This Form C, including any Exhibits referred to in this offering statement, and the intermediary’s website contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give the company’s current reasonable expectations and projections relating to its financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as “will,” “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “should,” “can have,” “likely,” and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect or change, the company’s actual operations, operating or financial performance, or other actual future events may vary in material respects from the performance projected in these forward-looking statements.

Any forward-looking statement made by the company in this Form C, including any Exhibits referred to in this offering statement, or on the intermediary’s website speaks only as of the date

Three.

(f) A discussion of the material factors that make an investment in the issuer speculative or risky.

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission (the “SEC”) does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the SEC has not made an independent determination that these securities are exempt from registration.

Each prospective investor is hereby advised to carefully read and consider the following risk factors and all other materials provided in determining whether or not to invest.

The following list of risk factors and the risk factors stated elsewhere in this offering statement are not intended and should not be understood as an exhaustive list of all risks related to an investment.

Any continued future success that the company might enjoy will depend upon many factors, including factors beyond the control of the company and/or which cannot be predicted at this time. These factors may include but are not limited to changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors; changes in general economic conditions; increases in operating costs; the company's ability to expand its customer base and retain key customers; and reduced margins caused by competitive pressures. These conditions may have a material adverse effect upon the company's business, operating results, and financial condition. Some specific risks include but are not limited to the following.

We have a limited operating history. We were incorporated on March 27, 2019, and have been operating only since May 1, 2019. Because we have been operating for only a short period of time, we have not produced a profit. There is no assurance that we will ever produce a profit. As a new enterprise, we are likely to be subject to risks our management has not anticipated. We have limited resources and will not be able to continue operating without the proceeds from this offering. It is possible that the proceeds from this offering and our other resources may not be sufficient for us to continue to finance our operations.

We may not have sufficient financial resources to successfully compete in the coffee business. A large number of enterprises provide products or services similar to ours. We will be competing with established businesses that have an operating history and greater financial resources, management experience, and market share than we have. There can be no assurance that we will be able to compete or capture adequate market share. We will not be profitable if we cannot compete successfully with other businesses.

Our failure to introduce new products to the market may harm our business. We operate in a highly competitive industry, which is characterized by frequent introductions of new products and services into the market. Our success will depend, in part, on our ability to improve our present products, to develop new products and to provide necessary services and support.

We depend on the services of key persons. Much of the company's success depends on the skills, experience, and performance of the Founders and key personnel. The company currently does not have a firm plan fully detailing how to replace any of these persons in the case of death or disability. The company's success also depends on our suppliers' knowledge and skills, as we have carefully selected these suppliers to meet our needs. The loss of the services of any of the key members of personnel and/or suppliers, or the company's inability to recruit, train, and retain

key personnel, and/or to establish or maintain relationships with suppliers, may have a material adverse effect on the company's business, operating results, and financial condition.

Our failure to comply with government rules and regulations may harm our business. Our business must comply with local, state and federal rules and regulations. We currently comply with the rules and regulations with which we are required to comply and will continue to do so under future physical and business structures. If we fail to comply with a rule or regulation we may be subject to fines or other penalties, or our permit or license may be lost or suspended. We may have to stop operating and our investors may lose their entire investment.

Limited disclosure. The company is at an early stage may only be able to provide limited information about its business plan and operations because it does not have fully developed operations or a trading history. The company is also only obligated to provide limited information regarding its business and financial affairs to investors.

Because there is no market for the company's Crowd Notes (as defined herein), an investor may not be able to sell their Crowd Note. There is no market for the company's Crowd Notes (as defined herein). An investor may never be able to sell their Crowd Note—or any securities into which the Crowd Note converts—or recover any part of their investment.

There is no guaranteed return on investment. No assurance can be given that an investor will realize a substantial return on investment, or any return at all, or that an investor will not lose a substantial portion or all of the investment. The future performance and valuation of the company are uncertain. If the investor is able to sell their Crowd Note, or is able to sell any Preferred Units into which the Crowd Note converts (if it converts), there is no guarantee that the investor will be able to sell for a price greater than—or equal to—the price the investor paid for the Crowd Note.

