RISK FACTORS

The SEC requires the Company to identify risks that are specific to its business and financial condition. The Company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and is just beginning to implement its business plan. There can be no assurance that it will ever operate profitably. The likelihood of its success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by companies in their early stages of development. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause a Purchaser to lose all or a portion of his or her investment.

We may have to spend a substantial portion of the proceeds of the Offering on debt repayment, thereby negatively affecting our ability to carry out our planned expansion and other business plans.

As detailed in “Capitalization and Ownership,” we have a substantial amount of short-term and long-term debt. If only a small amount of capital is raised in the Offering, it is possible a substantial portion of such capital would go towards the repayment of this debt. Using capital solely or primarily towards debt reduction or debt servicing could have negative consequences to us, including the following:

- Limiting our ability to invest in the business and to carry out our business plan, thereby placing us at a competitive disadvantage; and
- Limiting our flexibility in planning for, or reacting to, changes in our operations, our business or the industry in which we compete.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on certain key personnel in order to conduct its operations and execute its business plan. However, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person’s absence. The loss of such person could negatively affect the Company and its operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Our ability to source quality ingredients and other products is critical to our business, and any disruption to our supply or supply chain could materially adversely affect our business.

We depend on frequent deliveries of ingredients and other products from a variety of local, regional, national and international suppliers, and some of our suppliers may depend on a variety of other local, regional, national and international suppliers to fulfill the purchase orders we place with them. The availability of such ingredients and other products at competitive prices depends on many factors beyond our control, including the number and size of farms, stores that provide raw materials for making meals that meet our quality and production standards.

We rely on our suppliers, and their supply chains, to meet our quality and production standards and specifications and supply ingredients and other products in a timely and safe manner. We have developed and implemented a series of measures to ensure the safety and quality of our third party-supplied products, however, no safety and quality measures can eliminate the possibility that suppliers may provide us with defective or out-of-specification products against which regulators may take action or which may subject us to litigation or require a recall. Suppliers may provide us with food that is or may be unsafe, food that is below our quality standards or food that is improperly labeled. In addition to a negative customer experience, we could face possible seizure or recall of our products and the imposition of civil or criminal sanctions if we incorporate a defective or out-of-specification item into one of our deliveries.

Furthermore, there are many factors beyond our control which could cause shortages or interruptions in the supply of our ingredients and other products, including adverse weather, environmental factors, natural disasters, unanticipated demand, labor or distribution problems, changes in law or policy, food safety issues by our suppliers and their supply chains, and the financial health of our suppliers and their supply chains. Production of the agricultural products used in our business may also be materially adversely affected by drought, water scarcity, temperature extremes, scarcity of agricultural labor, changes in government agricultural programs or subsidies, import restrictions, scarcity of suitable agricultural land, crop conditions, crop or animal diseases or crop pests. Failure to take adequate steps to mitigate the likelihood or potential effect of such events, or to effectively manage such events if they occur, may materially adversely affect our business, financial condition and operating results, particularly in circumstances where an ingredient or product is sourced from a single supplier or location.

In addition, unexpected delays in deliveries from suppliers that ship directly to our fulfillment centers or increases in transportation costs (including through increased fuel costs) could materially adversely affect our business, financial condition and operating results. Labor shortages or work stoppages in the transportation industry, long-term disruptions to the national transportation infrastructure, reduction in capacity and industry-specific regulations such as hours-of-service rules that lead to delays or interruptions of deliveries could also materially adversely affect our business, financial condition and operating results.

We currently source certain of our ingredients from suppliers located outside of the United States. Any event causing a disruption or delay of imports from suppliers located outside of the United States, including weather, drought, crop-related diseases, the imposition of import or export restrictions, restrictions on the transfer of funds or increased tariffs, destination-based taxes, value-added taxes, quotas or increased regulatory requirements, could increase the cost or reduce the supply of our ingredients and the other materials required by our product offerings, which could materially

adversely affect our business, financial condition and operating results. Furthermore, our suppliers' operations may be adversely affected by political and financial instability, resulting in the disruption of trade from exporting countries, restrictions on the transfer of funds or other trade disruptions, each of which could adversely affect our access or ability to source ingredients and other materials used in our product offerings on a timely or cost-effective basis.

Most of our customers are not obligated to continue purchasing products from us.

Most of our customers buy from us pursuant to individual purchase orders. Because such customers are not obligated to continue purchasing products from us, we cannot assure you that the volume or number of our customers' purchase orders will remain constant or increase or that we will be able to maintain our existing customer base. Significant decreases in the volume or number of our customers' purchase orders or our inability to retain or grow our current customer base may have a material adverse effect on our business, financial condition or operating results.

Increases in the prices of raw materials could reduce our operating margins.

The supply and price of these raw materials are subject to market conditions and are influenced by factors beyond our control, such as general economic conditions, unanticipated demand and damage or disruption to supply. Additionally, we typically do not have long-term contracts with our suppliers. Although our purchasing volume can sometimes provide an advantage when dealing with these suppliers, suppliers may not provide the products and supplies we need in the quantities and at the prices requested. While historically we have been able to pass along increases in the prices of raw materials to many of our customers, we may be unable to adjust the prices of our products to recover future increases in the prices of raw materials on a timely basis, or at all. If prices for our raw materials, including meats, fruits and vegetables, were to increase significantly without a similar increase in the price of our products, our business, financial condition and operating results could be adversely affected.

Deterioration of general economic conditions could harm our business, financial condition and operating results.

Our business, financial condition and operating results may be adversely affected by changes in global or national economic conditions, including inflation, interest rates, availability of capital markets, consumer spending rates, energy availability and costs (including fuel surcharges) and the effects of governmental initiatives to manage economic conditions. Volatility in financial markets and deterioration of global or national economic conditions could adversely affect our business, financial condition and operating results in a variety of ways, including the following:

- the financial stability of our customers and suppliers may be compromised, which could result in bad debts for us or non-performance by suppliers;
- consumers may shift purchases to lower-priced offerings or may forego certain purchases altogether during economic downturns, such as food prepared away from home;
- decreased demand by our customers may adversely affect our sales volume;
- volatility in commodity and other input costs could adversely impact our operating results; and

Changes in consumer eating habits could adversely affect our business, financial condition and operating results.

The food industry in general is subject to changing consumer trends, demands and preferences. For example, consumer eating habits could be affected by changes in attitudes regarding diet and health or new information regarding the health effects of consuming certain foods. Our success depends on our ability to predict, identify and interpret the tastes and dietary habits of consumers and to offer products that appeal to those preferences. If consumer eating habits change significantly, we may be required to modify or discontinue sales of certain of our products or develop and offer new products. There are inherent marketplace risks associated with new product or packaging introductions, including uncertainties about trade and consumer acceptance. If we do not succeed in offering products that consumers want to buy, our sales and market share will decrease, resulting in reduced profitability. If we are unable to accurately predict which shifts in consumer preferences will be long-lasting, or are unable to introduce new and improved products to satisfy those preferences, our sales will decline. In addition, given the variety of backgrounds and identities of consumers in our consumer base, we must offer a sufficient array of products to satisfy the broad spectrum of consumer preferences. As such, we must be successful in developing innovative products across a multitude of product categories. Additionally, changes in consumer eating habits may result in the enactment or amendment of laws and regulations that impact the ingredients and nutritional content of our food products, or laws and regulations requiring

us to disclose the nutritional content of our food products. Compliance with these laws and regulations, as well as others regarding the ingredients and nutritional content of our food products, may be costly and time-consuming.

If our products become contaminated or are mislabeled, we may be subject to product liability claims, product recalls and increased scrutiny by regulators, any of which could adversely affect our business.

