NOTES TO FINANCIAL STATEMENTS

NOTE 1 - BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Organization and Business**

HudsonWest LLC (the "Company") was incorporated as a limited liability company in the state of Colorado on March 20, 2019. The Company's primary activity is rendering corporate financial advisory services to selected clients. Such advisory services typically involve advice with respect to equity-linked financings and equity-linked derivative transactions. The Company commenced operations in February of 2020 and registered with the Securities and Exchange Commission and Financial Industry Regulatory Authority, Inc. as a Capital Acquisition Broker broker-dealer on February 18, 2020.

The Company, under rule 15c3-3 and Footnote 74, is exempt from the customer reserve and possession or control requirements of rule 15c3-3 of the Securities and Exchange Commission. The Company does not carry or clear customer transactions.

Revenue Recognition

Revenues are recognized when earned and arise from financial advisory services provided by the Company to its clients. Such revenue and fees are primarily recorded at a point in time when services for the transactions are completed and income is reasonably determinable, generally as set forth under the terms of the engagement. Payment for advisory services is generally due upon completion of the transaction. Retainer fees and fees earned from certain advisory services are recognized ratably over the service period as the customer receives the benefit of the services throughout the term of each contract, and such fees are collected based on the terms of each contract. All revenues in this audit period were fully earned upon completion of each related transaction.

Income Taxes

The Company made an election to be taxed as a limited liability company under the Internal Revenue Code. Accordingly, there is no provision for income taxes included in the accompanying financial statements. All income and expenses are reported by the Company's members on their respective tax returns. The 2018 through 2022 tax years generally remain subject to examination by U.S. federal and most state tax authorities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Fair Value Measurement

The Financial Accounting Standards Board issued FASB ASC 820 (Accounting Standards Codification 820, "Fair Value Measurements and Disclosures") defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value. The company does not hold any positions besides cash as of December 31, 2022.

NOTE 2 - ADVISORY ARRANGEMENTS

The Company earns revenues and fees from financial advisory services provided by the Company to its clients pursuant to agreements entered into from time to time with its clients.

NOTES TO FINANCIAL STATEMENTS

NOTE 6 - FINANCIAL INSTRUMENTS, RISKS AND UNCERTAINTIES

For the year ended December 31, 2022, the Company entered into various advisory and consulting agreements with six separate and independent customers.

The Company's financial instruments, including cash, receivables, other assets and payables are carried at amounts that approximate fair value due to the short-term nature of those instruments. The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. Management believes that the Company is not exposed to any significant credit risk on cash.

The Company enters into various transactions with other companies and/or financial institutions. In the event these counterparties do not fulfill their obligations, the Company may be exposed to risk. This risk of default depends on the creditworthiness of the counterparties to these transactions. It is the Company's policy to monitor the exposure to and creditworthiness of each party with which it conducts business.

In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties that may subject the Company to litigation risk under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. Management of the Company expects the risk of any future obligation under these arrangements to be remote.