Additional funds may be needed. The company currently anticipates that the net proceeds of this offering will be sufficient to meet its anticipated needs for working capital and other cash requirements (as detailed in Item (i) below) for the foreseeable future. However, the company may need to raise additional funds in order to fund more rapid expansion, to respond to competitive pressures, or to acquire complementary products or businesses. There can be no assurance that additional financing will be available on terms favorable to the company, or at all. If adequate funds are not available or are not available on acceptable terms, the company's ability to fund its expansion, take advantage of potential acquisition opportunities, develop or enhance services or products or respond to competitive pressures would be significantly limited. Such limitation may have a material adverse effect on the company's business, operating results and financial condition.

We have incurred start-up organizational costs since inception and may incur future losses. We have not yet generated a profit from operations. We expect to experience losses from operations, and we cannot predict exactly when or if we will become profitable. If we achieve profitability, we may not be able to sustain it.

(g) The minimum target offering amount and the deadline to reach the minimum target offering amount.

The minimum target offering amount is \$27,000, and the deadline to reach this amount is July 7, 2020.

If the sum of the investment commitments does not equal or exceed the minimum target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled, and committed funds will be returned.

We plan for this offering to have a “rolling close.” Once we meet the minimum target offering amount, that amount will be closed, and those funds will be released to us. Before the funds investors have committed are released to us, such investors will be notified that the minimum portion of our offering will be closed. Please see Item (h) below for more detail on the rolling close.

(h) Whether the issuer will accept investments in excess of the minimum target offering amount and, if so, the maximum amount that the issuer will accept and how oversubscriptions will be allocated, such as on a pro-rata, first come-first served, or other basis.

We will accept investments in excess of the minimum target offering amount, up to a total of \$107,000 (our maximum target offering amount). Oversubscriptions will be allocated on a first-come, first-served basis.

As described in Item (g) above, once we reach our minimum target offering amount (First Milestone), we will close that amount and those funds will be released to us. After that closing, we plan to continue our offering and to have additional closings once we have raised the total amounts listed below. Once we reach each of the below amounts (Milestones), that amount will be closed and those funds will be released to us. Investors will be notified of each closing before the funds they have committed are released to us. Once we reach our maximum target offering amount (Fourth Milestone) or our offering deadline, whichever comes first, our offering will end and all funds that have been committed but not yet released to us will then be released to us (provided that we have raised at least our minimum target offering amount).

First Milestone: \$27,000 (minimum target offering amount)

Second Milestone: \$54,000 (an additional \$27,000 raised after the First Milestone is reached)

Third Milestone: \$81,000 (an additional \$27,000 raised after the Second Milestone is reached)

Fourth Milestone: \$107,000 (an additional \$26,000 raised after the Third Milestone is reached)

When we reach the Second Milestone, we plan to use the proceeds to continue to improve our fulfillment center, to continue digital media and marketing efforts, for event operations, and to initiate manufacturing upgrades.

Third Milestone: \$81,000 (an additional \$27,000 raised)

When we reach the Third Milestone, we plan to use the proceeds to continue digital media and marketing efforts, for manufacturing upgrades, and for a new hire.

When we reach the Fourth Milestone, we plan to use the proceeds for our popup marketing and event operations, and our digital media and marketing efforts for customer acquisition.

In summary, if the company raises its full maximum target offering amount, it will be able to purchase build out fulfillment center, acquire equipment to increase manufacturing capabilities, maximize marketing and media reach, and continue event operations in the metro-ATL area with projections of expansion. Further funds will be generated from the recurring customer base and catering and events, while our COGS will decline associated with increased manufacturing capabilities and output volume.

(j) A description of the process to complete the transaction or cancel an investment commitment.

Investors may cancel an investment commitment until 48 hours prior to the deadline identified in our offering materials.

This offering's intermediary, MiTec, PBC (dba Crowdfund Mainstreet) ("CMS") will notify investors when the minimum target offering amount has been met.