Our products are vulnerable to contamination by organisms that may produce food-borne illnesses. These organisms are generally found in the environment, and, as such, there is a risk that as a result of food processing they could be found in our products. For example, E. coli is one of many food-borne pathogens commonly associated with food products. Once contaminated products have been shipped for distribution, illness and death may result if the pathogens are not eliminated by processing at the Foodservice or consumer level. The risk can be reduced, but not eliminated, by use of good production practices and finished product testing. These risks are higher in raw or uncooked foods, which we also sell. Also, products purchased from others for re-packing or distribution may contain contaminants that we are unable to identify. We may also encounter the same risks if a third-party tampers with our products or if our products are inadvertently mislabeled. We may need to recall our products if they become adulterated. Shipment of adulterated products, even if inadvertent, is a violation of law and may lead to product liability claims, product recalls and increased scrutiny by federal and state regulatory agencies, any of which could adversely affect our reputation, business, financial condition and operating results. In addition, even if a product liability claim is not successful or is not fully pursued, the negative publicity surrounding any assertion that our products caused illness or injury could adversely affect our reputation with existing and potential customers and our business, financial condition and operating results.

Food safety and food-borne illness incidents or advertising or product mislabeling may materially adversely affect our business by exposing us to lawsuits, product recalls or regulatory enforcement actions, increasing our operating costs and reducing demand for our product offerings.

Selling food for human consumption involves inherent legal and other risks, and there is increasing governmental scrutiny of and public awareness regarding food safety. Unexpected side effects, illness, injury or death related to allergens, food-borne illnesses or other food safety incidents (including food tampering or contamination) caused by products we sell, or involving suppliers that supply us with ingredients and other products, could result in the discontinuance of sales of these products or our relationships with such suppliers, or otherwise result in increased operating costs or harm to our reputation. Shipment of adulterated products, even if inadvertent, can result in criminal or civil liability. Such incidents could also expose us to product liability, negligence or other lawsuits, including consumer class action lawsuits. Any claims brought against us may exceed or be outside the scope of our existing or future insurance policy coverage or limits. Any judgment against us that is in excess of our policy limits or not covered by our policies or not subject to insurance would have to be paid from our cash reserves, which would reduce our capital resources.

The occurrence of food-borne illnesses or other food safety incidents could also adversely affect the price and availability of affected ingredients, resulting in higher costs and a reduction in our sales. Furthermore, any instances of food contamination, whether or not caused by our products, could subject us or our suppliers to a food recall pursuant to the Food Safety Modernization Act of the United States Food and Drug Administration (“FDA”), and comparable state laws. Food recalls could result in significant losses due to their costs, the destruction of product inventory, lost sales due to the unavailability of the product for a period of time and potential loss of existing customers and a potential negative impact on our ability to attract new customers due to negative consumer experiences or as a result of an adverse impact on our brand and reputation.

In addition, food companies have been subject to targeted, large-scale tampering as well as to opportunistic, individual product tampering, and we could be a target for product tampering. Forms of tampering could include the introduction of foreign material, chemical contaminants and pathological organisms into consumer products as well as product substitution. In the near future, FDA requirements will require companies like us to analyze, prepare and implement mitigation strategies specifically to address tampering designed to inflict widespread public health harm. If we do not adequately address the possibility, or any actual instance, of product tampering, we could face possible seizure or recall of our products and the imposition of civil or criminal sanctions, which could materially adversely affect our business, financial condition and operating results.

Adverse publicity about us and lack of confidence in our products based on alleged or actual reports of food-borne illnesses could negatively affect our reputation and affect our business.

Maintaining a good reputation and public confidence in the safety of the products we distribute is critical to our business. Anything that damages our reputation, or the public’s confidence in our products, whether or not justified, including adverse publicity about the quality, safety or integrity of our products, could quickly affect our net sales and

profits. Reports, whether true or not, of food-borne illnesses or harmful bacteria (such as E. coli, bovine spongiform encephalopathy, hepatitis A, trichinosis, listeria or salmonella) and injuries caused by food tampering could severely harm our reputation or negatively affect the public's confidence in our products. In addition, instances of food-borne illnesses or food tampering or other concerns, even those unrelated to our products, may create adverse publicity which could adversely affect consumer demand and, as a result, our business, financial condition and operating results.

We are subject to extensive governmental regulations, which require significant compliance expenditures.

We are subject to extensive federal, state and local regulations. Our food processing facilities and products are subject to frequent inspection by the USDA, the FDA and various state and local health and agricultural agencies. Applicable statutes and regulations governing food products include rules for labeling the content of specific types of foods, the nutritional value of that food and its serving size, as well as rules that protect against contamination of products by food-borne pathogens. Many jurisdictions also provide that food producers adhere to good production practices (the definition of which may vary by jurisdiction) with respect to production processes. Recently, the food safety practices and procedures in the meat processing industry have been subject to more intense scrutiny and oversight by the USDA and future outbreaks of diseases among cattle, poultry or pigs could lead to further governmental regulation. In addition, our production facilities and distribution centers are subject to various federal, state and local laws and regulations relating to workplace safety and workplace health. Failure to comply with all applicable laws and regulations could subject us to civil remedies, including fines, injunctions, product recalls or seizures and criminal sanctions, any of which could have a material adverse effect on our business, financial condition and operating results. Furthermore, compliance with current or future laws or regulations could require us to make material expenditures or otherwise adversely affect our business, financial condition and operating results.

Regulations affecting the hemp industry are uncertain and rapidly evolving.

Some of our products contain marijuana and hemp-based cannabidiol (“CBD”) products. CBD products may be subject to various federal and state regulations. Although the 2018 Farm Bill legalized hemp, no states have had their state hemp programs approved by any regulatory authority, and some states do not recognize a distinction between hemp and marijuana. As a result, hemp and hemp-derived CBD may still be prohibited by state law. Under federal law, states have primary regulatory authority over the production of hemp only after their rules are approved by the U.S. Department of Agriculture (“USDA”), and there are still no USDA-approved hemp programs. Until the USDA issues its rules and regulations implementing the 2018 Farm Bill (which per the USDA will be the end of 2019 at the earliest), many uncertainties remain for businesses operating within the hemp industry. The Company sources CBD from suppliers and maintains current lab reports on all CBD products at the request of the FDA or Law Enforcement. It is possible that future laws, rules, and regulations could directly apply to the operations of the Company, and since the Company cannot predict with any certainty the nature of any future laws, rules, and regulations, the Company may not be able to adequately plan for the effect of those future laws, rules, and regulations, which could have a significant adverse impact on the business operations of the Company.

We are subject to government regulation, and changes in these regulations could have a negative effect on our financial condition and results of operations.

Our operations and business practices are subject to federal, state and local government regulation in the various jurisdictions in which our clubs are located, including, but not limited to the following:

- general rules and regulations of the Federal Trade Commission;
- rules and regulations of state and local consumer protection agencies;
- state statutes that prescribe certain forms and provisions of membership contracts;
- state statutes that govern the advertising, sale, financing and collection of memberships;
- federal and state laws and regulations governing privacy and security of information; and
- state and local health regulations;

Any changes in such laws or regulations could have a material adverse effect on our financial condition and results of operations.

We could be subject to claims related to health or safety risks at the Company's fitness center.

Use of our fitness center poses some potential health or safety risks to members or guests through physical exertion and use of our services and facilities, including exercise equipment. Claims might be asserted against us for injury suffered by, or death of members or guests while exercising at a fitness center. We might not be able to successfully defend such claims. As a result, we might not be able to maintain our general liability insurance on acceptable terms in the future or maintain a level of insurance that would provide adequate coverage against potential claims.

Depending upon the outcome, these matters may have a material effect on our consolidated financial position, results of operations and cash flows.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, the Company's business, financial condition or results of operations may be adversely affected.

Damage to the Company's reputation could negatively impact the Company's business, financial condition and results of operations.

The Company's reputation and the quality of the Company's brand is critical to its business and success in existing markets and will be critical to the Company's success as it enter new markets. Any incident that erodes consumer loyalty for the Company's brand could significantly reduce its value and damage the Company's business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be averse to the Company's interests or may be inaccurate, each of which may harm the Company's performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Security breaches of confidential customer information, in connection with the Company's electronic processing of credit and debit card transactions, or confidential employee information may adversely affect the Company's business.

The Company's business requires the collection, transmission and retention of large volumes of customer and employee data, including credit and debit card numbers and other personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that customer and employee data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. The Company's systems may not be able to satisfy these changing requirements and customer and employee expectations or may require significant additional investments or time in order to do so. A breach in the security of the Company's information technology systems or those of the Company's service providers could lead to an interruption in the operation of the Company's systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss, or misappropriation of, or access to, customers' or other proprietary data or other breach of the Company's information technology systems could result in fines, legal claims or proceedings.

