RISK FACTORS

The SEC requires the Company to identify risks that are specific to its business and financial condition. The Company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and is just beginning to implement its business plan. There can be no assurance that it will ever operate profitably. The likelihood of its success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by companies in their early stages of development. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause a Purchaser to lose all or a portion of his or her investment.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on certain key personnel in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any

compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

Changes in government regulation could adversely impact our business.

The Company is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. The FCC and/or Congress may attempt to change the classification of or change the way that our online content platforms are regulated and/or change the framework under which Internet service providers are provided Safe Harbor for claims of copyright infringement, introduce changes to how digital advertising is regulated and consumer information is handled, changing rights and obligations of our competitors. We expect that court actions and regulatory proceedings will continue to refine our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients, or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of large volumes of customer and employee data, including credit and debit card numbers and other personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that customer and employee data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to,

customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

Like others in our industry, we continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

The Company operates as a limited liability company and is treated as a "partnership" for federal income tax purposes.

The Company is a Puerto Rico limited liability company. Limited liability companies are flexible corporate entities, which may, but do not necessarily have, the same governance provisions and minority shareholder rights protections as corporations. Additionally, the tax treatment of any person who becomes a member of the Company will likely be a "partnership" under federal tax law. This could lead to unexpected tax consequences for investors such as "phantom income," which is when a partner of a partnership must report income even though the partner did not receive a distribution of cash or assets. Each potential purchaser should take steps to understand the potential tax treatment of their investment.

Company governance and reliance on others.

The Company is a single-member limited liability company, which gives the sole member broad authority to act on behalf of the Company and to alter its governance structure and amend the provisions of the Company's operating agreement. Should the SAFE convert in a future financing, the SAFE holders will obtain similar rights (excluding voting) as the investors in the future financing. The rights, privileges, and preferences are yet to be negotiated and determined, and the Investors will be dependent on the future financiers to negotiate favorable terms.

Company Dependence on Intellectual Property

The Company is highly dependent on its intellectual property. If the Company is unable to demonstrate the value of its intellectual property or to enforce its intellectual property rights, the Investors could be materially impacted.

Risks Related to the Offering

The Company's management may have broad discretion in how the Company uses the net proceeds of an offering.

Unless the Company has agreed to a specific use of the proceeds from an offering, the Company's management will have considerable discretion over the use of proceeds from their offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investors commitment amount based on the Company's determination of an Investor's sophistication.

The Company may prevent Investors from committing more than a certain amount to this Offering based on the Company's belief of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation Crowdfunding rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering deadline. The Company has the right to end the Offering early.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering, if you choose to reconfirm your investment, your investment will not be accruing

interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. The Company may also end the Offering early; if the Offering reaches its target Offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

If the Company is found to have violated state and federal securities laws in a prior offering of securities, it may face penalties from state and federal regulators and prior investors may have a right to a return of their investment amounts.

If a court or regulatory body with the required jurisdiction ever accused or concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amount required or that proceeds from this Offering would not be used to pay such amounts. In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

The securities being offered have not been registered under the Securities Act of 1933 (the "Securities Act"), in reliance, among other exemptions, on the exemptive provisions of article 4(2) of the Securities Act and Regulation D under the Securities Act. Similar reliance has been placed on apparently available exemptions from securities registration or qualification requirements under applicable state securities laws. No assurance can be given that any offering currently qualifies or will continue to qualify under one or more of such exemptive provisions due to, among other things, the adequacy of disclosure and the manner of distribution, the existence of similar offerings in the past or in the future, or a change of any securities law or regulation that has retroactive effect. If, and to the extent that, claims or suits for rescission are brought and successfully concluded for failure to register any offering or other offerings or for acts or omissions constituting offenses under the Securities Act, the Securities Exchange Act of 1934, or applicable state securities laws, the Company could be materially adversely affected, jeopardizing the Company's ability to operate successfully. Furthermore, the human and capital resources of the Company could be adversely affected by the need to defend actions under these laws, even if the Company is ultimately successful in its defense. Compliance with the criteria for securing exemptions under federal securities laws and the securities laws of the various states is extremely complex, especially in respect of those exemptions affording flexibility and the elimination of trading restrictions in respect of securities received in exempt transactions and subsequently disposed of without registration under the Securities Act or state securities laws.

Risks Related to the Securities

The Units of SAFE will not be freely tradable until one year from the initial purchase date. Although the Units of SAFE may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Units of SAFE. Because the Units of SAFE have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Units of SAFE have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Units of SAFE may also adversely affect the price that you might be able to obtain for the Units of SAFE in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this

Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Investors will not become equity holders until the Company decides to convert the Securities into CF Shadow Securities or until there is a change of control or sale of substantially all of the Company's assets.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Series Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity Securities Investors are entitled to receive upon such conversion). In certain instances, such as a sale of the Company or substantially all of its assets, an IPO or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company.

Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities; upon the conversion of the Crowd SAFE to CF Shadow Securities (which cannot be guaranteed), holders of Shadow Securities will be required to enter into a proxy with the intermediary to ensure any statutory voting rights are voted in tandem with the majority holders of whichever series of securities the Shadow Securities follow.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (which the occurrence of cannot be guaranteed). Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to enter into a proxy agreement with the Intermediary ensuring they will vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to enter into a proxy that allows the Intermediary to vote the same way as a majority of the Series B Preferred Shareholders vote. Thus, Investors will never be able to freely vote upon any manager or other matters of the Company.

