

Civil rights and safety app — Protect, Know your rights and document abuse

REYETS.COM WASHINGTON DISTRICT OF COLUMBIA

Over 25 years ago as a 17 year old college freshmen, I was arrested. A white female student I had never met accused me of assaulting her. I assumed the justice system would protect my innocence if I fully complied with the officer. Unaware of my rights, I was wrong. The injustices continue with police brutality, my mission is to fix it.

Wa'il Ahsowwaf CEO + Cofounder @ Reyets

Why you may want to support us...

- 1 High impact potential to solve and immediate and pressing problem
2 Talented team with a track record
3 Unique application of technology
4 High Growth Potential (cannot be guaranteed)

Why investors love us

WE'VE RAISED \$25,000 SINCE OUR FOUNDING

The app fulfills an unmet need in the market place. There are no other apps that currently address what has become an emerging issue. There is no more pressing issue right now.

The business model is sound and current projections are conservative. There is a large market for the app and the model allows for easy access for potential customers. It also positions the app for multiple high influencers to endorse and support the use of the app. This will further enhance the value.

Gerald Bruce Executive Vice President, VIRPAX Pharmaceuticals

In the news

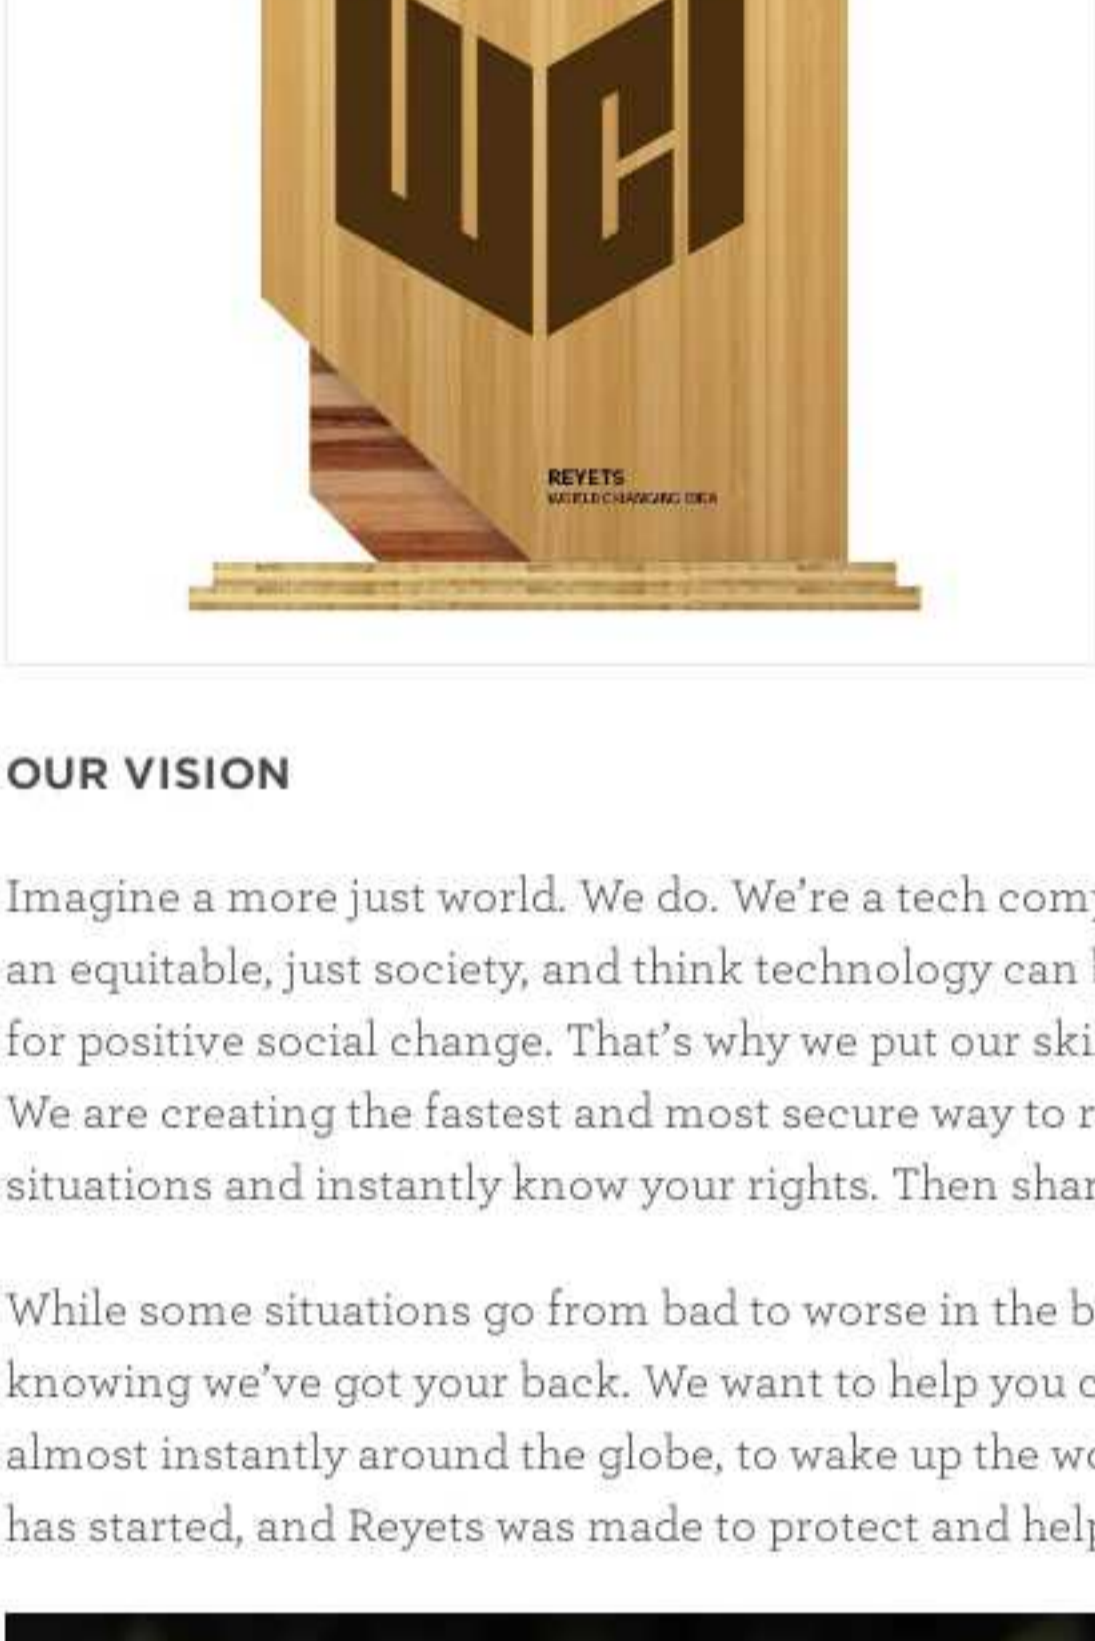

