its charging station technology and introduce new products and services in order to serve vehicles that have the latest technology, in particular battery cell technology, or comply with new governmental regulations, which could involve substantial costs. Even if ChargePoint is able to keep pace with changes in technology and develop new products and services, its research and development expenses could increase, its gross margins could be adversely affected in some periods and its prior products could become obsolete or non-compliant with governmental regulations more quickly than expected. ChargePoint may also incur additional costs and expenses related to new product transitions such as adverse impacts due to supply chain failures to procure sufficient new product components, purchase price variances, or inventory obsolescence costs related to new product transitions, including as the result of any failure on the part of ChargePoint to meet its own estimates and projections. ChargePoint cannot guarantee that any new products will be released in a timely manner, or at all, or achieve market acceptance. Delays in delivering new products that meet customer requirements could damage ChargePoint's relationships with customers and lead them to seek alternative providers. Delays in introducing products and innovations or the failure to offer innovative products or services at competitive prices may cause existing and potential customers to purchase ChargePoint's competitors' products or services. Finally, new or changing state or federal regulations may result in delays related to the development of new products or modifications to existing products in order to come into compliance and any such delays may result in customer's selecting alternative providers or result in delays related to ChargePoint's ability to install, sell or distribute its charging station technology.

If ChargePoint is unable to devote adequate resources to develop products or cannot otherwise successfully develop products or services that meet customer and regulatory requirements on a timely basis or that remain competitive with technological alternatives, its products and services could lose market share, its revenue may decline, it may experience higher operating losses and its business and prospects may be adversely affected.

Certain statements ChargePoint makes about estimates of market opportunity and forecasts of market growth may prove to be inaccurate.

From time to time, ChargePoint makes statements with estimates of the addressable market for ChargePoint's solutions and the EV market in general. Market opportunity estimates and growth forecasts, whether obtained from third-party sources or developed internally, are subject to significant uncertainty and are based on assumptions and estimates that may prove to be inaccurate. This is especially so at the present time due to the uncertainties associated with worldwide supply chain disruptions, macroeconomic effects of inflation, rising interest rates, adverse conditions in the financial services industry and market and geopolitical volatility. The estimates and forecasts relating to the size and expected growth of the target EV market, market demand and adoption, capacity to address this demand and pricing may also prove to be inaccurate. In particular, estimates regarding the current and projected EV market opportunity are difficult to predict. The estimated addressable EV market may not materialize for many years, if ever, and even if the markets meet the size estimates and growth forecasts, ChargePoint's business could fail to grow at similar rates.

Risks Related to ChargePoint's Technology, Intellectual Property and Infrastructure

ChargePoint's business may be adversely affected if it is unable to protect its technology and intellectual property from unauthorized use by third parties.

ChargePoint's success depends, at least in part, on ChargePoint's ability to obtain, maintain, enforce and protect its core technology and intellectual property. To accomplish this, ChargePoint relies on, and plans to continue relying on, a combination of patents, trade secrets (including know-how), employee and third-party nondisclosure agreements, copyright, trademarks, intellectual property licenses and other contractual rights to retain ownership of, and protect, its technology. Despite ChargePoint's efforts to obtain, maintain, enforce and protect intellectual property rights, there can be no assurance that these steps will be available in all cases or will be adequate to prevent ChargePoint's competitors or other third-parties from copying, reverse engineering, or

otherwise obtaining and using its technology or products or seeking court declarations that they do not infringe, misappropriate or otherwise violate its intellectual property. Failure to adequately protect its technology and intellectual property could result in competitors offering similar products, potentially resulting in the loss of some of ChargePoint's competitive advantage and a decrease in revenue which would adversely affect its business, prospects, financial condition and operating results.

The measures ChargePoint takes to protect its technology intellectual property from unauthorized use by others may not be effective for various reasons, including the following:

- any patent applications ChargePoint submits may not result in the issuance of patents;
- the scope of issued patents may not be broad enough to protect its inventions and proprietary rights;
- any issued patents may be challenged by competitors and/or invalidated by courts or governmental authorities;
- ChargePoint may not be the first inventor of the subject matter to which it has filed a particular patent application, and it may not be the first party to file such a patent application;
- Patents have a finite term, and competitors and other third-parties may offer identical or similar products after the expiration of ChargePoint's patents that cover such products;
- the costs associated with enforcing patents, confidentiality and invention agreements or other intellectual property rights may make aggressive enforcement impracticable;
- current and future competitors may circumvent patents or independently develop similar trade secrets or works of authorship, such as software;
- know-how and other proprietary information ChargePoint purports to hold as a trade secret may not qualify as a trade secret under applicable laws;
- ChargePoint's employees, contractors or business partners may breach their confidentiality, non-disclosure, and non-use obligations; and
- proprietary designs and technology embodied in ChargePoint's products may be discoverable by third-parties through means that do not constitute violations of applicable laws.

Patent, trademark, and trade secret laws vary significantly throughout the world. Some foreign countries do not protect intellectual property rights to the same extent as do the laws of the United States. Further, policing the unauthorized use of ChargePoint's intellectual property in foreign jurisdictions may be difficult or impossible. Therefore, ChargePoint's intellectual property rights may not be as strong or as easily enforced outside of the United States.

Certain patents in the EV space may come to be considered "standards essential." If this is the case with respect to any of ChargePoint's patents, it may be required to license certain technology on "fair, reasonable and non-discriminatory" terms, decreasing revenue. Further, competitors, vendors, or customers may, in certain instances, be free to create variations or derivative works of ChargePoint technology and intellectual property, and those derivative works may become directly competitive with ChargePoint's offerings. Finally, ChargePoint may not be able to leverage, or obtain ownership of, all technology and intellectual property developed by ChargePoint's vendors in connection with design and manufacture of ChargePoint's products, thereby jeopardizing ChargePoint's ability to obtain a competitive advantage over its competitors.

It is ChargePoint's policy to enter into confidentiality and invention assignment agreements with its employees and contractors that have developed material intellectual property for ChargePoint, but these agreements may not be self-executing and may not otherwise adequately protect ChargePoint's intellectual property, particularly with respect to conflicts of ownership relating to work product generated by employees and contractors. Furthermore, ChargePoint cannot be certain that these agreements will not be breached, and that

third-parties will not gain access to its trade secrets, know-how and other proprietary technology. Third-parties may also independently develop the same or substantially similar proprietary technology. Monitoring unauthorized use of ChargePoint's intellectual property is difficult and costly, as are the steps ChargePoint has taken or will take to prevent misappropriation.

To prevent unauthorized use of ChargePoint's intellectual property, it may be necessary to prosecute actions for infringement, misappropriation or other violation of ChargePoint's intellectual property against third-parties. Any such action could result in significant costs and diversion of ChargePoint's resources and management's attention, and there can be no assurance that ChargePoint will be successful in any such action. Furthermore, many of ChargePoint's current and potential competitors have the ability to dedicate substantially greater resources to enforce their intellectual property rights than ChargePoint does. Accordingly, ChargePoint may not be able to prevent third-parties from infringing, misappropriating or otherwise violating its intellectual property. Any of the foregoing may adversely affect ChargePoint's revenues or results of operations.

ChargePoint expects to incur research and development costs and devote significant resources to developing new products, which could significantly reduce its profitability and may never result in revenue to ChargePoint.

ChargePoint's future growth depends on penetrating new markets, adapting existing products to new applications and customer requirements, and introducing new products that achieve market acceptance. ChargePoint plans to incur significant research and development costs in the future as part of its efforts to design, develop, manufacture and introduce new products and enhance existing products. ChargePoint's research and development expenses were \$195.0 million, \$145.0 million, and \$75.0 million during the fiscal years ended January 31, 2023, 2022 and 2021, respectively, and are likely to grow in the future. Further, ChargePoint's research and development program may not produce successful results, and its new products may not achieve market acceptance, create additional revenue or become profitable.

ChargePoint may need to defend against intellectual property infringement or misappropriation claims, which may be time-consuming and expensive.

From time to time, the holders of intellectual property rights may assert their rights and urge ChargePoint to enter into licenses, and/or may bring suits alleging infringement, misappropriation or other violation of such rights. There can be no assurance that ChargePoint will be able to mitigate the risk of potential suits or other legal demands by competitors or other third-parties. Accordingly, ChargePoint may consider entering into licensing agreements with respect to such rights, although no assurance can be given that such licenses can be obtained on acceptable terms or that litigation will not occur, and such licenses and associated litigation could significantly increase ChargePoint's operating expenses. In addition, if ChargePoint is determined to have or believes there is a high likelihood that it has infringed upon, misappropriated or otherwise violated a third-party's intellectual property rights, it may be required to cease making, selling or incorporating certain key components or intellectual property into the products and services it offers, to pay substantial damages and/or royalties, to redesign its products and services, and/or to establish and maintain alternative branding. In addition, to the extent that ChargePoint's customers and business partners become the subject of any allegation or claim regarding the infringement, misappropriation or other violation of intellectual property rights related to ChargePoint's products and services, ChargePoint may be required to indemnify such customers and business partners. If ChargePoint were required to take one or more such actions, its business, prospects, operating results and financial condition could be materially and adversely affected. In addition, any litigation or claims, whether or not valid, could result in substantial costs, negative publicity and diversion of resources and management attention.

The current lack of international standards may lead to uncertainty, additional competition and further unexpected costs.

Lack of industry standards for EV station management, coupled with utilities and other large organizations mandating their own adoption of specifications that have not become widely adopted in the industry, may hinder innovation or slow new product or new feature introduction.

In addition, automobile manufacturers may choose to utilize their own proprietary systems, which could lock out competition for EV charging stations, or to use their size and market position to influence the market, which could limit ChargePoint's market and reach to customers, negatively impacting its business.

Further, should regulatory bodies later impose a standard that is not compatible with ChargePoint's infrastructure, it may incur significant costs to adapt its business model to the new regulatory standard, which may require significant time and, as a result, may have a material and adverse effect on its revenue or results of operations.

ChargePoint's technology could have undetected defects, errors or bugs in hardware or software which could reduce market adoption, damage its reputation with current or prospective customers, and/or expose it to product liability and other claims that could materially and adversely affect its business.

ChargePoint may be subject to claims that charging stations have malfunctioned and persons were injured or purported to be injured. Any insurance that ChargePoint carries may not be sufficient or it may not apply to all situations. Similarly, to the extent that such malfunctions are related to components obtained from third-party vendors, such vendors may not assume responsibility for such malfunctions. In addition, ChargePoint's customers could be subjected to claims as a result of such incidents and may bring legal claims against ChargePoint to attempt to hold it liable. Any of these events could adversely affect ChargePoint's brand, relationships with customers, operating results or financial condition.

Furthermore, ChargePoint's software platform is complex, developed for over a decade by many developers, and includes a number of licensed third-party commercial and open-source software libraries. ChargePoint's software has contained defects and errors and may in the future contain undetected defects or errors. ChargePoint is continuing to evolve the features and functionality of its platform through updates and enhancements, and as it does, it may introduce additional defects or errors that may not be detected until after deployment to customers. In addition, if ChargePoint's products and services, including any updates or patches, are not implemented or used correctly or as intended, inadequate performance and disruptions in service may result.

Any defects or errors in product or services offerings, or the perception of such defects or errors, or other performance problems could result in any of the following, each of which could adversely affect ChargePoint's business and results of its operations:

- expenditure of significant financial and product development resources, including recalls, in efforts to analyze, correct, eliminate or work around errors or defects;
- loss of existing or potential customers or partners;
- interruptions or delays in sales;
- delayed or lost revenue;
- delay or failure to attain market acceptance;
- delay in the development or release of new functionality or improvements;
- negative publicity and reputational harm;
- sales credits or refunds;

- exposure of confidential or proprietary information;
- diversion of development and customer service resources;
- breach of warranty claims;
- legal claims under applicable laws, rules and regulations; and
- an increase in collection cycles for accounts receivable or the expense and risk of litigation.

Although ChargePoint has contractual protections, such as warranty disclaimers and limitation of liability provisions, in many of its agreements with customers, resellers and other business partners, such protections may not be uniformly implemented in all contracts and, where implemented, may not fully or effectively protect it from claims by customers, resellers, business partners or other third-parties. Any insurance coverage or indemnification obligations of suppliers may not adequately cover all such claims or cover only a portion of such claims. A successful product liability, warranty, or other similar claim could have an adverse effect on ChargePoint's business, operating results and financial condition. In addition, even claims that ultimately are unsuccessful could result in expenditure of funds in litigation, divert management's time and other resources and cause reputational harm.

Some of ChargePoint's products contain open-source software, which may pose particular risks to its proprietary software, products and services in a manner that could harm its business.

ChargePoint uses open-source software in its products and anticipates using open-source software in the future. Some open-source software licenses require those who distribute open-source software as part of their own software product to publicly disclose all or part of the source code to such software product or to make available any derivative works of the open-source code on unfavorable terms or at no cost, and ChargePoint may be subject to such terms. The terms of many open-source licenses have not been interpreted by U.S. or foreign courts, and there is a risk that open source software licenses could be construed in a manner that imposes unanticipated conditions or restrictions on ChargePoint's ability to provide or distribute ChargePoint's products or services.

In addition, ChargePoint relies on some open-source software and libraries issued under the General Public License (or similar "copyleft" licenses) for development of its products and may continue to rely on similar copyleft licenses. Third-parties may assert a copyright claim against ChargePoint regarding its use of such software or libraries, which could lead to a limitation of ChargePoint's use of such software or libraries. Use of such software or libraries may also force ChargePoint to provide third-parties, at no cost, the source code to its proprietary software, which may decrease revenue and lessen any competitive advantage ChargePoint has due to the secrecy of its source code.

ChargePoint could face claims from third-parties claiming ownership of, or demanding release of, the open-source software or derivative works that ChargePoint developed using such software, which could include ChargePoint's proprietary source code, or otherwise seeking to enforce the terms of the applicable open-source license. These claims could result in litigation and could require ChargePoint to make its software source code freely available, purchase a costly license or cease offering the implicated products or services unless and until ChargePoint can re-engineer them to avoid infringement, which may be a costly and time-consuming process, and ChargePoint may not be able to complete the re-engineering process successfully.

Additionally, the use of certain open-source software can lead to greater risks than use of third-party commercial software, as open-source licensors generally do not provide warranties or controls on the origin of software. There is typically no support available for open-source software, and ChargePoint cannot ensure that the authors of such open-source software will implement or push updates to address security risks or will not abandon further development and maintenance. Many of the risks associated with the use of open-source software, such as the lack of warranties or assurances of title or performance, cannot be eliminated, and could, if not properly addressed, have an adverse effect on ChargePoint's business and results.

Interruptions, delays in service or inability to increase capacity, including internationally, at third-party data center facilities could impair the use or functionality of ChargePoint's subscription services, harm its business and subject it to liability.

ChargePoint currently serves customers from third-party data center facilities operated by Amazon Web Services ("AWS") located in the United States, Europe and Canada. Any outage or failure of such data centers could negatively affect ChargePoint's product connectivity and performance. ChargePoint's primary environments are behind the Content Delivery Network operated by Cloudflare, Inc. ("Cloudflare"), and any interruptions of Cloudflare's services could negatively affect ChargePoint's product connectivity and performance. Furthermore, ChargePoint depends on connectivity from its charging stations to its data centers through cellular service providers, such as Verizon. Any incident affecting a data center facility's or a cellular service provider's infrastructure or operations, whether caused by fire, flood, severe storm, earthquake, or other natural disasters, power loss, telecommunications failures, breach of security protocols, computer viruses and disabling devices, failure of access control mechanisms, war, criminal act, military actions, terrorist attacks and other similar events could negatively affect the use, functionality or availability of ChargePoint's services.

Any damage to, or failure of, ChargePoint's systems, or those of its third-party providers, could interrupt or hinder the use or functionality of its services. Impairment of or interruptions in ChargePoint's services may reduce revenue, subject it to claims and litigation, cause customers to terminate their subscriptions, and adversely affect renewal rates and its ability to attract new customers. ChargePoint's business will also be harmed if customers and potential customers believe its products and services are unreliable.

Customer-Related Risks

ChargePoint may be unable to leverage customer data in all geographic locations, and this limitation may impact research and development operations.

ChargePoint relies on data collected through charging stations or its mobile application, including usage data and geolocation data. ChargePoint uses this data in connection with the research, development and analysis of its technologies. ChargePoint's inability to obtain necessary rights to use this data or freely transfer this data out of, for example, the European Economic Area, could result in delays or otherwise negatively impact ChargePoint's research and development efforts.

ChargePoint's ability to maintain customer satisfaction depends in part on the quality of ChargePoint's customer support. Failure to maintain high-quality customer support could adversely affect ChargePoint's reputation, business, results of operation, and financial condition.

ChargePoint believes that the successful use of its EV charging stations and Cloud Services requires a high level of support and engagement for many of its customers, particularly its fleet and commercial customers. In order to deliver appropriate customer support and engagement, ChargePoint must successfully assist its customers in deploying and continuing to use ChargePoint's Cloud Services tools and EV charging stations, resolving performance issues, addressing interoperability challenges with a customers' existing information technology or fuel management platforms and responding to EV charging station component failures or replacement parts, as well as charging station performance and reliability issues that may arise from time to time.

ChargePoint provides support to its commercial, fleet and residential EV charging station owners and operators. Such support services are generally provided under its Assure warranty program, including proactive charging station monitoring, guaranteed service response times and labor and parts warranties. ChargePoint further provides support for EV drivers connecting to and utilizing ChargePoint's Cloud Services and its network of EV charging stations, including customer support services and mobile services. ChargePoint's support organization faces additional challenges associated with its international operations, including those associated with delivering support, training, and documentation in languages other than English. Failure to maintain high-quality customer support could adversely affect ChargePoint's reputation, business, results of operations, and financial condition.

In addition to providing direct customer support, ChargePoint also relies on channel partners in order to provide frontline support to some of its customers, including with respect to commissioning, maintenance, component part replacements and repairs of charging stations. If ChargePoint's channel partners do not provide support to the satisfaction of ChargePoint's customers, ChargePoint may be required to hire additional personnel and to invest in additional resources in order to provide an adequate level of support, generally at a higher cost than that associated with its channel partners, which may increase ChargePoint's costs and expenses and adversely affect ChargePoint's gross margins. There can be no assurance that ChargePoint will be able to hire sufficient support personnel as and when needed. To the extent that ChargePoint is unsuccessful in hiring, training, and retaining adequate support personnel, its ability to provide high-quality and timely support to its customers will be negatively impacted and its customers' satisfaction with its Cloud Services and EV charging stations could be adversely affected. Any failure to maintain high-quality customer support, or a market perception that ChargePoint does not maintain high-quality customer support, could adversely affect ChargePoint's reputation, business, results of operations, and financial condition, particularly with respect to its fleet customers (see also "Risks Related to ChargePoint's Business—Supply chain disruptions, component shortages, manufacturing interruptions or delays, or the failure to accurately forecast customer demand, could adversely affect ChargePoint's ability to meet customer demand, lead to higher costs, and adversely affect ChargePoint's business and results of operations. For example, supply chain challenges related to the COVID-19 pandemic, Russia's invasion of Ukraine and global chip shortages have impacted companies worldwide and may have adverse effects on ChargePoint's suppliers and customers and, as a result, ChargePoint").

ChargePoint's business will depend on customers renewing their services subscriptions. If customers do not continue to use its subscription offerings or if they fail to add more stations, its business and operating results will be adversely affected.

In addition to selling charging station hardware, ChargePoint also depends on customers continuing to subscribe to its EV charging services and extended warranty coverages. Therefore, it is important that customers renew their subscriptions when the contract term expires and add additional charging stations and services to their subscriptions. Customers may decide not to renew their subscriptions with a similar contract period, at the same prices or terms or with the same or a greater number of users, stations or level of functionality. Customer retention may decline or fluctuate as a result of a number of factors, including satisfaction with software and features, functionality of the charging stations, prices, features and pricing of competing products, reductions in spending levels, mergers and acquisitions involving customers and deteriorating general economic conditions.

If customers do not renew their subscriptions, if they renew on terms less favorable to ChargePoint or if they fail to add products or services, ChargePoint's business and operating results will be adversely affected.

Changes in subscriptions or pricing models may not be reflected in near-term operating results.

ChargePoint generally recognizes subscriptions revenue from customers ratably over the terms of their contracts. As a result, most of the subscriptions revenue reported in each quarter is derived from the recognition of deferred revenue relating to subscriptions entered into during previous quarters. Consequently, a decline in new or renewed subscriptions in any single quarter will likely have only a small impact on revenue for that quarter. However, such a decline will negatively affect revenue in future quarters. In addition, the severity and duration of events may not be predictable, and their effects could extend beyond a single quarter. Accordingly, the effect of significant downturns in sales and market acceptance of subscription services, and potential changes in pricing policies or rate of renewals, may not be fully apparent until future periods.

Financial, Tax and Accounting-Related Risks

ChargePoint has identified, and has previously identified, material weaknesses in its internal control over financial reporting. If ChargePoint is unable to remediate these material weaknesses, or if ChargePoint identifies additional material weaknesses in the future or otherwise fails to maintain an effective system of internal control over financial reporting, this may result in material misstatements contained within ChargePoint's consolidated financial statements or cause ChargePoint to fail to meet its periodic reporting obligations.

As a public company, ChargePoint is required to provide management's attestation on internal controls pursuant to Section 404 of Sarbanes-Oxley. The standards required for a public company under Section 404(a) and Section 404(b) of Sarbanes-Oxley are significantly more stringent than those previously required of ChargePoint as a privately-held company. Management may not be able to effectively and timely implement controls and procedures that adequately respond to the increased regulatory compliance and reporting requirements of Section 404(a) and/or Section 404(b) of Sarbanes-Oxley. If ChargePoint is not able to implement these additional requirements in a timely manner or with adequate compliance, it may not be able to assess whether its internal control over financial reporting is effective, which may subject it to adverse regulatory consequences and could harm investor confidence.

In connection with the preparation and audit of ChargePoint's consolidated financial statements, material weaknesses were identified in its internal control over financial reporting as of January 31, 2023. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of ChargePoint's annual or interim financial statements will not be prevented or detected on a timely basis.

ChargePoint did not design and maintain effective controls over certain information technology ("IT") general controls for information systems that are relevant to the preparation of its consolidated financial statements. Specifically, ChargePoint did not design and maintain (a) program change management controls to ensure that IT program and data changes affecting financial IT applications and underlying accounting records are identified, tested, authorized and implemented appropriately, (b) user access controls to ensure appropriate segregation of duties and that adequately restrict user and privileged access to its financial applications and data to appropriate company personnel and (c) testing and approval controls for program development to ensure that new software development is aligned with business and IT requirements. The IT deficiencies did not result in any misstatements to the consolidated financial statements, however, the deficiencies, when aggregated, could impact maintaining effective segregation of duties, as well as the effectiveness of IT-dependent controls (such as automated controls that address the risk of material misstatement to one or more assertions, along with the IT controls and underlying data that support the effectiveness of system-generated data and reports) that could result in misstatements potentially impacting all financial statement accounts and disclosures that would not be prevented or detected. Accordingly, ChargePoint management has determined these deficiencies in the aggregate constitute a material weakness. In addition, ChargePoint separately did not design and maintain effective controls over segregation of duties.

ChargePoint has continued implementation of a plan to remediate these material weaknesses and remediation efforts could continue beyond the fiscal year ending January 31, 2024. These remediation measures are ongoing and include engaging an external advisor to assist with evaluating and documenting the design and operating effectiveness of IT general controls and assisting with the remediation of deficiencies, as necessary, designing and implementing controls over segregation of duties, and designing and implementing IT general controls, including controls over program change management, the provisioning and monitoring of user access rights and privileges and program development processes and procedures. At this time, ChargePoint cannot provide an estimate of costs expected to be incurred in connection with implementing this remediation plan, however, these remediation measures will be time consuming, will result in ChargePoint incurring significant costs, and will place significant demands on its financial and operational resources. In order to maintain and improve the effectiveness of its internal control over financial reporting, ChargePoint has expended, and will

continue to expend, significant resources, including accounting-related costs and significant management oversight.

In addition, as previously disclosed in ChargePoint's Annual Report on Form 10-K for the year ended January 31, 2022, management concluded the following material weaknesses existed in ChargePoint's internal control over financial reporting: ChargePoint did not design and maintain an effective control environment commensurate with its financial reporting requirements, specifically, ChargePoint did not maintain a sufficient complement of personnel with an appropriate degree of accounting knowledge, experience and training to appropriately analyze, record and disclose accounting matters commensurate with its accounting and reporting requirements; ChargePoint did not design and maintain formal accounting policies, procedures and controls over significant accounts and disclosures to achieve complete, accurate and timely financial accounting, reporting and disclosures, including accounting for complex features associated with warrants, and adequate controls related to the preparation and review of journal entries; and ChargePoint did not design and maintain effective controls related to the valuation of acquired intangible assets, specifically controls over the review of the inputs and assumptions used in the valuation of the acquired assets.

The material weakness related to formal accounting policies, procedures and controls resulted in adjustments to several accounts and disclosures related to the Legacy ChargePoint consolidated financial statements for the years ended January 31, 2021, 2020 and 2019. The material weakness related to the accounting for complex features associated with warrants resulted in the restatement of the previously issued financial statements of the entity acquired as part of the Merger Agreement related to warrant liabilities and equity. The material weakness related to the valuation of acquired intangible assets resulted in material adjustments to customer relationships and goodwill and related disclosures in ChargePoint's consolidated financial statements for the year ended January 31, 2022. In connection with the fiscal year ended January 31, 2023, ChargePoint's management has completed its documentation, testing and evaluation of newly designed and enhanced control activities related to formal accounting policies, procedures and controls, related to accounting for complex features associated with warrants, and related to the valuation of acquired intangible assets and determined that, as of January 31, 2023, these control activities have been appropriately designed and implemented, and have operated effectively for a sufficient period of time to conclude that these previously identified material weaknesses have been remediated.

The process of designing and implementing an effective financial reporting system is a continuous effort that requires ChargePoint to anticipate and react to changes in its business, to economic and regulatory environments and to expend significant resources to maintain a financial reporting system that satisfies its reporting obligations. ChargePoint may be unable to meet the reporting demands as a public company, including the requirements of the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley"), and may be unable to accurately report its financial results, or report them within the timeframes required by law or stock exchange regulations. Failure to comply with Sarbanes-Oxley, when and as applicable, could also potentially subject ChargePoint to sanctions or investigations by the SEC or other regulatory authorities. Any failure to maintain or implement required new or improved controls, or any difficulties ChargePoint encounters in their implementation, could result in additional material weaknesses, cause ChargePoint to fail to meet its reporting obligations or result in material misstatements in its financial statements. Furthermore, if ChargePoint cannot provide reliable financial reports or prevent material misstatements due to fraud or error, its business and results of operations could be harmed, and investors could lose confidence in its reported financial information. ChargePoint can give no assurance that any additional material weaknesses or restatements of financial results will not arise in the future due to a failure to implement and maintain adequate internal control over financial reporting or any circumvention of these controls. In addition, even if ChargePoint is successful in strengthening its internal controls and procedures, in the future those internal controls and procedures may not be adequate to prevent or sufficiently identify irregularities or errors or to facilitate the fair presentation of ChargePoint's financial statements.

ChargePoint's financial condition and results of operations are likely to fluctuate on a quarterly basis in future periods, which could cause its results for a particular period to fall below expectations, resulting in a decline in the price of its Common Stock.

ChargePoint's financial condition and results of operations have fluctuated in the past and may continue to fluctuate in the future due to a variety of factors, many of which are beyond its control.

In addition to the other risks described herein, the following factors could also cause ChargePoint's financial condition and results of operations to fluctuate on a quarterly basis:

- the timing and volume of new sales;
- fluctuations in service costs, particularly due to unexpected costs of servicing and maintaining charging stations;
- the timing of new product introductions, which can initially have lower gross margins, and inventory obsolescence costs related to new product transitions;
- the introduction of new products by competitors, changes in pricing or other factors impacting competition;
- weaker than anticipated demand for charging stations, whether due to changes in government incentives and policies or due to other conditions such as decrease in demand or overall economic conditions;
- fluctuations in sales and marketing or research and development expenses;
- supply chain interruptions, volatility in raw material prices and manufacturing or delivery delays;
- the timing and availability of new products relative to customers' and investors' expectations;
- the length of the sales and installation cycle for a particular customer;
- disruptions in sales, production, service or other business activities or ChargePoint's inability to attract and retain qualified personnel; and
- unanticipated changes in federal, state, local or foreign government incentive programs, which can affect demand for EVs.

Fluctuations in operating results and cash flow could, among other things, give rise to short-term liquidity issues. In addition, revenue, and other operating results in future quarters may fall short of the expectations of investors and financial analysts, which could have an adverse effect on the price of the Common Stock.

Changes to applicable U.S. tax laws and regulations or exposure to additional income tax liabilities could affect ChargePoint's business and future profitability.

ChargePoint is a U.S. corporation and thus subject to U.S. corporate income tax on its worldwide operations. Moreover, the majority of ChargePoint's operations and customers are located in the United States, and as a result, ChargePoint is subject to various U.S. federal, state and local taxes. New U.S. laws and policy relating to taxes may have an adverse effect on ChargePoint's business and future profitability. Further, existing U.S. tax laws, statutes, rules, regulations or ordinances could be interpreted, changed, modified or applied adversely to ChargePoint.

For example, on December 22, 2017, the Tax Cuts and Jobs Act of 2017 ("Tax Act"), was signed into law making significant changes to the Code, and certain provisions of the Tax Act may adversely affect ChargePoint. In particular, sweeping changes were made to the U.S. taxation of foreign operations. Changes include, but are not limited to, a permanent reduction to the corporate income tax rate, limiting interest deductions, a reduction to the maximum deduction allowed for net operating losses generated in tax years after December 31, 2017, the

elimination of carrybacks of net operating losses, adopting elements of a territorial tax system, assessing a repatriation tax or “toll-charge” on undistributed earnings and profits of U.S.-owned foreign corporations, and introducing certain anti-base erosion provisions, including a new minimum tax on global intangible low-taxed income and base erosion and anti-abuse tax. The Tax Act could be subject to potential amendments and technical corrections, and is subject to interpretations and implementing regulations by the U.S. Treasury and Internal Revenue Service (“IRS”), any of which could mitigate or increase certain adverse effects of the legislation. For example, the Coronavirus Aid, Relief and Economic Security Act (the “CARES Act”) modified certain provisions of the Tax Act.