Investors will not be entitled to any inspection or information rights other than those required by Regulation CF.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which the Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions. The Company may pay distributions to its existing and future holders of membership units without triggering the SAFE or incurring additional liabilities or obligations to Purchasers.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Investor is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent financings.

The Company's equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Crowd SAFE will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, the Company may have to raise additional capital at a price unfavorable to the existing investors, including the purchaser. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the equity securities acquired upon conversion of the Securities.

Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued at the time of conversion.

Company may issue to converting Crowd SAFE holders equity securities that are materially distinct from equity securities it will issue to new purchasers of equity securities. This paragraph does not purport to be a complete summary of all such distinctions. Equity securities issued to Crowd SAFE purchasers upon their conversion of Company's Crowd SAFE securities will be distinct from the equity securities issued to new purchasers in at least the following respects: to the extent such equity securities bear any liquidation preferences, dividend rights, or anti-dilution protections, any equity securities issued at the Conversion Price (as defined in the Crowd SAFE) shall bear such preferences, rights, and protections only in proportion to the Conversion Price and not in proportion to the price per share paid by new investors in the equity securities. The Company may not provide converting Crowd SAFE purchasers the same rights, preferences, protections, and other benefits or privileges provided to other purchasers of the Company's equity securities.

There is no present market for the Securities and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

In a dissolution or bankruptcy of the Company, Investors will not be treated as priority debt holders and therefore are unlikely to recover any assets in the event of a bankruptcy or dissolution event.

In a dissolution or bankruptcy of the Company, Investors of Securities which have not been converted will be entitled to distributions as described in the Crowd SAFE. This means that such Investors will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred security holders, have been paid in full. If the Securities have been converted into CF Shadow Share Securities or SAFE Preferred Securities, the Investors will have the same rights and preferences (other than the ability to vote) as the holders of the Securities issued in the equity financing upon which the Securities were converted. Neither holders of Crowd SAFE nor holders of CF Shadow Share Securities nor SAFE Preferred Securities can be guaranteed a return in the event of a dissolution event or bankruptcy.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Crowd SAFE agreement, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Crowd SAFE agreement, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on its investment or that it will not lose its entire investment. For this reason, each Investor should read this Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

Legal Matters

Any prospective Investor should consult with its own counsel and advisors in evaluating an investment in the Offering.

The summaries of, and references to, various documents in this Form C do not purport to be complete and in each instance reference should be made to the copy of such document which is either an appendix to this Form C or which will be made available to Investors and their professional advisors upon request.

The Company is prepared to furnish, upon request, a copy of the forms of any documents referenced in this Form C. The Company's representatives will be available to discuss with prospective Investors and their representatives and advisors, if any, any matter set forth in this Form C or any other matter relating to the Securities described in this Form C, so that prospective Investors and their representatives and advisors, if any, may have available to them all information, financial and otherwise, necessary to formulate a well-informed investment decision. Additional information and materials concerning the Company will be made available to prospective Investors and their representatives and advisors, if any, at a mutually convenient location upon reasonable request.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PROSPECTIVE INVESTOR CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The Securities

We request that you please review this Form C and the Crowd SAFE instrument attached as Exhibit E, in conjunction with the following summary information.

Authorized Capitalization

Please refer to Capitalization and Ownership above for information on the capitalization of the Company.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and can be thought of as the right to receive equity at some point in the future upon the occurrence of certain events.

Distributions

The Securities do not entitle the Investors to any distributions.

Conversion

Upon each future equity financing of greater than \$1,000,000 (an “**Equity Financing**”), the Securities are convertible at the option of the Company, into CF Shadow Series Securities, which are securities identical to those issued in such future Equity Financing except 1) they do not have the right to vote on any matters except as required by law, 2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and 3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by:

(a) the quotient of \$5,000,000 divided by the aggregate number of issued and outstanding membership units, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred securities and all outstanding vested or unvested options or warrants to purchase membership units, but excluding (i) the issuance of all membership units reserved and available for future issuance under any of the Company’s existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**Safes**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes,

OR

(b) the lowest price per share of the securities sold in such Equity Financing multiplied by 80%.

The price (either (a) or (b)) determined immediately above shall be deemed the “First Financing Price” and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

If the Securities are not converted, the more preferable conversion found above will be deemed the first equity financing price “**First Equity Financing Price**”.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of an initial public offering of the Company (“**IPO**”) or Change of Control (see below) (either of these events, a “**Liquidity Event**”) of the Company prior to any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of membership units of the Company equal to the Purchase Amount divided by the quotient of (a) \$5,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of the Company’s membership units (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) membership units reserved and available for future grant under any equity incentive or similar plan; (ii) any Safes; and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and holders of other Safes (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“**Change of Control**” as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than 50% of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of units of the most recently issued preferred securities equal to the Purchase Amount divided by the First Equity Financing Price. Units of preferred securities granted in connection therewith shall have the same liquidation rights and preferences as the units of preferred securities issued in connection with the Company’s most recent Equity Financing.