Risks of the Offering

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Purchasers, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective Purchasers must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors. Compliance with the criteria for securing exemptions under federal securities laws and the securities laws of the various states is extremely complex, especially in respect of those exemptions affording flexibility and the elimination of trading restrictions in respect of securities received in exempt transactions and subsequently disposed of without registration under the Securities Act or state securities laws.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds of the offering committed and captured during the relevant period. The Company may choose to continue the Offering thereafter. Purchasers should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Purchasers previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

The Company's management may have broad discretion in how the Company uses the net proceeds of an offering.

Unless the Company has agreed to a specific use of the proceeds from an offering, the Company's management will have considerable discretion over the use of proceeds from their offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Purchasers commitment amount based on the Company's determination of a Purchaser's sophistication.

The Company may prevent Purchasers from committing more than a certain amount to this Offering based on the Company's belief of the Purchaser's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation Crowdfunding rules. This also means that other Purchasers may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering deadline. The Company has the right to end the Offering early.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. The

Company may also end the Offering early; if the Offering reaches its target Offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

Risks Related to the Securities

The units of SAFE will not be freely tradable until one year from the initial purchase date. Although the units of SAFE may be tradable under federal securities law, state securities regulations may apply, and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the units of SAFE. Because the units of SAFE have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the units of SAFE have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the units of SAFE may also adversely affect the price that you might be able to obtain for the units of SAFE in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Purchasers will not become equity holders until the Company decides to convert the Securities into CF Shadow Securities or until there is a change of control or sale of substantially all of the Company's assets.

Purchasers will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Purchasers may never become equity holders of the Company. Purchasers will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Series Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity Securities Purchasers are entitled to receive upon such conversion). In certain instances, such as a sale of the Company or substantially all of its assets, an IPO or a dissolution or bankruptcy, the Purchasers may only have a right to receive cash, to the extent available, rather than equity in the Company.

Purchasers will not have voting rights, even upon conversion of the Securities into CF Shadow Securities; upon the conversion of the Crowd SAFE to CF Shadow Securities (which cannot be guaranteed), holders of Shadow Securities will be required to enter into a proxy with the intermediary to ensure any statutory voting rights are voted in tandem with the majority holders of whichever series of securities the Shadow Securities follow.

Purchasers will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (which the occurrence of cannot be guaranteed). Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to enter into a proxy agreement with the Intermediary ensuring they will vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to enter into a proxy that allows the Intermediary to vote the same way as a majority of the Series B Preferred Shareholders vote. Thus, Purchasers will never be able to freely vote upon any manager or other matters of the Company.

Purchasers will not be entitled to any inspection or information rights other than those required by Regulation CF.

Purchasers will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Purchasers. This lack of information could put Purchasers at a disadvantage in general and with respect to other security holders.

Purchasers will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which the Purchasers will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Purchasers have no right to demand such

conversion. Only in limited circumstances, such as a liquidity event, may the Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions. In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

Equity securities acquired upon conversion of SAFE securities may be significantly diluted as a consequence of subsequent financings.

Company equity securities will be subject to dilution. Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from SAFE conversion will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's control and economic interests in the Company. The amount of additional financing needed by Company will depend upon several contingencies not foreseen at the time of this offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, Company may have to raise additional capital at a price unfavorable to the existing investors, including the purchaser. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the purchaser's Company securities.

Equity securities issued upon conversion of company SAFE securities may be substantially different from other equity securities offered or issued at the time of conversion.

Company may issue to converting SAFE holders equity securities that are materially distinct from equity securities it will issue to new purchasers of equity securities. This paragraph does not purport to be a complete summary of all such distinctions. Equity securities issued to SAFE purchasers upon their conversion of Company SAFE securities will be distinct from the equity securities issued to new purchasers in at least the following respects - to the extent such equity securities bear any liquidation preferences, dividend rights, or anti-dilution protections, any equity securities issued at the Conversion Price (as provided in the SAFE Agreements) shall bear such preferences, rights, and protections only in proportion to the Conversion Price and not in proportion to the price per share paid by new investors in the equity securities. Company may not provide converting SAFE purchasers the same rights, preferences, protections, and other benefits or privileges provided to other purchasers of Company equity securities.

There is no present market for the Securities and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

In a dissolution or bankruptcy of the Company, Purchasers will not be treated as priority debt holders and therefore are unlikely to recover any assets in the event of a bankruptcy or dissolution event.

In a dissolution or bankruptcy of the Company, Purchasers of Securities which have not been converted will be entitled to distributions as described in the Crowd SAFE. This means that such Purchasers will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred stockholders, have been paid in full. If the Securities have been converted into CF Shadow Share Securities or SAFE Preferred Securities, the Purchasers will have the same rights and preferences (other than the ability to vote) as the holders of the Securities issued in the equity financing upon which the Securities were converted. Neither

holders of Crowd SAFE nor holders of CF Shadow Share Securities nor SAFE Preferred Securities can be guaranteed a return in the event of a dissolution event or bankruptcy.

While the Crowd SAFE provides for mechanisms whereby a Crowd SAFE holder would be entitled to a return of their purchase amount, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

In certain events provided in the Crowd SAFE, holders of the Crowd SAFE may be entitled to a return of their principal amount. Despite the contractual provisions in the Crowd SAFE, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore potential purchasers should not assume that they are guaranteed a return of their investment amount.

Certain Purchasers will receive additional rights related to the Crowd SAFE due to the size of their investment commitment.

Those Purchasers who, together with affiliates, purchase a Crowd SAFE with an aggregate face value of above \$50,000, will have the right to participate in future offerings of the Company's capital stock – these Purchasers will also have the right to have their Crowd SAFE converted to a class of the Company's capital stock upon the next qualified equity financing. These rights are not shared by all Purchasers and may cause certain Purchasers to be able to maintain their position within the Company's capitalization or receive dividend distributions in manners and at time other Purchasers cannot.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

IN ADDITION TO THE RISKS LISTED ABOVE, THE COMPANY IS SUBJECT TO RISKS NOT FORESEEN OR FULLY APPRECIATED BY THE MANAGEMENT. IT IS NOT POSSIBLE TO FORESEE ALL RISKS THAT MAY AFFECT US. MOREOVER, THE COMPANY CANNOT PREDICT WHETHER THE COMPANY WILL SUCCESSFULLY EFFECTUATE THE COMPANY'S CURRENT BUSINESS PLAN. EACH PURCHASER IS ENCOURAGED TO CAREFULLY ANALYZE THE RISKS AND MERITS OF AN INVESTMENT IN THE SECURITIES AND SHOULD TAKE INTO CONSIDERATION WHEN MAKING SUCH ANALYSIS, AMONG OTHER, THE RISK FACTORS DISCUSSED ABOVE.

BUSINESS

Description of the Business

The Company is a health and wellness company with the mission of reversing the obesity and healthcare crises in America through natural foods, medicines, and the support of an active lifestyle. Through comprehensive, "full-circle" nutrition and fitness services our customers and members have the best chance of taking control of their overall health and well-being.

Business Plan

The transportable nature of most Natural Selection products allows for direct-to-consumer, wholesale, and order-ahead retail sales. The health food/beverage industry is drastically underserved in most areas throughout the United States, and we intend to address this problem through innovative expansion methods and franchising opportunities -

We will establish the blueprint and procedures for future large-scale kitchen operations through thoughtful development of our flagship headquarters and high-volume commissary kitchen facility in Nashville, TN.

With the new kitchen, Natural Selection will begin a phased national roll-out of all products and services throughout the entire U.S., adding new states as we scale to ensure quality control and consistency is maintained. Retail sales will grow through expanding our corporate and (in the future) franchised brick-and-mortar locations.

The first Natural Selection Training Facility is scheduled to open January 2020. Development and refinement of this initial facility will establish the blueprint and procedures for future corporate and franchise locations along with being the first one-stop-health-center of its kind.

We currently have two retail locations, one training facility, and two CBD/Cannabis kiosks. We plan to franchise its full-service retail locations, training facilities, and automated CBD/Cannabis kiosks.

