SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-K

(Mark One)

**ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the fiscal year ended **December 31, 2022**

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

For the transition period from _____ to _____

Commission file number 001-39116

Katapult Holdings, Inc.

(Exact name of registrant as specified in its charter)

Delaware

81-4424170

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

5204 Tennyson Parkway, Suite 500 Plano, TX

75024

(Address of principal executive offices)

(Zip Code)

(833) 528-2785

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	KPLT	The Nasdaq Stock Market LLC
Redeemable Warrants	KPLTW	The Nasdaq Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer
Emerging growth company

Accelerated filer
Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. Yes ☐ No ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Based on the closing sale price of \$1.07 for our common stock on The Nasdaq Capital Market on June 30, 2022, the aggregate market value of outstanding shares of common stock held by non-affiliates was approximately \$57 million. This calculation excludes shares of the registrant's common stock held by current executive officers, directors and stockholders that the registrant has concluded are affiliates of the registrant. This determination of affiliate status is not a determination for other purposes.

The number of shares of the registrant's common stock outstanding as of March 6, 2023 was 98,730,969.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of our Definitive Proxy Statement for our 2023 Annual Meeting, expected to be filed within 120 days of our fiscal year end, are incorporated by reference into Part III of this Annual Report on Form 10-K.

In this report, unless otherwise stated or the context otherwise indicates, the terms "we," "us," "our," the "Company," or "Katapult" refer to Katapult Holdings, Inc. and its subsidiaries.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K, (“Annual Report” or “Form 10-K”) contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that involve substantial risks and uncertainties. All statements other than statements of historical fact contained in this report, including statements regarding our opportunity, our future results of operations and financial condition, business strategy, and plans and objectives of management for future operations, are forward-looking statements. In some cases, forward-looking statements may be identified by words such as “anticipate,” “assume” “believe,” “continue,” “could,” “design,” “estimate,” “expect,” “intend,” “may,” “plan,” “potentially,” “predict,” “should,” “will,” “would,” or the negative of these terms or other similar expressions. These forward-looking statements include, but are not limited to, statements concerning the following:

- executing on our business strategy, including launching new product offerings, new brand and expanding information and technology capabilities;
- our market opportunity and our ability to acquire new customers and retain existing customers;
- the timing and impact of our growth initiatives on our future financial performance and the impact of our new executive hires and brand strategy;
- anticipating the occurrence and timing of prime lending tightening and impact on our results of operations;
- customer adoption and success of our mobile app featuring Katapult Pay;
- general economic conditions in the markets where we operate, the cyclical nature of consumer spending, and seasonal sales and spending patterns of customers;
- failure to realize the anticipated benefits of the business combination with FinServ Acquisition Corp.;
- factors affecting consumer spending that are not under our control, including, among others, levels of employment, disposable consumer income, inflation, prevailing interest rates, consumer debt and availability of credit, pandemics (such as COVID-19), consumer confidence in future economic conditions, political conditions, and consumer perceptions of personal well-being and security and willingness and ability of consumers to pay for the goods they lease through us when due;
- risks relating to uncertainty of our estimates of market opportunity and forecasts of market growth;
- risks related to the concentration of a significant portion of our transaction volume with a single merchant, or type of merchant or industry;
- the effects of competition on our future business;
- meeting future liquidity requirements and complying with restrictive covenants related to long-term indebtedness;
- the impact of unstable market and economic conditions such as rising inflation and interest rates and the conflict involving Russia and Ukraine on our business;
- the impact of the COVID-19 pandemic and its effect on our business;
- reliability of our platform and effectiveness of our risk models;
- data security breaches or other information technology incidents or disruptions, including cyber-attacks, and the protection of confidential, proprietary, personal and other information, including personal data of consumers;
- attracting and retaining employees, executive officers or directors;
- effectively responding to general economic and business conditions;
- obtaining additional capital, including equity or debt financing and servicing our indebtedness;
- enhancing future operating and financial results;
- anticipating rapid technological changes;
- complying with laws and regulations applicable to our business, including laws and regulations related to rental purchase transactions;
- staying abreast of modified or new laws and regulations applying to our business, including with respect to rental purchase transactions and data privacy;
- maintaining relationships with merchants;
- responding to uncertainties associated with product and service developments and market acceptance;
- anticipating the impact of new U.S. federal income tax laws;
- identified material weaknesses in our internal control over financial reporting which, if not remediated, could affect the reliability of our consolidated financial statements;
- successfully defending litigation;
- litigation, regulatory matters, complaints, adverse publicity and/or misconduct by employees, vendors and/or service providers; and

- other events or factors, including those resulting from civil unrest, war, foreign invasions (including the conflict involving Russia and Ukraine), terrorism, or public health crises, or responses to such events.

Forward-looking statements are based on our management's beliefs and assumptions and on information currently available. These forward-looking statements are subject to a number of known and unknown risks, uncertainties and assumptions, including risks described in the section titled "Risk Factors" and elsewhere in this Form 10-K. Other sections of this Form 10-K may include additional factors that could harm our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time, and it is not possible for our management to predict all risk factors nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ from those contained in, or implied by, any forward-looking statements.

You should not rely upon forward-looking statements as predictions of future events. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, achievements, events, or circumstances. Except as required by law, we undertake no obligation to update publicly any forward-looking statements for any reason after the date of this report or to conform these statements to actual results or to changes in our expectations. You should read this Form 10-K and the documents that we have filed as exhibits to this report with the understanding that our actual future results, levels of activity, performance, and achievements may be materially different from what we expect. We qualify all of our forward-looking statements by these cautionary statements.

In addition, statements that "we believe" and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based upon information available to us as of the date of this report, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain and you are cautioned not to unduly rely upon these statements.

Investors and others should note that we may announce material business and financial information to our investors using our investor relations website (ir.katapultholdings.com), our filings with the Securities and Exchange Commission, webcasts, press releases and conference calls. We use these mediums, including our website, to communicate with investors and the general public about our company, our products, and other issues. It is possible that the information that we make available on our website may be deemed to be material information. We therefore encourage investors and others interested in our company to review the information that we make available on our website. The contents of our website are not incorporated into this filing. We have included our investor relations website address only as an inactive textual reference and do not intend it to be an active link to our website.

Part I

Item 1. Business

Corporate History and Background

Katapult Holdings, Inc., formerly known as FinServ Acquisition Corp. (“FinServ”), was incorporated in the state of Delaware in August 2019 for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. On December 18, 2020, FinServ entered into that certain Agreement and Plan of Merger, dated December 18, 2020 (the “Merger Agreement”), by and among FinServ, Keys Merger Sub 1, Inc. (“Merger Sub 1”), a wholly owned subsidiary of FinServ, Katapult Intermediate Holdings LLC (formerly known as Keys Merger Sub 2, LLC) (“Merger Sub 2”), a wholly owned subsidiary of FinServ, the entity formerly known as Katapult Holdings, Inc. (formerly known as Cognical Holdings, Inc.), a Delaware corporation (“Legacy Katapult”), and Orlando Zayas, in his capacity as the representative of all pre-closing stockholders. On June 9, 2021 (the “Closing Date”), the transactions contemplated pursuant to the Merger Agreement were consummated through the merger of Merger Sub 1 with and into Legacy Katapult, with Legacy Katapult surviving the merger as a wholly owned subsidiary of FinServ (the “First Merger”), followed immediately by the merger of the resulting company with and into Merger Sub 2, with Merger Sub 2 surviving the merger as a wholly owned subsidiary of FinServ (the “Second Merger” and collectively with the First Merger, and the other transactions contemplated by the Merger Agreement, the “Merger”). On the Closing Date, and in connection with the closing of the Merger, FinServ changed its name to Katapult Holdings, Inc. and Merger Sub 2 changed its name to Katapult Intermediate Holdings LLC.

The Merger and related transactions were accounted for as a reverse recapitalization, with no goodwill or other intangible assets recorded, in accordance with generally accepted accounting principles in United States of America (“GAAP”). Under this method of accounting, FinServ was treated as the “acquired” company for financial reporting purposes with Legacy Katapult determined to be the accounting acquirer. This determination was primarily based on Legacy Katapult’s stockholders prior to the Merger having had a majority of the voting rights in the combined company, Legacy Katapult’s operations represented the ongoing operations of the combined company, Legacy Katapult and its former owners had the right to appoint a majority of the directors in the combined company, and Legacy Katapult’s senior management represented the senior management of the combined company. Accordingly, for accounting purposes, the Merger was treated as the equivalent of Legacy Katapult issuing stock for the net assets of FinServ, accompanied by a recapitalization. The net assets of FinServ are stated at historical cost, with no goodwill or other intangible assets recorded. See Note 1 of the Notes to the Consolidated Financial Statements included in this Annual Report on Form 10-K for further information on the Merger and related transactions.

Our wholly owned subsidiaries are Katapult Intermediate Holdings LLC, a Delaware limited liability company formed in December 2020, Katapult Group, Inc. (formerly known as Cognical, Inc.), a Delaware corporation incorporated in March 2012, and Katapult SPV-1 LLC, a Delaware limited liability company formed in March 2019. Legacy Katapult was incorporated in the state of Delaware in 2016. Since April 2019, Katapult SPV-1 LLC has originated all of our lease agreements with customers and owns all of the leased property.

Unless otherwise noted, “we”, “us”, “our”, “Katapult”, and the “Company” and similar terms refer to Legacy Katapult and its subsidiaries prior to the consummation of the Merger, and Katapult Holdings, Inc. and its subsidiaries after the Merger. The Katapult logo, “Katapult,” “Katapult Pay,” and our other registered and common law trade names, trademarks, and service marks are the property of Katapult Holdings, Inc. or our subsidiaries. Other trade names, trademarks, and service marks used in this report are the property of their respective owners. The Katapult logo, “Katapult,” “Katapult Pay,” and our other registered and common law trade names, trademarks, and service marks are the property of Katapult Holdings, Inc. or our subsidiaries. Other trade names, trademarks, and service marks used in this report are the property of their respective owners.

Company Overview

We are a technology driven lease-to-own platform that integrates with omni-channel retailers and e-commerce platforms to power the purchase of everyday durable goods for underserved U.S. non-prime consumers. Through point-of-sale ("POS") integration and innovative, mobile app featuring our virtual card technology, Katapult Pay, consumers who may be unable to access traditional financing can shop a growing network of merchants with our platform. We believe our merchants benefit from higher retail conversion and greater marketing spend efficiency by reaching this underserved segment.

The platform is designed to provide consumers a frustration-free checkout experience that is simple, easy and transparent. Consumers complete a three-step application and our fully automated approval process generates a decision in approximately five seconds or less on average. We empower customers by providing flexibility in their lease-to-own arrangement. Customers can make payments on a weekly, bi-weekly, semi-monthly or monthly basis, and we offer transparent payment options, including allowing customers to make payments for their full renewal term, exercise an early purchase option (buyout), or return items if they have life cycle events or decide their needs change. In addition, we do not charge late fees.

Our solution is designed to enable merchants to efficiently promote and move inventory by allowing merchants to reach a previously inaccessible customer with the goal of driving incremental sales and lowering customer acquisition cost. Our mobile app featuring Katapult Pay also provides an accelerated option for merchants to add our solution with minimal tech lift and a lower cost.

We have platform integrations with leading e-commerce platforms and prime lenders. Through e-commerce platform integrations with Shopify, BigCommerce, Magento, and WooCommerce, among others, we can complete direct integrations with merchants with ease. Our prime lender integrations lead to higher approval rates for merchants who have included us as a payment option, ensuring that consumers have options at the checkout and merchants make the most of every consumer site visit.

Technology is at the core of everything we do from simplifying the customer experience to driving repeat transactions. Our proprietary risk models have been built on alternative data sets, including data from over 1.2 million lease-to-own transactions and over seven plus years of repayments. Furthermore, the platform's risk management models are built to utilize artificial intelligence and machine learning ("AI/ML") to incorporate additional data from new lease-purchase transactions.

From inception through December 31, 2022, we have approved approximately 2.3 million customers. We had a net promoter score (NPS) of 56 as of December 31, 2022. NPS is a score that measures the likelihood of users to recommend a company's products or services to others, and ranges from a low of negative 100 to high of positive 100, and benchmark scores can vary significantly by industry. A score greater than zero represents a company having more promoters than detractors.

Industry Background

Our lease-purchase platform offers consumers an alternative to traditional financing of home furnishings, automotive goods, electronics, computers, and other durable goods. Non-prime consumers typically do not have sufficient cash or credit to obtain these goods.

Lease-to-Own Transaction

A lease-to-own ("LTO") transaction is a flexible alternative for consumers to obtain and enjoy brand name merchandise with no long-term obligation. Key features of our lease-to-own transactions include:

- **Access to e-commerce retailers.** We are a transaction option at checkout for well-known e-commerce merchants such as Wayfair, Sears, Lenovo, Nectar, and Purple.

- **Convenient payment options.** Customers make payments on a weekly, bi-weekly, semi-monthly or monthly basis. Payments can be automatically charged to the customer's authorized credit card, checking account, debit card or the customer can make payments directly via our mobile app. Additionally, customers may make additional payments and exercise cost-saving early payment options.
- **No long-term commitment.** Customers have the flexibility of no long-term commitment and may return the item under the terms of the lease agreement if he or she does not exercise a purchase option or renew the lease.

Virtual Lease-to-Own Market

According to management estimates, the total addressable market for the virtual lease-to-own market is estimated to be approximately \$40 - \$50 billion. Based on our 2022 gross originations, we believe that we currently capture less than 1% market share in this market.

Our Solution

We believe we are transforming the way non-prime consumers can purchase durable goods by providing a seamless, easy, and transparent application and checkout experience.

Consumer Features

- **Lease-to-own of durable goods.** We empower consumers with access to a path to ownership for new and used durable goods and accessories to support such goods with a leasable amount ranging from \$100 to \$3,500.
- **Simple process and efficient approval.** Through an easy 3-step application process requiring basic information inputs and no hard credit check, consumers receive fully-automated approval on average in approximately five seconds.
- **Flexible repayment options.** Customers can elect to lease an item for the full term, pay off the lease early, or return the item at any time during the term of the lease. To lower the total cost of the lease, during the first 90 days of the lease, customers have an option to purchase the item for a total cost-to-own of the cash price and applicable taxes of the item plus a 5% fee in certain states. A \$45 fee is also charged in certain states. After 90 days, an early purchase option is available at any time which permits customers to purchase the item for meaningfully less than the full-term cost-to-own as described below. Our customers have the flexibility of no long-term commitment and may return the item under the terms of the lease agreement if they do not exercise a purchase option or renew the lease. The payment term for the lease ranges from 10, 12 or 18 months. Payment frequency can be weekly, bi-weekly, semi-monthly or monthly based on a customer's pay frequency.
- **Mobile App.** In 2022, we launched our mobile app which enables our customers to shop, make payments and complete new lease transactions with a variety of merchants via an iOS or Android mobile device.
- **Katapult Pay.** In connection with our mobile app launch we introduced a new feature, Katapult Pay our one-time use virtual card technology that makes lease purchasing simple and intuitive for our customers. Using the Katapult Pay feature on our mobile app, our customers can complete a lease transaction and check out with a one-time use virtual card to facilitate the payment. Our mobile app featuring Katapult Pay also offers merchants an accelerated option for adding our lease-to-own solution with minimal tech lift and lower cost, while giving us more control to own the end-to-end customer experience and improve conversion rates.

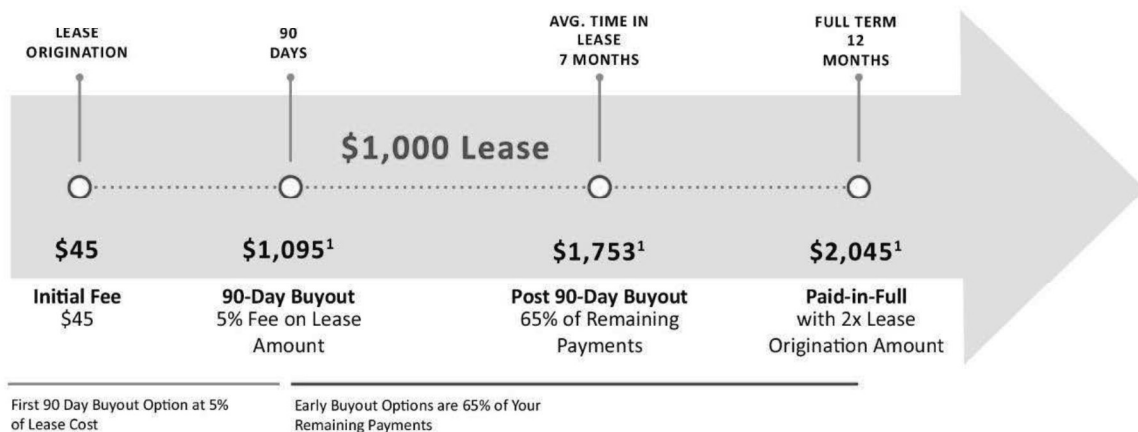

The total cost a customer may pay in connection with our lease-purchase transaction depends on certain factors, including, but not limited to: (1) total cost limitations, which vary across states and generally range between 2.0 and 2.25 times the cash price, referred to as the Lease Multiple, (2) the maximum length of the lease agreement term (typically 10-18 months), (3) whether the early purchase option (buyout) is exercised, and (4) whether the customer exercises their right to terminate the lease, without penalty if current, thereby ending additional renewal payment obligations. In general, during the first ninety (90) days, our customers have the ability to purchase the good for the cash price of the item plus 5% and any applicable fees (including initial fees, where applicable) and taxes. After ninety (90) days, but prior to reaching the maximum renewal term, the customer may exercise the purchase option at a discount on the remaining lease renewal payments (typically 55–65% of the remaining renewal payments).

Customers may renew through the maximum term at which point they will have paid approximately two times the cash price to own the item. Customers have the option to terminate the lease at any time with no penalty or further obligation (other than the lease cost already incurred). Upon termination, the customer must return the durable good that had been leased, which can be returned to us or the merchant if within the merchant's return period. Lease-purchase transactions, unlike credit or a loan, are not subject to variable interest rates and do not include finance charges. Below is an illustrative timeline depicting the total cost a customer would pay at certain points during the life of the transaction:

Illustrative Pricing Timeline

Katapult

EXAMPLE LEASE ORIENTATION

1. Includes \$45 initial fee.

Merchant Features

- **Marketing capabilities.** We enable merchants to offer non-prime consumers a lease-purchase option at point of sale, which is coupled with Katapult tools and digital resources to attract, identify and educate consumers on the Katapult option for paying over time.
- **Analytics.** We provide merchants with insightful analytics that help them understand performance and activity associated with non-prime applications. The platform also offers other key insights into customers' shopping habits to help merchants optimize customer conversion and customer acquisition costs.

- **Client success support.** Our client success team partners with merchants to analyze and interpret the insights delivered through the merchant platform. Our team conducts in-depth user experience analyses of merchant online storefronts, providing custom recommendations for the ideal mix and display of our product offerings to present to customers in order to optimize average order values and conversion rates.
- **Simple integration and highly customizable solution.** Our off-the-shelf, custom integration options are designed to provide seamless flexibility to merchants seeking efficient and effective rollouts of digital POS solutions.
- **Developer documentation.** Our developer portal contains extensive developer documentation that makes it easy for developers to integrate via turnkey solutions, custom application programming interfaces (“API”), hosted programs, or other integrations.

We believe that merchants realize the following benefits from our platform:

- **More customers.** Merchants add incremental customers from the non-prime segment who otherwise might not be shopping on their site.
- **Better conversion.** Merchants have the potential to increase customer conversion when they offer our platform as it provides customers an alternative financing solution.
- **High rate of repeat customers.** Our easy-to-use platform has generated a loyal following of repeat customers (defined as customers who have originated more than one lease with Katapult over their lifetime). During the fiscal year ended December 31, 2022, 47% of our gross originations were completed with repeat customers.
- **Ease of integration.** Our direct API allows for fast integration with minimal investment with merchants able to easily connect the platform to their existing online shopping cart. Moreover, we provide a dedicated integration team to ensure efficient rollouts.

Merchants

We are party to an agreement with Wayfair Inc., dated November 24, 2020, whereby we provide Wayfair customers with lease-purchase options for certain Wayfair products directly on Wayfair’s customer website (the “Wayfair Agreement”). We originated approximately 57% and 63% of our gross originations for the years ended December 31, 2022 and 2021, respectively through the Wayfair Agreement. The Wayfair Agreement continues for successive two-year terms and may be terminated by either party at any time and for any reason provided that the terminating party provides written notice sixty days prior to the date of termination. The Wayfair Agreement does not prohibit Wayfair from offering lease-to-own options from our competitors. The Wayfair Agreement allows us to benefit from Wayfair’s broad range of product offerings and market ourselves to a larger audience of consumers who may seek alternative payment options.

As of December 31, 2022, we had over 200 total merchants on the platform. Our top ten merchants in the aggregate represented approximately 83% and 90% of our total gross originations for the fiscal years ended December 31, 2022 and 2021, respectively.

Developer-First Approach to Integration

Our platform is designed to be easy and seamless to integrate regardless of integration method:

- **Platform plug-in:** Our API is fast and easy to integrate with a number of e-commerce platforms, including Shopify, Magento, WooCommerce and BigCommerce. Integrations with these platforms allow merchants to offer the Katapult lease-purchase as an option at checkout, process our charges in their

respective order management systems, and gain access to the Katapult's platform-based analytics software while maintaining control over the customer experience.

- **Direct API:** Our API enables merchants to fully control the placement and experience of our offering, which we believe aids the seamless integration of our lease-purchase option into the merchant's existing infrastructure.
- **Waterfall partnerships:** A waterfall is where the application will flow from the prime lender to other financing and lease-purchase options automatically; this gives the consumer the best option for their situation. Our technology supports sophisticated integration with these partners with the goal of ensuring a smooth and efficient customer transaction experience during application and checkout.

Our Technology and Risk Assessment Model

Native E-Commerce Solution

We were born and bred to be an e-commerce solution for consumers and we believe we are the only non-prime consumer POS lease-purchase platform focused on e-commerce. We offer a fully-digital, seamless and differentiated platform driven by proprietary technology and risk models that have been developed over several years. In 2022, we launched our mobile app featuring Katapult Pay, our one-time use virtual card technology which allows our customers to complete a lease-to-own transaction with the merchants on our Katapult Pay feature of our mobile app. Our proprietary technology behind Katapult Pay allows us to differentiate between leasable and non-leasable items in a customer's cart without an integration with that merchant.

Technology, Engineering Talent and Product Architecture

Our proprietary technology platform is essential to our core operations. We utilize modern, cutting-edge technology including sophisticated behavioral machine learning models and cloud-based computing designed to offer a seamless digital consumer experience on the front end as well as a constantly evolving real-time decision engine on the back end. In order to build these proprietary, innovative and secure products, we place a significant emphasis on identifying and employing talented and driven technology-focused professionals and engineers.

Data Driven

Our proprietary technology platform combined with data collection, accumulation and analysis provide us with meaningful insights that allow the business to perform better. As additional data from new transactions is continuously incorporated into the risk assessment models, algorithms and business practices, we are able to improve our risk assessment model, algorithms and business practices over time. We believe this allows us to further mitigate repayment and fraud risk. Additionally, we leverage customer preference and activity data to identify opportunities for repeat business, new customer offerings and general performance enhancements.

We use a complex set of proprietary approval and existing customer modeling to achieve low levels of fraud and high payment performance, with the goal of protecting consumers, merchants, and us. The platform checks approximately 100 transaction attributes and up to 2,000 data points in aggregate across the fraud detection and risk models, from a minimum of seven user inputs consumers provide and data acquired from other sources.

Proprietary Risk Assessment Models

Our proprietary, end-to-end technology platform has been designed and built to handle the volume and data from e-commerce transactions. The system is non-FICO based, relying on internally developed scoring and analytics to identify appropriate customers for our lease-purchase offering. Our behavioral learning-based risk models are designed to effectively price risk and provide customized recommendations. The platform considers data beyond

traditional credit scores, such as lease history, behavioral biometrics and mobile device information to predict repayment ability, and leverages this with real-time response data.

Lean and Scalable Model

Compared to brick-and-mortar non-prime options, we have been successful in addressing the non-prime consumer through POS solutions on e-commerce merchant websites.

As compared to brick-and-mortar non-prime options, we believe our model focused on the e-commerce POS lease-purchase option is efficient and scalable for the following reasons:

- Over time as transaction volume grows, we are positioned to achieve more operating leverage. Our model is primarily driven by a technology platform that does not require significant increases in operating overhead to support sales growth.
- We have no inventory risk and offer a drop-ship option. We do not have the costs associated with buying, storing and shipping inventory. Instead, goods are shipped directly to consumers.

Our Growth Strategies

We believe we have several strong levers for growth including the opportunity to increase market share of the e-commerce durable goods market. We estimate that we capture less than 1% of the virtual lease-to-own market, based on our 2022 gross originations.

We believe we will significantly benefit from deepening relationships with existing merchants and further partner expansion. New direct merchant POS integrations, as well as product enhancements and new product diversification including the launch of our mobile app featuring Katapult Pay, also present additional areas of potential growth. In addition, data analytics services and direct merchant co-marketing initiatives and dynamic consumer scoring models are other potential avenues to drive growth.

Our multi-pronged growth strategy is designed to create opportunities that drive value for consumers and merchants. Near-term areas of focus include expanding to higher-frequency transactions, expanding customer reach, and expanding merchant reach.

Significant levers for continued organic growth

- **Deepen relationships with existing merchants.** Currently, our transactions represent a modest percentage of the average transaction volume for merchants on the platform. We believe we can increase our share of existing merchants' overall transaction volumes with our technology, by proactively building relationships with merchants and our customer base through dedicated sales and customer success teams.
- **Partner expansion.** We have identified thousands of eligible merchants offering durable goods that could benefit from access to our platform. We plan to pursue business relationships with eligible merchants on these platforms, as well as identify and integrate our platform into new or emerging systems and networks to attract additional merchant communities. Additionally, we launched our mobile app featuring Katapult Pay which allows our customers to complete a lease-to-own transaction with merchants.
- **New merchant and partner POS integrations.** We have the opportunity to increase the number of direct merchants integrated on the network through our dedicated sales team and referral relationships.

Expand Consumer Reach

- **Add more consumers to the network.** As more consumers join the network, our risk models become more efficient and robust, thereby positioning us to reach more non-prime consumers reliably. Direct merchant co-marketing initiatives intend to attract new consumers to try lease-to-own as a payment preference.
- **Drive repeat use.** We aim to continue driving repeat use of our platform by treating customers with respect, identifying consumer needs and focusing on customer satisfaction, paired with delivering data analytics to merchants to support shopping behaviors.
- **Innovate on new product solutions.** We are focused on innovating and bringing new financial partnerships and products to market for non-prime consumers. In addition to our mobile app featuring Katapult Pay we plan to continue product development with the goal of helping merchants increase conversion rates, repeat transaction rates and customer satisfaction.

Competition

We compete with national, regional and local operators of lease-to-own stores, virtual lease-to-own companies, traditional and e-commerce retailers (including many that offer layaway programs and/or installment payment options), traditional and online sellers of new and used merchandise, and various types of consumer finance companies that may enable customers to shop at traditional or online retailers, as well as with rental stores that do not offer their customers a purchase option.

Sales and Marketing

Our marketing strategy includes brand marketing, communications, and co-marketing campaigns that we collaborate on with our direct merchants. Brand marketing increases awareness among consumers and merchants, helping them understand the benefits of our platform. We utilize dedicated sales teams and leverage strategic partnerships with other platforms to expand our merchant and consumer base.