Pro-Rata Rights of Major Investors

Certain Investors of the Securities, “**Major Investors**”, will receive pro-rata rights through the Offering, allowing them to avoid dilution in future rounds. Investors that make investments of \$25,000 or greater in the Offering will gain the right to continue investing in the Company and avoid dilution while others will not. Major Investors will have the right to participate in new securities offerings unless the securities (i) are issued as a dividend or distribution on outstanding securities, (ii) are issued upon conversion or exercise of outstanding securities, (iii) are issued to employees, directors or consultants pursuant to a plan, agreement or arrangement approved by the Company’s Board of Directors, (iv) are issued pursuant to the acquisition of another corporation or its assets by the Company, or (v) up to one million dollars (\$1,000,000), of such, are issued by the Company annually to fund obligations to make cash dividends or distributions or interest payments on outstanding securities.

Dissolution

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred securities then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of Securities (on an as converted basis based on a valuation of the Company’s membership units as determined in good faith by the Company’s board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of membership units upon a Dissolution Event and (iii) and all holders of membership units.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur: (i) the issuance of shares in the CF Shadow Series to the Investor pursuant to the conversion provisions or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

The Securities have no voting rights at present or when converted.

The Company does not have any voting agreements in place.

The Company does not have any equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that the Investor may eventually have in the Company. For the anti-dilution rights of Major Investors, please see the section titled “*Pro-Rata Rights of Major Investors*”, above, and the Crowd SAFE agreement.

Restrictions on Transfer

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any Securities into which they are convertible to any of the Company’s competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough membership units authorized to issue upon the conversion of the Securities, because the amount of membership units to be issued is based on the occurrence of future events.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

March 28, 2020

To: Board of Directors of Zephyr Aerospace LLC
Attn: Jeffrey O'Neill, CEO

Re: 2019 Financial Statement Review
Zephyr Aerospace LLC

We have reviewed the accompanying financial statements of Zephyr Aerospace LLC (the "Company"), which comprise the balance sheet as of December 31, 2019 and the related statements of income, equity, and cash flows for the period of February 5, 2019 (Inception) through December 31, 2019, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially limited in scope compared to an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in accordance with accounting principles generally accepted in the United States of America.

Going Concern

As discussed in the Notes and Additional Disclosures, certain conditions indicate the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. Our conclusion is not modified with respect to that matter.

Sincerely,

ZEPHYR AEROSPACE, LLC.
NOTES TO FINANCIAL STATEMENTS
As of December 31, 2019
(unaudited)

NOTE 1 - NATURE OF OPERATIONS

ZEPHYR AEROSPACE, LLC (which may be referred to as the "Company," "we," "us," or "our") was registered in Puerto Rico on February 5, 2019. The Company commercializes seating concepts for air, rail, and road transportation. The Company provides end-to-end product development support - covering the licensing of intellectual property, engineering consulting services, and well as industrial design services. The Company did not begin operations until 2019.

Since Inception, the Company has relied on funds received from its founders to fund its operations. As of December 31, 2019, the Company had zero working capital and will likely incur losses prior to generating positive working capital. These matters raise substantial concern about the Company's ability to continue as a going concern (see Note 6). During the next 12 months, the Company intends to fund its operations with funding from a crowdfunding campaign (see Note 7), and funds from revenue producing activities, if and when such can be realized. If the Company cannot secure additional short-term capital, the Company may cease operations. These financial statements and related notes thereto do not include any adjustments that might result from these uncertainties.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP"). The accompanying unaudited financial statements do not include all the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the unaudited financial statements for the years presented have been included.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the footnotes thereto. Actual results could differ from those estimates. It is reasonably possible that changes in estimates will occur in the near term.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include: recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations. As of December 31, 2019, the Company is operating as a going concern. See Note 1 and Note 6 for additional information.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of December 31, 2019, the Company has \$13,967 cash on hand.

Receivables and Credit Policy

Trade receivables from customers are uncollateralized customer obligations due under normal trade terms, primarily requiring payment before services are rendered. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoice. The Company, by policy, routinely assesses the financial strength of its customers. As a result, the Company believes that its accounts receivable credit risk exposure is limited, and it has not experienced significant write-downs in its accounts receivable balances.

Fixed Assets

Fixed assets are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are expensed as incurred. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the balance sheet accounts and the resultant gain or loss is reflected in income.

Depreciation is provided using the straight-line method, based on useful lives of the assets which range from three to five years.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors.

As of December 31, 2019, the Company had not acquired any fixed assets which would be capitalized in accordance with generally accepted accounting principles.

Fair Value Measurements

The Company has determined the fair value of certain assets and liabilities in accordance with generally accepted accounting principles, which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels.

Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity can access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Income Taxes

The Company is a limited liability company. Accordingly, under the Internal Revenue Code, all taxable income or loss flows through to its members. Therefore, no provision for income tax has been recorded in the statements. Income from the Company is reported and taxed to members on their individual tax returns.

The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured. As of December 31, 2019, the Company had recognized no revenue.