Through our use of automated distribution, such as with GreenBox Robotics, we will develop micro-sized retail shops that will revolutionize access to healthy options. By developing an autonomous distribution method for our scratch-made meals, bottled juices, and other healthy snack options, we will open a completely new distribution and revenue channel. These health kiosk centers will give other businesses the opportunity to add in or replace their vending machines with health-focused options. Potential locations include: health clubs and other gyms looking to increase revenue, offices, hospitals, universities, stadiums, event centers, schools and nearly anywhere else that people lack access to healthy options.

Natural Selection will continue to provide educational resources on nutrition, fitness, and everything related to health and wellness. By educating communities on the benefits of good diet and exercise, we empower others to make informed decisions while also increasing our potential customer base.

Competition

Due to the wide-variety of products and services Natural Selection provides, there are many competitors that provide at least one of our products or services, such as Meal Preparation, Juicing/Smoothies, Gym/Health Club Services, CBD, etc. Though we believe there is no significant direct competition that delivers as complete of an experience as Natural Selection, competitors in Meal Preparation include: Freshly, Icon Meals, and Clean Eat. Notable players in Juicing include I Love Juice Bar and Urban Juicer. Other quality CBD brands include Select CBD and Charlottes Web. There are plenty of well-known health/fitness centers, including 24-Hour Fitness and Anytime Fitness, but none that provide the level of products and services that we believe will be available in our Natural Selection Training Facilities.

Customer Base

We sell our products direct-to-consumer, wholesale to other retailers, and in our two brick-and-mortar locations. Because health has no age or color, our products reach a wide-range demographic. Everyone from Boomers & Gen X, to millennials and the adults of tomorrow are our current customers. The fast-paced lifestyle we live in means everyone is looking for the convenience and the level of choices that Natural Selection provides.

Supply Chain

Materials and ingredients essential to our businesses are purchased worldwide in the ordinary course of business from numerous suppliers. All of the ingredients and materials in our products have at least a secondary source.

Intellectual Property

None.

The Company does have discretion to alter the use of proceeds as set forth above. The Company may alter the use of proceeds under the following circumstances: Economic conditions may alter the general working capital requirements, leading to a re-prioritization of proceeds from constructing the NS Training Facility (Nashville) to operational capital. Any adjustment will adhere to the Company's business plan and liquidity requirements.

Operations

Natural Selection Nutrition, LLC (the “Company”) was formed on September 15, 2016 under the laws of the State of Kentucky and is headquartered in Oak Grove, Kentucky. Natural Selection is a health and wellness company on a mission to reverse the obesity and healthcare crises in America through natural foods, medicines, and the promotion of active living. We offer fresh pre-prepared meals, fresh-pressed raw juice, all-natural smoothies, legal hemp oils and topicals, healthy snacks, and soon a combined gym facility that will bring trainers and other fitness services into one convenient fitness and nutrition super-center.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of ninety (90) days or less to be cash equivalents. As the date hereof, the Company has approximately \$45,003 cash on hand.

Liquidity and Capital Resources

The proceeds from the Offering are essential to the Company’s operations. We plan to use the proceeds as set forth above under “Use of Proceeds”, which is an indispensable element of the Company’s business strategy.

The Company currently does not have any additional outside sources of capital other than the proceeds from the Combined Offerings.

Capital Expenditures and Other Obligations

The Company intends to establish a Company headquarters and high-volume kitchen facility in Nashville, TN. We project the preparation, equipment and buildout costs for the headquarters and facility to be \$350,000. Anticipated timeline for opening is Winter 2020.

Valuation

The Company has ascribed no pre-offering valuation to the Company; the Securities are priced arbitrarily.

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Investors should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Investors should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

Please see Exhibit C for the management’s evaluation of subsequent events and applicable disclosures:

Previous Offerings of Securities

Other than the issuance of Membership Interest Units to our founders upon the founding of the Company, we have not made any issuances of securities.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 1,070,000 of the Securities for up to \$1,070,000. The Company is attempting to raise the Target Amount. The Company must receive commitments from investors in an amount totaling the Target Amount by the Offering Deadline in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Target Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Target Amount up to the Maximum Amount and the additional Securities will be allocated at the Company’s discretion.

The price of the Securities does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Prime Trust, LLC until the Target Amount of investments is reached. Investors may cancel an investment commitment until forty-eight (48) hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Investors when the Target Amount has been reached. If the Company reaches the Target Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Target Amount and providing notice to the Investors. If any material change (other than reaching the Target Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Target Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

In the event two-times the Target Amount is reached prior to April 10, 2020, the Company may conduct the first of multiple closings of the Offering early, provided all Purchasers will receive notice of the new Offering deadline at least five (5) business days prior to such new Offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of the investment commitment). The Purchasers who committed on or before such notice will have until the 48 hours before the new Offering deadline to cancel their investment commitment.

In the event the Company does conduct one of multiple closes, the Company agrees to only withdraw half of the proceeds that are in escrow and will only conduct a close if there will be more than 21 days remaining before April 10, 2020.

The Company may only conduct another close before April 10, 2020 if (i) the amount of investment commitments made exceeds two times the amount committed at the time of the last close and at the time of the next close, and (ii) more than 21 days remain before April 10, 2020.

The Company has agreed to return all funds to the Purchasers in the event a Form C-W is ultimately filed in relation to this Offering, regardless of any subsequent closes.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$100.00.

The Offering is being made through OpenDeal Portal LLC dba Republic, the Intermediary. The following two fields below sets forth the compensation being paid in connection with the Offering.

PRIME TRUST, THE ESCROW AGENT SERVICING THE OFFERING, HAS NOT INVESTIGATED THE DESIRABILITY OR ADVISABILITY OF AN INVESTMENT IN THIS OFFERING OR THE SECURITIES OFFERED HEREIN. THE ESCROW AGENT MAKES NO REPRESENTATIONS, WARRANTIES, ENDORSEMENTS, OR JUDGEMENT ON THE MERITS OF THE OFFERING OR THE SECURITIES OFFERED HEREIN. The Securities

We request that you please review the Company's organizational documents and the Crowd Safe instrument in conjunction with the following summary information.

Authorized Capitalization

At the initial closing of this Offering (if the minimum amount is sold), our authorized capital stock will consist of 8,000,000 Membership Interest Units, all of which are issued and outstanding.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and can be thought of as the right to receive equity at some point in the future upon the occurrence of certain events.

Dividends

The Securities do not entitle the Investors to any dividends.

Conversion

Upon each future equity financing of greater than \$1,000,000.00 (an "**Equity Financing**"), the Securities are convertible at the option of the Company, into CF Shadow Series Securities, which are securities identical to those issued in such future Equity Financing except 1) they do not have the right to vote on any matters except as required by law, 2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and 3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the investor will receive the number of CF Shadow Series Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the "**Purchase Amount**") by: (a) the quotient of \$8,000,000.00 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable Securities then outstanding, including shares of convertible preferred securities and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) the issuance of all shares of capital stock reserved and available for future issuance under any of the Company's existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, "**Safes**"), and (iv) any equity Securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes,

OR

(b) the lowest price per share of the Securities sold in such Equity Financing multiplied by 85.00%.

The price (either (a) or (b)) determined immediately above shall be deemed the "First Financing Price" and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the investor will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of an initial public offering (“**IPO**”) or Change of Control (see below) (either of these events, a “**Liquidity Event**”) of the Company prior to any Equity Financing, the investor will receive, at the option of the investor, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of units of capital stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$8,000,000.00 divided by (b) the number, as of immediately prior to the Liquidity Event, of units of the Company’s capital stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of common securities reserved and available for future grant under any equity incentive or similar plan; (ii) any Safes; and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the investors and holders of other Safes (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“**Change of Control**” as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than fifty (50%) percent of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the investor will receive, at the option of the investor, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of shares of the most recently issued preferred securities equal to the Purchase Amount divided by the First Financing Price. Shares of preferred securities granted in connection therewith shall have the same liquidation rights and preferences as the shares of preferred securities issued in connection with the Company’s most recent Equity Financing.