If we reach the minimum target offering amount prior to the deadline identified in our offering materials, we may close the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to us upon closing of the offering and the investor will receive securities in exchange for his or her investment.

The issuer may decide to terminate an offering at any time. An offering may also be cancelled if the target raise is not reached. If this occurs, the investor is entitled to a full refund. Within five business days following the cancellation of the offering, CMS will

Send the investor a notification of the cancellation, disclosing the reason for the cancellation, and the refund amount that the investor is expected to receive.

Direct the refund of the investor's funds. Please note that the company may choose not to accept an investment for any reason.

A description of the process to complete the transaction is included in the investor education materials provided on the CMS platform.

(k) A statement that if an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

(l) The price to the public of the securities or the method for determining the price.

Each security is priced at face value.

Prior to any sale of securities, each investor shall be provided in writing the final price and all required disclosures.

(m) A description of the ownership and capital structure of the issuer, including:

(1) The terms of the securities being offered and each other class of security of the issuer, including the number of securities being offered and/or outstanding, whether or not such securities have voting rights, any limitations on such voting rights, how the terms of the securities being offered may be modified and a summary of the differences between such securities and each other class of security of the issuer, and how the rights of the securities being offered may be materially limited, diluted or qualified by the rights of any other class of security of the issuer.

The company is owned only by the Founders as shown in Item (c) above.

The issuer is offering a minimum of \$27,000 and a maximum of \$107,000 in convertible promissory notes (the “Crowd Notes”). Between April 2019 and March 2020, the issuer raised convertible promissory notes in a private offering under Rule 504 of Regulation D (the “504 Notes”). The 504 Notes have outstanding principal of \$33,000 and accrued and unpaid interest of approximately \$1577.67.

The Crowd Notes and the 504 Notes have substantially the same terms, except for the maturity date. (The 504 Notes mature on various dates. Please see Item (p) hereof for the schedule.)

Interest Rate: Annual interest rate of 10%.

Term: All principal, together with accrued and unpaid interest under the Crowd Notes, is due and payable on July 7, 2022 (the “Crowd Note Maturity Date”).

Prepayment: Crowd Notes may be prepaid without penalty. If prepayment results from a change of control transaction, the company will pay 110% of the outstanding principal plus accrued interest.

Conversion: In the event the company commences, on or before the Crowd Note Maturity Date, an equity financing pursuant to which it sells its preferred equity securities (the “Preferred Units”) constituting at least 10% of the outstanding equity of the company (a “Qualified Financing”), then the holder of the Crowd Note, at such holder’s sole option, may choose to convert all, but not less than all, of the then-outstanding principal balance and accrued but unpaid interest owed under the Crowd Note into Preferred Units at a conversion price equal to 90% of the price per unit paid by an investor purchasing the Preferred Units in the Qualified Financing.

Events of Default:

Events of Default include

- (a) The failure by the company to pay any amounts due under the Crowd Note when due.
- (b) A material breach by the company of any other term or provision of the Crowd Note.
- (c) The filing of a petition in bankruptcy or under any similar insolvency law by the company, the making of any assignment for the benefit of creditors, or if any voluntary petition in bankruptcy or under any similar insolvency law is filed against Borrower and such petition is not dismissed within 60 days after the filing thereof.

Except for a default pursuant to (c) above (with respect to which there is no cure period), upon an Event of Default, Borrower shall have 30 days to cure such default after receipt of written notice of default from the holder of the Crowd Note specifying the nature of the company's default. If the default is pursuant to (c) above or if the company is unable to cure its default within such 30-day period, the holder of the Crowd Note may, at such holder's option, accelerate repayment of the principal in which case the principal and all interest accrued thereon will be due and payable immediately.

Amendment and Waiver: Any term of a Crowd Note may be amended with the written consent of the company and the investor. The obligations of the company and the rights of the investor under the Crowd Note may be waived with the written consent of the investor.