Advertising Expenses

The Company expenses advertising costs as they are incurred.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

Software Development Costs

The Company applies the principles of ASC 985-20, Software-Costs of Computer Software to be Sold, Leased, or Otherwise Marketed ("ASC 986-20"). ASC 985-20 requires that software development costs be charged to research and development expense until technological feasibility is established. With the Company's current technology, technological feasibility of the underlying software is not established until substantially all product development and testing is complete, which generally includes the development of a working model. Prior to a product's release, if and when the Company believes capitalized costs are not recoverable, the costs capitalized to date will be expensed as part of cost of sales.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers". Under this guidance, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration expected to be received for those goods or services. The updated standard will replace most existing revenue recognition guidance under U.S. GAAP when it becomes effective and permits the use of either the retrospective or cumulative effect transition method. Early adoption is not permitted. The updated standard for nonpublic entities will be effective after December 15, 2019, and interim periods within annual periods beginning after December 15, 2020. We are currently evaluating the effect that the updated standard will have on our financial statements and related disclosures.

In February 2016, FASB issued ASU No. 2016-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2016-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on our financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our balance sheet.

NOTE 3 – INCOME TAX PROVISION

The Company has not filed its income tax return for the period ended December 31, 2019, which will remain subject to examination by the Internal Revenue Service under the statute of limitations for a period of three years from the date it is filed.

NOTE 4 – COMMITMENTS AND CONTINGENCIES

Legal Matters

Company is not currently involved with and does not know of any pending or threatening litigation against the Company.

NOTE 5 – EQUITY

Members Contributions

As of December 31, 2019, a total of \$31,875 of Owner's Investments have been contributed to the Company.

Issuance of SAFE

On March 31, 2019 the Company issued a \$500,000 ("Purchase Amount") SAFE. Upon a bona fide transaction or series of transactions with the principal purpose of raising capital in which the Company issues and sells Preferred Stock (an "Equity Financing"), the Company will issue either Standard Preferred Stock if the pre-money valuation is less than or equal to \$5,000,000 (the "Valuation Cap") or Safe Preferred Stock if the pre-money valuation is greater than the Valuation Cap. The Standard Preferred Stock will be sold at the Purchase Amount divided by the price per share of the Standard Preferred Stock. Safe Preferred Stock will be sold at the Purchase Amount divided by the "Safe Price", which is the Valuation Cap divided by the sum of all shares outstanding, all other SAFEs, convertible promissory notes, and all shares reserved and available under any equity incentive program ("Company Capitalization").

NOTE 6 – GOING CONCERN

These financial statements are prepared on a going concern basis. The Company registered on February 5, 2019 and is in the process of beginning operations in the United States. The Company's ability to continue is dependent upon management's plan to raise additional funds (see Notes 1 and 7) and achieve and sustain profitable operations. The financial statements do not include any adjustments that might be necessary if the Company is not able to continue as a going concern.

NOTE 7 – SUBSEQUENT EVENTS

Anticipated Crowdfunded Offering

The Company is offering up to \$1,070,000 in Simple Agreements for Future Equity ("SAFES") (the "Crowdfunded Offering"). The Company is attempting to raise a minimum of \$100,000 in this offering and up to \$1,070,000 maximum.

The Crowdfunded Offering is being made through OpenDeal Portal LLC, (the "Intermediary" aka "Republic" or "Republic.co"). The Intermediary will be entitled to receive a 6% commission fee and 2% of the securities issued in this offering.

Management's Evaluation

Summary

- A lie-flat airline seat for Economy Class travelers
- Increases ancillary revenue for airlines by 30%+
- Retrofits existing commercial aircraft (Boeing and Airbus)

- Provisional international patents filed for seat design and utility
- FAA-approved certification timeline
- Financial model built and vetted by industry executives
- Partnership with award winning aerospace design company Style & Design

