Voting Rights: Please refer to the Company Agreement incorporated into the subscription packet.

The price of the Securities has been determined by the Company and does not necessarily bear any relationship to the assets, book value, or potential earnings of the Company or any other recognized criteria or value.

Location and Lot: The property address is 11211 Tyne Court, Houston, TX 77024. The 26,050 square foot lot is heavily wooded and is located on a quiet cull-de-sac street surrounded by estate homes. There is currently a 4,442 square foot house on the lot that was built in 1960. The existing home has never flooded.

The Building: The plan is to raze the current house on the lot and build a custom 10,500 square foot transitional style home. We are currently in the design phase and will have a full set of construction plans by the end of September 2019. Construction costs are projected to be \$2,572,500.

Financing: The Company has approached BankcorpSouth for financing in the amount of \$3,300,000, and they are receptive to the project. We anticipate having the financing in-place for closing. The remaining capital needed to fully fund the project is \$1,400,000, of which \$1,000,000 will come through Equity Door, LLC.

Timeline: The projected timeline, from purchase to sale of the new home is 24 to 27 months.

Projected Profit and Gross Margin: The company is projecting a profit of \$1,084,319, putting the projected gross margin at 21.40%. The property is located prestigious Piney Point Village located on the west side of Houston. The Village has a total area of 2.1 square miles, all of it land. The City of Piney Point was founded in 1954 with an alderman form of government.

As of the census of 2010, there were 3,125 people, 1,064 households, and 945 families residing in the city. As of 2010, Piney Point Village is the wealthiest location in Texas by per capita income. Piney Point Village is serviced by the Memorial Village Police Department and the Village Fire Department.

Neighborhood Information: In 1824, John D. Taylor received a land grant from Stephen F. Austin for a league centered on “pine point” at the southernmost turn of Buffalo Bayou. Taylor’s house became known as Piney Point. Our research does not tell us why Taylor selected this land so distant from other settlements in the area. It may have been due to its resources of water and timber or its natural location as a stopping point between John Harris’ settlement of Harrisburg and Stephen F. Austin’s headquarters in San Felipe de Austin.

In 1844, the Board of Roads and Revenues of Harris County approved a public road from Houston (founded in 1836) to Piney Point and on to the county line. By 1885, Piney Point was a station on the Texas Western Railroad and was part of a settlement of largely German farmers. In 1936, state highway maps located Piney Point near several sawmills in the area. In 1954 Piney Point was incorporated with an alderman form of government and by 1966 had a public school and four churches.

The population rose from 1,790 in 1960 to 3,257 in 1990, to 3,380 in 2000, and dropped slightly to 3,125 in 2010. As of the 2010 census there were 3,125 people, 1,064 households and 945 families residing within the city limits. As of 2010, Piney Point Village has the highest per capita income in Texas.

Market Area Forecast: There are a few key market indicators that we keep our eyes on. Two of the most important are population and job growth. Believe it or not, we look at where U-Haul Trailers are heading. Houston, once again, is the #1 destination in the country. Why is that you might ask? Well, Houston is also #1 for job openings in the state and 5th in the country! The articles referenced can be found in the appendix.

We also keep an eye on home inventory. This year, the effects of Hurricane Harvey are skewing the numbers for 2017-2018 in our opinion. Nonetheless, inventory seems to be holding steady at 3.9 months indicating it's still a seller's market. We also like what we're still seeing in the luxury home market, which is where we like to play. Homes sales for \$750K+ are up 12% over last year.

According to the October 2018 Houston Association of Realtors (HAR) report, the luxury segment of the market was the strongest performing segment of the Houston real estate market. The overall market moved forward as well with the volume of single family home sales increasing by 4.7% and the median home price increasing 3.5% to \$294,500.