The Crowd Notes have no voting rights. It is likely that the Preferred Units, into which the Crowd Notes could convert, will not have voting rights either.

Each holder of a 504 Note may choose to convert their 504 Note into Preferred Units upon a Qualified Financing unless the maturity date of the 504 Note occurs before the Qualified Financing commences (or unless the issuer prepays the holder's 504 Note). Such conversion, if it occurs, will affect the percentage of the company that investors in the Crowd Notes will own.

The above is intended to be only a summary of some of the key terms of the Crowd Notes. The above is not a complete description of the terms of the Crowd Notes. Please see the form of Crowd Note filed with the SEC with this offering statement as **Exhibit D** for the complete terms of the investment. The above summary is qualified in its entirety by **Exhibit D**.

(2) A description of how the exercise of rights held by the principal shareholders of the issuer could affect the purchasers of the securities being offered.

The Founders have the absolute right to make decisions with respect to the company. It is possible that the Founders will make a decision that has negative consequences for the company and therefore the investors.

(3) The name and ownership level of each person, as of the most recent practicable date but no earlier than 120 days prior to the date this offering statement is filed, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Please see Item (c) above.

(4) How the securities being offered are being valued, and examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The Crowd Notes and the 504 Notes are valued at face value, and future convertible promissory notes of the company will be valued at face value.

(5) The risks to purchasers of the securities relating to minority ownership in the issuer and the risks associated with corporate actions including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties.

Unless the investor's Crowd Note converts into Preferred Units, the investor will have no voting rights or ownership in the company. The company's Founders, the sole decision-makers for the company, could make a decision that would have negative consequences for the company, reduce the company's revenue, and reduce the investor's return. Such decisions include, but are not limited to, the issuance of additional securities, a sale of the issuer or of the assets of the issuer, and transactions with related parties.

Investors must rely upon the judgment and skills of the Founders, who are the sole members, managers, and decision-makers for the company. As note-holders, investors in this offering have no voting rights or ownership of the company. If and when an investor's Crowd Note converts into Preferred Units, the investor will have an ownership interest in the company, but we do not expect the investor to have voting rights, except possibly under limited circumstances required by law. Further, we expect the Founders to continue to own and control a significant percentage of the company after the conversion, if any, of the investor's Crowd Note, as well as for the foreseeable future. We thus expect the Founders to retain significant control over the company's business and affairs.

The Founders' interests could differ from an investor's, and the Founders could make a decision that would have negative consequences for the company, reduce the company's revenue, and reduce the investor's return. Such decisions include, but are not limited to, the issuance of

additional securities, a sale of the issuer or of the assets of the issuer, and transactions with related parties.

An investor's percentage ownership of the company, when and if the investor's Crowd Note converts, depends in part upon the amount raised in the Qualified Financing described in Item (m)(1) above and the amount raised in this offering of the Crowd Notes. Those amounts are currently unknown.

As described in Item (m)(1) above, the conversion of the 504 Notes into Preferred Units will also affect the percentage of the company the investor will own, provided such conversion occurs.

In addition, if the company issues additional equity interests after the investor's Crowd Note has converted into Preferred Units, the investor's ownership in the company could be diluted. If the company issues additional convertible notes before or after the conversion of the investor's Crowd Note, the investor's ownership of the company could also be diluted.

There may be other circumstances in which the investor's ownership interest in the company could be diluted.

(6) A description of the restrictions on transfer of the securities, as set forth in 17 CFR § 227.501.

17 CFR § 227.501 provides that the securities may not be transferred for one year after it is issued unless it is transferred:

(i) To the issuer;

(ii) To an accredited investor;

(iii) As part of an offering registered with the SEC; or

(iv) To a member of the family of the investor or the equivalent, to a trust controlled by the investor, to a trust created for the benefit of a member of the family of the investor or the equivalent, or in connection with the death or divorce of the investor or other similar circumstance.

