RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Our industry is subject to political pressures not found in other industries. Nationwide laws could be put in place around the sale or shipment of ammunition which could impact our business model.

There is the potential for litigation for any of the products we sell if they are used in a crime. However, as a retailer we are protected under The Protection of Lawful Commerce in Arms Act for any misuse of the products we sell

While we do not manufacture ammunition, some of the ammunition we sell could cause damage to a customer's firearm if improperly manufactured. If that were to happen, we would look to the manufacturer to investigate and settle with the customer.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalised statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

Overview

AmmoSquared simplifies ammunition ownership. We essentially turn ammunition into a digital commodity. This allows customers to purchase ammunition in small amounts (less than a full box) via a recurring "drip" purchase plan. Physical inventory is stored off-site, exchangeable, and deliverable upon demand or automatically via a preset schedule.

Our mission is to Simplify Ammunition Ownership for the 100m+ gun owners in America. We do that by combining something physical (ammunition) with something digital (the web) to make ammunition ownership truly effortless.

Milestones

AMMOSQUARED, INC. was incorporated in the State of Delaware in July 2019.

2019 - exceeded 1,000 active subscribers for the first time.

2020 - successfully completed crowdfund campaign and raised nearly \$400k, also surpassed 3,000 customers and moved in to 7,500sf climate controlled warehouse.

Historical Results of Operations

Our company was organized in July 2019 and has limited operations upon which prospective investors may base an evaluation of its performance.

- **Revenues & Gross Margin.** For the period ended December 31, 2020, the Company had revenues of \$790,576 compared to the year ended December 31, 2019, when the Company had revenues of \$61,265. Our gross margin was 25.26% in fiscal year 2020, compared to 16.3% in 2019.
- **Assets.** As of December 31, 2020, the Company had total assets of \$942,679, including \$71,467 in cash. As of December 31, 2019, the Company had \$180,604 in total assets, including \$13,988 in cash.

- **Liabilities.** The Company's liabilities totaled \$863,230 for the fiscal year ended December 31, 2020 and \$192,544 for the fiscal year ended December 31, 2019.

Liquidity & Capital Resources

To-date, the company has been financed with \$399,573 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 24 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 18 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

AMMOSQUARED, INC. cash in hand is \$71,467.01, as of December 2020. Over the last three months, revenues have averaged \$100,622/month, cost of goods sold has averaged \$79,403/month, and operational expenses have averaged \$58,878/month, for an average burn rate of \$37,659 per month. Our intent is to be profitable in 2021.

During 2020 we dramatically increased operations. We added 2 part time, 3 full time employees along with 2 contractors. We moved into a new larger warehouse (7500sf) with a 3 year lease.

Over the next 3-6 months we expect to continue to grow our revenue 3-6% monthly. Expenses for cost of goods will continue in line with revenue growth as we purchase in larger volume.

We have avoided taking on any new sources of debt or equity to fund the business. The main source of capital for the the business is sales revenue.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