Home sales broken out by housing segment:

- \$1– \$99,999: decreased 9.0 percent
- \$100,000 – \$149,999: decreased 5.3 percent
- \$150,000 – \$249,999: increased 3.9 percent
- \$250,000 – \$499,999: increased 11.6 percent
- \$500,000 – \$749,999: increased 8.3 percent
- \$750,000 and above: increased 12.0 percent

Oil prices have also rebounded to a profitable level. Although Houston's economy isn't as dependent on oil as it used to be, it still has an effect. We have now been in the \$60/barrel range

• Lot Purchase Price	\$1,625,000
• Projected Construction Costs	\$2,572,500
• Purchase Closing Costs	\$ 32,500
• Projected Holding Costs	\$ 143,830
• Projected Financing Costs	\$ 331,382
• Projected Realtor Commissions	\$ 310,000
• Projected Sale Closing Costs	\$ 43,400
• Projected Staff Profit Sharing	\$ 57,069
• Projected Gross Profit	\$1,084,319

Financing: The Company is currently seeking bank financing through BankcorpSouth in the amount of \$3,300,000. The construction loan interest rate is projected to be 6.500% with a three-year term to give some cushion in case of unexpected delays. We are projecting the total loan expense to be \$298,382 with an origination fee of \$33,000, bringing the total bank financing costs to \$331,382.

The remaining capital needed to fully fund the project is \$1,400,000, of which \$1,000,000 to be funded by Equity Door, LLC. in exchange for 25% of the Company Membership Interests.

Timeline: The Company is scheduled to close the lot on October 31, 2019. It typically takes two months to develop the plans and obtain HOA approval. Once that is complete we move to the engineering stage, which usually takes one to two months. We are then ready to submit to the city for permitting. The City of Piney Point Village is fairly strict about approving plans, but we are familiar with the process. We anticipate the city to take one to two months to approve the plans and issue a building permit. Thus, we anticipate the pre-construction process to take four to six months.

We then move to the construction phase of the project. For a 10,000+/- square foot home it usually takes the Company 12 to 15 months to complete. Once the home is complete it typically takes four to six months to sell due to the size and price-point. The entire process, from purchase of the lot to the sale of the asset should be 20 to 27 months.

Construction Budget: The preliminary construction budget is projected to be \$2,572,500. A detailed construction budget will be put together once plans are complete in the next two months and will be made available to investors.

Comparable Market Analysis: We determined the projected sales price by doing a comparative market analysis. The average price per square foot in the area, for new construction homes, is \$590.48. Based on the home being 10,500 square feet, it puts the projected value at \$6,200,000.

Officer(s)/Director(s) of the Company: Bryan Upton - President and CEO

Bryan Upton has a lifelong passion for residential real estate and a proven track record of success in entrepreneurial ventures. He founded Refined Custom Builders in 2013 with the mission of helping clients design and build their dream homes in Houston's finest neighborhoods. The team of seasoned professionals Mr. Upton has assembled at Refined Custom Builders reflects his personal commitment to providing the highest level of expertise across all aspects of the home building process, from site planning and floor plan layouts to premium interior finishes and master craftsmanship.

Mr. Upton's involvement in real estate began in the mid-1990s when he launched a residential paint contracting company that became one of the largest in the Houston area. Under his leadership, the company not only exceeded the industry average in sales by 500%, but also achieved a 95.7% customer satisfaction rating and gained 82% of its business from repeat and referral clients. After selling the paint contracting company and spending a couple of years as an award-winning sales representative for a national health insurance firm, Mr. Upton realized that real estate was his true personal and professional passion. In 2003, he began researching the real estate investment market and by 2007 he had acquired almost three dozen single-family rental properties as well as a small multi-family apartment complex. As a result of his success, he was recruited by a real estate consulting firm to mentor new investors on the best strategies for identifying, evaluating, financing, closing, rehabilitating, leasing, and selling investment properties. In 2009, Mr. Upton was recruited to join Guardian Equity Management, where he served first as Executive Vice President and was later promoted to Chief Executive Officer responsible for seven of the company's divisions.

Since leaving Guardian in 2013 to establish Refined Custom Builders, Mr. Upton has continued to add to his personal real estate portfolio domestically and internationally. He is a sought-after lecturer for real estate groups and has guest hosted numerous radio programs dedicated to real estate investing. Mr. Upton acquired his real estate agent license in 2008, his broker designation in 2010, and holds a Certified Graduate Builder designation from the National Association of Home Builders. He earned a Bachelor's degree with a specialty in Entrepreneurship from the University of Texas in 1994. Outside of work, Mr. Upton trains in Mixed Martial Arts and holds a purple belt in Brazilian Jiu Jitsu.