For purposes of this Item (m)(6), the term accredited investor shall mean any person who comes within any of the categories set forth in 17 CFR § 230.501(a), or who the issuer reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

For purposes of this Item (m)(6), the term member of the family of the

investor or the equivalent includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and shall include adoptive relationships. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. Dope Coffee is a Georgia-based limited liability company that has been in existence for about one year. Its primary activity involves selling coffee and coffee-based products through our e-commerce platform. Although not yet profitable, Dope Coffee is operating and revenue-generating. To date, most of Dope Coffee's revenues have come from e-commerce sales and popup marketing events. These funds will be used to continue operating the company as we raise additional capital.

Dope Coffee does not own any significant assets other than cash, small scale coffee production equipment, and intellectual property. Dope Coffee began raising equity capital in mid-2019 via the offering of the 504 Notes. The company raised \$33,000 in 504 Notes between April 2019 and March 2020. The proceeds funded startup costs including marketing, supplies, subscriptions, and inventory.

Dope Coffee's current cash balance is approximately \$1,951.98

First Milestone: \$27,000 (minimum target offering amount)

When we reach the First Milestone, we plan to use the proceeds to build out our fulfillment facility, expand our digital media and marketing efforts for customer acquisition and increase our inventory, in addition to partial payroll.

Second Milestone: \$54,000 (an additional \$27,000 raised)

When we reach the Second Milestone, we plan to use the proceeds to continue to improve our fulfillment center, to continue digital media and marketing efforts, for event operations, and to initiate manufacturing upgrades.

Third Milestone: \$81,000 (an additional \$27,000 raised)

When we reach the Third Milestone, we plan to use the proceeds to continue digital media and marketing efforts, for manufacturing upgrades, and for a new hire.

Fourth Milestone: \$107,000 (an additional \$26,000 raised)

When we reach the Fourth Milestone, we plan to use the proceeds for our popup marketing and event operations, and our digital media and marketing efforts for customer acquisition.

In summary, if the company raises its full maximum target offering amount, it will be able to purchase build out fulfillment center, acquire equipment to increase manufacturing capabilities, maximize marketing and media reach, and continue event operations in the metro-ATL area with projections of expansion. Further funds will be generated from the recurring customer base and catering and events, while our COGS will decline associated with increased manufacturing capabilities and output volume.

Further funds will be generated from the recurring customer base and catering and events, while our cost of goods sold will see a decline associated with increased manufacturing capabilities and output volume.

If we do not reach all of our Milestones, we will seek alternative funding options to include debt-based options. In addition, the company is currently generating revenue so, even if we only reach our First Milestone, we expect the company to be able to continue operating at a slower pace for the foreseeable future.

Further, we are currently planning to launch a Qualified Financing in 2022, before the Crowd Note Maturity Date. When added to the \$107,000 we aim to raise in this offering, the Qualified Financing proceeds will propel our vision of being a global brand with micro-fulfillment centers embodying the culture and values of Dope Coffee through hands-on entertainment.

Below are our financial projections for 2020 through 2023.

To achieve our revenue projections through 2022, we need to raise approximately \$117,000 in addition to the \$33,000 we have already raised through our offering of 504 Notes. We plan to raise \$107,000 of that goal through this offering, and the balance (approximately \$10,000) through our Qualified Financing. To achieve our projections for 2023 and beyond, we will need to raise additional capital—we plan to secure most of this capital through the Qualified Financing. All offering proceeds (and additional funds) will improve both our revenue and cash flow. For example, with the funds raised in this offering, we will devote resources to marketing our product to build our recurring customer base for a consistent revenue stream. Right now, all of our sales are from organic content marketing and no paid advertising. Raising \$27,000, our minimum offering amount in this offering, will allow us to continue operating for the foreseeable future, although slower than we will once we have raised more capital.

Historical cash flows are not indicative of expected cash flows in the future. As an early-stage startup, Dope Coffee has recently begun generating revenue and at this time, revenues are increasing month over month. At this point in the company's life cycle, we expect significant increases in revenue for the next several years. Our expectation for revenue growth and cash flow increase are based on our analysis of similar coffee brands in our competitive market.