In addition, the Tax Act may impact taxation in non-federal jurisdictions, including with respect to state income taxes as state legislatures respond to the Tax Act, the CARES Act or any newly enacted federal tax legislation. Additionally, other foreign governing bodies have and may enact changes to their tax laws in reaction to the Tax Act, the CARES Act or any newly enacted federal tax legislation that could result in changes to ChargePoint’s global tax position and adversely affect its business and future profitability.

As a result of ChargePoint’s plans to expand operations, including to jurisdictions in which the tax laws may not be favorable, ChargePoint’s tax rate may fluctuate, ChargePoint’s tax obligations may become significantly more complex and subject to greater risk of examination by taxing authorities or ChargePoint may be subject to future changes in tax law, the impacts of which could adversely affect ChargePoint’s after-tax profitability and financial results.

Because ChargePoint does not have a long history of operating at its present scale and it has significant expansion plans, ChargePoint’s effective tax rate may fluctuate in the future. Future effective tax rates could be affected by operating losses in jurisdictions where no tax benefit can be recorded under U.S. generally accepted accounting principles (“U.S. GAAP”), changes in the composition of earnings in countries with differing tax rates, changes in deferred tax assets and liabilities, or changes in tax laws. Factors that could materially affect ChargePoint’s future effective tax rates include, but are not limited to: (a) changes in tax laws or the regulatory environment, (b) changes in accounting and tax standards or practices, (c) changes in the composition of operating income by tax jurisdiction and (d) ChargePoint’s operating results before taxes.

Additionally, ChargePoint’s operations are subject to significant income, withholding and other tax obligations in the United States and may become subject to taxes in numerous additional state, local and non-U.S. jurisdictions with respect to its income, operations and subsidiaries related to those jurisdictions. ChargePoint’s after-tax profitability and financial results could be subject to volatility or be affected by numerous factors, including (a) the availability of tax deductions, credits, exemptions, refunds (including refunds of value added taxes) and other benefits to reduce ChargePoint’s tax liabilities, (b) changes in the valuation of ChargePoint’s deferred tax assets and liabilities, (c) expected timing and amount of the release of any tax valuation allowances, (d) tax treatment of stock-based compensation, (e) changes in the relative amount of ChargePoint’s earnings subject to tax in the various jurisdictions in which ChargePoint operates or has subsidiaries, (f) the potential expansion of ChargePoint’s business into or otherwise becoming subject to tax in additional jurisdictions, (g) changes to ChargePoint’s existing intercompany structure (and any costs related thereto) and business operations, (h) the extent of ChargePoint’s intercompany transactions and the extent to which taxing authorities in the relevant jurisdictions respect those intercompany transactions and (i) ChargePoint’s ability to structure ChargePoint’s operations in an efficient and competitive manner. Due to the complexity of multinational tax obligations and filings, ChargePoint may have a heightened risk related to audits or examinations by U.S. federal, state, local and non-U.S. taxing authorities. Outcomes from these audits or examinations could have an adverse effect on ChargePoint’s after-tax profitability and financial condition. Additionally, the IRS and several foreign tax authorities have increasingly focused attention on intercompany transfer pricing with respect to sales of products and services and the use of intangibles. Tax authorities could disagree with ChargePoint’s intercompany charges, cross-jurisdictional transfer pricing or other matters and assess additional taxes. If ChargePoint does not prevail in any such disagreements, its profitability may be affected.

ChargePoint's after-tax profitability and financial results may also be adversely impacted by changes in the relevant tax laws and tax rates, treaties, regulations, administrative practices and principles, judicial decisions and interpretations thereof, in each case, possibly with retroactive effect. For example, the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting recently entered into force among the jurisdictions that have ratified it, although the United States has not yet entered into this convention. These recent changes could negatively impact ChargePoint's taxation, especially as ChargePoint expands its relationships and operations internationally.

The ability of ChargePoint to utilize net operating loss and tax credit carryforwards is conditioned upon ChargePoint attaining profitability and generating taxable income. ChargePoint has incurred significant net losses since inception and it is anticipated that ChargePoint will continue to incur significant losses. Additionally, ChargePoint's ability to utilize net operating loss and tax credit carryforwards to offset future taxable income may be limited.

As of January 31, 2023, ChargePoint had \$793.1 million of U.S. federal and \$371.1 million of California net operating loss carryforwards available to reduce future taxable income, of which \$604.3 million of the U.S. federal net operating loss carryforwards can be carried forward indefinitely. The remaining \$188.8 million of U.S. federal net operating loss carryforwards begin to expire in 2028 and the California state net operating loss carryforwards begin to expire in 2029. In addition, ChargePoint had net operating loss carryforwards for other states of \$313.8 million, which begin to expire in 2023. The Tax Act included a reduction to the maximum deduction allowed for net operating losses generated in tax years after December 31, 2017 and the elimination of carrybacks of net operating losses. It is possible that ChargePoint will not generate taxable income in time to utilize these net operating loss carryforwards.

In addition, net operating loss carryforwards and certain tax credits may be subject to significant limitations under Section 382 and Section 383 of the Code, respectively, and similar provisions of state law. Under those sections of the Code, if a corporation undergoes an "ownership change," the corporation's ability to use its pre-change net operating loss carryforwards and other pre-change attributes, such as research tax credits, to offset its post-change income or tax may be limited. In general, an "ownership change" will occur if there is a cumulative change in ownership by "5% stockholders" that exceeds 50 percentage points over a rolling three-year period. ChargePoint has experienced ownership changes since its incorporation and is already subject to limitations on its ability to utilize its existing net operating loss carryforwards and other tax attributes to offset taxable income or tax liability. In addition, changes in the ownership of its Common Stock during its fiscal year ended January 31, 2023 and future changes in ChargePoint's stock ownership, which are outside of ChargePoint's control, may trigger further ownership changes. Similar provisions of state tax law may also apply to limit ChargePoint's use of accumulated state tax attributes. As a result, even if ChargePoint earns net taxable income in the future, its ability to use its net operating loss carryforwards and other tax attributes accrued prior to these changes in ownership to offset such taxable income or tax liability may be subject to limitations, which could potentially result in increased future income tax liability to ChargePoint.

ChargePoint performed an analysis to assess whether an "ownership change," as defined by Section 382 of the Code, has occurred from its inception through January 31, 2022. Based on this analysis, ChargePoint has experienced "ownership changes," limiting the utilization of the net operating loss carryforwards or research and development tax credit carryforwards under Section 382 of the Code by first multiplying the value of the ChargePoint's stock at the time of the ownership change by the applicable long-term tax-exempt rate, and then applying additional adjustments, as required. As a result of the ownership changes, approximately \$17.1 million of Federal net operating loss carryforwards, \$17.9 million of California net operating loss carryforwards, and \$4.7 million of federal tax credits were determined to have expired unutilized for income tax purposes. ChargePoint's net operating losses or credits may also be impaired under state law. Accordingly, ChargePoint may not be able to utilize a material portion of the net operating losses or credits. The ability of ChargePoint to utilize its net operating losses or credits is conditioned upon ChargePoint attaining profitability and generating U.S. federal and state taxable income. ChargePoint has incurred significant net losses since inception and will

continue to incur significant losses; and therefore, ChargePoint does not know whether or when the combined carryforwards may be or may become subject to limitation by Sections 382 and 383 of the Code.

ChargePoint's reported financial results may be negatively impacted by changes in U.S. GAAP.

U.S. GAAP is subject to interpretation by the Financial Accounting Standards Board's Accounting Standards Codification, the SEC and various bodies formed to promulgate and interpret appropriate accounting principles. A change in these principles or interpretations could have a significant effect on reported financial results, and may even affect the reporting of transactions completed before the announcement or effectiveness of a change.

ChargePoint incurs significant increased expenses and administrative burdens as a public company, which could have an adverse effect on its business, financial condition and results of operations.

ChargePoint faces increased legal, accounting, administrative and other costs and expenses as a public company that it did not incur as a private company. Sarbanes-Oxley, including the requirements of Section 404, as well as rules and regulations subsequently implemented by the SEC, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act") and the rules and regulations promulgated and to be promulgated thereunder, the Public Company Accounting Oversight Board and the securities exchanges, impose additional reporting and other obligations on public companies. Compliance with public company requirements increases costs and make certain activities more time-consuming. A number of those requirements require ChargePoint to carry out activities it has not done previously and additional expenses associated with SEC reporting requirements will continue to be incurred. Furthermore, if any issues in complying with those requirements are identified, such as the material weaknesses as described in this Annual Report and the restatement of ChargePoint's previously issued consolidated financial statements and related material weakness as described in this Risk Factors section, ChargePoint may be subject to additional costs and expenses to come into compliance (see also "Financial, Tax and Accounting-Related Risks—ChargePoint has identified, and has previously identified, material weaknesses in its internal control over financial reporting. If ChargePoint is unable to remediate these material weaknesses, or if ChargePoint identifies additional material weaknesses in the future or otherwise fails to maintain an effective system of internal control over financial reporting, this may result in material misstatements contained within ChargePoint's consolidated financial statements or cause ChargePoint to fail to meet its periodic reporting obligations," and "Risks Related to Legal Matters and Regulations—ChargePoint may face litigation and other risks as a result of the material weaknesses in its internal control over financial reporting and the restatement of its financial statements," for more detail). ChargePoint has incurred and could incur additional costs to rectify those or new issues, and the existence of these issues could adversely affect its reputation or investor perceptions. In addition, as a public company, ChargePoint maintains director and officer liability insurance, for which it must pay substantial premiums. The additional reporting and other obligations imposed by rules and regulations applicable to public companies increase legal and financial compliance costs and the costs of related legal, accounting and administrative activities. Advocacy efforts by stockholders and third-parties may also prompt additional changes in governance and reporting requirements, which could further increase costs.

Risks Related to Legal Matters and Regulations

Privacy concerns and laws, or other domestic or foreign regulations, may adversely affect ChargePoint's business.

ChargePoint relies on data collected through charging stations or its mobile application, including usage data and geolocation data. ChargePoint uses this data in connection with providing its services and the research, development and analysis of its technologies. Accordingly, ChargePoint may be subject to or affected by a number of federal, state, local and international laws and regulations, as well as contractual obligations and industry standards, that impose certain obligations and restrictions with respect to data privacy and security and

govern its collection, storage, retention, protection, use, processing, transmission, sharing and disclosure of personal information including that of ChargePoint's employees, customers, drivers and other third-parties with whom ChargePoint conducts business. National and local governments and agencies in the countries in which ChargePoint operates and in which its customers operate have adopted, are considering adopting, or may adopt laws and regulations regarding the collection, use, storage, processing and disclosure of information regarding consumers and other individuals, which could impact ChargePoint's ability to offer services in certain jurisdictions. Laws and regulations relating to the collection, use, storage, disclosure, security and other processing of individuals' information can vary significantly from jurisdiction to jurisdiction and are particularly stringent in Europe. The costs of compliance with, and other burdens imposed by, laws, regulations, standards and other obligations relating to privacy, data protection and information security are significant. In addition, some companies, particularly larger enterprises, often will not contract with vendors that do not meet these rigorous standards. Accordingly, the failure, or perceived inability, to comply with these laws, regulations, standards and other obligations may limit the use and adoption of ChargePoint's solutions, reduce overall demand, lead to regulatory investigations, litigation and significant fines, penalties, injunctions or liabilities for actual or alleged noncompliance, or slow the pace at which it closes sales or other transactions, any of which could harm its business. Moreover, if ChargePoint or any of its employees, contractors or vendors fail or are believed to fail to adhere to appropriate practices regarding customers' or employees' data, it may damage its reputation and brand.

Additionally, existing laws, regulations, standards and other obligations may be interpreted in new and differing manners in the future, and may be inconsistent among jurisdictions. Future laws, regulations, standards and other obligations, and changes in the interpretation of existing laws, regulations, standards and other obligations could result in increased regulation, increased costs of compliance and penalties for non-compliance, and limitations on data collection, use, disclosure and transfer for ChargePoint and its customers.

Additionally, the EU adopted the GDPR in 2016, and it became effective in May 2018. The GDPR governs the countries of the European Economic Area and other countries such as Switzerland. The United Kingdom has adopted the UK GDPR which is regulation similar to the GDPR. The GDPR establishes requirements applicable to the handling of personal data and imposes penalties for non-compliance of up to the greater of €20 million or 4% of worldwide revenue. The costs of compliance with, and other burdens imposed by, the GDPR and UK GDPR may limit the use and adoption of ChargePoint's products and services and could have an adverse impact on its business. In addition, California adopted the CCPA and the California State Attorney General has begun enforcement actions. Although ChargePoint initiated a compliance program designed to ensure CCPA compliance after consulting with outside privacy counsel, ChargePoint may remain exposed to ongoing legal risks and compliance costs related to CCPA and the new California Privacy Rights Act ("CPRA"), which became effective in most material respects on January 1, 2023. Similar state privacy laws, including those in Virginia, Colorado, Connecticut and Utah create further compliance obligations and risks of fines and penalties in the event of non-compliance. Furthermore, state attorneys general may also join together to file lawsuits based on violations of applicable state privacy acts. In the event ChargePoint is subject to litigation, penalties, or enforcement actions pursuant to the GDPR, CCPA, CPRA or applicable state laws, ChargePoint may be subject to fines and penalties, remediation measures which will divert management's time and attention, as well as harm to its reputation.

The costs of compliance with, and other burdens imposed by, laws and regulations relating to privacy, data protection and information security that are applicable to the businesses of customers may adversely affect the ability and willingness to process, handle, store, use, transmit or process certain types of information, such as demographic and other personal information. The EU and the United States agreed in 2016 to the EU-US Privacy Shield Framework, which provided one mechanism for lawful cross-border transfers of personal data from the EU to the United States. However, the Court of Justice of the EU issued a decision on July 16, 2020 invalidating the EU-US Privacy Shield Framework, thereby creating additional legal risk for ChargePoint. In addition, the other bases ChargePoint and some of its customers rely on for the lawful export of personal data outside of the EU are standard contractual clauses. Notably, on June 4, 2021, the European Commission published revised

standard contractual clauses, which imposed additional requirements on companies that use this mechanism to legitimize transfers of personal data out of the EU to the U.S. and other third countries. There are a number of legal uncertainties regarding the application of the revised standard contractual clauses and ChargePoint will continue to face uncertainty as regulatory guidance is developed in this area as to whether ChargePoint's efforts to comply with its obligations under European privacy laws will be sufficient. If ChargePoint or its customers are unable to transfer data between and among countries and regions in which it operates, it could decrease demand for its products and services or require it to modify or restrict some of its products or services. Further, the new standard contractual clauses impose obligations regarding previously executed agreements containing the prior version of the standard contractual clauses. Updating agreements to comply with the revised standard contractual clauses is an increased burden and expense on ChargePoint, and not doing so may create the risk of damage to customer relationships or lead to regulatory scrutiny.

Marketing and digital advertising laws such as the EU's "e-Privacy Directive" and the United States CAN-SPAM Act create further risks for ChargePoint should it not comply with those law's requirements concerning marketing, cookies and trackers, and email promotions. The CAN-SPAM Act authorizes class actions with statutory damages and the e-Privacy Directive creates a risk of enforcement actions and fines. In the event such a class action or enforcement action is brought against ChargePoint, it may need to expend costs and resources defending such litigation or enforcement action and any potential damages or fines awarded as the result of such actions, which could have an adverse effect on ChargePoint's business and reputation. In addition to government activity, privacy advocacy groups, the technology industry and other industries have established or may establish various new, additional or different self-regulatory standards that may place additional burdens on technology companies. Customers may expect that ChargePoint will meet voluntary certifications or adhere to other standards established by them or third-parties. If ChargePoint is unable to maintain these certifications or meet these standards, it could reduce demand for its solutions and adversely affect its business.

Failure to comply with anticorruption and anti-money laundering laws, including the FCPA and similar laws associated with activities outside of the United States, could subject ChargePoint to penalties and other adverse consequences.

ChargePoint is subject to the FCPA, the U.S. domestic bribery statute contained in 18 U.S.C. § 201, the U.S. Travel Act, the USA PATRIOT Act, the Anti-Bribery Act and possibly other anti-bribery and anti-money laundering laws in countries in which it conducts activities. It faces significant risks if it fails to comply with the FCPA and other anti-corruption laws that prohibit companies and their employees and third-party intermediaries from promising, authorizing, offering or providing, directly or indirectly, improper payments or benefits to foreign government officials, political parties and private-sector recipients for the purpose of obtaining or retaining business, directing business to any person or securing any advantage. Any violation of the FCPA, other applicable anti-corruption laws, or anti-money laundering laws could result in whistleblower complaints, adverse media coverage, investigations, loss of export privileges, or severe criminal or civil sanctions, which could have an adverse effect on ChargePoint's reputation, business, operating results and prospects. In addition, ensuring compliance may be costly and time-consuming and responding to any enforcement action may result in a significant diversion of management's attention and resources, significant defense costs and other professional fees.

ChargePoint is subject to governmental export controls and economic sanctions laws that could impair its ability to compete in international markets and subject ChargePoint to liability if it is not in full compliance with applicable laws.

ChargePoint's business activities are subject to various restrictions under U.S. export controls and trade and economic sanctions laws, including the U.S. Commerce Department's Export Administration Regulations and economic and trade sanctions regulations maintained by the U.S. Treasury Department's Office of Foreign Assets Control. The U.S. export control laws and U.S. economic sanctions laws include prohibitions on the sale or supply of certain products and services to U.S. embargoed or sanctioned countries, governments, persons and

entities and also require authorization for the export of encryption items. In addition, various countries regulate the import of certain encryption technology, including through import and licensing requirements, and have enacted laws that could limit ChargePoint's ability to distribute its products and services or could limit ChargePoint's customers' ability to implement ChargePoint's products in those countries. If ChargePoint fails to comply with these laws and regulations, ChargePoint and certain of its employees could be subject to civil or criminal penalties, including the possible loss of export privileges and monetary penalties. Obtaining the necessary authorizations, including any required license, for a particular transaction may be time-consuming, is not guaranteed, and may result in the delay or loss of sales opportunities. ChargePoint's products may have been in the past, and could in the future be, provided inadvertently in violation of such laws, despite the precautions ChargePoint takes to prevent its products from being provided in violation of such laws. Any violation could result in adverse consequences to ChargePoint, including government investigations and penalties which may adversely affect ChargePoint's operations and harm its reputation.

Existing and future environmental health and safety laws and regulations could result in increased compliance costs or additional operating costs or construction costs and restrictions. Failure to comply with such laws and regulations may result in substantial fines or other limitations that may adversely impact ChargePoint's financial results or results of operations.

ChargePoint and its operations, as well as those of ChargePoint's contractors, suppliers and customers, are subject to certain environmental laws and regulations, including laws related to the use, handling, storage, transportation and disposal of hazardous substances and wastes as well as electronic wastes and hardware, whether hazardous or not. These laws may require ChargePoint or others in ChargePoint's supply and operations chain to obtain permits and comply with procedures that impose various restrictions and obligations that may have material effects on ChargePoint's operations. If key permits and approvals cannot be obtained on acceptable terms, or if other operational requirements cannot be met in a manner satisfactory for ChargePoint's operations or on a timeline that meets ChargePoint's commercial obligations, it may adversely impact ChargePoint's business.

Environmental and health and safety laws and regulations can be complex and may be subject to change, such as through new requirements enacted at the supranational, national, sub-national and/or local level or new or modified regulations that may be implemented under existing law. The nature and extent of any changes in these laws, rules, regulations and permits may be unpredictable and may have material effects on ChargePoint's business. Future legislation and regulations or changes in existing legislation and regulations, or interpretations thereof, including those relating to hardware manufacturing, electronic waste or batteries, could cause additional expenditures, restrictions and delays in connection with ChargePoint's operations as well as other future projects, the extent of which cannot be predicted.

Further, ChargePoint currently relies on third-parties to ensure compliance with certain environmental laws, including those related to the disposal of hazardous and non-hazardous wastes. Any failure to properly handle or dispose of such wastes, regardless of whether such failure is ChargePoint's or its contractors, may result in liability under environmental laws, including, but not limited to, the Comprehensive Environmental Response, Compensation and Liability Act, under which liability may be imposed without regard to fault or degree of contribution for the investigation and clean-up of contaminated sites, as well as impacts to human health and damages to natural resources. Additionally, ChargePoint may not be able to secure contracts with third-parties to continue their key supply chain and disposal services for ChargePoint's business, which may result in increased costs for compliance with environmental laws and regulations.

ChargePoint may face litigation and other risks as a result of the material weaknesses in its internal control over financial reporting and the restatement of its financial statements.

Following the issuance of the SEC's Staff Statement on Accounting and Reporting Considerations for Warrants Issued by Special Purpose Acquisition Companies on April 12, 2021, the audit committee of

ChargePoint's Board of Directors (the "Board"), after considering the recommendations of management, determined that it was appropriate to restate ChargePoint's previously filed financial statements for certain periods of non-reliance. As part of this restatement, ChargePoint identified a material weakness in its internal control over financial reporting.

As a result of this material weakness, the restatement, the change in accounting for ChargePoint's previously outstanding publicly-traded warrants (the "Public Warrants") and private placement warrants issued to NGP Switchback, LLC, the sponsor of Switchback (the "Private Placement Warrants"), and other matters raised or that may in the future be raised by the SEC, ChargePoint faces potential for litigation or other disputes which may include, among others, claims invoking the federal and state securities laws, contractual claims or other claims arising from the restatement and material weaknesses in its internal control over financial reporting and the preparation of its financial statements. As of the date of this Annual Report, ChargePoint has no knowledge of any such litigation or dispute. However, ChargePoint can provide no assurance that such litigation or dispute will not arise in the future. Any such litigation or dispute, whether successful or not, could have an adverse effect on its business, results of operations and financial condition. No Public Warrants have been outstanding since January 31, 2022, and no Private Placement Warrants have been outstanding since April 30, 2022.

Risks Related to Ownership of ChargePoint's Securities

Future sales of ChargePoint's Common Stock in the public market, or the perception that such sales may occur, could reduce ChargePoint's stock price, and any conversions of the 2027 Convertible Notes will, and any additional capital raised through the sale of equity or any future convertible securities ChargePoint may issue could, dilute existing stockholders' ownership.

ChargePoint may raise additional capital through the issuance of equity or debt securities in the future. In that event, the ownership of existing ChargePoint stockholders would be diluted and the value of the stockholders' equity in Common Stock could be reduced. If ChargePoint raised more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms more favorable than the current prices of ChargePoint's Common Stock. If ChargePoint issues debt securities, the holders of the debt would have a claim to ChargePoint assets that would be prior to the rights of stockholders until the debt is repaid. Interest on these debt securities would increase costs and could negatively impact operating results. On April 12, 2022, ChargePoint completed a private placement of \$300.0 million of aggregate principal amount of the 2027 Convertible Notes which will mature on April 1, 2027. The 2027 Convertible Notes may decrease ChargePoint's business flexibility and access to capital, require a significant amount of cash to service, dilute the ownership interest of existing stockholders and otherwise depress the price of its Common Stock, and delay or hinder an otherwise beneficial takeover of the Company. On July 1, 2022, ChargePoint filed a Registration Statement on Form S-3 (File No. 333-265986), which permits ChargePoint to offer up to \$1.0 billion shares of ChargePoint Common Stock, preferred stock, debt securities, warrants and rights in one or more offerings and in any combination, including in units from time to time (the "Shelf Registration Statement"). Further, as part of the Shelf Registration Statement, ChargePoint may also sell shares of its Common Stock in "at-the-market" offerings pursuant to that certain common stock sales agreement dated July 1, 2022, by and among ChargePoint and the underwriters thereto (the "ATM Facility"). As of January 31, 2023, \$450.0 million of shares of Common Stock remained available for sale pursuant to the ATM Facility. The sale of a substantial number of shares of ChargePoint Common Stock pursuant to the ATM Facility, the Shelf Registration Statement or otherwise, or anticipation of any such sales, could cause the trading price of ChargePoint's Common Stock to decline or make it more difficult for ChargePoint to sell equity or equity-related securities in the future at a time and at a price that ChargePoint might otherwise desire. In addition, issuances of any shares of ChargePoint Common Stock sold pursuant to the ATM Facility or any securities sold pursuant to the Shelf Registration Statement will have a dilutive effect on our existing stockholders.

In accordance with Delaware law and the provisions of ChargePoint's Second Amended and Restated Certificate of Incorporation (the "Charter"), ChargePoint may issue preferred stock that ranks senior in right of

dividends, liquidation or voting to its Common Stock. The issuance by ChargePoint of such preferred stock may (a) reduce or eliminate the amount of cash available for payment of dividends to other holders of ChargePoint Common Stock, (b) diminish the relative voting strength of the total shares of Common Stock outstanding as a class, or (c) subordinate the claims of ChargePoint holders of Common Stock to ChargePoint assets in the event of a liquidation. ChargePoint cannot predict the size of future issuances of its Common Stock or any additional issuances of securities convertible into Common Stock or the effect, if any, that future issuances and sales of shares of its Common Stock will have on the market price of its Common Stock. Sales of substantial amounts of ChargePoint Common Stock (including any shares issued upon the conversion of the 2027 Convertible Notes or pursuant to the ATM Facility, the Shelf Registration Statement, or in connection with an acquisition), or the perception that such sales could occur, may adversely affect prevailing market prices of ChargePoint Common Stock.

ChargePoint may need to raise additional funds and these funds may not be available when needed or may not be available on terms that are favorable to ChargePoint.

ChargePoint may need to raise additional capital in the future to further scale its business and expand to additional markets. ChargePoint may raise additional funds through the issuance of equity, equity-related or debt securities, or through obtaining credit from government or financial institutions. ChargePoint cannot be certain that additional funds will be available on favorable terms when required, or at all. In addition, if ChargePoint cannot raise additional funds when needed, its financial condition, results of operations, business and prospects could be materially and adversely affected. If ChargePoint raises funds through the issuance of debt securities or through loan arrangements, the terms of such arrangements could require significant interest payments or contain covenants that restrict ChargePoint's business, or other unfavorable terms, any of which could materially adversely affect ChargePoint's business.

ChargePoint has incurred substantial indebtedness that may decrease its business flexibility, access to capital, and/or increase its borrowing costs, and ChargePoint may still incur substantially more debt, which may adversely affect its operations and financial results.

In April 2022, ChargePoint issued the 2027 Convertible Notes. The indenture for the 2027 Convertible Notes includes a restrictive covenant that, subject to specified exceptions, limits the ability of ChargePoint and its subsidiaries to incur secured debt in excess of \$750.0 million. In addition, the indenture includes customary terms and covenants, including certain events of default after which the holders may accelerate the maturity of the 2027 Convertible Notes and declare 100% of the principal of, and accrued and unpaid interest, if any, on, the 2027 Convertible Notes to become due and payable immediately. As a result of these and other terms in the indenture, ChargePoint's indebtedness may:

- limit ChargePoint's ability to borrow additional funds for working capital, capital expenditures, acquisitions or other general business purposes;
- limit ChargePoint's ability to use its cash flow or obtain additional financing for future working capital, capital expenditures, acquisitions or other general business purposes;
- require ChargePoint to use a substantial portion of its cash flow from operations to make debt service payments;
- limit ChargePoint's flexibility to plan for, or react to, changes in its business and industry;
- place ChargePoint at a competitive disadvantage compared to its less leveraged competitors; and
- increase ChargePoint's vulnerability to the impact of adverse economic and industry conditions.

Further, the indenture governing the 2027 Convertible Notes does not restrict ChargePoint's ability to incur additional indebtedness other than secured debt, and as a result it and its subsidiaries may incur substantial additional indebtedness in the future.

Concentration of ownership among ChargePoint's existing executive officers, directors and their affiliates may prevent new investors from influencing significant corporate decisions.

As reported in the table captioned "Security Ownership of Certain Beneficial Owners and Management" included in the Proxy Statement for ChargePoint's 2022 Annual Meeting of Stockholders filed with the SEC on May 27, 2022, as of April 30, 2022, ChargePoint's directors, executive officers and their affiliates in the aggregate beneficially own approximately 23.6% of the outstanding Common Stock. As a result, these stockholders are able to exercise a significant level of control over all matters requiring stockholder approval, including the election of directors, any amendment of the certificate of incorporation and approval of significant corporate transactions. This control could have the effect of delaying or preventing a change of control or changes in management and will make the approval of certain transactions difficult or impossible without the support of these stockholders.

ChargePoint has never paid cash dividends on its capital stock and does not anticipate paying dividends in the foreseeable future.

ChargePoint has never paid cash dividends on its capital stock and currently intends to retain any future earnings to fund the growth of its business. Any determination to pay dividends in the future will be at the discretion of the Board and will depend on financial condition, operating results, capital requirements, general business conditions and other factors that the Board may deem relevant. As a result, capital appreciation, if any, of Common Stock will be the sole source of gain for the foreseeable future.

The price of ChargePoint's Common Stock may be subject to wide fluctuations.

The trading price of ChargePoint's Common Stock will be volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond ChargePoint's control. These factors include:

- actual or anticipated fluctuations in operating results;
- failure to meet or exceed financial estimates and projections of the investment community or that ChargePoint provides to the public;
- issuance of new or updated research or reports by securities analysts or changed recommendations for the industry in general;
- announcements of significant acquisitions, strategic partnerships, joint ventures, collaborations or capital commitments;
- changes in competitive factors;
- operating and share price performance of other companies in ChargePoint's industry or related markets;
- sales of shares of ChargePoint's Common Stock into the market pursuant to the exercise of registration rights;
- the timing and magnitude of investments in the growth of the business;
- actual or anticipated changes in laws and regulations, including U.S. monetary policy;
- additions or departures of key management or other personnel;
- increased labor costs;
- disputes or other developments related to intellectual property or other proprietary rights, including litigation;
- the ability to market new and enhanced solutions on a timely basis;

- sales of substantial amounts of the Common Stock by the members of the Board, executive officers or significant stockholders or the perception that such sales could occur;
- changes in capital structure, including future issuances of securities or the incurrence of debt; and
- general economic, political and market conditions, including those resulting from the ongoing conflict between Russia and Ukraine and increased trade restrictions by governmental and private entities.

In addition, the stock market in general, and the stock prices of technology companies in particular, have experienced extreme price and volume fluctuations. Broad market and industry factors likely have seriously affected and may continue to seriously affect the market price of ChargePoint's Common Stock, regardless of actual operating performance. In addition, in the past, following periods of volatility in the overall market and the market price of a particular company's securities, securities class action litigation has often been instituted against such a company. This litigation, if instituted against ChargePoint as a result of actual and potential volatility described above, could result in substantial costs and a diversion of management's attention and resources.

Servicing the 2027 Convertible Note obligations will require a significant amount of cash. ChargePoint may not have sufficient cash flow from its business to pay its outstanding debt, and ChargePoint may not have the ability to raise the funds necessary to settle conversions of the 2027 Convertible Notes in cash or to repurchase the 2027 Convertible Notes upon a fundamental change, which could adversely affect its business and results of operations.