Case Study of Comparable Projects Completed:

Bridlewood – Project Summary: The Bridlewood Street Project is a good example of what Refined Custom Builders specializes in, and is very similar to size, scope, and location to the subject property. We locate infill lots in some of Houston's most prestigious neighborhoods, raze the old structure, and then build a custom luxury home in its place. The Bridlewood Street Project was

located on a 22,440 square foot lot in the Piney Point area of Houston. Due to the lot size we were able to be flexible with our design allowing for a fantastic front elevation and floor plan. The final total framed square footage came to 9,867 square feet, and the conditioned home is 8,568 square feet.

Project Results: We purchased the lot for \$1,200,000 and the cost to build was \$2,259,905 for a total purchase and construction cost of \$3,459,905. Holding, Closing, Financing, and Sales Expenses were \$112,196. The Gross profit on the project was \$431,301:

- Sale Price \$4,638,489
- Purchase Price \$1,200,000
- Construction Cost \$2,514,936
- Financing Costs \$ 184,590
- Holding/Sale Cost \$ 307,662
- Gross Profit \$ 431,301
- The gross margin on this project came out at 9.3%.

The Sponsor had a capital investment of \$156,606. There was one other LLC Member in this project with a capital account of \$720,864. The LLC member made a 15% annualized return on investment ($\$215,651 / \$720,864 = 30\%$ Return on Investment / 24 months = 15% Annualized ROI). The total annualized ROI for the project was 24.6%.

2 Plumb St. – Project Summary: The Plumb Street Project is a good example of what Refined Custom Builders specializes in. We locate infill lots in some of Houston's most prestigious neighborhoods, raze the old structure, and then build a custom luxury home in its place. The Plumb Street Project was located on a 5,250 square foot lot in the West University area of Houston. Due to the lot size we were limited on the size of house we could build due to city restrictions. The city only allows you to build 80% of the lot size. Therefore, the maximum size of the house was 4,200 square feet, and includes the garage, porches, and any covered patio spaces. The final total framed square footage came to 4,192 square feet. However, the conditioned home is 3,741 square feet.

Project Results: We purchased the lot for \$566,500 and the cost to build was \$591,813 for a total purchase and construction cost of \$1,158,313. Holding, Closing, Financing, and Sales Expenses were \$112,196. The Gross profit on the project was \$159,577:

- Sale Price \$1,508,865
- Purchase Price \$ 566,500
- Construction Cost \$ 591,813

- Financing Costs \$ 78,779
- Holding/Sale Cost \$ 112,196
- Gross Profit \$ 159,577
- The gross margin on this project came out at 10.6%.

There were two private lenders in this project for \$290,000 each. They were paid a 12% deferred return of \$44,619 each ($\$290,000 \times .12 = \$34,800 / 365 = \$95.34/\text{day} \times 468 \text{ days invested} = \$44,619$).

Marquette – Project Summary: The Marquette Project is a good example of what Refined Custom Builders specializes in. We locate infill lots in some of Houston's most prestigious neighborhoods, raze the old structure, and then build a custom luxury home in its place. The project was located on a 4,962 SqFt lot in the West University area of Houston. The maximum size of the home we could build was 3,970 square feet due to city restrictions. The final total framed square footage was 3,967 square feet. However, the conditioned home is 3,490 square feet.

Project Results: We purchased the lot for \$482,500 and the cost to build was \$500,949 for a total purchase and construction cost of \$983,449. Holding, Closing, Financing, and Sales Expenses were \$133,468. The Gross profit on the project was \$172,830:

- Sale Price \$1,289,747
- Purchase Price \$ 482,500
- Construction Cost \$ 500,949
- Financing Costs \$ 58,312
- Holding/Sale Cost \$ 75,156
- Gross Profit \$ 172,830
- The gross margin on this project came out at 13.4%.

There were two private investors in this project for \$290,000 each. They were paid a 12% deferred return of \$37,659 each ($\$290,000 \times .12 = \$34,800 / 365 = \$95.34/\text{day} \times 395 \text{ days invested} = \$37,659$).