Problem

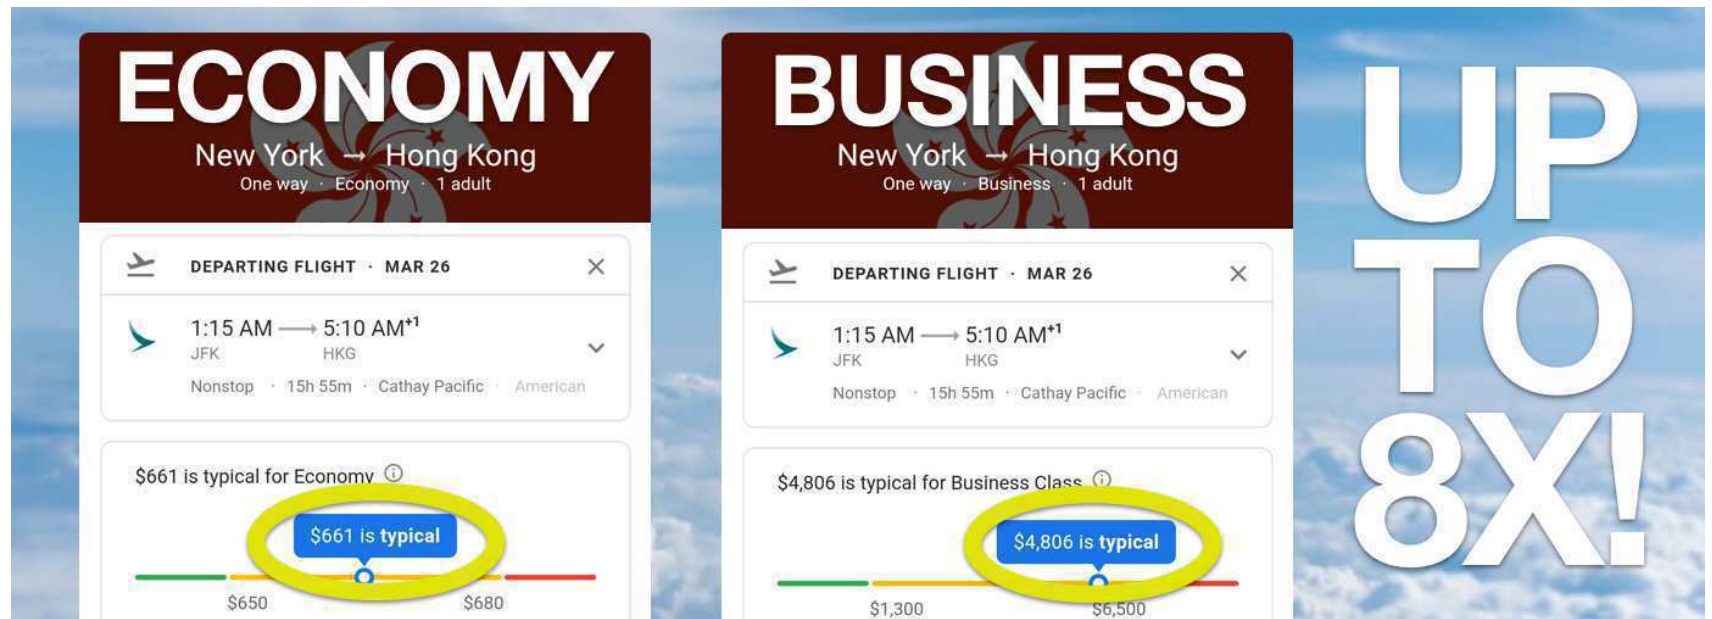

Economy class hasn't evolved

Most airline seats haven't changed since the 1970's. 99% of all Economy Class seats are fixed upright and impossible to sleep in. They force unnatural postures and over long periods of time can damage health.

Business class is too expensive

Upgrading is not an option for the majority of travelers due to the prohibitively high cost. For travelers willing to pay more for comfort, Premium Economy Class seating offers glorified economy seats that only give a few extra inches of leg space – with no lie-flat feature.

Travelers just want to sleep

Airlines try to justify higher fares by bundling perks like in-flight meals, lounge access and extra baggage allowance. In a study we conducted, 70% of travelers would trade these perks for the sole ability to lie-flat and sleep.

It's time to change the status quo and reclaim dignified, comfortable and healthy air travel for all travelers.

Solution

Zephyr, a lie-flat seat designed for everyone

Zephyr is a lie-flat seat designed for Economy Class travelers on long distance flights.

Our patent pending design introduces an efficient seating module that will disrupt the entire airline industry and make flying great again for all travelers.

Product

The Zephyr Seat

Zephyr offers Economy Class travelers the comfort and privacy an individual cabin

Democratising Comfort in the Sky

Zephyr is the perfect seat upgrade which fills the gap for travelers that value comfort above all else, and do not want to pay the overpriced premium for Business Class. Our design allows passengers the gift of multi-functional usage - to lie completely flat, lounge or sit upright with their legs fully extended.

Luxurious add-ons allow customisation for Premium-Economy

Our innovative designs allows full lie-flat functionality

Privacy is Complimentary

Until now, having comfort and privacy on commercial airlines was nonexistent. Traditional Economy Class seats force passengers to sit in an unnaturally upright position, in a cramped space for hours on end.

Each Zephyr Seat provides a 78" lie-flat bed in a completely private

No Loss of Seating Density

Utilising an innovative “stacked” seating configuration, each Zephyr Seat can be retrofitted into the existing real estate of the airline without a loss of seating density.

Our design increases capacity by 20%+ on long-haul aircraft and reduces costs by “unbundling” expensive meals, baggage, and other premium amenities, offering the lowest price in the industry for a lie-flat bed.

Custom Configuration

Our simple architectural platform allows customisation for different airlines – enabling them to tailor their version of the Zephyr Seat depending on market, operational realities, cultural nuances and brand promise.

Regardless of size, design, or age of fleet, the Zephyr Seat can be retrofitted to any existing seat module.

Airlines will be able to choose from upgrades like memory foam seats, black-out curtains, OLED displays and other optional amenities.

Traction

- A provisional design and utility patent has been filed for the Zephyr Seat
- Full technical and design feasibility study has been approved by leading aerospace engineers
- Product certification timeline has been approved by the Federal Aviation Administration (FAA)
- Invested \$500,000 to build a mock-up in partnership with award-winning aerospace design company Style & Design
- Secured a product development partnership with a reputable seat manufacturing company
- Appeared on national television: Meet the Drapers, Shark Tank, and California by Design

Customers

We are currently in direct discussions with commercial airlines, seating manufacturers, and OEMs (Airbus, Boeing) to bring the Zephyr Seat to market.