ChargePoint's ability to make scheduled payments of the principal of, to pay interest on, or to refinance its indebtedness, including the amounts payable under the 2027 Convertible Notes, depends on its future performance, which is subject to economic, financial, competitive, and other factors beyond its control. ChargePoint's business may not generate cash flow from operations in the future sufficient to service its indebtedness and make necessary capital expenditures. Interest on the 2027 Convertible Notes is payable semi-annually in arrears on April 1 and October 1, commencing on October 1, 2022, and the 2027 Convertible Notes will mature on April 1, 2027, unless redeemed, repurchased or converted in accordance with their terms prior to such date. While ChargePoint can elect to make any interest payment in cash, paid in kind through an increase in the principal amount of the 2027 Convertible Notes, referred to as PIK Interest, or any combination thereof, to the extent ChargePoint elects PIK Interest, the 2027 Convertible Notes bear interest at a rate of 5.00% per annum, compared to 3.50% per annum to the extent paid in cash. If ChargePoint is unable to generate sufficient cash flow to pay the principal and/or interest on its indebtedness, ChargePoint's flexibility in how it pays interest on the 2027 Convertible Notes may be limited and it may be required to adopt one or more alternatives, such as selling assets, restructuring debt, or obtaining additional equity capital on terms that may be onerous or highly dilutive, to pay its outstanding indebtedness. ChargePoint's ability to refinance its indebtedness will depend on the capital markets and its financial condition at such time. For example, interest rate increases and/or other monetary policy changes, could ultimately result in higher short-term and/or long-term interest rates and could otherwise impact the general availability of credit. Higher prevailing interest rates and/or a tightening supply of credit would adversely affect the terms upon which ChargePoint would be able to refinance its indebtedness, if at all. As a result, ChargePoint may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on its debt obligations.

In the event of a fundamental change or a change in control transaction (each such term as defined in the indenture governing the 2027 Convertible Notes), holders of the 2027 Convertible Notes will have the right to require ChargePoint to repurchase all or a portion of their 2027 Convertible Notes at a price equal to 100% of the capitalized principal amount of 2027 Convertible Notes, in the case of a fundamental change, or 125% of the capitalized principal amount of 2027 Convertible Notes, in the case of a change in control transaction, in each case plus any accrued and unpaid interest to, but excluding, the repurchase date. This feature of the 2027 Convertible Notes could have the effect of delaying or preventing a change of control of ChargePoint, whether or not it is desired by, or beneficial to, ChargePoint's stockholders, and may result in the acquisition of ChargePoint

on terms less favorable to its stockholders than it would otherwise be, or could require ChargePoint to pay a portion of the consideration available in such a transaction to holders of the 2027 Convertible Notes. In addition, upon conversion of the 2027 Convertible Notes, unless ChargePoint elects to deliver solely shares of its Common Stock to settle such conversion (other than paying cash in lieu of delivering any fractional share), ChargePoint will be required to make cash payments in respect of the 2027 Convertible Notes being converted. However, ChargePoint may not have enough available cash, or be able to obtain sufficient financing, at the time it is required to pay cash with respect to the 2027 Convertible Notes being converted.

The conditional conversion feature of the 2027 Convertible Notes, when triggered, may adversely affect ChargePoint's financial condition and operating results. In addition, any such conversion of the 2027 Convertible Notes will dilute the ownership interest of existing stockholders, including holders who had previously converted their 2027 Convertible Notes, or may otherwise depress ChargePoint's stock price.

Prior to the close of business on the business day immediately preceding January 1, 2027, the 2027 Convertible Notes will be convertible subject to the satisfaction of certain conditions set forth in the indenture for such 2027 Convertible Notes. On or after January 1, 2027, holders of the 2027 Convertible Notes will have the right to convert all or a portion of their 2027 Convertible Notes at any time prior to close of business on the second scheduled trading day immediately preceding the maturity date. Once any such conditional conversion feature of the 2027 Convertible Notes is triggered, holders of the 2027 Convertible Notes will be entitled to convert their 2027 Convertible Notes at any time during the specified periods at their option. If one or more holders elect to convert their 2027 Convertible Notes, unless ChargePoint elects to satisfy its conversion obligation by delivering solely shares of its Common Stock (other than paying cash in lieu of delivering any fractional share), ChargePoint would be required to settle a portion or all of its conversion obligation in cash, which could adversely affect its liquidity.

In addition, the conversion of some or all of the 2027 Convertible Notes will dilute the ownership interests of existing stockholders to the extent ChargePoint delivers shares of Common Stock upon such conversion. Any sales in the public market of ChargePoint Common Stock issuable upon such conversion could adversely affect prevailing market prices of ChargePoint Common Stock. In addition, the existence of the 2027 Convertible Notes may encourage short selling by market participants because the conversion of the 2027 Convertible Notes could be used to satisfy short positions, or anticipated conversion of the 2027 Convertible Notes into shares of ChargePoint's Common Stock could depress ChargePoint's stock price.

The accounting method for convertible debt securities that may be settled in cash, such as the 2027 Convertible Notes, could have a material effect on ChargePoint's reported financial results.

The accounting method for reflecting the 2027 Convertible Notes on ChargePoint's balance sheet, accruing interest expense for the 2027 Convertible Notes, and reflecting the underlying shares of its Common Stock in ChargePoint's reported diluted earnings per share may adversely affect its reported earnings and financial condition.

ChargePoint expects that, under applicable accounting principles, the initial liability carrying amount of the 2027 Convertible Notes will be the fair value of a similar debt instrument that does not have a conversion feature, valued using its cost of capital for straight, unconvertible debt. ChargePoint has reflected the difference between the net proceeds from the sale of the 2027 Convertible Notes and the initial carrying amount as a debt discount for accounting purposes, which is amortized into interest expense over the term of the 2027 Convertible Notes. As a result of this amortization, the interest expense to be recognized for the 2027 Convertible Notes for accounting purposes will be greater than the cash interest payments ChargePoint may pay on the 2027 Convertible Notes, were it to elect to pay interest in cash, which results in lower reported net income. The lower reported income (or higher net loss) resulting from this accounting treatment could depress the trading price of ChargePoint's Common Stock and the 2027 Convertible Notes. In addition, under Accounting Standards Update 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—

Contracts in Entity's Own Equity (Subtopic 815-40), diluted earnings per share is generally calculated assuming that all the 2027 Convertible Notes were converted solely into shares of Common Stock at the beginning of the reporting period, unless the result would be anti-dilutive. The application of this "if-converted" method may reduce ChargePoint's reported diluted earnings per share.

Furthermore, if any of the conditions to the convertibility of the 2027 Convertible Notes is satisfied, then ChargePoint may be required under applicable accounting standards to reclassify the liability carrying value of the 2027 Convertible Notes as a current, rather than a long-term, liability. This reclassification could be required even if no noteholders convert their 2027 Convertible Notes and could materially reduce ChargePoint's reported working capital.

The coverage of ChargePoint's business or its securities by securities or industry analysts or the absence thereof could adversely affect the trading price and volume of ChargePoint's Common Stock and other securities.

The trading market for ChargePoint's securities is influenced in part by the research and other reports that industry or securities analysts publish about ChargePoint or its business or industry from time to time. ChargePoint does not control these analysts or the content and opinions included in their reports. If no or few analysts continue equity research coverage of ChargePoint, the trading price and volume of ChargePoint's securities would likely be negatively impacted. If analysts do cover ChargePoint and one or more of them downgrade its securities, or if they issue other unfavorable commentary about ChargePoint or its industry or inaccurate research, the trading price of ChargePoint's Common Stock and other securities would likely decline. Furthermore, if one or more of these analysts cease coverage or fail to regularly publish reports on ChargePoint, it could lose visibility in the financial markets. Any of the foregoing would likely cause the trading price and volume of ChargePoint's Common Stock and other securities to decline.

Anti-takeover provisions contained in ChargePoint's governing documents and applicable laws could impair a takeover attempt.

ChargePoint's Charter and Amended and Restated Bylaws (the "A&R Bylaws") afford certain rights and powers to the Board that could contribute to the delay or prevention of an acquisition that it deems undesirable. ChargePoint is also subject to Section 203 of the Delaware General Corporation Law and other provisions of Delaware law that limit the ability of stockholders in certain situations to effect certain mergers. Any of the foregoing provisions and terms that have the effect of delaying or deterring a change in control could limit the opportunity for stockholders to receive a premium for their shares of their Common Stock and could also affect the price that some investors are willing to pay for the Common Stock. ChargePoint's Charter provides, subject to limited exceptions, that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for certain stockholder litigation matters, which could limit stockholders' ability to obtain a more favorable judicial forum for disputes with ChargePoint or its directors, officers, employees or stockholders.

The Charter requires, to the fullest extent permitted by law, that derivative actions brought on behalf of ChargePoint, actions against current or former directors, officers, stockholders or, subject to certain exceptions, employees for breach of fiduciary duty and certain other actions may be brought in the Court of Chancery in the State of Delaware or, if that court lacks subject matter jurisdiction, another federal or state court situated in the State of Delaware. Any person or entity purchasing or otherwise acquiring or holding any interest in shares of capital stock of ChargePoint shall be deemed to have notice of and consented to the forum provisions in the certificate of incorporation. In addition, the Charter and A&R Bylaws provide that, unless ChargePoint consents in writing to another forum, the federal district courts of the United States shall, to the fullest extent of the law, be the exclusive forum for the resolution of any complaint asserting a cause of action under the Securities Act or the Exchange Act.

The choice of forum provision in ChargePoint's Charter may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with ChargePoint or any of its directors, officers, other

employees or stockholders, which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provision to be inapplicable or unenforceable in an action, ChargePoint may incur additional costs associated with resolving such action in other jurisdictions, which could harm its business, operating results and financial condition.

Sales, or the perception of future sales, of a substantial number of shares of Common Stock by ChargePoint's existing stockholders could cause the price of ChargePoint's Common Stock to decline.

Sales of a substantial number of shares of ChargePoint's Common Stock in the public market could occur at any time. These sales, or the perception in the market that the holders of a large number of shares intend to sell shares, could reduce the market price of ChargePoint's Common Stock. For instance, in connection with the closing of the Merger, ChargePoint and the holders of registration rights in Switchback and Legacy ChargePoint entered into an amended and restated Registration Rights Agreement (the "A&R Registration Rights Agreement" and such holders the "Registration Rights Holders"). In certain circumstances, the Registration Rights Holders can demand certain underwritten offerings and will be entitled to customary piggyback registration rights. Also, in connection with the consummation of the acquisition of HTB, ChargePoint entered into a registration rights agreement with the former shareholders of HTB providing for the filing of a resale registration statement as more completely described below.

ChargePoint has in the past, and may in the future, file registration statements as a result of such registration rights. For example, on July 12, 2021, ChargePoint filed a resale registration statement on Form S-1 (No. 333-257855) that relates to the offer and sale from time to time by the selling security holders named in that prospectus of up to 12 million shares of ChargePoint's Common Stock (the "Secondary Offering"). ChargePoint's directors, executive officers and certain stockholders entered into lock-up agreements with the representatives of the several underwriters, in connection with the Secondary Offering, which expired on September 28, 2021. Further, on October 14, 2021, ChargePoint filed a resale registration statement on Form S-1 (No. 333-260247) that was declared effective by the SEC that relates to the offer and sale from time to time by the selling security holders named in that prospectus of up to 5,695,176 shares of ChargePoint's Common Stock in connection with the consummation of ChargePoint's acquisition of HTB.

As of October 31, 2021, no shares of ChargePoint's Common Stock were prohibited or otherwise restricted from being sold in the public market under lock-up agreements. Shares issued upon the exercise of stock options outstanding under ChargePoint's equity incentive plans or pursuant to future awards granted under those plans will become available for sale in the public market to the extent permitted by the provisions of applicable vesting schedules, any applicable market standoff, a registration statement on Form S-8 and Rule 144 and Rule 701 under the Securities Act.

Warrants are exercisable for ChargePoint's Common Stock, which would increase the number of shares eligible for future resale in the public market and result in dilution to ChargePoint's stockholders.

As of January 31, 2023, the warrants to purchase Legacy ChargePoint common stock (the "Legacy Warrants") were exercisable for 34,499,436 shares of Common Stock. Any shares of ChargePoint's Common Stock issued upon exercise of Legacy Warrants will result in dilution to the then existing holders of Common Stock and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could adversely affect the market price of ChargePoint's Common Stock.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

The corporate headquarters and principal operations is located in Campbell, California, and consists of approximately 72,000 square feet of office space under leases that expire on August 31, 2029. ChargePoint

believes this space is sufficient to meet its needs for the foreseeable future and that any additional space ChargePoint may require will be available on commercially reasonable terms. ChargePoint also leases facilities in Amsterdam, the Netherlands; Gurgaon, India; Radstadt, Austria and Reading, United Kingdom; Scottsdale, Arizona and San Jose, California; as well as smaller sales offices in the United States and Europe.

Item 3. Legal Proceedings.

Information with respect to this item may be found in Note 10, *Commitments and Contingencies*, in the accompanying notes to the consolidated financial statements included in Part II, Item 8, “Financial Statements and Supplementary Data” of this Annual Report on Form 10-K, under “Legal Proceedings” which is incorporated herein by reference.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information for Common Stock

ChargePoint’s Common Stock is traded under the symbol “CHPT” and is listed on the New York Stock Exchange (NYSE).

Dividend Policy

ChargePoint has never declared or paid dividend on its Common Stock and has no plans to do so in the foreseeable future.

Number of Common Stockholders

As of March 28, 2023, there were approximately 318 holders of record of ChargePoint’s Common Stock. The actual number of stockholders is greater than this number of record holders and includes stockholders who are beneficial owners but whose shares are held in street name by brokers and other nominees.

Sales of Unregistered Equity Securities and Use of Proceeds

None.

Stock Performance

The following shall not be deemed “filed” for purposes of Section 18 of the Exchange Act, or incorporated by reference into any of ChargePoint Holdings, Inc.’s other filings under the Exchange Act or the Securities Act of 1933, as amended, except to the extent ChargePoint specifically incorporates it by reference into such filing.

The graph below matches ChargePoint Holdings, Inc.'s cumulative total shareholder return on Common Stock with the cumulative total returns of the S&P Midcap 400 index, the S&P Application Software index, and the S&P 500 Technology Hardware, Storage & Peripherals index. The graph tracks the performance of a \$100 investment in ChargePoint's Common Stock and in each index (with the reinvestment of all dividends) from September 16, 2019 to January 31, 2023.

COMPARISON OF 40 MONTH CUMULATIVE TOTAL RETURN*

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information which ChargePoint’s management believes is relevant to an assessment and understanding of ChargePoint’s consolidated results of operations and financial condition. ChargePoint’s fiscal year ends on January 31. References to fiscal years 2023, 2022, and 2021, relate to the fiscal years ended January 31, 2023, January 31, 2022, and January 31, 2021, respectively. This section of this Form 10-K discusses fiscal year 2023 and 2022 items and year-to-year comparisons between fiscal year 2023 and 2022. Discussions of fiscal year 2021 items and year-over-year comparisons between fiscal year 2022 and fiscal year 2021 are not included in this Form 10-K, and can be found in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of the Company’s Annual Report on Form 10-K filed on April 4, 2022. The discussion should be read together with the consolidated financial statements and related notes that are included elsewhere in this Annual Report on Form 10-K. This discussion may contain forward-looking statements based upon current expectations that involve risks and uncertainties. ChargePoint’s actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under “Risk Factors” included under Part I, Item 1 A.

Overview

ChargePoint designs, develops and markets networked EV charging system infrastructure (“Networked Charging Systems”) connected through cloud-based services (“Cloud” or “Cloud Services”) which (i) enable charging systems owners, or hosts, to manage their Networked Charging Systems, and (ii) enable drivers to locate, reserve and authenticate Networked Charging Systems and to transact EV charging sessions on those systems. ChargePoint’s Networked Charging Systems, subscriptions and other offerings provide an open platform that integrates with system hardware from ChargePoint and other manufacturers, connecting systems over an intelligent network that provides real-time information about charging sessions and full control, support and management of the Networked Charging Systems. This network provides multiple web-based portals for charging system owners, fleet managers, drivers and utilities.

ChargePoint generates revenue primarily through the sale of Networked Charging Systems, Cloud Services and extended parts and labor warranties (“Assure”). The Company also generates revenue, in some instances, by providing customers use of ChargePoint’s owned and operated systems, Cloud Services and Assure into a single multi-year or annual subscription (“ChargePoint as a Service” or “CPaaS”). Each of Cloud Services, Assure and CPaaS is typically paid for upfront and revenue is recognized ratably over the term of the subscription period.

ChargePoint targets three key verticals: commercial, fleet and residential. Commercial customers have parking places largely within their workplaces and include retail, hospitality, healthcare, fueling and convenience and parking lot operators. Fleet includes municipal buses, delivery and work vehicles, port/airport/warehouse and other industrial applications, ridesharing services, and is expected to eventually include autonomous transportation. Residential includes single family homes and multifamily residences.

On February 26, 2021 (“Closing Date”), Switchback Energy Acquisition Corporation (“Switchback”) consummated the previously announced transactions pursuant to which Lightning Merger Sub Inc., a wholly-owned subsidiary of Switchback (“Lightning Merger Sub”), merged with ChargePoint, Inc. (“Legacy ChargePoint”) pursuant to a Merger Agreement and Plan of Merger dated as of September 23, 2020, by and among the Company, Lightning Merger Sub, and Switchback (“Merger Agreement”). Legacy ChargePoint survived as a wholly-owned subsidiary of Switchback (“Merger” and, collectively with the other transactions described in the Merger Agreement, the “Reverse Recapitalization”). Further, as a result of the Merger, Switchback was renamed “ChargePoint Holdings, Inc.”

Since its inception in 2007, ChargePoint has been engaged in developing and marketing its Networked Charging Systems, subscriptions and other offerings, raising capital and recruiting personnel. ChargePoint has incurred net operating losses and negative cash flows from operations in every year since its inception. As of

January 31, 2023 and 2022, ChargePoint had an accumulated deficit of \$1,156.8 million and \$811.7 million, respectively. ChargePoint has funded its operations primarily from customer payments, the issuance of redeemable convertible preferred stock and convertible notes, exercise proceeds from options and warrants, borrowings under loan facilities and proceeds from the Reverse Recapitalization.

Key Factors Affecting Operating Results

ChargePoint believes its performance and future success depend on several factors that present significant opportunities for it but also pose risks and challenges, including those discussed below:

Growth in EV Adoption

ChargePoint's revenue growth is directly tied to the number of passenger and commercial EVs sold, which it believes drives the demand for charging infrastructure. The market for EVs is still rapidly evolving and although demand for EVs has grown in recent years, there is no guarantee of such future demand. Factors impacting the adoption of EVs include but are not limited to: perceptions about EV features, quality, safety, performance and cost; perceptions about the limited range over which EVs may be driven on a single battery charge; volatility in the cost of oil and gasoline; availability of services for EVs; consumers' perception about the convenience and cost of charging EVs; and increases in fuel efficiency of internal combustion engine vehicles. In addition, macroeconomic factors, including governmental mandates and incentives and the impact of rising interest rates, inflation and a potential economic recession, could impact demand for EVs, particularly since they can be more expensive to purchase than traditional gasoline-powered vehicles. Further, geopolitical factors, such as the invasion of Ukraine by Russia, conflicts between the United States and China or between China and Taiwan may negatively impact the global automotive supply chain and reduce the manufacturing of automobiles, including EVs. If the market for EVs does not develop as expected or if there is any slow-down or delay in overall EV adoption or manufacturing rates, ChargePoint's financial condition and results of operations could be materially and adversely impacted.

Competition

ChargePoint is currently a market leader in North America in commercial Level 2 Alternating Current ("AC") charging. ChargePoint also offers AC chargers for use at home or multifamily settings and for fleet applications, and high-power Level 3 Direct Current ("DC") chargers for fast urban charging, corridor or long-trip charging and fleet applications. ChargePoint intends to expand its market share over time in its product categories, leveraging the network effect of its products and Cloud Services software. Existing competitors may expand their product offerings and sales strategies, and new competitors may enter the market. If ChargePoint's market share decreases due to increased competition, its financial condition and results of operations may be negatively impacted. Furthermore, ChargePoint's success could be negatively impacted if consumers and businesses choose other types of alternative fuel vehicles or high fuel-economy gasoline powered vehicles.

Europe Expansion

ChargePoint operates in North America and several countries in Europe. Europe is expected to be a significant contributor to ChargePoint's revenue in future years. ChargePoint has been and is investing heavily to succeed in Europe. ChargePoint is also working to grow its European business through partnerships with channel partners and car leasing companies and through its acquisitions of ViriCiti B.V. ("ViriCiti") and has•to•be gmbh ("HTB") (each as described in Note 5, *Reverse Capitalization and Business Combinations*, to ChargePoint's notes to the consolidated financial statements). In Europe, ChargePoint primarily competes with other providers of EV charging station networks. Many of these competitors have limited funding, which could cause poor customer experiences and have a negative impact on overall EV adoption in Europe. ChargePoint's growth in Europe requires differentiating itself as compared to these existing competitors. If ChargePoint is unable to continue penetrating the market in Europe, its financial condition and results of operations could be materially and adversely impacted.

Fleet Expansion

ChargePoint's future growth is also highly dependent upon success in fleet applications, where there is increasing competition, a high customer dependency on the expected increase in the arrival rate of new vehicles, and likely high concentrations and volatility of purchasing as fleet operators ultimately choose their key providers and make large purchases of EVs. Any significant decline from these customers may have an adverse impact on ChargePoint's potential for future growth. If the Company is not successful in the fleet vertical, its financial condition and results of operations could be materially and adversely affected.

Impact of New Product Releases and Investments in Growth

As ChargePoint introduces new products, such as the release of its Express Plus DC fast charger in fiscal year 2022 and CP6000 Level 2 AC charger in fiscal year 2023, its gross margins may be initially negatively impacted by launch costs and lower volumes until it achieves targeted cost reductions. Cost reductions may not occur on the timeline ChargePoint expects due to a number of factors, including but not limited to failure to meet its own estimates, unanticipated supply chain difficulties, government mandates or certification requirements. For example, ongoing supply chain challenges, heightened logistic costs, component shortages and product transition charges decreased ChargePoint's gross margins in the fiscal year ended January 31, 2023, and ChargePoint expects gross margins will continue to be adversely affected by increased material costs and freight and logistic expenses in the fiscal year ending January 31, 2024. In addition, ChargePoint may accelerate its expenditures where it sees growth opportunities, which may further impact gross margin until upfront costs and inefficiencies are absorbed and normalized operations are achieved. Further, ChargePoint continues to invest in prioritizing an assurance of supply of its products and new customer acquisition as part of its "land and expand" model, which in the current environment, puts pressure on gross margins and increases operating expenses. ChargePoint also continuously evaluates and may adjust its expenditures, such as new product introduction costs, based on its launch plans for new products, as well as other factors including the pace and prioritization of current projects under development and the addition of new projects. As ChargePoint attains higher revenue, it expects operating expenses as a percentage of total revenue to decrease as it scales and focuses on increasing operational efficiency and process automation.

Government Mandates, Incentives and Programs

The U.S. federal government, certain foreign governments and some state and local governments provide incentives to end users and purchasers of EVs and EV infrastructure in the form of rebates, tax credits and other financial incentives. These governmental rebates, tax credits and other financial incentives significantly lower the effective price of EVs and EV infrastructure to customers. For example, the Infrastructure Investment and Jobs Act signed into law on November 15, 2021 (the "Jobs Act") provided additional funding for EVs and EV charging infrastructure through the creation of new programs and grants and the expansion of existing programs, including \$7.5 billion for EV charging along highway corridors and communities. In addition, the Inflation Reduction Act of 2022 (the "IRA") signed into law on August 16, 2022 includes incentives and tax credits aimed at reducing the effects of climate change, such as the extension of electric vehicle charging infrastructure tax credits under Section 30C and tax credits for electric vehicles under Section 30D of the Internal Revenue Code of 1986, as amended (the "Code") through 2032. There are numerous restrictions and requirements associated with qualifying for the electric vehicle tax credits available under the IRA and ChargePoint is still assessing how the IRA may impact its business and EV sales generally. Further, incentives such as the Jobs Act and the IRA take time to be disbursed and to affect actual expenditure decisions. These incentives may also expire on specified dates, end when the allocated funding is no longer available, or be reduced or terminated as a matter of regulatory or legislative policy. Any reduction in rebates, tax credits or other financial incentives could reduce the demand for EVs and for charging infrastructure, including infrastructure ChargePoint offers.

ChargePoint also derives other revenue from fees received for regulatory incentives earned for participating in low carbon fuel programs in some U.S. states. ChargePoint claims these incentives only if they are not claimed

by purchasers of its EV charging stations. If a material percentage of its customers were to claim these incentives, ChargePoint's revenue from this source could decline significantly, which could have an adverse effect on its revenue and overall gross margin. Prior to fiscal year 2021, ChargePoint derived a slight majority of its other revenue from these incentives. However, revenue from this source as a percentage of total revenue has declined since fiscal 2021 and may continue to decline as a percentage of total revenue going forward. Further, the availability of such incentives depends on continued governmental support for these programs. If these programs are modified, reduced or eliminated, ChargePoint's ability to generate this revenue in the future would be adversely impacted.

Supply Chain Disruptions and Other Factors

Global supply chain disruptions, initially caused by the COVID-19 pandemic, continue to affect ChargePoint's business. The disruption to ChargePoint's supply chain has heightened its material, freight and logistic costs, and has similarly disrupted manufacturing, delivery and overall supply chain of vehicle manufacturers and suppliers, which has contributed to fluctuations in EV sales in markets around the world. These ongoing supply chain challenges and heightened logistic costs decreased gross margins in the fiscal year ended January 31, 2023, and ChargePoint expects that gross margins will continue to be adversely affected by increased material costs and freight and logistic expenses in the fiscal year ending January 31, 2024.

Also, more permanent work-from-home policies, initially caused by the COVID-19 pandemic, are likely to continue affecting the rate of global infrastructure spending, and thus to continue to adversely impact ChargePoint's commercial business and its overall gross margin as ChargePoint's commercial business contributes higher margins than its residential and fleet businesses. Further, the continued disruption to ChargePoint's supply chains and heightened component and shipping pricing and logistics expenses may further adversely impact ChargePoint's gross margins, adversely affect demand for ChargePoint's products, lengthen its product development and sales cycles, and reduce expected spending from new customers, all of which could adversely affect ChargePoint's business, results of operations and financial condition.

Additionally, global economic uncertainty due to other macroeconomic conditions, including inflation, interest rate pressures, negative events in the financial services industry, and labor market disruptions, and related growing concerns of a potential recession, have impacted customer behavior related to discretionary spending and sentiment and could continue to impact such behaviors in the future. Any resulting decline in the ability or willingness of customers, fleet owners and operators to purchase ChargePoint's products or subscription services could have an adverse impact on ChargePoint's results of operations and financial condition.

Results of Operations & its Components

Revenue

Networked Charging Systems

Networked Charging Systems revenue includes the deliveries of EV charging system infrastructure, which include a range of AC products for use in residential, commercial and fleet applications, and DC, or fast-charge products for use in commercial and fleet applications. A significant portion of ChargePoint's Networked Charging Systems revenue is presently derived from the sale of AC products. ChargePoint generally recognizes revenue from sales of Networked Charging Systems upon shipment to the customer, at which point ChargePoint's performance obligation is satisfied.

Subscriptions

Subscriptions revenue consists of services related to Cloud, as well as extended maintenance service plans under Assure. Subscriptions revenue also consists of CPaaS revenue which combines the customer's use of ChargePoint's owned and operated systems with Cloud and Assure programs into a single, typically multi-year subscription.

In some instances, CPaaS subscriptions are considered for accounting purposes to contain a lease for the customer's use of ChargePoint's owned and operated systems unless the location allows the customer to receive incremental economic benefit from regulatory credits earned on that EV charging system. Lessor revenue relates to operating leases and historically has not been material. Subscriptions revenue is generally recognized over time on a straight-line basis as ChargePoint has an ongoing obligation to deliver such services to the customer.

Other

Other revenue consists of charging related fees received from drivers using charging sites owned and operated by ChargePoint, net transaction fees earned for processing payments collected on driver charging sessions at charging sites owned by its customers, fees received for transferring regulatory incentives earned for participating in low carbon fuel programs in some states, and other professional services. Revenue from driver charging sessions and charging transaction fees is recognized when the charging session or transaction is completed. Revenue from regulatory incentives is recognized when the regulatory incentives are transferred. Revenue from fees for owned and operated sites is recognized over time on a straight-line basis over the performance period of the service contract as ChargePoint has an ongoing obligation to deliver such services. Revenue from professional services is recognized as the services are rendered.

ChargePoint expects revenue to grow in both Networked Charging Systems and subscriptions due to increased demand in EVs and the related charging infrastructure market.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Networked Charging Systems	\$363,622	\$173,850	\$91,893	\$189,772	109.2%	\$81,957	89.2%
Percentage of total revenue	77.7%	72.1%	62.7%				

Networked Charging Systems revenue increased for fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to a continued increase in demand from customers in ChargePoint's three verticals, resulting in higher volume of Networked Charging Systems delivered across ChargePoint's major product families.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Subscriptions	\$85,296	\$53,512	\$40,563	\$31,784	59.4%	\$12,949	31.9%
Percentage of total revenue	18.2%	22.2%	27.7%				

Subscriptions revenue increased for the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to the growth in the number of Cloud subscriptions and Assure subscriptions for Networked Charging Systems connected to ChargePoint's network.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Other revenue	\$19,176	\$13,644	\$14,034	\$5,532	40.5%	\$(390)	(2.8)%
Percentage of total revenue	4.1%	5.7%	9.6%				

Other revenue increased for the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to net transaction fees earned for processing payments collected on driver charging sessions at charging sites owned by ChargePoint's customers.

Cost of Revenue

Networked Charging Systems

ChargePoint uses contract manufacturers to manufacture the substantial majority of its Networked Charging Systems. ChargePoint's in-house manufacturing is typically limited to initial development units and to early customer samples. ChargePoint's cost of revenue for the sale of Networked Charging Systems includes the contract manufacturer costs of finished goods and shipping and handling. Cost of revenue for the sale of Networked Charging Systems also consists of salaries and related personnel expenses, including stock-based compensation, warranty provisions, depreciation of manufacturing related equipment and facilities, and allocated facilities and information technology expenses. As revenue is recognized, ChargePoint accounts for estimated warranty cost as a charge to cost of revenue. The estimated warranty cost is based on historical and predicted product failure rates and repair expenses.