Seasonality

We experience seasonal fluctuations in our revenue as a result of consumer spending patterns. Historically, our revenue is moderately seasonal and strongest during the first quarter primarily due to historically gradual increases in the fourth quarter as a result of the holiday season, as well as the receipt by our customers in the first quarter of federal and state income tax refunds. Our customers will more frequently exercise the early purchase option on their existing lease agreements or purchase merchandise during the first quarter of the year. Adverse events that occur during these months could have a disproportionate effect on our financial results for the fiscal year.

Employees and Human Capital Resources

Human Capital Oversight

Our employees are critical to our success. As of December 31, 2022, we had 120 employees primarily located in the United States. We reduced our number of employees to 99 as of February 28, 2023 in connection with certain cost-savings initiatives that we began in the fourth quarter of 2022 to further reduce expenses. We also engage a small number of consultants and contractors to supplement our permanent workforce. To date, we have not experienced any work stoppages and maintain good working relationships with our employees. None of our employees are subject to a collective bargaining agreement or are represented by a labor union at this time.

At Katapult, our people are our most valuable resource and critical to our success. We believe in an open and collaborative work environment which encourages employees to be accountable and take ownership in their performance and development. Our executive management team creates a culture and environment where every team member can achieve success. The Compensation Committee of our board of directors is engaged in the oversight of our employees, work environment, and compensation practices, and receives regular updates from

management on progress and developments, and our executive management team and Compensation Committee receive regular reports on progress against our annual human resources goals.

We offer competitive compensation to attract and retain top talent. Our total compensation packages generally include market-competitive salary, bonus, sales commissions and equity awards. We strive to provide competitive compensation packages to all employee positions consistent with skill level, geographic location and experience. At least annually, we review our compensation practices internally and with the assistance of a third-party compensation consultant.

Regulatory

Government Regulation

Our operations are governed by the requirements of numerous federal and state laws, and by the agencies that interpret and enforce those laws. This summary is not intended to be a complete summary of the laws referred to below or of all the laws regulating our operations.

There are currently 46 states, plus the District of Columbia, that have enacted lease-purchase statutes which set forth core requirements for our personal property lease-purchase transactions. These laws dictate our obligations with regard to consumer disclosures, pricing maximums, fees, and marketing, among other requirements. These laws may change, or the agencies charged with overseeing these laws may issue future guidance on the interpretation of these laws that is new, unforeseen, or otherwise conflicts with our current practices. Violations of these state lease-purchase laws can result in material penalties. We are unable to predict the nature or effect on our operations or earnings of unknown future legislation, regulations, agency interpretations and guidance, or judicial or administrative decisions concerning the laws governing our operations, and there can be no assurance that future laws, regulations, interpretations or decisions will not have a material adverse effect on our operations, earnings or financial condition.

We are also required to be licensed in certain states in order to engage in lease-purchase transactions. While we hold required licenses, such licensing requirements could unexpectedly change which in turn could impact our operations.

Regarding federal law, at the present time, no federal law specifically regulates the core lease-purchase transaction offered by us. The Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank”) does not regulate leases with terms of less than 90 days. Katapult’s lease-purchase transactions carry terms of, at most, month-to-month, and therefore are less than 90 days, such that the transactions do not fall within the transactions specifically covered by Dodd-Frank. These issues notwithstanding, various aspects of our business are governed by federal laws and regulations. For example, the Federal Trade Commission (“FTC”) oversees business practices that are unfair, deceptive or fraudulent to consumers, including within the lease-purchase industry. As such, we seek to ensure that we comply with FTC rules and regulations relating to our operations and we pursue compliance management practices to do so; however, any violation of such rules or regulations could have a material adverse impact on our operations.

Also, state and federal regulatory authorities, including state attorneys general offices, state agencies such as the California Department of Financial Protection and Innovation, and the FTC, are increasingly focused on the consumer financial marketplace and personal property leasing generally. At any time, these agencies could initiate new investigations or otherwise take action that could result in significant adverse changes in the regulatory landscape for the lease-purchase industry in which we operate. We cannot predict whether any state attorneys general, state consumer protection agency, or federal regulatory agency will direct investigations or regulatory initiatives towards us or our industry in the future, or what the impact of any such future action(s) might be.

In the ordinary course of our business, we collect, store, transfer and otherwise process personal data, including sensitive personal data. Accordingly, we are, or may become, subject to numerous data privacy and security obligations, including federal, state, local, and foreign laws, regulations, rules, guidance and standards related to data privacy and security. Such obligations may include, without limitation, the Federal Trade

Commission Act, the Telephone Consumer Protection Act of 1991 and the California Consumer Privacy Act of 2018 as amended by the California Privacy Rights Act of 2020 (collectively “CCPA”).

The CCPA is an example of the increasingly stringent and evolving regulatory frameworks related to personal data processing that may increase our compliance obligations and exposure for any noncompliance. The CCPA imposes obligations on covered businesses to provide certain disclosures related to a business’s collection, use and disclosure of personal data and gives California residents the right to, among other things, request disclosure of personal data collected about them and whether that data has been sold to others, request deletion of personal data (subject to certain exceptions), opt out of the sale of their personal data and not be discriminated against for exercising these rights. The CCPA provides for civil penalties and a private right of action for data breaches which may include an award of statutory damages. A number of other U.S. states have also enacted, or are considering enacting, comprehensive data privacy laws that share similarities with the CCPA, with at least four such laws (in Virginia, Colorado, Connecticut and Utah) having taken effect, or scheduled to take effect, in 2023. Certain state laws and regulations may be more stringent, broader in scope, or offer greater individual rights, with respect to personal information than federal or other state laws and regulations, and such laws and regulations may differ from each other, which may complicate compliance efforts and increase compliance costs. There is also discussion in Congress of a new federal data privacy and security law to which we may become subject if it is enacted. In addition, laws in all 50 U.S. states generally require businesses to provide notice under certain circumstances to consumers whose personal data has been disclosed as a result of a data breach. These laws are not consistent, and compliance in the event of a widespread data breach is difficult and may be costly. Furthermore, U.S. federal and state consumer protection laws require us to publish statements that accurately and fairly describe how we handle personal data and choices individuals may have about the way we handle their personal data.

As a Company, we seek to ensure that all employees act in a legal, ethical and dignified manner and carry out the Company’s business consistent with such standards and consistent with the laws discussed above. See the section titled “Risk Factors” for additional information about the laws and regulations to which we are, or may become subject and about the risks to our business associated with such laws and regulations.

Intellectual Property

Intellectual property and proprietary rights are important to the success of our business. We rely on a combination of patent, copyright, trademark, and trade secret laws in the United States, as well as license agreements, confidentiality procedures, non-disclosure agreements, and other contractual protections, to establish and protect our intellectual property and proprietary rights, including our proprietary technology, software, know-how, and brand. However, these laws, agreements, and procedures provide only limited protection. As of December 31, 2022, we owned three registered trademarks and one trademark application in the United States.

Although we take steps to protect our intellectual property and proprietary rights, we cannot be certain that the steps we have taken will be sufficient or effective to prevent the unauthorized access, use, copying, reverse engineering, infringement, misappropriation or other violation of our intellectual property and proprietary technology and information, including by third parties who may use our intellectual property or proprietary technology or information to develop services that compete with ours.

See the section titled “Risk Factors” for a more comprehensive description of risks related to our intellectual property and proprietary rights.

Available Information

Our principal executive offices are located at Katapult Holdings, Inc., 5204 Tennyson Parkway, Suite 500, Plano, TX 75024, and Katapult’s telephone number is (833) 528-2785. Our website address is www.katapult.com. Information contained on or accessible through our website is not a part of this Annual Report on Form 10-K, and the inclusion of our website address in this Annual Report on Form 10-K is an inactive textual reference only.

We make available on our website, free of charge, our Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as

soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission (the “SEC”). We also make available on our website our Code of Business Conduct and Ethics, our corporate governance principles, and the charters for the Audit, Compensation and Nominating and Corporate Governance Committees of our board of directors. The SEC maintains an internet site, www.sec.gov, containing reports, proxy and information statements, and other information regarding issuers, including us, that file electronically with the SEC.

Item 1A. Risk Factors

Our business is subject to a number of risks of which you should be aware before making a decision to invest in our securities. The summarized risks described below are not the only risks that we face. The following summarized risks as well as risks and uncertainties not currently known to us or that we currently deem to be immaterial may materially and adversely affect our business, results of operations, financial condition, earnings per share, cash flow or the trading price of our common stock. These summarized risks include, among others, the following:

Risks Related to Our Business, Strategy and Growth

- A large percentage of our gross originations is concentrated with a single merchant, and any deterioration in the business of, or in our relationship with this merchant or any other key merchant relationship or partner would materially and adversely affect our business, results of operations, financial condition and future prospects.
- The success of our business is dependent on consumers making payments on their leases when due and other factors affecting consumer spending and default behavior that are not under our control.
- Unexpected changes to consumer spending patterns could cause our proprietary algorithms and decisioning tools used in approving customers to no longer be indicative of our customer's ability to perform.
- If we are unable to attract additional merchants and retain and grow our relationships with our existing merchants, our results of operations, financial condition, and prospects would be materially and adversely affected.
- Our success depends on the effective implementation and continued execution of our strategies.
- Our estimates of market opportunity and forecasts of market growth may prove to be inaccurate, and even if the market in which we compete achieves the forecasted growth, our business could fail to grow at similar rates, if at all.
- We rely on the accuracy of third-party data, and inaccuracies in such data could adversely impact our approval process.
- The success and growth of our business depends upon our ability to continuously innovate and develop new products and technologies.
- To the extent that we seek to grow through future acquisitions, or other strategic investments or alliances, we may not be able to do so effectively.

Risks Related to Our Indebtedness

- We have substantial indebtedness, which may reduce our capability to withstand adverse developments or business conditions
- The credit agreement governing the Credit Facility includes restrictive covenants and financial maintenance covenants, which could restrict our operations or ability to pursue growth strategies or initiatives. Failure to comply with these covenants could result in an acceleration of repayment of the indebtedness under the credit facility, which would have a material adverse effect on our business, financial condition and results of operations
- A Change of Control as defined by our credit agreement could accelerate our obligation to pay our outstanding indebtedness, and we may not have sufficient liquid assets at that time to repay these amounts.

Financial Risks Related to Our Business

- We have a history of operating losses and may not be profitable in the future.
- Our revenue and operating results may fluctuate, which could result in a decline in our profitability and make it more difficult for us to grow our business.
- We rely on card issuers and payment processors. If we fail to comply with the applicable requirements of Visa or other payment processors, those payment processors could seek to fine us, suspend us or terminate our registrations which could have a material adverse effect on our business, results of operations, financial condition, and future prospects.
- Our ability to use our net operating loss carry forwards and certain other tax attributes may be limited.

Risks Related to Our Technology and Our Platform

- Real or perceived software errors, failures, bugs, defects, or outages could have adverse effects on our business, results of operations, financial condition, and future prospects.
- Our results depend on continued integration and support of our platform by our merchants.
- We are subject to stringent and changing laws, regulations, rules, standards and contractual obligations related to data privacy and security, which could increase the cost of doing business, compliance risks and potential liability and otherwise negatively affect our operating results and business.
- Any significant disruption in, or errors in, service on our platform or relating to vendors could prevent us from processing transactions on our platform or posting payments and have a material and adverse effect.
- Data security breaches or other security incidents with respect to our information technology systems or data, or those of third parties upon which we rely, could result in adverse consequences.
- We may be at risk of identity fraud, which may adversely affect the performance of the lease-to-own transactions facilitated through our platform.

Legal and Compliance Risks

- Failure or perceived failure to comply with existing or future laws, regulations, rules, contracts, self-regulatory schemes, standards, and other obligations including those related to data privacy and security (including security incidents) could harm our business. Compliance or the actual or perceived failure to comply with such obligations could increase the costs of our products or services, limit their use or adoption, and otherwise negatively affect our operating results and business.
- We are subject to securities litigation, which is expensive and could divert management attention and adversely impact our business.
- Our independent registered public accounting firm identified material weaknesses in our internal control over financial reporting in connection with the audit of our financial statements as of and for the fiscal years ended December 31, 2022 and 2021, and we may identify additional material weaknesses in the future.
- Changes to tax laws or exposure to additional tax liabilities may have a negative impact on our operating results.
- We may be subject to legal proceedings from time to time which seek material damages.

Operational Risks Related to Our Business

- Uncertain market and economic conditions have had, and may in the future have, serious adverse consequences on our business, financial condition and share price.
- Failure to effectively manage our costs could have a material adverse effect on our profitability.
- Negative publicity about us or our industry could adversely affect our business, results of operations, financial condition, and future prospects.
- Misconduct and errors by our employees, vendors, and service providers could harm our business and reputation.
- The loss of the services of any of our executive officers could materially and adversely affect our business, results of operations, financial condition, and future prospects.
- Our business depends on our ability to attract and retain highly skilled employees.

Other Risks

- The majority of our management has limited experience in operating a public company.
- We will continue to incur significant costs as a result of operating as a public company, and our management will continue to devote substantial time for new compliance initiatives.
- Future sales, or potential future sales, by us or our stockholders in the public market could cause the market price for our Common Stock to decline.
- The price of our securities may change significantly in the future and stockholders could lose all or part of their investment as a result.

A description of the risks and uncertainties associated with our business is set forth below. You should carefully consider the risks and uncertainties described below, together with all of the other information in this Annual Report on Form 10-K, including Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and related notes appearing elsewhere in this Annual Report on Form 10-K. Additional risks and uncertainties that we are unaware of, or that we currently believe are not material, may also become important factors that adversely affect our business. If any of the risks actually occur, our business, financial condition, results of operations and prospects could be materially and adversely affected. In that event, the trading price of our securities could decline.

Risks Relating to Our Business and Industry

Risks Related to Our Business, Strategy and Growth

A large percentage of our gross originations is concentrated with a single merchant, and any deterioration in the business of, or in our relationship with, this merchant or any other key merchant relationship or partner would materially and adversely affect our business, results of operations, financial condition, and future prospects.

We depend on continued relationships with Wayfair and other key merchants. Our top merchant, Wayfair, represented approximately 57% and 63% of our gross originations for the fiscal years ended December 31, 2022 and 2021, respectively. Our top ten merchants in the aggregate represented approximately 83% and 90% of our gross originations for the fiscal years ended December 31, 2022 and 2021, respectively. There can be no guarantee that these relationships will continue or, if they do continue, that these relationships will continue to be successful. There is a risk that we may lose merchants for a variety of reasons, including a failure to meet key contractual or commercial requirements, or if merchants shift to in-house solutions (including providing a service competitive to us) or competitor providers.

The concentration of a significant portion of our business and transaction volume with a single merchant or a limited number of merchants, exposes us disproportionately to events, circumstances, or risks affecting such single merchant, such as Wayfair, or other key merchants, including risks related to the macroeconomic environment, consumer spending changes, inflation, COVID-19, supply chain issues (including availability of raw materials from Russia and Ukraine), access to capital markets, labor shortages or other risks they may be facing with respect to their industry, business or results of operations. For example, inflation and supply chain issues due to disruptions from the COVID-19 pandemic and the Russia-Ukraine war negatively impacted the sales of many of our merchants, including Wayfair, during the year ended December 31, 2022, which in turn contributed to a decline in our gross origination volume during the period. If our key merchants, in particular Wayfair, are unable to acquire new customers or retain existing customers or are otherwise negatively impacted by the macroeconomic and geopolitical conditions, including the COVID-19 pandemic, our results of operations, financial condition and future prospects will be negatively impacted.

The loss of Wayfair as a merchant, in particular, would materially and adversely affect our business, results of operations, financial condition, and future prospects. In addition, a material modification in the merchant agreement with Wayfair or a significant merchant could affect our results of operations, financial condition, and future prospects.

We also depend on continued relationships with key partners that assist in obtaining and maintaining our relationships with merchants. There is a risk that e-commerce platforms with which we partner (such as Shopify, BigCommerce, WooCommerce, and Magneto) may limit or prevent Katapult from being offered as a payment option at checkout. We also face the risk that our key partners could become competitors of our business.

If our relationship with Wayfair or another key merchant deteriorates, they choose to no longer partner with us, or choose to partner with a competitor, or their business is negatively impacted by one or more factors, our business, results of operations, financial condition and future prospects will be materially and adversely affected.

The success of our business is dependent on consumers making payments on their leases when due and other factors affecting consumer spending and default behavior that are not under our control.

We generate substantially all of our revenue through payments on leases we provide to consumers to purchase the merchandise of our merchants and we bear the risk of non-payment or late payments by our customers. As such, the success of our business is dependent on consumers making payments on their leases when due. We primarily provide leases to non-prime consumers who do not have sufficient cash or credit to purchase home furnishings, automotive goods, electronics, computers, and other durable goods. The ability of these consumers to make payments to us when due may be impacted by a variety of factors, such as loss of employment, the emergence of significant unforeseen expenses as well as factors affecting consumer spending. Consumer spending is also affected by general economic conditions and other factors including levels of employment, disposable consumer income, inflation, prevailing interest rates, consumer debt and availability of credit, costs of fuel, inflation, recession and fears of recession, war and fears of war (including the conflict involving Russia and Ukraine), pandemics (such as COVID-19), inclement weather, tariff policies, tax rates and rate increases, timing of receipt of tax refunds, consumer confidence in future economic conditions and political conditions, and consumer perceptions of personal well-being and security. For example, during 2022 inflation increased rapidly, and although inflation appeared to begin moderating towards the end of 2022, it remains at levels not seen in 40 years. Food, energy, residential rent, and other costs have increased, reflecting a tight labor market and supply chain issues. Unfavorable changes in factors affecting discretionary spending for non-prime consumers as a result of one or more of these factors could reduce demand for our products and services resulting in lower revenue and negatively impacting our business and our financial results. In addition to reducing demand for our products, these factors may unfavorably impact our customers' ability or willingness to make the payments they owe us, resulting in increased customer payment delinquencies and lease merchandise write-offs and decreased gross margins, which could also materially and adversely impact our business, financial condition and results of operations.

If consumers are unable or unwilling to pay us due to one or more of these factors, our gross originations may not reflect and/or be directly correlated to our revenue. In addition, if our assumptions around consumers' ability to pay us after we have recognized revenue deteriorate, such deterioration could result in a material impairment, increase our cost of revenue and materially and adversely impact our business, financial condition, results of operations and prospects.

Our business may also be adversely impacted by, among other issues, other consumer finance companies increasing the availability of credit to our target consumer market in response to changes in consumer spending habits as a result of macro or other factors. If more credit is available to our target consumer market, we will face increased competition, which may negatively impact our gross originations and our business, results of operations, financial condition and future prospects.

Unexpected changes to consumer spending patterns could cause our proprietary algorithms and decisioning tools used in approving customers to no longer be indicative of our customer's ability to perform.

We believe our proprietary lease decisioning processes to be a key to the success of our business. The decisioning processes assume behavior and attributes observed for prior customers, among other factors, are indicative of performance by our future customers. Unexpected changes in customer behavior caused by general economic conditions and other factors, including, the significant increase in inflation in the U.S. which has reached levels not seen in 40 years, continued supply chain disruptions, the U.S. economy experiencing a potential prolonged recession and potential widespread job losses may mean that our decisioning tools do not function as intended. As a result, we may approve relatively more customers that are not able to perform, which would lead to increased incidence and costs related to impairment of property held for lease. When there are unexpected changes to consumer spending patterns, our decisioning process typically requires more frequent adjustments and the application of management analysis of the interpretation and adjustment of the results produced by our decisioning tools. Due to the challenging macro environment in recent months, for example, we expect we may need to make more frequent adjustments to our decisioning process in the near term. If our decisioning tools are unable to accurately predict and respond to changes to customer behaviors as a result of general economic or other factors, our

ability to manage risk and avoid charge-offs may be negatively affected, which may result in insufficient reserves and materially and adversely impact our business, financial condition, results of operations and prospects.

If we are unable to attract additional merchants and retain and grow our relationships with our existing merchants, our results of operations, financial condition, and prospects would be materially and adversely affected.

Our continued success is dependent on our ability to attract new merchants and to maintain our relationship with our existing merchants and grow our gross originations (which we define as the retail price of the merchandise associated with lease-purchase agreements entered into through the Katapult platform and do not represent revenue earned) from those existing merchants through their e-commerce platforms, and also to expand our merchant base. Our ability to attract, retain and grow our relationships with merchants depends on the willingness of our merchants to partner with us. The attractiveness of our platform to merchants depends upon, among other things, our brand and reputation, ability to sustain our value proposition to merchants for consumer acquisition, the attractiveness to merchants of our digital and data-driven platform, the services, products and customer decisioning standards offered by our competitors, and our ability to perform under, and maintain, our merchant agreements.

In addition, competition for smaller merchants has intensified significantly in recent years, with many such merchants simultaneously offering several products and services that compete directly with the products and services offered by us. Having a diversified mix of merchants is important to mitigate risk associated with changing consumer spending behavior, economic conditions and other factors that may affect a particular type of retailer. If we fail to retain any of our larger merchants or a substantial number of our smaller merchants, if we do not acquire new merchants, if we do not continually grow our gross originations from our merchants, or if we are not able to retain a diverse mix of merchants, our results of operations, financial condition, and prospects would be materially and adversely affected.

Our success depends on the effective implementation and continued execution of our strategies.

We are focused on our mission to provide innovative lease financing solutions to non-prime consumers and to enable everyday transactions at the merchant point of sale.

Growth of our business, including through the launch of new product offerings, requires us to invest in or expand our customer data and technology capabilities, engage and retain experienced management, and otherwise incur additional costs. For example, we launched our new mobile app and Katapult Pay in the third quarter of 2022. However, these product enhancements may not generate the additional customer and merchant engagement with our offerings that we expect. If these or other strategic initiatives are not successful longer-term, our competitiveness as well as our business and financial results may be materially and adversely affected. Our inability to address these concerns or otherwise to achieve targeted results associated with our initiatives could adversely affect our results of operations, or negatively impact our ability to successfully execute future strategies, which may result in an adverse impact on our business and financial results.

If we fail to maintain customer satisfaction and trust in our brand, our business, results of operations, financial condition, and prospects would be materially and adversely affected.

We provide an additional lease-to-own financing option for qualified consumers seeking to purchase durable goods from e-commerce merchants. If consumers do not trust our brand or do not have a positive experience, they will not use our products and services and be unable to attract or retain merchants. In addition, our ability to attract new consumers and merchants is highly dependent on our reputation and on positive recommendations from our existing customers and merchants. Any failure to maintain a consistently high level of customer service, or a market perception that we do not maintain high-quality customer service, would adversely affect our reputation and the number of positive customer referrals that we receive and the number of new and repeat customers. As a result, our business, results of operations, financial condition, and prospects would be materially and adversely affected.

If we are unable to attract new consumers and retain and grow our relationships with our existing consumers, our results of operations, financial condition, and prospects would be materially and adversely affected.

Our continued success depends on our ability to generate repeat use and increased gross originations from existing customers and to attract new consumers to our platform. Our ability to retain and grow our relationships with our consumers depends on the willingness of consumers to use our products and services. The attractiveness of our data-driven platform to consumers depends upon, among other things, the number and variety of our merchants and the mix of products and services available through our platform, our brand and reputation, customer experience and satisfaction, trust and perception of the value we provide, technological innovation, and the services, products and customer decisioning standards offered by our competitors. If we fail to retain our relationship with existing customers, if we do not attract new consumers to our platform, products and services, or if we do not continually expand usage, repeat customers and gross originations, our results of operations, financial condition, and prospects would be materially and adversely affected.

We operate in a highly competitive industry, and their inability to compete successfully would materially and adversely affect our results of operations, financial condition, and prospects.

We operate in a highly competitive industry. We face competition from a variety of businesses and new market entrants, including competitors with lease-to-own products for e-commerce goods and other types of digital payment platforms. We face competition from virtual lease-to-own companies, e-commerce retailers (including those that offer layaway programs and title or installment lending), online sellers of used merchandise, and various types of consumer finance companies that may enable our customers to shop at online retailers, as well as with online rental stores that do not offer their customers a purchase option. These competitors may have significantly greater financial and operating resources, greater name recognition and more developed products and services, which may allow them to grow faster. Greater name recognition, or better public perception of a competitor's reputation, may help the competitor divert market share. Some competitors may be willing to offer competing products on an unprofitable basis (or may have looser decisioning standards or be willing to relax their decisioning standards) in an effort to gain market share, which could compel us to match their pricing strategy or lose business. Moreover, prime lenders may loosen their underwriting standards and provide credit to non-prime consumers, which would impact the credit quality of our customers and our business and results of operations. In addition, some of our competitors may be willing to lease certain types of products that we will not agree to lease, enter into customer leases that have services, as opposed to goods, as a significant portion of the lease value, or engage in other practices related to pricing, compliance, and other areas that we will not, in an effort to gain market share at our expense. Our business relies heavily on relationships with our merchants. An increase in competition could cause our merchants to no longer offer our product and services in favor of our competitors, or to offer our product and the products of our competitors simultaneously, which could slow growth in our business and limit or reduce profitability. Merchants could also develop their own in house product that competes with our product. Furthermore, virtual lease-to-own competitors may deploy different business models, such as direct-to-consumer strategies, that forego reliance on merchant relationships that may prove to be more successful.

Our estimates of market opportunity and forecasts of market growth may prove to be inaccurate, and even if the market in which we compete achieves the forecasted growth, our business could fail to grow at similar rates, if at all.

Our market opportunity estimates, including the size of the virtual lease-to-own market, and expectations about market growth are subject to significant uncertainty and are based on assumptions and estimates that may not prove to be accurate. Even if the markets in which we compete meet our size estimates and growth expectations, our business could fail to grow for a variety of reasons, which could adversely affect our results of operations.

We rely on the accuracy of third-party data, and inaccuracies in such data could adversely impact our approval process.

We use data from third parties as part of our proprietary risk model used to assess whether a consumer qualifies for a lease-purchase option from a merchant. We are reliant on these third parties to ensure that the data they provide is accurate. Inaccurate data could cause us to not approve transactions that otherwise would have been approved, or instead, approve transactions that would have otherwise been denied and may lead to a higher incidence of bad debts and could have an adverse impact on our results of operations and financial condition.

The success and growth of our business depends upon our ability to continuously innovate and develop new products and technologies.

Our solution is a technology-driven platform that relies on innovation to remain competitive. The process of developing new technologies and products is complex, and we build our own technology, using the latest in AI/ML, cloud-based technologies, and other tools to differentiate our products and technologies. In addition, our dedication to incorporating technological advancements into our platform requires significant financial and personnel resources and talent. Our development efforts with respect to these initiatives could distract management from current operations and could divert capital and other resources from other growth initiatives important to our business. In addition, the product and technological enhancements that we introduce may not function as we intend, or may not generate the benefits that we expect. We operate in an industry experiencing rapid technological change and frequent product introductions. We may not be able to make technological improvements as quickly as demanded by our consumers and merchants, which could harm our ability to attract consumers and merchants. In addition, we may not be able to effectively implement new technology-driven products and services as quickly as competitors or be successful in marketing these products and services to consumers and merchants. If we are unable to successfully and timely innovate and continue to deliver a superior merchant and consumer experience, the demand for our products and technologies may decrease and our growth, business, results of operations, financial condition, and future prospects could be materially and adversely affected.