RISK FACTORS

Risks Related to the Company's Business and Industry

We have no operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were incorporated under the laws of Texas on September 3, 2019. Accordingly, we have no

history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with a new enterprise. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Bryan Upton, the Manager of the Company. The Company may enter into employment agreements with Mr. Upton although there can be no assurance that it will do so or that he will continue to be employed by the Company for a particular period of time. The loss of Mr. Upton or any Manager or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Bryan Upton in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to Mr. Upton in the event of his death or disability. Therefore, if Mr. Upton dies or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income-based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes in the US.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

Failure to attract and retain qualified personnel at a reasonable cost could jeopardize our competitive position.

As our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to attract and retain quality sales, technical and other operational personnel in the future. We compete with other companies engaged in online real estate services and internet-related businesses and with print media for qualified personnel. We have, from time to time in the past, experienced, and we expect in the future to continue to experience, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. We must hire and train qualified managerial and other employees on a timely basis to keep pace with potential growth while maintaining consistent quality of services across our operations. We must provide continued training to our managerial and other employees so that they are equipped with up-to-date knowledge of various aspects of our operations and can meet our demand for high-quality services. If we fail to do so, the quality of our services may decline. We cannot assure you we will be able to attract or retain the quality personnel that we need to achieve our business objectives.

The former decline in economic conditions and disruptions to markets could cause us to suffer operating losses, adversely affect our liquidity, and create other business problems for us.

The global and U.S. economies experienced significant declines in 2008 and 2009 from which they have not fully recovered. The real estate and other markets suffered unprecedented disruptions, causing many major institutions to fail or require government intervention to avoid failure, which placed severe pressure on liquidity and asset values. These conditions were brought about largely by the erosion of U.S. and global credit markets, including a significant and rapid deterioration of the mortgage lending and related real estate markets. While there have been indications of a recovery, we could experience significant losses, resulting primarily from significant provisions for credit losses and impairment charges resulting in substantial decreases in the net carrying value of our assets as a consequence of the difficult economic environment. Economic conditions or the real estate and other markets generally may not fully recover in the near term, in which case we could experience losses and write-downs of assets, and could face capital and liquidity constraints and other business challenges.

Our business operations are susceptible to, and could be significantly affected by, adverse weather conditions and natural disasters that could cause significant damage to our properties.

Although we intend to obtain insurance for our properties, our insurance may not be adequate to cover business interruption or losses resulting from adverse weather or natural disasters. In addition, our insurance policies may include substantial self-insurance portions and significant deductibles and co-payments for such events, and recent hurricanes in the United States have affected the availability and price of such insurance. As a result, we may incur significant costs in the event of adverse weather conditions and natural disasters. If we experience a loss that is uninsured or which exceeds our policy limits, we could incur significant costs and lose the capital invested in the damaged properties, as well as the anticipated future cash flows from those

properties. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged. In addition, certain of our properties may not be able to be rebuilt to their existing height or size at their existing location under current land-use laws and policies. In the event that we experience a substantial or comprehensive loss of one of our properties, we may not be able to rebuild such property to its existing specifications and otherwise may have to upgrade such property to meet current code requirements.

We are subject to risks that affect the general residential environment.

Our property is in the competitive Houston, Texas residential estate market. This fact means that we are subject to factors that affect the residential real estate environment generally, including the level of rents charged, influx of available housing, consumer spending and consumer confidence, unemployment rates, the threat of terrorism and increasing competition from discount retailers, outlet malls, retail websites and catalog companies. These factors could adversely affect the financial condition of our tenants, potential tenants and the willingness of to lease the property.

General economic conditions could have an adverse effect on our business and results of operations.

Our business is sensitive to general economic conditions, both nationally and locally, as well as international economic conditions. General poor economic conditions and the resulting effect of non-existent or slow rates of growth in the markets in which we operate could have an adverse effect on the demand for our real estate business. These poor economic conditions include higher unemployment, inflation, deflation, increased commodity costs, decreases in consumer demand, changes in buying patterns, a weakened dollar, higher transportation and fuel costs, higher consumer debt levels, higher tax rates and other changes in tax laws or other economic factors that may affect commercial and residential real estate. Specifically, high national or regional unemployment may arrest or delay any significant recovery of the residential real estate markets in which we operate, which could adversely affect the demand for our real estate assets.