Dissolution

If there is a Dissolution Event (see below) before the Securities terminate, the Company will distribute, subject to the preferences applicable to any series of preferred securities then outstanding, all of its assets legally available for distribution with equal priority among the investors, all holders of other Safes (on an as converted basis based on a valuation of common securities as determined in good faith by the Company’s board of directors at the time of the Dissolution Event) and all holders of common securities.

A “Dissolution Event” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur: (i) the issuance of shares in the CF Shadow Series to the investor pursuant to the conversion provisions or (ii) the payment, or setting aside for payment, of amounts due to the investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

The Securities have no voting rights at present or when converted.

The Company does not have any voting agreements in place.

The Company does not have any member/equity holder agreements in place. The Company does have an operating agreement.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that an Investor may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the 1933 Act, 3) as part of an IPO or 4) to a member of the family of the investor or the equivalent, to a trust controlled by the investor, to a trust created for the benefit of a member of the family of the investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. “Member of the family” as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the investor may not transfer the Securities or any Securities into which they are convertible to any of the Company’s competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be sold for up to one hundred and eighty (180) days following such IPO.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

NATURAL SELECTION NUTRITION, LLC
NOTES TO FINANCIAL STATEMENTS (REVIEWED)
DECEMBER 31, 2018 AND 2017

NOTE A- ORGANIZATION AND NATURE OF ACTIVITIES

Natural Selection Nutrition, LLC ("the Company") is a limited liability company organized under the laws of Kentucky. The Company operates a quick service restaurant, providing health conscious meal options to customers.

NOTE B- GOING CONCERN MATTERS

The financial statements have been prepared on the going concern basis, which assumes that the Company will continue in operation for the foreseeable future. However, management has identified the following conditions and events that created an uncertainty about the ability of the Company to continue as a going concern. The Company incurred net losses of \$235,709 and \$24,613 in 2018 and 2017, respectively.

The following describes management's plans that are intended to mitigate the conditions and events that raise substantial doubt about the Company's ability to continue as a going concern. The Company will attempt a Reg CF offering to raise funds for the purpose on continuing operations. The Company's ability to meet its obligations as they become due is dependent upon the success of management's plans, as described above.

These conditions and events create an uncertainty about the ability of the Company to continue as a going concern through December 22, 2020 (one year after the date that the financial statements are available to be issued). The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

NOTE C- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Significant Risks and Uncertainties

The Company is subject to customary risks and uncertainties associated with development of new technology including, but not limited to, the need for protection of proprietary technology, dependence on key personnel, costs of services provided by third parties, the need to obtain additional financing, and limited operating history.

The Company currently has no developed products for commercialization and there can be no assurance that the Company's research and development will be successfully commercialized. Developing and commercializing a product requires significant capital, and based on the current operating plan, the Company expects to continue to incur operating losses as well as cash outflows from operations in the near term.

NATURAL SELECTION NUTRITION, LLC
NOTES TO FINANCIAL STATEMENTS (REVIEWED) (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Revenue

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured.

Fixed Assets

The Company capitalizes assets with an expected useful life of one year or more, and an original purchase price of \$1,000 or more. Depreciation is calculated on a straight-line basis over management's estimate of each asset's useful life.

Digital Asset

In 2018, cryptocurrency units (XRP) were purchased for \$35,723. By the end of the year, the fair market value of this asset gained \$56,118. The company plans to hold this asset for investments purposes with the sale occurring at a time when management deems appropriate.

Rent

The Company occupies office space under a non-cancellable operating lease. The lease expires in 2020 and may be renewed at the option of the Company at the then-current market rate. Future minimum payments due are as follows:

2019- \$1,803 per month
2020- \$1,803 per month

The Company also occupies office space under a non-cancellable operating lease at a secondary location. The lease expires in 2021 and may be renewed at the option of the Company at the then-current market rate. Future minimum payments due are as follows:

2019- \$3,370
2020- \$3,370
2021- \$3,370

Advertising

The Company records advertising expenses in the year incurred.

Prior Period Adjustments to Owners' Equity

In 2018, errors to accumulated depreciation and gain on investments were discovered and corrected.

Prior Period Non-Cash Adjustments

In converting to accrual basis accounting, the company discovered errors that needed to be adjusted. Errors included proper recognition of gains on investments, accrual of depreciation of fixed assets, and loan related interest. The adjustments presented in both years represent the amounts management adjusted to properly report the amount of cash held in the company's bank accounts.

Equity Based Compensation

The Company accounts for stock options issued to employees under ASC 718 (Stock Compensation). Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as an item of expense ratably over the employee's requisite vesting period. The Company has elected early adoption of ASU 2018-07, which permits measurement of stock options at their intrinsic value, instead of their fair value. An option's intrinsic value is defined as the amount by which the fair value of the underlying stock exceeds the exercise price of an option. In certain cases, this means that option compensation granted by the Company may have an intrinsic value of \$0.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505 (Equity). The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to expense and credited to additional paid-in capital.

Income Taxes

The Company applies ASC 740 Income Taxes ("ASC 740"). Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial statement reported amounts at each period end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax expense for the period, if any and the change during the period in deferred tax assets and liabilities. ASC 740 also provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is "more likely than not" that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

NATURAL SELECTION NUTRITION, LLC
NOTES TO FINANCIAL STATEMENTS (REVIEWED) (CONTINUED)

The Company is subject to tax filing requirements as a partnership in the federal jurisdiction of the United States. All items of income and expense are reported by the Company's members on their individual tax returns.

The Company is subject to franchise tax filing requirements in the State of Kentucky.

Recently Adopted Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board, or FASB, or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of recently issued standards that are not yet effective will not have a material impact on its financial position or results of operations upon adoption.

In November 2015, the FASB issued ASU (Accounting Standards Update) 2015-17, *Balance Sheet Classification of Deferred Taxes*, or ASU 2015-17. The guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. For all entities other than public business entities, the guidance becomes effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for all entities as of the beginning of an interim or annual reporting period. The adoption of ASU 2015-17 had no material impact on the Company's financial statements and related disclosures.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230), Restricted Cash*, or ASU 2016-18. The amendments of ASU 2016-18 were issued to address the diversity in classification and presentation of changes in restricted cash and restricted cash equivalents on the statement of cash flows which is currently not addressed under Topic 230. ASU 2016-18 would require an entity to include amounts generally described as restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts on the statement of cash flows. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2018 for non-public entities. Early adoption is permitted, and the standard must be applied retrospectively. The adoption of ASU 2016-18 had no material impact on the Company's financial statements and related disclosures.

In May 2014, the FASB issued ASU, 2014-09—*Revenue from Contracts with Customers (Topic 606)*, or ASU 2014-09, and further updated through ASU 2016-12, or ASU 2016-12, which amends the existing accounting standards for revenue recognition. ASU 2014-09 is based on principles that govern the recognition of revenue at an amount to which an entity expects to be entitled to when products are transferred to customers. This guidance is effective for annual reporting periods, and interim periods within those years, beginning December 15, 2018 for non-public entities. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. The adoption of ASU 2014-09 had no material impact on the Company's financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, or ASU 2016-02, which supersedes the guidance in ASC 840, *Leases*. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is

NATURAL SELECTION NUTRITION, LLC
NOTES TO FINANCIAL STATEMENTS (REVIEWED) (CONTINUED)

also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. This guidance is effective for annual reporting periods beginning after December 15, 2019 for non-public entities. The adoption of ASU 2016-02 had no material impact on the Company's financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-based Payment Accounting*, or ASU 2016-09. ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas of simplification apply only to non-public companies. This guidance was effective on December 31, 2016 for public entities. For entities other than public business entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for an entity in any interim or annual period for which financial statements have not been issued or made available for issuance. An entity that elects early adoption must adopt all amendments in the same period. The adoption of ASU 2016-09 had no material impact on the Company's financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, *Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting*, or ASU 2017-09, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. This guidance is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2017, for both public entities and non-public entities. Early adoption is permitted. The adoption of ASU 2017-09 had no material impact on the Company's financial statements and related disclosures.

NOTE D- DEBT

In 2019, the company issued a series of related party notes payable in exchange for cash for the purpose of funding continuing operations ("the Related Party Notes"). The notes do not accrue interest and are payable at a future date to be determined by management.

