RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Market adoption. If we're unable continue to get the word out about our brand. or if enough consumers

do not respond positively to our product, our future performance may be impacted.

We operate in competitive markets and our future success will be largely dependent on our ability to provide quality products and services at competitive prices. The apparel market is intensely competitive and sensitive to national and regional economic conditions. Demand for the products that we distribute may be adversely affected by consumer spending, which may be adversely impacted by economic conditions such as consumer confidence in future economic and business conditions, interest and tax rates, employment levels, salary and wage levels and weather patterns affecting food production.

Should a natural disaster happen at one or both of our production facilities, it may impede the delivery of our products.

The Company development activities require capital. There is no certainty that the initial financing will be sufficient to establish continuous product developments, in which case additional development financing will be required. After this initial round of financing, the Company expects that in 12-14 months it will need another \$3 million in additional capital to continue to grow and expand the business successfully. As such, it is absolutely certain that the Company will need additional financing. The ability of the Company to secure future capital will depend on many factors, including continued progress in product sales, the cost of manufacturing and production, market requirements, advertising costs and fluctuations in raw material prices. The Company does not know whether additional financing will be available when needed, or whether it can be obtained on terms favorable to the Company or its existing investors - particularly in light of current economic conditions, the availability of credit, and other sources of capital. The Company may raise any necessary funds through public or private equity offerings, debt financings, or additional corporate collaboration and licensing arrangements. To the extent the Company raises additional capital by issuing equity securities, the Company's members will experience dilution. If the Company raises funds through debt financings, they may become subject to restrictive covenants. If adequate funds are not available, the Company may be required to delay, scale-back, or eliminate their research and development programs or obtain funds through collaborative partners or others that may require the Company to relinquish rights to certain of the Company's potential product offerings

that they would not otherwise relinquish. There can be no assurance that additional financing will be available on acceptable terms or at all, if and when required.

Any defects in the products we manufacture, whether caused by a design, manufacturing or component failure or error, may result in returns, claims, delayed shipments to customers or reduced or cancelled customer orders. If these defects occur we will incur additional costs and if in large quantity or too frequent, we may sustain loss of business, loss of reputation and may incur liability.

If there were to be any major long term supply chain issues, or raw material shortages this could impede our ability to manufacture our products, thus effecting sales.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or, an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits, and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of any members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Patented, Grab-and-Go Boobwear that addresses fit, function, and fashion. Nuudii has created a boobwear category of its own between bra and braless. Our brand is built on innovation. We use advanced engineering and design to create collections of patented grab-and-go products that are multifunctional and address fit, fashion and function.

Milestones

Since then, we have:

- \$6M+ sales with 196% YOY, 78% margin from 2022 to 2023

- 🍷 100,000+ customers in 40+ countries
- 💰 \$1.6M raised, VC, Angel and prior Wefunder

Historical Results of Operations

- *Revenues & Gross Margin.* For the period ended December 31, 2023, the Company had revenues of \$2,610,176 compared to the year ended December 31, 2022, when the Company had revenues of \$1,129,577. Our gross margin was 55.4% in fiscal year 2023, compared to 49.77% in 2022.
- *Assets.* As of December 31, 2023, the Company had total assets of \$469,775, including \$125,829 in cash. As of December 31, 2022, the Company had \$378,464 in total assets, including \$176,304 in cash.
- *Net Loss.* The Company has had net income of \$152,607 and net losses of \$684,207 for the fiscal years ended December 31, 2023 and December 31, 2022, respectively.
- *Liabilities.* The Company's liabilities totaled \$2,272,882 for the fiscal year ended December 31, 2023 and \$2,334,178 for the fiscal year ended December 31, 2022.

Liquidity & Capital Resources

To-date, the company has been financed with \$352,381 in debt and \$1,648,300 in convertibles. After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 60 months before we need to raise further capital. We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future. We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 14 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future

from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Nuu Collective LLC cash in hand is \$105,000, as of March 2024. Over the last three months, revenues have averaged \$205,000/month, cost of goods sold has averaged \$52,317/month, and operational expenses have averaged \$152,000/month, for an average net margin of \$683 per month. Our intent is to be consistently profitable in 10 months. Since the date of our financials, an existing investor invested \$31K on a convertible note, closing the last round. To date in 2024, we have also paid down on our loans; Shopify is now owed \$100K (versus EOY 23' \$125k), Paypal is owed \$21K (versus EOY 23' \$41K), and Clearco loan is now \$53k. We also received a \$60K short loan from Hans Kaeser in January 2024. Our projected revenue in 3 months is \$1.14M and the projected revenue in 6 months is \$2.6M. Our projected expenses in 3 months is \$580,000 and \$1,230,000 in 6 months. The \$618,000 we raise through Wefunder will provide us with the funding needed for inventory, so we won't have to take out more loans with high fees. Our next financial goal for 2024 is to be cash-positive by year's end. For additional sources of capital aside from Wefunder, we are embarking on our strongest sales quarter of the year, so the increase in revenues will help us tremendously. We will continue to stay scrappy. We do have access to more loans - but are going to try hard to not tap into them. Also we are negotiating better terms with our factory, which will also help with cash flow. All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the

securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their

investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<http://nuudiisystem.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