Business Model

Selling to both commercial and private airlines

Zephyr will be sold wholesale to commercial airlines and directly to consumers of private aircrafts. The seat will be also sold in the form of licensing to seat manufacturers and airlines (who may manufacture their own seats in house).

Each seat will be priced at \$30-40k/unit, which is 60% less than the average cost of a business class seat and 80% lighter (due to advanced composites and limited moving pieces). We estimate a gross profit margin of between 30-40%, depending on volume.

The Zephyr Seat can be configured to any mode of transportation (air, rail, bus, military). We are focused on commercial airlines, where we see the best opportunity for innovation and impact.

For travelers, we want to create a movement to **MAKE FLYING GREAT AGAIN!** We need your support to help convince airlines the Zephyr Seat is the future of air travel! Zephyr Seat only needs one airline launch customer to set the industry standard, and then others will follow quickly.

Use of Funds Raised

80%: Engineering/R&D to pass rigorous certification by the Federal Aviation Association

10%: Design

10%: Sales (to continue direct engagements with prospective airline customers)

Market

\$20 Billion Market Opportunity

The International Air Transport Association believes that the number of air travelers will double by 2037 -- up to 8.2B people. It is estimated that airlines will invest ~\$20B in new seating solutions to accommodate more passengers, all while competing to offer the best service and comfort for the voyage.

The market for Premium Economy Class seats has increased 4x over the past 10 years

Increasing number of Premium Economy Seats

The premium economy class is a major attraction for passengers as it is less expensive than business class and more comfortable than economy class. This has increased the rate of air travel as passengers wish to fly in comfort with the minimum cost. Thus, air traffic will increase, which will demand for more aircraft and, subsequently, more number of aircraft seats.

Zephyr offers a unique solution for all major and private airlines to maximize their capacity without sacrificing the satisfaction of their customers.

Maintenance and retrofitting of existing seats

Several airlines are upgrading their aircraft seats, as the old seats have become outdated. The introduction of advanced and lightweight materials for cabin seats has led to the upgrade of existing aircraft seats to new seats.

Increasing aircraft orders

The aviation industry is growing at a high rate in the Asia Pacific region, and this growth is likely to continue over the next two decades. Asia Pacific countries such as India, China, Japan, and Indonesia are witnessing a rise in air passenger traffic and are also expected to be among the top 10 countries with the world's highest passenger traffic in the next decade.

Competition

First-to-Market

Zephyr is a lie-flat seating option for Economy Class travelers.

Until now, this was never economically feasible due to the high costs of research and development, product certification, engineering, and installation.

The groundbreaking, patent-pending design of Zephyr Seat makes optimum use of the available space in the cabin – improving the passenger experience without any loss in seating density. Our founders and advisors were the visionaries behind previous design implementations in Business Class seating at **British Airways, Virgin Atlantic, Air Canada, and JetBlue Airlines.**

Vision

Redesigning the future of travel

Zephyr Aerospace is committed to making great developments in the world of aviation travel. We believe our revolutionary design should be adopted in all airlines across all seating categories. The Zephyr Seat will allow airlines to differentiate their offering for a customer segment that accounts for 81% of annual ticket sales!

We are looking to sign a product development partnership with a major airline in the coming year in order to begin rolling out the next level of airplane comfort. Our design brings unprecedented comfort to passengers while maximizing revenue and efficiency for airlines. We are designing the future of air travel.

Series 2020

THIS CERTIFIES THAT in exchange for the payment by [Investor Name] (the “**Investor**”, and together with all other Series 2020 Crowd SAFE holders, “**Investors**”) of \$[] (the “**Purchase Amount**”) on or about [Date of Crowd SAFE], Zephyr Aerospace, LLC, a Puerto Rico limited liability company (the “**Company**”), hereby issues to the Investor the right to certain shares of the Company’s Capital Stock (defined below), subject to the terms set forth below.

The “**Discount**” is 20%.

The “**Valuation Cap**” is \$5,000,000.

See Section 2 for certain additional defined terms.

1. Events

(a) **Equity Financing.**

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Company shall promptly notify the Investor of the closing of the First Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Purchase Amount to Capital Stock; or (2) issue to the Investor a number of units of the CF Shadow Series of the Capital Stock (whether Preferred Securities or another class issued by the Company), as applicable, sold in the First Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the applicable Conversion Price (such applicable Conversion Price, the “**First Equity Financing Price**”).

(ii) If the Company elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the CF Shadow Series of Preferred Securities sold in the Subsequent Equity Financing. The number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Securities or another class issued by the Company) shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. In connection with this Section 1(b)(i), the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

(ii) If there is a Liquidity Event after one or more Equity Financings have occurred but before the termination of this instrument, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (as described in the foregoing paragraph) or (ii) automatically receive from the Company a number of units of the most recent issued Capital Stock (whether Preferred Securities or another class issued by the Company) equal to the Purchase Amount divided by the First Equity Financing Price, if the Investor fails to select the cash option. Shares of Capital Stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of Capital Stock issued in connection with the Company’s most recent Equity Financing.

If the Company’s board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Company’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Securities, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Securities as determined in good faith by the Company’s board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Securities upon a Dissolution Event and (iii) and all holders of Common Securities.