Uninsured losses may adversely affect our business.

We, or in certain instances, tenants of our properties, carry property and liability insurance policies with respect to the properties. This coverage has policy specifications and insured limits customarily carried for similar properties. However, certain types of losses (such as from earthquakes and floods) may be either uninsurable or not economically insurable. Should a property sustain damage as a result of an earthquake or flood, we may incur losses due to insurance deductibles, co-payments on insured losses or uninsured losses. Should an uninsured loss occur, we could lose some or all of our capital investment, cash flow and anticipated profits related to one or more properties. This could have an adverse effect on our business and results of operations.

Inflation or deflation may adversely affect our results of operations and cash flows.

Increased inflation could have an adverse impact on interest rates, property taxes, management expenses and general and administrative expenses, as these costs could increase at a rate higher

than our rental and other revenue. Conversely, deflation could lead to downward pressure on rents and other sources of income without an accompanying reduction in our expenses. Accordingly, inflation or deflation may adversely affect our results of operations and cash flows.

Increasing interest rates may adversely affect us.

Amounts outstanding under our credit agreements bear interest at variable interest rates. When interest rates increase, so will our interest costs, which could adversely affect our cash flow, our ability to pay principal and interest on our debt, our cost of refinancing our debt when it becomes. An increase in interest rates could decrease the amount buyers may be willing to pay for our properties, thereby reducing the market value of our properties and limiting our ability to sell properties or to obtain mortgage financing secured by our properties. Further, increased interest rates may effectively increase the cost of properties we acquire to the extent we utilize leverage for those acquisitions and may result in a reduction in our acquisitions. Interest rates may increase our cost of capital, including decreasing the amount of equity and debt we may be able to raise, increasing the extent of dilution from any equity offering we may make or increasing the costs to us for any such equity or debt offering.

Market Fluctuations in Rental Rates and Occupancy Could Adversely Affect Our Operations.

As leases turn over, our ability to re-lease the property to existing or new tenants at rates equal to or greater than those realized historically may be impacted by, among other things, the economic conditions of the market in which a property is located, the availability of competing space (including sublease space offered by tenants who have vacated space in competing properties prior to the expiration of their lease term), and the level of improvements which may be required at the property. We cannot be assured that the rental rates we obtain in the future will be equal to or greater than those obtained under existing contractual commitments. If we cannot our properties promptly, or if the rental rates are significantly lower than expected, then our results of operations could be negatively impacted.

The Property is encumbered by provisions of third-party lenders and other pre-existing conditions.

The Property will be subject to third-party lender(s) and other agreements or conditions such as easements, declarations, and restrictive covenants entered into by prior owners, which run with the land and apply to the Property post acquisition. These obligations apply to the owner and operator of the Property.

The Company did not obtain any audited income statements with respect to the Property prior to this offering as there is no operating history. The Company will provide audited financial statements in the future in compliance with Crowd Funding ongoing reporting obligations.

Risks Related to the Securities

The Interests will not be freely tradable until one year from the initial purchase date. Although the Interest may be tradable under federal securities law, state securities

regulations may apply, and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Interests. Because the Interests have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Interests have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Interests may also adversely affect the price that you might be able to obtain for the Interests in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment.

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities, and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be

considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

The Securities will be effectively subordinate to any of our debt that is secured.

The Securities will be unsecured, unguaranteed obligations of the Company and will be effectively subordinated to any present or future secured debt obligations that we may incur in the future to the extent of the value of the assets securing that debt. The effect of this subordination is that if we are involved in a bankruptcy, liquidation, dissolution, reorganization or similar proceeding, or upon a default in payment on, or the acceleration of, any of our secured debt, if any, our assets that secure debt will be available to pay obligations on the Securities only after all debt under our secured debt, if any, has been paid in full from those assets. Holders of the Securities will participate in any remaining assets ratably with all of our other unsecured and unsubordinated creditors, including trade creditors. We may not have sufficient assets remaining to pay amounts due on any or all of the Securities then outstanding.

We are permitted to incur more debt, which may increase our risk of the inability to pay interest and principal on the Securities when it comes due.