In 2019, the company issued a note payable in exchange for cash for the purpose of funding continuing operations ("the Note Payable A"). The note does not accrue interest and are payable in 2021. During 2018 and 2017, the Company capitalized approximately \$0 in interest related to the Note.

In 2019, the company issued a series of notes payable in exchange for cash for the purpose of funding continuing operations ("the Note Payable B"). The notes accrue interest at the rate of 15% per annum and is payable in 2020. During 2018 and 2017, the Company capitalized approximately \$3,741 in interest related to the Notes.

NOTE E- FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants based on the highest and best use of the asset or liability. As such, fair value is a market-based measurement that should be determined based on

NATURAL SELECTION NUTRITION, LLC
NOTES TO FINANCIAL STATEMENTS (REVIEWED) (CONTINUED)

assumptions that market participants would use in pricing an asset or liability. The Company uses valuation techniques to measure fair value that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized as follows:

Level 1 - Observable inputs, such as quoted prices for identical assets or liabilities in active markets;

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly, such as quoted prices for similar assets or liabilities, or market-corroborated inputs; and

Level 3 - Unobservable inputs for which there is little or no market data which require the reporting entity to develop its own assumptions about how market participants would price the assets or liabilities.

The valuation techniques that may be used to measure fair value are as follows:

Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Income approach - Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts, including present value techniques, option-pricing models, and excess earnings method.

Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost).

NOTE F- CONCENTRATIONS OF RISK

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents. The Company places its cash and cash equivalents with a limited number of high-quality financial institutions and at times may exceed the amount of insurance provided on such deposits.

NOTE G- LLC MEMBER LIABILITY

The Company is a limited-liability company. As such, the financial liability of members of the Company for the financial obligations of the Company is limited to each member's contribution of capital.

NOTE H- SUBSEQUENT EVENTS

Management considered events subsequent to the end of the period but before December 22, 2020, the date that the financial statements were available to be issued.

Lots of selection, and people to deal with. Whether I need a single lunch or a week's worth of food they are super accommodating and helpful. Best part is the variety so I don't eat the same lunch every day like if I were to personally meal prep.

I can't say enough about this place! The staff is friendly and extremely professional. They provided great information on all the products. I suffer from chronic pain and was reluctant to try the CBD products, but talked to some friends about the possibilities. I was convinced to try it. My pain was gone in 10 minutes and I was able to sleep peacefully.

order to help my chronic pain, I was desperate for help. I was so impressed that I went back and personally thanked them. They will always have my business.

Investors

We've bootstrapped this business from the start

This business started from the sale of our first family home and personal credit-worthiness. We have been and always will be all-in on improving the health and lives of others.

Founders

Who we are

Alexander and Adriana Grow are husband-and-wife partners and founders of Natural Selection.

From a passion that grew out of the home kitchen, Adriana started meal prep to keep her family eating healthy food throughout the week. Before you knew it, friends and other military families took note, and wanted their meals prepared as well...after a serious bout of

market research from them both, Adriana and Alex took a huge leap of faith -selling their first family home in 2016 to open the first Natural Selection Meal Prep kitchen.

"Neither of us had any formal experience in food-service, commercial kitchens, or business at all to be honest... but I knew she was an amazing cook, and I knew my organizational and leadership experience in the service would help us structure the company."

The business saw immediate traction, orders were doubling week after week and the grab-and-go meal prep fridges could hardly stay stocked. In a short amount of time Natural Selection developed a loyal following, and has been growing in customers and products ever since.

"It was an eye-opening experience those first years, to see the support grow so quickly. We always focus on our customers first and improving their experience, if it makes health more accessible or convenient, we want to be there."

Since then both Adriana and Alex have developed a strong, multi-talented team who are committed to seeing Natural Selection succeed.

"Initially her and I did everything, and we had to become experts quickly at anything that would support the business. However with our team now, these efforts are multiplied - this level of growth would not have been possible without them."

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. In connection with this Section 1(b)(i), the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

(ii) If there is a Liquidity Event after one or more Equity Financings have occurred but before the termination of this instrument, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (as described in the foregoing paragraph) or (ii) automatically receive from the Company a number of units of the most recent issued Capital Stock (whether Preferred Securities or another class issued by the Company) equal to the Purchase Amount divided by the First Equity Financing Price, if the Investor fails to select the cash option. Shares of Capital Stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of Capital Stock issued in connection with the Company’s most recent Equity Financing.

If the Company’s board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Company’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Securities, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Securities as determined in good faith by the Company’s board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Securities upon a Dissolution Event and (iii) and all holders of Common Securities.

(d) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the

earlier to occur: (i) the issuance of units in the CF Shadow Series or Common Securities to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

“Equity Securities” shall mean Common Stock or Preferred Stock or any securities convertible into, exchangeable for or conferring the right to purchase (with or without additional consideration) Common Stock or Preferred Stock, except in each case, (i) any security granted, issued and/or sold by the Company to any director, officer, employee, advisor or consultant of the Company in such capacity for the primary purpose of soliciting or retaining his, her or its services, (ii) any convertible promissory notes issued by the Company, and (iii) any SAFEs issued.

“Fully Diluted Capitalization” shall mean the aggregate number, as of immediately prior to the First Equity Financing, of issued and outstanding shares of Capital Stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible Preferred Stock and all outstanding vested or unvested options or warrants to purchase Capital Stock, but excluding (i) the issuance of all shares of Capital Stock reserved and available for future issuance under any of the Company’s existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any SAFEs, and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs.

“Lock-up Period” means the period commencing on the date of the final prospectus relating to the Company’s IPO, and ending on the date specified by the Company and the managing underwriter(s). Such period shall not exceed one hundred eighty (180) days, or such other period as may be requested by the Company or an underwriter to accommodate regulatory restrictions on (i) the publication or other distribution of research reports, and (ii) analyst recommendations and opinions.

“Preferred Securities” means the preferred limited liability company membership units of the Company or preferred stock of the Company, if the Company is restructured as a corporation, including the securities issuable upon the conversion of this instrument pursuant to Sections 1(b)(i) or 1(d).

4. Investor Representations

(a) The Investor has full legal capacity, power and authority to execute and deliver this instrument and to perform its obligations hereunder. This instrument constitutes a valid and binding obligation of the Investor, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors’ rights generally and general principles of equity.

(b) The Investor has been advised that this instrument and the underlying securities have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act. The Investor understands that neither this instrument nor the underlying securities may be resold or otherwise transferred unless they are registered under the Securities Act and applicable state securities laws or pursuant to Rule 501 of Regulation CF, in which case certain state transfer restrictions may apply.

(c) The Investor is purchasing this instrument and the securities to be acquired by the Investor hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Investor has no present intention of selling,

granting any participation in, or otherwise distributing the same. The Investor understands that the Securities have not been, and will not be, registered under the Securities Act or any state securities laws, by reason of specific exemptions under the provisions thereof which depend upon, among other things, the bona fide nature of the investment intent and the accuracy of each Investor's representations as expressed herein.

(d) The Investor acknowledges, and is purchasing this instrument in compliance with, the investment limitations set forth in Rule 100(a)(2) of Regulation CF, promulgated under Section 4(a)(6)(B) of the Securities Act.

(e) The Investor acknowledges that the Investor has received all the information the Investor has requested from the Company and the Investor considers necessary or appropriate for deciding whether to acquire this instrument and the underlying securities, and the Investor represents that the Investor has had an opportunity to ask questions and receive answers from the Company regarding the terms and conditions of this instrument and the underlying securities and to obtain any additional information necessary to verify the accuracy of the information given to the Investor. In deciding to purchase this instrument, the Investor is not relying on the advice or recommendations of the Company or of Republic.co and the Investor has made its own independent decision that an investment in this instrument and the underlying securities is suitable and appropriate for the Investor. The Investor understands that no federal or state agency has passed upon the merits or risks of an investment in this instrument and the underlying securities or made any finding or determination concerning the fairness or advisability of this investment.

(f) The Investor understands and acknowledges that as a Crowd SAFE investor, the Investor shall have no voting, information or inspection rights, aside from any disclosure requirements the Company is required to make under relevant securities regulations.