(d) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of units in the CF Shadow Series or Common Securities to the Investor

pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Company may impose stop transfer instructions with respect to the Investor's registrable securities of the Company (and the Company shares or securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

(d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Company to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

Further, the Investor agrees to take any and all actions determined in good faith by the Company's board of directors or equivalent governance body to be advisable to reorganize this instrument and any shares of Capital Stock issued pursuant to the terms of this instrument into a special purpose vehicle or other entity designed to aggregate the interests of holders of Crowd SAFEs.

(b) Any provision of this instrument may be amended, waived or modified only upon the written consent of either (i) the Company and the Investor, or (ii) the Company and the majority of the Investors (calculated based on the Purchase Amount of each Investors Crowd SAFE).

(c) Any notice required or permitted by this instrument will be deemed sufficient when delivered personally or by overnight courier or sent by email to the relevant address listed on the signature page, or 48 hours after being deposited in the U.S. mail as certified or registered mail with postage prepaid, addressed to the party to be notified at such party's address listed on the signature page, as subsequently modified by written notice.

(d) The Investor is not entitled, as a holder of this instrument, to vote or receive dividends or distributions or be deemed the holder of Capital Stock for any purpose, nor will anything contained herein be construed to confer on the Investor, as such, any of the rights of a stockholder of the Company or any right to vote for the election of managers, directors or upon any matter submitted to equity holders at any meeting thereof, or to give or withhold consent to any Company action or to receive notice of meetings, or to receive subscription rights or otherwise until Common Stock has been issued upon the terms described herein.

(e) Neither this instrument nor the rights contained herein may be assigned, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this instrument and/or the rights contained herein may be assigned without the Company's consent by the Investor to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Company may assign this instrument in whole, without the consent of the Investor, in connection with a reincorporation to change the Company's domicile.

(g) All securities issued under this instrument may be issued in whole or fractional parts.

(h) All rights and obligations hereunder will be governed by the laws of the State of Puerto Rico, without regard to the conflicts of law provisions of such jurisdiction.

(i) The parties acknowledge and agree that for United States federal and state income tax purposes this Crowd SAFE is, and at all times has been, intended to be characterized as stock, and more particularly as common stock for purposes of Sections 304, 305, 306, 354, 368, 1036 and 1202 of the Internal Revenue Code of 1986, as amended. Accordingly, the parties agree to treat this Crowd SAFE consistent with the foregoing intent for all United States federal and state income tax purposes (including, without limitation, on their respective tax returns or other informational statements).

(k) In the event the Investor, together with its affiliates, purchases one or more Crowd SAFEs with an aggregate Purchase Amount equal to or exceeding \$25,000 (a "**Major Investor**"), the Company shall provide the Investor with at least ten (10) business days prior written notice of the First Equity Financing, including the price and terms thereof. The Major Investor shall have a right to convert, in its sole discretion, any Crowd SAFEs then held by the Major Investor upon the closing of the First Equity Financing into a number of shares of the CF Shadow Series of Capital Stock in accordance with Section 1(a). For the avoidance of doubt, this clause shall only apply to the Purchase Amount from the current Offering of the Company's Capital Stock and will not be integrated with any previous offerings of the Company's Capital Stock.

(l) The Company shall provide the Major Investor with at least ten (10) business days prior written notice ("**Notice**") including the price and terms thereof of the First Equity Financing consisting of any new equity securities other than Excluded Securities (such Securities other than Excluded Securities the "**New Securities**"). The Investor shall have the right, upon Notice from the Company, within ten (10) days following receipt of the Notice, whether such Notice is provided before or after the issuance (the "**Exercise Period**"), to elect to subscribe for, at the price and on the terms stated in the Notice, such number of New Securities equal to the product obtained by multiplying the number of New Securities (calculated on an as-converted basis) by a fraction, the numerator of which is the Common Stock (calculated on an as-converted basis) held by the Investor on the date of such Notice (and prior to the issuance) and the denominator of which is the total number of Common Stock (calculated on an as-converted basis) issued and outstanding on the date of such Notice (and prior to the issuance); provided, however, the denominator

shall not include shares of Common Stock reserved and available for future grant under any equity incentive or similar plan of the Company. If all or any portion of the New Securities are not subscribed to by the Investor as described above, then the Company may, at its election, during a period of thirty (30) days following the expiration of the Exercise Period, issue the remaining New Securities to other parties at a price and upon terms not more favorable than those stated in such Notice. In the event the Company has not issued the New Securities within such thirty (30) day period, the Company shall not thereafter issue any New Securities without first offering such securities to the Investor in the manner provided in this clause. Failure by the Investor to exercise its option to subscribe with respect to one offering and issuance of New Securities shall not affect its option to subscribe for equity securities in any subsequent offering and issuance. This clause shall not apply to “**Excluded Securities**” issued by the Company which shall mean (i) securities issued as a dividend or distribution on outstanding securities, (ii) securities issued upon conversion or exercise of outstanding securities, (iii) securities issued to employees, directors or consultants pursuant to a plan, agreement or arrangement approved by the Company’s Board of Directors, (iv) securities issued pursuant to the acquisition of another corporation or its assets by the Company, or (v) up to one million dollars (\$1,000,000) in securities issued by the Company annually to fund obligations to make cash dividends or distributions or interest payments on outstanding securities.