Subscriptions

Cost of Subscriptions revenue includes salaries and related personnel expenses, including stock-based compensation and third-party support costs to manage the systems and helpdesk services for drivers and site hosts, network and wireless connectivity costs for subscription services, field costs for Assure, depreciation of owned and operated systems used in CPaaS arrangements, allocated facilities and information technology expenses.

Other

Cost of other revenue includes depreciation and other costs for ChargePoint's owned and operated charging sites, charging related processing charges, salaries and related personnel expenses, including stock-based compensation, as well as costs of professional services.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Cost of Networked Charging Systems							
revenue	\$318,628	\$147,313	\$87,083	\$171,315	116.3%	\$60,230	69.2%
Percentage of total revenue	68.1%	61.1%	59.4%				

Cost of Networked Charging Systems revenue increased during the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to an increase in the number of Networked Charging Systems delivered.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Cost of Subscriptions revenue	\$51,416	\$31,190	\$20,385	\$20,226	64.8%	\$10,805	53.0%
Percentage of total revenue	11.0%	12.9%	13.9%				

Cost of subscriptions revenue increased during fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to increases in customer support headcount driven by ChargePoint expanding its Networked Charging Systems and resulting in an increase in salaries and personnel expenses, including stock-based compensation, as well as Assure maintenance costs.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Cost of Other Revenue	\$12,117	\$8,970	\$6,073	\$3,147	35.1%	\$2,897	47.7%
Percentage of total revenue	2.6%	3.7%	4.1%				

Cost of other revenue increased for the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily related to increased other operating costs.

Gross Profit and Gross Margin

Gross profit is revenue less cost of revenue and gross margin is gross profit as a percentage of revenue. ChargePoint offers a range of Networked Charging Systems products which vary widely in selling price and associated gross margin, as, for example, ChargePoint's commercial business contributes higher margins than its residential and fleet businesses. Accordingly, ChargePoint's gross profit and gross margin have varied and are expected to continue to vary from period to period due to revenue levels; geographic, vertical and product mix; new product transition costs; and its efforts to optimize its operations and supply chain and purchase price variances it may need to pay due to component shortages or supply chain disruptions.

In the long term, improvements in ChargePoint's gross profit and gross margin will depend on its ability to continue to optimize its operations and supply chain as it increases its revenue. However, at least in the short term, as the product mix continues to vary and as ChargePoint continues to optimize for customer acquisition and prioritize assurance of supply of its products as part of its "land and expand" model, launches new Networked Charging Systems products, grows its presence in Europe where it has not yet achieved economies of scale, and expands its solutions for its fleet customers, gross margin will vary from period to period. In addition, ChargePoint expects gross margins will continue to be adversely affected by increased material costs, particularly due to the shortage of certain semiconductors, as a result of the ongoing worldwide supply chain disruptions.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Gross Profit	\$85,933	\$53,533	\$32,949	\$32,400	60.5%	\$20,584	62.5%
Gross Margin	18.4%	22.2%	22.5%				

Gross profit increased for the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to an increase in Networked Charging Systems sales that resulted from an increase in the number of Networked Charging Systems delivered and an increase in subscriptions revenue.

Gross margin decreased for the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due (i) to product mix changes towards lower gross margin products, (ii) higher purchase price costs and increased logistic costs incurred as the result of component shortages and supply chain challenges, (iii) new product transition costs, and (iv) increases in customer support headcount and resulting personnel compensation.

Research and Development Expenses

Research and development expenses consist primarily of salaries and related personnel expenses, including stock-based compensation, for personnel related to the development of improvements and expanded features for ChargePoint's services, as well as quality assurance, testing, product management, and allocated facilities and information technology expenses. Research and development costs are expensed as incurred.

ChargePoint expects its research and development expenses to increase on an absolute basis for the foreseeable future as ChargePoint continues to invest in research and development activities to achieve its technology and product roadmap.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Research and Development Expenses	\$194,957	\$145,043	\$75,017	\$49,914	34.4%	\$70,026	93.3%
Percentage of total revenue	41.6%	60.2%	51.2%				

Research and development expenses increased during the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 and was primarily attributable to a \$24.9 million increase in compensation related expenses due to headcount growth, a \$12.5 million increase in stock-based compensation expense from restricted stock unit ("RSU") grants, a \$4.0 million increase in engineering materials and services costs, as well as a \$5.5 million increase in depreciation and other expenses.

Sales and Marketing Expenses

Sales and marketing expenses consist primarily of salaries and related personnel expenses, including stock-based compensation, sales commissions, professional services fees, travel, marketing and promotional expenses, bad debt expenses, and allocated facilities and information technology expenses.

ChargePoint expects its sales and marketing expenses to increase on an absolute basis for the foreseeable future while it continues to add sales and marketing personnel, expand its sales channels and expand in Europe.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Sales and marketing expenses	\$142,392	\$92,550	\$53,002	\$49,842	53.9%	\$39,548	74.6%
Percentage of total revenue	30.4%	38.4%	36.2%				

Sales and marketing expenses increased during the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily attributable to a \$20.4 million increase in compensation related expenses due to headcount growth, a \$8.2 million increase in stock-based compensation expense resulting mainly from RSU grants, a \$5.5 million increase in amortization expense mainly due to acquired customer relationship intangible assets from business combinations, a \$3.5 million increase in travel expenses, and a \$3.5 million increase in consulting and marketing expense.

General and Administrative Expenses

General and administrative expenses consist primarily of salaries and related personnel expenses, including stock-based compensation, related to finance, legal and human resource functions, contractor and professional services fees, audit and compliance expenses, insurance costs, and general corporate expenses, including allocated facilities and information technology expenses.

ChargePoint expects its general and administrative expenses to increase in absolute dollars as it continues to grow its business and to operate as a public company, including expenses related to compliance and reporting obligations pursuant to the rules and regulations of the SEC, as well as higher expenses for investor relations and legal, accounting and other professional services.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
General and administrative expenses	\$90,366	\$81,380	\$25,922	\$8,986	11.0%	\$55,458	213.9%
Percentage of total revenue	19.3%	33.8%	17.7%				

General and administrative expenses increased during the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily attributable to a \$9.9 million increase in salary and benefit expenses due to headcount growth, a \$4.7 million increase in stock-based compensation expense resulting mainly from RSU grants, a \$3.2 million increase in consulting expenses, partially offset by a \$6.8 million decrease in professional services fees related to acquisitions and expenses associated with an underwritten secondary offering of shares held by certain selling stockholders and other expense decreases.

Interest Income

Interest income consists primarily of interest earned on ChargePoint's cash, cash equivalents and short-term investments.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Interest income	\$5,534	\$98	\$315	\$5,436	5546.9%	\$(217)	(68.9)%
Percentage of total revenue	1.2%	—%	0.2%				

Interest income increased during fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 due to interest income from short-term investments purchased in fiscal year 2023.

Interest Expense

Interest expense consists primarily of the interest on ChargePoint's 2027 Convertible Notes that were issued in April 2022 which are described more completely below in *Liquidity and Capital Resources*.

	For the Year Ended January 31,			Change			
	2023	2022	2021	2023 vs 2022		2022 vs 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Interest expense	\$(9,434)	\$(1,502)	\$(3,253)	\$(7,932)	528.1%	\$1,751	(53.8)%
Percentage of total revenue	(2.0)%	(0.6)%	(2.2)%				

Interest expense increased during the fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022 primarily due to interest expense on the 2027 Convertible Notes.

Changes in Fair Value of Warrant Liabilities, Earnout Liabilities and Transaction Costs Expensed

The redeemable convertible preferred stock warrant liability was subject to remeasurement to fair value at each balance sheet date. Changes in fair value of redeemable convertible preferred stock warrant liability are

recognized in the consolidated statements of operations. ChargePoint adjusts the liability for changes in fair value until the earlier of the exercise or expiration of the warrants and conversion of redeemable convertible preferred stock into Common Stock. Common stock warrant liabilities consisted of Public Warrants and private placement warrants issued to NGP Switchback, LLC (“Private Placement Warrants”) which ChargePoint assumed in connection with the Merger and which were subject to remeasurement to fair value at each balance sheet date. As of April 30, 2022, all Public Warrants and Private Placement Warrants had been exercised or redeemed. The Company recorded a \$9.2 million change in fair value of redeemable convertible preferred stock warrant liability and \$47.8 million change in fair value in assumed common stock warrant liabilities during the fiscal year ended January 31, 2022. As of January 31, 2023, ChargePoint had no outstanding warrant liabilities.

Contingent earnout liability was accounted for as a liability as of the date of the Merger (as described in Note 12, *Stock Warrants and Earnout*, to ChargePoint’s notes to the consolidated financial statements) and remeasured to fair value until the Earnout Triggering Events (as described in Note 12, *Stock Warrants and Earnout*, to ChargePoint’s notes to the consolidated financial statements) were met for the first two tranches in March 2021 and the corresponding Earnout Shares (as described in Note 12, *Stock Warrants and Earnout*, to ChargePoint’s notes to the consolidated financial statements) were issued. In March 2021, the remaining earnout liability for the third tranche converted to be accounted for as equity. The Company recorded a \$84.4 million change in fair value of contingent earnout liability during the fiscal year ended January 31, 2022 due to the decrease in the fair value of ChargePoint’s Common Stock after consummation of the Merger. The Earnout Triggering Event was met for the third and final tranche in June 2021, and in July 2021, the remaining Earnout Shares were issued. The final Earnout Shares were issued in July 2021, and as such, there was no remaining contingent earnout liability during the fiscal year ended January 31, 2023.

Transaction costs consist of legal, accounting, banking fees and other costs that were directly related to the consummation of the Merger. Transaction costs related to the issuance of shares were recognized in stockholders’ equity (deficit) while costs of \$7.0 million associated with the warrant liabilities and non-capitalized amounts were expensed during the fiscal year ended January 31, 2022 upon the completion of the Merger on February 26, 2021.

Other Income (Expense), Net

Other income (expense), net consists primarily of foreign currency transaction gains and losses.

	Year Ended January 31,			Year-over-Year Change			
	2023	2022	2021	2023 to 2022	2022 to 2021		
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Other income (expense), net	\$(1,569)	\$(2,775)	\$229	\$1,206	(43.5)%	\$(3,004)	(1311.8)%
Percentage of total revenue	(0.3)%	(1.2)%	0.2%				

Other income (expense), net changed from \$(2.8) million during the fiscal year ended January 31, 2022 to \$(1.6) million during the fiscal year ended January 31, 2023 due to favorable changes in foreign exchange rates.

Provision for Income Taxes

ChargePoint's provision for income taxes consists of federal, state and foreign income taxes based on enacted federal, state and foreign tax rates, as adjusted for allowable credits, deductions, uncertain tax positions, changes in deferred tax assets and liabilities and changes in tax law. Due to the level of historical losses, ChargePoint maintains a valuation allowance against U.S. federal and state deferred tax assets as it has concluded it is more likely than not that these deferred tax assets will not be realized.

	Year Ended January 31,			Year-over-Year Change			
	2023	2022	2021	2023 to 2022		2022 to 2021	
	(dollar amounts in thousands, except percentages)			Change (\$)	Change (%)	Change (\$)	Change (%)
Provision (benefit) for income taxes	\$(2,167)	\$(2,930)	\$ 198	\$763	(26.0)%	\$(3,128)	(1579.8)%
Percentage of loss before provision (benefit) for income taxes	0.6%	2.2%	(0.1)%				

The benefit for income taxes decreased during the fiscal year ended January 31, 2023 as compared to fiscal year ended January 31, 2022 primarily due to changes to deferred tax liability.

Liquidity and Capital Resources

Sources of Liquidity

Historical Sources of Liquidity

ChargePoint has incurred net losses and negative cash flows from operations since its inception, which it anticipates will continue for the foreseeable future. To date, ChargePoint has funded its business and the acquisitions of ViriCiti and HTB primarily with proceeds from the issuance of redeemable convertible preferred stock, proceeds from the Merger, proceeds from warrant and option exercises for cash, convertible debt and from customer payments. As of January 31, 2023 and 2022, ChargePoint had cash, cash equivalents and restricted cash and short-term investments of \$399.5 million and \$315.6 million, respectively. ChargePoint believes that its cash and short-term investments, and cash generated from sales to customers will satisfy its working capital and capital requirements for at least the next twelve months.

From inception to January 31, 2023, ChargePoint has raised aggregate net cash proceeds of \$615.7 million from the sale of shares of redeemable convertible preferred stock and \$479.2 million from the Merger and the concurrent purchase by certain investors of shares of Common Stock pursuant to separate subscription agreements (the "PIPE financing").

2027 Convertible Notes

In April 2022, ChargePoint completed a private placement of \$300.0 million aggregate principal amount of 2027 Convertible Notes, which will mature on April 1, 2027 (the "2027 Convertible Notes"). The net proceeds from the sale of the 2027 Convertible Notes were approximately \$294.0 million after deducting initial purchaser discounts and commissions and the Company's offering expenses. ChargePoint expects to use the net proceeds for general corporate purposes.

The 2027 Convertible Notes bear interest at 3.50% per annum, to the extent paid in cash ("Cash Interest"), which is payable semi-annually in arrears on April 1st and October 1st of each year or 5.00% per annum through the issuance of additional 2027 Convertible Notes ("PIK Interest"). The 2027 Convertible Notes are convertible, based on the applicable conversion rate, into cash, shares of ChargePoint Common Stock or a combination thereof, at ChargePoint's election. The initial conversion rate was 41.6119 shares per \$1,000 principal amount of the 2027 Convertible Notes, subject to customary anti-dilution adjustment in certain circumstances, which represented an initial conversion price of approximately \$24.03 per share.

For additional details refer to Note 9, *Debt*, to ChargePoint's notes to the consolidated financial statements in this Annual Report.

Shelf Registration and ATM Facility

On July 1, 2022, ChargePoint filed a registration statement on Form S-3 (File No. 333-265986) with the SEC (that was declared effective by the SEC on July 12, 2022), which permits ChargePoint to offer up to \$1.0 billion of shares of Common Stock, preferred stock, debt securities, warrants and rights in one or more offerings and in any combination, including in units from time to time (the "Shelf Registration Statement"). As part of the Shelf Registration Statement, ChargePoint filed a prospectus supplement registering for sale from time to time up to \$500.0 million shares of Common Stock pursuant to a sales agreement (the "ATM Facility"). During the fiscal year ended January 31, 2023, ChargePoint had generated proceeds of \$49.5 million, net of \$0.5 million of issuance costs in connection with the sale of common stock under the ATM Facility. As of January 31, 2023, \$450.0 million of shares of Common Stock remained available for sale pursuant to the ATM Facility.

Long-Term Liquidity Requirements

ChargePoint has incurred net losses and negative cash flows from operations since inception. Until ChargePoint can generate sufficient revenue to cover its cost of sales, operating expenses, working capital and capital expenditures, it expects to primarily fund cash needs through a combination of equity and debt financing. ChargePoint may borrow funds on terms that may include restrictive covenants, including covenants that restrict the operation of its business, liens on assets, high effective interest rates and repayment provisions that reduce cash resources and limit future access to capital markets. ChargePoint expects to opportunistically seek access to additional funds through public or private equity offerings or debt financings, including through potential sales of Common Stock under its ATM Facility. If ChargePoint raises funds by issuing equity securities or debt securities convertible into equity securities, dilution to stockholders may result. Any equity securities issued may also provide for rights, preferences or privileges senior to those of holders of Common Stock. If ChargePoint raises funds by issuing debt securities, these debt securities would have rights, preferences and privileges senior to those of holders of Common Stock. The terms of debt securities or borrowings could impose significant restrictions on ChargePoint's operations and expose ChargePoint to enhanced risks associated with rising interest rates and elevated inflation experienced globally during fiscal year 2023. The capital markets have in the past, and may in the future, experience periods of higher volatility that could impact the availability and cost of equity and debt financing.

ChargePoint's principal use of cash in recent periods has been funding its operations, the acquisitions of ViriCiti and HTB, and investing in capital expenditures. ChargePoint's future capital requirements will depend on many factors, including its revenue growth rate, the timing and the amount of cash received from customers, the expansion of sales and marketing activities, the timing and extent of spending to support development efforts, expenses associated with its international expansion, the introduction of network enhancements and the continuing market adoption of its Networked Charging Systems. In the future, ChargePoint may enter into arrangements to acquire or invest in complementary businesses, products and technologies. ChargePoint may be required to seek additional equity or debt financing beyond the amounts available to it pursuant to the ATM Facility.

If ChargePoint requires additional financing, it may not be able to raise such financing on acceptable terms or at all, particularly if certain unfavorable economic and market conditions persist or worsen and intensify risks of a potential recession or other economic downturn. If ChargePoint is unable to raise additional capital or generate cash flows necessary to expand its operations and invest in continued innovation, it may not be able to compete successfully, which would harm its business, results of operations and financial condition. If adequate funds are not available, ChargePoint may need to reconsider its expansion plans or limit its research and development activities, which could have a material adverse impact on its business prospects and results of operations.

Cash Flows

For the Fiscal Years Ended January 31, 2023, 2022 and 2021

The following table sets forth a summary of ChargePoint's cash flows for the periods indicated:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands)		
Net cash (used in) provided by:			
Operating activities	\$(267,049)	\$(157,178)	\$(91,846)
Investing activities	(126,154)	(221,740)	35,530
Financing activities	372,859	549,687	128,913
Effects of exchange rates on cash, cash equivalents, and restricted cash	(729)	(1,025)	141
Net increase (decrease) in cash, cash equivalents and restricted cash	\$ (21,073)	\$ 169,744	\$ 72,738

Net Cash Used in Operating Activities

During the year ended January 31, 2023, net cash used in operating activities was \$267.0 million, consisting primarily of a net loss of \$345.1 million and change in operating assets and liabilities of \$64.3 million, offset by an add back of non-cash charges of \$142.4 million. The non-cash charges consisted primarily of \$93.4 million of stock-based compensation expense, \$25.1 million of depreciation, and amortization expense and amortization of deferred contract acquisition costs, \$4.7 million of non-cash operating lease costs and \$16.8 million of other costs. The change in operating assets and liabilities was mainly driven by increases in accounts receivable of \$94.6 million, inventory of \$39.4 million, prepaid expenses and other assets of \$38.0 million and operating lease liabilities of \$5.0 million, offset by increases in deferred revenue of \$51.8 million, accounts payable of \$31.5 million and accrued and other liabilities of \$29.4 million.

During the year ended January 31, 2022, net cash used in operating activities was \$157.2 million, consisting primarily of a net loss of \$132.2 million, partially offset by a decrease in net operating assets of \$17.1 million and non-cash charges of \$42.0 million. The non-cash charges consisted primarily of a \$84.4 million change in the fair value of contingent earnout liability and a \$57.1 million change in the fair value of warrant liabilities, offset by a \$67.3 million stock-based compensation expense, a \$16.5 million depreciation and amortization, and \$7.0 million transaction costs related to the consummation of the Merger. The change in operating assets and liabilities was mainly driven by increases in deferred revenue of \$55.3 million, accrued and other liabilities of \$21.6 million and accounts payable of \$7.9 million, partially offset by an increase in accounts receivable of \$38.4 million and prepaid expenses and other assets of \$23.9 million and a decrease in operating lease liabilities of \$3.5 million.

Net Cash Provided By (Used In) Investing Activities

During the year ended January 31, 2023, net cash used in investing activities was \$126.2 million consisting of cash paid for purchases of short-term investments of \$284.8 million, purchases of property and equipment of \$18.6 million, and additional cash paid for acquisitions (net of cash acquired) related to the acquisition of HTB in the prior year of \$2.8 million, partially offset by cash received from maturities of short-term investments of \$180.0 million.

During the year ended January 31, 2022, net cash provided by investing activities was \$221.7 million, consisting of cash paid for acquisitions, net of cash acquired, of \$205.3 million, partially offset by purchases of property and equipment of \$16.4 million.

Net Cash Provided by Financing Activities

During the year ended January 31, 2023, net cash provided by financing activities was \$372.9 million, consisting of net proceeds from the issuance of convertible debt of \$294.0 million, proceeds from the sale of common stock under the ATM Facility, net of commissions and fees, of \$49.5 million, proceeds from the issuance of common stock under employee equity plans, net of tax withholdings, of \$11.4 million, proceeds from the exercise of stock options and warrants of \$6.9 million, and change in driver funds and amounts due to customers of \$11.1 million.

During the year ended January 31, 2022, net cash provided by financing activities was \$549.7 million, consisting of net proceeds from the Merger and PIPE financing of \$511.6 million, proceeds from the exercise of warrants of \$118.9 million and proceeds from exercises of vested and unvested stock options of \$4.9 million and change in driver funds and amounts due to customers of \$3.7 million, partially offset by repayment of borrowings of \$36.1 million, payment of transaction costs related to the Merger of \$32.5 million and payment of tax withholding obligations on settlement of Earnout Shares of \$20.9 million.

Contractual Obligations and Commitments

ChargePoint's material cash requirements include the following contractual obligations and commitments as of January 31, 2023. For more information regarding ChargePoint's other contractual obligations, refer to Note 10, *Commitments and Contingencies*, to its notes to the consolidated financial statements included elsewhere in this Annual Report.

Operating Lease Obligations

ChargePoint has operating lease obligations for office spaces and data centers. As of January 31, 2023, ChargePoint had lease payment obligations of \$32.8 million, with \$6.7 million payable within twelve months.

Purchase Commitments

From time to time in the ordinary course of business, ChargePoint enters into agreements with vendors for the purchase of components and raw materials. However, due to contractual terms and variability in production levels, and opportunities to renegotiate pricing, ChargePoint generally does not have long-term binding and enforceable purchase orders under such contracts, and the timing and magnitude of purchase orders beyond such period is difficult to accurately project.

Critical Accounting Policies and Estimates

Management's discussion and analysis of ChargePoint's financial condition and results of operations is based on its consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these consolidated financial statements requires ChargePoint to make estimates and assumptions for the reported amounts of assets, liabilities, revenue, expenses and related disclosures. ChargePoint's estimates are based on its historical experience and on various other factors that it believes are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions and any such differences may be material.

While ChargePoint's significant accounting policies are described in more detail in Note 2, *Summary of Significant Accounting Policies*, to its consolidated financial statements included elsewhere in this Annual Report, it believes the following accounting policies and estimates to be most critical to the preparation of its consolidated financial statements.

Revenue Recognition

ChargePoint recognizes revenue using the five-step model in determining revenue recognition: (a) identification of the contract, or contracts, with a customer; (b) identification of the performance obligations in the contract; (c) determination of the transaction price; (d) allocation of the transaction price to the performance obligations in the contract; and (e) recognition of revenue when, or as, it satisfies a performance obligation.

ChargePoint enters into contracts with customers that regularly include promises to transfer multiple products and services, such as Networked Charging Systems, software subscriptions, extended maintenance, and professional services. For arrangements with multiple products and services, ChargePoint evaluates whether the individual products and services qualify as distinct performance obligations. In ChargePoint's assessment of whether products and services are a distinct performance obligation, it determines whether the customer can benefit from the product or service on its own or with other readily available resources and whether the service is separately identifiable from other products or services in the contract. This evaluation requires ChargePoint to assess the nature of each of its Networked Charging Systems, subscriptions and other offerings and how they are provided in the context of the contract, including whether they are significantly integrated which may require judgment based on the facts and circumstances of the contract.

The transaction price for each contract is determined based on the amount ChargePoint expects to be entitled to receive in exchange for transferring the promised products or services to the customer. Collectability of revenue is reasonably assured based on historical evidence of collectability of fees ChargePoint charges its customers. The transaction price in the contract is allocated to each distinct performance obligation in an amount that represents the relative amount of consideration expected to be received in exchange for satisfying each performance obligation. Revenue is recognized when performance obligations are satisfied. Revenue is recorded based on the transaction price excluding amounts collected on behalf of third parties such as sales taxes, which are collected on behalf of and remitted to governmental authorities, or driver fees, which are collected on behalf of customers who offer public charging for a fee.

When agreements involve multiple distinct performance obligations, ChargePoint accounts for individual performance obligations separately. ChargePoint applies significant judgment in identifying and accounting for each performance obligation as a result of evaluating terms and conditions in contracts. The transaction price is allocated to the separate performance obligations on a relative standalone selling price ("SSP") basis. ChargePoint determines SSP based on observable standalone selling price when it is available, as well as other factors, including the price charged to its customers, its discounting practices and its overall pricing objectives, while maximizing observable inputs. In situations where pricing is highly variable, or a product is never sold on a stand-alone basis, ChargePoint estimates the SSP using the residual approach.

Areas of Judgment and Estimates

Determining whether the Networked Charging Systems, Cloud, Assure and professional services are considered distinct performance obligations that should be accounted for separately or as a single performance obligation requires significant judgment. In reaching its conclusion, ChargePoint assesses the nature of each individual service offering and how the services are provided in the context of the contract, including whether the services are significantly integrated, which may require judgment based on the facts and circumstances of the contract.

Determining the relative SSP for contracts that contain multiple performance obligations requires significant judgment. ChargePoint determines SSP using observable pricing when available, which takes into consideration market conditions and customer specific factors while maximizing observable inputs. When observable pricing is not available, ChargePoint applies the residual approach to estimate the SSP. After establishing the SSP, ChargePoint then allocates the transaction price using the relative selling price method.

Inventory

Inventory is stated at the lower of cost or net realizable value. Cost is computed using standard cost, which approximates actual cost, on a first-in, first-out basis. Inventory levels are analyzed periodically and written down to their net realizable value if they have become obsolete, have a cost basis in excess of expected net realizable value or are in excess of expected demand. ChargePoint analyzes current and future product demand relative to the remaining product life to identify potential excess inventories. These forecasts of future demand are based upon historical trends and adjusted for overall market conditions. Inventory write-downs are measured as the difference between the cost of the inventory and its net realizable value, and charged to inventory reserves, which is a component of cost of revenue. At the point of the loss recognition, a new, lower cost basis for those inventories is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis.

Business Combination

Business combinations are accounted for under the acquisition method. Assets acquired and liabilities assumed as part of a business acquisition are generally recorded at their estimated fair value at the date of acquisition. The excess of purchase price over the amount allocated to the assets acquired and liabilities assumed, if any, is recorded as goodwill. In determining the fair value of assets acquired, including intangible assets, and liabilities assumed, ChargePoint utilizes a variety of methods. Each asset acquired and liability assumed is measured at fair value from the perspective of a market participant. The method used to estimate the fair values of intangible assets incorporates significant estimates and assumptions regarding the estimates a market participant would make in order to evaluate an asset, including a market participant's use of the asset, future cash inflows and outflows, probabilities of success, asset lives and the appropriate discount rates. This judgment and determination affects the amount of consideration paid that is allocated to assets acquired and liabilities assumed in the business purchase transaction. The Company engages third-party appraisal firms to assist in determining fair value of assets acquired and liabilities assumed when appropriate.

During the remeasurement period, which extends no later than one year from the acquisition date, ChargePoint may record certain adjustments to the carrying value of the assets acquired and liabilities assumed with a corresponding offset to goodwill.

Stock-based Compensation

Determining the grant date fair value of employee stock purchase plan ("ESPP") rights using the Black-Scholes option-pricing model requires management to make certain assumptions and judgments. These estimates involve inherent uncertainties, and, if different assumptions had been used, stock-based compensation expense could have been materially different from the amounts recorded. Stock-based compensation is measured at the grant date, based on the fair value of the award and is recognized as an expense, net of estimated forfeitures, on a straight-line basis over the requisite service period. ChargePoint estimates the forfeiture rate based on the historical experience at the date of grant and revises it, if necessary, in subsequent periods if actual forfeitures differ from those estimates. For performance-based stock options issued, the value of the award is measured at the grant date as the fair value of the award and is expensed over the requisite service period, using the accelerated attribution method, once the performance condition becomes probable of being achieved. These inputs are subjective and generally required significant analysis and judgment to develop.

The determination of the grant date fair value of ESPP rights issued is affected by a number of variables, including the expected Common Stock price volatility over the term of the award, the expected term of the award, risk-free interest rates, and the expected dividend yield of ChargePoint Common Stock.

- **Expected volatility:** The expected volatility for the ESPP rights was determined by using a blended volatility approach of peer volatility and implied volatility. Peer volatility was calculated as the average of historical volatilities of selected industry peers deemed to be comparable to ChargePoint's business corresponding to the expected term of the awards.

- Risk-free interest rate: The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for zero-coupon U.S. Treasury notes with maturities corresponding to the expected term of the awards.
- Expected dividend yield: The expected dividend rate is zero as ChargePoint currently has no history or expectation of declaring dividends on its Common Stock.
- Expected term: The expected term represented the period the ESPP rights were expected to remain outstanding and is based on historical experience of similar awards, giving consideration to the contractual terms of the stock-based awards, vesting schedules, and expectations of future employee behavior.

Income Taxes

ChargePoint utilizes the asset and liability method in accounting for income taxes. Deferred tax assets and liabilities reflect the estimated future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax expense or benefit is the result of changes in the deferred tax asset and liability. Valuation allowances are established when necessary to reduce deferred tax assets where it is more likely than not that the deferred tax assets will not be realized. ChargePoint makes estimates, assumptions and judgments to determine its provision for its income taxes, deferred tax assets and liabilities, and any valuation allowance recorded against deferred tax assets. ChargePoint assesses the likelihood that its deferred tax assets will be recovered from future taxable income, and to the extent it believes that recovery is not likely, it establishes a valuation allowance.

ChargePoint recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. Interest and penalties related to unrecognized tax benefits which, have not been material, are recognized within provision for income taxes.

Recent Accounting Pronouncements

See Note 2, *Summary of Significant Accounting Policies*, of the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for more information regarding recently issued accounting pronouncements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

ChargePoint is exposed to market risk for changes in interest rates. ChargePoint had cash, cash equivalents and restricted cash totaling \$294.6 million and short-term investments of \$105.0 million as of January 31, 2023. Cash equivalents were invested primarily in money market funds. ChargePoint's investment policy is focused on the preservation of capital and supporting its liquidity needs. Under the policy, ChargePoint invests in highly rated securities, issued by the U.S. government, and short durations or liquid money market funds. ChargePoint does not invest in financial instruments for trading or speculative purposes, nor does it use leveraged financial instruments. ChargePoint utilizes external investment managers who adhere to the guidelines of its investment policy. A hypothetical 10% change in interest rates would not have a material impact on the value of ChargePoint's cash, cash equivalents and short-term investments. There was no material change in ChargePoint's interest rate risk during fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022.