We are not restricted from incurring additional secured, unsecured debt or other liabilities. If we incur additional debt or liabilities, your security may be subordinate to the payment of principal or interest on such other future debt and our ability to pay our obligations on the Securities could be adversely affected. We expect that we will from time to time incur additional debt and other liabilities. In addition, we are not restricted from paying dividends or issuing or repurchasing our equity interests.

The provisions of the Securities relating to a liquidation event or change of control transactions will not necessarily protect you.

The provisions in the Securities will not necessarily afford you protection in the event of a transaction that may adversely affect you, including a reorganization, restructuring, merger or other similar transaction involving us. These transactions may not involve a "liquidation event" or "change of control" which would trigger these protective provisions. Except in certain circumstances, the Securities will not permit the holders of the Securities to require us to repurchase the Securities in the event of a takeover, recapitalization or similar transaction.

We may not be able to repurchase all of the Securities upon a liquidation event or change of control repurchase event.

Upon the occurrence of events constituting a liquidation event or change of control, we will be required to offer to repurchase the Securities. We may not have sufficient funds to repurchase the Securities in cash at such time or have the ability to arrange necessary financing on acceptable terms. In addition, our ability to repurchase the Securities for cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time.

You will not have a vote or influence on the management of the Company.

Substantially all decisions with respect to the management of the Company will be made exclusively by the officers, directors, managers or employees of the Company. You, as a Purchaser, will have a very limited ability to vote on issues of Company management and will not have the right or power to take part in the management of the Company and will not be represented on any governing body or managers of the Company. Accordingly, no person should purchase a Security unless he or she is willing to entrust all aspects of management to the Managers of the Company.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

TAX MATTERS

EACH PROSPECTIVE INVESTOR SHOULD CONSULT WITH HIS OR HER OWN TAX AND ERISA ADVISOR AS TO THE PARTICULAR CONSEQUENCES TO THE INVESTOR OF THE PURCHASE, OWNERSHIP AND SALE OF THE INVESTOR'S SECURITIES, AS WELL AS POSSIBLE CHANGES IN THE TAX LAWS.

TO INSURE COMPLIANCE WITH THE REQUIREMENTS IMPOSED BY THE INTERNAL REVENUE SERVICE, WE INFORM YOU THAT ANY TAX STATEMENT IN THIS FORM C CONCERNING UNITED STATES FEDERAL TAXES IS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED, BY ANY TAXPAYER FOR THE PURPOSE OF AVOIDING ANY TAX-RELATED PENALTIES UNDER THE UNITED STATES INTERNAL REVENUE CODE. ANY TAX STATEMENT HEREIN CONCERNING UNITED STATES FEDERAL TAXES WAS WRITTEN IN CONNECTION WITH THE MARKETING OR PROMOTION OF THE TRANSACTIONS OR MATTERS TO WHICH THE STATEMENT RELATES. EACH TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

Potential Investors who are not United States residents are urged to consult their tax advisors regarding the United States federal income tax implications of any investment in the Company, as well as the taxation of such investment by their country of residence. Furthermore, it should be anticipated that distributions from the Company to such foreign investors may be subject to UNITED STATES withholding tax.

EACH POTENTIAL INVESTOR SHOULD CONSULT HIS OR HER OWN TAX ADVISOR CONCERNING THE POSSIBLE IMPACT OF STATE TAXES.

TRANSACTIONS WITH RELATED PERSONS AND CONFLICTS OF INTEREST

Related Person Transactions

From time to time the Company may engage in transactions with related persons. Related persons are defined as any director or officer of the Company; any person who is the beneficial owner of 10 percent or more of the Company's outstanding voting equity securities, calculated on the basis of voting power; any promoter of the Company; any immediate family member of any of the foregoing persons or an entity controlled by any such person or persons.

The Company has conducted the following transactions with related persons: None.

Conflicts of Interest

To the best of our knowledge the Company has not engaged in any transactions or relationships, which may give rise to a conflict of interest with the Company, its operations or its security holders.

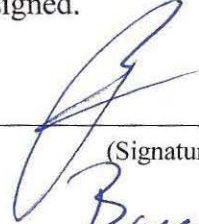

Bad Actor Disclosure

The Company is not subject to any Bad Actor Disqualifications under any relevant U.S. securities laws.