Exhibit A – CF Shadow Share Proxy

Irrevocable Proxy

Reference is hereby made to a certain Crowdfunding Simple Agreement for Future Equity (the “**Crowd SAFE**”) dated _____ between Zephyr Aerospace, LLC, a Puerto Rico limited liability company (the “**Company**”) and [_____] (“**Member**”). In connection with a conversion of Member’s investment in the Crowd SAFE into Capital Stock of a CF Shadow Series (as defined in the Crowd SAFE) pursuant to the Crowd SAFE, the Member and OpenDeal Portal LLC (the “**Intermediary**”) as another holder of Capital Stock of a CF Shadow Series hereby agree as follows:

1. Grant of Irrevocable Proxy.

- a. With respect to all Capital Stock of CF Shadow Series owned by the Member as of the date of this Irrevocable Proxy or any subsequent date (the “**Interests**”), Member hereby grants to Intermediary an irrevocable proxy under Section 212 of the Delaware General Corporation Law or Section 302 of the Delaware Limited Liability Company Act, as applicable, to vote the Interests in any manner that the Intermediary may determine in its sole and absolute discretion. For the avoidance of doubt, the Intermediary, as the holder of this irrevocable proxy (rather than the Member) will vote the Interests with respect to all meetings of equity holders and other actions (including actions by written consent in lieu of a meeting) on which holders of Interests may be entitled to vote. The Intermediary hereby agrees to vote all Interests consistently with the majority of the Capital Stock on which the CF Shadow Series is based. This proxy revokes any other proxy granted by the Member at any time with respect to the Interests.
- b. The Intermediary shall have no duty, liability or obligation whatsoever to the Member arising out of the Intermediary’s exercise of the this irrevocable proxy. The Member expressly acknowledges and agrees that (i) the Member will not impede the exercise of the Intermediary’s rights under this irrevocable proxy and (ii) the Member waives and relinquishes any claim, right or action the Member might have, as an equity holder of the Company or otherwise, against the Intermediary or any of its affiliates or agents (including any directors, officers, managers, members, and employees) in connection with any exercise of the irrevocable proxy granted hereunder.
- c. This irrevocable proxy shall expire as to those Interests on the earlier of (i) the date that such Interests are converted into Common Securities of the Company or (ii) the date that such Interests are converted to cash or a cash equivalent, but shall continue as to any Interests not so converted.

2. Legend. The Member agrees to permit an appropriate legend on certificates evidencing the Interests or any transfer books or related documentation of ownership reflecting the grant of the irrevocable proxy contained in the foregoing Section 1.

3. Representations and Warranties. The Member represents and warrants to the Intermediary as follows:

- a. The Member has the all necessary rights, power and authority to execute, deliver and perform his obligations under this Irrevocable Proxy. This Irrevocable Proxy has been duly executed and delivered by the Member and constitutes such Member’s legal and valid obligation enforceable against the Member in accordance with its terms.

- b. The Member is the record owner of the Interests and the Member has plenary voting and dispositive power with respect to such Interests; the Member owns no other equity of the Company; there are no proxies, voting trusts or other agreements or understandings to which such Member is a party or bound by and which expressly require that any of the Interests be voted in any specific manner other than pursuant to this irrevocable proxy. The Member has not entered into any agreement or arrangement inconsistent with this irrevocable proxy.
4. **Equitable Remedies.** The Member acknowledges that irreparable damage would result if this irrevocable proxy is not specifically enforced and that, therefore, the rights and obligations of the Intermediary may be enforced by a decree of specific performance issued by arbitration pursuant to the Crowd SAFE, and appropriate injunctive relief may be applied for and granted in connection therewith. Such remedies shall, however, not be exclusive and shall be in addition to any other remedies that the Intermediary may otherwise have available.
5. **Defined Terms.** All terms defined in this irrevocable proxy shall have the meaning defined herein. All other terms will be interpreted in accordance with the Crowd SAFE.
6. **Amendment.** Any provision of this instrument may be amended, waived or modified only upon the written consent of the (i) the Member and (ii) the Intermediary .
7. **Assignment.**
- a. In the event the Member wishes to transfer, sell, hypothecate or otherwise assign any Interests, the Member hereby agrees to require, as a condition of such action, that the counterparty or counterparties thereto must enter into a proxy agreement with the Intermediary substantially identical to this irrevocable proxy.
- b. The Intermediary may transfer its rights under this instrument after giving prior written notice to the Member.
8. **Severability.** In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

IN WITNESS WHEREOF, the undersigned have caused this instrument to be duly executed and delivered.

My name is Jeffrey O'Neill and I'm originally from San Francisco, California and I've developed a unique airline seating concept that allows lie-flat beds for economy class travelers on long haul international flights.

Imagine a time when air travel was a very pleasant experience. Customers would actually dress up for their journeys and the most memorable part of their trip was the in-flight experience. I've traveled to 171 countries and I've always wondered, "How can we make the in-flight experience more memorable?"

Zephyr is reclaiming the joys of air travel by redesigning the customer experience for the modern traveler. It's offering privacy and a general enhanced on-board in-flight experience at a more affordable price point.

With this redesign, Zephyr offers a win-win solution for airlines helping them re-connect to the needs of the modern day traveler.