Foreign Currency Risk

ChargePoint has foreign currency risks related to its revenue and operating expenses denominated in currencies other than the U.S. dollar, primarily the euro, causing both its revenue and its operating results to be impacted by fluctuations in the exchange rates. As ChargePoint's foreign operations expand, its results may be more materially impacted by fluctuations in the exchange rates of the currencies in which it does business.

Gains or losses from the revaluation of certain cash balances, accounts receivable balances and intercompany balances that are denominated in these currencies can impact ChargePoint's net loss. A hypothetical decrease in all foreign currencies against the U.S. dollar of 10% would not result in a material foreign currency loss on foreign-denominated balances, as of January 31, 2023. There was no material change in ChargePoint's foreign currency risk during fiscal year ended January 31, 2023 compared to fiscal year ended January 31, 2022.

At this time, ChargePoint does not enter into financial instruments to hedge its foreign currency exchange risk, but it may in the future.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of ChargePoint Holdings, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of ChargePoint Holdings, Inc. and its subsidiaries (the “Company”) as of January 31, 2023 and 2022, and the related consolidated statements of operations, of comprehensive loss, of redeemable convertible preferred stock and stockholders’ equity (deficit) and of cash flows for each of the three years in the period ended January 31, 2023, including the related notes (collectively referred to as the “consolidated financial statements”). We also have audited the Company’s internal control over financial reporting as of January 31, 2023, based on criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of January 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended January 31, 2023 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company did not maintain, in all material respects, effective internal control over financial reporting as of January 31, 2023, based on criteria established in Internal Control—Integrated Framework (2013) issued by the COSO because material weaknesses in internal control over financial reporting existed as of that date related to the Company not designing and maintaining (i) effective controls over certain information technology general controls for information systems that are relevant to the preparation of the Company’s consolidated financial statements, including effective controls over program change management, user access, and program development and (ii) effective controls over segregation of duties.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weaknesses referred to above are described in Management’s Report on Internal Control over Financial Reporting appearing under Item 9A. We considered these material weaknesses in determining the nature, timing, and extent of audit tests applied in our audit of the January 31, 2023 consolidated financial statements, and our opinion regarding the effectiveness of the Company’s internal control over financial reporting does not affect our opinion on those consolidated financial statements.

Basis for Opinions

The Company’s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in management’s report referred to above. Our responsibility is to express opinions on the Company’s consolidated financial statements and on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Consolidated Financial Statements – Impact of Personnel and Controls Related to Financial Reporting

The completeness and accuracy of the consolidated financial statements, including the financial condition, results of operations and cash flows, is dependent on, in part, (i) maintaining a sufficient complement of personnel with an appropriate degree of accounting knowledge, experience and training to appropriately analyze, record and disclose accounting matters; (ii) designing and maintaining formal accounting policies, procedures and controls over significant accounts and disclosures to achieve complete, accurate and timely financial accounting, reporting and disclosures, including accounting for complex features associated with warrants and adequate controls related to the preparation and review of journal entries; (iii) designing and maintaining controls over segregation of duties; and (iv) designing and maintaining controls over information technology general controls for information systems that are relevant for the Company's financial statements, including controls over program change management, user access, and program development.

The principal considerations for our determination that the consolidated financial statements—impact of personnel and controls related to financial reporting is a critical audit matter are a high degree of auditor subjectivity and effort in performing procedures and evaluating audit evidence related to business processes that affect substantially all financial statement account balances and disclosures. As disclosed by management, material weaknesses existed during the year related to management not designing and maintaining (i) a sufficient complement of personnel with an appropriate degree of accounting knowledge, experience and training to appropriately analyze, record and disclose accounting matters and (ii) formal accounting policies, procedures and controls over significant accounts and disclosures to achieve complete, accurate and timely financial accounting, reporting and disclosures, including accounting for complex features associated with warrants and adequate controls related to the preparation and review of journal entries. As described in the “Opinions on the Financial Statements and Internal Control over Financial Reporting” section, material weaknesses related to not designing and maintaining (i) effective controls over certain information technology general controls for information systems that are relevant to the preparation of the Company’s consolidated financial statements, including effective controls over program change management, user access, and program development and (ii) effective controls over segregation of duties existed as of January 31, 2023 related to this matter.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included, among others, evaluating and determining the nature and extent of audit procedures performed and evidence obtained that are responsive to the material weaknesses identified. These procedures also included (i) manually testing the completeness and accuracy of system reports or other information generated by the Company’s information systems; (ii) evaluating whether segregation of duties was maintained; and (iii) evaluating whether management designed and maintained formal accounting policies, procedures and controls over significant accounts and disclosures to achieve complete, accurate and timely financial accounting, reporting and disclosures, including accounting for complex features associated with warrants and adequate controls related to the preparation and review of journal entries.

ChargePoint Holdings, Inc.
Notes to Consolidated Financial Statements

1. Description of Business and Basis of Presentation

ChargePoint Holdings, Inc. (“ChargePoint” or the “Company”, “it”, “its”) designs, develops and markets networked electric vehicle (“EV”) charging system infrastructure (“Networked Charging Systems”), connected through cloud-based services (“Cloud” or “Cloud Services”) which (i) enable charging system owners, or hosts, to manage their Networked Charging Systems, and (ii) enable drivers to locate, reserve and authenticate Networked Charging Systems, and to transact EV charging sessions on those systems. ChargePoint’s Networked Charging Systems, subscriptions and other offerings provide an open platform that integrates with system hardware from ChargePoint and other manufacturers, connecting systems over an intelligent network that provides real-time information about charging sessions and full control, support and management of the Networked Charging Systems. This network provides multiple web-based portals for charging system owners, fleet managers, drivers and utilities. In addition, the Company offers a range of extended warranties (“Assure”), as well as its ChargePoint as a Service (“CPaaS”) program which bundles use of ChargePoint owned and operated systems with Cloud Services, Assure and other benefits into one subscription.

On September 23, 2020, ChargePoint, Inc. entered into a merger agreement (the “Merger Agreement”) with Switchback Energy Acquisition Corporation (“Switchback”).

On February 26, 2021 (the “Closing Date”), Switchback consummated the previously announced transactions contemplated by the Merger Agreement pursuant to which Lightning Merger Sub Inc., a wholly-owned subsidiary of Switchback incorporated in the State of Delaware (“Merger Sub”), merged with ChargePoint, Inc., a Delaware corporation (“Legacy ChargePoint”); Legacy ChargePoint survived as a wholly-owned subsidiary of Switchback (the “Merger” and, collectively with the other transactions described in the Merger Agreement, the “Reverse Recapitalization”). On the Closing Date, and in connection with the closing of the Merger (the “Closing”), Switchback changed its name to ChargePoint Holdings, Inc. As part of the Merger, certain investors purchased an aggregate of 22,500,000 shares of common stock (“PIPE Investors”) concurrently with the Closing for an aggregate purchase price of \$225.0 million.

The Company’s fiscal year ends on January 31. References to fiscal years 2023, 2022, and 2021 relate to the fiscal years ended January 31, 2023, January 31, 2022, and January 31, 2021, respectively.

Basis of Presentation

The consolidated financial statements and accompanying notes have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company’s consolidated financial statements have been prepared on the basis of continuity of operations, the realization of assets, and the satisfaction of liabilities in the ordinary course of business. Since inception, the Company has been engaged in developing and marketing its Networked Charging Systems, subscriptions and other offerings, raising capital, and recruiting personnel and it has incurred net operating losses and negative cash flows from operations in every year since inception and expects this to continue for the foreseeable future. As of January 31, 2023, the Company had an accumulated deficit of \$1,156.8 million.

The Company has funded its operations primarily with proceeds from the issuance of redeemable convertible preferred stock, convertible notes, exercise proceeds from options and warrants, borrowings under its loan facilities, customer payments, proceeds from sale of Common Stock under the ATM Facility, and proceeds from the Merger. In February 2021, the Company received cash proceeds of \$484.1 million from the Merger. The

Company had cash, cash equivalents, and restricted cash and short-term investments of \$399.5 million as of January 31, 2023. As of the date on which these consolidated financial statements were issued, the Company believes that its cash on hand, together with cash generated from sales to customers, will satisfy its working capital and capital requirements for at least the next twelve months following the issuance of the consolidated financial statements. The Company's operating plan may change as a result of many factors currently unknown and there can be no assurance that the current operating plan will be achieved at the levels or in the time frame anticipated by the Company, and it may need to seek additional funds sooner than planned. If adequate funds are not available to the Company on a timely basis, it may be required to delay, limit, reduce, or terminate certain commercial efforts, or pursue merger or acquisition strategies, all of which could adversely affect the holdings or the rights of the Company's stockholders.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of the accompanying consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amounts of revenue and expenses. Actual results and outcomes could differ significantly from the Company's estimates, judgments, and assumptions. Significant estimates include determining standalone selling price for performance obligations in contracts with customers, the estimated expected benefit period for deferred contract acquisition costs, allowances for expected credit losses, inventory reserves, the useful lives of long-lived assets, the determination of the incremental borrowing rate used for operating lease liabilities, valuation of acquired goodwill and intangible assets, the value of common stock and other assumptions used to measure stock-based compensation, and the valuation of deferred income tax assets and uncertain tax positions. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. The Company adjusts such estimates and assumptions when facts and circumstances dictate. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods. As future events and their effects cannot be determined with precision, actual results could materially differ from those estimates and assumptions.

Concentration of Credit Risk and Other Risks and Uncertainties

Financial instruments that potentially subject the Company to credit risk consist primarily of cash and cash equivalents, short-term investments, and accounts receivable. Cash and cash equivalents are held in domestic and foreign cash accounts across large, creditworthy financial institutions. The Company has not experienced any losses on its deposits of cash and cash equivalents through deposits with federally insured commercial banks and at times cash balances may be in excess of federal insurance limits. Short-term investments consist of U.S. treasury bills that carry high-credit ratings and accordingly, minimal credit risk exists with respect to these balances.

Accounts receivable are stated at the amount the Company expects to collect. The Company generally does not require collateral or other security in support of accounts receivable. To reduce credit risk, management performs ongoing credit evaluations of its customers' financial condition.

Concentration of credit risk with respect to trade accounts receivable is considered to be limited due to the diversity of the Company's customer base and geographic sales areas. As of January 31, 2023, one customer individually accounted for 10% or more of accounts receivable, net. As of January 31, 2022, there was no customer that accounted for 10% or more of accounts receivable, net. For the year ended January 31, 2023, there was one customer that represented 10% or more of total revenue. For the years ended January 31, 2022, and 2021 there were no customers that represented 10% or more of total revenue.

The Company's revenue is concentrated in the infrastructure needed for charging EVs, an industry which is highly competitive and rapidly changing. Significant technological changes within the industry or customer requirements, or the emergence of competitive products with new capabilities or technologies, could adversely affect the Company's operating results.

Segment Reporting

Operating segments are defined as components of an entity where discrete financial information is evaluated regularly by the chief operating decision maker ("CODM") in deciding how to allocate resources and in assessing performance. The Company operates as one operating segment because its CODM, who is its Chief Executive Officer, reviews its financial information on a consolidated basis for purposes of making decisions regarding allocating resources and assessing performance. The Company has no segment managers who are held accountable by the CODM for operations, operating results, and planning for levels of components below the consolidated unit level.

Cash, Cash Equivalents, and Restricted Cash

The Company considers all highly liquid investments with an original maturity of three months or less, when purchased, to be cash equivalents. Cash equivalents may be invested in money market funds. Cash and cash equivalents are carried at cost, which approximates their fair value.

Restricted cash relates to cash deposits restricted under letters of credit issued in support of customer and contract manufacturer agreements.

The reconciliation of cash, cash equivalents, and restricted cash to amounts presented in the consolidated statements of cash flows were as follows:

	January 31,		
	2023	2022	2021
	(in thousands)		
Cash and cash equivalents	\$264,162	\$315,235	\$145,491
Restricted cash	30,400	400	400
Total cash, cash equivalents, and restricted cash	\$294,562	\$315,635	\$145,891

Short-Term Investments

The Company's portfolio of marketable debt securities is comprised solely of U.S. government securities with maturities of more than three months, but less than one year. The Company classifies these as available-for-sale at purchase date and will reevaluate such designation at each period end date. The Company may sell these marketable debt securities prior to their stated maturities depending upon changing liquidity requirements.

These debt securities are classified as current assets in the consolidated balance sheet and recorded at fair value, with unrealized gains or losses included in accumulated other comprehensive income (loss) and as a component of the consolidated statements of comprehensive loss.

Gains and losses are recognized when realized. Gains and losses are determined using the specific identification method and are reported in other income (expense), net in the consolidated statements of operations.

An impairment loss may be recognized when the decline in fair value of the debt securities is determined to be other-than-temporary. The Company evaluates its investments for other-than-temporary declines in fair value

below the cost basis each quarter, or whenever events or changes in circumstances indicate that the cost basis of the short-term investments may not be recoverable. The evaluation is based on a number of factors, including the length of time and the extent to which the fair value has been below the cost basis, as well as adverse conditions related specifically to the security, such as any changes to the credit rating of the security and the intent to sell or whether the Company will more likely than not be required to sell the security before recovery of its amortized cost basis. Credit-related impairment losses, not to exceed the amount that fair value is less than the amortized cost basis, are recognized through an allowance for credit losses with changes in the allowance for credit losses recorded in other income (expense), net in the consolidated statements of operations. Accrued interest receivable is excluded from the estimate of credit losses.

Accounts Receivable, net

Accounts receivable for products, services and in certain scenarios charging sessions are recorded at the invoiced amount and are non-interest bearing. The Company performs ongoing credit evaluations of its customers and maintains an allowance for expected credit losses related to its existing accounts receivable and net realizable value to ensure trade receivables are not overstated due to uncollectibility. Allowances are provided for individual accounts receivable when the Company becomes aware of a customer's inability to meet its financial obligations, such as in the case of bankruptcy, deterioration in the customer's operating results, or change in financial position. If circumstances related to customers change, estimates of the recoverability of receivables are further adjusted. The Company also considers broader factors in evaluating the sufficiency of its allowances, including the length of time receivables are past due, macroeconomic conditions, significant one-time events, and historical experience. When the Company determines that there are accounts receivable that are uncollectible, they are written off against the allowance. The change in the allowance for expected credit losses for the years ended January 31, 2023, 2022, and 2021 was as follows:

	<u>Beginning Balance</u>	<u>Additions Charged To Expense</u>	<u>Write-offs</u>	<u>Ending Balance</u>
	(in thousands)			
Year ended January 31, 2023				
Allowance for expected credit losses	\$5,584	\$6,353	\$(1,937)	\$10,000
Year ended January 31, 2022				
Allowance for expected credit losses	\$2,000	\$3,835	\$ (251)	\$ 5,584
Year ended January 31, 2021				
Allowance for expected credit losses	\$2,000	\$ 121	\$ (121)	\$ 2,000

Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is computed using standard cost, which approximates actual cost, on a first-in, first-out basis. Inventory levels are analyzed periodically and written down to their net realizable value if they have become obsolete, have a cost basis in excess of expected net realizable value or are in excess of expected demand. The Company analyzes current and future product demand relative to the remaining product life to identify potential excess inventories. The write-down is measured as the difference between the cost of the inventories and net realizable value and charged to inventory reserves, which is a component of cost of revenue. At the point of the loss recognition, a new, lower cost basis for those inventories is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis.

Property and Equipment, net

Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets, as follows:

	Useful Lives
Furniture and fixtures	3 to 5 years
Computers and software	3 to 5 years
Machinery and equipment	3 to 5 years
Tooling	3 to 5 years
Leasehold improvements	Shorter of the estimated lease term or useful life
Owned and operated systems	5 to 7 years

Leasehold improvements are amortized over the shorter of estimated useful lives of the assets or the lease term. Expenditures for repairs and maintenance are charged to expense as incurred. Upon disposition, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in the consolidated statements of operations.

ChargePoint-as-a-Service (“CPaaS”) combines the customer’s use of the Company’s owned and operated systems with Cloud subscription software (“Cloud”) and the Company’s Assure program (“Assure”) into a single subscription. When CPaaS contracts contain a lease, the underlying asset is carried at its carrying value within property and equipment, net on the consolidated balance sheets.

Internal-Use Software Development Costs

The Company capitalizes qualifying internal-use software development costs incurred during the application development stage for internal tools and cloud-based applications used to deliver its services, provided that management with the relevant authority authorizes and commits to the funding of the project, it is probable the project will be completed, and the software will be used to perform the function intended. Costs related to preliminary project activities and post implementation activities are expensed as incurred. Capitalized internal-use software development costs are included in property and equipment and are amortized on a straight-line basis over their estimated useful lives once it is ready for its intended use. Amortization of capitalized internal-use software development costs is included within cost of revenue for Networked Charging Systems and subscriptions, research and development expense, sales and marketing expense, and general and administrative expense based on the use of the software. Costs incurred for enhancements that are expected to result in additional material functionality are capitalized. As of January 31, 2023 and 2022 capitalized costs have not been material.

Leases

Lessee

The Company determines if a contract is a lease or contains a lease at the inception of the contract and reassesses that conclusion if the contract is modified. All leases are assessed for classification as an operating lease or a finance lease. Operating lease right-of-use (“ROU”) assets are presented separately on the Company’s consolidated balance sheets. Operating lease liabilities are separated into a current portion, included within accrued and other current liabilities on the Company’s consolidated balance sheets, and a noncurrent portion included within operating lease liabilities on the Company’s consolidated balance sheets. The Company does not have material finance leases. ROU assets represent the Company’s right to use an underlying asset for the lease term and lease liabilities represent its obligation to make lease payments arising from the lease. The Company does not obtain and control its right to use the asset until the lease commencement date.

The Company's lease liabilities are recognized at the applicable lease commencement date based on the present value of the lease payments required to be paid over the lease term. As the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate to discount the lease payments to present value. The estimated incremental borrowing rate is derived from information available at the lease commencement date. The Company's ROU assets are also recognized at the applicable lease commencement date. The ROU asset equals the carrying amount of the related lease liability, adjusted for any lease payments made prior to lease commencement and lease incentives provided by the lessor. Variable lease payments are expensed as incurred and do not factor into the measurement of the applicable ROU asset or lease liability.

The term of the Company's leases equals the non-cancellable period of the lease, including any rent-free periods provided by the lessor, and also includes options to renew or extend the lease (including by not terminating the lease) that the Company is reasonably certain to exercise. The Company establishes the term of each lease at lease commencement and reassesses that term in subsequent periods when one of the triggering events outlined in ASC 842 occurs. Operating lease cost for lease payments is recognized on a straight-line basis over the lease term.

The Company's lease contracts often include lease and non-lease components. The Company has elected the practical expedient offered by the standard to not separate the lease from non-lease components and accounts for them as a single lease component.

The Company elected the package of practical expedients permitted under the transition guidance, which allows the Company to carry forward its historical lease classification, its assessment on whether a contract is or contains a lease, and its initial direct costs for any leases that existed prior to adoption of the new standard. The Company has elected, for all classes of underlying assets, not to recognize ROU assets and lease liabilities for leases with a term of twelve months or less. Lease cost for short-term leases is recognized on a straight-line basis over the lease term.

Lessor

The Company leases Networked Charging Systems to customers within certain CPaaS contracts. The leasing arrangements the Company enters into with lessees are operating leases, and as a result, the underlying asset is carried at its carrying value as owned and operated systems within property and equipment, net on the consolidated balance sheets.

Impairment of Long-Lived Assets

The Company evaluates long-lived assets or asset groups for impairment whenever events indicate that the carrying amount of an asset or asset group may not be recoverable based on expected future cash flows attributable to that asset or asset group. Recoverability of assets held and used is measured by comparison of the carrying amounts of an asset or an asset group to the estimated future undiscounted cash flows which the asset or asset group is expected to generate. If the carrying amount of an asset or asset group exceeds estimated undiscounted future cash flows, then an impairment charge would be recognized based on the excess of the carrying amount of the asset or asset group over its fair value. Assets to be disposed of are reported at the lower of their carrying amount or fair value less costs to sell. There were no impairments of long-lived assets for the years ended January 31, 2023, 2022, and 2021.

Business Combinations

The total purchase consideration for an acquisition is measured as the fair value of the assets transferred, equity instruments issued, and liabilities assumed at the acquisition date. Costs that are directly attributable to the acquisition are expensed as incurred and included in general and administrative expense in the Company's consolidated statements of operations. Identifiable assets (including intangible assets), liabilities assumed

(including contingent liabilities), and noncontrolling interests in an acquisition are measured initially at their fair values at the acquisition date. The Company recognizes goodwill if the fair value of the total purchase consideration and any noncontrolling interests is in excess of the net fair value of the identifiable assets acquired and the liabilities assumed. Determining the fair value of assets acquired and liabilities assumed requires management to use significant judgment and estimates including the selection of valuation methodologies, cost of capital, future cash flows, and discount rates. The Company's estimates of fair value are based on assumptions believed to be reasonable, but which are inherently uncertain and unpredictable and, as a result, actual results may differ from estimates. During the measurement period, not to exceed one year from the date of acquisition, the Company may record adjustments to the assets acquired and liabilities assumed, with a corresponding offset to goodwill. The Company includes the results of operations of the acquired business in the consolidated financial statements beginning on the acquisition date.

Goodwill

Goodwill represents the excess of the purchase price of an acquired business over the fair value of the net tangible and identifiable intangible assets acquired. The carrying amount of goodwill is reviewed for impairment at least annually, in the fourth quarter, or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. As of January 31, 2023 and 2022, the Company had a single operating segment and reporting unit structure. As part of the annual goodwill impairment test performed in the fourth quarter, the Company first performs a qualitative assessment to determine whether further impairment testing is necessary. If, as a result of the qualitative assessment, it is more likely than not that the fair value of the reporting unit is less than its carrying amount, the quantitative impairment test will be required. If the Company has determined it necessary to perform a quantitative impairment assessment, the Company will compare the fair value of the reporting unit with its carrying amount and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, limited to the total amount of goodwill of the reporting unit. The carrying value of goodwill was \$213.7 million as of January 31, 2023 and \$218.5 million as of January 31, 2022, and no goodwill impairment has been recognized to date.

Intangible Assets

Intangible assets consist primarily of customer relationships and developed technology. Acquired intangible assets are initially recorded at the acquisition-date fair value and amortized on a straight line basis over their estimated useful lives ranging from six to ten years.

Fair Value of Financial Instruments

Fair value is defined as an exchange price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. Assets and liabilities measured at fair value are classified into the following categories based on the inputs used to measure fair value:

- (Level 1) — Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;
- (Level 2) — Inputs other than quoted prices in active markets that are observable for the asset or liability, either directly or indirectly; and
- (Level 3) — Inputs that are unobservable for the asset or liability.

The Company classifies financial instruments in Level 3 of the fair value hierarchy when there is reliance on at least one significant unobservable input to the valuation model. In addition to these unobservable inputs, the valuation models for Level 3 financial instruments typically also rely on a number of inputs that are readily observable, either directly or indirectly. The Company's assessment of a particular input to the fair value

measurement requires management to make judgments and consider factors specific to the asset or liability. The fair value hierarchy requires the use of observable market data when available in determining fair value. The Company recognizes transfers between levels within the fair value hierarchy, if any, at the end of each period. There were no transfers between levels during the periods presented. The Company had no material non-financial assets valued on a non-recurring basis that resulted in an impairment in any period presented.

The carrying values of the Company's cash equivalents, accounts receivable, net, accounts payable, and accrued and other current liabilities approximate fair value based on the highly liquid, short-term nature of these instruments.

Redeemable Convertible Preferred Stock Warrants

As discussed in Note 12, *Stock Warrants and Earnout*, upon the effectiveness of the Merger, substantially all of the outstanding redeemable convertible preferred stock warrants were converted into shares of Common Stock. As such, the associated warrant liability was reclassified to additional paid-in-capital upon the Merger and was no longer an outstanding Level 3 financial instrument as of January 31, 2023 and 2022.

Prior to the Merger, the Company evaluated whether its warrants to purchase shares of redeemable convertible preferred stock were freestanding financial instruments that obligated the Company to redeem the underlying preferred stock at some point in the future and determined that each of its outstanding warrants for preferred stock were liability classified. Redeemable convertible preferred stock warrants were recorded within noncurrent liabilities on the consolidated balance sheets. The warrants were recorded at fair value upon issuance and were subject to remeasurement to fair value at each balance sheet date. Changes in fair value of the redeemable convertible preferred stock warrant liability were recorded in the consolidated statements of operations.

Common Stock Warrant Liabilities

The Company assumed 10,470,562 publicly-traded warrants ("Public Warrants") and 6,521,568 private placement warrants issued to NGP Switchback, LLC, the sponsor of Switchback ("Private Placement Warrants" and, together with the Public Warrants, the "Common Stock Warrants") upon the Merger, all of which were issued in connection with Switchback's initial public offering and subsequent overallotment (other than 1,000,000 Private Placement Warrants which were issued in connection with the closing of the Merger) and entitle the holder to purchase one share of the Company's Common Stock, par value \$0.0001 ("Common Stock"), at an exercise price of \$11.50 per share. During the fiscal year ended January 31, 2023, the remaining 10,435 Private Placement Warrants were exercised. As of January 31, 2023, no Common Stock Warrants remain outstanding.

The Company evaluated the Common Stock Warrants and concluded that they do not meet the criteria to be classified within stockholders' equity. The agreement governing the Common Stock Warrants includes a provision ("Replacement of Securities Upon Reorganization"), the application of which could result in a different settlement value for the Common Stock Warrants depending on their holder. Because the holder of an instrument is not an input into the pricing of a fixed-for-fixed option on the Company's ordinary shares, the Private Placement Warrants are not considered to be "indexed to the Company's own stock." In addition, the provision provides that in the event of a tender or exchange offer accepted by holders of more than 50% of the outstanding shares of the Company's ordinary shares, all holders of the Common Stock Warrants (both the Public Warrants and the Private Placement Warrants) would be entitled to receive cash for all of their Common Stock Warrants. Specifically, in the event of a qualifying cash tender offer (which could be outside of the Company's control), all Common Stock Warrant holders would be entitled to cash, while only certain of the holders of the Company's ordinary shares may be entitled to cash. These provisions preclude the Company from classifying the Common Stock Warrants in stockholders' equity. As the Common Stock Warrants meet the definition of a derivative, the Company recorded these warrants as liabilities on the consolidated balance sheets at fair value, with subsequent

changes in their respective fair values recognized in the consolidated statements of operations and comprehensive loss at each reporting date.

Contingent Earnout Liability

In connection with the Reverse Recapitalization and pursuant to the Merger Agreement, eligible ChargePoint equity holders were entitled to receive as additional merger consideration shares of the Company's Common Stock upon the Company achieving certain Earnout Triggering Events (as described in Note 12, *Stock Warrants and Earnout*). In accordance with ASC 815-40, the Earnout Shares were not indexed to the Common Stock and therefore were accounted for as a liability at the Reverse Recapitalization date and subsequently remeasured at each reporting date with changes in fair value recorded as a component of other income (expense), net in the consolidated statements of operations.

The estimated fair value of the contingent consideration was determined using a Monte Carlo simulation using a distribution of potential outcomes on a monthly basis over the Earnout Period (as defined in Note 12, *Stock Warrants and Earnout*) prioritizing the most reliable information available. The assumptions utilized in the calculation were based on the achievement of certain stock price milestones, including the current Company Common Stock price, expected volatility, risk-free rate, expected term and dividend rate.

Prior to its settlement, the contingent earnout liability was categorized as a Level 3 fair value measurement (see *Fair Value of Financial Instruments* accounting policy as described above) because the Company estimated projections during the Earnout Period utilizing unobservable inputs. Contingent earnout payments involve certain assumptions requiring significant judgment and actual results can differ from assumed and estimated amounts.

Revenue Recognition

ChargePoint accounts for revenue in accordance with ASC 606, *Revenue from Contracts with Customers* ("ASC 606"). The Company recognizes revenue using the following five-step model as prescribed by ASC 606:

- Identification of the contract, or contracts, with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when, or as, the Company satisfies a performance obligation.

Significant judgment and estimates are necessary for the allocation of the proceeds received from an arrangement to the multiple performance obligations and the appropriate timing of revenue recognition. The Company enters into contracts with customers that regularly include promises to transfer multiple products and services, such as Networked Charging Systems, software subscriptions, extended maintenance, and professional services. For arrangements with multiple products or services, the Company evaluates whether the individual products or services qualify as distinct performance obligations. In its assessment of whether products or services are a distinct performance obligation, the Company determines whether the customer can benefit from the product or service on its own or with other readily available resources and whether the service is separately identifiable from other products or services in the contract. This evaluation requires the Company to assess the nature of each of its Networked Charging Systems, subscriptions, and other offerings and how each is provided in the context of the contract, including whether they are significantly integrated which may require judgment based on the facts and circumstances of the contract.

The transaction price for each contract is determined based on the amount the Company expects to be entitled to receive in exchange for transferring the promised products or services to the customer. Collectability

of revenue is reasonably assured based on historical evidence of collectability of fees the Company charges its customers. The transaction price in the contract is allocated to each distinct performance obligation in an amount that represents the relative amount of consideration expected to be received in exchange for satisfying each performance obligation. Revenue is recognized when performance obligations are satisfied. Revenue is recorded based on the transaction price excluding amounts collected on behalf of third parties such as sales taxes, which are collected on behalf of and remitted to governmental authorities, or driver fees, collected on behalf of customers who offer public charging for a fee.

When agreements involve multiple distinct performance obligations, the Company accounts for individual performance obligations separately if they are distinct. The Company applies significant judgment in identifying and accounting for each performance obligation, as a result of evaluating terms and conditions in contracts. The transaction price is allocated to the separate performance obligations on a relative standalone selling price (“SSP”) basis. The Company determines SSP based on observable standalone selling price when it is available, as well as other factors, including the price charged to its customers, its discounting practices, and its overall pricing objectives, while maximizing observable inputs. In situations where pricing is highly variable, or a product is never sold on a stand-alone basis, the Company estimates the SSP using the residual approach.

The Company usually bills its customers at the onset of the arrangement for both the products and a predetermined period of time for services. Contracts for services typically range from annual to multi-year agreements with typical payment terms of 30 to 90 days.

Networked Charging Systems revenue

Networked Charging Systems revenue includes revenue related to the deliveries of EV charging system infrastructure. The Company recognizes revenue from sales of Networked Charging Systems upon shipment to the customer, which is when the performance obligation has been satisfied.

Subscriptions revenue

Subscriptions revenue consists of services related to Cloud, as well as extended maintenance service plans under Assure. Subscriptions revenue is recognized over time on a straight-line basis as the Company has a stand-ready obligation to deliver such services to the customer.

