(D) – THE COMPANY’S BUSINESS AND BUSINESS PLAN

Overview

9 Miles East Farm has built a strong brand and a base of thousands of regular customers through years of consistently delivering high-quality locally-sourced food to the Capital District and Metro Boston areas. The founders of the farm are now planning to establish a larger production kitchen and 40 seat dining room in a great central location in Saratoga Springs, NY. This new restaurant will be operated under the recently established 9 Miles East Saratoga LLC and will be a separate business from the 9 Miles East Farm. The new dining room will make the farm’s award-winning pizza and other meals available for higher-margin on-premise consumption, and improve operational efficiency for the delivery operation. The new kitchen will also house an expanded production kitchen for 9 Miles East Farm’s GO Boxes and other meals delivered through workplace wellness and subscription meal delivery channels. We’ve simply outgrown our current kitchen on the farm.

Strategy

Serve an installed base of 4,772 customers who have ordered for home delivery through www.pizzadelivery.farm over the nearly five years since the start of that operation, based on pizzadelivery.farm’s five-star Yelp rating and recent ranking as one of 2019’s three top pizza places in Upstate New York.

Attract new customers who haven’t yet tried our food due to our hidden location and delivery-only model.

Take advantage of 9 Miles East Farm’s established presence serving more than 100 corporate clients in the Capital District whose thousands of employees buy from us weekly at work and recognize our brand at the intersection of fun, delicious, local and healthy.

Establish hybrid dining room/delivery operation as template for expansion to other markets. The Boston area, where 9 Miles East Farm already serves ~80 companies and dozens of home delivery customers each week, is a logical next step.

Location

64 Excelsior St. Saratoga Springs, NY 12866

3,300 square-foot Former Stark's Muffler shop will house a dining room for on-premises meals, pizza/home delivery hub, and production space for 9 Miles East Farm's workplace wellness, workplace catering, and subscription meal delivery operations, which at a ~\$2.5 million run rate have outgrown the on-farm kitchen currently used for production.

It's a perfect central location to serve as delivery hub to East Side, Skidmore, and West Side.

Easy walking distance to prime East side neighborhoods where many of our current customers live, and growing but underserved development along the Excelsior corridor.

Avoiding a touristy Broadway location makes the project more attractive to the year-round residents who are our primary market and improves delivery logistics. It also significantly reduces costs and allows us to provide dedicated parking.

Dining Room

40 year-round seats

Seasonal patio with an additional 20 seats

The site has designated parking for 12 cars, very much a differentiator in Saratoga Springs where parking can be challenging.

Urban, industrial look to contrast with generally suburban look and feel of Saratoga restaurants.

Private room available for parties, meetings, and other catered functions

Menu

Great sourdough crust pizza. Salads, soups & stews. Virtuous desserts driven by alternative-grain baking program. Instagram-friendly family-style plating of apps and desserts to encourage sharing. Limited selection of other entrees leveraging large-scale production of workplace and subscription meals as well as ingredients produced on our 29-acre vegetable farm.

Team

It's a competitive labor market and top kitchen talent is essential. 9 Miles East Farm has a strong established team of 33 professionals, with relatively low turnover. We have been able to attract and retain kitchen talent from other local restaurants (Druthers, Cantina, Hamlet & Ghost) by offering family-friendly hours and a more varied work environment contributing to the various services we provide (workplace wellness, workplace catering, subscription meal delivery). Our focus on health is also appealing to a segment of the restaurant workforce tired of deep frying and frozen commodity ingredients.

Established Customer Base

9 Miles East Farm's pizza delivery operation has served 4,772 customer since inception. Our online and app-based ordering system gives us contact information and searchable ordering histories for all of them. The farm also has an active and growing social media presence: 5,388 Facebook likes and 4,859 Instagram followers. In addition, 9 Miles East Farm's workplace wellness operation serves ~125 companies each week in the Capital District and another ~80 in the Boston area, giving us another way to connect with customers and promote the new dining room.

Hours of Operation

Open seven days a week 7 a.m. to 10 p.m.

Coffee, grab & go breakfast, weekend farmers' market brunch & lunch, & alternative grain baking program. Great coffee, great wifi, no rush until table service starts at 5 p.m.

Competitive Positioning

More fun than the explicitly healthy options (e.g. Four Seasons). Much healthier and less guilt-inducing than the drinking-oriented party spots (Druthers, etc.) Accessible target price point of \$25 per person. Intentional focus on social aspects of dining, which we think will be increasingly important in attracting dine-in market share. Family-friendly: Affordable pricing, dedicated parking spots for easy access, stroller parking for walkers, great kids menu, no soda, non-fussy environment where parents are comfortable with kids running around. We plan to market private room as perfect kid birthday party venue with make-your-own pizza entertainment in the afternoons.

Service Format

Table service at dinner plus six seats at a counter/bar. Counter service for breakfast and lunch. Farm beer & wine license but no liquor. \$25 pp target dinner check. Sample two-top order: Two salads at \$7.50/ea., one pizza at \$20, two beers at \$6/ea, two desserts at \$5 ea. = \$57.

Beverages

Beer, wine, coffee, tea, iced tea, lemonade, housemade sparkling drinks. No espresso machine.

No bottled water, no fountain or canned soda.

Three beers on tap: IPA, lager or pilsner, something interesting or seasonal. \$6/pint.

Three wines on tap: Red, white, experimental. All approachable and pizza-friendly. \$8/glass.

Social

Very share-oriented, with Instagram-friendly family-style plating. Pricing encourages sharing and large parties. Servers circulate catering-style with platters of experimental samples a few times each night. Guests can vote on what they want to be added to the menu. Public family meal Friday, Saturday, and Sunday. 2 pm.

Sustainability

All disposable items will be compostable, compost will be collected along with trash and taken to our farm for composting. Pizza delivery by cargo bicycle when weather permits and electric car year-round.

Founder Bio

Gordon co-founded 9 Miles East Farm to make it easy for busy people to enjoy healthy local food. That simple mission has expanded into a rapidly growing regional team employing 33 people and serving thousands of customers each week through workplace wellness, workplace catering, subscription meal delivery, vegetable growing, and pizza delivery operations. Sacks previously was a director for Paradigm Capital Management. He has a BA from Vassar College.

Mary co-founded 9 Miles East Farm to make it easy for busy people to enjoy healthy local food. She directs the farm's social media presence and other outreach initiatives in addition to operational and administrative responsibilities. She has a BA from SUNY Buffalo.

(K) – MATERIAL CHANGES

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. A material change could be good or bad. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) – PRICE OF THE SECURITIES

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000

(M) – TERMS OF THE SECURITIES

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” Many of the terms of the Notes are set forth in a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Summary of Terms

Revenue Percentage*	0.25 - 1.0%**
---------------------	---------------

Payment Deadline	September 1, 2029
Maximum Payment Multiple	1.5x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	Thirty (30) days after the last day of the calendar quarter ending not less than Sixty (60) days after the sharing start date.
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	1.69 %

*as further defined in the note agreement

**The rate of revenue sharing is calculated on a linear scale between the stated rates and is rounded to the nearest 1/100th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases.

For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$15,000	0.25%
\$26,250	0.44%
\$37,500	0.63%
\$52,500	0.88%
\$60,000	1.00%

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

The Company has outstanding the following securities:

Name of Security	Limited Liability Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How These Securities Differ from the Promissory Notes Offered to Investors	The Limited Liability Company Interests are an equity interest in the Company, whereas the Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

<i>Name</i>	<i>Percentage of Voting Rights</i>
Gordon Sacks	50%
Mary Sacks	50%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you or, if the Company doesn't make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.
