4. Please disclose whether you are subject to material cybersecurity risks in your supply chain based on third-party products, software, or services used in your products, services, or business and how a cybersecurity incident in your supply chain could impact your business. Discuss the measures you have taken to mitigate these risks. Please revise to also describe the extent and nature of the role of the company's board of directors in overseeing cybersecurity risks, including in connection with your supply chain/suppliers/service providers.
5. Please include a discussion of interest rates and specifically identify the impact of rate increases on your operations and how your business has been affected. Use of Proceeds, page 59

7. We note your disclosure that the credit funds received a phantom warrant under the terms of the Facility Agreement which entitles them to a cash payment in an "Exit Event" and that the credit funds may decide to not receive payment in shares in lieu of a cash payment if the Exit Event is an IPO. Please clarify if the current offering will trigger this payment obligation. If so, tell us if the payment will be paid out of your offering proceeds and provide disclosure in the use of proceeds section.

Management's Discussion and Analysis of Financial Condition and Results of Operations, page 72

8. We note that you emphasize the importance of supply chain management. Please discuss whether supply chain disruptions materially affect your outlook or business goals. Specify whether these challenges have materially impacted your results of operations or capital resources and quantify, to the extent possible, how your sales, profits, and/or liquidity have been impacted. Revise to discuss known trends or uncertainties resulting from mitigation efforts undertaken, if any. Explain whether any mitigation efforts introduce new material risks, including those related to product quality, reliability or regulatory approval of products.
9. Please disclose (i) whether your business segments, products, lines of service, projects, or operations are materially impacted by the pandemic-related lockdowns in China and (ii) the impact of consumer demand declines in China. General

13. Please disclose whether and how your business segments, products, lines of service, projects, or operations are materially impacted by supply chain disruptions, especially in light of Russia's invasion of Ukraine or in light of the effectiveness of the UFLPA. For example, discuss whether you have or expect to:
- suspend the production, purchase, sale or maintenance of certain items due to a lack of raw materials, parts, or equipment; inventory shortages; closed factories or stores; reduced headcount; or delayed projects;
  - experience labor shortages that impact your business;
  - experience cybersecurity attacks in your supply chain;
  - experience higher costs due to constrained capacity or increased commodity prices or challenges sourcing materials (e.g., nickel, palladium, neon, cobalt, iron, platinum or other raw material sourced from Russia, Belarus, or Ukraine or lithium, nickel, manganese, beryllium, copper, gold or other raw material sourced from Western China);
  - experience surges or declines in consumer demand for which you are unable to adequately adjust your supply;
  - be unable to supply products at competitive prices or at all due to export restrictions, sanctions, tariffs, trade barriers, or political or trade tensions among countries; or
  - be exposed to supply chain risk in light of Russia's invasion of Ukraine, the effectiveness of the UFLPA and/or related geopolitical tension or have sought to "de-globalize" your supply chain.

Explain whether and how you have undertaken efforts to mitigate the impact and where possible quantify the impact to your business