Subscriptions revenue also consists of CPaaS revenue, which combines the customer’s use of the Company’s owned and operated systems with Cloud and Assure programs into a single subscription. CPaaS subscriptions are considered for accounting purposes to contain a lease for the customer’s use of the Company’s owned and operated systems unless the location allows the Company to receive incremental economic benefit from regulatory credits earned on that owned and operated system. The leasing arrangements the Company enters into with lessees are operating leases. The Company recognizes operating lease revenue on a straight-line basis over the lease term and expenses deferred initial direct costs on the same basis. Lessor revenue relates to operating leases and historically has not been material.

Other revenue

Other revenue consists of fees received for transferring regulatory credits earned for participating in low carbon fuel programs in jurisdictions with such programs, charging related fees received from drivers using charging sites owned and operated by the Company, net transaction fees earned for processing payments collected on driver charging sessions at charging sites owned by ChargePoint customers, and other professional services. Revenue from regulatory credits is recognized at the point in time the regulatory credits are transferred. Revenue from fees for owned and operated sites is recognized over time on a straight-line basis over the performance period of the service contract as the Company has a stand-ready obligation to deliver such services. Revenue from driver charging sessions and charging transaction fees is recognized at the point in time the charging session or transaction is completed. Revenue from professional services is recognized as the services are rendered.

Remaining Performance Obligations

Remaining performance obligations represent the amount of contracted future revenue not yet recognized as the amounts relate to undelivered performance obligations, including both deferred revenue and non-cancelable contracted amounts that will be invoiced and recognized as revenue in future periods. The Company's Assure, Cloud, and CPaaS subscription terms typically range from one to five years and are paid upfront. Revenue expected to be recognized from remaining performance obligations was \$222.4 million as of January 31, 2023, of which 43% is expected to be recognized over the next twelve months and the remainder thereafter.

Deferred Revenue

Deferred revenue represents billings or payments received in advance of revenue recognition and is recognized in revenue upon transfer of control. Balances consist primarily of software subscription services and extended Assure maintenance services not yet provided as of the balance sheet date. Contract assets, which represent services provided or products transferred to customers in advance of the date the Company has a right to invoice, are netted against deferred revenue on a customer-by-customer basis. Deferred revenue that will be recognized during the succeeding twelve-month period is recorded as deferred revenue with the remainder recorded as deferred revenue, noncurrent on the consolidated balance sheets.

The following table shows the total deferred revenue for each period presented.

	<u>January 31, 2023</u>	<u>January 31, 2022</u>
	<u>(in thousands)</u>	
Total deferred revenue	\$198,610	\$146,808

The following table shows the revenue recognized that was included in the deferred revenue balance at the beginning of the period.

	<u>Year Ended January 31,</u>		
	<u>2023</u>	<u>2022</u>	<u>2021</u>
	<u>(in thousands)</u>		
Total deferred revenue recognized	\$77,142	\$40,934	\$39,400

Cost of Revenue

Cost of Networked Charging Systems revenue includes the material costs for parts and manufacturing costs for the hardware products, compensation, including salaries and related personnel expenses, including stock-based compensation, warranty provisions, depreciation of manufacturing related equipment and facilities, and allocated overhead costs. Costs for shipping and handling are recorded in cost of revenue as incurred.

Cost of subscriptions revenue includes hosting, network and wireless connectivity costs for subscription services, field maintenance costs for Assure to support the Company's network of systems, depreciation of owned and operated systems used in CPaaS arrangements, allocated overhead costs, and support costs to manage the systems and helpdesk services for site hosts.

Cost of other revenue includes depreciation and other costs for ChargePoint's owned and operated charging sites, charging related processing charges, salaries and related personnel expenses, including stock-based compensation, as well as costs of environmental and professional services.

Costs to Obtain a Customer Contract

Incremental and recoverable costs for the sale of cloud enabled software and extended maintenance service plans are capitalized as deferred contract acquisition costs within prepaid expenses and other current assets and

other assets on the consolidated balance sheets and amortized on a straight-line basis over the anticipated benefit period of five years. The benefit period was estimated by taking into consideration the length of customer contracts, renewals, technology lifecycle, and other factors. This amortization is recorded within sales and marketing expense in the Company's consolidated statements of operations. The sales commissions paid related to the sale of Networked Charging Systems are expensed as incurred.

The Company elected the practical expedient that permits the Company to apply ASC Subtopic 340-40, "Other Assets and Deferred Costs—Contracts with Customers," ("ASC 340") to a portfolio containing multiple contracts, as they are similar in their characteristics, and the financial statement effects of applying ASC Subtopic 340-40 to that portfolio would not differ materially from applying it to the individual contracts within that portfolio.

Changes in the deferred contract acquisition costs during the years ended January 31, 2023 and 2022 were as follows:

	<u>(in thousands)</u>
Balance as of January 31, 2021	\$ 5,534
Capitalization of deferred contract acquisition costs	3,381
Amortization of deferred contract acquisition costs	(1,786)
Balance as of January 31, 2022	\$ 7,129
Capitalization of deferred contract acquisition costs	3,374
Amortization of deferred contract acquisition costs	(2,361)
Balance as of January 31, 2023	\$ 8,142

Deferred acquisition costs capitalized on the consolidated balance sheets were as follows:

	<u>January 31</u>	
	<u>2023</u>	<u>2022</u>
	<u>(in thousands)</u>	
Deferred contract acquisition costs, current	\$2,598	\$2,104
Deferred contract acquisition costs, noncurrent	5,544	5,025
Total deferred contract acquisition costs	\$8,142	\$7,129

Research and Development

Research and development expenses consist primarily of salary and related personnel expenses, including stock-based compensation, for personnel related to the development of improvements and expanded features for the Company's products and services, as well as quality assurance, testing, product management, and allocated overhead. Research and development costs are expensed as incurred.

Stock-based Compensation

The Company measures stock-based compensation expense for all stock-based awards granted to employees and directors based on the estimated fair value of the awards on the date of grant and recognizes stock-based compensation expense over the requisite service period. The Company estimates the fair value of stock options and rights granted under the employee stock purchase plan ("ESPP") using the Black-Scholes option pricing model, and the Monte Carlo simulation model to estimate the fair value of performance restricted stock units ("PRSUs"). The fair value of restricted stock units ("RSUs") equals the fair market value of the Company's Common Stock on grant date.

The Company amortizes the fair value of each stock award, except for market-based PRSU, on a straight-line basis over the requisite service period of the awards. For market-based PRSU, the Company amortizes using a graded-vesting attribution approach. Stock-based compensation expense is based on the value of the portion of stock-based awards that is ultimately expected to vest. As such, the Company's stock-based compensation is reduced for the estimated forfeitures at the date of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

Advertising

The Company expenses the costs of advertising, including promotional expenses, as incurred. Advertising expenses for the years ended January 31, 2023, 2022, and 2021 were not material.

Warranty

The Company provides standard warranty coverage on its products, providing parts necessary to repair the systems during the warranty period. The Company accounts for the estimated warranty cost as a charge to Networked Charging Systems cost of revenue when revenue is recognized. The estimated warranty cost is based on historical and predicted product failure rates and repair expenses. Warranty expense for the years ended January 31, 2023, 2022, and 2021 was \$5.4 million, \$3.8 million, and \$3.4 million, respectively.

In addition, the Company offers paid-for subscriptions to extended maintenance service plans under Assure. Assure provides both the labor and parts to maintain the products over the subscription terms of typically one to five years. The costs related to the Assure program are expensed as incurred and charged to subscriptions cost of revenue.

Foreign Currency

The functional currency of the Company's foreign subsidiaries is generally the local currency. The translation of foreign currencies into U.S. dollars is performed for monetary assets and liabilities at the end of each reporting period based on the then current exchange rates. Non-monetary items are translated using historical exchange rates. For revenue and expense accounts, an average foreign currency rate during the period is applied. Adjustments resulting from translating foreign functional currency financial statements into U.S. dollars are recorded as part of a separate component of stockholders' equity (deficit) and reported in the consolidated statements of comprehensive loss. Foreign currency transaction gains and losses are included in other income (expense), net for the period.

Income Taxes

The Company uses the asset and liability method in accounting for income taxes. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax expense or benefit is the result of changes in the deferred tax asset and liability. Valuation allowances are established when necessary to reduce deferred tax assets where it is more likely than not that the deferred tax assets will not be realized. In evaluating the Company's ability to recover deferred tax assets, the Company considers all available positive and negative evidence, including historical operating results, ongoing tax planning, and forecasts of future taxable income on a jurisdiction-by-jurisdiction basis. Based on the level of historical losses, the Company has established a valuation allowance to reduce its net deferred tax assets to the amount that is more likely than not to be realized.

A tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination by the taxing authorities, including resolutions of any related appeals or litigation processes, based on the technical merits of the position.

Net Loss per Share Attributable to Common Stockholders

Basic and diluted net loss per share attributable to common stockholders is presented in conformity with the two-class method required for participating securities. The Company considers all series of its redeemable convertible preferred stock to be participating securities. The Company also considers any shares issued on the early exercise of stock options subject to repurchase to be participating securities because holders of such shares have nonforfeitable dividend rights in the event a dividend is paid on common stock. Under the two-class method, net income is attributed to common stockholders and participating securities based on their participation rights. The holders of the redeemable convertible preferred stock, as well as the holders of early exercised shares subject to repurchase, do not have a contractual obligation to share in the losses of the Company. As such, the Company's net losses for the years ended January 31, 2023, 2022, and 2021 were not allocated to these participating securities.

Under the two-class method, basic net loss per share attributable to common stockholders is computed by dividing the net loss attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period, less shares subject to repurchase. Diluted net loss per share attributable to common stockholders adjusts basic net loss per share for the effect of dilutive securities, including stock options.

Net loss amount is computed by adding deemed dividends and cumulative dividends on redeemable convertible preferred stock, to net loss. As such, the amount of the loss is increased by those instruments. When computing dilutive net loss, the numerator is also adjusted by changes in fair value attributable to dilutive warrants and gains attributable to Earnout Shares issued. As a result, some of the liability classified Company's common stock warrants and Earnout Shares issued were dilutive, even though the Company reported losses for all periods presented.

Accounting Pronouncements

Recently Adopted Accounting Standards

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2020-06, "*Debt — Debt with Conversion and Other Options* (Subtopic 470-20) and *Derivatives and Hedging-Contracts in Entity's Own Equity* (Subtopic 815-40)," which modifies and simplifies accounting for convertible instruments. The new guidance eliminates certain separation models that require separating embedded conversion features from convertible instruments. The guidance also addresses how convertible instruments are accounted for in the diluted earnings per share calculation. The guidance became effective for fiscal years beginning after December 15, 2021. The Company adopted the amendments effective February 1, 2022. The adoption of ASU 2020-06 did not have a material impact on the Company's consolidated financial statements.

In November 2021, the FASB issued ASU No. 2021-10, "*Government Assistance* (Topic 832): Disclosures by Business Entities about Government Assistance," which requires entities to disclose annually its transactions with a government accounted for by applying a grant or contribution accounting model by analogy. The disclosure requirement includes information about the nature of the transactions and the related accounting policy used to account for the transactions, the line items on the consolidated balance sheets and income statement that are affected by the transactions, and the amounts applicable to each financial statement line, and significant terms and conditions of the transactions, including commitments and contingencies. The guidance became effective for annual reporting periods beginning after December 15, 2021. Early application is permitted. The Company adopted the amendments effective February 1, 2022. The adoption of ASU 2021-10 did not have a material impact on the Company's consolidated financial statements.

3. Fair Value Measurements

The Company's assets and liabilities that were measured at fair value on a recurring basis were as follows:

Fair Value Measured as of January 31, 2023				
	Level 1	Level 2	Level 3	Total
	(in thousands)			
Assets				
Money market funds	\$133,979	\$ —	\$—	\$133,979
U.S. Treasury securities	—	104,966	—	104,966
Total financial assets	\$133,979	\$104,966	\$—	\$238,945
Fair Value Measured as of January 31, 2022				
	Level 1	Level 2	Level 3	Total
	(in thousands)			
Assets				
Money market funds	\$254,716	\$—	\$ —	\$254,716
Total financial assets	\$254,716	\$—	\$ —	\$254,716
Liabilities				
Common stock warrant liabilities (Private Placement)	\$ —	\$—	\$ 25	\$ 25
Contingent earnout liability recognized upon acquisition of ViriCiti (ViriCiti Earnout)	—	—	5,993	5,993
Total financial liabilities	\$ —	\$—	\$6,018	\$ 6,018

The money market funds were classified as cash and cash equivalents on the consolidated balance sheets and were within Level 1 of the fair value hierarchy. The aggregate fair value of the Company's money market funds approximated amortized cost and, as such, there were no unrealized gains or losses on money market funds as of January 31, 2023 and 2022. Realized gains and losses, net of tax, were not material for any of the periods presented.

Short-term investments, consisting of U.S. Treasury securities, were classified as available-for-sale on the purchase date and recorded at fair value on the consolidated balance sheets (see Note 4, *Short-Term Investments*, for more details).

As of January 31, 2023 and 2022, the Company had no investments with a contractual maturity of greater than one year.

The following table presents a summary of the changes in the fair value of the Company's Level 3 financial instruments:

	Redeemable convertible preferred stock warrant liability	Private placement warrant liability	Earnout liability	ViriCiti Earnout liability
	(in thousands)			
Fair value as of January 31, 2020	\$ (2,718)	\$ —	\$ —	\$ —
Change in fair value included in other income (expense), net	(73,125)	—	—	—
Fair value as of January 31, 2021	\$(75,843)	\$ —	\$ —	\$ —
Private placement warrant liability acquired as part of the Merger	—	(127,888)	—	—
Contingent earnout liability recognized upon the closing of the reverse recapitalization	—	—	(828,180)	—
Contingent earnout liability recognized upon the acquisition of ViriCiti ("ViriCiti Earnout")	—	—	—	(3,856)
Change in fair value	9,237	63,746	84,420	(2,137)
Reclassification of warrants to stockholders' equity (deficit) due to exercise	—	64,117	—	—
Reclassification of Legacy ChargePoint preferred stock warrant liability upon the reverse capitalization	66,606	—	—	—
Issuance of earnout shares upon triggering events	—	—	501,120	—
Reclassification of remaining contingent earnout liability upon triggering event	—	—	242,640	—
Fair value as of January 31, 2022	\$ —	\$ (25)	\$ —	\$(5,993)
Change in fair value included in other income (expense), net	—	(23)	—	—
Effect of foreign currency translation . . .	—	—	—	191
Reclassification of warrants to stockholder's equity (deficit) due to exercise	—	48	—	—
Contingent earnout liability increase upon satisfaction of earnings goal of ViriCiti (ViriCiti Earnout)	—	—	—	(1,283)
Transfer out of Level 3 upon achievement of earnings target for the earnout period	—	—	—	7,085
Fair Value as of January 31, 2023	\$ —	\$ —	\$ —	\$ —

Redeemable Convertible Preferred Stock Warrant Liability, Private Placement Warrant Liability, and Earnout Liability

The fair values of the private placement warrant liability, redeemable convertible preferred stock warrant liability and earnout liability are based on significant unobservable inputs, which represent Level 3 measurements within the fair value hierarchy. The significant unobservable inputs used in the fair value measurements of the private placement warrant liability, the redeemable convertible preferred stock warrant liability and the earnout liability include the expected volatility and dividend yield. In determining the fair value of the private placement warrant liability, the Company used the Binomial Lattice Model (“BLM”) that assumes optimal exercise of the Company’s redemption option at the earliest possible date. In determining the fair value of the redeemable convertible preferred stock warrant liability, the Company used the Black-Scholes Option Pricing Model (“Black-Scholes”) to estimate the fair value using unobservable inputs including the expected term, expected volatility, risk-free interest rate and dividend yield. In determining the fair value of the earnout liability, the Company used the Monte Carlo simulation valuation model using a distribution of potential outcomes on a monthly basis over the Earnout Period using the most reliable information available.

ViriCiti Earnout Liability

On August 11, 2021, the Company acquired all of the outstanding shares of ViriCiti Group B.V. (“ViriCiti”). The purchase price consideration included an earnout consideration contingent on meeting certain revenue targets through January 21, 2023. The fair value of the ViriCiti Earnout liability was previously based on significant unobservable inputs, which represented Level 3 measurements within the fair value hierarchy. See Note 5, *Reverse Capitalization and Business Combinations*, for information on the valuation of the ViriCiti Earnout liability.

On January 31, 2023, the ViriCiti Earnout liability of \$7.1 million, for the earnout period is based on the actual achievement of the revenue target and was subsequently paid in full on March 6, 2023 (see Note 18, *Subsequent Events*). Thus, the liability is no longer subject to fair value measurement and was accordingly transferred out of Level 3 fair value hierarchy, and is included in the “Accrued and other current liabilities” on the Company’s consolidated balance sheets.

Non-Recurring Fair Value Measurements

The Company has certain assets, including goodwill and other intangible assets, which are measured at fair value on a non-recurring basis and are adjusted to fair value only if an impairment charge is recognized. The categorization of the framework used to measure fair value of the assets is considered to be within the Level 3 valuation hierarchy due to the subjective nature of the unobservable inputs used.

Disclosure of Fair Values

The Company has financial instruments that are not re-measured at fair value including accounts receivable, accounts payable, and accrued and other current liabilities. The carrying values of these financial instruments approximate their fair values.

4. Short-Term Investments

Short-term investments consisted of the following:

	January 31, 2023			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
		(in thousands)		
U.S. Treasury Securities	\$105,415	\$—	\$(449)	\$104,966

The amortized cost and fair value amounts include accrued interest receivable of \$0.5 million as of January 31, 2023. There were no short-term investments as of January 31, 2022 and 2021.

The U.S. treasury securities are marketable debt securities stated on the consolidated balance sheets at fair value based upon inputs other than quoted prices in active markets (Level 2 inputs). The Company recorded \$0.4 million unrealized losses as a component of other comprehensive loss for the year ended January 31, 2023. The Company did not recognize any gains or losses for the year ended January 31, 2023.

As of January 31, 2023, all of the available-for-sale debt securities were in a continuous unrealized loss position for less than twelve months. During the year ended January 31, 2023, the Company did not recognize credit-related impairment losses and had no ending allowance for credit losses. The decline in fair value below amortized cost basis was not considered other than temporary as it is more likely than not the Company will hold the debt securities until maturity or a recovery of the cost basis.

As of January 31, 2023, all of the marketable debt securities have contractual maturities of less than one year.

5. Reverse Capitalization and Business Combinations

Reverse Recapitalization

On February 26, 2021, Lightning Merger Sub, a wholly-owned subsidiary of Switchback, merged with Legacy ChargePoint, with Legacy ChargePoint surviving as a wholly-owned subsidiary of Switchback. As a result of the Merger, Switchback was renamed ChargePoint Holdings, Inc. Immediately prior to the closing of the Merger:

- all 22,427,306 shares of Legacy ChargePoint's outstanding Series H-1 redeemable convertible preferred stock were converted into an equivalent number of shares of Legacy ChargePoint common stock on a one-to-one basis and an additional 1,026,084 shares of Common Stock were issued to settle the accumulated dividend to the Series H-1 redeemable convertible preferred stockholders of \$21.1 million;
- all 160,925,957 shares of Legacy ChargePoint's outstanding Series H, Series G, Series F, Series E, and Series D redeemable convertible preferred stock were converted into an equivalent number of shares of Legacy ChargePoint common stock on a one-to-one basis;
- all 45,376 shares of Legacy ChargePoint's outstanding Series C redeemable convertible preferred stock were converted into an equivalent number of shares of Legacy ChargePoint common stock on a 1:73.4403 basis;
- all 130,590 shares of Legacy ChargePoint's outstanding Series B redeemable convertible preferred stock were converted into an equivalent number of shares of Legacy ChargePoint common stock on a 1:42.9220 basis; and
- all 29,126 shares of Legacy ChargePoint's outstanding Series A redeemable convertible preferred stock were converted into an equivalent number of shares of Legacy ChargePoint common stock on a 1:48.2529 basis.

At the Merger, eligible ChargePoint equity holders received or had the right to receive shares of Common Stock at a deemed value of \$10.00 per share after giving effect to the exchange ratio of 0.9966 as defined in the Merger Agreement ("Exchange Ratio"). Accordingly, immediately following the consummation of the Merger, Legacy ChargePoint common stock exchanged into 217,021,368 shares of Common Stock, 68,896,516 shares were reserved for the issuance of Common Stock upon the potential future exercise of Legacy ChargePoint stock options and warrants that were exchanged into ChargePoint stock options and warrants, and 27,000,000 shares of Common Stock were reserved for the potential future issuance of the Earnout Shares.

In connection with the execution of the Merger Agreement, Switchback entered into separate subscription agreements (each a “Subscription Agreement”) with a number of investors (each a “New PIPE Investor”), pursuant to which the New PIPE Investors agreed to purchase, and Switchback agreed to sell to the New PIPE Investors, an aggregate of 22,500,000 shares of Common Stock (“PIPE Shares”), for a purchase price of \$10.00 per share and an aggregate purchase price of \$225.0 million, in a private placement pursuant to the subscription agreements (“PIPE Financing”). The PIPE Financing closed simultaneously with the consummation of the Merger.

Pursuant to the terms of a letter agreement the initial Switchback stockholders entered into in connection with the execution of the Merger Agreement (“Founders Stock Letter”), the initial stockholders surrendered 984,706 of Switchback Class B common stock shares purchased by NGP Switchback, LLC, a Delaware limited liability company (“Sponsor”) prior to the Switchback Public Offering on May 16, 2019 (“Founder Shares”) for no consideration, whereupon such Founder Shares were immediately cancelled. Additionally, 900,000 Founder Shares, which were previously subjected to potential forfeiture until the closing volume weighted average price per share of the Company’s Common Stock achieved \$12.00 for any ten trading days within any twenty consecutive trading day period during the five-year period following the Closing (“Founder Earn Back Triggering Event” and such Founder Shares the “Founder Earn Back Shares”), met the Founder Earn Back Triggering Event on March 12, 2021.

At the Closing, the Sponsor exercised its right to convert a portion of the working capital loans made by the Sponsor to Switchback into an additional 1,000,000 Private Placement Warrants at a price of \$1.50 per warrant in satisfaction of \$1.5 million principal amount of such loans.

The number of shares of Common Stock issued immediately following the consummation of the Merger was as follows:

	<u>Shares</u>
Common stock of Switchback, outstanding prior to	
Merger	39,264,704
Less redemption of Switchback shares	(33,009)
Less surrender of Switchback Founder Shares	(984,706)
Common stock of Switchback	38,246,989
Shares issued in PIPE	22,500,000
Merger and PIPE financing shares (1)	60,746,989
Legacy ChargePoint shares (2)	217,021,368
Total shares of common stock immediately after	
Merger	<u>277,768,357</u>

- (1) This includes 900,000 contingently forfeitable Founder Earn Back Shares pending the occurrence of the Founder Earn Back Triggering Event, which was met on March 12, 2021
- (2) The number of Legacy ChargePoint shares was determined by converting the 217,761,738 shares of Legacy ChargePoint common stock outstanding immediately prior to the closing of the Merger using the Exchange Ratio of 0.9966. All fractional shares were rounded down.

The Merger is accounted for as a reverse recapitalization under U.S. GAAP. This determination is primarily based on Legacy ChargePoint stockholders comprising a relative majority of the voting power of ChargePoint and having the ability to nominate the members of the Board of Directors, Legacy ChargePoint’s operations prior to the acquisition comprising the only ongoing operations of ChargePoint, and Legacy ChargePoint’s senior management comprising a majority of the senior management of ChargePoint. Under this method of accounting, Switchback is treated as the “acquired” company for financial reporting purposes. Accordingly, for accounting purposes, the financial statements of ChargePoint represent a continuation of the financial statements of Legacy

ChargePoint with the Merger being treated as the equivalent of ChargePoint issuing stock for the net assets of Switchback, accompanied by a recapitalization. The net assets of Switchback are stated at historical costs, with no goodwill or other intangible assets recorded. Operations prior to the Merger are presented as those of ChargePoint. All periods prior to the Merger have been retrospectively adjusted using the Exchange Ratio for the equivalent number of shares outstanding immediately after the Merger to effect the reverse recapitalization. Additionally, upon the consummation of the Merger, the Company gave effect to the issuance of 60,746,989 shares of Common Stock for the previously issued Switchback common stock and PIPE Shares that were outstanding at the Closing Date.

In connection with the Merger, the Company raised \$511.6 million of proceeds including the contribution of \$286.6 million of cash held in Switchback's trust account from its initial public offering, net of redemptions of Switchback public stockholders of \$0.3 million, and \$225.0 million of cash in connection with the PIPE financing. The Company incurred \$36.5 million of transaction costs, consisting of banking, legal, and other professional fees, of which \$29.5 million was recorded as a reduction to additional paid-in capital of proceeds and the remaining \$7.0 million was expensed in the consolidated statements of operations.

Acquisition of ViriCiti

On August 11, 2021, the Company acquired all of the outstanding shares of ViriCiti for \$79.4 million in cash, as well as \$7.1 million of additional earnout consideration contingent on meeting certain revenue targets as of January 31, 2023 ("ViriCiti Earnout"), which was paid in full on March 6, 2023 (see Note 18, *Subsequent Events*). ViriCiti is a Netherlands-based provider of electrification solutions for eBus and commercial fleets with offices in the Netherlands and the United States. The acquisition is expected to enhance ChargePoint's fleet solutions portfolio of hardware, software and services by integrating information sources to optimize electric fleet operations.

The acquisition of ViriCiti was considered a business combination and was accounted for under the acquisition method of accounting. The total purchase price was allocated to the net tangible and intangible assets acquired and liabilities assumed based on their respective fair values on the acquisition date and the excess was recorded as goodwill. The total purchase price was allocated to \$62.8 million of goodwill, \$17.7 million of customer relationship intangible assets, and \$6.6 million of developed technology intangible assets acquired, and deferred tax liabilities of \$3.5 million and net liabilities of \$0.2 million were assumed. Goodwill is not deductible for tax purposes. The Company incurred acquisition-related expenses of \$2.3 million, which were recorded as general and administrative expenses in the consolidated statement of operations.

There were no measurement period adjustments for the year ended January 31, 2023.

Acquisition of has•to•be gmbh

On October 6, 2021, the Company acquired all of the outstanding shares of has•to•be gmbh ("HTB") for approximately \$235.0 million, consisting of \$132.9 million in cash and \$102.1 million in the form of 5,695,176 shares of ChargePoint Common Stock valued at \$17.92 per share on the acquisition date. Of the cash component, \$2.8 million was paid on February 3, 2022 as part of a working capital adjustment and 885,692 shares, valued at \$15.9 million, are held in escrow to cover indemnity claims the Company may make within eighteen months from the closing date. HTB is an Austria-based e-mobility provider with a European charging software platform. The acquisition is intended to expand the Company's market share in Europe.

The acquisition of HTB was considered a business combination and was accounted for under the acquisition method of accounting. The total purchase price was allocated to the net tangible and intangible assets acquired and liabilities assumed based on their respective fair values on the acquisition date, and the excess was recorded as goodwill. The total purchase price was allocated to \$159.0 million of goodwill, \$78.7 million of customer relationship intangible assets, \$12.7 million of developed technology intangible assets, and net assets of

\$2.9 million acquired, and deferred tax liabilities of \$18.3 million were assumed. Goodwill is not deductible for tax purposes. The Company incurred acquisition-related expenses of \$2.7 million, which were recorded as general and administrative expenses in the consolidated statement of operations.

There were no measurement period adjustments for the year ended January 31, 2023.

6. Goodwill and Intangible Assets

Goodwill

The following table summarizes the changes in carrying amounts of goodwill:

	(in thousands)
Balance as of January 31, 2021	\$ 1,215
Goodwill acquired with ViriCiti acquisition	62,839
Goodwill acquired with HTB acquisition	158,997
Foreign exchange fluctuations	(4,567)
Balance as of January 31, 2022	\$218,484
Foreign exchange fluctuations	(4,768)
Balance as of January 31, 2023	\$213,716

There was no impairment recognized for the years ended January 31, 2023, 2022, and 2021.

Intangible Assets

The following table presents the details of intangible assets:

	January 31, 2023			
	Cost (1)	Accumulated Amortization (1)	Net (1)	Useful Life
	(amounts in thousands, useful lives in years)			
Customer relationships	\$ 90,738	\$(12,223)	\$78,515	10
Developed technology	18,355	(4,197)	14,158	6
	\$109,093	\$(16,420)	\$92,673	

(1) Values are translated into U.S. Dollars at period-end foreign exchange rates.

	January 31, 2022			
	Cost (1)	Accumulated Amortization (1)	Net (1)	Useful Life
	(amounts in thousands, useful lives in years)			
Customer relationships	\$ 93,065	\$(3,223)	\$ 89,842	10
Developed technology	18,731	(1,364)	17,367	6
	\$111,796	\$(4,587)	\$107,209	

(1) Values are translated into U.S. Dollars at period-end foreign exchange rates.

Amortization expense for customer relationships and developed technology is shown as sales and marketing and cost of revenue, respectively, in the consolidated statements of operations. The acquired intangible assets and goodwill are subject to impairment review at least annually on December 31st. Based on the annual impairment analysis completed during the years ended January 31, 2023 and 2022, the Company determined that there was no impairment of intangible assets.

Acquisition-related intangible assets included in the above table are finite-lived and are carried at cost less accumulated amortization. Intangible assets are being amortized on a straight-line basis over their estimated lives, which approximates the pattern in which the economic benefits of the intangible assets are expected to be realized.

The following table presents the amortization expense related to intangible assets:

	Year ended January 31,		
	2023	2022	2021
	(in thousands)		
Amortization Expense	\$11,646	\$4,617	\$—

The following table presents the estimated aggregate amortization expense related to intangible assets:

	(in thousands)
Years Ending January 31,	
2024	\$12,133
2025	12,133
2026	12,133
2027	12,133
2028	10,995
Thereafter	33,146
Total amortization expense	<u>\$92,673</u>

The expected amortization expense is an estimate. Actual amounts of amortization may differ from estimated amounts due to additional intangible assets acquisitions, changes in foreign currency exchange rates, impairment of intangible assets, future changes to expected useful lives of intangible assets, and other events.