Further, we use AI/ML in many aspects of our business, including fraud, credit risk analysis, and product personalization. The AI/ML models that we use are trained using various data sets. If the AI/ML models are incorrectly designed, the data we use to train them is incomplete, inadequate, or biased in some way, or we do not have sufficient rights to use the data on which our AI/ML models rely, the performance of our products, services, and business, as well as our reputation, could suffer or we could incur liability through the violation of laws, third-party privacy, or other rights, or contracts to which we are a party.

Our failure to accurately predict the demand or growth of our new products and technologies also could have a material and adverse effect on our business, results of operations, financial condition, and future prospects. New products and technologies are inherently risky, due to, among other things, risks associated with: the product or technology not working, or not working as expected; consumer and merchant acceptance; technological outages or failures; and the failure to meet consumer and merchant expectations. As a result of these risks, we could experience increased claims, reputational damage, or other adverse effects, which could be material. The profile of potential consumers using our new products and technologies also may not be as attractive as the profile of the consumers that we currently serve, which may lead to higher levels of delinquencies or defaults than we have historically experienced. Additionally, we can provide no assurance that we will be able to develop, commercially market, and achieve acceptance of our new products and technologies. In addition, our investment of resources to develop new products and technologies and make changes or updates to our platform may either be insufficient or result in expenses that exceed the revenue actually generated from these new products. Failure to accurately predict demand or growth with respect to our new products and technologies could have a material and adverse effect on our business, results of operations, financial condition, and future prospects.

To the extent that we seek to grow through future acquisitions, or other strategic investments or alliances, we may not be able to do so effectively.

We may in the future seek to grow our business by exploring potential acquisitions or other strategic investments or alliances. We may not be successful in identifying businesses or opportunities that meet our acquisition or expansion criteria. In addition, even if a potential acquisition target or other strategic investment is identified, we may not be successful in completing such acquisition or integrating such new business or other investment. We may face significant competition for acquisition and other strategic investment opportunities from

other well-capitalized companies, many of which have greater financial resources and greater access to debt and equity capital to secure and complete acquisitions or other strategic investments, than we do. As a result of such competition, we may be unable to acquire certain assets or businesses, or take advantage of other strategic investment opportunities that we deem attractive; the purchase price for a given strategic opportunity may be significantly elevated; or certain other terms or circumstances may be substantially more onerous.

Any delay or failure on our part to identify, negotiate, finance on favorable terms, consummate, and integrate any such acquisition or other strategic investment opportunity could impede our growth. Additional risks relating to potential acquisitions include difficulties in integrating the operations, systems, technologies, products and personnel of the acquired businesses, diversion of management's attention from normal daily operations of the business and the challenges of managing larger and more widespread operations, the potential loss of key employees, vendors and other business partners of the businesses we acquire; and increased amounts of debt incurred in connection with such activities or dilutive issuances of our common stock.

There is no assurance that we will be able to manage our expanding operations effectively or that we will be able to continue to grow, and any failure to do so could adversely affect our ability to generate revenue and control our expenses. Furthermore, we may be responsible for any legacy liabilities of businesses we acquire or be subject to additional liability in connection with other strategic investments. The existence or amount of these liabilities may not be known at the time of acquisition, or other strategic investment, and may have an adverse effect on our business, results of operations, financial condition, and future prospects.

Risks Related to Our Indebtedness

We have substantial indebtedness, which may reduce our capability to withstand adverse developments or business conditions.

We have incurred substantial indebtedness. As of December 31, 2022, the total aggregate indebtedness under the senior secured term loan and revolving loan facility, (the "Credit Facility") of Katapult SPV-1 LLC (the "Borrower") was approximately \$111.8 million of principal outstanding with Midtown Madison Management LLC, as agent for various funds of Atalaya Capital Management (the "Lender"). On March 6, 2023, in connection with the fifteenth amendment of our Credit Facility, we refinanced our indebtedness with the Lender and repaid \$25 million of principal on our outstanding term loan. We, together with our wholly-owned subsidiary, Katapult Group, Inc., have guaranteed the obligations of the Borrower under the Credit Facility. Our payments on our outstanding indebtedness are significant in relation to our revenue and cash flow, which exposes us to significant risk in the event of downturns in our business (whether through competitive pressures or otherwise), our industry or the economy generally, since our cash flows would decrease but our required payments under our indebtedness would not. Economic downturns may impact our ability to comply with the covenants and restrictions in our credit agreement governing the credit facility and to make payments on our indebtedness as they become due.

Our overall leverage and the terms of our Credit Facility could also:

- make it more difficult for us to satisfy obligations;
- limit our ability to obtain additional financing in the future for working capital, capital expenditures or acquisitions;
- limit our ability to service our indebtedness;
- limit our ability to adapt to changing market conditions;
- restrict us from making strategic acquisitions or cause us to make non-strategic divestitures;
- require us to dedicate a significant portion of our cash flow from operations to paying the principal and interest on our indebtedness, thereby limiting the availability of our cash flow to fund future capital expenditures, working capital and other corporate purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and in our industry generally; and
- place us at a competitive disadvantage compared with competitors that have a less significant debt burden.

In addition, the Credit Facility, secured by a pledge over all of the assets of the Borrower is guaranteed by us and our wholly-owned subsidiary, Katapult Group, Inc., which in turn is secured by a pledge over all of our assets and the assets of Katapult Group, Inc.

The credit agreement governing the Credit Facility includes restrictive covenants and financial maintenance covenants, which could restrict our operations or ability to pursue growth strategies or initiatives. Failure to comply with these covenants could result in an acceleration of repayment of the indebtedness under the credit facility, which would have a material adverse effect on our business, financial condition and results of operations.

The credit agreement governing the Credit Facility contains customary representations and warranties and customary affirmative and negative covenants that restrict some of our activities. The negative covenants limit our ability to: incur additional indebtedness; pay dividends, redeem stock or make other distributions; amend our material agreements; make investments; create liens; transfer or sell the collateral for the Credit Facility; make negative pledges; consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; and enter into certain transactions with affiliates. Non-scheduled repayments of certain amounts under the Credit Facility are subject to prepayment penalties, which would limit our ability to pay or refinance the Credit Facility. Our ability to meet these covenants could be affected by events beyond our control, and we may be unable to satisfy them which would prevent us from pursuing certain growth strategies or initiatives due to this limitation. These or other limitations could decrease our operating flexibility and our ability to achieve our operating objectives. The credit agreement governing the Credit Facility contains certain financial covenants. In particular, as of the end of each month, (1) we must maintain certain minimum Adjusted EBITDA levels and certain minimum Tangible Net Worth representing our total assets less certain capital expenses, prepaid expenses, intangible assets and total liabilities and (2) our Total Advance Rate (as defined in the credit agreement) may not exceed certain thresholds. We must also maintain minimum liquidity of at least \$10.0 million in unrestricted cash and cash equivalents as of any date of determination. These financial covenants are restrictive and failure to comply with these covenants would have a material adverse effect on our business, financial condition, and results of operations.

Failure to comply with any of these covenants or other obligation or agreement under the credit agreement that is not cured within the specified period under the credit agreement would result in an event of default under the agreement and, if such event of default occurs before December 5, 2023, would require the issuance of warrants to purchase an additional 2,000,000 shares of our common stock with an exercise price of \$0.01 per share to the Lender. In such event, if we are unable to negotiate with our Lender for a waiver or dispensation under the agreement, we would not be able to borrow under the credit agreement and our Lender would have the right to terminate the loan commitments under the credit agreement and accelerate repayment of all obligations under the credit agreement that would become due and payable immediately, which would have a material adverse effect on our business, results of operations and financial position. If we do not have sufficient liquid assets to repay amounts outstanding under the Credit Facility, the Lender has the right to foreclose their liens against all of our assets and take possession and sell any such assets to reduce any such obligations.

A Change of Control as defined by our credit agreement could accelerate our obligation to pay our outstanding indebtedness, and we may not have sufficient liquid assets at that time to repay these amounts.

Under our Credit Facility, all of the outstanding loans are required to be prepaid in full (together with accrued and unpaid interest and prepayment premium) and the revolving loan facility will terminate if a Change of Control (as defined in the credit agreement governing the Credit Facility) occurs that is not approved by the Lender. A Change of Control includes the occurrence of the following: (i) any “person” or “group” (as such terms are used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, but excluding any employee benefit plan of such person or its subsidiaries, and any person or entity acting in its capacity as trustee, agent or other fiduciary or administrator of any such plan) becomes the “beneficial owner” (as defined in Rules 13d-3 and 13d-5 under the Securities Exchange Act of 1934, except that a person or group shall be deemed to have “beneficial ownership” of all securities that such person or group has the right to acquire (such right, an “option right”), whether such right is exercisable immediately or only after the passage of time), directly or indirectly, of 35% or more of the equity securities of Katapult Holdings, Inc. entitled to vote for members of the board of directors (on a fully-diluted basis (and taking into account all such securities that such person or group has the right to acquire pursuant to any option

right), and (ii) certain changes in the composition of our board of directors occurs during a twenty-four month period which were not recommended or approved by at least a majority of directors who were directors at the beginning of such twenty-four month period. Further, if a Change of Control occurs when the term loan portion of our Credit Facility is still outstanding before December 5, 2023, an additional warrant to purchase 2,000,000 shares of our common stock with an exercise price of \$0.01 per share will be issued to the Lender.

As of December 31, 2022, we had \$58.0 million of principal outstanding under the revolving loan facility. In addition, we had borrowings under our term loan of \$53.8 million (including capitalized PIK interest) as of December 31, 2022. Subsequent to December 31, 2022, and in connection with the fifteenth amendment of our Credit Facility, we repaid \$25 million of principal on our outstanding term loan.

If any specified Change of Control occurs and the Lender accelerates these obligations, we may not have sufficient liquid assets to repay amounts outstanding under the Credit Facility.

Financial Risks Related to Our Business

We have a history of operating losses and may not be profitable in the future.

We incurred a net loss of approximately \$37.9 million during the year ended December 31, 2022. During the year ended December 31, 2021, we generated net income of approximately \$21.2 million. As of December 31, 2022, our accumulated deficit was approximately \$76.7 million. In the fourth quarter of 2022, we initiated a number of cost savings initiatives that we expect will significantly reduce operating expenses in the near term after giving affect to certain severance costs incurred in the first quarter of 2023. However, we may need to increase our operating expenses in the future in order to continue growing our business, attracting customers, merchants and funding sources, and further enhancing and developing our products and platforms. As we expand our offerings to additional markets, our offerings in these markets may be less profitable than the markets in which we currently operate. These efforts may prove more expensive than we currently anticipate, and we may not succeed in increasing our revenue sufficiently to offset these higher expenses. We may incur net losses in the future and may not be profitable on a quarterly or annual basis.

Our ability to timely raise capital in the future may be limited, or may be unavailable on acceptable terms, if at all.

The failure to raise capital when needed could harm our business, operating results and financial condition. Debt or equity issued to raise additional capital may reduce the value of our common stock. We cannot be certain when or if the operations of our business will generate sufficient cash to fund our ongoing operations or the growth of our business. We intend to make investments to support and grow our business and may require additional funds to respond to business challenges, including the need to develop or enhance our technology, expand our sales and marketing efforts or develop new products. Additional financing may not be available on favorable terms, if at all. If adequate funds are not available on acceptable terms, we may be unable to invest in future growth opportunities, which could harm our business, operating results and financial condition. If we incur additional debt, the debt holders could have rights senior to holders of our common stock and/or existing debt to make claims on our assets. The terms of any additional debt could have covenants which restrict our operations, including our ability to pay dividends on our common stock, take specific actions, such as incurring additional debt, or make capital expenditures. If we issue additional equity securities, stockholders will experience dilution, and the new equity securities could have rights senior to those of our common stock including liquidation or other preferences. Because the decision to issue securities in the future offering will depend on numerous considerations, including factors beyond our control, we cannot predict or estimate the amount, timing or nature of any future issuances of debt or equity securities. As a result, stockholders will bear the risk of future issuances of debt or equity securities reducing the value of their common stock and diluting their interest.

Our revenue and operating results may fluctuate, which could result in a decline in our profitability and make it more difficult for us to grow our business.

Our revenue and operating results have varied, and may in the future vary, from quarter to quarter and by season. Periods of decline have resulted, and could in the future result, in an overall decline in profitability and make it more difficult for us to make payments on our indebtedness and grow our business. We expect our quarterly results to fluctuate in the future due to a number of factors, including general economic conditions in the markets where we operate, the cyclical nature of consumer spending, and seasonal sales and spending patterns of customers.

We rely on card issuers and payment processors. If we fail to comply with the applicable requirements of Visa or other payment processors, those payment processors could seek to fine us, suspend us or terminate our registrations, which could have a material adverse effect on our business, results of operations, financial condition, and future prospects.

We rely on card issuers and payment processors, and must pay a fee for this service. From time to time, payment processors such as Visa may increase the interchange fees that they charge for each transaction using one of their cards. The payment processors routinely update and modify their requirements. Changes in the requirements, including changes to risk management and collateral requirements, may impact our ongoing cost of doing business and we may not, in every circumstance, be able to pass through such costs to our merchants or associated participants. Furthermore, if we do not comply with the payment processors' requirements (e.g., their rules, bylaws, and charter documentation), the payment processors could seek to fine us, suspend us or terminate our registrations that allow us to process transactions on their networks. The termination of our registration due to failure to comply with the applicable requirements of Visa or other payment processors, or any changes in the payment processors' rules that would impair our registration, could require us to stop utilizing payment services from Visa or other payment processors, which could have a material adverse effect on our business, results of operations, financial condition, and future prospects.

Our ability to use our net operating loss carry forwards and certain other tax attributes may be limited.

Under Section 382 of the Internal Revenue Code of 1986, as amended, or the Code, if a corporation undergoes an "ownership change", generally defined as a greater than 50.0% change (by value) in its equity ownership over a three-year period, the corporation's ability to use its pre-change net operating loss carryforwards and other pre-change tax attributes, such as research tax credits, to offset its post-change income may be limited or potentially significantly deferred compared to such ability in the absence of an "ownership change". The completion of the Business Combination may have triggered an "ownership change" limitation. We have not completed a formal study to determine if any "ownership changes" within the meaning of IRC Section 382 have occurred. If "ownership changes" within the meaning of Section 382 of the Code have occurred, and if we earn net taxable income, our ability to use our net operating loss carryforwards and other tax credits generated since inception to offset U.S. federal taxable income may be subject to limitations, which could potentially result in increased future tax liability to us and could require us to pay U.S. federal income taxes earlier than would be required if such limitations were not in effect. Similar rules and limitations may apply for state income tax purposes.

Risks Relating to Our Technology and Our Platform

Real or perceived software errors, failures, bugs, defects, or outages could adversely affect our business, results of operations, financial condition, and future prospects.

Our platform and our internal systems rely on software that is highly technical and complex. In addition, our platform and our internal systems depend on the ability of such software to store, retrieve, manage and otherwise process immense amounts of data, including personal data. As a result, undetected errors, failures, bugs, or defects may be present in such software or occur in the future in such software, including open source software and other software we license in from third parties, especially when updates or new products or services are released.

Any real or perceived errors, failures, bugs, defects, or outages in such software may not be found until our consumers use our platform and could result in outages or degraded quality of service on our platform that could adversely impact our business (including through causing us not to meet contractually required service levels), as

well as negative publicity, loss of or delay in market acceptance of our products and services, and harm to our brand or weakening of our competitive position. In such an event, we may be required, or may choose, to expend significant additional resources in order to correct the problem. Any real or perceived errors, failures, bugs, defects, or outages in the software we rely on could also subject us to liability claims, result in data security breaches or other security incidents, impair our ability to attract new consumers, retain existing consumers, or expand their use of our products and services, which would adversely affect our business, results of operations, financial condition, and future prospects.

Our results depend on continued integration and support of our platform by our merchants.

We depend on our merchants, which generally accept most major credit cards and other forms of payment, to present our platform as a payment option and to integrate our platform into their website or in their store, such as by featuring our platform on their websites or in their stores and at checkout. We do not have any recourse against merchants when they do not feature our platform as a payment option. The failure by our merchants to effectively present, integrate, and support our platform, or to effectively explain lease-to-own transactions to potential customers, would have a material and adverse effect on our business, results of operations, financial condition, and future prospects.

We are subject to stringent and changing laws, regulations, rules, standards and contractual obligations related to data privacy and security, which could increase the cost of doing business, compliance risks and potential liability and otherwise negatively affect our operating results and business regulations.

In the ordinary course of business, we collect, receive, store, generate, use, transfer, disclose, make accessible, protect, secure, dispose of, transmit, share and otherwise process a wide variety of data and information, including personal data and sensitive personal data, proprietary and confidential business data, trade secrets, and intellectual property. For example, we process the personal data, including sensitive personal data, of consumers, including Social Security numbers. We are subject to numerous data privacy and security obligations, such as various laws, regulations, rules, standards and contractual obligations that govern the processing of personal data by us or by third parties on our behalf.

In the United States, federal, state, and local governments have enacted numerous data privacy and security laws, regulations and rules including data breach notification laws, personal data privacy laws, and consumer protection laws. For example, the Telephone Consumer Protection Act (“TCPA”) imposes specific requirements relating to marketing to individuals using technology such as telephones, mobile devices, and text messages. TCPA violations can result in significant financial penalties, including penalties or criminal fines imposed by the Federal Communications Commission or fines of up to \$1,500 per violation imposed through private litigation or by state authorities. Class action suits are the most common method for private enforcement. We are also subject to the rules and regulations promulgated under the authority of the FTC, which regulates unfair or deceptive acts or practices, including with respect to data privacy and security. Moreover, the United States Congress has recently considered, and is currently considering, various proposals for more comprehensive data privacy and security legislation, to which we may be subject if passed.

Data privacy and security are also areas of increasing state legislative focus and we are, or may in the future become, subject to various state laws and regulations regarding data privacy and security. For example, the CCPA broadly defines personal information, gives California residents expanded privacy rights and protections, and provides for civil penalties for violations and a private right of action for certain data breaches. The CCPA is indicative of a trend towards greater state-level regulation of data privacy and security in the U.S. A number of other states have enacted, or are considering enacting, comprehensive data privacy laws that share similarities with the CCPA, with at least four such laws (in Virginia, Colorado, Connecticut and Utah) having taken effect, or scheduled to take effect, in 2023. In addition, laws in all 50 U.S. states generally require businesses to provide notice under certain circumstances to consumers whose personal data has been disclosed as a result of a data breach. Further, several states and localities have also enacted, or are considering enacting, measures related to the use of artificial intelligence and machine learning in products and services. For additional information on data privacy and security laws, regulations and rules we are, or may in the future become, subject to, see the section titled “Business—Government Regulation.”

In addition, privacy advocates and industry groups have proposed, and may propose, data privacy and security standards with which we are legally or contractually bound to comply. For example, we may also be subject to the Payment Card Industry Data Security Standard (“PCI DSS”), which requires companies that process payment card data to adopt certain measures to ensure the security of cardholder information, including using and maintaining firewalls, adopting proper password protections for certain devices and software, and restricting data access. Noncompliance with PCI-DSS can result in significant penalties or liability, litigation, loss of access to major payment card systems, damage to our reputation, and revenue losses. We may also rely on vendors to process payment card data, and those vendors may be subject to PCI DSS, and our business may be negatively affected if our vendors are fined or suffer other consequences as a result of PCI DSS noncompliance.

We also make public statements about our use and disclosure of personal data through our privacy policies, information on our website and press statements. Although we endeavor to comply with our public statements and documentation, we may at times fail to do so or be alleged to have failed to do so. The publication of our privacy policies and other statements that provide promises and assurances about data privacy and security can subject us to potential government or legal action if they are found to be deceptive, unfair or misrepresentative of our actual practices. Any concerns about our data privacy and security practices, even if unfounded, could damage our reputation and adversely affect our business.

Increasingly, some aspects of our business may be reliant on our ability to have our products and services be accepted by or compatible with a third-party platform, and any inability to do so could negatively impact our business. For example, Google has announced that it intends to phase out third-party cookies in its Chrome browser, which could make it more difficult for us to target advertisements. Individuals may increasingly resist our collecting, using, and sharing of personal data to deliver targeted advertising. Additionally, Apple introduced an iOS update in April 2021 that allowed users to more easily opt-out of tracking of activity across devices, which has impacted and may continue to impact our business. Individuals are becoming more aware of options related to consent, “do not track” mechanisms, and “ad-blocking” software, any of which could materially impact our ability to collect personal data and deliver relevant promotions or media. As a result, we may be required to change the way we market our products. Any of these developments could impair our ability to reach new or existing customers or otherwise negatively affect our operations. In addition, the CCPA grants California residents the right to opt-out of a business's sharing of their personal information for targeted advertising purposes.

Our obligations related to data privacy and security are quickly changing in an increasingly stringent fashion, creating some uncertainty as to the effective future legal framework. Additionally, these obligations may be subject to differing applications and interpretations, which may be inconsistent or conflict among jurisdictions. Preparing for and complying with these obligations requires significant resources and may necessitate changes to our information technologies, systems, and practices and to those of any third parties that process personal data on our behalf. In addition, these obligations may require us to change our business model. Our business model materially depends on our ability to process personal data, so we are particularly exposed to the risks associated with the rapidly changing legal landscape. For example, we may be at heightened risk of regulatory scrutiny, and any changes in the regulatory framework could require us to fundamentally change our business model.

Although we endeavor to comply with all applicable data privacy and security laws, regulations, rules, standards, and contractual obligations, we may at times fail (or be perceived to have failed) to do so. Moreover, despite our efforts, our personnel or third parties upon whom we rely may fail to comply with such obligations, which could negatively impact our business operations and compliance posture. For example, any failure by a third-party service provider to comply with applicable laws, regulations, rules, standards and contractual obligations could result in adverse effects, including inability to or interruption in our ability to operate our business and proceedings against us by governmental entities or others. If we fail, or are perceived to have failed, to address or comply with data privacy and security obligations, we could face significant consequences. These consequences may include, but are not limited to, government enforcement actions (e.g., investigations, fines, penalties, audits, inspections, and similar); litigation (including class claims; damages); additional reporting requirements and/or oversight; bans on processing personal data; and orders to destroy or not use personal data.

Any of these events could have a material adverse effect on our reputation, business, or financial condition, including but not limited to: loss of customers; interruptions or stoppages in our business operations; interruptions or stoppages of data collection needed to train our algorithms; inability to process personal data or to operate in certain

jurisdictions; limited ability to develop or commercialize our products; expenditure of time and resources to defend any claim or inquiry; adverse publicity; or revision or restructuring of our operations.

Any significant disruption in, or errors in, service on our platform or relating to vendors, including events beyond our control, could prevent us from processing transactions on our platform or posting payments and have a material and adverse effect on our business, results of operations, financial condition, and future prospects.

We use vendors, such as our cloud computing web services provider, virtual card processing companies, and third-party software providers, in the operation of our platform. The satisfactory performance, reliability, and availability of our technology and our underlying network and infrastructure are critical to our operations and reputation and the ability of our platform to attract new and retain existing merchants and consumers. We rely on these vendors to protect their systems and facilities against damage or service interruptions from natural disasters, power or telecommunications failures, air quality issues, environmental conditions, computer viruses, cyber-attacks or other attempts to harm these systems, data security breaches or other security incidents, criminal acts, and similar events. If our arrangement with a vendor is terminated or if there is a lapse of service or damage to its systems or facilities, we could experience interruptions in our ability to operate our platform. We also may experience increased costs and difficulties in replacing that vendor and replacement services may not be available on commercially reasonable terms, on a timely basis, or at all. Any interruptions or delays in our platform availability, whether as a result of a failure to perform on the part of a vendor, any damage to one of our vendor's systems or facilities, the termination of any of our third-party vendor agreements, software bugs or failures, our or our vendor's error, natural disasters, terrorism, other man-made problems, or data security breaches or other security incidents, whether accidental or willful, or other factors, could harm our relationships with our merchants and consumers and also harm our reputation.

In addition, we source certain information from third parties. For example, our risk scoring model is based on algorithms that evaluate a number of factors and currently depend on sourcing certain information from third parties. In the event that any third-party from which we source information experiences a service disruption, whether as a result of maintenance, software bugs or failures, natural disasters, terrorism, other man-made problems, or data security breaches or other security incidents whether accidental or willful, or other factors, the ability to score and decision lease-to-own applications through our platform may be adversely impacted. Additionally, there may be errors contained in the information provided by third parties. This may result in the inability to approve otherwise qualified applicants through our platform, which may adversely impact our business by negatively impacting our reputation and reducing our transaction volume.

To the extent we use or are dependent on any particular third-party data, technology, or software, we may also be harmed if such data, technology, or software becomes non-compliant with existing laws, regulations, rules or standards, becomes subject to third-party claims of intellectual property infringement, misappropriation, or other violation, or malfunctions or functions in a way we did not anticipate. Any loss of the right to use any of this data, technology, or software could result in delays in the provisioning of our products and services until equivalent or replacement data, technology, or software is either developed by us, or, if available, is identified, obtained, and integrated, and there is no guarantee that we would be successful in developing, identifying, obtaining, or integrating equivalent or similar data, technology, or software, which could result in the loss or limiting of our products, services, or features available in our products or services.

In addition, in the event of damage or interruption, our insurance policies may not adequately compensate us for any losses that we may incur. Our disaster recovery plan has not been tested under actual disaster conditions, and we may not have sufficient capacity to recover all data and services in the event of an outage. These factors could prevent us from processing transactions or posting payments on our platform, damage our brand and reputation, divert the attention of our employees, reduce our revenue, subject us to liability, and cause consumers or merchants to abandon our platform, any of which could have a material and adverse effect on our business, results of operations, financial condition, and future prospects.

Data security breaches or other security incidents with respect to our information technology systems or data, or those of third parties upon which we rely, could result in adverse consequences, including but not limited to

regulatory investigations or actions, litigation, fines and penalties, disruptions of our business operations, reputational harm, loss of revenue or profits, and loss of customers.

Cyber-attacks, malicious internet-based activity, and online and offline fraud are prevalent and continue to increase. These threats are becoming increasingly difficult to detect. These threats come from a variety of sources, including traditional computer “hackers,” threat actors, personnel (such as through theft or misuse), sophisticated nation states, and nation-state-supported actors. Some actors now engage and are expected to continue to engage in cyber-attacks, including without limitation nation-state actors for geopolitical reasons and in conjunction with military conflicts and defense activities. During times of war and other major conflicts, we and the third parties upon which we rely may be vulnerable to a heightened risk of these attacks, including cyber-attacks, that could materially disrupt our systems and operations, supply chain, and ability to produce, sell and distribute our goods and services. The automated nature of our business and our reliance on digital technologies may make us an attractive target for, and potentially vulnerable to cyber-attacks. We and the third parties upon which we rely may be subject to a variety of evolving threats, including but not limited to: computer malware (including as a result of advanced persistent threat intrusions), malicious code (such as viruses and worms), social engineering (including phishing attacks), ransomware attacks, denial-of-service attacks (such as credential stuffing), personnel misconduct or error, supply-chain attacks, software bugs, server malfunctions, software or hardware failures, loss of data or other information technology assets, adware, telecommunication failures, earthquakes, fires, floods, and other similar threats.

Ransomware attacks, including by organized criminal threat actors, nation-states, and nation-state-supported actors, are becoming increasingly prevalent and severe and can lead to significant interruptions in our operations, loss of data and income, reputational harm, and diversion of funds. Extortion payments may alleviate the negative impact of a ransomware attack, but we may be unwilling or unable to make such payments due to, for example, applicable laws or regulations prohibiting such payments. Similarly, supply-chain attacks have increased in frequency and severity, and we cannot guarantee that third parties and infrastructure in our supply chain or our third-party partners’ supply chains have not been compromised or that they do not contain exploitable defects or bugs that could result in a breach of or disruption to our information technology systems (including our products or services) or the third-party information technology systems that support us and our services. We are incorporated into the supply chain of a large number of companies worldwide and, as a result, if our products are compromised, a significant number of companies could be simultaneously affected. The potential liability and associated consequences we could suffer as a result of such a large-scale event could be catastrophic and result in irreparable harm.

