#### Revenue from contracts with customers

The Company recognizes revenue in accordance with ASC 606 Revenue from Contracts with Customers ("ASC 606"). Under ASC 606 revenue is recognized upon satisfaction of performance obligations by transferring control over goods or service to a customer.

Revenue from private placements and M&A advisory services is generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction) or the contract is cancelled. However, for certain contracts, revenue is recognized over time for advisory arrangements in which the performance obligations are simultaneously provided by the Company and consumed by the customer. In some circumstances, significant judgment is needed to determine the timing and measure of progress appropriate for revenue recognition under a specific contract.