7. Balance Sheet Components

Inventories

Inventories consisted of the following:

	January 31,	
	2023	2022
	(in thousands)	
Raw materials	\$11,509	\$ 9,712
Finished goods	57,221	26,167
Total Inventories	<u>\$68,730</u>	<u>\$35,879</u>

Prepaid expense and other current assets

Prepaid expense and other current assets consisted of the following:

	January 31,	
	2023	2022
	(in thousands)	
Prepaid expense	\$48,464	\$16,951
Other current assets	22,556	19,652
Total Prepaid Expense and Other Current Assets	<u>\$71,020</u>	<u>\$36,603</u>

Property and Equipment, net

Property and equipment, net consisted of the following:

	January 31,	
	2023	2022
	(in thousands)	
Furniture and fixtures	\$ 1,244	\$ 903
Computers and software	7,164	6,147
Machinery and equipment	25,144	16,193
Tooling	13,782	10,572
Leasehold improvements	9,357	10,549
Owned and operated systems	24,119	22,546
Construction in progress	2,790	2,720
	<u>83,600</u>	<u>69,630</u>
Less: Accumulated depreciation	(43,554)	(35,037)
Total Property and Equipment, Net	<u>\$ 40,046</u>	<u>\$ 34,593</u>

The following table presents the depreciation expense related to fixed assets:

	Year ended January 31,		
	2023	2022	2021
	(in thousands)		
Depreciation Expense	\$13,404	\$11,840	\$10,083

Accrued and Other Current Liabilities

Accrued and other current liabilities consisted of the following:

	January 31,	
	2023	2022
	(in thousands)	
Accrued expenses	\$ 46,105	\$31,865
Refundable customer deposits	14,551	9,409
Payroll and related expenses	21,495	16,131
Taxes payable	14,232	8,955
Other current liabilities (1)	37,100	17,968
Total Accrued and Other Current Liabilities	<u>\$133,483</u>	<u>\$84,328</u>

- (1) Beginning July 31, 2022, ViriCiti Earnout liability was reclassified from long-term liabilities to current liabilities as the Company expected the liability to be payable within twelve months of July 31, 2022. The ViriCiti Earnout liability was subsequently paid in full on March 6, 2023 (see Note 18, *Subsequent Events*).

8. Leases

The Company leases its office facilities under non-cancellable operating leases with various lease terms. The Company also leases certain office equipment under operating lease agreements. As of January 31, 2023, non-cancellable leases expire on various dates between fiscal years 2024 and 2030.

Generally, the Company's non-cancellable leases include renewal options to extend the lease term from one to five years. The Company has not included any renewal options in its lease terms as these options are not reasonably certain of being exercised. The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As of January 31, 2023 and 2022, lease balances were as follows:

	January 31,	
	2023	2022
	(in thousands)	
Operating leases		
Operating lease right-of-use assets	<u>\$22,242</u>	<u>\$25,535</u>
Operating lease liabilities, current	3,753	3,876
Operating lease liabilities, noncurrent	<u>21,841</u>	<u>25,370</u>
Total operating lease liabilities	<u>\$25,594</u>	<u>\$29,246</u>

The Company recognizes operating lease costs on a straight-line basis over the lease period. Lease expense for the years ended January 31, 2023, 2022, and 2021 was \$6.6 million, \$6.1 million, and \$5.1 million, respectively. Operating lease costs for short-term leases and variable lease costs were not material during the years ended January 31, 2023, 2022 and 2021.

Future payments of operating lease liabilities under the Company's non-cancellable operating leases as of January 31, 2023 were as follows:

	(in thousands)
Years Ending January 31,	
2024	\$ 6,657
2025	6,186
2026	4,983
2027	4,682
2028	4,087
Thereafter	<u>6,233</u>
Total undiscounted operating lease payments	<u>\$32,828</u>
Less: imputed interest	<u>(7,234)</u>
Total operating lease liabilities	<u>\$25,594</u>

Other supplemental information as of January 31, 2023 and 2022 was as follows:

	January 31,	
	2023	2022
Lease Term and Discount Rate		
Weighted-average remaining operating lease term (years)	5.7	6.5
Weighted-average operating lease discount rate	7.3%	7.3%

Other supplemental cash flow information for the years ended January 31, 2023, 2022 and 2021 was as follows:

	Year ended January 31,		
	2023	2022	2021
	(in thousands)		
Supplemental Cash Flow Information			
Cash paid for amounts in the measurement of operating lease liabilities	\$6,927	\$5,164	\$4,226

As of January 31, 2023, the Company has no additional operating leases that have not yet commenced and as such, have not yet been recognized on the Company's consolidated balance sheets.

9. Debt

2018 Loan

In July 2018, the Company entered into a term loan facility with certain lenders (the “2018 Loan”) with a borrowing capacity of \$45.0 million to finance working capital and repay all outstanding amounts owed under previous loans. The Company borrowed \$35.0 million, with issuance costs of \$1.1 million and net proceeds of \$33.9 million. The 2018 Loan was secured by substantially all of the Company’s assets, contained customary affirmative and negative covenants, and required the Company to maintain minimum cash balances and attain certain customer billing targets. The 2018 Loan had a five-year maturity and interest was calculated at LIBOR plus 6.55%. Transaction costs were recorded as debt discount and amortized over the term of the loan. The 2018 Loan agreement was amended on March 20, 2019 to extend the interest only monthly payments through June 30, 2021 to be followed by equal monthly payments of principal and interest.

In March 2021, the Company repaid the entire loan balance of \$35.0 million plus accrued interest and prepayment fees of \$1.2 million. There was no interest expense incurred during the year ended January 31, 2023. Total interest expense incurred was \$1.5 million and \$3.3 million for the years ended January 31, 2022 and 2021, respectively.

2027 Convertible Notes

The following table presents the Company’s convertible debt outstanding:

	January 31, 2023			
	Gross Amount	Debt Discount and Issuance Costs	Carrying Amount	Estimated Fair Value
	(in thousands)			
2027 Convertible Notes	\$300,000	\$(5,064)	\$294,936	\$233,000

The following table presents the Company’s interest expense related to convertible debt:

	Year ended January 31, 2023
	(in thousands)
Contractual interest expense	\$8,429
Amortization of debt discount and issuance costs	965
Total interest expense	\$9,394

In April 2022, the Company completed a private placement of \$300 million aggregate principal amount of unsecured Convertible Senior PIK Toggle Notes (the “2027 Convertible Notes”), which will mature on April 1, 2027. The 2027 Convertible Notes were sold in a private placement in reliance on the exemption from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”) provided by Section 4(a)(2) of the Securities Act.

The net proceeds from the sale of the 2027 Convertible Notes were approximately \$294.0 million after deducting initial purchaser discounts and commissions and the Company’s offering expenses. The debt discount and issuance costs, net of accumulated amortization, are reported as a direct deduction from the face amount of the 2027 Convertible Notes. The Company expects to use the net proceeds for general corporate purposes.

The 2027 Convertible Notes bear interest at 3.50% per annum, to the extent paid in cash (“Cash Interest”) or 5.00% per annum, to the extent paid in kind through the issuance of additional 2027 Convertible Notes (“PIK Interest”). Interest is payable semi-annually in arrears on April 1st and October 1st of each year, beginning on October 1, 2022. The Company can elect to make any interest payment through Cash Interest, PIK Interest or any combination thereof.

The 2027 Convertible Notes are convertible, based on the applicable conversion rate, into cash, shares of the Company's Common Stock or a combination thereof, at the Company's election. The initial conversion rate was 41.6119 shares per \$1,000 principal amount of the 2027 Convertible Notes, subject to customary anti-dilution adjustment in certain circumstances, which represented an initial conversion price of approximately \$24.03 per share.

Prior to the close of business on the business day immediately preceding January 1, 2027, the 2027 Convertible Notes will be convertible at the option of the holders only upon the occurrence of specified events and during certain periods, and will be convertible on or after January 1, 2027, at any time until the close of business on the second scheduled trading day immediately preceding the maturity date of the 2027 Convertible Notes.

Holders of the 2027 Convertible Notes may convert all or a portion of their 2027 Convertible Notes prior to the close of business on January 1, 2027, only under the following circumstances:

- during any calendar quarter commencing after the calendar quarter ended on September 30, 2022, if the Company's closing Common Stock price for at least 20 trading days out of the most recent 30 consecutive trading days of the preceding calendar quarter is greater than or equal to 130% of the current conversion price of the 2027 Convertible Notes on each applicable trading day;
- during the five business day period after any ten consecutive trading days in which the trading price per \$1,000 principal amount of 2027 Convertible Notes for each trading day of such ten consecutive trading day period is less than 98% of the product of the Company's closing Common Stock price and the conversion rate of the 2027 Convertible Notes on each such trading day;
- if the Company calls the 2027 Convertible Notes for redemption, at any time prior to the close of business on the second business day immediately preceding the redemption date; or
- upon the occurrence of specified corporate events, including certain distributions, the occurrence of a fundamental change or a transaction resulting in the Company's Common Stock converting into other securities or property or assets.

The 2027 Convertible Notes will be redeemable, in whole or in part, at the Company's option at any time on or after April 21, 2025, and before the 41st scheduled trading day immediately before the maturity date. The redemption price will be equal to the aggregate principal amount of the 2027 Convertible Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date. In addition, a holder may elect to convert its 2027 Convertible Notes during any such redemption period, in which case the applicable conversion rate may be increased in certain circumstances if 2027 Convertible Notes are converted after they are called for redemption.

Additionally, if the Company undergoes a fundamental change or a change in control transaction (each such term as defined in the indenture governing the 2027 Convertible Notes), subject to certain conditions, holders may require the Company to purchase for cash all or any portion of their 2027 Convertible Notes. The fundamental change repurchase price will be 100% of the capitalized principal amount of the 2027 Convertible Notes, while the change in control repurchase price will be 125% of the capitalized principal amount of the 2027 Convertible Notes to be purchased, in each case plus any accrued and unpaid interest to, but excluding, the repurchase date.

The indenture governing the 2027 Convertible Notes includes a restrictive covenant that, subject to specified exceptions, limits the ability of the Company and its subsidiaries to incur secured debt in excess of \$750.0 million. In addition, the indenture governing the 2027 Convertible Notes contains customary terms and covenants, including certain events of default in which case either the trustee or the holders of at least 25% of the aggregate principal amount of the outstanding 2027 Convertible Notes may declare 100% of the principal of, and accrued and unpaid interest, if any, on, all the 2027 Convertible Notes to be due and payable immediately.

As of January 31, 2023, the effective interest rate on the 2027 Convertible Notes was 3.93%. Amortization of debt discount and issuance costs is reported as a component of interest expenses and is computed using the straight-line method over the term of the 2027 Convertible Notes, which approximates the effective interest method.

The estimated fair value of the 2027 Convertible Notes, as of January 31, 2023 using Level 2 fair value inputs, was \$233.0 million.

10. Commitments and Contingencies

Purchase Commitments

Open purchase commitments are for the purchase of goods and services related to, but not limited to, manufacturing, facilities, and professional services under non-cancellable contracts. They were not recorded as liabilities on the consolidated balance sheets as of January 31, 2023 and 2022 as the Company had not yet received the related goods or services.

Legal Proceedings

The Company may be involved from time to time in various lawsuits, claims, and proceedings, including intellectual property, commercial, securities, and employment matters that arise in the normal course of business. The Company accrues a liability when management believes information available prior to the issuance of the consolidated financial statements indicates it is probable a loss has been incurred as of the date of the consolidated financial statements and the amount of loss can be reasonably estimated. The Company adjusts its accruals to reflect the impact of negotiations, settlements, rulings, advice of legal counsel, and other information and events pertaining to a particular case. Legal costs are expensed as incurred.

The Company believes it has recorded adequate provisions for any such lawsuits, claims, and proceedings and, as of January 31, 2023, the Company believes it was not reasonably possible that a material loss had been incurred in excess of the amounts recognized in the consolidated financial statements. Based on its experience, the Company believes that damage amounts claimed in these matters are not meaningful indicators of potential liability. Given the inherent uncertainties of litigation, the ultimate outcome of the ongoing matters described herein cannot be predicted with certainty. While litigation is inherently unpredictable, the Company believes it has valid defenses with respect to the legal matters pending against it. Nevertheless, the consolidated financial statements could be materially adversely affected in a particular period by the resolution of one or more of these contingencies. Liabilities established to provide for contingencies are adjusted as further information develops, circumstances change, or contingencies are resolved; and such changes are recorded in the accompanying consolidated statements of operations during the period of the change and reflected in accrued and other current liabilities on the accompanying consolidated balance sheets.

Guarantees and Indemnifications

The Company has service level commitments to certain of its customers warranting certain levels of uptime reliability and performance and permitting those customers to receive credits in the event that the Company fails to meet those levels. To date, the Company has not incurred any material costs as a result of such commitments.

The Company's arrangements generally include certain provisions for indemnifying customers against liabilities if its products or services infringe a third-party's intellectual property rights. Additionally, the Company may be required to indemnify for claims caused by its negligence or willful misconduct. It is not possible to determine the maximum potential amount under these indemnification obligations due to the limited history of prior indemnification claims and the unique facts and circumstances involved in each particular agreement. To date, the Company has not incurred any material costs as a result of such obligations and has not accrued any liabilities related to such obligations in the consolidated financial statements.

The Company has also agreed to indemnify its directors and executive officers for costs associated with any fees, expenses, judgments, fines, and settlement amounts incurred by them in any action or proceeding to which any of them are, or are threatened to be, made a party by reason of their service as a director or officer. The Company maintains director and officer insurance coverage that would generally enable it to recover a portion of any future amounts paid. The Company also may be subject to indemnification obligations by law with respect to the actions of its employees under certain circumstances and in certain jurisdictions.

Letters of Credit

The Company had \$30.4 million and \$0.4 million of secured letters of credit outstanding as of January 31, 2023 and 2022, respectively. These primarily relate to support of contract manufacturer and customer agreements, and are fully collateralized by cash deposits which the Company recorded in restricted cash on its consolidated balance sheets based on the term of the remaining restriction.

11. Common Stock

As of each of January 31, 2023 and 2022, the Company was authorized to issue 1,000,000,000 shares of Common Stock, with a par value of \$0.0001 per share. There were 348,330,481 and 334,760,615 shares issued and outstanding as of January 31, 2023 and 2022, respectively.

The holders of Common Stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. The holders of Common Stock are not entitled to cumulative voting rights with respect to the election of directors, and as a consequence, minority stockholders are not able to elect directors on the basis of their votes alone. Subject to preferences that may be applicable to any shares of redeemable convertible preferred stock currently outstanding or issued in the future, holders of Common Stock are entitled to receive ratably such dividends as may be declared by the Company's board of directors out of funds legally available therefor. In the event of the Company's liquidation, dissolution, or winding up, holders of the Company's Common Stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preference of any then outstanding redeemable convertible preferred stock. Holders of Common Stock have no preemptive rights and no right to convert their Common Stock into any other securities. There are no redemption or sinking fund provisions applicable to the Common Stock.

At-the-Market Offering

On July 1, 2022, ChargePoint filed a registration statement on Form S-3 (File No. 333-265986) with the SEC (that was declared effective by the SEC on July 12, 2022), which permits the Company to offer up to \$1.0 billion of Common Stock, preferred stock, debt securities, warrants and rights in one or more offerings and in any combination, including in units from time to time (the "Shelf Registration Statement"). As part of the Shelf Registration Statement, ChargePoint filed a prospectus supplement registering for sale from time to time up to \$500.0 million of Common Stock pursuant to a sales agreement (the "ATM Facility").

During the fiscal year ended January 31, 2023, the Company sold a total of 4,657,806 shares of its Common Stock pursuant to the ATM Facility at the prevailing market prices for total proceeds of \$49.5 million, net of \$0.5 million of issuance costs.

12. Stock Warrants and Earnout

Redeemable Convertible Preferred Stock Warrants

Warrants to purchase shares of redeemable convertible preferred stock were initially recognized as a liability recorded at fair value upon issuance and were subject to remeasurement to fair value at each balance sheet date. As part of the Merger, Legacy ChargePoint redeemable convertible preferred stock was converted into

Legacy ChargePoint common stock pursuant to the conversion rate effective immediately prior to the Merger while all related Legacy ChargePoint preferred stock warrants were converted into warrants exercisable for shares of Common Stock with terms consistent with the Legacy ChargePoint preferred stock warrants except for the number of shares exercisable therefor and the exercise price, each of which was adjusted using the Exchange Ratio (see Note 5, *Reverse Capitalization and Business Combinations*, for more details). At that time, the redeemable convertible preferred stock warrant liability was remeasured and reclassified to additional paid-in capital.

The liability associated with these warrants was subject to remeasurement at each balance sheet date using the Level 3 fair value inputs. See Note 3, *Fair Value Measurements*, for further details.

The Level 3 fair value inputs used in the recurring valuation of the redeemable convertible preferred stock warrant liability were as follows:

	February 26, 2021 (Merger Date)	January 31, 2021	January 31, 2020
Expected volatility	84.3%	80.5%	58.4%
Risk-free interest rate	0.0%	0.1%	1.6%
Dividend rate	0.0%	0.0%	0.0%
Expected term (years)	0	1.4	2.0

Common Stock Warrants

Legacy ChargePoint had outstanding warrants to purchase shares of Legacy ChargePoint common stock (collectively, “Legacy Warrants”), which now represent warrants to purchase Common Stock. Immediately following the Merger, there were 38,761,031 Legacy Warrants outstanding which are classified as equity.

During the fiscal year ended January 31, 2023 and 2022, 1,039,153 and 3,222,442 Legacy Warrants were exercised resulting in the issuance of 1,037,808 and 2,906,689 shares of Common Stock. During the fiscal year ended January 31, 2023 and 2022, proceeds received from the exercise of Legacy Warrants were \$6.9 million and \$1.2 million, respectively.

As of January 31, 2023, there were 34,499,436 Legacy Warrants outstanding which are classified as equity.

	January 31, 2023		
	Outstanding Warrants		
	Number of Warrants	Exercise Price	Expiration Date
Common Stock	20,922,215	\$ 6.03	7/31/2030 - 8/4/2030
Common Stock	13,577,221	\$ 9.04	11/16/2028 - 2/13/2029
Total outstanding common stock warrants	34,499,436		

	January 31, 2022		
	Outstanding Warrants		
	Number of Warrants	Exercise Price	Expiration Date
Common Stock	21,727,177	\$1.25 - \$6.03	3/4/2022 – 8/6/2030
Common Stock	13,811,412	\$ 9.04	11/16/2028 – 2/14/2029
Total outstanding common stock warrants	35,538,589		

Private Placement Warrants

The Private Placement Warrants were initially recognized as a liability on February 26, 2021, at a fair value of \$127.9 million and the Private Placement Warrant liability was remeasured to fair value as of any respective exercise dates. The Company recorded an immaterial loss and a gain of \$63.7 million for the fiscal years ended January 31, 2023 and 2022, respectively, classified within change in fair value of warrant liabilities in the consolidated statements of operations.

The Private Placement Warrants were valued using the assumptions under the BLM that assumes optimal exercise of the Company's redemption option at the earliest possible date. On February 21, 2022, the Company redeemed the remaining Private Placement Warrants for 0.355 shares of Common Stock per warrant. As of January 31, 2023, there were zero Private Placement Warrants outstanding.

	January 31, 2022	February 26, 2021 (Merger Date)
Market price of public stock	\$13.85	\$30.83
Exercise price	\$11.50	\$11.50
Expected term (years)	4.1	5.0
Volatility	70.5%	73.5%
Risk-free interest rate	1.0%	0.8%
Dividend rate	0.0%	0.0%

Public Warrants

The Public Warrants were initially recognized as a liability on February 26, 2021 at a fair value of \$153.7 million and the public warrant liability was remeasured to fair value based upon the market price as warrants were exercised. On June 4, 2021 the Company issued a redemption notice pursuant to which all but 244,481 Public Warrants were exercised by the Public Warrant holders. At the conclusion of the redemption notice period on July 6, 2021, the Company redeemed the remaining 244,481 Public Warrants outstanding for \$0.01 per warrant. As of January 31, 2023, no Public Warrants remained outstanding.

The Company recognized no gain or loss for the fiscal year ended January 31, 2023, and a loss of \$15.9 million for the fiscal year ended January 31, 2022, classified within change in fair value of warrant liabilities in the consolidated statements of operations.

During the fiscal years ended January 31, 2023 and 2022, proceeds received from the exercise of Public Warrants were zero and \$117.6 million, respectively.

Warrant Activity

Activity of warrants is set forth below:

	Legacy Warrants	Private Placement Warrants	Total Common Stock Warrants
Outstanding as of January 31, 2022	35,538,589	10,435	35,549,024
Warrants Exercised	(1,039,153)	(10,435)	(1,049,588)
Outstanding as of January 31, 2023	<u>34,499,436</u>	<u>—</u>	<u>34,499,436</u>

Contingent Earnout Liability

During the five year period starting at the closing of the Merger ("Earnout Period"), eligible former equity holders of Legacy ChargePoint were eligible to receive up to 27,000,000 additional shares of Common Stock

(“Earnout Shares”) in three equal tranches if the Earnout Triggering Events (as described in the Merger Agreement) were fully satisfied. The three Earnout Triggering Events were the dates on which the closing volume weighted-average price (“VWAP”) per share of common stock quoted on the NYSE (or the exchange on which the shares of the Company’s Common Stock are then listed) is greater or equal to \$15.00, \$20.00 and \$30.00, respectively, for any ten trading days within any 20 consecutive trading day period within the Earnout Period.

Upon the closing of the Merger, the contingent obligation to issue Earnout Shares was accounted for as a liability because the Earnout Triggering Events that determine the number of Earnout Shares required to be issued include events that are not solely indexed to the Common Stock of ChargePoint. The estimated fair value of the total Earnout Shares at the closing of the Merger on February 26, 2021, was \$828.2 million based on a Monte Carlo simulation valuation model using a distribution of potential outcomes on a monthly basis over the Earnout Period using the most reliable information available. Assumptions used in the valuation are described below.

	March 12, 2021	February 26, 2021
Current stock price	\$27.84	\$30.83
Expected volatility	72.00%	71.60%
Risk-free interest rate	0.85%	0.75%
Dividend rate	0.00%	0.00%
Expected term (years)	4.96	5.00

The first two Earnout Triggering Events for up to 18,000,000 of the Earnout Shares occurred on March 12, 2021, and, after withholding some of these Earnout Shares to cover employee withholding tax obligations, 17,539,657 Earnout Shares were issued on March 19, 2021, and the estimated fair value of the earnout liability was remeasured to \$743.7 million, including (i) \$501.1 million related to the Earnout Shares issuable upon the occurrence of the Earnout Triggering Event associated with the \$15.00 and \$20.00 VWAP per share thresholds based on the Common Stock price as of March 12, 2021, and (ii) \$242.6 million related to the estimated fair value of earnout liability related to the remaining 9,000,000 Earnout Shares issuable upon the occurrence of the Earnout Triggering Event associated with the \$30.00 VWAP per share threshold based on a Monte Carlo simulation valuation model as of March 12, 2021, as described above. The change in fair value resulted in a gain of \$84.4 million recognized in the consolidated statement of operations for the three months ended April 30, 2021. Upon settlement of the first two tranches, the classification of the remaining 9,000,000 Earnout Shares of the third tranche was changed to equity on March 12, 2021, because the Earnout Shares became an instrument contingently issuable upon the occurrence of the Earnout Triggering Event into a fixed number of Common Shares that is not based on an observable market price or index other than the Company’s own stock price.

The third and final Earnout Triggering Event for up to 9,000,000 of the Earnout Shares associated with the \$30.00 VWAP per share threshold occurred on June 29, 2021, and, after the withholding of some of these Earnout Shares to cover employee withholding tax obligations, 8,773,596 Earnout Shares were issued on July 1, 2021.

No further Earnout Shares remained contingently issuable as of January 31, 2023 and 2022.

13. Equity Plans and Stock-Based Compensation

The following sets forth the total stock-based compensation expense for employee equity plans included in the Company's consolidated statements of operations:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands)		
Cost of revenue	\$ 4,351	\$ 3,782	\$ 115
Research and development	37,967	25,461	1,807
Sales and marketing	17,393	9,154	1,501
General and administrative	33,639	28,934	1,524
Total stock-based compensation expense	\$93,350	\$67,331	\$4,947

As of January 31, 2023, the Company had unrecognized stock-based compensation expense related to stock options, RSUs, PRSUs, and ESPP of \$191.6 million, which is expected to be recognized over a weighted-average period of 2.8 years.

2021 Employee Stock Purchase Plan

On February 25, 2021, the stockholders of the Company approved the 2021 Employee Stock Purchase Plan ("2021 ESPP"). The 2021 ESPP permits participants to purchase shares of the Company's Common Stock, up to the IRS allowable limit, through contributions (in the form of payroll deductions or otherwise to the extent permitted by the administrator) of up to 15% of their eligible compensation. The 2021 ESPP provides for consecutive, overlapping 24-month offering periods, subject to certain rollover and reset mechanisms as defined in the ESPP. Participants are permitted to purchase shares of the Company's Common Stock at the end of each 6-month purchase period at 85% of the lower of the fair market value of the Company's Common Stock on the first trading day of an offering period or on the last trading date of each purchase period. A participant may purchase a maximum of 10,000 shares of the Company's Common Stock during a purchase period. Participants may end their participation at any time during an offering and will be refunded any accrued contributions that have not yet been used to purchase shares. Participation ends automatically upon termination of employment with the Company. The initial offering period is from October 1, 2021 through September 9, 2023. Thereafter, offering periods will begin on March 10 and September 10.

Further, on the first day of each March during the term of the 2021 ESPP, commencing on March 1, 2021 and ending on (and including) March 1, 2040, the aggregate number of shares of Common Stock that may be issued under the 2021 ESPP shall automatically increase by a number equal to the lesser of (i) one percent (1%) of the total number of shares of Common Stock issued and outstanding on the last day of the preceding month, (ii) 5,400,000 shares of Common Stock (subject to standard anti-dilution adjustments), or (iii) a number of shares of Common Stock determined by the Company's Board of Directors. As of January 31, 2023, 10,919,906 shares of Common Stock were available under the 2021 ESPP.

During the year ended January 31, 2023, the Company's employees purchased 607,384 shares of its Common Stock under the 2021 ESPP. The shares were purchased at a weighted-average purchase price of \$14.73 per share, with proceeds of \$8.9 million.

2021 Equity Incentive Plan

On February 25, 2021, the stockholders of the Company approved the 2021 Equity Incentive Plan ("2021 EIP"). Under the 2021 EIP, the Company can grant stock options, stock appreciation rights, restricted stock, restricted stock units ("RSUs"), performance restricted stock units ("PRSUs"), and certain other awards which are settled in the form of shares of Common Stock issued under this 2021 EIP. On the first day of each March, beginning on March 1, 2021 and continuing through March 1, 2030, the 2021 EIP reserve will automatically

increase by a number equal to the lesser of (a) 5% of the total number of shares of Common Stock actually issued and outstanding on the last day of the preceding month and (b) a number of shares of Common Stock determined by the Company's Board of Directors. As of January 31, 2023, 39,406,473 shares of Common Stock were available under the 2021 EIP.

There were no options granted for the year ended January 31, 2023.

Restricted Stock Units

The 2021 EIP provides for the issuance of RSUs to employees and directors. A summary of activity of RSUs under the 2021 EIP at January 31, 2023 and changes during the periods then ended is presented in the following table:

	<u>Number of Shares</u>	<u>Weighted Average Grant Date Fair Value per Share</u>
Outstanding as of January 31, 2022	4,033,418	\$26.27
RSU granted	13,044,848	\$12.72
RSU vested	(3,066,215)	\$19.06
RSU forfeited	(1,076,638)	\$17.69
Outstanding as of January 31, 2023	<u>12,935,413</u>	<u>\$15.02</u>

The total grant date fair value of RSUs vested during the year ended January 31, 2023 was \$58.4 million.

Performance Restricted Stock Units

On June 1, 2022, pursuant to the 2021 EIP, the Company granted PRSUs to certain officers, including the Company's Chief Executive Officer. Subsequently, on September 1, 2022, the Company granted additional PRSUs to one of its newly-hired officers. Vesting of the PRSUs is dependent upon the satisfaction of both market- and service-based conditions. The market-based condition is achieved if the closing price of the Company's Common Stock is greater than or equal to the applicable stock price appreciation target for at least 20 consecutive trading days at any time during the period beginning the date of the grant and ending on the expiration date. There are three stock appreciation targets applicable to each PRSU award, the achievement of which will cause the market-based condition to be satisfied with respect to the following percentage of each award (each of which is called a tranche): \$17 per share/25% of the total PRSUs, \$22 per share/35% of the total PRSUs and \$30 per share/40% of the total PRSUs.

For officers other than the Company's Chief Executive Officer, the service-based conditions applicable to 1/20th of the PRSUs subject to each tranche will be satisfied if such officer remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2022 or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved. The PRSUs vesting dates are each March 20th, June 20th, September 20th, and December 20th. For the Company's Chief Executive Officer, the service-based conditions applicable to 1/12th of the PRSUs subject to each tranche will be satisfied if he remains in continuous service from the date of the grant until each PRSU vesting date occurring after June 20, 2024 or, if later, until the first PRSU vesting date after the applicable stock price appreciation target is achieved.

A summary of activity of PRSUs under the 2021 EIP at January 31, 2023 and changes during the periods then ended is presented in the following table:

	<u>Number of Shares</u>	<u>Weighted Average Grant Date Fair Value per Share</u>
Outstanding as of January 31, 2022	—	\$ —
PRSU granted	2,266,754	\$10.81
PRSU forfeited	(119,388)	\$10.47
Outstanding as of January 31, 2023	<u>2,147,366</u>	<u>\$10.83</u>

2017 Plan and 2007 Plan

In fiscal year 2022, the Company terminated its 2017 Stock Option Plan (the “2017 Plan”) and 2007 Stock Option Plan (the “2007 Plan”). No further awards will be granted under the 2017 and 2007 Plans. As of January 31, 2023, 15,746,369 shares and 1,854,155 shares of Common Stock remain reserved for outstanding awards issued under the 2017 and 2007 Plans, respectively. Stock-based awards forfeited, cancelled or repurchased from the above plans generally are returned to the pool of shares of Common Stock available for issuance under the 2021 EIP Plan.

