NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business

Magen Financial, LLC (the “Company”) was formed on July 16, 2019, pursuant to the laws of the State of Delaware and approved as a broker / dealer by Financial Industry Regulatory Authority, Inc. on August 10, 2020. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority, Inc. The Company is also a member of the National Futures Association which is regulated by the Commodities Futures Trading Commission “(CFTC)”. Magen Financial, LLC is a wholly owned subsidiary of Hyber Holdings LLC (the “Parent”). The Company engages in interdealer brokerage in the equity derivative markets, introducing clients to each other in return for a commission.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) as detailed in the Financial Accounting Standards Board’s Accounting Standards Codification.

Cash and Cash Equivalent

For purposes of reporting cash equivalents, the company considers highly liquid instruments with a purchased maturity of three months or less as cash equivalents. The Company held no cash equivalents as of December 31, 2023. The Company’s cash is held at a financial institution in the United States. Its cash balances may at times exceed Federally insured limits. The Company has not experienced any losses with respect to this concentration.

Accounts Receivable

In 2020, the Company adopted ASU 2016-13, Financial Instruments – Credit Losses (Topic 326), which created a new framework to evaluate financial instruments, such as trade receivables, for expected credit losses. This new framework replaced the original incurred loss approach and is expected to result in more timely recognition of credit losses. The adoption of the ASU did not have an impact on its financial statements and related disclosures. Accounts receivable are reported at the amount management expects to collect on balances outstanding at year-end.

Estimates

The preparation of financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

Income taxes

The Company is a single member limited liability company. The Internal Revenue Code (“IRC”) provides that any income or loss is passed through to the member for federal and state income tax purposes. Accordingly, the Company has not provided for federal, state, or local income taxes.

As of December 31, 2023, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. This determination will always be subject to ongoing reevaluation as facts and circumstances may require. The Company remains subject to U.S. federal and state income tax audits for the current and prior years.

On January 1, 2021, the Company adopted ASU 2019-12 (Topic 740) which incorporated ASC 740-10-30-27A to clarify that legal entities that are not subject to tax such as certain partnerships and disregarded single member limited liability companies are not required to include, in their separate financial statements, allocated amounts of consolidated

current and deferred taxes. The adoption of the ASU did not have a material impact on the Company's financial statements and related disclosures.

Leases

The Company has a month to month lease with respect to operating facilities. The Company recognizes and measures its leases in accordance with Financial Accounting Standards Board Standards Codification FASB ASC 842, Leases. This guidance requires public business entities to recognize a right-of use asset and a lease liability in the statement of financial condition. The Company has elected an exemption to this guidance for its short-term office leases of less than twelve months and recognizes the lease payments on a straight-line basis over their remaining life. Management believes the impact of Topic 842 and the election of the exemption has no material impact on the statement of financial condition.

NOTE 2 - NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), and Net Capital requirements of the CFTC Regulation 1.1.7. The Company has elected the alternative standard which requires the maintenance of minimum net capital equal to the greater of 2% of combined aggregate debit items, as defined, or \$250,000. In addition, this Rule may limit the amount of equity capital that can be withdrawn by its members.. At December 31, 2023, the Company's minimum net capital required under FINRA Rule 15c3-1 was \$250,000 and \$45,000 under CFTC Regulation 1.17, respectively. As of December 31, 2023, the Company had regulatory net capital of \$937,138, which was \$687,138 in excess of its required minimum of \$250,000.

NOTE 3 - CONCENTRATIONS OF CREDIT RISK

The Company's cash deposits exceeded the insured amounts by approximately \$2,010,047 as of December 31, 2023.

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash balances and accounts receivable. It is the Company's policy to review, as necessary, the credit standing of its counterparties.