The United States government has raised concerns about a potential increase in cyber-attacks generally as a result of the military conflict between Russia and Ukraine and the related sanctions imposed by the United States and other countries. Furthermore, future or past business transactions (such as acquisitions or integrations) could expose us to additional cybersecurity risks and vulnerabilities, as our systems could be negatively affected by vulnerabilities present in acquired or integrated entities’ systems and technologies.

Any of the above identified or similar threats could cause a data security breach or other security incident. A data security breach or other security incident could result in unauthorized, unlawful, or accidental acquisition, modification, destruction, loss, alteration, encryption, disclosure, transfer, use or other processing of, or access to our, our customers’, our vendors’ or our merchants’ confidential, proprietary, personal or other information. A data security breach or other security incident could disrupt our ability (and that of third parties upon whom we rely) to provide our platform, products, or services. We may expend significant resources in connection with investigating, mitigating or remediating, or modifying our business activities to protect against, actual or perceived data security breaches or other security incidents. Certain data privacy and security obligations may require us to implement and maintain specific security measures, as well as maintain industry-standard or reasonable security measures to protect our information technology systems which contain confidential, proprietary, personal and other information.

While we have implemented security measures designed to protect against data security breaches and other security incidents, there can be no assurance that these measures will be effective. We may be unable in the future to detect vulnerabilities in our information technology systems (including our products or services) because such threats and techniques change frequently, are often sophisticated in nature, and may not be detected until after a security incident has occurred. Despite our efforts to identify and remediate vulnerabilities, if any, in our information technology systems (including our products or services), our efforts may not be successful. Further, we may

experience delays in developing and deploying remedial measures designed to address any such identified vulnerabilities.

We may rely upon third-party service providers and technologies to operate critical business systems to process confidential, proprietary, personal and other information in a variety of contexts, including, without limitation, third-party providers of cloud-based infrastructure, virtual card processing, encryption and authentication technology, employee email, and other functions. We may share or receive confidential, proprietary, personal or other information with or from third parties. Our ability to monitor these third parties' information security practices is limited, and these third parties may not have adequate information security measures in place. Due to applicable laws, regulations, rules, standards and contractual obligations, we may be held responsible for data security breaches or other security incidents attributed to our third-party service providers as they relate to the information we share with them.

Any actual or perceived failure to comply with legal and regulatory requirements applicable to us, including those relating to data privacy and security, or any failure to protect the information that we collect from our consumers and merchants, including personal information, from cyber-attacks, data security breaches or other security incidents, or any such actual or perceived failure by our originating bank partners, may result in, among other things, revocation of required licenses or registrations, loss of approved status, private litigation, regulatory or governmental investigations, administrative enforcement actions, sanctions, civil and criminal liability, and constraints on our ability to continue to operate.

Applicable data privacy and security laws, regulations, rules, standards and contractual obligations may require us to notify relevant stakeholders of data security breaches and other security incidents. Such disclosures are costly, and the disclosure or the failure to comply with such requirements could lead to adverse consequences. If we (or a third party upon whom we rely) experience, or are perceived to have experienced, a data security breach or other security incident, or fail to make adequate or timely disclosures to the public, regulators or law enforcement agencies following any such event, we may experience adverse consequences. These consequences may include: interruptions to our operations (including availability of data), violation of applicable data privacy and security laws, regulations, rules, standards and contractual obligations; litigation (including class claims), damages, an obligation to notify regulators and affected individuals, the triggering of indemnification and other contractual obligations, government enforcement actions (for example, investigations, fines, penalties, audits, and inspections); additional reporting requirements and/or oversight; restrictions on processing personal and other sensitive data; negative publicity; reputational damage; loss of consumers and ecosystem partners; monetary fund diversions; financial loss; and other similar harms. Additionally, our originating bank partners also operate in a highly regulated environment, and many laws and regulations that apply directly to our originating bank partners are indirectly applicable to us through our arrangements with our originating bank partners. Our contracts may not contain limitations of liability, and even where they do, there can be no assurance that limitations of liability in our contracts are sufficient to protect us from liabilities, damages, or claims related to our data privacy and security obligations. We cannot be sure that our insurance coverage will be adequate or sufficient to protect us from or to mitigate liabilities arising out of our data privacy and security practices, that such coverage will continue to be available on commercially reasonable terms or at all, or that such coverage will pay future claims.

While we take precautions to prevent consumer identity fraud, it is possible that identity fraud may still occur or has occurred, which may adversely affect the performance of the lease-to-own transactions facilitated through our platform.

There is risk of fraudulent activity associated with our platform, consumers, and third parties handling consumer information. Our resources, technologies, and fraud prevention tools may be insufficient to accurately detect and prevent fraud. We bear the risk of loss for lease-to-own transactions facilitated through our platform. The level of fraud related charge-offs on the lease-to-own transactions facilitated through our platform could be adversely affected if fraudulent activity were to significantly increase.

We bear the risk of consumer fraud in a transaction involving us, a consumer, and a merchant, and we generally have no recourse to the merchant to collect the amount owed by the consumer. Significant amounts of fraudulent cancellations or chargebacks and the potential cost of remediation could adversely affect our business or

financial condition. High profile fraudulent activity or significant increases in fraudulent activity could also lead to regulatory intervention, negative publicity, and the erosion of trust from our consumers and merchants, and could materially and adversely affect our business, results of operations, financial condition, future prospects, and cash flows.

Failure to adequately obtain, maintain, protect, defend and enforce our intellectual property and proprietary rights could harm our business, operating results and financial condition.

Our business depends on intellectual property and proprietary technology and information, the protection of which is crucial to the success of our business. We rely on a combination of patent, copyright, trademark, and trade secret laws in the United States, as well as license agreements, confidentiality procedures, non-disclosure agreements, and other contractual protections, to establish and protect our intellectual property and proprietary rights, including our proprietary technology, software, know-how, and brand.

Although we take steps to protect our intellectual property and proprietary rights, we cannot be certain that the steps we have taken will be sufficient or effective to prevent the unauthorized access, use, copying, reverse engineering, infringement, misappropriation or other violation of our intellectual property and proprietary technology and information, including by third parties who may use our intellectual property or proprietary technology or information to develop services that compete with ours. We may not be able to register or enforce all of our trademarks and any of our trademarks or other intellectual property rights may be challenged by others. In addition, we may be subject to claims by third parties that we have infringed, misappropriated or otherwise violated their intellectual property. These claims, regardless of their merit or our defenses, could be time-consuming and costly to defend, result in injunctions against us or the payment of damages by us, result in the diversion of significant operational resources and changes to our business model or result in ongoing royalty payments or significant settlement payouts. Our involvement in intellectual property disputes and any failure to adequately protect our intellectual property rights may cause our business, operating results and financial condition to suffer.

Further, we license certain technology, software, data and other intellectual property from third parties that are important to our business. Our business may suffer if any current or future licenses or other grants of rights to us terminate, if the licensors (or other applicable counterparties) fail to abide by the terms of the license or other applicable agreement, if the licensors fail to enforce the licensed intellectual property against infringing third parties or if the licensed intellectual property rights are found to be invalid or unenforceable.

Legal and Compliance Risks

Our business is subject to the requirements of various federal, state and local laws and regulations, which can require significant compliance costs and expose us to government investigations, significant additional costs, fines or other monetary penalties or settlements, and compliance-related burdens.

Our business is subject to extensive federal, state and local laws and regulations and an increased risk of regulatory actions as a result of the highly regulated nature of our industry and the focus of state and federal enforcement agencies on the lease-to-own industry in particular. Any adverse change in applicable laws or regulations, the passage of unfavorable new laws or regulations, or the manner in which any applicable laws and regulations are interpreted or enforced could dictate changes to our business practices that may be materially adverse to the Company. Further, our transactions are subject to various federal and state laws and regulations which may result in significant compliance costs as well as expose us to litigation. In particular, our rental-purchase transactions and the consumer-facing operations related thereto, such as collections and marketing, are subject to various other federal, state and/or local consumer protection laws. These laws, as well as the rental-purchase statutes under which we operate, provide various remedies in connection with violations, including restitution and other monetary penalties and sanctions which in certain circumstances can be significant.

We cannot determine with any degree of certainty whether any new laws or regulations will be enacted, or whether government agencies will initiate new or different interpretations of existing laws. The impact of new laws and regulations, or modifications by regulators concerning the interpretation or enforcement of existing laws, on our business is not known; however, any such changes could materially and adversely impact our business.

The laws and regulations applicable to our operations are subject to agency, administrative and/or judicial interpretation. Some of these laws and regulations have been enacted only recently and/or may not yet have been interpreted or may be interpreted infrequently. As a result of non-existent or sparse interpretations, ambiguities in these laws and regulations may create uncertainty with respect to the requirements of any applicable laws and regulations. Any ambiguity under a law or regulation to which we are subject may lead to regulatory investigations, governmental enforcement actions and private causes of action, such as class action lawsuits, with respect to our compliance with such laws or regulations.

Federal and state agencies have increased their focus on consumer financial products and services. State law enforcement agencies and regulators appear to have increased their scrutiny of entities operating within the personal property rental-purchase, or “lease-to-own”, industry. For example, the California Department of Financial Protection and Innovation (“DFPI”) has issued subpoenas and is conducting investigations into practices of entities operating within the personal property rental-purchase industry. Similarly, state attorneys general also appear to have increased their scrutiny of the industry. As of the date of this filing, the Company has not received investigatory demands from California DFPI or state attorneys general. However, there can be no assurance that the Company will not be included in future actions of the same or similar nature and, if it is, that it would not lead to an enforcement action, consent order, or substantial costs, including legal fees, fines, penalties, and remediation expenses.

For information on data privacy and security laws, regulations, rules, standards and contractual obligations we are, or may in the future become, subject to, and the associated risks to our business, see the section titled “Risk Factors—Risks Relating to Our Technology and Our Platform—We are subject to stringent and changing laws, regulations, rules, standards and contractual obligations related to data privacy and security, which could increase the cost of doing business, compliance risks and potential liability and otherwise negatively affect our operating results and business.”

Our independent registered public accounting firm identified material weaknesses in our internal control over financial reporting in connection with the audit of our financial statements as of and for the fiscal years ended December 31, 2022 and 2021 and we may identify additional material weaknesses in the future that may cause us to fail to meet our reporting obligations or result in material misstatements of our financial statements. If we fail to remediate any material weaknesses or if we otherwise fail to establish and maintain effective internal control over financial reporting, our ability to accurately and timely report our financial results could be adversely affected.

In connection with the audit of our financial statements for the fiscal years ended December 31, 2022 and 2021, our independent registered public accounting firm identified certain control deficiencies in the design and implementation of our internal control over financial reporting that in aggregate constituted material weaknesses. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our financial statements will not be prevented or detected on a timely basis. Our evaluation was based on the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) Internal Control — Integrated Framework (2013).

The material weaknesses identified during the December 31, 2021 audit relate to (1) an insufficient number of personnel with an appropriate level of GAAP knowledge and experience to create the proper control environment for effective internal control over financial reporting and to ensure that oversight processes and procedures in applying nuanced guidance to complex accounting transactions for financial reporting are adequate, and (2) a lack of controls in place to review journal entries, reconcile journal entries to underlying support and evaluate if journal entries are in compliance with GAAP before the entries are manually posted. These material weaknesses had not been remediated as of December 31, 2022.

As part of our plan to remediate these material weaknesses, we are performing a full review of our internal control procedures. We have implemented, and plan to continue to implement, new controls and new processes. We cannot assure you that the measures that we have taken, and that will be taken, to remediate these material

weaknesses will, in fact, remedy the material weaknesses or will be sufficient to prevent future material weaknesses from occurring. We also cannot assure you that we have identified all of our existing material weaknesses.

When evaluating our internal control over financial reporting, we may identify material weaknesses that we may not be able to remediate in time to meet the applicable deadline imposed upon us for compliance with the requirements of Section 404 of the Sarbanes-Oxley Act. If we are unable to remediate our existing material weakness or identify additional material weaknesses and are unable to comply with the requirements of Section 404 in a timely manner or assert that our internal control over financial reporting is effective, or if our independent registered public accounting firm is unable to express an opinion as to the effectiveness of our internal control over financial reporting once we are no longer an emerging growth company, investors may lose confidence in the accuracy and completeness of our financial reports and the market price of our common stock could be negatively affected, and we could become subject to investigations by the stock exchange on which our securities are listed, the SEC or other regulatory authorities, which could require additional financial and management resources.

If we discover a material weakness in our internal control over financial reporting that we are unable to remedy or otherwise fail to maintain effective internal control over financial reporting or disclosure controls and procedures, our ability to report our financial results on a timely and accurate basis and the market price of our common stock may be adversely affected.

The Sarbanes-Oxley Act requires, among other things, that we maintain effective internal control over financial reporting and disclosure controls and procedures. In addition to the material weaknesses in internal control over financial reporting identified in connection with the audit of our financial statements for the fiscal year ended December 31, 2022, subsequent testing by us or our independent registered public accounting firm, which has not performed an audit of our internal control over financial reporting, may reveal additional deficiencies in our internal control over financial reporting that are deemed to be material weaknesses. To comply with Section 404, we expect to incur substantial cost, expend significant management time on compliance-related issues and hire additional accounting, financial, and internal audit staff with appropriate public company experience and technical accounting knowledge. Moreover, if we are not able to comply with the requirements of Section 404 in a timely manner or if we or our independent registered public accounting firm identify deficiencies in our internal control over financial reporting that are deemed to be material weaknesses, we could be subject to sanctions or investigations by the SEC or other regulatory authorities, which would require additional financial and management resources. Any failure to maintain effective disclosure controls and procedures or internal control over financial reporting could have an adverse effect on our business and operating results, and cause a decline in the price of our common stock.

Changes to tax laws or exposure to additional tax liabilities may have a negative impact on our operating results.

Continued developments in U.S. tax reform and changes to tax laws and rates in other jurisdictions where we do business could adversely affect our results of operations and cash flows. It is also possible that provisions of U.S. tax reform could be subsequently amended in a way that is adverse to us.

In addition, we may undergo tax audits in various jurisdictions in which we operate. Although we believe that our income tax provisions and accruals are reasonable and in accordance with generally accepted accounting principles in the United States, and that we prepare our tax filings in accordance with all applicable tax laws, the final determination with respect to any tax audits and any related litigation, could be materially different from our historical income tax provisions and accruals. The results of a tax audit or litigation could materially affect our operating results and cash flows in the periods for which that determination is made. In addition, future period net income may be adversely impacted by litigation costs, settlements, penalties and interest assessments.

We are subject to legal proceedings and claims from time to time that may seek material damages or otherwise may have a material adverse effect on our business. The costs we incur in defending ourselves or associated with settling any of these proceedings, as well as a material final judgment or decree against us, could materially adversely affect our financial condition by requiring the payment of the settlement amount, a judgment or the posting of a bond and/or such matters could otherwise materially and adversely impact our business.

We are subject to legal proceedings and claims from time to time that may seek material damages or otherwise may have a material adverse effect on our business. For example, in April 2021, Daiwa Corporate Advisory Services filed a complaint against us for breach of contract with respect to transactions in connection with our Merger. In addition, in August 2021, a putative securities class action complaint was filed against us and certain of our officers. These cases are still pending. See “Part II, Item 8. Note 12 - Commitments and Contingencies” in this Annual Report on Form 10-K for more information. The costs we incur in defending ourselves or associated with settling any of these proceedings, as well as a material final judgment or decree against us, could materially adversely affect our financial condition by requiring the payment of the settlement amount, a judgment or the posting of a bond and/or such matters could otherwise materially and adversely impact our business.

In addition, others in our industry have defended class action lawsuits alleging various regulatory violations and have paid material amounts to settle such claims. If we are named in any such class action lawsuits or other legal proceedings, significant settlement amounts or final judgments could materially and adversely affect our liquidity and capital resources.

To attempt to limit costly and lengthy consumer, employee and other litigation, including class actions, we require our customers and employees to sign arbitration agreements, including class action waivers. In addition to opt-out provisions contained in such agreements, recent judicial and regulatory actions have attempted to restrict or eliminate the enforceability of such agreements and waivers. If we are not permitted to use arbitration agreements and/or class action waivers, or if the enforceability of such agreements and waivers is restricted or eliminated, we could incur increased costs to resolve legal actions brought by customers, employees and others, as we would be forced to participate in more expensive and lengthy dispute resolution processes.

Operational Risks Related to Our Business

Uncertain market and economic conditions have had, and may in the future have, serious adverse consequences on our business, financial condition and share price.

The global economy, including credit and financial markets, has experienced extreme volatility and disruptions, including severely diminished liquidity and credit availability, declines in consumer confidence, declines in economic growth, increases in unemployment rates, increases in inflation rates, higher interest rates and uncertainty about economic stability. For example, the COVID-19 pandemic resulted in widespread unemployment, economic slowdown and extreme volatility in the capital markets. Similarly, the ongoing military conflict between Russia and Ukraine has created extreme volatility in the global capital markets and is expected to have further global economic consequences, including disruptions of the global supply chain and energy markets. Any such volatility and disruptions may have adverse consequences on us or the third parties on whom we rely. If the equity and credit markets deteriorate, including as a result of political unrest or war, it may make any necessary debt or equity financing more difficult to obtain in a timely manner or on favorable terms, more costly or more dilutive. Increased inflation rates can adversely affect us by increasing our costs, including labor and employee benefit costs. In addition, higher inflation could also adversely affect discretionary spending for non-prime consumers, which could reduce demand for our products and services. Any significant increases in inflation and related increase in interest rates could have a material adverse effect on our business, results of operations and financial condition.

Failure to effectively manage our costs could have a material adverse effect on our profitability.

Certain elements of our cost structure are largely fixed in nature. Consumer spending remains uncertain, which makes it more challenging for us to maintain or increase our operating margins. The competitive environment in our industry and increasing price transparency means that the focus on achieving efficient operations is greater than ever. As a result, we must continuously focus on managing our cost structure. Failure to manage our overall cost of operations, labor and benefit rates, advertising and marketing expenses, operating leases, data costs, payment processing costs, cost of capital, or indirect spending could materially adversely affect our profitability.

Negative publicity about us or our industry could adversely affect our business, results of operations, financial condition, and future prospects.

Negative publicity about us or our industry, including the transparency, fairness, user experience, quality, and reliability of our platform or lease-to-own platforms in general, effectiveness of our risk model, our ability to effectively manage and resolve complaints, our data privacy and security practices, litigation, regulatory activity, misconduct by our employees, funding sources, service providers, or others in our industry, the experience of consumers and investors with our platform or services or lease-to-own platforms in general, even if inaccurate, could adversely affect our reputation and the confidence in, and the use of, our platform, which could harm our reputation and cause disruptions to our platform. For instance, in October 2020, a data breach broker purported to offer customer records from a number of companies, including us, for sale on a hacker forum. Although we determined with third party firms and our internal team that the compromised data did not include confidential proprietary or personal data, we cannot guarantee that this publicity or any similar publicity in the future will not have a negative effect on our business or reputation. Any such reputational harm could further affect the behavior of consumers, including their willingness to utilize lease-to-own programs through our platform or to make payments on their leases. As a result, our business, results of operations, financial condition, and future prospects would be materially and adversely affected.

Misconduct and errors by our employees, vendors, and service providers could harm our business and reputation.

We are exposed to many types of operational risk, including the risk of misconduct and errors by our employees, vendors, and other service providers. Our business depends on our employees, vendors, and service providers to process a large number of increasingly complex transactions, including transactions that involve significant dollar amounts and lease-to-own transactions that involve the use and disclosure of personally identifiable information and business information. We could be adversely affected if transactions were redirected, misappropriated, or otherwise improperly executed, personal and business information was disclosed to unintended recipients, or an operational breakdown or failure in the processing of other transactions occurred, whether as a result of human error, a purposeful sabotage or a fraudulent manipulation of our operations or systems. In addition, the manner in which we store and use certain personal data and interact with consumers and merchants through our platform is governed by various federal and state laws. If any of our employees, vendors, or service providers take, convert, or misuse funds, documents, or data, or fail to follow protocol when interacting with consumers and merchants, we could be liable for damages and subject to regulatory actions and penalties. We could also be perceived to have facilitated or participated in the illegal misappropriation of funds, documents, or data, or the failure to follow protocol, and therefore be subject to civil or criminal liability. For example, our operations are subject to certain laws generally prohibiting companies and their intermediaries from making improper payments to government officials for the purpose of obtaining or retaining business, such as the U.S. Foreign Corrupt Practices Act, and similar anti-bribery laws in other jurisdictions. Violations by our employees, contractors or agents of policies and procedures we have implemented to ensure compliance with these laws could subject us to civil or criminal investigations in the U.S. and in other jurisdictions, could lead to substantial civil and criminal, monetary and non-monetary penalties, and related shareholder lawsuits, could cause us to incur significant legal fees, and could damage our reputation. It is not always possible to identify and deter misconduct or errors by employees, vendors, or service providers, and the precautions we take to detect and prevent this activity may not be effective in controlling unknown or unmanaged risks or losses. Any of these occurrences could result in our diminished ability to operate our business, potential liability to consumers and merchants, inability to attract future consumers and merchants, reputational damage, regulatory intervention, and financial harm, which could negatively impact our business, results of operations, financial condition, and future prospects.

The loss of the services of any of our executive officers could materially and adversely affect our business, results of operations, financial condition, and future prospects.

The experience of our executive officers are valuable assets to us. Our executive officers have significant experience in the financial technology industry and would be difficult to replace. Competition for senior executives in our industry is intense, and we may not be able to attract and retain qualified personnel to replace or succeed any of our executive officers. Failure to retain any of our executive officers could have a material adverse effect on our business, results of operations, financial condition, and future prospects.

Our business depends on our ability to attract and retain highly skilled employees.

Our future success depends on our ability to identify, hire, develop, motivate, and retain highly qualified personnel for all areas of our organization, in particular, a highly experienced sales force, data scientists, and engineers. Competition for these types of highly skilled employees, is extremely intense. Trained and experienced personnel are in high demand and may be in short supply. Many of the companies with which we compete for experienced employees have greater resources than we do and may be able to offer more attractive terms of employment. In addition, we invest significant time and expense in training our employees, which increases their value to competitors that may seek to recruit them. We may not be able to attract, develop, and maintain the skilled workforce necessary to operate our business, and labor expenses may increase as a result of a shortage in the supply of qualified personnel. If we are unable to maintain and build our highly experienced sales force, or are unable to continue to attract experienced engineering and technology personnel, as well as other qualified employees, our business, results of operations, financial condition, and future prospects could be materially and adversely affected.

Additional Risks Relating to Ownership of Company Securities

Nasdaq may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

Currently, our common stock and public warrants are publicly traded on the Nasdaq Capital Market ("Nasdaq"). In order to continue listing our securities on the Nasdaq, we will be required to maintain certain financial, distribution and stock price levels.

If Nasdaq delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our common stock is a "penny stock" which will require brokers trading in our common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Since our common stock and public warrants are listed on the Nasdaq, they are covered securities. Although the states are preempted from regulating the sale of its securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. If we are no longer listed on the Nasdaq, our securities would not be covered securities and it would be subject to regulation in each state in which it offers its securities, including in connection with the initial business combination.

The price of our securities may change significantly in the future and stockholders could lose all or part of their investment as a result.

The trading price of our common stock and public warrants is likely to be volatile and the trading price of our securities have experienced extreme volatility and a significant decline. The securities markets have experienced significant volatility as macroeconomic conditions, such as high inflation and the ongoing conflict between Russia and Ukraine. Market volatility, as well as general economic, market, or political conditions, could reduce the market price of shares of our common stock regardless of our operating performance. Our operating results have been below and could continue to be below the expectations of public market analysts and investors due to a number of potential factors, including:

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- factors affecting consumer spending that are not under our control;
- changes in expectations as to our future financial performance, including financial estimates and investment recommendations by securities analysts and investors;
- declines in the market prices of stocks generally;
- strategic actions by us or our competitors;
- announcements by us or our competitors of significant contracts, acquisitions, joint ventures, other strategic relationships or capital commitments;
- any significant change in our management;
- changes in general economic or market conditions or trends in our industry or markets;
- changes in business or regulatory conditions, including new laws or regulations or new interpretations of existing laws or regulations applicable to our business;
- future sales of our common stock or other securities;
- investor perceptions or the investment opportunity associated with our common stock relative to other investment alternatives;
- the public's response to press releases or other public announcements by us or third parties, including our filings with the SEC;
- litigation involving us, our industry, or both, or investigations by regulators into our operations or those of our competitors;
- guidance, if any, that we provide to the public, any changes in this guidance or our failure to meet this guidance;
- the development and sustainability of an active trading market for our stock;
- actions by institutional or activist stockholders;
- changes in accounting standards, policies, guidelines, interpretations or principles; and
- other events or factors, including those resulting from natural disasters, war (including the conflict involving Russia and Ukraine), pandemics (including COVID-19), acts of terrorism or responses to these events.

These broad market and industry fluctuations may adversely affect the market price of our common stock, regardless of our actual operating performance. In addition, price volatility may be greater if the public float and trading volume of our common stock or public warrants is low.

The majority of our management has limited experience in operating a public company.

Our executive officers have limited experience in the management of a publicly traded company. Their limited experience in dealing with the increasingly complex laws pertaining to public companies could be a disadvantage in that it is possible that an increasing amount of our management's time may be devoted to these activities which will result in less time being devoted to our management and growth. We may not have adequate personnel with the appropriate level of knowledge, experience and training in the accounting policies, practices or internal control over financial reporting required of public companies in the U.S. The development and implementation of the standards and controls necessary for us to achieve the level of accounting standards required of a public company in the U.S. may require costs greater than expected. It is possible that we will be required to expand our employee base and hire additional employees to support our operations as a public company which may increase our operating costs in future periods.

We will continue to incur significant costs as a result of operating as a public company, and our management will continue to devote substantial time for new compliance initiatives.

As a public company, we will continue to incur significant legal, accounting and other expenses that we did not incur as a private company, and these expenses may increase after we are no longer an emerging growth company, as defined in Section 2(a) of the Securities Act of 1933, as amended. The Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act, the listing requirements of Nasdaq and other applicable

securities rules and regulations impose various requirements on public companies. Our management and other personnel will need to continue to devote a substantial amount of time to these compliance initiatives. The increased costs will impact our financial position. These rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance and we may be forced to accept reduced policy limits, higher retention levels, or incur substantially higher costs to maintain the same or similar coverage. We cannot predict or estimate the amount or timing of additional costs we may incur to respond to these requirements.

Because there are no current plans to pay cash dividends on our common stock for the foreseeable future, you may not receive any return on investment unless you sell your common stock for a price greater than that which you paid for it.

We intend to retain future earnings, if any, for future operations, expansion and debt repayment and there are no current plans to pay any cash dividends for the foreseeable future. The declaration, amount and payment of any future dividends on shares of our common stock will be at the sole discretion of our board of directors. Our board of directors may take into account general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual, legal, tax, and regulatory restrictions, implications on the payment of dividends by us to our stockholders or by its subsidiaries to it and such other factors as our board of directors may deem relevant. In addition, our ability to pay dividends is limited by covenants of our existing and outstanding indebtedness and may be limited by covenants of any future indebtedness that we incur. As a result, you may not receive any return on an investment in our common stock unless you sell our common stock for a price greater than that which you paid for it.

