Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions therein, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Please review your Webfunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Filmmaking hinges on the physical and logistical challenges of many workers collaborating in unison. Forces of weather, acts of God and misfortune can complicate, hinder or otherwise compromise the production.

An audience's appetite for film is a subjective and competitive marketplace. It is possible that the audience will not respond to the film, and it will fail to gain meaningful word of mouth, critical response or festival acceptance.

In film, the character and public persona of our performers and filmmakers is subject to intense scrutiny. While we are judicious in selecting performers that will be appealing to the culture at large, they are subject to public opinion, which we have no control over.

The models of film distribution are constantly shifting. As of now, the pathway to theatrical release, home video, and streaming platforms are predictable, but as with all technology, subject to disruption.

Film is dependent on multiple technologies. While we utilize best practices in ensuring that all footage is safe and redundantly backed up, we are subject to technological complications that could hinder the creation of the film.

If the marketplace is over saturated with competitive films, that are similar in tone, voice, style or story, then demand for the film may not be great enough.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The term "spouse equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We're a film production company, here to make funny, heartfelt entertainment everyone can enjoy, and will revisit year after year.

We plan for the film to be completed, distributed and enjoyed annually, as a holiday staple, re-running on cable and streaming in homes across the globe, as a holiday tradition, and bringing reliable profits to our investors as a result. We've already begun locking in cast and crew so that shooting will commence early in 2020.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

Chrissiemas Productions LLC was incorporated in the State of California in October 2019.

Since then, we have:

- Director / Writer has acted in Watchmen, Mad Men, Westworld, Greys Anatomy, Criminal Minds, and more.
- Producers' credits include work on Brooklyn Nine-Nine, Ellen, Comedy Central, Verizon, Disney, Facebook Watch, and HBO's "The Newsroom."
- Award-winning, professional team with a proven track record, Emmy nominations, IAWTV Awards, and Webby Awards.
- There is an annual appetite for Christmas films.
- You want to support female filmmakers. In 2018, only 8% of films were directed by a woman.
- We are alumni of over 20+ Film Festivals and have relationships from across the globe.
- Our team has a total of 50+ years of cumulative Hollywood experience creating content you recognize and love.

Historical Results of Operations

Our company was organized in October 2019 and has limited operations upon which prospective investors may base an evaluation of its performance.

- **Revenues & Gross Margin.** For the period ended December 31, 2020, the Company had revenues of \$0 compared to the year ended December 31, 2019, when the Company had revenues of \$0. Our gross margin was % in fiscal year 2020, compared to % in 2019.
- **Assets.** As of December 31, 2020, the Company had total assets of \$18,873, including \$18,873 in cash. As of December 31, 2019, the Company had \$0 in total assets, including \$0 in cash.

Liquidity & Capital Resources

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 36 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 6 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Chrissiemas Productions LLC cash in hand is \$18,873, as of December 2020. Over

the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$36,992/month, for an average burn rate of \$36,992 per month. Our intent is to be profitable in 18 months.

There have been no changes as of now. We anticipate that the means of production will only become more advanced and affordable.

In the next 3-6 months, we will finalize the film, and finish a sound mix, color grading and all other deliverables for distribution.

No, as this company was created for a single film, we are solely relying on that film to generate income.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
