A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of my procedures provide a reasonable basis for my conclusion.

SOCIAL CHAINS INC
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

This summary of significant accounting policies of Social Chains Inc (the Company) is presented to aid in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

NOTE 1 – BACKGROUND

The Company is organized as a Texas C-corporation on February 15, 2018 by President Srinivasa Katta and Vice-President Radha Vudumula.

The Company was created in response to a fundamental lack of trust where user data is being exploited over the internet. The Company strives to build and promote a safer and ethical online social platform that would encourage and allow more people to experience and benefit from using online networking and online transactions. In addition, management represented that the Company currently rewards its advisors, managers and subscribers in Cryptocurrency.

NOTE 2 – RISKS AND UNCERTAINTIES

The Company is subject to various risks and uncertainties frequently encountered by companies in the emerging growth stages of development. Such risks and uncertainties include, but are not limited to, the lack of available capital, an evolving business model, the management of rapid growth, and general economic challenges in the online social media industry. To address these risks, the Company must, along with other things, gain access to capital in amounts and on terms acceptable to the Company; maintain and increase the number of its subscribers; implement and successfully execute its business and marketing strategies; continue to develop and upgrade its technology; provide a meaningful user experience; and attract, retain, and motivate qualified personnel.

There can be no guarantee that the Company will be successful in addressing such risks.

NOTE 3 – BASIS OF ACCOUNTING

The Company's policy is to prepare its financial statements on the accrual basis of accounting. Consequently, revenues are recognized when earned and expenses and purchases of assets are recognized when the obligation is incurred.

NOTE 4 – SOCIAL MEDIA PLATFORM DEVELOPMENT COSTS

The Company's intangible asset relates to costs incurred for development of its social media platform. These costs are capitalized and will be amortized over a 15-year period and expensed to operations for tax purposes according to the Internal Revenue Code. There was no amortization expense during 2018 as the software will not be released to the public until the end of 2019.

The Company evaluates the recoverability of identifiable social media platform development costs whenever events or changes in circumstance indicate that an intangible asset's carrying amount may not be recoverable. Such circumstances could include, but are not limited to, a significant decrease in the market value of an assets, a significant adverse change to the extent or matter in which an asset is used, or an accumulation of costs significantly in excess of the amount originally expected for the acquisition of an asset.

The Company evaluates all significant tax positions as required by accounting principles generally accepted in the United States of America.