If securities analysts do not publish research or reports about our business or if they downgrade our stock or our sector, our stock price and trading volume could decline.

The trading market for our common stock will rely in part on the research and reports that industry or financial analysts publish about us or our business. We will not control these analysts. In addition, some financial analysts may have limited expertise with our model and operations. Furthermore, if one or more of the analysts who cover us downgrade our stock or industry, or the stock of any of our competitors, or publish inaccurate or unfavorable research about our business, the price of our stock could decline. If one or more of these analysts ceases coverage of us or fails to publish reports on it regularly, we could lose visibility in the market, which in turn could cause its stock price or trading volume to decline.

Future sales, or potential future sales, by us or our stockholders in the public market could cause the market price for our common stock to decline.

The sale of shares of our common stock in the public market, or the perception that such sales could occur, could harm the prevailing market price of shares of our common stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that it deems appropriate.

The lock-up agreement contained in the Amended and Restated Registration Rights Agreement (the “A&R RRA”) with us expired and the shares of common stock held by the stockholders party to the A&R RRA are eligible for resale which could result in the market price of shares of our common stock dropping significantly if the holders of these shares sell them or are perceived by the market as intending to sell them. These factors could also make it more difficult for us to raise additional funds through future offerings of our common stock or other securities.

In addition, common stock reserved for future issuance under our equity incentive plans will become eligible for sale in the public market once those shares are issued, subject to provisions relating to various vesting agreements, lock-up agreements and, in some cases, limitations on volume and manner of sale applicable to affiliates under Rule 144, as applicable. The aggregate number of shares of our common stock initially reserved for future issuance under our 2021 equity incentive plan was 8,932,162, and as of December 31, 2022, there were 1,728,256 shares of common stock available for future issuance under the 2021 equity incentive plan.

In the future, we may also issue securities in connection with investments or acquisitions. The amount of shares of common stock issued in connection with an investment or acquisition could constitute a material portion of our then-outstanding shares of common stock. Any issuance of additional securities in connection with investments or acquisitions may result in additional dilution to our stockholders.

Warrants are exercisable for our common stock, which would increase the number of shares eligible for future resale in the public market and result in dilution to our existing stockholders.

Outstanding warrants to purchase an aggregate of 12,832,500 shares of our common stock became exercisable 30 days after the completion of the Merger. Each warrant entitles the holder thereof to purchase one (1) share of our common stock at a price of \$11.50 per whole share, subject to adjustment. Warrants may be exercised only for a whole number of shares of common stock. In addition, in connection with the amendment to the credit agreement governing the Credit Facility in March 2023, we issued a warrant to purchase up to 2,000,000 shares of our common stock at an exercise price of \$0.01 per share, which vests upon the earliest to occur of September 6, 2023 and a Change of Control. In addition, under the terms of the credit agreement, we may be required to grant an additional 2,000,000 shares of common stock at the same exercise price under the warrant upon the earlier to occur of (i) December 5, 2023, so long as any amount of the principal balance of the term loan portion of the Credit Facility remains outstanding, (ii) an Acquisition (as defined in the Warrant) of the Company or (iii) an Event of Default occurs under the Credit Facility prior to December 5, 2023. Such shares will become vested upon the first to occur of (i) three months after the grant date or (ii) an Acquisition of the Company. To the extent such warrants are exercised, additional shares of our common stock will be issued, which will result in dilution to the then existing holders of our common stock and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could adversely affect the market price of our common stock.

The JOBS Act permits “emerging growth companies” like us to take advantage of certain exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies.

We qualify as an “emerging growth company” as defined in Section 2(a)(19) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, which we refer to as the “JOBS Act.” As such, we will take advantage of certain exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies for as long as it continues to be an emerging growth company, including (i) the exemption from the auditor attestation requirements with respect to internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act, (ii) the exemptions from say-on-pay, say-on-frequency and say-on-golden parachute voting requirements and (iii) reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements. As a result, our stockholders may not have access to certain information they deem important. We will remain an emerging growth company until the earliest of (i) December 31, 2024, (b) in which we have total annual gross revenue of at least \$1.07 billion or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that are held by non-affiliates exceeds \$700 million as of the last business day of our prior second fiscal quarter, and (ii) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the exemption from complying with new or revised accounting standards provided in Section 7(a)(2)(B) of the Securities Act as long as we are an emerging growth company. An emerging growth company can therefore delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies, but any such election to opt out is irrevocable. We have elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

We cannot predict if investors will find our common stock less attractive because we will rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for common stock and our stock price may be more volatile.

Anti-takeover provisions in our organizational documents could delay or prevent a change of control.

Certain provisions of our Amended and Restated Charter and Amended and Restated Bylaws have an anti-takeover effect and may delay, defer or prevent a merger, acquisition, tender offer, takeover attempt or other change of control transaction that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by our stockholders.

These provisions provide for, among other things:

- the ability of our board of directors to issue one or more series of preferred stock;
- advance notice for nominations of directors by stockholders and for stockholders to include matters to be considered at our annual meetings;
- certain limitations on convening special stockholder meetings;
- limiting the ability of stockholders to act by written consent; and
- our board of directors have the express authority to make, alter or repeal our Amended and Restated Bylaws.

These anti-takeover provisions could make it more difficult for a third party to acquire us, even if the third party's offer may be considered beneficial by many of our stockholders. As a result, our stockholders may be limited in their ability to obtain a premium for their shares. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing and to cause us to take other corporate actions you desire.

Our Amended and Restated Charter designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, employees or stockholders.

Our Amended and Restated Charter provides that, subject to limited exceptions, any (1) derivative action or proceeding brought on behalf of us, (2) action asserting a claim of breach of a fiduciary duty owed by any director, officer, stockholder or employee to us or our stockholders, (3) action asserting a claim arising pursuant to any provision of the DGCL or our Amended and Restated Charter or our Amended and Restated Bylaws, or (4) action asserting a claim governed by the internal affairs doctrine shall, to the fullest extent permitted by law, be exclusively brought in the Court of Chancery of the State of Delaware or, if such court does not have subject matter jurisdiction thereof, another state or federal court located within the State of Delaware. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and to have consented to the provisions of our Amended and Restated Charter described above. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or its directors, officers or other employees, which may discourage such lawsuits against us and our directors, officers and employees. Alternatively, if a court were to find these provisions of our Amended and Restated Charter inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business and financial condition.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Our principal executive office is located in Plano, Texas, which consists of approximately 12,000 square feet under a lease that expires in August 2023, subject to our option to extend the term for two terms of five years each. Our New York, New York office consists of approximately 4,000 square feet of leased office space under a lease that expires in June 2025. We believe that our existing facilities are adequate to meet our needs and future growth can be accommodated by leasing alternative or additional space.

Item 3. Legal Proceedings

From time to time we may become involved in various legal proceedings. Refer to Note 12, Commitments and Contingencies, included in Part II, Item 8 of this Annual Report on Form 10-K for a description of current legal proceedings.

Item 4. Mine Safety Disclosures

Not applicable.

Part II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Prior to the closing of the Merger, FinServ's units, shares of Class A common stock and warrants were publicly traded on The Nasdaq Capital Market (the "Nasdaq"). On June 10, 2021, our common stock and warrants began trading on the Nasdaq under the symbols KPLT and KPLTW, respectively. We no longer have any outstanding units.

Holders of Record

As of March 6, 2023, there were 119 holders of record of our common stock and the closing price of our common stock was \$1.02 as reported on the Nasdaq and there were 15 holders of record of our warrants and the closing price of our Public Warrants was \$0.12 as reported on the Nasdaq. The actual number of stockholders and warrant holders is greater than this number of record holders, and includes stockholders and warrant holders who are beneficial owners, but whose shares are held in street name by brokers and other nominees. This number of holders of record also does not include stockholders and warrant holders whose shares or warrants may be held in trust by other entities.

Dividend Policy

We have not paid any cash dividends on our common stock to date. We may retain future earnings, if any, for future operations, expansion and debt repayment and have no current plans to pay cash dividends for the foreseeable future. Any decision to declare and pay dividends in the future will be made at the discretion of our board of directors and will depend on, among other things, our results of operations, financial condition, cash requirements, contractual restrictions and other factors that our board of directors may deem relevant. In addition, our ability to pay dividends may be limited by covenants of any existing and future outstanding indebtedness we or our subsidiaries incur. We do not anticipate declaring any cash dividends to holders of our common stock in the foreseeable future.

Recent Sales of Unregistered Equity Securities

None.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those discussed in the forward-looking statements as a result of various factors, including those set forth in Part I, Item 1A, "Risk Factors," and "Special Note Regarding Forward-Looking Statements" included elsewhere in this Annual Report on Form 10-K. Due to our adoption of Accounting Standards Codification 842 Leases ("ASC 842"), effective January 1, 2022, using the transition method, we have not restated the financial statements as of and for the year ended December 31, 2021, and therefore these financial statements are not comparable to the financial statements for the year ended December 31, 2021. See "ASC 842 Adoption and Comparability" below for more information. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited financial statements and related notes included elsewhere in this Annual Report on Form 10-K. All dollar amounts are in thousands, unless otherwise specified.

Overview

We are a technology driven lease-to-own platform that integrates with omni-channel retailers and e-commerce platforms to power the purchasing of everyday durable goods for underserved U.S. non-prime consumers. Through our POS integrations and innovative mobile app featuring Katapult Pay, consumers who may be unable to access traditional financing can shop a growing network of our merchants.

Key factors and trends impacting our business are as follows:

- **Macroeconomic factors** — Since the fourth quarter of 2021 and continuing throughout the year ended December 31, 2022, our business has been impacted by a number of macroeconomic factors, including record levels of inflation combined with continued supply chain issues (including availability of raw materials from Russia and Ukraine). These factors have led to declining consumer confidence and spending, which has led to our key merchants experiencing lower sales volume than in 2021 and negatively impacted our gross origination volume and revenue during the period. We also expect these factors will impact customer's ability to make lease payments. In response to these trends and a deterioration in overall payment ability of our customers, we began tightening our underwriting in fourth quarter 2021 and throughout 2022, which has led to fewer approvals and negatively impacted our gross origination volume and revenue. We anticipate that the challenging macroeconomic environment will extend into 2023. Management continues to monitor both potential positive and negative business trends relating to the broader macroeconomic environment, including the significant increase in inflation as well as a potential prolonged recession.
- **COVID-19** — The COVID-19 pandemic has impacted, and may continue to impact, our business, results of operations and financial condition. We initially experienced positive performance during the onset of the pandemic due to increased customer spending, in particular e-commerce spending. These trends continued during the first half of 2021 when consumers were bolstered by two stimulus payments, one in January and the other in March, which drove consumer spending and consequently our gross originations volume. These stimulus payments also changed historic 90-day buyout and delinquency patterns throughout the year ended December 31, 2021. More recently, we have seen these pandemic-related trends subside, with buyout and delinquency patterns normalizing to pre-pandemic levels during the year ended December 31, 2022. In addition, impairment charges returned to pre-pandemic levels during the period.

Segment Information

We conduct our business within one business segment, which is defined as providing lease payment options to consumers for the purchase of durable goods from e-commerce partners. Our operations are aggregated into a single reportable operating segment based upon similar economic and operating characteristics as well as similar markets.

ASC 842 Adoption and Comparability

We were required to adopt ASC 842 effective January 1, 2022. Our lease-to-own agreements, which comprise the majority of our revenue, fall within the scope of ASC 842 under lessor accounting and as a result of the adoption, we are recognizing revenue from customers when revenue is earned and cash is collected instead of on an accrual basis, which we had done historically, including for the year ended December 31, 2021. We adopted ASC 842 using the transition approach, which permits us to not apply ASC 842 for comparative periods in the year of adoption. As a result, we have not restated the financial statements for the year ended December 31, 2021, to conform to ASC 842 and therefore the financial statements as of and for the year ended December 31, 2021 are not comparable to the financial statements as of and for the year ended December 31, 2022. In particular, the financial statements for the year ended December 31, 2022 do not include (i) rental revenue arising from lease payments earned but not yet collected and any corresponding net bad debt expense in the consolidated statement of operations and comprehensive (loss) income and (ii) accounts receivable arising from lease receivables and any corresponding allowance for doubtful accounts on our consolidated balance sheet. These items are recorded and shown in our consolidated financial statements for the year ended December 31, 2021. If ASC 842 was effective for the year ended December 31, 2021, total revenue would have been \$277,560 and income before income taxes would have been \$24,491.

Key Performance Metrics

We regularly review several metrics, including the following GAAP and non-GAAP key metrics, to evaluate our business, measure our performance, identify trends affecting our business, formulate financial projections and make strategic decisions, which may also be useful to an investor.

Gross Originations

We measure gross originations to assess the growth trajectory and overall size of our lease portfolio. There is a direct correlation between gross origination growth and revenue growth. We define gross originations as the retail price of the merchandise associated with lease-purchase agreements entered into during the period through our platform. Gross originations do not represent revenue earned. However, we believe this is a useful operating metric for investors to use in assessing the volume of transactions that take place on our platform.

The following table presents gross originations for the years ended December 31, 2022 and 2021, respectively:

<i>(in thousands)</i>	Years Ended December 31,		Change	
	2022	2021	\$	%
Gross Originations	\$ 196,890	\$ 247,964	\$(51,074)	(20.6)%

Wayfair represented 57% and 63% of gross originations during the years ended December 31, 2022 and 2021, respectively.

Gross originations have decreased as a result of the macroeconomic factors noted above, coupled with the tightening of our underwriting throughout 2022. These factors led to fewer approvals and negatively impacted gross origination volume and revenue during the year ended December 31, 2022.

Total Revenue and Bad Debt Recoveries

As of December 31, 2022 and 2021, total revenue represents the sum of rental revenue and other revenue. We adopted ASC 842 as of January 1, 2022 and as a result we record revenue when earned and cash is collected. In addition, we no longer record accounts receivable arising from lease receivables due from customers or any corresponding allowance for doubtful accounts. For the periods prior to adoption of ASC 842, including the year ended December 31, 2021, we recognized revenue from customers on an accrual basis of accounting. For the year ended December 31, 2021, bad debt recoveries represent customer payments for receivables that had previously

been written off. Bad debt recoveries were recorded as a reduction to bad debt expense in the period in which they were collected.

The following table presents total revenue and bad debt recoveries for the years ended December 31, 2022 and 2021, respectively:

<i>(in thousands)</i>	Years Ended December 31,	
	2022	2021
Total revenue	\$ 212,105	\$ 303,113
Bad debt recoveries ⁽¹⁾	\$ —	\$ 6,069

⁽¹⁾ Bad debt recoveries represent 21% of total bad debt expense for the year ended December 31, 2021.

If ASC 842 was effective for the year ended December 31, 2021, total revenue would have been \$277,560.

Gross Profit

Gross profit represents total revenue less cost of revenue, and is a measure presented in accordance with U.S. GAAP. We also use adjusted gross profit as a key performance indicator to provide an understanding of one aspect of our performance specifically attributable to total revenue and the variable costs associated with total revenue.

Adjusted Gross Profit

Adjusted gross profit represents gross profit less variable operating expenses, which are servicing costs, underwriting fees, and bad debt expense. We believe that adjusted gross profit provides a meaningful understanding of one aspect of our performance specifically attributable to total revenue and the variable costs associated with total revenue. See “—Non-GAAP Financial Measures” section below for a reconciliation of adjusted gross profit, which is a non-GAAP measure utilized by management, to gross profit.

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure that is defined as net (loss) income before interest expense and other fees, interest income, change in fair value of warrant liability, (benefit) provision for income taxes, depreciation and amortization on property and equipment and capitalized software, impairment of leased assets, stock-based compensation expense, and transaction costs associated with the Merger. We believe that adjusted EBITDA provides a meaningful understanding of our operating performance. See “—Non-GAAP Financial Measures” section below for a reconciliation of adjusted EBITDA, which is a non-GAAP measure utilized by management, to net (loss) income.

Components of Results of Operations

Revenue

Revenue consists of rental revenue and other revenue. Rental revenue consists of revenue earned from property held for lease and agreed-upon charges related to lease-purchase agreements. Other revenue consists primarily of asset sales revenue related to the sale of property held for lease which are considered recurring and ordinary in nature to our business. Also included in other revenue is revenue from merchant partnerships, and infrequent sales of property formerly on lease when customers terminate a lease and elect to return the property to us rather than our retail partners.

Cost of Revenue

Cost of revenue consists primarily of depreciation expense related to property held for lease, impairment of property held for lease, net book value of property buyouts, payment processing fees, and other costs associated with offering lease-purchase transactions to customers.

Operating Expenses

Operating expenses consist of servicing costs, underwriting fees, professional and consulting fees, technology and data analytics expense, bad debt expense, compensation costs and general and administrative expense. Servicing costs primarily consist of permanent and temporary call center support. Underwriting fees primarily consist of data costs related to inputs from customer underwriting models. Professional and consulting fees primarily consist of corporate legal and accounting costs. Technology and data analytics expense primarily consist of salaries and benefits for computer programming and data analytics employees that support our underlying technology and proprietary risk model algorithms. Bad debt expense primarily consists of provisions for uncollectible accounts receivable, net of recoveries. Compensation costs consist primarily of payroll and related costs and stock-based compensation. General and administrative expense consists primarily of occupancy costs, travel and entertainment, and other general overhead costs, including depreciation and amortization related to office equipment and software.

Results of Operations

In this section, we discuss the results of our operations for the year ended December 31, 2022 compared to the year ended December 31, 2021. For a discussion of the year ended December 31, 2021 compared to the year ended December 31, 2020, please refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2021.

The following tables are references for the discussion that follows.

(in thousands)

	Years Ended December 31,		Change	
	2022	2021	\$	%
Revenue				
Rental revenue	\$ 207,979	\$ 302,794	\$ (94,815)	(31.3)%
Other revenue	4,126	319	3,807	1,193.4 %
Total revenue	212,105	303,113	(91,008)	(30.0)%
Cost of revenue	171,119	214,124	(43,005)	(20.1)%
Gross profit	40,986	88,989	(48,003)	(53.9)%
Operating expenses:				
Servicing costs	4,337	4,737	(400)	(8.4)%
Underwriting fees	1,828	1,876	(48)	(2.6)%
Professional and consulting fees	11,281	5,987	5,294	88.4 %
Technology and data analytics	9,389	8,196	1,193	14.6 %
Bad debt expense	—	28,299	(28,299)	(100.0)%
Compensation costs	25,090	26,943	(1,853)	(6.9)%
General and administrative	14,167	11,294	2,873	25.4 %
Total operating expenses	66,092	87,332	(21,240)	(24.3)%
(Loss) income from operations	(25,106)	1,657	(26,763)	(1,615.1)%
Interest expense and other fees	(19,998)	(16,485)	(3,513)	21.3 %
Interest income	744	—	744	— %
Change in fair value of warrant liability	6,439	36,573	(30,134)	(82.4)%
(Loss) income before benefit (provision) for income taxes	(37,921)	21,745	(59,666)	(274.4)%
Benefit (provision) for income taxes	50	(539)	589	(109.3)%
Net (loss) income	\$ (37,871)	\$ 21,206	\$ (59,077)	(278.6)%

Total revenue

Total revenue decreased by \$91,008, or 30.0%, for the year ended December 31, 2022. If ASC 842 were in effect for the year ended December 31, 2021, total revenue would have decreased by \$65,455 or 23.6%. The decrease in total revenue was also attributable to a 20.6% decrease in gross originations when compared to the prior period. The decrease in originations was primarily due to the impact of the challenging macroeconomic environment combined with targeted tightened underwriting. Another significant contributory factor to the decrease was the government stimulus payments and unemployment benefits that occurred during the first half of 2021, which increased spending and gross origination volume.

Cost of revenue

Cost of revenue decreased \$43,005, or 20.1%, for the year ended December 31, 2022. This decrease was primarily driven by the decrease in rental revenue and originations, coupled with various merchant promotions over this period.

Gross profit

Gross profit decreased by \$48,003, or 53.9%, for the year ended December 31, 2022. The decrease in gross profit was primarily due to the decline in origination volume, lower lease margins and the impact of the adoption of ASC 842. Gross profit as a percentage of total revenue decreased to 19.3% for the year ended December 31, 2022, compared to 29.4% for the same period in 2021. This decrease was driven by the normalization of customer

payment performance as compared to the 2021 period. Impairment expense expressed as a percentage of gross originations was 8.7% for the year ended December 31, 2022, compared to 5.9% for the same period in 2021.

Servicing costs

Servicing costs decreased by \$400 or 8.4%, for the year ended December 31, 2022. The decrease in servicing costs was primarily due to a decrease in overall call center headcount attributed to the decrease in the size of our lease portfolio.

Underwriting fees

Underwriting fees remained flat at \$1,828 for the year ended December 31, 2022, compared to \$1,876 for the same period in 2021.

Professional and consulting fees

Professional and consulting fees increased by \$5,294, or 88.4%, for the year ended December 31, 2022. This increase was primarily driven by an increase in consulting and legal fees coupled with accounting fees associated with being a public company and recruiting costs associated with certain key new hires. The increase was partially offset by a decrease in transaction costs related to the Merger which were not incurred in 2022.

Technology and data analytics

Technology and data analytics expense increased by \$1,193, or 14.6%, for the year ended December 31, 2022. This increase was primarily due to software development and related activities related to the development of our mobile app and Katapult Pay .

Bad debt expense

As a result of adopting ASC 842, we no longer record bad debt expense and therefore for the year ended December 31, 2022, no bad debt expense was recorded as compared to \$28,299 for the same period in 2021. As discussed above in “ASC 842 Adoption and Comparability”, we adopted the transition method for ASC 842 and are not required to restate our 2021 or prior periods to reflect the changes related to ASC 842. Effective January 1, 2022, we recognize revenue from customers when the revenue is earned and cash is collected. In addition, we no longer record accounts receivable arising from lease receivables due from customers and any corresponding allowance for doubtful accounts on our consolidated balance sheet. In the periods prior to 2022, we recognized revenue from customers on an accrual basis of accounting.

Compensation costs

Compensation costs decreased by \$1,853 or 6.9% for the year ended December 31, 2022. This decrease is primarily related to a decrease in stock-based compensation of \$6,581 related to the prior year vesting of executive restricted stock awards of \$9,348 as a result of the Merger combined with payment of transaction related employee bonuses in preparation of the Merger. These decreases were partially offset by an increase in payroll and related benefits in connection with our 2022 investment strategy and accrued severance costs.

General and administrative

General and administrative expense increased by \$2,873, or 25.4%, for the year ended December 31, 2022. This increase is related to an increase in insurance related costs as a public company and increased software related expense. These increases were partially offset by a decrease in marketing and advertising related expenses.

Interest expense, other fees and interest income

Interest expense and other fees increased by \$3,513, or 21.3%, for the year ended December 31, 2022. This was primarily due to an increase in LIBOR. Interest income was \$744 for the year ended December 31, 2022. Interest income represents interest earned from cash deposits which started in the third quarter of 2022.

Change in fair value of warrant liability

The change in fair value of warrant liability was \$6,439 for the year ended December 31, 2022, due to the decline in the fair value of our public warrants and private warrants.

Benefit (provision) for income taxes

Benefit (provision) for income taxes was \$50 and \$(539) for the years ended December 31, 2022 and 2021, respectively. The benefit for income taxes during the year ended December 31, 2022 relates primarily to reductions in certain state income tax obligations. The provision for income taxes during the year ended December 31, 2021 is related to certain states where accelerated federal tax depreciation is disallowed.

Non-GAAP Financial Measures

In addition to gross profit and net (loss) income, which are measures presented in accordance with U.S. GAAP, we believe that adjusted gross profit, adjusted EBITDA, and adjusted net (loss) income provide relevant and useful information which is widely used by analysts, investors, and competitors in our industry in assessing performance. Adjusted gross profit, adjusted EBITDA and adjusted net (loss) income are supplemental measures of our performance that are neither required by nor presented in accordance with U.S. GAAP. Adjusted gross profit, adjusted EBITDA and adjusted net (loss) income should not be considered as substitutes for U.S. GAAP metrics such as gross profit, operating (loss) income, net (loss) income, or any other performance measures derived in accordance with U.S. GAAP and may not be comparable to similar measures used by other companies.

Adjusted gross profit represents gross profit less variable operating expenses, which are servicing costs, underwriting fees, and bad debt expense. We believe that adjusted gross profit provides a meaningful understanding of one aspect of our performance specifically attributable to total revenue and the variable costs associated with total revenue.

Adjusted EBITDA is a non-GAAP financial measure that is defined as net (loss) income before interest expense and other fees, interest income, change in fair value of warrant liability, (benefit) provision for income taxes, depreciation and amortization on property and equipment and capitalized software, impairment of leased assets, stock-based compensation expense, and transaction costs associated with the Merger.

Adjusted net (loss) income is a non-GAAP financial measure that is defined as net (loss) income before change in fair value of warrant liability, stock-based compensation expense and transaction costs associated with the Merger.

Adjusted gross profit, adjusted EBITDA and adjusted net (loss) income are useful to an investor in evaluating our performance because these measures:

- Are widely used to measure a company's operating performance;
- Are financial measurements that are used by rating agencies, lenders and other parties to evaluate our credit worthiness; and
- Are used by our management for various purposes, including as measures of performance and as a basis for strategic planning and forecasting.

The reconciliation of gross profit to adjusted gross profit for the years ended December 31, 2022 and 2021 are as follows:

<i>(in thousands)</i>	Years Ended December 31,		Change	
	2022	2021	\$	%
Total revenue	\$ 212,105	\$ 303,113	\$ (91,008)	(30.0)%
Cost of revenue	171,119	214,124	(43,005)	(20.1)%
Gross profit	40,986	88,989	(48,003)	(53.9)%
Less:				
Servicing costs	4,337	4,737	(400)	(8.4)%
Underwriting fees	1,828	1,876	(48)	(2.6)%
Bad debt expense	—	28,299	(28,299)	(100.0)%
Adjusted gross profit	<u>\$ 34,821</u>	<u>\$ 54,077</u>	<u>\$ (19,256)</u>	<u>(35.6)%</u>

The reconciliations of net (loss) income to adjusted EBITDA for the years ended December 31, 2022 and 2021 are as follows:

<i>(in thousands)</i>	Years Ended December 31,		Change	
	2022	2021	\$	%
Net (loss) income	\$ (37,871)	\$ 21,206	\$ (59,077)	(278.6)%
Add back:				
Interest expense and other fees	19,998	16,485	3,513	21.3 %
Interest income	(744)	—	(744)	100.0 %
Change in fair value of warrant liability	(6,439)	(36,573)	30,134	(82.4)%
(Benefit) provision for income taxes	(50)	539	(589)	(109.3)%
Depreciation and amortization on property and equipment and capitalized software	733	321	412	128.3 %
Impairment of leased assets	1,235	(1,490)	2,725	(182.9)%
Stock-based compensation expense ⁽¹⁾	6,439	13,476	(7,037)	(52.2)%
Transaction costs associated with the merger ⁽²⁾	—	3,350	(3,350)	(100.0)%
Adjusted EBITDA	<u>\$ (16,699)</u>	<u>\$ 17,314</u>	<u>\$ (34,013)</u>	<u>(196.4)%</u>

(1) Includes \$0.5 million of employer payroll taxes in 2021.

(2) Consists of non-capitalizable transaction costs associated with the Merger.