Stock Options Activity

A summary of option activity under the 2017 and 2007 Plans at January 31, 2022 and changes during the periods then ended is presented in the following table:

	<u>Number of Stock Option Awards</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual term (in years)</u>	<u>Aggregate Intrinsic Value (in thousands)</u>
Outstanding as of January 31, 2022	<u>22,200,869</u>	\$0.68	6.6	\$292,362
Granted	—	\$ —		
Exercised	(4,201,592)	\$0.60		
Cancelled	(398,753)	\$0.76		
Outstanding as of January 31, 2023	<u>17,600,524</u>	\$0.70	5.6	\$201,352
Options vested and expected to vest as of				
January 31, 2023	<u>17,578,098</u>	\$0.70	5.6	\$201,097
Exercisable as of January 31, 2023	<u>14,356,582</u>	\$0.69	5.2	\$164,436

The options outstanding as of January 31, 2023, include the June 2020 grant of a stock option under the 2017 Plan to the Company’s Chief Executive Officer to purchase a total of 1,500,000 shares of Common Stock (“CEO Award”) originally subject to both service and performance-based vesting conditions. No stock-based compensation expense had been recorded prior to the Merger as the CEO Awards were improbable of vesting before and after two modifications in each of September 2020 and December 2020, because the performance-based vesting condition was contingent upon the closing of the Merger. Accordingly, the Company commenced recognition of stock-based compensation expense for the CEO Award following the Merger in February 2021 when the only remaining vesting condition was service-based. As of January 31, 2023 and 2022, the total unrecognized compensation expense related to the unvested portion of the CEO Award was \$14.1 million and \$28.4 million, respectively, which is expected to be recognized over a period of 1.0 years.

The Company did not grant any options during the years ended January 31, 2023 and 2022. The weighted-average grant date fair value of options granted during the year ended January 31, 2021 was \$0.94 per share. The

total fair value of options vested during the years ended January 31, 2023, 2022, and 2021 was \$2.0 million, \$3.4 million, and \$5.4 million, respectively.

Determination of Fair Value

The Company records stock-based compensation based on the grant date fair value of the equity instruments issued to employees and uses different appropriate methods to establish the fair value depending on the features of the awards. The grant date fair value of RSUs equals the fair market value of the Company's Common Stock on the grant date. The Company utilizes the Black-Scholes option-pricing model to establish the fair value of stock options and ESPP, and the Monte Carlo simulation model to establish the fair value of PRSUs containing a market condition.

The weighted-average assumptions in the Black-Scholes option-pricing models used to determine the fair value of ESPP rights granted during the year ended January 31, 2023 were as follows:

	Year Ended January 31,	
	2023	2022
Expected volatility	64.9% - 72.2%	61.8% - 73.5%
Risk-free interest rate	0.8% - 3.6%	0.1% - 0.3%
Dividend rate	0.0%	0.0%
Expected term (in years)	0.5 - 2.0	0.4 - 1.9

- Expected volatility: The expected volatility was determined by using a blended volatility approach of peer volatility and implied volatility. Peer volatility was calculated as the average of historical volatilities of selected industry peers deemed to be comparable to ChargePoint's business corresponding to the expected term of the awards.
- Risk-free interest rate: The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for zero-coupon U.S. Treasury notes with maturities corresponding to the expected term of the awards.
- Expected dividend yield: The expected dividend rate is zero as ChargePoint currently has no history or expectation of declaring dividends on its Common Stock.
- Expected term: The expected term represents the length of time the ESPP rights under each purchase period are outstanding.

The weighted-average assumptions in the Monte Carlo valuation model used to determine the fair value of PRSUs granted during the year ended January 31, 2023 were as follows:

	Year Ended January 31, 2023
Expected volatility	72.1% - 74.0%
Risk-free interest rate	2.8% - 3.3%
Dividend rate	0.0%
Expected term (in years)	0.3 - 4.8

- Expected volatility: The expected volatility was determined using a blended volatility approach of historical volatility and implied volatility.
- Risk-free interest rate: The risk-free interest rate is based on the U.S. Treasury Constant Maturities yield curve in effect at the time of grant for zero-coupon U.S. Treasury notes with maturities approximately equal to the expected term of the options.
- Expected dividend yield: The expected dividend rate is zero as the Company currently has no history or expectation of declaring dividends on its Common Stock.

- Expected term: The expected term input for the award with a market condition is based upon the derived service period (“DSP”). The DSP represents the duration of the median of the distribution of stock-price paths on which the market condition is satisfied.

14. Income Taxes

The components of net loss before income taxes were as follows:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands)		
Domestic	\$(342,999)	\$(131,916)	\$(197,908)
Foreign	(4,276)	(3,255)	1,082
Net loss before income taxes	<u>\$(347,275)</u>	<u>\$(135,171)</u>	<u>\$(196,826)</u>

The components of the provision for (benefit from) income taxes were as follows:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands)		
Current			
Federal	\$ —	\$ —	\$—
State	44	17	47
Foreign	1,345	359	151
Total current	<u>\$ 1,389</u>	<u>\$ 376</u>	<u>\$198</u>
Deferred			
Federal	\$ 1	\$(1,242)	\$—
State	—	(423)	—
Foreign	(3,557)	(1,641)	—
Total deferred	<u>(3,556)</u>	<u>(3,306)</u>	<u>—</u>
Total provision for income taxes	<u>\$(2,167)</u>	<u>\$(2,930)</u>	<u>\$198</u>

A reconciliation of the U.S. federal statutory rate to the Company’s effective tax rate was as follows:

	Year Ended January 31,		
	2023	2022	2021
Tax at federal statutory rate	21.0%	21.0%	21.0%
State tax rate, net	— %	— %	— %
Warrant and earnout revaluation	— %	20.9%	(7.8%)
Stock-based compensation	— %	8.0%	(0.2%)
Intangible assets amortization	— %	1.3%	— %
Change in valuation allowance	(18.9%)	(45.5%)	(13.6%)
Transaction cost	— %	(1.2%)	— %
Research and development tax credits	0.8%	2.8%	1.1%
Section 162(m) executive compensation limitation	(1.2)%	(5.3)%	— %
Other	(1.1)%	0.2%	(0.6)%
Effective tax rate	<u>0.6%</u>	<u>2.2%</u>	<u>(0.1)%</u>

The significant components of the Company's deferred tax assets and liabilities as of January 31, 2023 and 2022 were as follows:

	Year Ended January 31,	
	2023	2022
	(in thousands)	
Deferred tax assets:		
Net operating losses	\$ 216,642	\$ 199,299
Research & development credits	34,406	25,725
Deferred revenue	18,124	10,691
Accruals and reserves	16,742	10,882
Stock-based compensation	11,706	2,445
Operating lease liabilities	6,589	7,490
Capitalized research & development expense	39,761	—
Total deferred tax assets	343,970	256,532
Less: valuation allowance	(328,786)	(240,584)
Deferred tax liabilities:		
Depreciation and amortization	(390)	(177)
Operating lease right-of-use assets	(5,723)	(6,550)
Acquired intangible assets	(22,058)	(26,918)
Total deferred tax liabilities	(28,171)	(33,645)
Net deferred tax assets (liabilities)	\$ (12,987)	\$ (17,697)

Beginning January 1, 2022, the Tax Cuts and Jobs Act, or the Tax Act, eliminated the option to deduct research and development expenditures in the current year and requires taxpayers to capitalize such expenses pursuant to Internal Revenue Code Section 174. The capitalized expenses are amortized over a 5-year period for domestic expenses and a 15-year period for foreign expenses. As a result of this provision of the Tax Act, deferred tax assets related to capitalized research expenses increased by \$39.8 million.

The Company determines its valuation allowance on deferred tax assets by considering both positive and negative evidence in order to ascertain whether it is more likely than not that deferred tax assets will be realized. Realization of deferred tax assets is dependent upon the generation of future taxable income, if any, the timing and amount of which are uncertain. Due to the Company's historical operating losses in the United States ("US"), the Company believes that it is more likely than not that the US deferred taxes will not be realized; accordingly, the Company has recorded a full valuation allowance on its net US deferred tax assets as of January 31, 2023 and 2022. The valuation allowance increased by \$88.2 million, \$89.6 million, and \$16.7 million during the years ended January 31, 2023, 2022, and 2021, respectively, primarily driven by losses, capitalized research and development expenses, and tax credits generated in the United States.

As of January 31, 2023, the Company had federal and California state net operating loss ("NOL") carryforwards of \$793.1 million and \$371.1 million, respectively, of which \$604.3 million of the federal NOL carryforwards can be carried forward indefinitely. The federal and California state net operating loss carryforwards begin to expire in 2028 and 2029, respectively. In addition, the Company had NOLs for other states of \$313.8 million, which expire beginning in the year 2023.

As of January 31, 2023, the Company had federal and California state research credit carryforwards of \$33.1 million and \$30.7 million, respectively. The federal credit carryforwards will begin to expire in 2038. The California research credit carryforwards can be carried forward indefinitely.

Under Internal Revenue Code Section 382 ("Section 382"), the Company's ability to utilize NOL carryforwards or other tax attributes such as research tax credits, in any taxable year may be limited if the

Company experiences, or has experienced, an “ownership change.” A Section 382 ownership change generally occurs if one or more stockholders or groups of stockholders, who own at least 5% of the Company’s stock, increase their ownership by more than 50 percentage points over their lowest ownership percentage within a rolling three-year period. Similar rules may apply under state tax laws. The Company completed its Section 382 analysis and determined it had experienced ownership changes in some periods through January 31, 2021. As a result of the ownership changes, approximately \$17.1 million of Federal NOLs, \$17.9 million of California NOLs, and \$4.7 million of federal tax credits are expected to expire unutilized for income tax purposes. Subsequent ownership changes may affect the limitation in future years.

The following table summarizes the activity related to unrecognized tax benefits as follows:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands)		
Unrecognized tax benefits—beginning	\$19,238	\$ 9,402	\$10,153
Gross changes—prior period tax position	109	2,039	(3,620)
Gross changes—current period tax position	6,415	7,797	2,869
Unrecognized tax benefits—ending	<u>\$25,762</u>	<u>\$19,238</u>	<u>\$ 9,402</u>

As of January 31, 2023, the Company had unrecognized tax benefits of \$25.8 million, which would not impact the effective tax rate, if recognized, due to the valuation allowance. The unrecognized tax benefits are related to activities which the Company believes qualify for research and development tax credits. The Company does not expect its unrecognized tax benefits will significantly change over the next twelve months. The Company recognizes interest and penalties related to the underpayment of income taxes as a component of income tax expense or benefit. To date, there have been no interest or penalties charged in relation to unrecognized tax benefits.

The Company is subject to income taxes in United States federal and various state, local, and foreign jurisdictions. The fiscal years from 2008 to 2023 remain open to examination due to the carryover of unused net operating losses or tax credits.

The Company intends to indefinitely reinvest the undistributed earnings of its foreign subsidiaries in those operations. Therefore, the Company has not accrued any provision for taxes associated with the repatriation of undistributed earnings from its foreign subsidiaries as of January 31, 2023. The amount of unrecognized deferred tax liability on these undistributed earnings was not material as of January 31, 2023.

15. Geographic Information

Revenue by geographic area based on the shipping address of the customers was as follows:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands)		
United States	\$373,736	\$205,186	\$131,571
Rest of World	94,358	35,820	14,919
Total revenue	<u>\$468,094</u>	<u>\$241,006</u>	<u>\$146,490</u>

Long-lived assets by geographic area were as follows:

	January 31,	
	2023	2022
	(in thousands)	
United States	\$ 71,032	\$ 72,026
Netherlands	76,747	87,731
Rest of World	7,182	7,580
Total long-lived assets	<u>\$154,961</u>	<u>\$167,337</u>

16. Basic and Diluted Net Loss per Share

The following table sets forth the computation of the Company's basic and diluted net loss per share attributable to common stockholders for the years ended January 31, 2023, 2022, and 2021:

	Year Ended January 31,		
	2023	2022	2021
	(in thousands, except share and per share data)		
<i>Numerator:</i>			
Net income (loss)	\$ (345,108)	\$ (132,241)	\$ (197,024)
<i>Adjust: Accretion of beneficial conversion feature of redeemable convertible preferred stock</i>	—	—	(60,377)
<i>Adjust: Cumulative dividends on redeemable convertible preferred stock</i>	—	(4,292)	(16,799)
<i>Adjust: Deemed dividends attributable to vested option holders</i>	—	(51,855)	—
<i>Adjust: Deemed dividends attributable to common stock warrant holders</i>	—	(110,635)	—
Net loss attributable to common stockholders—Basic	\$ (345,108)	\$ (299,023)	\$ (274,200)
<i>Less: Gain attributable to earnout shares issued</i>	—	(84,420)	—
<i>Less: Change in fair value of dilutive warrants</i>	—	(68,223)	—
Net loss attributable to common stockholders—Diluted	<u>\$ (345,108)</u>	<u>\$ (451,666)</u>	<u>\$ (274,200)</u>

	Year Ended January 31,		
	2023	2022	2021
	(in thousands, except share and per share data)		
Denominator:			
Weighted average common shares outstanding (1)	338,576,326	297,642,999	15,116,763
<i>Less: Weighted-average unvested restricted shares and shares subject to repurchase</i>	(87,659)	(221,030)	—
Weighted average shares outstanding—Basic	338,488,667	297,421,969	15,116,763
<i>Add: Earnout Shares under the treasury stock method</i>	—	3,701,427	—
<i>Add: Public and Private Placement Warrants under the treasury stock method</i>	—	1,366,870	—
Weighted average shares outstanding—Diluted	338,488,667	302,490,266	15,116,763
Net loss per share—Basic	\$ (1.02)	\$ (1.01)	\$ (18.14)
Net loss per share—Diluted	\$ (1.02)	\$ (1.49)	\$ (18.14)

- (1) For the fiscal year ended January 31, 2022, as a result of the Merger, the Company retroactively adjusted the weighted-average number of shares of Common Stock outstanding prior to the Closing Date by multiplying them by the Exchange Ratio of 0.9966 used to determine the number of shares of Common Stock into which they converted. The Common Stock issued as a result of the redeemable convertible preferred stock conversion on the Closing Date was included in the basic net loss per share calculation on a prospective basis.

Redeemable convertible preferred stock and preferred stock warrants outstanding prior to the Merger Closing Date were excluded from the diluted net loss per share calculation for the year ended January 31, 2022, because including them would have had an antidilutive effect.

The potential shares of Common Stock that were excluded from the computation of diluted net loss per share attributable to common stockholders for the periods presented because including them would have had an antidilutive effect were as follows:

	Year Ended January 31,		
	2023	2022	2021
Redeemable convertible preferred stock (on an as-converted basis)	—	—	193,037,715
2027 Convertible Notes (on an as-converted basis)	12,483,569	—	—
Options to purchase common stock	17,600,524	22,200,869	30,167,178
Restricted stock units	12,935,413	4,033,418	—
Unvested early exercised common stock options	40,555	132,180	371,193
Redeemable convertible preferred stock warrants (on an as-converted basis)	—	—	2,358,546
Common stock warrants	34,499,436	35,549,024	36,402,515
Employee stock purchase plan	1,835,659	894,348	—
Total potentially dilutive common share equivalents	79,395,156	62,809,839	262,337,147

PRSUs granted during the fiscal year ended January 31, 2023 were excluded from the above table because the respective stock price targets had not been met as of the year end.

17. Employee Benefit Plans

The Company has a defined-contribution plan intended to qualify under Section 401 of the Internal Revenue Code (the “401(k) Plan”). The Company contracted with a third-party provider to act as a custodian and trustee, and to process and maintain the records of participant data. Substantially all of the expenses incurred for administering the 401(k) Plan are paid by ChargePoint. The Company has not made any matching contributions to date.

18. Subsequent Events

On March 6, 2023, the Company paid \$7.1 million to settle the ViriCiti Earnout liability pursuant to the acquisition of ViriCiti on August 11, 2021. In accordance with the acquisition agreement, the Company was required to pay additional earnout consideration on meeting certain revenue targets through January 31, 2023.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures include controls and other procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934, as amended, (“Exchange Act”) is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to ChargePoint’s management, including its Chief

Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

ChargePoint's management, with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated, as of January 31, 2023, the effectiveness of ChargePoint's disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that ChargePoint's disclosure controls and procedures were not effective at the reasonable assurance level as of January 31, 2023 due to the material weaknesses in its internal control over financial reporting described below.

Management's Report on Internal Control over Financial Reporting

ChargePoint's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. ChargePoint's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP and includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect ChargePoint's transactions and the dispositions of ChargePoint's assets; (2) provide reasonable assurance that ChargePoint's transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP and that ChargePoint's receipts and expenditures are being made only in accordance with appropriate authorizations of management and the directors of ChargePoint; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of ChargePoint's assets that could have a material effect on its financial statements.

ChargePoint's management, under the supervision of and with the participation of its Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of ChargePoint's internal control over financial reporting as of January 31, 2023 using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in *Internal Control—Integrated Framework* (2013). Based on the assessment by ChargePoint's management, ChargePoint's management concluded that ChargePoint did not maintain effective internal control over financial reporting as of January 31, 2023 due to the material weaknesses described below.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of ChargePoint's annual or interim financial statements will not be prevented or detected on a timely basis.

ChargePoint did not design and maintain effective controls over certain information technology ("IT") general controls for information systems that are relevant to the preparation of its consolidated financial statements. Specifically, ChargePoint did not design and maintain (a) program change management controls to ensure that IT program and data changes affecting financial IT applications and underlying accounting records are identified, tested, authorized and implemented appropriately, (b) user access controls to ensure appropriate segregation of duties and that adequately restrict user and privileged access to its financial applications and data to appropriate company personnel and (c) testing and approval controls for program development to ensure that new software development is aligned with business and IT requirements. The IT deficiencies did not result in any misstatements to the consolidated financial statements, however, the deficiencies, when aggregated, could impact maintaining effective segregation of duties, as well as the effectiveness of IT-dependent controls (such as automated controls that address the risk of material misstatement to one or more assertions, along with the IT controls and underlying data that support the effectiveness of system-generated data and reports) that could result

in misstatements potentially impacting all financial statement accounts and disclosures that would not be prevented or detected. Accordingly, ChargePoint management has determined these deficiencies in the aggregate constitute a material weakness.

ChargePoint did not design and maintain effective controls over segregation of duties.

The material weaknesses described above did not result in a misstatement to our annual or interim consolidated financial statements. However, each of these material weaknesses could result in a misstatement of our financial statement accounts or disclosures that would result in a material misstatement to the annual or interim consolidated financial statements that would not be prevented or detected.

ChargePoint's independent registered public accounting firm, PricewaterhouseCoopers LLP, has audited the effectiveness of ChargePoint's internal control over financial reporting as of January 31, 2023, as stated in their report, which appears in Part II, Item 8 of this Annual Report on Form 10-K.

Remediation Plan

ChargePoint has continued implementation of a plan to remediate these material weaknesses. These remediation measures are ongoing and include the following:

- Engaging an external advisor to assist with evaluating and documenting the design and operating effectiveness of IT general controls and assist with the remediation of deficiencies, as necessary;
- Designing and implementing controls over segregation of duties; and
- Designing and implementing IT general controls, including controls over program change management, the provisioning and monitoring of user access rights and privileges and program development processes and procedures.

ChargePoint is working to remediate the material weaknesses as efficiently and effectively as possible and remediation efforts could continue beyond the fiscal year ending January 31, 2024. At this time, ChargePoint cannot provide an estimate of costs expected to be incurred in connection with implementing this remediation plan; however, these remediation measures will be time consuming, will result in it incurring significant costs, and will place significant demands on its financial and operational resources.

In order to maintain and improve the effectiveness of its internal control over financial reporting, ChargePoint has expended, and will continue to expend, significant resources, including accounting-related costs and significant management oversight.

Remediation of Previously Identified Material Weaknesses

As previously disclosed in our Annual Report on Form 10-K for the year ended January 31, 2022, management concluded the following material weaknesses existed in ChargePoint's internal control over financial reporting:

- ChargePoint did not design and maintain an effective control environment commensurate with its financial reporting requirements. Specifically, ChargePoint did not maintain a sufficient complement of personnel with an appropriate degree of accounting knowledge, experience and training to appropriately analyze, record and disclose accounting matters commensurate with its accounting and reporting requirements.
- ChargePoint did not design and maintain formal accounting policies, procedures and controls over significant accounts and disclosures to achieve complete, accurate and timely financial accounting, reporting and disclosures, including accounting for complex features associated with warrants, and adequate controls related to the preparation and review of journal entries.

- ChargePoint did not design and maintain effective controls related to the valuation of acquired intangible assets, specifically controls over the review of the inputs and assumptions used in the valuation of the acquired assets.

ChargePoint completed the following actions and measures designed to remediate the control deficiencies that had led to the material weaknesses:

- Hired additional finance and accounting personnel with the appropriate level of public accounting knowledge and experience to enhance ChargePoint's accounting and financial reporting team and to establish and maintain internal control over financial reporting;
- Engaged the internal audit team, along with third-party consultants, in assisting ChargePoint in evaluating internal control over financial reporting;
- Designed and implemented additional review and training procedures within ChargePoint's accounting and finance functions to enhance knowledge and understanding of internal control over financial reporting;
- Performed a comprehensive assessment of financial reporting risks relevant to ChargePoint's consolidated financial statements, including identification of financially relevant systems and business processes at the financial statement assertion level, to facilitate the design and implementation or enhancement of existing controls to address the identified risks;
- Redesigned and enhanced existing controls related to the identification of and accounting for certain non-routine, unusual or complex transactions, including the accounting for complex features associated with warrants;
- Redesigned and enhanced existing controls related to the review of the inputs and assumptions used in the valuation of acquired intangible assets; and
- Redesigned and enhanced controls over the preparation and review of journal entries, including controls over the segregation of duties of journal entries.

Management has completed its documentation, testing and evaluation of the newly designed and enhanced control activities and determined that, as of January 31, 2023, these control activities have been appropriately designed and implemented, and have operated effectively for a sufficient period of time to conclude that these previously identified material weaknesses have been remediated.

Changes in Internal Control Over Financial Reporting

There have been no changes in internal control over financial reporting during the quarter ended January 31, 2023 that have materially affected, or are reasonably likely to materially affect, ChargePoint's internal control over financial reporting.

Item 9B. Other Information.

Not applicable.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Information relating to directors, executive officers and corporate governance will be presented in the definitive proxy statement filed pursuant to Regulation 14A for the 2023 Annual Meeting of Stockholders to be held on or about July 18, 2023, which information is incorporated herein by reference.

Item 11. Executive Compensation.

Information relating to executive compensation will be presented in the definitive proxy statement filed pursuant to Regulation 14A for the 2023 Annual Meeting of Stockholders to be held on or about July 18, 2023, which information is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Information relating to securities authorized for issuance under equity compensation plans and other information required to be provided in response to this item will be presented in the definitive proxy statement filed in pursuant to Regulation 14A for the 2023 Annual Meeting of Stockholders to be held on or about July 18, 2023, which information is incorporated herein by reference. In addition, descriptions of ChargePoint's equity compensation plans are set forth in Note 13, *Equity Plans and Stock-Based Compensation*, in the notes to the consolidated financial statements included in this Annual Report.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Information required to be provided in response to this item will be presented in the definitive proxy statement filed pursuant to Regulation 14A for the 2023 Annual Meeting of Stockholders to be held on or about July 18, 2023, which information is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services.

Information required to be provided in response to this item will be presented in the definitive proxy statement filed pursuant to Regulation 14A for the 2023 Annual Meeting of Stockholders to be held on or about July 18, 2023, which information is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

(a) Exhibits.

Exhibit No.	Description
2.1	Business Combination Agreement and Plan of Reorganization, dated as of September 23, 2020, by and among Switchback Energy Acquisition Corporation, Lightning Merger Sub Inc. and ChargePoint, Inc. (incorporated by reference to Exhibit 2.1 to the Company's Current Report on Form 8-K (File No. 001-39004) filed with the SEC on September 24, 2020).
3.1	Second Amended and Restated Certificate of Incorporation of ChargePoint (incorporated by reference to Exhibit 3.1 to ChargePoint Holdings, Inc.'s Current Report on Form 8-K (File No. 0139004), filed with the SEC on March 1, 2021).
3.2	Amended and Restated Bylaws of ChargePoint Holdings, Inc., effective as of March 31, 2022 (incorporated by reference to Exhibit 3.2 to ChargePoint Holdings, Inc.'s Annual Report on Form 10-K (File No. 001-39004), filed with the SEC on April 4, 2022).
3.3	Certificate of Change of Registered Agent and/or Registered Office (incorporated by reference to Exhibit 3.3 to ChargePoint Holdings, Inc.'s Annual Report on Form 10-K (File No. 001-39004), filed with the SEC on April 4, 2022).
4.1	Form of Warrant to Purchase Shares of Common Stock of ChargePoint, Inc. (incorporated by reference to Exhibit 4.2 to Switchback Energy Acquisition Corporation's Registration Statement on Form S-4/A (File No. 333-249549), filed with the SEC on December 4, 2020).
4.2	Form of 2011 Warrant to Purchase Shares of Series D Preferred Stock of ChargePoint, Inc. (incorporated by reference to Exhibit 4.5 to Switchback Energy Acquisition Corporation's Registration Statement on Form S-4/A (File No. 333-249549), filed with the SEC on December 4, 2020).
4.3+	Description of Registrant's Securities
4.4	Indenture (including form of Note), dated April 12, 2022, by and among ChargePoint Holdings, Inc., ChargePoint, Inc. and Wilmington Trust National Association (incorporated by reference to Exhibit 4.1 to ChargePoint Holdings, Inc.'s Current Report on Form 8-K (File No. 001-39004), filed with the SEC on April 12, 2022).
4.5	Form of Indenture with respect to Debt Securities (incorporated by reference to Exhibit 4.6 to the Registration Statement on Form S-3 (File No. 333-265986), filed with the SEC on July 1, 2022).
10.1	Letter Agreement (incorporated by reference to Exhibit 10.1 to Switchback Energy Acquisition Corporation's Current Report on Form 8-K (File No. 001-39004), filed with the SEC on July 30, 2019).
10.2	Founders Stock Letter, Dated September 23, 2020, by and between Switchback and the Initial Stockholders (incorporated by reference to Exhibit 10.2 to Switchback Energy Acquisition Corporation's Current Report on Form 8-K (File No. 001-39004), filed with the SEC on September 24, 2020).
10.3	Form of Subscription Agreement (incorporated by reference to Exhibit 10.3 to Switchback Energy Acquisition Corporation's Current Report on Form 8-K (File No. 001-39004), filed with the SEC on September 24, 2020).
10.4 ^{^*}	Offer Letter between ChargePoint and Pasquale Romano, dated January 28, 2011 (incorporated by reference to Exhibit 10.14 to Switchback Energy Acquisition Corporation's Registration Statement on Form S-4/A (File No. 333-249549), filed with the SEC on December 4, 2020).

Exhibit No.	Description
10.5*	Amendment to Employment Letter between ChargePoint and Pasquale Romano, dated December 21, 2012 (incorporated by reference to Exhibit 10.15 to Switchback Energy Acquisition Corporation's Current Report on Form S-4/A (File No. 333-249549), filed with the SEC on December 4, 2020).
10.6	Private Placement Warrants Purchase Agreement (incorporated by reference to Exhibit 10.5 to Switchback Energy Acquisition Corporation's Current Report on Form 8-K (File No. 001-39004), filed with the SEC on July 30, 2019).
10.7*	ChargePoint Holdings, Inc. 2021 Equity Incentive Plan and related forms of agreement (incorporated by reference to Exhibit 10.7 to ChargePoint Holdings, Inc.'s Annual Report on Form 10-K (File No. 001-39004), filed with the SEC on April 4, 2022).
10.8*	ChargePoint Holdings, Inc. 2021 Employee Stock Purchase Plan (incorporated by reference to Exhibit 10.8 to ChargePoint Holdings, Inc.'s Annual Report on Form 10-K (File No. 001-39004), filed with the SEC on April 4, 2022).
10.9	Form of Indemnification Agreement (incorporated by reference to Exhibit 10.9 to ChargePoint Holdings, Inc.'s Annual Report on Form 10-K (File No. 001-39004), filed with the SEC on April 4, 2022).
10.10*	ChargePoint Holdings Incentive Bonus Plan (incorporated by reference to Exhibit 10.10 to ChargePoint Holdings, Inc.'s Current Report on Form 8-K (File No. 001-39004), filed with the SEC on March 1, 2021).
10.11*	ChargePoint Holdings, Inc. Compensation Program for Non-Employee Directors (incorporated by reference to Exhibit 10.5 to ChargePoint Holdings, Inc.'s Quarterly Report on Form 10-Q (File 0001-39004), filed with the SEC on June 7, 2022).
10.12	Form of Lock-up Agreement (incorporated by reference to Exhibit 10.1 to Switchback Energy Acquisition Corporation's Current Report on Form 8-K (File No. 001-39004), filed with the SEC on September 24, 2020).
10.13	Amended and Restated Registration Rights Agreement, dated February 26, 2021, by and among ChargePoint Holdings, Inc., and certain stockholders and equityholders of ChargePoint Holdings, Inc.(incorporated by reference to Exhibit 10.13 to ChargePoint Holdings, Inc.'s Current Report on Form 8-K (File No. 001-39004), filed with the SEC on March 1, 2021).
10.14^*	Employment Agreement between ChargePoint Europe Holdings B.V. and Christopher Burghardt, dated November 6, 2017 (incorporated by reference to Exhibit 10.14 to ChargePoint Holdings, Inc.'s Current Report on Form 8-K (File No. 001-39004), filed with the SEC on March 1, 2021).
10.15^*	Offer Letter between ChargePoint and Michael Hughes, dated May 21, 2018 (incorporated by reference to Exhibit 10.15 to ChargePoint Holdings, Inc.'s Current Report on Form 8-K (File No. 001-39004), filed with the SEC on March 1, 2021).
10.16*	ChargePoint, Inc. 2017 Stock Plan, as amended (incorporated by reference to Exhibit 10.18 to Switchback Energy Acquisition Corporation's Registration Statement on Form S-4/A (File No. 333249549), filed with the SEC on December 4, 2020).
10.17*	Coulomb Technologies, Inc. 2007 Stock Incentive Plan, as amended (incorporated by reference to Exhibit 10.19 to Switchback Energy Acquisition Corporation's Registration Statement on Form S-4/A (File No. 333-249549), filed with the SEC on December 4, 2020).
10.18*	Form of Change in Control Vesting Acceleration Agreement for ChargePoint (Europe) (incorporated by reference to Exhibit 10.18 to ChargePoint's Post-Effective Amendment No. 2 to the Registration Statement on Form S-1 (File no. 333-253759), filed with the SEC on May 28, 2021).

Exhibit No.	Description
10.19*	Form of Severance and Change in Control Agreement for ChargePoint (US) (incorporated by reference to Exhibit 10.19 to ChargePoint's Post-Effective Amendment No. 2 to the Registration Statement on Form S-1 (File no. 333-253759), filed with the SEC on May 28, 2021).
10.20*	Form of Severance and Change in Control Agreement for ChargePoint Europe Holdings B.V. (Europe) (incorporated by reference to Exhibit 10.20 to ChargePoint's Post-Effective Amendment No. 2 to the Registration Statement on Form S-1 (File no. 333-253759), filed with the SEC on May 28, 2021).
