Cover page

1. We note your disclosure on the prospectus cover page that the last reported sale price of your ordinary shares on the London AIM market was £ ___ per ordinary share, equivalent to \$ ___ per ADS. You may use the most recent home market trading price, converted to U.S. dollars at the most recent exchange rate, assuming the U.S. IPO price will be substantially similar to the home market trading price. If you expect that the U.S. IPO price will not be substantially similar as the home market trading price, please disclose on the prospectus cover page a bona fide price range of the offered securities. If you intend to price the securities based on the London AIM market price, you may disclose a percentage range based on that price (for example, 10% of the home market price) within which you

intend to price the securities. Please refer to the instructions to Item 501(b)(3) of Regulation S-K which require bona fide pricing information for offerings by companies not subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act.