The reconciliations of net (loss) income to adjusted net (loss) income for the years ended December 31, 2022 and 2021 are as follows:

<i>(in thousands)</i>	Years Ended December 31,		Change	
	2022	2021	\$	%
Net (loss) income	\$ (37,871)	\$ 21,206	\$ (59,077)	(278.6)%
Add back:				
Change in fair value of warrant liability	(6,439)	(36,573)	30,134	(82.4)%
Stock-based compensation expense ⁽¹⁾	6,439	13,476	(7,037)	(52.2)%
Transaction costs associated with merger ⁽²⁾	—	3,350	(3,350)	(100.0)%
Adjusted net (loss) income	<u>\$ (37,871)</u>	<u>\$ 1,459</u>	<u>\$ (39,330)</u>	<u>(2695.7)%</u>

(1) Includes \$0.5 million of employer payroll taxes in 2021.

- (2) Consists of non-capitalizable transaction cost associated with the Merger.

ASC 842 Adoption

For illustrative purposes only, we are disclosing non-GAAP results for the year ended December 31, 2021 as if the lessor accounting impacts of ASC 842 were in effect for these periods. Total revenue under ASC 842 and bad debt expense (net of recoveries) under ASC 842 are supplemental disclosures that are neither required by nor presented in accordance with U.S. GAAP.

Management believes these non-GAAP measures for 2021 provide relevant and useful information for users of our financial statements, as it provides comparability with the financial results for the year ended December 31, 2022.

<i>(in thousands)</i>	Year Ended December 31, 2021
As Reported:	
Total revenue	\$ 303,113
Bad debt expense (net of recoveries)	28,299
Income before provision for income taxes	\$ 21,745
Non-GAAP Results:	
Total revenue under ASC 842	\$ 277,560
Bad debt expense (net of recoveries) under ASC 842	—
Income before provision for income taxes under ASC 842	\$ 24,491
Total revenue under ASC 842 also reflects the impact of the change in recognizing revenue when it is earned and cash is collected.	

Liquidity and Capital Resources

The following table presents our cash and cash equivalents, restricted cash, and accounts receivable, net, as of December 31, 2022, 2021 and 2020:

<i>(in thousands)</i>	December 31,		
	2022	2021	2020
Cash and cash equivalents	\$ 65,430	\$ 92,494	\$ 65,622
Restricted cash	4,411	3,937	3,975
Accounts receivable, net ⁽¹⁾	—	2,007	1,636

(1) As of January 1, 2022, we adopted ASC 842 pursuant to which we recognize revenue from customers when the revenue is earned and cash is collected. In addition, we no longer records accounts receivable arising from lease receivables due from customers or any corresponding allowance for doubtful accounts. See “ASC 842 Adoption and Comparability” above for more information.

Cash Flows

The following table presents cash (used in) provided by operating, investing, and financing activities for the years ended December 31, 2022 and 2021:

(in thousands)

	Years Ended December 31,	
	2022	2021
Net cash (used in) provided by operating activities	\$ (20,848)	\$ 2,166
Net cash used in investing activities	(1,505)	(1,436)
Net cash (used in) provided by financing activities	(4,237)	26,104
Net (decrease) increase in cash, cash equivalents and restricted cash	<u>\$ (26,590)</u>	<u>\$ 26,834</u>

Operating Activities

Net cash used in operating activities was \$20,848 for the year ended December 31, 2022. This reflects our net loss of \$37,871, adjusted for non-cash charges of \$172,174 and net cash outflows of \$155,151 from changes in our operating assets and liabilities. Non-cash charges consisted primarily of decreases in depreciation and amortization of \$116,329, net book value of property buyouts of \$30,505 and stock-based compensation of \$6,439. Partially offsetting these decreases was an increase of \$17,216 of impairment expense.

Net cash provided by operating activities was \$2,166 for the year ended December 31, 2021. This reflects our net income of \$21,206, adjusted for non-cash charges of \$213,499 and net cash outflows of \$232,540 from changes in our operating assets and liabilities. Non-cash charges consisted primarily of increases in depreciation and amortization of \$143,993, net book value of property buyouts of \$45,589, bad debt expense of \$28,299 and stock compensation of \$13,020. Partially offsetting these increases was \$14,566 of impairment expense.

Investing Activities

Net cash used in investing activities was \$1,505 for the year ended December 31, 2022 and was primarily due to an increase in capitalized software of \$1,337 coupled with \$168 of purchases of property and equipment.

Net cash used in investing activities was \$1,436 for the year ended December 31, 2021 and was primarily due to an increase in capitalized software of \$1,052 coupled with \$384 of purchases of property and equipment.

Financing Activities

Net cash used in financing activities was \$4,237 for the year ended December 31, 2022 and was primarily due to \$22,477 of principal repayments on the revolving loan facility. Partially offsetting this was \$18,517 of principal advances on the revolving loan facility.

Net cash provided by financing activities was \$26,104 for the year ended December 31, 2021 and was due to \$38,861 of cash received from the Merger, net of transaction costs and consideration paid to selling stockholders, \$7,036 of advances on the revolving loan facility, and \$678 of proceeds from exercise of stock options. These increases were offset by \$20,471 of principal repayments on the revolving loan facility.

Financing Arrangements

Senior Secured Term Loan and Revolving Loan Facility

On May 14, 2019, Katapult SPV-1 LLC, as borrower (the “Borrower”), and Katapult Group, Inc. (f/k/a Cognical, Inc.) entered into a loan and security agreement (as amended, the “credit agreement”) with Midtown Madison Management, LLC as agent for various funds of Atalaya Capital Management (“Atalaya”), for a senior secured revolving loan facility (as amended, the “revolving loan facility”). The revolving loan facility had a commitment of \$125.0 million that the lenders had the right to increase to \$250.0 million. Total outstanding principal under the revolving line of credit was \$58.0 million at December 31, 2022. The revolving loan facility is subject certain covenants and has a 90% advance rate on eligible accounts receivable. Prior to the most recent amendment in March 2023, the annual interest rate on the principal was LIBOR plus 7.5% per annum with a 2% floor on the LIBOR, and the revolving loan facility was scheduled to mature on December 4, 2023.

In addition, in connection with a prior amendment to the credit agreement entered into on December 4, 2020, Atalaya also provided us with a senior secured term loan (as amended, "term loan facility") commitment of up to \$50.0 million. We drew down the full \$50.0 million of the term loan facility on December 4, 2020. The term loan facility bore interest at one-month LIBOR plus 8.0% (with a 1% LIBOR floor) and an additional 3% interest per annum accrued to the principal balance as paid-in-kind ("PIK") interest. Total outstanding principal and PIK interest is \$53.8 million at December 31, 2022. Prior to the most recent amendment, the term loan facility was scheduled to mature on December 4, 2023. The interest rate for PIK Interest on the term loan facility is (A) if Liquidity (as defined in the credit agreement) is greater than \$50,000, 4.5% and (B) if Liquidity is less than \$50,000, to 6%.

The credit agreement governing the Credit Facility is also subject to certain negative and affirmative covenants. The negative covenants limit our ability to: incur additional indebtedness; pay dividends, redeem stock or make other distributions; amend our material agreements; make investments; create liens; transfer or sell the collateral for the credit facility; make negative pledges; consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; and enter into certain transactions with affiliates. Early repayments of certain amounts under the term loan facility are subject to prepayment penalties.

The credit agreement governing the Credit Facility contains certain financial covenants including minimum Adjusted EBITDA levels, minimum tangible net worth, minimum liquidity and compliance with a total advance rate, which were amended in connection with the most recent amendment in March 2023. See "Credit Agreement Amendment" below.

As of December 31, 2022 and 2021, we were in compliance with the covenants in the credit agreement.

Credit Agreement Amendment

On March 6, 2023, we entered into the fifteenth amendment to the credit agreement. As part of the amendment, the maturity date of the revolving loan facility and the term loans was extended to June 4, 2025 and the commitments under the revolving loan facility were reduced to \$75,000 from \$125,000. Additionally, the benchmark rate underlying the annual interest rate on both the revolving loan facility and the term loans was changed from LIBOR to SOFR, subject in each case to a 3% floor plus applicable credit adjustment spread, which is fixed at 0.10% in each case. The spread above the benchmark rate on the revolving facility was increased to 8.5% from 7.5% while the spread above the benchmark rate on the term loans remained at 8%.

In connection with the amendment to the Credit Facility, we repaid \$25,000 of outstanding principal amount of the term loan and issued a warrant to purchase up to 2,000,000 shares of our common stock at an exercise price of \$0.01 per share, which vests upon the earliest to occur of September 6, 2023 and a Change of Control. In addition, under the terms of the credit agreement, we may be required to grant an additional 2,000,000 shares of common stock at the same exercise price under the warrant agreement if any amount of the principal balance of the term loan portion of the Credit Facility remains outstanding upon the earlier to occur of (i) December 5, 2023, (ii) an Acquisition of the Company or (iii) an Event of Default occurs under the Credit Facility prior to December 5, 2023. Such shares will become vested upon the first to occur of (i) three months after the grant date or (ii) an Acquisition of the Company.

In addition the fifteenth amendment also updated certain financial covenants, including the Minimum Adjusted EBITDA levels, Minimum Tangible Net Worth, Minimum Liquidity and compliance with the Total Advance Rate.

For additional information on our loan obligations, refer to Note 7 of the audited consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Pledge and Guaranty

Pursuant to the Pledge Agreement, dated as of May 14, 2019, between Katapult Group, Inc. (f/k/a Cognical, Inc.) and Midtown Madison Management, LLC, Katapult Group, Inc. pledged and granted a first priority security interest in all equity interests of the Borrower and any investment property and general intangibles evidenced by or

related to such membership interests. Pursuant to the Corporate Guaranty and Security Agreement, dated as of December 4, 2020, by and among Katapult Group, Inc., Legacy Katapult and Midtown Madison Management, LLC, Katapult and Katapult Group, Inc. have granted a first priority security interest in all of their respective assets and Katapult and Katapult Group, Inc. guarantee payment of all obligations of the Borrower under the facility.

Sources and Material Cash Requirements

Our principal sources of liquidity are our cash and cash equivalents and availability under our revolving loan facility. Our primary uses of cash include purchases of assets held for lease and funding of ongoing operations.

Our ability to fund future operating needs will be dependent on our ability to generate positive cash flows from operations and obtain financing for growth as needed. We had \$65,430 of unrestricted cash at December 31, 2022 which we believe is sufficient to meet our liquidity needs for the next 12 months. We believe we will meet longer-term (beyond 12 months) cash requirements through a combination of available cash on hand, cash flows generated from operations and availability under our Credit Facility.

The table below summarizes debt, lease and other minimum cash obligations outstanding as of December 31, 2022:

(in thousands)

	Payments by Year			
	Total	2023-2024	2025-2026	Thereafter
Revolving line of credit ⁽¹⁾	\$ 64,936	\$ 64,936	\$ —	\$ —
Term loan ⁽²⁾	62,401	62,401	—	—
Operating lease commitments	960	790	170	—
Total	<u>\$ 128,297</u>	<u>\$ 128,127</u>	<u>\$ 170</u>	<u>\$ —</u>

⁽¹⁾ Future cash obligations include scheduled interest payments due based on the interest rate of 11.7% as of December 31, 2022.

⁽²⁾ Future cash obligations include scheduled interest payments due based on the interest rate of 12.2%, plus 4.5% paid-in-kind interest as of December 31, 2022. On March 6, 2023, we repaid \$25,000 outstanding under the term loan portion of our Credit Facility.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements in conformity with U.S. GAAP requires us to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. We evaluate our significant estimates on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions or conditions, impacting our reported results of operations and financial condition.

We believe that the accounting estimates described below involve a significant degree of judgment and complexity and have the greatest potential effect on our consolidated financial statements. Accordingly, we believe these are the most critical to aid in fully understanding and evaluating our consolidated financial condition and results of operations.

For further information, see Note 2 to our Consolidated Financial Statements included within Part II Item 8 contained in this Annual Report on Form 10-K.

Rental Revenue Recognition

Property held for lease is leased to customers pursuant to lease-purchase agreements with an initial term: typically one week, two weeks, or one month, with non-refundable lease payments. Generally, the customer has the right to acquire title either through a 90-day promotional pricing option, an early purchase option (buyout) available prior to completion of the full agreement, or by completing all lease renewal payments, generally 10 to 18 months. On any current lease, customers have the option to terminate the agreement at any time without penalty in accordance with lease term. Accordingly, lease-purchase agreements are accounted for as operating leases with lease revenues recognized in the period they are earned and cash is collected. Amounts received from customers who elect early purchase options (buyouts) are included in rental revenue. Lease payments received prior to their due dates are deferred and recorded as unearned revenue and are recognized as rental revenue in the month in which the revenue is earned. Rental revenue also includes agreed-upon charges assessed to customer lease applications. Payments are received upon submission of the applications and execution of the lease-purchase agreements. Services are considered to be rendered and revenue earned over the initial lease term. Revenues from leases are reported net of sales taxes.

Accounts Receivable and Allowance for Doubtful Accounts

As of January 1, 2022, we adopted ASC 842. Commencing with the three months ended March 31, 2022, we recognize revenue from customers when the revenue is earned and cash is collected. In addition, we no longer record accounts receivable arising from lease receivables due from customers or any corresponding allowance for doubtful accounts. For the periods prior to adoption of ASC 842, including the year ended December 31, 2021, we recognized revenue from customers on an accrual basis of accounting. We did not require any security or collateral to support our receivables.

Stock-Based Compensation

We measure and record compensation expense related to stock-based awards based on the fair value of those awards as determined on the date of the grant. We recognize stock-based compensation expense over the requisite service period of the individual grant, generally equal to the vesting period and uses the straight-line method to recognize stock-based compensation. We use the Black-Scholes-Merton ("Black-Scholes") option-pricing model to determine the estimated fair value of stock-based awards. The Black-Scholes option-pricing model requires estimates of highly subjective assumptions, such as expected term, common share price, and volatility, which affect the fair value of each stock option. Forfeitures are accounted for as they are incurred.

Income Taxes

We account for income taxes under the asset and liability method pursuant to ASC 740, Income Taxes. Under this method, we recognize deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded for deferred tax assets if it is more likely than not that some portion or all of the deferred tax assets will not be realized based on all available positive and negative evidence. The determination of whether a deferred tax asset will be realizable is a highly subjective decision based upon estimated future taxable income and could vary from actual results. We recognize a tax benefit only if it is more likely than not the tax position will be sustained on examination by the local taxing authorities, based on the technical merits of the position. The tax benefits recognized in the consolidated financial statements from such positions are then measured based on the largest benefit greater than 50% likelihood of being realized upon settlement with the related tax authority. The changes in recognition or measurement are reflected in the period in which the change in judgment occurs. We record interest and penalties related to unrecognized tax benefits in the provision for income taxes.

Property Held for Lease, Net of Accumulated Depreciation and Impairment

Property held for lease consists of furniture, consumer electronics, appliances, and other durable goods offered for lease-purchase in the normal course of business. Such property is provided to consumers pursuant to a lease-purchase agreement with a minimum term; typically one week, two weeks, or one month. The renewal periods of the initial lease term of the agreement are typically 10, 12 or 18 months. Consumers may terminate a lease agreement at any time without penalty. The average consumer continues to lease the property for 7 months because the consumer either exercises the buyout (early purchase) options or terminates the lease-purchase agreement prior to the end of the 10 to 18 month renewal periods. As a result, property held for lease is classified as a current asset on the consolidated balance sheets.

Property held for lease is carried at net book value. Depreciation for property held for lease is generally provided using the income forecasting method and is included within cost of revenue. Under the income forecasting method, property held for lease is depreciated in the proportion of rents received to total expected rents received based on historical data, which is an activity-based method similar to the units of production method. We provide for impairment for the undepreciated balance of the property held for lease assuming no salvage value with a corresponding charge to cost of revenue. Impairment expense includes expense related to property identified as impaired based on historical data, including default trends, such that the recorded amount closely approximates actual impairment expense incurred during the period. We derecognize the undepreciated net book value of property buyouts as buyouts occur with a corresponding charge to cost of revenue. We periodically evaluate fully depreciated property held for lease, net. When it is determined there is no future economic benefit, the related assets and accumulated depreciation are written-off.

There are uncertainties involved when recognizing expenses related to property held for lease due to the subjective nature of the income forecasting method and estimated salvage value, which could vary from actual results.

Recently Issued and Adopted Accounting Pronouncements

See Note 2 to our consolidated financial statements for a discussion of accounting pronouncements recently adopted and recently issued accounting pronouncements not yet adopted and their potential impact to our consolidated financial statements.

Emerging Growth Company

As of December 31, 2022, we are an emerging growth company, as defined in the JOBS Act. The JOBS Act provides that an emerging growth company can take advantage of an extended transition period for complying with new or revised accounting standards applicable to public companies, allowing them to delay the adoption of those standards until those standards would otherwise apply to private companies. We have elected to use this extended transition period under the JOBS Act. As a result, our consolidated financial statements may not be comparable to the financial statements of companies that are required to comply with the effective dates for new or revised accounting standards that are applicable to public companies. We will remain an emerging growth company under the JOBS Act until the earliest of (a) December 31, 2024, (b) the last date of our fiscal year in which we have a total annual gross revenue of at least \$1.07 billion, (c) the date on which we are deemed to be a “large accelerated filer” under the rules of the SEC with at least \$700.0 million of outstanding securities held by non-affiliates or (d) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the previous three years.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to a variety of market and other risks, including the effects of changes in interest rates, and inflation, as well as risks to the availability of funding sources and other risks.

Interest Rate Risk

The market risk inherent in our financial instruments and our financial position represents the potential loss arising from adverse changes in interest rates. We manage our interest rate risk based on an ongoing assessment of trends in interest rates and economic developments, giving consideration to possible effects on both total return and reported earnings. As a result of such assessment, we may enter into swap contracts or other interest rate protection agreements from time to time to mitigate this risk.

As of December 31, 2022 and December 31, 2021, we had interest bearing debt with a principal amount of \$111.8 million and \$113.6 million, respectively.

Our revolving loan facility is a variable rate loan that during the years ended December 31, 2022 and 2021 accrued interest at a variable rate of interest based on the one month LIBOR rate, subject to a 2% floor, plus 7.5% per annum. In connection with the fifteenth amendment to the credit agreement, the benchmark rate underlying the annual interest rate was changed from LIBOR to SOFR, subject to a 3% floor and the spread was increased from 7.5% to 8.5% per annum.

Our term loan facility is a variable rate loan that during the years ended December 31, 2022 and 2021 accrued interest at a variable rate of interest based on the one month LIBOR rate, subject to a 1% floor, plus 8% per annum. In connection with the fifteenth amendment to the credit agreement, the benchmark rate underlying the annual interest rate was changed from LIBOR to SOFR, subject to a 3% floor. The spread remained at 8%.

Inflation Risk

Although we believe that inflation has indirectly impacted our business by negatively impacting consumer spending and the sales of our key merchants, we do not believe that inflation has directly had, or currently directly has, a material effect on our results of operations or financial condition.

Foreign Currency Risk

There was no material foreign currency risk for year ended December 31, 2022 and 2021. Our activities to date are conducted only in the United States.

Item 8. Financial Statements and Supplementary Data

The Company's Consolidated Balance Sheets as of December 31, 2022 and 2021, and related Consolidated Statements of Operations and Comprehensive (Loss) Income, Stockholders' Equity (Deficit) and Cash Flows for each of the years in the two-year period ended December 31, 2022, together with the report of our independent registered public accounting firm, are incorporated herein by reference.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the stockholders and Board of Directors of Katapult Holdings, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Katapult Holdings, Inc. and subsidiaries (the “Company”) as of December 31, 2022 and 2021, the related consolidated statements of operations and comprehensive income (loss), stockholders’ equity (deficit), and cash flows, for each of the two years in the period ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

KATAPULT HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(amounts in thousands, except share and per share amounts)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Katapult Holdings, Inc. (“Katapult” or the “Company”), is an e-commerce focused financial technology company offering e-commerce point-of-sale (“POS”) lease-purchase options for non-prime US consumers. Katapult’s fully-digital technology platform provides non-prime consumers with a flexible lease-purchase option to enable them to obtain durable goods from Katapult’s network of e-commerce retailers. Katapult’s end-to-end technology platform provides seamless integration with merchants.

On June 9, 2021 (the “Closing Date”), Katapult (formerly known as FinServ Acquisition Corp. or “FinServ”), consummated the previously announced merger pursuant to that certain Agreement and Plan of Merger, dated December 18, 2020 (the “Merger Agreement”), by and among FinServ Keys Merger Sub 1, Inc. (“Merger Sub 1”), a wholly owned subsidiary of FinServ, Keys Merger Sub 2, LLC (“Merger Sub 2”), the entity formerly known as Katapult Holdings, Inc. (formerly known as Cognical Holdings, Inc.), a Delaware corporation (“Legacy Katapult”), and Orlando Zayas, in his capacity as the representative of all pre-closing stockholders. Pursuant to the terms of the Merger Agreement, a business combination between Legacy Katapult and FinServ was effected on June 9, 2021 through the merger of Merger Sub 1 with and into Legacy Katapult, with Legacy Katapult surviving the merger as a wholly owned subsidiary of FinServ (the “First Merger”), followed immediately by the merger of the resulting company with and into Merger Sub 2, with Merger Sub 2 surviving the merger as a wholly owned subsidiary of FinServ (the “Second Merger” and collectively with the First Merger and the other transactions contemplated by the Merger Agreement, the “Merger”). References to “the Company” are to Katapult following the Merger and Legacy Katapult prior to the Merger. On the Closing Date, a number of investors purchased from the Company an aggregate of 15,000,000 shares of Company common stock for a purchase price of \$10.00 per share and an aggregate purchase price of \$150,000 (the “PIPE Investment” or “PIPE”), pursuant to separate subscription agreements. The PIPE was consummated concurrently with the Merger.

On the Closing Date, and in connection with the closing of the Merger, FinServ changed its name to Katapult Holdings, Inc. Legacy Katapult was deemed the accounting acquirer in the Merger based on an analysis of the criteria outlined in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 805, Business Combinations. This determination was primarily based on Legacy Katapult’s stockholders prior to the Merger having had a majority of the voting rights in the combined company, Legacy Katapult’s operations represented the ongoing operations of the combined company, Legacy Katapult and its former owners had the right to appoint a majority of the directors in the combined company, and Legacy Katapult’s senior management represented the senior management of the combined company. Accordingly, for accounting purposes, the Merger was treated as the equivalent of Legacy Katapult issuing stock for the net assets of FinServ, accompanied by a recapitalization. The net assets of FinServ are stated at historical cost, with no goodwill or other intangible assets recorded.

In accordance with guidance applicable to these circumstances, the equity structure has been restated in all comparative periods up to the Closing Date, to reflect the number of shares of the Company’s common stock, \$0.0001 par value per share, issued to Legacy Katapult’s stockholders in connection with the recapitalization transaction. As such, the shares and corresponding capital amounts and earnings per share related to Legacy Katapult redeemable convertible preferred stock and Legacy Katapult common stock prior to the Merger have been retroactively restated as shares reflecting the exchange ratio established in the Merger Agreement.

Merger Warrants

Warrants to purchase shares of the Company's common stock deemed acquired as part of the Merger and outstanding during the years ended December 31, 2022 and 2021 consisted of the following:

	December 31, 2022	December 31, 2021
Public warrants	12,500,000	12,500,000
Private warrants	332,500	332,500
Total	12,832,500	12,832,500

Earn out Shares

At the closing of the Merger, the Company issued 7,500,000 earn out shares to Legacy Katapult stockholders subject to an earn out period and vesting conditions. The earn out period concludes on the sixth anniversary of the Merger (June 9, 2027). One-half of the earn out shares will vest if the closing price of Katapult common stock is greater than or equal to \$12.00 over any 20 trading days within any 30 consecutive trading day period and one-half will vest if the closing price of the Katapult common stock is greater than or equal to \$14.00 over any 20 trading days within any 30 consecutive trading day period, in each case, during the earn out period. The earn out shares are classified as equity. As of December 31, 2022 and 2021, none of the earn out shares have vested.

Subsidiaries

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries Katapult Intermediate Holdings, LLC (formerly known as Keys Merger Sub 2, LLC), Katapult Group, Inc. (formerly known as Cognical, Inc.) and Katapult SPV-1 LLC, and the Company's former subsidiaries, Cognical SPV-3 LLC, and Cognical SPV-4 LLC. Cognical SPV-3 LLC originated all of the Company's lease agreements with its customers and owned all of the leased property through April 2019. Katapult SPV-1 LLC has originated all of the Company's lease agreements thereafter. Cognical SPV-4 LLC has halted the origination of new leases on behalf of a third-party merchant, however the Company serviced activity from existing leases of Cognical SPV-4 LLC through November 2020. Cognical SPV-3 LLC and Cognical SPV-4 LLC were liquidated in December 2020.

Legacy Katapult was incorporated in Delaware in 2016 and changed its headquarters from New York, New York to Plano, Texas in December 2020. Katapult Group, Inc. was incorporated in the state of Delaware in 2012. Katapult SPV-1 LLC is a Delaware limited liability company formed in Delaware in 2019.

Basis of Presentation—The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") and the rules and regulations of the Securities and Exchange Commission ("SEC"). The consolidated financial statements include the accounts of Katapult Holdings, Inc. and its wholly owned subsidiaries. In the opinion of management, all adjustments, of a normal recurring nature, considered necessary for a fair presentation have been included in these consolidated financial statements.

All intercompany balances and transactions have been eliminated in consolidation.

Risks and Uncertainties—The Company is subject to a number of risks including, but not limited to, the need for successful development of our growth strategies, the need for additional capital (or financing) to fund operating losses, competition from substitute products and services from larger companies, protection of proprietary technology, patent litigation, dependence on key individuals, and risks associated with changes in information technology.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates—The preparation of the consolidated financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of income and expense during the reporting period. The most significant estimates relate to the selection of useful lives of property and equipment, the selection of useful lives for property held for lease and the related depreciation method, determination of fair value of stock option grants, and the valuation allowance associated with deferred tax assets. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, and makes adjustments when facts and circumstances dictate. These estimates are based on information available as of the date of the consolidated financial statements; therefore, actual results could differ from those estimates.

Segment Information—Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is the chief executive officer. The Company has one business activity and there are no segment managers who are held accountable for operations, operating results and plans for levels or components below the consolidated unit level. Accordingly, the Company has one operating segment, and therefore, one reportable segment.

Cash and Cash Equivalents— As of December 31, 2022 and 2021, cash consists primarily of checking and savings deposits. The Company holds certain cash equivalents, which consist of highly liquid investments with original maturities of three months or less at the time of purchase.

Restricted Cash—The Company classifies all cash whose use is limited by contractual provisions as restricted cash. Restricted cash as of December 31, 2022 and 2021 consists primarily of cash advanced from the lines of credit in Katapult SPV-1 LLC, which were established pursuant to various agreements for the purpose of funding and servicing originated leases. All of the Company's restricted cash is classified as current due to its short-term nature.

The reconciliation of cash, cash equivalents and restricted cash is as follows:

	December 31,		
	2022	2021	2020
Cash and cash equivalents	\$ 65,430	\$ 92,494	\$ 65,622
Restricted cash	4,411	3,937	3,975
Total cash, cash equivalents and restricted cash	<u>\$ 69,841</u>	<u>\$ 96,431</u>	<u>\$ 69,597</u>

Accounts Receivable, Net of Allowance for Doubtful Accounts— As of January 1, 2022, the Company adopted ASC 842. As of January 1, 2022, the Company recognizes revenue from customers when the revenue is earned and cash is collected. In addition, the Company no longer records accounts receivable arising from lease receivables due from customers or any corresponding allowance for doubtful accounts. For the periods prior to adoption of ASC 842, including the year ended December 31, 2021, the Company recognized revenue from customers on an accrual basis of accounting. The Company did not require any security or collateral to support its receivables.