(g) The Investor understands that no public market now exists for any of the securities issued by the Company, and that the Company has made no assurances that a public market will ever exist for this instrument and the securities to be acquired by the Investor hereunder.

(h) The Investor is not (i) a citizen or resident of a geographic area in which the purchase or holding of the Crowd SAFE and the underlying securities is prohibited by applicable law, decree, regulation, treaty, or administrative act, (ii) a citizen or resident of, or located in, a geographic area that is subject to U.S. or other applicable sanctions or embargoes, or (iii) an individual, or an individual employed by or associated with an entity, identified on the U.S. Department of Commerce's Denied Persons or Entity List, the U.S. Department of Treasury's Specially Designated Nationals List, the U.S. Department of State's Debarred Parties List or other applicable sanctions lists. Investor further represents and warrants that it will not knowingly sell or otherwise transfer any interest in the Crowd SAFE or the underlying securities to a party subject to U.S. or other applicable sanctions.

(i) If the Investor is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the Investor hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation, subscription and payment for, and continued ownership of, its beneficial interest in the Crowd SAFE and the underlying securities will not violate any applicable securities or other laws of the Investor's jurisdiction, including (i) the legal requirements within its jurisdiction for the subscription and the purchase of its beneficial interest in the Crowd SAFE; (ii) any foreign exchange restrictions applicable to such subscription and purchase; (iii) any governmental or other consents that may need to be obtained; and (iv) the income tax and other

tax consequences, if any, that may be relevant to the purchase, holding, conversion, redemption, sale, or transfer of its beneficial interest in the Crowd SAFE and the underlying securities. The Investor acknowledges that the Company has taken no action in foreign jurisdictions with respect to the Crowd SAFE (and the Investor's beneficial interest therein) and the underlying securities.

(j) If the Investor is a corporate entity: (i) such corporate entity is duly incorporated, validly existing and in good standing under the laws of the state of its incorporation, and has the power and authority to enter into this Agreement; (ii) the execution, delivery and performance by the Investor of the Agreement is within the power of the Investor and has been duly authorized by all necessary actions on the part of the Investor; (iii) to the knowledge of the Investor, it is not in violation of its current charter or bylaws, any material statute, rule or regulation applicable to the Investor; and (iv) the performance the Agreement does not and will not violate any material judgment, statute, rule or regulation applicable to the Investor; result in the acceleration of any material indenture or contract to which the Investor is a party or by which it is bound, or otherwise result in the creation or imposition of any lien upon the Purchase Amount.

(k) The Investor further acknowledges that it has read, understood, and had ample opportunity to ask Company questions about its business plans, "Risk Factors," and all other information presented in the Company's Form C and the offering documentation filed with the SEC.

(l) The Investor represents that the Investor understands the substantial likelihood that the Investor will suffer a **TOTAL LOSS** of all capital invested, and that Investor is prepared to bear the risk of such total loss.

5. Transfer Restrictions.

(a) The Investor hereby agrees that during the Lock-up Period it will not, without the prior written consent of the managing underwriter: (A) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any units of Capital Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Capital Stock (whether such shares or any such securities are then owned by the Investor or are thereafter acquired); or (B) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities; whether any such transaction described in clause (A) or (B) above is to be settled by delivery of Capital Stock or other securities, in cash, or otherwise.

(b) The foregoing provisions of Section 5(a) will: (x) apply only to the IPO and will not apply to the sale of any shares to an underwriter pursuant to an underwriting agreement; (y) not apply to the transfer of any shares to any trust for the direct or indirect benefit of the Investor or the immediate family of the Investor, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer will not involve a disposition for value; and (z) be applicable to the Investor only if all officers and directors of the Company are subject to the same restrictions and the Company uses commercially reasonable efforts to obtain a similar agreement from all stockholders individually owning more than 5% of the outstanding Common Securities or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Securities. Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Company may impose stop transfer instructions with respect to the Investor's registrable securities of the Company (and the Company shares or securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. The Investor agrees that a legend reading substantially as follows will be placed on all certificates representing all of the Investor's registrable securities of the Company (and the shares or securities of the Company held by every other person subject to the restriction contained in Section 5(a)):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE COMPANY'S REGISTRATION STATEMENT FILED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN THE COMPANY AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT THE COMPANY'S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

(d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Company to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

THIS INSTRUMENT HAS BEEN ISSUED PURSUANT TO SECTION 4(A)(6) OF THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND NEITHER IT NOR ANY SECURITIES ISSUABLE PURSUANT HERETO HAVE BEEN REGISTERED UNDER THE SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE. THESE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED, PLEDGED OR HYPOTHECATED EXCEPT AS PERMITTED BY RULE 501 OF REGULATION CROWDFUNDING UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT OR EXEMPTION THEREFROM.

6. Miscellaneous

(a) If the Company elects to convert to a C-corporation while this Crowd SAFE remains outstanding, the Investor agrees to take any and all actions determined in good faith by the Company to be advisable to reorganize this Crowd SAFE and any securities issuable hereunder. Further, the Investor agrees to take any and all actions determined in good faith by the Company's board of directors or equivalent governance body to be advisable to reorganize this instrument and any shares of Capital Stock issued pursuant to the terms of this instrument into a special purpose vehicle or other entity designed to aggregate the interests of holders of Crowd SAFEs.

(b) Any provision of this instrument may be amended, waived or modified only upon the written consent of either (i) the Company and the Investor, or (ii) the Company and the majority of the Investors (calculated based on the Purchase Amount of each Investors Crowd SAFE).

(c) Any notice required or permitted by this instrument will be deemed sufficient when delivered personally or by overnight courier or sent by email to the relevant address listed on the signature page, or 48 hours after being deposited in the U.S. mail as certified or registered mail with postage prepaid, addressed to the party to be notified at such party's address listed on the signature page, as subsequently modified by written notice.

(d) The Investor is not entitled, as a holder of this instrument, to vote or receive dividends or be deemed the holder of Capital Stock for any purpose, nor will anything contained herein be construed to confer on the Investor, as such, any of the rights of a stockholder of the Company or any right to vote for the election of managers, directors or upon any matter submitted to equity holders at any meeting thereof, or to give or withhold consent to any Company action or to receive notice of meetings, or to receive subscription rights or otherwise until Common Stock has been issued upon the terms described herein.

(e) Neither this instrument nor the rights contained herein may be assigned, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this instrument and/or the rights contained herein may be assigned without the Company's consent by the Investor to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Company may assign this instrument in whole, without the consent of the Investor, in connection with a reincorporation to change the Company's domicile.

(f) In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

(g) All securities issued under this instrument may be issued in whole or fractional parts.

(h) All rights and obligations hereunder will be governed by the laws of the State of Delaware, without regard to the conflicts of law provisions of such jurisdiction.

(i) Any dispute, controversy or claim arising out of, relating to or in connection with this instrument, including the breach or validity thereof, shall be determined by final and binding arbitration administered by the American Arbitration Association (the “**AAA**”) under its Commercial Arbitration Rules and Mediation Procedures (“**Commercial Rules**”). The award rendered by the arbitrator shall be final, non-appealable and binding on the parties and may be entered and enforced in any court having jurisdiction. There shall be one arbitrator agreed to by the parties within twenty (20) days of receipt by respondent of the request for arbitration or, in default thereof, appointed by the AAA in accordance with its Commercial Rules. The place of arbitration shall be Nashville, Tennessee. Except as may be required by law or to protect a legal right, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

(j) In the event the Investor, together with its affiliates, purchases one or more Crowd SAFEs with an aggregate Purchase Amount equal to or exceeding \$25,000 (a “**Major Investor**”), the Company shall provide the Investor with at least ten (10) business days prior written notice of the First Equity Financing, including the price and terms thereof. The Major Investor shall have a right to convert, in its sole discretion, any Crowd SAFEs then held by the Major Investor upon the closing of the First Equity Financing into a number of shares of the CF Shadow Series of Capital Stock in accordance with Section 1(a). For the avoidance of doubt, this clause shall only apply to the Purchase Amount from the current Offering of the Company’s units and will not be integrated with any previous offerings of the Company’s units.