Property Held for Lease, Net of Accumulated Depreciation and Impairment—Property held for lease consists of furniture, consumer electronics, appliances, and other durable goods offered for lease-purchase in the normal course of business. Such property is provided to consumers pursuant to a lease-purchase agreement with a minimum term; typically one week, two weeks, or one month. The renewal periods of the initial lease term of the agreement are typically 10, 12 or 18 months. Consumers may terminate a lease agreement at any time without penalty. The average consumer continues to lease the property for 7 months because the consumer either exercises the buyout (early purchase) options or terminates the lease-purchase agreement prior to the end of the 10, 12 or 18 month renewal periods. As a result, property held for lease is classified as a current asset on the consolidated balance sheets.

Property held for lease is carried at net book value. Depreciation for property held for lease is determined using the income forecasting method and is included within cost of revenue. Under the income forecasting method, property held for lease is depreciated in the proportion of rents received to total expected rents received based on historical data, which is an activity-based method similar to the units of production method. The Company provides for impairment for the undepreciated balance of the property held for lease assuming no salvage value with a corresponding charge to cost of revenue. Impairment expense includes expense related to property identified as impaired based on historical data, including default trends, such that the recorded amount closely approximates actual impairment expense incurred during the period. The Company derecognizes the undepreciated net book value of property buyouts as buyouts occur with a corresponding charge to cost of revenue. The Company periodically evaluates fully depreciated property held for lease, net. When it is determined there is no future economic benefit, the cost of the assets are written off and the related accumulated depreciation is reversed.

Property and Equipment, Net—Property and equipment other than property held for lease are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are calculated using the straight-line method and are recorded in general and administrative expense over the estimated useful lives of the assets. The estimated useful lives of property and equipment are described below:

Property and Equipment	Useful Life
Computer, office and other equipment	5 years
Computer software	3 years
Furniture and fixtures	7 years
Leasehold improvements	Shorter of estimated useful life or remaining lease term

Capitalized Software—Starting January 1, 2020 the Company began capitalizing certain development costs incurred in connection with its internal use software. Costs incurred in the preliminary stages of development are expensed as incurred. Capitalization of costs begins when the preliminary project stage is completed, and it is probable that the project will be completed and used for its intended function. Once an application has reached the development stage, internal and external costs, if direct and incremental, are capitalized until the software is substantially complete and ready for its intended use. Capitalization ceases upon completion of all substantial testing. The Company also capitalizes costs related to specific upgrades and enhancements when it is probable the expenditures will result in additional features and functionality. Maintenance costs are expensed as incurred. Internal use software is amortized on a straight-line basis over its estimated useful life, generally three years. Capitalized software cost is included within the Capitalized software and intangible assets, net line item of the consolidated balance sheets. Amortization of capitalized software is included in general and administrative expenses on the consolidated statements of operations and comprehensive (loss) income.

Debt Issuance Costs—Costs incurred in connection with the issuance of the Company’s line of credit and long-term debt have been recorded as a direct reduction against the debt and amortized over the life of the associated debt as a component of interest expense. The amortization of the long-term debt issuance costs utilizes the effective interest method, and the amortization of the line of credit debt issuance costs utilizes the straight-line method, which is not materially different compared to the effective interest method. The amortization of debt issuance costs is recorded and included in interest expense and other fees on the consolidated statement of operations and comprehensive (loss) income.

Impairment of Long-Lived Assets—The Company assesses long-lived assets for impairment in accordance with the provisions of ASC 360, Property, Plant and Equipment. Long-lived assets, such as intangible assets and property and equipment, are reviewed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted future cash flows expected to result from the use and eventual disposition of the asset. The amount of impairment loss, if any, is measured as the difference between the carrying value of the asset and its estimated fair value. Fair value is determined through various valuation techniques, including discounted cash flow

models, quoted market values and third-party independent appraisals, as considered necessary. No impairment charges have been recorded during the years ended December 31, 2022 or 2021.

Rental Revenue—Property held for lease is leased to customers pursuant to lease-purchase agreements with an initial term: typically one week, two weeks, or one month, with non-refundable lease payments. Generally, the customer has the right to acquire title either through a 90-day promotional pricing option, an early purchase option (buyout) available prior to completion of the full agreement, or by completing all lease renewal payments, generally 10 to 18 months. On any current lease, customers have the option to terminate the agreement at any time without penalty in accordance with lease term. Accordingly, lease-purchase agreements are accounted for as operating leases with lease revenues recognized in the period they are earned and cash is collected. Amounts received from customers who elect early purchase options (buyouts) are included in rental revenue. Lease payments received prior to their due dates are deferred and recorded as unearned revenue and are recognized as rental revenue in the month in which the revenue is earned. Rental revenue also includes agreed-upon charges assessed to customer lease applications. Payments are received upon submission of the applications and execution of the lease-purchase agreements. Services are considered to be rendered and revenue earned over the initial lease term. Revenues from leases are reported net of sales taxes.

Other Revenue—Other revenue consists primarily of asset sales revenue related to the sale of property held for lease. During the year ended December 31, 2022, the Company continued to advance its strategy to focus on additional opportunities to generate revenue, which includes the sale of property held for lease to third parties. The sale of property held for lease is now considered recurring and ordinary in nature to the Company's business. As such, these sales are accounted for within the scope of ASC 606, Revenue from Contracts with Customers. Revenue is recognized when a performance obligation is satisfied by transferring control over an asset to a customer. Revenue is recorded with corresponding costs of revenue, presented on a gross basis. Revenue from sales of property held for lease the year ended December 31, 2022 was \$3,980. Also included is revenue from merchant partnerships, and infrequent sales of property formerly on lease when customers terminate a lease and elect to return the property to the Company rather than the Company's retail partners.

Stock-Based Compensation—The Company measures and records compensation expense related to stock-based awards based on the fair value of those awards as determined on the date of the grant. The Company recognizes stock-based compensation expense over the requisite service period of the individual grant, generally equal to the vesting period and uses the straight-line method to recognize stock-based compensation. The Company uses the Black-Scholes-Merton ("Black-Scholes") option-pricing model to determine the estimated fair value of stock option awards. The Black-Scholes option-pricing model requires estimates of highly subjective assumptions, which affect the fair value of each stock option. Forfeitures are accounted for as they are incurred.

The Company calculates the fair value of stock options granted to employees by using the following assumptions:

Expected Volatility—The Company estimates volatility for stock option grants by evaluating the average historical volatility of a peer group of companies for the period immediately preceding the stock option grant for a term that is approximately equal to the stock options' expected term.

Expected Term—The expected term of the Company's stock options represents the period that the stock-based awards are expected to be outstanding. The Company has elected to use the midpoint of the stock options vesting term and contractual expiration period to compute the expected term, as the Company does not have sufficient historical information to develop reasonable expectations about future exercise patterns and post-vesting employment termination behavior.

Risk-Free Interest Rate—The risk-free interest rate is based on the implied yield currently available on US Treasury zero-coupon issues with a term that is equal to the stock options' expected term at the grant date.

Dividend Yield—The Company has not declared or paid dividends to date and does not anticipate declaring dividends. As such, the dividend yield has been estimated to be zero.

Income Taxes—The Company accounts for income taxes under the asset and liability method pursuant to ASC 740, *Income Taxes*. Under this method, the Company recognizes deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, the Company determines deferred tax assets and liabilities on the basis of the differences between the financial statement and tax basis of assets and liabilities by using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

The Company recognizes deferred tax assets to the extent that these assets are more likely than not to be realized. In making such a determination, the Company considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If the Company determines that the Company would be able to realize deferred tax assets in the future in excess of their net recorded amount, the Company would make an adjustment to the deferred tax asset valuation allowance, which would reduce the provision for income taxes.

The Company records uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Company recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

The Company recognizes interest and penalties related to unrecognized tax benefits in the income tax expense line in the accompanying consolidated statement of operations and comprehensive income. As of December 31, 2022 and 2021, no accrued interest or penalties are included on the related tax liability line in the consolidated balance sheets.

Net (Loss) Income Per Share—The Company calculates basic and diluted net (loss) income per share attributable to common stockholders using the two-class method required for companies with participating securities.

Under the two-class method, basic net (loss) income per share available to stockholders is calculated by dividing the net (loss) income available to stockholders by the weighted-average number of shares of common stock outstanding during the period. Diluted net (loss) income per share available to stockholders is computed by giving effect to all potentially dilutive common stock equivalents outstanding for the period. In periods in which the Company reports a net loss available to stockholders, diluted net loss per share available to stockholders would be the same as basic net loss per share available to stockholders, since dilutive common shares are not assumed to have been issued if their effect is anti-dilutive. The Company reported net loss available to common shareholders during the fiscal year ended December 31, 2022.

Fair Value Measurements—Fair value accounting is applied for all assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis (at least annually). Fair value is defined as the exchange price that would be received for an asset or an exit price that would be paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company follows the established framework for measuring fair value.

Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The authoritative guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1—Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2—Inputs are observable, unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Level 3—Inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

The Company's financial instruments consist of accounts receivable (through December 31, 2021), accounts payable, accrued expenses, warrant liability, revolving line of credit, and long-term debt. Accounts receivable, accounts payable and accrued expenses are stated at their carrying value, which approximates fair value due to the short time to the expected receipt or payment date. The consolidated financial statements also include fair value level 3 measurements of private common stock warrants. The Company uses a third-party valuation firm to determine the fair value of certain of the Company's financial instruments. Refer to Note 13 for discussion of fair value measurements.

Concentrations of Credit Risk—Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and accounts receivable. The Company’s cash balances exceed those that are federally insured. To date, the Company has not recognized any losses caused by uninsured balances.

Significant customers are those which represent more than 10% of the Company’s total revenue or gross accounts receivable balance at each balance sheet date. During the years ended December 31, 2022 and 2021, the Company did not have any customers that accounted for 10% or more of total revenue. As of December 31, 2021, the Company did not have any customers that accounted for 10% or more of outstanding gross accounts receivable.

A significant portion of the Company’s transaction volume is with a limited number of merchants, including most significantly, Wayfair Inc.

Recently Adopted Accounting Pronouncements—In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform* (Topic 848): *Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. This ASU provides temporary optional expedients and exceptions to the U.S. GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burdens related to the expected market transition from the London Interbank Offered Rate (“LIBOR”) and other interbank offered rates to alternative reference rates. This ASU is effective for all entities beginning as of its date of effectiveness, March 12, 2020. In December 2022, the FASB issued ASU 2022-06, *Reference Rate Reform* (Topic 848): *Deferral of the Sunset Date of Topic 848* which deferred the sunset date of ASC 848 until December 31, 2024. This ASU did not have a material impact on our consolidated financial statements.

In December 2019, the FASB issued ASU 2019-12, *Income Taxes* (Topic 740) - *Simplifying the Accounting for Income Taxes*, which simplifies the accounting for income taxes by removing certain exceptions to the general principles of ASC 740, Income Taxes. The amendments also improve consistent application of and simplify U.S. GAAP for other areas of ASC 740 by clarifying and amending existing guidance. ASU 2019-12 is effective for fiscal years beginning after December 15, 2020 and early adoption is permitted. Depending on the amendment, adoption may be applied on a retrospective, modified retrospective, or prospective basis. The Company adopted this standard on January 1, 2021, and the adoption did not have a material impact on the consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02, *Leases* (Topic 842), as *amended* (“ASU 2016-02”). Under ASU 2016-02, adoption requires the use of a modified retrospective transition method to measure leases at the beginning of the earliest period presented in the consolidated financial statements. In July 2018, the FASB issued ASU 2018-11 *Leases*, allowing companies to apply a transition method for adoption of the new standard as of the adoption date, with recognition of any cumulative-effects as adjustments to the opening balance of retained earnings in the period of adoption. We have elected the transition method under ASU 2018-11 upon adoption of the new standard. The Company’s lease-to-own agreements which comprise the majority of our annual revenue fall within the scope of ASU 2016-02 under lessor accounting. As a result, the Company recognizes revenue from customers when the revenue is earned and cash is collected. The Company no longer records accounts receivable arising from lease receivables due from customers incurred during the normal course of business for lease payments earned but not yet received from the customer or any corresponding allowance for doubtful accounts.

Under ASU 2016-02 lessees are required to recognize a lease liability, which is a lessee’s obligation to make lease payments arising from a lease measured on a discounted basis, and a right-of-use asset (“ROU”), which is an asset that represents the lessee’s right to control the use of an identified asset for the lease term, at the commencement date for all leases with a term greater than one year. As a lessee, the Company recognizes a ROU asset and lease liability for these operating lease contracts within the consolidated balance sheet. As of January 1, 2022, the Company recorded \$1,240 for lease liabilities and \$1,139 for ROU assets. The Company is also affected by the requirement under the new standard to determine whether impairment indicators exist for the ROU at the asset or asset group level. If impairment indicators exist, a recoverability test is performed to determine whether an impairment loss exists. In accordance with the transition guidance for the new standard the Company is required to determine if an impairment loss exists immediately prior to the date of adoption. The Company does not believe any impairment indicators exist as it relates to our operating leases. In June 2020, the FASB issued ASU 2020-05, *Revenue from Contracts with Customers* (Topic 606) and *Leases* (Topic 842) – *Effective Dates for Certain Entities* (“ASU 2020-05”), which defers the effective date of ASU 2016-02 for private entities to fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Company adopted the new standard on January 1, 2022, in accordance with adoption dates provided by the FASB applicable to us under our emerging growth company status.

Recent Accounting Pronouncements Not Yet Adopted—The Company has reviewed all other recently issued accounting pronouncements and concluded that they were either not applicable or not expected to have a material impact to its consolidated financial statements.

3. PROPERTY HELD FOR LEASE, NET OF ACCUMULATED DEPRECIATION AND IMPAIRMENT

Property held for lease, net of accumulated depreciation and impairment consists of the following:

	December 31,	
	2022	2021
Property held for lease	\$ 289,800	\$ 220,259
Less: accumulated depreciation	(239,522)	(158,507)
Property held for lease, net of accumulated depreciation and impairment	\$ 50,278	\$ 61,752

Net book value of property buyouts for the years ended December 31, 2022 and 2021 were \$30,505 and \$45,589, respectively.

Total impairment charges related to property held for lease, net of accumulated depreciation and impairment for the years ended December 31, 2022 and 2021 were \$17,216 and \$14,566, respectively.

Total depreciation expense related to property held for lease, net of accumulated depreciation and impairment for the years ended December 31, 2022 and 2021 were \$115,597 and \$143,671, respectively.

Depreciation expense, net book value of property buyouts and impairment charges are included within cost of revenue in the consolidated statement of operations and comprehensive (loss) income.

Substantially all property held for lease, net is on-lease as of December 31, 2022 and 2021.

4. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consists of the following:

	December 31,	
	2022	2021
Computer, office and other equipment	\$ 813	\$ 659
Computer software	80	80
Furniture and fixtures	100	100
Leasehold improvements	252	238
	1,245	1,077
Less: accumulated depreciation	(688)	(501)
Property and equipment, net	\$ 557	\$ 576

Total depreciation expense related to property and equipment, net was \$187 and \$138 for the years ended December 31, 2022 and 2021, respectively.

5. CAPITALIZED SOFTWARE AND INTANGIBLE ASSETS, NET

Capitalized software and intangible assets, net consists of the following:

	December 31,	
	2022	2021
Capitalized software	\$ 2,591	\$ 1,254
Domain name	16	16
	2,607	1,270
Less: accumulated amortization	(760)	(214)
Capitalized software and intangible assets, net	\$ 1,847	\$ 1,056

Total amortization expense for capitalized software and intangible assets was \$545 and \$184 for the years ended December 31, 2022 and 2021, respectively.

The following table summarizes estimated future amortization expense of capitalized software and intangible assets, net for the years ending December 31:

2023	\$	708
2024		560
2025		165
Thereafter		—
	\$	<u>1,433</u>

As of December 31, 2022, \$398 of capitalized software was not yet placed into service.

6. OTHER ACCRUED LIABILITIES

Accrued liabilities consists of the following:

	December 31,	
	2022	2021
Bonus accrual	\$ 2,376	\$ 1,807
Sales tax payable	5,582	5,445
Unfunded lease payable	4,159	2,697
Interest payable	118	91
Other accrued liabilities	2,297	1,919
Total accrued liabilities	<u>\$ 14,532</u>	<u>\$ 11,959</u>

7. DEBT

On May 14, 2019, the Company entered into a Loan and Security Agreement (as amended the “credit agreement”) with respect to a revolving line of credit (the “RLOC”), which resulted in an initial commitment amount of \$50,000, with the lenders having the right to increase to a maximum of \$150,000 commitment over time. The RLOC is subject to certain covenants and originally had an 85% advance rate on eligible accounts receivable, which was increased to 90% during March 2020. At December 31, 2022, the total outstanding principal was \$57,998 less issuance costs of \$359, netting to a total of \$57,639. At December 31, 2021, the total outstanding principal was \$61,958 less issuance costs of \$720, netting to a total of \$61,238. The issuance costs are amortized over the life of the facility and included in interest expense and other fees. The annual interest rate on outstanding principal is LIBOR plus 7.5% per annum. There is a 2% floor on LIBOR. On September 28, 2020, the lenders exercised their right to increase the maximum commitment to a total of \$125,000. On December 4, 2020, the Company entered into the ninth amendment to the credit agreement which provided the lenders with the right to increase the revolving commitment amount from \$125,000 to \$250,000.

This facility is also subject to certain customary representations, affirmative covenants, which consist of maintaining lease performance metrics, financial ratios related to operating results, and lease delinquency ratios, along with customary negative covenants. Prior to the fifteenth amendment on March 6, 2023, the outstanding borrowings under the credit facilities, including unpaid principal and interest, were due on December 4, 2023.

The credit agreement also requires the Company to maintain the financial covenants with respect to Minimum Adjusted EBITDA (as defined in the credit agreement), Minimum Tangible Net Worth, Minimum Liquidity and compliance with the Total Advance Rate (as defined in the credit agreement).

Pursuant to the ninth amendment to the credit agreement, the lenders also provided the Company with a senior secured term loan facility (“term loan facility”) commitment of up to \$50,000. The Company drew down the full \$50,000 of this term loan on December 4, 2020. The term loan facility bears interest at one-month LIBOR plus 8% per annum (with a 1% floor on LIBOR Rate). The interest rate for PIK interest on the term loan (as defined in the credit agreement) is (A) if Liquidity is greater than \$50,000, 4.5% or (B) if Liquidity is less than \$50,000, 6%. The term loan maturity date is December 4, 2023. The term loan facility is subject to the same representations, affirmative and negative covenants and financial covenants.

A reconciliation of the outstanding principal to the carrying amount of the term loan facility is as follows:

	December 31,	
	2022	2021
Outstanding principal	\$ 50,000	\$ 50,000
PIK	3,785	1,664
Debt discount	(5,728)	(11,003)
Total carrying amount	\$ 48,057	\$ 40,661

Total amortization expense related to the term loan facility discount was \$5,275 and \$2,701 for the years ended December 31, 2022 and 2021, respectively. Amortization of debt issuance costs is shown within interest expense and other fees on the consolidated statements of operations and comprehensive (loss) income.

On March 14, 2022, the Company entered into the thirteenth amendment to the credit agreement to amend the number of times the Company can cure a default with respect to compliance with the total advance rate covenant from two to five.

On May 9, 2022, the Company entered into the fourteenth amendment to the credit agreement, which amended the credit agreement for certain financial covenants including, the minimum Adjusted EBITDA thresholds, Minimum Tangible Net Worth, Minimum Liquidity and compliance with a Total Advance Rate. In addition, the limitation on the number of times the Company can cure a breach of its Total Advance Rate covenant by depositing funds into a reserve bank account was eliminated.

As of December 31, 2022 and 2021, the Company was in compliance with the covenants set forth in the credit agreement.

On March 6, 2023, the Company entered into the fifteenth amendment to the credit agreement. As part of the amendment, the maturity date of the revolving loan facility and the term loans was extended to June 4, 2025 and the commitments under the revolving loan facility were reduced to \$75,000 from \$125,000. Additionally, the benchmark rate underlying the annual interest rate on both the revolving loan facility and the term loans was changed from LIBOR to SOFR, subject in each case to a 3% floor plus applicable credit adjustment spread, which is fixed at 0.10% in each case. The spread above the benchmark rate on the revolving facility was increased to 8.5% from 7.5% while the spread above the benchmark rate on the term loans remained at 8%.

In connection with the amendment to the Credit Facility, we repaid \$25,000 of outstanding principal amount of the term loan and issued a warrant to purchase up to 2,000,000 shares of our common stock at an exercise price of \$0.01 per share, which vests upon the earliest to occur of September 6, 2023 and a Change of Control. In addition, under the terms of the credit agreement, we may be required to grant an additional 2,000,000 shares of common stock at the same exercise price under the warrant agreement if any amount of the principal balance of the term loan portion of the Credit Facility remains outstanding upon the earlier to occur of (i) December 5, 2023, (ii) an Acquisition of the Company, (iii) an Event of Default occurs under the Credit Facility prior to December 5, 2023. Such shares will become vested upon the first to occur of (i) three months after the grant date (ii) an Acquisition of the Company.

In addition, the fifteenth amendment also updated certain financial covenants, including the Minimum Adjusted EBITDA levels, Minimum Tangible Net Worth, Minimum Liquidity and compliance with a Total Advance Rate.

8. LEASES

Lessor Information— Refer to Note 2 of these consolidated financial statements for further information about the Company's revenue generating activities as a lessor. The majority of the Company's customer agreements are considered operating leases.

Lessee Information— The Company determines if a contract contains a lease at inception. ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date of the lease based on the present value of lease payments over the lease term. The Company uses the incremental borrowing rate to determine the present value of lease payments, as the implicit rate is not readily determinable. The ROU asset also includes any lease payments made. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The Company leases office space in Plano, TX and New York, NY under operating leases with a non-cancelable lease term which end in August 2023 and June 2025, respectively. Lease expenses are included in general and administrative expenses on the consolidated statement of operations and comprehensive (loss) income. The following is a schedule of future minimum lease payments required under the non-cancelable leases as of December 31, 2022, reconciled to the present value of operating lease liabilities:

Years Ending December 31,

2023	\$	456
2024		334
2025		170
Thereafter		—
Total future minimum lease payments	\$	960
Less: Interest		(133)
Total present value of lease liabilities	\$	827

Lease Liabilities—Lease liabilities as of December 31, 2022, consists of the following:

Current portion of lease liabilities	\$	382
Long-term lease liabilities, net of current portion		445
Total lease liabilities	\$	827

Rent expense for operating leases for the years ended December 31, 2022 and 2021 were \$532 and \$569, respectively. Rent expense is recorded and included in general and administrative expenses on the consolidated statement of operations and comprehensive (loss) income. As of December 31, 2022, the Company had a weighted average remaining lease term of 2.2 years and a weighted average discount rate of 9.25%.

9. STOCK-BASED COMPENSATION

The Company has two stock incentive plans, the Cognical Holdings, Inc. 2014 Stock Incentive Plan, (the “2014 Plan”) and the Katapult Holdings, Inc. 2021 Equity Incentive Plan, (the “2021 Plan”).

2014 Plan

In accordance with the 2014 Plan, the board of directors of Legacy Katapult could grant equity awards to officers, employees, directors and consultants for common stock. There were no stock options granted to non-employees during 2022 and 2021. The 2014 Plan has specific vesting for each stock option grant allowing vesting of the options over one to four years depending upon the grantee. Upon consummation of the prior year Merger, no additional equity awards are being granted under the 2014 Plan. No awards have been granted under the 2014 Plan since October 2020.

Stock Options

A summary of the status of the stock options under the 2014 Plan as of December 31, 2022, and changes during the year then ended is presented below:

	Number of Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (In Years)	Aggregate Intrinsic Value
Balance - December 31, 2021	8,371,097	\$ 0.29	7.33	25,773
Granted	—	—		
Exercised	(295,203)	0.23		
Forfeited/Expired	(4,510)	0.85		
Balance - December 31, 2022	8,071,384	\$ 0.30	6.32	5,479
Exercisable - December 31, 2022	8,063,747	\$ 0.29	6.32	5,479
Unvested - December 31, 2022	7,637	\$ 3.50	7.79	—

The total intrinsic value of stock options exercised during the year ended December 31, 2022 and 2021 was \$216 and \$6,642, respectively.

As of December 31, 2022, total compensation cost not yet recognized related to unvested stock options was \$18, which is expected to be recognized over a period of 1.46 years.

2021 Plan

On June 9, 2021, the 2021 Plan, which was previously approved by the FinServ board of directors and FinServ stockholders in connection with the Merger, became effective.

In accordance with the 2021 Plan, directors may issue equity awards, including restricted stock awards ("RSA"), restricted stock unit awards ("RSU") and stock options to officers, employees, directors and consultants to purchase common stock. The awards granted are subject to either service-based and/or performance-based vesting conditions. Awards granted under the 2021 Plan generally vest over one to four years depending upon the grantee.

Stock Options

A summary of the status of the stock options under the 2021 Plan as of December 31, 2022, and changes during the year then ended is presented below:

	Number of Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (In Years)	Aggregate Intrinsic Value
Balance - December 31, 2021	346,603	\$ 10.45	9.5	\$ —
Granted	—	—		
Exercised	—	—		
Forfeited	—	—		
Balance - December 31, 2022	346,603	\$ 10.45	8.5	\$ —
Exercisable - December 31, 2022	180,522	10.45	8.5	\$ —
Unvested - December 31, 2022	166,081	\$ 10.45	8.5	\$ —

As of December 31, 2022, total compensation cost not yet recognized related to unvested stock options was \$1,003, which is expected to be recognized over a period of 1.88 years.

No stock options were granted under the 2021 Plan during the year ended December 31, 2022.

Stock Options Valuation—The weighted-average assumptions used to estimate the fair value of stock options granted during the years ended December 31, 2022 and 2021 are as follows:

	Years Ended December 31,	
	2022	2021
Exercise price	\$ —	\$ 10.45
Risk-free interest rate	— %	1.02 %
Expected term (in years)	—	5.78
Expected volatility	— %	66.90 %
Expected dividend yield	0 %	0 %

Restricted stock Units

RSUs are equity awards granted to employees that entitle the holder to shares of common stock when the awards vest. RSU's are measured based on the fair value of the Company's common stock on the date of grant.

A summary of the status of RSU's under the 2021 Plan as of December 31, 2022, and changes during the year then ended is presented below:

	Number of RSUs	Weighted Average Grant Date Fair Value
Outstanding - December 31, 2021	2,115,162	\$ 6.10
Granted	5,957,968	1.78
Vested	(946,091)	5.96
Forfeited	(985,925)	3.30
Outstanding - December 31, 2022	6,141,114	\$ 2.38

Stock-Based Compensation Expense—Stock-based compensation expense was \$6,439 and \$13,020 for the years ended December 31, 2022 and 2021, respectively. Stock-based compensation expense is included in compensation costs on the consolidated statements of operations and comprehensive (loss) income.

As of December 31, 2022, there was approximately \$11,493 of unrecognized compensation costs related to unvested RSUs. This amount is expected to be recognized over a weighted-average period of 1.41 years. The total fair value of vested RSUs as of their respective vesting dates were \$1,409.

Shares Available For Future Issuance—At December 31, 2022, there were 1,728,256 shares available for issuance by the Company under the 2021 Plan.

10. INCOME TAXES

The Company recorded a federal income tax loss fully related to its U.S.-based jurisdictions for the years ended December 31, 2022 and 2021, respectively, and since it maintains a full valuation allowance on all of its deferred tax assets, the Company recorded no federal provision for income tax or benefit during the years ended December 31, 2022 and 2021, respectively. The benefit for income taxes during the year ended December 31, 2022, relates primarily to reductions in certain state income tax obligations. The provision for income taxes for the year ended December 31, 2021 relates primarily to state income taxes.

A reconciliation of the Company's statutory income tax rate to the Company's effective income tax rate is as follows:

	Years Ended December 31,	
	2022	2021
Federal statutory rate	21.0%	21.0%
Effect of:		
State taxes, net of federal tax benefit	7.2%	(6.3%)
Change in valuation allowance	(29.6%)	22.9%
Warrant remeasurement	3.6%	(35.3%)
Transaction costs	—%	(5.2%)
Nondeductible officer compensation	—%	20.9%
Stock compensation	(2.3%)	(17.3%)
Other, net	0.3%	1.8%
Effective tax rate	0.2%	2.5%

The components of deferred tax assets and liabilities are as follows:

	December 31,	
	2022	2021
Deferred tax assets:		
Accruals and reserves	\$ 639	\$ 1,950
Federal, state and local net operating loss carryforwards	32,594	28,780
Section 163(j) interest carryforward	4,730	—
Lease liabilities	209	—
Stock compensation	1,172	776
Total deferred tax asset before valuation allowance	39,344	31,506
Valuation allowance	(30,561)	(19,325)
Deferred tax asset - net of valuation allowance	8,783	12,181
Deferred tax (liabilities):		
Right-of-use assets	(195)	—
Depreciation & amortization	(8,588)	(12,181)
Total deferred tax (liabilities)	(8,783)	(12,181)
Net deferred tax asset (liability)	\$ —	\$ —

As of December 31, 2022 and 2021, the Company had a U.S. federal net operating loss carryforward of \$134,100 and \$119,200, respectively. As of December 31, 2022 and 2021, the Company has state net operating loss (“NOL”) carryforwards of \$86,000 and \$71,900, respectively. Of the \$134,100 of Federal NOL carryforwards, \$35,700 begins to expire in 2032 and \$98,400 may be carried forward indefinitely. The state net operating loss carryforwards begin to expire in 2023.

Future realization of the tax benefits of existing temporary differences and net operating loss carryforwards ultimately depends on the existence of sufficient taxable income within the carryforward period. As of December 31, 2022 and 2021, the Company performed an evaluation to determine whether a valuation allowance was needed. The Company considered all available evidence, both positive and negative, which included the results of operations for the current and preceding years. The Company determined that it was not possible to reasonably quantify future taxable income and determined that it is more likely than not that all of the deferred tax assets will not be realized. Accordingly, the Company maintained a full valuation allowance as of December 31, 2022 and 2021.

Under Internal Revenue Code Section 382, if a corporation undergoes an “ownership change,” the corporation’s ability to use its pre-change NOL carryforwards and other pre-change tax attributes to offset its post-change income may be limited. We have not completed a study to assess whether an “ownership change” has occurred or whether there have been multiple ownership changes since we became a “loss corporation” as defined in Section 382. Future changes in our stock ownership, which may be outside of our control, may trigger an “ownership change.” In addition, future equity offerings or acquisitions that have equity as a component of the purchase price could result in an “ownership change.” If an “ownership change” has occurred or does occur in the future, utilization of the NOL carryforwards or other tax

attributes may be limited, or potentially significantly deferred compared to such ability in the absence of an "ownership change", which could potentially result in increased future tax liability to the Company.

The calculation of the Company's tax liabilities involves dealing with uncertainties in the application of complex tax laws and regulations for both federal taxes and the many states in which we operate or do business in. ASC 740 states that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, on the basis of the technical merits.

The Company records uncertain tax positions as liabilities in accordance with ASC 740 and adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Because of the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the Company's current estimate of the unrecognized tax benefit liabilities. These differences will be reflected as increases or decreases to income tax expense in the period in which new information is available. As of December 31, 2022 and 2021 the Company has not recorded any uncertain tax positions in our consolidated financial statements.

The Company recognizes interest and penalties related to unrecognized tax benefits on the income tax expense line in the accompanying consolidated statement of operations and comprehensive (loss) income. As of December 31, 2022 and 2021, no accrued interest or penalties are included on the related tax liability line in the consolidated balance sheet.

The Company files tax returns as prescribed by the tax laws of the jurisdictions in which it operates. In the normal course of business, the Company is subject to examination by federal and state jurisdictions, where applicable. There are currently no pending tax examinations. The Company's tax years are still open under statute from December 31, 2019, to the present. The resolution of tax matters is not expected to have a material effect on the Company's consolidated financial statements.

11. NET (LOSS) INCOME PER SHARE

The following table sets forth the computation of net (loss) income per common share:

	Year Ended December 31,	
	2022	2021
Net (loss) income per share		
Numerator		
Net (loss) income	\$ (37,871)	\$ 21,206
Denominator		
Denominator for basic net (loss) income per weighted average common shares	98,241,965	68,502,092
Effect of dilutive securities		
Warrants	—	2,805,302
Unvested RSUs	—	265,692
Stock options	—	9,000,132
Denominator for diluted net (loss) income per weighted average common shares	98,241,965	80,573,218
Net (loss) income per common share		
Basic	\$ (0.39)	\$ 0.31
Diluted	\$ (0.39)	\$ 0.26

The Company's potentially dilutive securities, which include unvested RSUs, stock options to purchase common stock and warrants to purchase common stock, have been excluded from the computation of diluted net (loss) income per share for certain periods, as the effect would be antidilutive. Therefore, the weighted-average number of common shares outstanding used to calculate both basic and diluted net (loss) income per share is the same in periods of a net loss. The Company excluded the following potential common shares, presented based on amounts outstanding at each period end,

from the computation of diluted net (loss) income per share for the periods indicated because including them would have had an anti-dilutive effect:

	Year Ended December 31,	
	2022	2021
Public warrants	12,500,000	12,500,000
Private warrants	332,500	332,500
Options to purchase common stock	8,417,987	346,603
Unvested restricted stock units	6,141,114	—
Total common stock equivalents	27,391,601	13,179,103

12. COMMITMENTS AND CONTINGENCIES

Litigation risk— From time to time, the Company may become involved in various legal actions arising in the ordinary course of business. Management is of the opinion that the ultimate liability, if any, from these actions will not have a material effect on its financial condition or results of operations. The Company is not currently aware of any material indemnification or other claims, except as discussed below and has not accrued any material liabilities related to such obligations in the consolidated financial statements as of December 31, 2022 and 2021.

Except as set forth below, the Company and its subsidiaries are not a party to, and their properties are not the subject of, any material pending legal proceedings.

DCA Litigation

On April 9, 2021, Daiwa Corporate Advisory LLC (formerly known as DCS Advisory LLC) (“DCA”), a financial advisory firm, served the Company with a summons and a complaint filed in the Supreme Court of the State of New York, New York County, in a matter bearing the index number 652164/2021. The complaint relates to a March 22, 2018 letter agreement (the “Letter Agreement”) entered into by DCA and Legacy Katapult. Among other things, DCA alleges that the Letter Agreement confers upon DCA (i) a right to act as the “exclusive financial advisor” with respect to certain transactions defined in the Letter Agreement, (ii) a right to a “Placement Fee” and/or “mutually-agreed upon fees” in connection with such advisory roles, and (iii) a right to a \$100 termination fee payable in certain circumstances by the Company in the event that the Company terminated the Letter Agreement. For its first cause of action, DCA alleges that the Company “breached the Letter Agreement by failing and/or refusing to extend to DCA the opportunity to exercise its right of first refusal in connection with” certain transactions and the PIPE Investment. DCA seeks “damages in an amount to be determined at trial” with respect to this first cause of action. For its second cause of action, DCA alleges that, assuming the Company properly terminated the Letter Agreement in April 2019 (which DCA disputes), the Company, Inc. “also breached the Letter Agreement by failing to pay DCA a termination fee when it terminated the Letter Agreement.” DCA seeks “damages in an amount to be determined at trial, but no less than \$100” with respect to this second cause of action. With respect to both causes of action, DCA also seeks attorneys’ fees and costs pursuant to the Letter Agreement, an award of pre- and post-judgment interest, and such other and further relief as the Court deems just and proper.

On May 24, 2021, the Company filed its answer to the complaint and also asserted counterclaims against DCA for breach of contract and for breach of the duty of good faith and fair dealing. In connection with its counterclaims, the Company is seeking damages in the amount of approximately \$10,600 as well as attorneys’ fees and costs. The Company disputes the allegations in DCA’s complaint and intends to vigorously defend against the claims.

On July 29, 2021, the court entered a Preliminary Conference Order, which was subsequently amended on September 13, 2021, October 25, 2021, and June 27, 2022. Pursuant to the October 25, 2021 scheduling order, fact discovery was completed on June 24, 2022. On August 8, 2022, DCA filed its Note of Issue, stating that its damages demand is \$18,394, plus attorneys’ fees and costs. On September 12, 2022, DCA filed a motion seeking summary judgment as to both of its claims, and on September 13, 2022, the Company filed a motion seeking summary judgment as to DCA’s first cause of action. The parties filed opposition briefs on October 7, 2022. Reply briefs have been filed and the matter is in mediation.

Shareholder Litigation

On August 27, 2021, a putative class action lawsuit was filed in the U.S. District Court for the Southern District of New York against Katapult Holdings, Inc., two officers of FinServ, one of whom is a current Company director, and two officers of Legacy Katapult, both of whom are current Company officers. The lawsuit is captioned McIntosh v. Katapult Holdings, Inc., et al. On May 26, 2022, the Court appointed a lead plaintiff, who, on July 29, 2022, filed an amended complaint in the action. The amended complaint asserts violations of Sections 10(b), 14(a), and 20(a) of the Securities Exchange Act of 1934, and seeks an unspecified amount of damages on behalf of persons and entities that (a) beneficially owned and/or held FinServ common stock as of the close of business on May 11, 2021 and were eligible to vote at FinServ's June 7, 2021 special meeting (the "FinServ Putative Class"); or (b) purchased or otherwise acquired Katapult securities between June 15, 2021 and August 9, 2021, inclusive (the "Katapult Putative Class"). The amended complaint alleges that certain defendants misled the FinServ Putative Class by failing to disclose that prime lenders could and would reach down the credit waterfall and take Katapult's customers. The amended complaint further alleges that certain defendants misled the Katapult Putative Class by providing materially false and misleading financial guidance. The Company and the other defendants filed amended complaints on November 4, 2022. On January 9, 2023 the Company filed a motion to dismiss and is awaiting plaintiff's response. The Company and the other defendants intend to vigorously defend against the claims in this action.

The Company has not recorded any loss or gain contingencies associated with this matter as it is not probable or reasonably estimable at December 31, 2022.

13. FAIR VALUE MEASUREMENTS

The Company's financial instruments consist of its warrant liability, RLOC, and term loan facility.

The estimated fair value of the Company's RLOC, and term loan facility were as follows:

	December 31, 2022			December 31, 2021		
	Principal amount	Carrying amount	Fair value	Principal amount	Carrying amount	Fair value
Revolving line of credit	\$ 57,998	\$ 57,639	\$ 58,708	\$ 61,958	\$ 61,238	\$ 70,688
Term loan	53,785	48,057	56,828	51,664	40,661	58,143
	<u>\$ 111,783</u>	<u>\$ 105,696</u>	<u>\$ 115,536</u>	<u>\$ 113,622</u>	<u>\$ 101,899</u>	<u>\$ 128,831</u>

The estimated fair values of the Company's RLOC, and term loan facility were determined using Level 2 inputs based on an estimated credit rating for the Company and the trading value of debt for similar debt instruments with similar credit ratings.

There were no assets measured at fair value on a recurring basis as of December 31, 2022 and 2021, respectively. Liabilities measured at fair value on a recurring basis as of December 31, 2022 and 2021 were as follows:

	December 31, 2022			
	Total	Level 1	Level 2	Level 3
Liabilities:				
Warrant Liability - Public & Private Warrants	\$ 902	\$ 875	\$ —	\$ 27
Total Other Liabilities	<u>\$ 902</u>	<u>\$ 875</u>	<u>\$ —</u>	<u>\$ 27</u>

	December 31, 2021			
	Total	Level 1	Level 2	Level 3
Liabilities:				
Warrant Liability - Public & Private Warrants	\$ 7,341	\$ 7,125	\$ —	\$ 216
Total Other Liabilities	<u>\$ 7,341</u>	<u>\$ 7,125</u>	<u>\$ —</u>	<u>\$ 216</u>

Term Loan Warrants

Term Loan Warrants classified as Level 3 liabilities were valued using the probability weighted average of their value if a SPAC transaction occurred and their value if a SPAC transaction did not occur. The value under the SPAC transaction

scenario utilized the current value method, which estimated the total equity value of the Company. The value under the no-SPAC scenario was calculated using the Black-Scholes model.

During the year ended December 31, 2022, there were no transfers between Level 1 and Level 2, nor into and out of Level 3.

The following table summarizes the activity for the Company's Level 3 liabilities measured at fair value on a recurring basis:

	Warrant Liability
Balance as of December 31, 2021	\$ 7,341
Changes in fair value	(6,439)
Balance as of December 31, 2022	<u>\$ 902</u>

	Term Loan Warrant	Warrant Liability
Balance as of December 31, 2020	\$ 12,744	\$ —
Exercised	(13,102)	—
Assumed from Merger	—	44,272
Changes in fair value	358	(36,931)
Balance as of December 31, 2021	<u>\$ —</u>	<u>\$ 7,341</u>

14. SUBSEQUENT EVENTS

The Company evaluated subsequent events from December 31, 2022, the date of these consolidated financial statements, through March 9, 2023, which represents the date the consolidated financial statements were issued, for events requiring adjustment to or disclosure in these consolidated financial statements. Except as discussed below, there are no events that require adjustment to or disclosure in these consolidated financial statements.

Delaware Petition

The Company filed a petition on February 10, 2023 in the Delaware Court of Chancery (the "Court of Chancery") under 8 Del. C. §205, or Section 205 of the Delaware General Corporation Law (the "Petition") in order to resolve potential uncertainty with respect to the validity of the Company's certificate of incorporation and the Company's capitalization resulting from a recent Court of Chancery ruling. The Court of Chancery set a hearing date for February 27, 2023.

On February 27, 2023, the hearing took place and the Court of Chancery approved the Company's request for relief. The Court of Chancery then entered an order under 8 Del. C. §205 on February 27, 2023 (1) declaring the Company's current certificate of incorporation (the "Current Certificate of Incorporation"), including the filing and effectiveness thereof, as validated and effective retroactive to the date of its filing with the Office of the Secretary of State of the State of Delaware on June 9, 2021, and all amendments effected thereby and (2) ordering that the Company's securities (and the issuance of the securities) described in the Petition and any other securities issued in reliance on the validity of the Current Certificate of Incorporation are validated and declared effective, each as of the original issuance dates.

Credit Facility Amendment

On March 6, 2023, the Company entered into the fifteenth amendment to the credit agreement. As part of the amendment, the maturity date of the revolving loan facility and the term loans was extended to June 4, 2025 and the commitments under the revolving loan facility were reduced to \$75,000 from \$125,000. Additionally, the benchmark rate underlying the annual interest rate on both the revolving loan facility and the term loans was changed from LIBOR to SOFR, subject in each case to a 3% floor plus applicable credit adjustment spread, which is fixed at 0.10% in each case. The spread above the benchmark rate on the revolving facility was increased to 8.5% from 7.5% while the spread above the benchmark rate on the term loans remained at 8%.

In connection with the amendment to the Credit Facility, we repaid \$25,000 of outstanding principal amount of the term loan and issued a warrant to purchase up to 2,000,000 shares of our common stock at an exercise price of \$0.01 per share, which vests upon the earliest to occur of September 6, 2023 and a Change of Control. In addition under the terms of the credit agreement, we may be required to grant an additional 2,000,000 shares of common stock at the same exercise price under the warrant agreement if any amount of the principal balance of the term loan portion of the Credit Facility remains outstanding upon the earlier to occur of (i) December 5, 2023, (ii) an Acquisition of the Company or (iii) an Event of Default occurs under the Credit Facility prior to December 5, 2023. Such shares will become vested upon the first to occur of (i) three months after the grant date and (ii) an Acquisition of the Company, and (iii) the term loan has not been fully repaid by December 5, 2023.

In addition the fifteenth amendment also updated certain financial covenants including, the Minimum Adjusted EBITDA levels, Minimum Tangible Net Worth, Minimum Liquidity and compliance with a Total Advance Rate.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosures

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2022. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were not effective as of December 31, 2022, due to the existence of two outstanding material weaknesses in internal control over financial reporting that were identified in connection with the audits of our consolidated financial statements as of December 31, 2022 and 2021 and for the years in the two-year period ended December 31, 2022, and which are still being remediated.

Management's Report on Internal Control Over Financial Reporting

Management's Annual Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) and 15(d)-15(f) of the Exchange Act. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Our management, under the supervision and with the participation of the Company's chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2022. In making this assessment, management used the framework established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management has concluded that the Company's internal control over financial reporting was ineffective as of December 31, 2022, due to the existence of material weaknesses. Management reviewed the results of its assessment with the Audit Committee of the Board of Directors.

Material Weaknesses in Internal Control Over Financial Reporting

In connection with the audit of our financial statements as of December 31, 2022 and for the years in the two-year period ended December 31, 2022, our independent registered public accounting firm identified certain control deficiencies in the design and implementation of our internal control over financial reporting that in aggregate constituted material weaknesses. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our financial statements will not be prevented or detected on a timely basis. Our evaluation was based on the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") Internal Control — Integrated Framework (2013).

The material weaknesses relate to (1) an insufficient number of personnel with an appropriate level of U.S. GAAP knowledge and experience to create the proper control environment for effective internal control over financial reporting and to ensure that oversight processes and procedures in applying nuanced guidance to complex accounting transactions for financial reporting are adequate and (2) a lack of controls in place to review journal entries, reconcile journal entries to underlying support and evaluate if journal entries are in compliance with U.S. GAAP before the entries are manually posted. These material weaknesses were first identified in connection with the audit of our financial statements for the fiscal year ended December 31, 2018 and have not yet been remediated.

Remediation Efforts to Address Material Weaknesses

As part of our plan to remediate these material weaknesses, we are performing a full review of our internal control procedures. We have implemented, and plan to continue to implement, new controls and new processes. We cannot assure you that the measures that we have taken, and that will be taken, to remediate these material weaknesses will, in fact, remedy the

material weaknesses or will be sufficient to prevent future material weaknesses from occurring. We also cannot assure you that we have identified all of our existing material weaknesses.

The process of designing and implementing an effective financial reporting system is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to expend significant resources to maintain a financial reporting system that is adequate to satisfy our reporting obligations. While we are undertaking efforts to remediate these material weaknesses, the material weaknesses will not be considered remediated until our remediation plan has been fully implemented, the applicable controls operate for a sufficient period of time, and we have concluded, through testing, that the newly implemented and enhanced controls are operating effectively.

As part of continued remediation efforts, the Company hired Nancy Walsh as Chief Financial Officer. Ms. Walsh has extensive experience in leading the financial organization of publicly traded entities and maintaining an effective internal control environment. In addition, we continue to make progress with our external advisors on our COSO Integrated Control Framework and developing our internal control environment.

Attestation Report of the Registered Public Accounting Firm

This Annual Report on Form 10-K does not include an attestation report of our registered public accounting firm due to an exemption for “emerging growth companies.”

Changes in Internal Control Over Financial Reporting

Except as disclosed above, there were no changes in our internal control over financial reporting that occurred during the year ended December 31, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

Credit Facility Amendment

On March 6, 2023, the Company entered into the fifteenth amendment to the credit agreement. As part of the amendment, the maturity date of the revolving loan facility and the term loans was extended to June 4, 2025 and the commitments under the revolving loan facility were reduced to \$75,000 from \$125,000. Additionally, the benchmark rate underlying the annual interest rate on both the revolving loan facility and the term loans was changed from LIBOR to SOFR, subject in each case to a 3% floor plus applicable credit adjustment spread, which is fixed at 0.10% in each case. The spread above the benchmark rate on the revolving facility was increased to 8.5% from 7.5% while the spread above the benchmark rate on the term loans remained at 8%.

In connection with the amendment to the Credit Facility, we repaid \$25,000 of outstanding principal amount of the term loan and issued warrants to purchase up to 2,000,000 shares of our common stock at an exercise price of \$0.01 per share, which vests upon the earliest to occur of September 6, 2023 and a Change of Control. In addition, under the terms of the credit agreement, we may be required to grant an additional 2,000,000 shares of common stock at the same exercise price under the warrant agreement if any amount of the principal balance of the term loan portion of the Credit Facility remains outstanding upon the earlier to occur of (i) December 5, 2023, (ii) an Acquisition of the Company or (iii) an Event of Default occurs under the Credit Facility prior to December 5, 2023. Such shares will become vested upon the first to occur of (i) three months after the grant date and (ii) an Acquisition of the Company, and (iii) the term loan has not been fully repaid by December 5, 2023.

In addition the fifteenth amendment also updated certain financial covenants including, the Minimum Adjusted EBITDA levels, Minimum Tangible Net Worth, Minimum Liquidity and compliance with a Total Advance Rate.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not applicable.

Part III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item is incorporated by reference to our Proxy Statement for the 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2022.

Item 11. Executive Compensation

The information required by this item is incorporated by reference to our Proxy Statement for the 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2022.

Item 12. Security Ownership of Certain Beneficial Owner and Management and Related Stockholder Matters

The information required by this item is incorporated by reference to our Proxy Statement for the 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2022.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item is incorporated by reference to our Proxy Statement for the 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2022.

Item 14. Principal Accounting Fees and Services

The information required by this item is incorporated by reference to our Proxy Statement for the 2023 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2022.

Part IV

Item 15. Exhibits, Financial Statement Schedules

(a) The following documents are filed as a part of this Annual Report on Form 10-K:

(1) *Financial Statements:*

Index
Report of Independent Registered Public Accounting Firm (Deloitte LLP, New York, NY, PCAOB ID: 34)
Consolidated Balance Sheets
Consolidated Statements of Operations and Comprehensive (Loss) Income
Consolidated Statements of Stockholders' Equity (Deficit)
Consolidated Statements of Cash Flows
Notes to Consolidated Financial Statements

(a)(2) **Financial Statement Schedules**

All other schedules are omitted because they are not required or the required information is included in the financial statements or notes thereto.

(a)(3) **Exhibits**

The exhibits required to be filed as part of this report are listed in the Exhibit List attached hereto and are incorporated herein by reference.

Exhibit Number	Description
2.1†	Agreement and Plan of Merger, dated as of December 18, 2020, by and among FinServ Acquisition Corp., a Delaware corporation, Keys Merger Sub 1, Inc., a Delaware corporation, Keys Merger Sub 2, LLC, a Delaware limited liability company, Katapult Holdings, Inc., a Delaware corporation, and Orlando Zayas, in his capacity as the representative of all Pre-Closing Holders (incorporated by reference to Exhibit 2.1 of the Company's Registration Statement on Form 8-K, filed with the SEC on December 21, 2020).
3.1	Second Amended and Restated Certificate of Incorporation of the Company, dated June 9, 2021 (incorporated by reference to Exhibit 3.1 of the Company's Current Report on Form 8-K, filed with the SEC on June 15, 2021).
3.2	Amended and Restated By-Laws of the Company, dated June 9, 2021 (incorporated by reference to Exhibit 3.2 of the Company's Current Report on Form 8-K, filed with the SEC on June 15, 2021).
4.1	Form of Common Stock Certificate of the Company (incorporated by reference to Exhibit 4.1 of the Company's Current Report on Form 8-K, filed with the SEC on June 15, 2021).
4.2	Form of Warrant Certificate of the Company (incorporated by reference to Exhibit 4.2 of the Company's Form 8-K, filed with the SEC on June 15, 2021).
4.3	Warrant Agreement, dated October 31, 2019, by and between FinServ Acquisition Corp. and Continental Stock Transfer & Trust Company (incorporated by reference to Exhibit 4.1 of the Current Report on Form 8-K of FinServ Acquisition Corp. filed on November 6, 2019).
4.4	Description of the Registrant's Securities (incorporated by reference to Exhibit 4.4 to the Annual Report on Form 10-K for the Year Ended December 31, 2021, filed with the SEC on March 15, 2022).
10.1	Amended and Restated Registration Rights Agreement, dated June 9, 2021, by and among the Company and certain stockholders of the Company (incorporated by reference to Exhibit 4.4 of the Company's Form 8-K, filed with the SEC on June 15, 2021).
10.2	Form of Subscription Agreement, dated as of December 18, 2020, by and between the Company and the Subscriber party thereto (incorporated by reference to Exhibit 10.3 of the Company's Form 8-K, filed with the SEC on December 21, 2020).
10.3†	Provider Agreement, dated November 24, 2020, by and between Wayfair LLC and Katapult Group, Inc. (incorporated by reference to Exhibit 10.11 to Amendment No. 2 to the Registration Statement on Form S-4 of FinServ Acquisition Corp. filed with the SEC on May 5, 2021).

10.4#	Amended and Restated Executive Employment Agreement, dated May 4, 2021, by and between Katapult Holdings, Inc. and Orlando Zayas (incorporated by reference to Exhibit 10.12 to Amendment No. 2 to the Registration Statement on Form S-4 of FinServ Acquisition Corp. filed with the SEC on May 5, 2021).
10.5#	Amended and Restated Executive Employment Agreement, dated May 4, 2021, by and between Katapult Holdings, Inc. and Karissa Cupito (incorporated by reference to Exhibit 10.13 to Amendment No. 2 to the Registration Statement on Form S-4 of FinServ Acquisition Corp. filed with the SEC on May 5, 2021).
10.6#	Amended and Restated Executive Employment Agreement, dated May 4, 2021, by and between Katapult Holdings, Inc. and Derek Medlin (incorporated by reference to Exhibit 10.14 to Amendment No. 2 to the Registration Statement on Form S-4 of FinServ Acquisition Corp. filed with the SEC on May 5, 2021).
10.7#	Amended and Restated Employment Agreement, by and between the Company and Chandra Chopra dated as of September 3, 2021 (incorporated by reference to Exhibit 10.7 to the Annual Report on Form 10-K for the Year Ended December 31, 2021, filed with the SEC on March 15, 2022).
10.8#	Amended and Restated Employment Agreement, by and between the Katapult Holdings, Inc. and Fangqui Sun dated as of September 3, 2021 (incorporated by reference to Exhibit 10.8 to the Annual Report on Form 10-K for the Year Ended December 31, 2021, filed with the SEC on March 15, 2022).
10.9#	Form of Indemnification Agreement by and between the Company and its directors and officers (incorporated by reference to Exhibit 10.2 of the Company's Form 8-K filed with the SEC on June 15, 2021).
10.10#	Katapult Holdings, Inc. 2021 Equity Incentive Plan (incorporated by reference to Exhibit 99.1 to the Registration Statement on Form S-8 filed with the SEC on August 16, 2021).
10.11#	Forms of Stock Option Grant Notice and Stock Option Agreement under the Katapult Holdings, Inc. 2021 Equity Incentive Plan (incorporated by reference to Exhibit 99.2 to the Registration Statement on Form S-8 filed with the SEC on August 16, 2021).