(k) The Company shall provide each Major Investor with at least ten (10) business days prior written notice (“**Notice**”) including the price and terms thereof of the First Equity Financing consisting of any new equity securities other than Excluded Securities (such Securities other than Excluded Securities the “**New Securities**”). The Major Investor shall have the right, upon Notice from the Company, within ten (10) days following receipt of the Notice, whether such Notice is provided before or after the issuance (the “**Exercise Period**”), to elect to subscribe for, at the price and on the terms stated in the Notice, such number of New Securities equal to the product obtained by multiplying the number of New Securities (calculated on an as-converted basis) by a fraction, the numerator of which is the Common Stock (calculated on an as-converted basis) held by the Investor on the date of such Notice (and prior to the issuance) and the denominator of which is the total number of Common Stock (calculated on an as-converted basis) issued and outstanding on the date of such Notice (and prior to the issuance); provided, however, the denominator shall not include shares of Common Stock reserved and available for future grant under any equity incentive or similar plan of the Company. If all or any portion of the New Securities are not subscribed to by the Major Investor as described above, then the Company may, at its election, during a period of thirty (30) days following the expiration of the Exercise Period, issue the remaining New Securities to other parties at a price and upon terms not more favorable than those stated in such Notice. In the event the Company has not issued the New Securities within such thirty (30) day period, the Company shall not thereafter issue any New Securities without first offering such securities to the Investor in the manner provided in this clause. Failure by the Major Investor to exercise its option to subscribe with respect to one offering and issuance of New Securities shall not affect its option to subscribe for equity securities in any subsequent offering and issuance. This clause shall not apply to “**Excluded Securities**” issued by the Company which shall mean (i) securities issued as a dividend or distribution on outstanding securities, (ii) securities issued upon conversion or exercise of outstanding securities, (iii) securities issued to employees, directors or consultants pursuant to a plan, agreement or arrangement approved by the Company’s Board of Directors, (iv) securities issued pursuant to the acquisition of another corporation or its assets by the Company, or (v) up to one million dollars (\$1,000,000) in securities issued by the Company annually to fund obligations to make cash dividends or interest payments on outstanding securities.

Reference is hereby made to a certain Crowdfunding Simple Agreement for Future Equity (the “**Crowd SAFE**”) dated \$crowd safe date\$ between Natural Selection Nutrition, LLC, a Kentucky limited liability company (the “**Company**”) and \$investor name\$ (“**Member**”). In connection with a conversion of Member’s investment in the Crowd SAFE into Capital Stock of a CF Shadow Series (as defined in the Crowd SAFE) pursuant to the Crowd SAFE, the Member and OpenDeal Portal LLC (the “**Intermediary**”) as another holder of Capital Stock of a CF Shadow Series hereby agree as follows:

1. Grant of Irrevocable Proxy.

- (a) With respect to all Capital Stock of CF Shadow Series owned by the Member as of the date of this Irrevocable Proxy or any subsequent date (the “**Interests**”), Member hereby grants to Intermediary an irrevocable proxy under Section 212 of the Delaware General Corporation Law or Section 302 of the Delaware Limited Liability Company Act, as applicable, to vote the Interests in any manner that the Intermediary may determine in its sole and absolute discretion. For the avoidance of doubt, the Intermediary, as the holder of this irrevocable proxy (rather than the Member) will vote the Interests with respect to all meetings of equity holders and other actions (including actions by written consent in lieu of a meeting) on which holders of Interests may be entitled to vote. The Intermediary hereby agrees to vote all Interests consistently with the majority of the Capital Stock on which the CF Shadow Series is based. This proxy revokes any other proxy granted by the Member at any time with respect to the Interests.
- (b) The Intermediary shall have no duty, liability or obligation whatsoever to the Member arising out of the Intermediary’s exercise of the this irrevocable proxy. The Member expressly acknowledges and agrees that (i) the Member will not impede the exercise of the Intermediary’s rights under this irrevocable proxy and (ii) the Member waives and relinquishes any claim, right or action the Member might have, as an equity holder of the Company or otherwise, against the Intermediary or any of its affiliates or agents (including any directors, officers, managers, members, and employees) in connection with any exercise of the irrevocable proxy granted hereunder.
- (c) This irrevocable proxy shall expire as to those Interests on the earlier of (i) the date that such Interests are converted into Common Securities of the Company or (ii) the date that such Interests are converted to cash or a cash equivalent, but shall continue as to any Interests not so converted.

2. Legend. The Member agrees to permit an appropriate legend on certificates evidencing the Interests or any transfer books or related documentation of ownership reflecting the grant of the irrevocable proxy contained in the foregoing Section 1.

3. Representations and Warranties. The Member represents and warrants to the Intermediary as follows:

- (a) The Member has the all necessary rights, power and authority to execute, deliver and perform his obligations under this Irrevocable Proxy. This Irrevocable Proxy has been duly executed and delivered by the Member and constitutes such Member’s legal and valid obligation enforceable against the Member in accordance with its terms.

- (b) The Member is the record owner of the Interests and the Member has plenary voting and dispositive power with respect to such Interests; the Member owns no other equity of the Company; there are no proxies, voting trusts or other agreements or understandings to which such Member is a party or bound by and which expressly require that any of the Interests be voted in any specific manner other than pursuant to this irrevocable proxy. The Member has not entered into any agreement or arrangement inconsistent with this irrevocable proxy.

4. Equitable Remedies. The Member acknowledges that irreparable damage would result if this irrevocable proxy is not specifically enforced and that, therefore, the rights and obligations of the Intermediary may be enforced by a decree of specific performance issued by arbitration pursuant to the Crowd SAFE, and appropriate injunctive relief may be applied for and granted in connection therewith. Such remedies shall, however, not be exclusive and shall be in addition to any other remedies that the Intermediary may otherwise have available.

5. Defined Terms. All terms defined in this irrevocable proxy shall have the meaning defined herein. All other terms will be interpreted in accordance with the Crowd SAFE.

6. Amendment. Any provision of this instrument may be amended, waived or modified only upon the written consent of the (i) the Member and (ii) the Intermediary .

7. Assignment.

- (a) In the event the Member wishes to transfer, sell, hypothecate or otherwise assign any Interests, the Member hereby agrees to require, as a condition of such action, that the counterparty or counterparties thereto must enter into a proxy agreement with the Intermediary substantially identical to this irrevocable proxy.
- (b) The Intermediary may transfer its rights under this instrument after giving prior written notice to the Member.

8. Severability. In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

IN WITNESS WHEREOF, the undersigned have caused this instrument to be duly executed and delivered.

"There's an obesity and healthcare crises in the US. According to the Center for Disease Control and Prevention 40% of adult Americans and 20% of children are now classified as obese. Worse yet, six out of ten Americans are diagnosed with a chronic illness such as diabetes, heart disease, or cancer - at Natural Selection we're on a mission to change this."

Alexander:

"...and I'm Alex and we're the owners of Natural Selection."

Graphics:

(How did Natural Selection start?)

Alexander:

"Actually, it was my wife that started all this, believe it or not, out of our home kitchen"

Adriana:

"We started right after we actually had our second daughter"

Alexander:

"It was pretty crazy I mean at first it was just us and a couple of the family members and before you know it, I mean literally you're cooking for all of Fort Campbell it seemed like and you were just so slammed, it was great."

Alexander:

"I mean we went from selling our first home, to building out that meal prep kitchen, to expanding with a couple of people and now we have two to three thousand people that we service throughout Fort Campbell and Clarksville. At first it was just her and I working in there with maybe a couple of friends and family members, now we have about 24 employees that help us run the entire operations - it's really just been a humbling experience."

Adriana:

"We're using crowdfunding to build Natural Selection into a National Brand, and here's where we need your help."

Alexander:

"Your funding is going to allow us to open the first Natural Selection headquarters in Nashville, Tennessee. This headquarters location will allow us to do a phased national roll-out of all our products and services throughout the entire US."

Alexander:

"In addition to this it's going to allow us to open the first two Natural Selection Training Facilities. These locations are going to be great, they're going to allow you 24/7 access to all our products and services under one roof. This really is going to allow communities a one-stop health shop so they always know where to start their health journey."

Adriana:

"Thanks for hanging out with us today guys."

Alexander:

"Invest in Natural Selection today to be part of the future of health and wellness."