Reyets

OUR MISSION

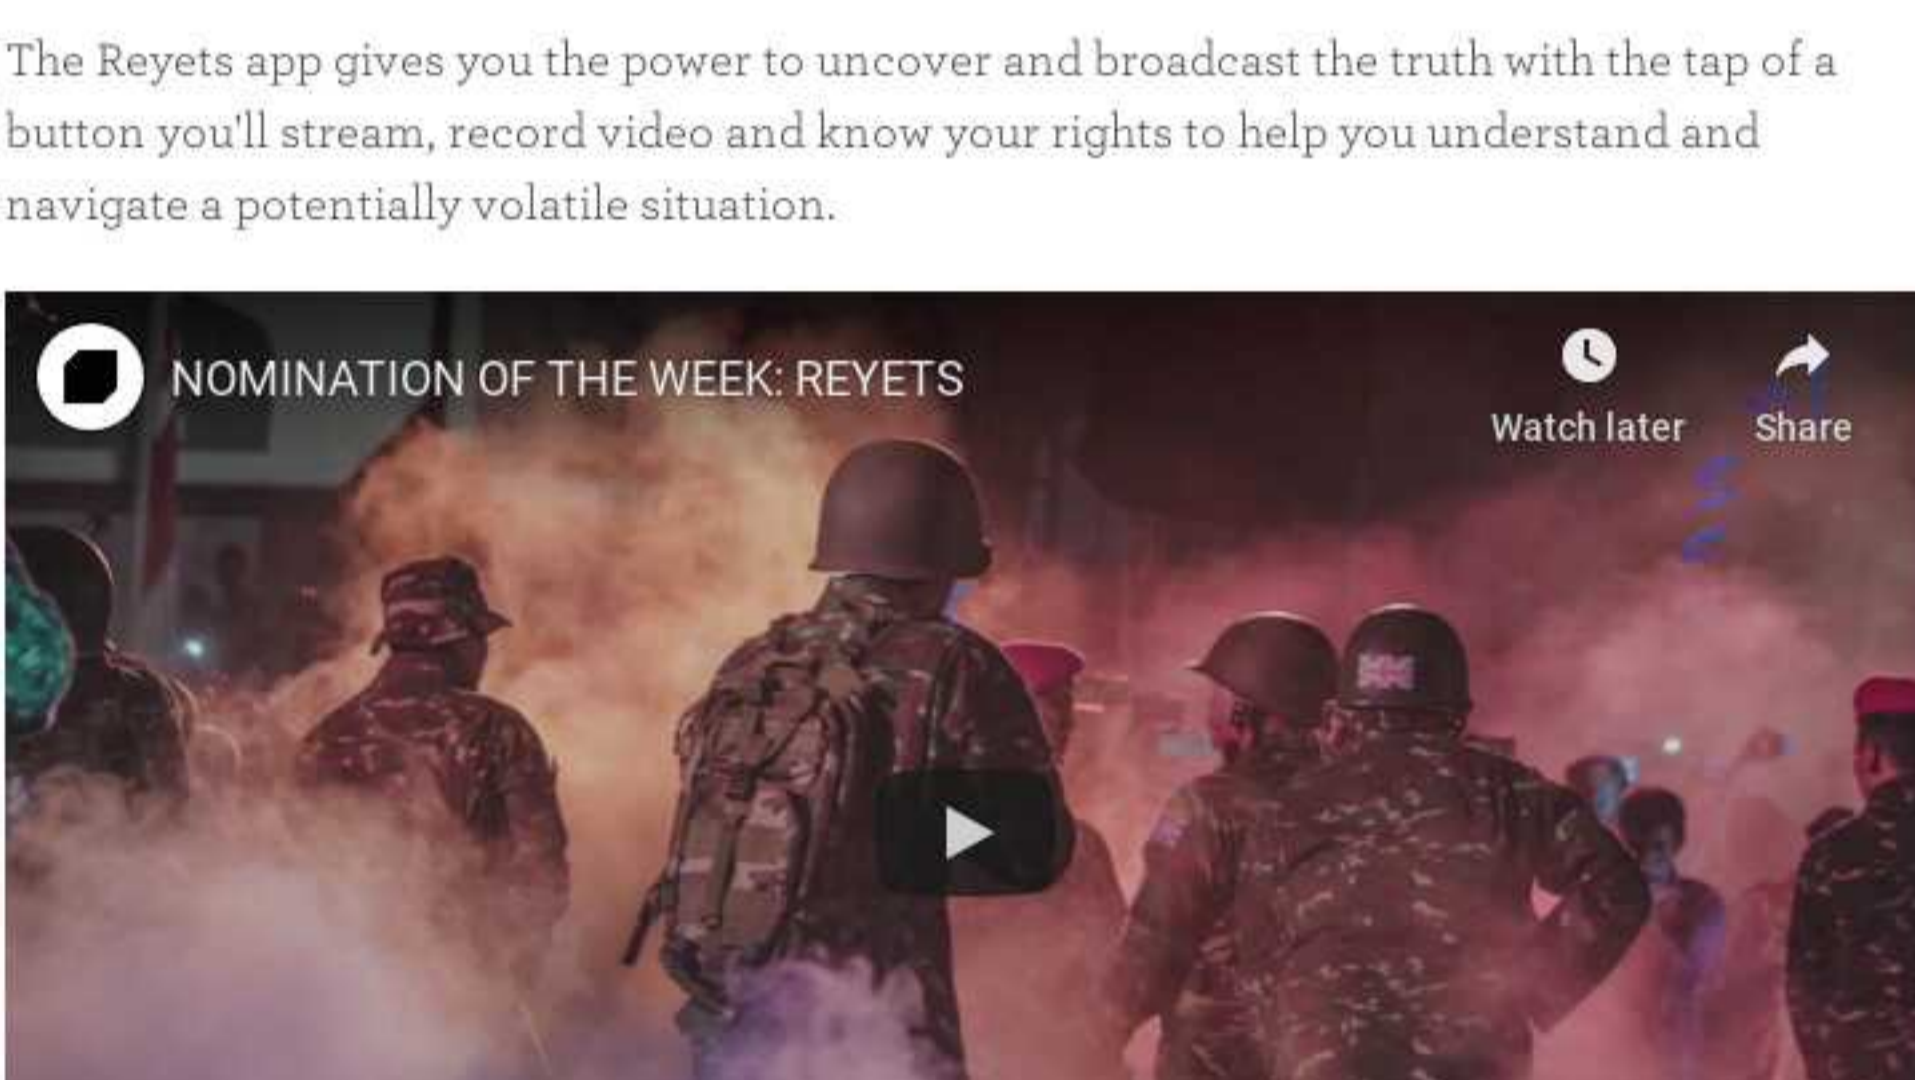

- Empower citizens with the tools and knowledge to capture the truth.
Amplify voices so the truth can be seen and heard by the world.
Act on injustice and hold power account

OUR VISION

Imagine a more just world. We do. We're a tech company, but we're also citizens. We value an equitable, just society, and think technology can be used for the good of all - as an agent for positive social change. That's why we put our skills and know-how to work on Reyets. We are creating the fastest and most secure way to record video, document high-risk situations and instantly know your rights. Then share and act on your beliefs.

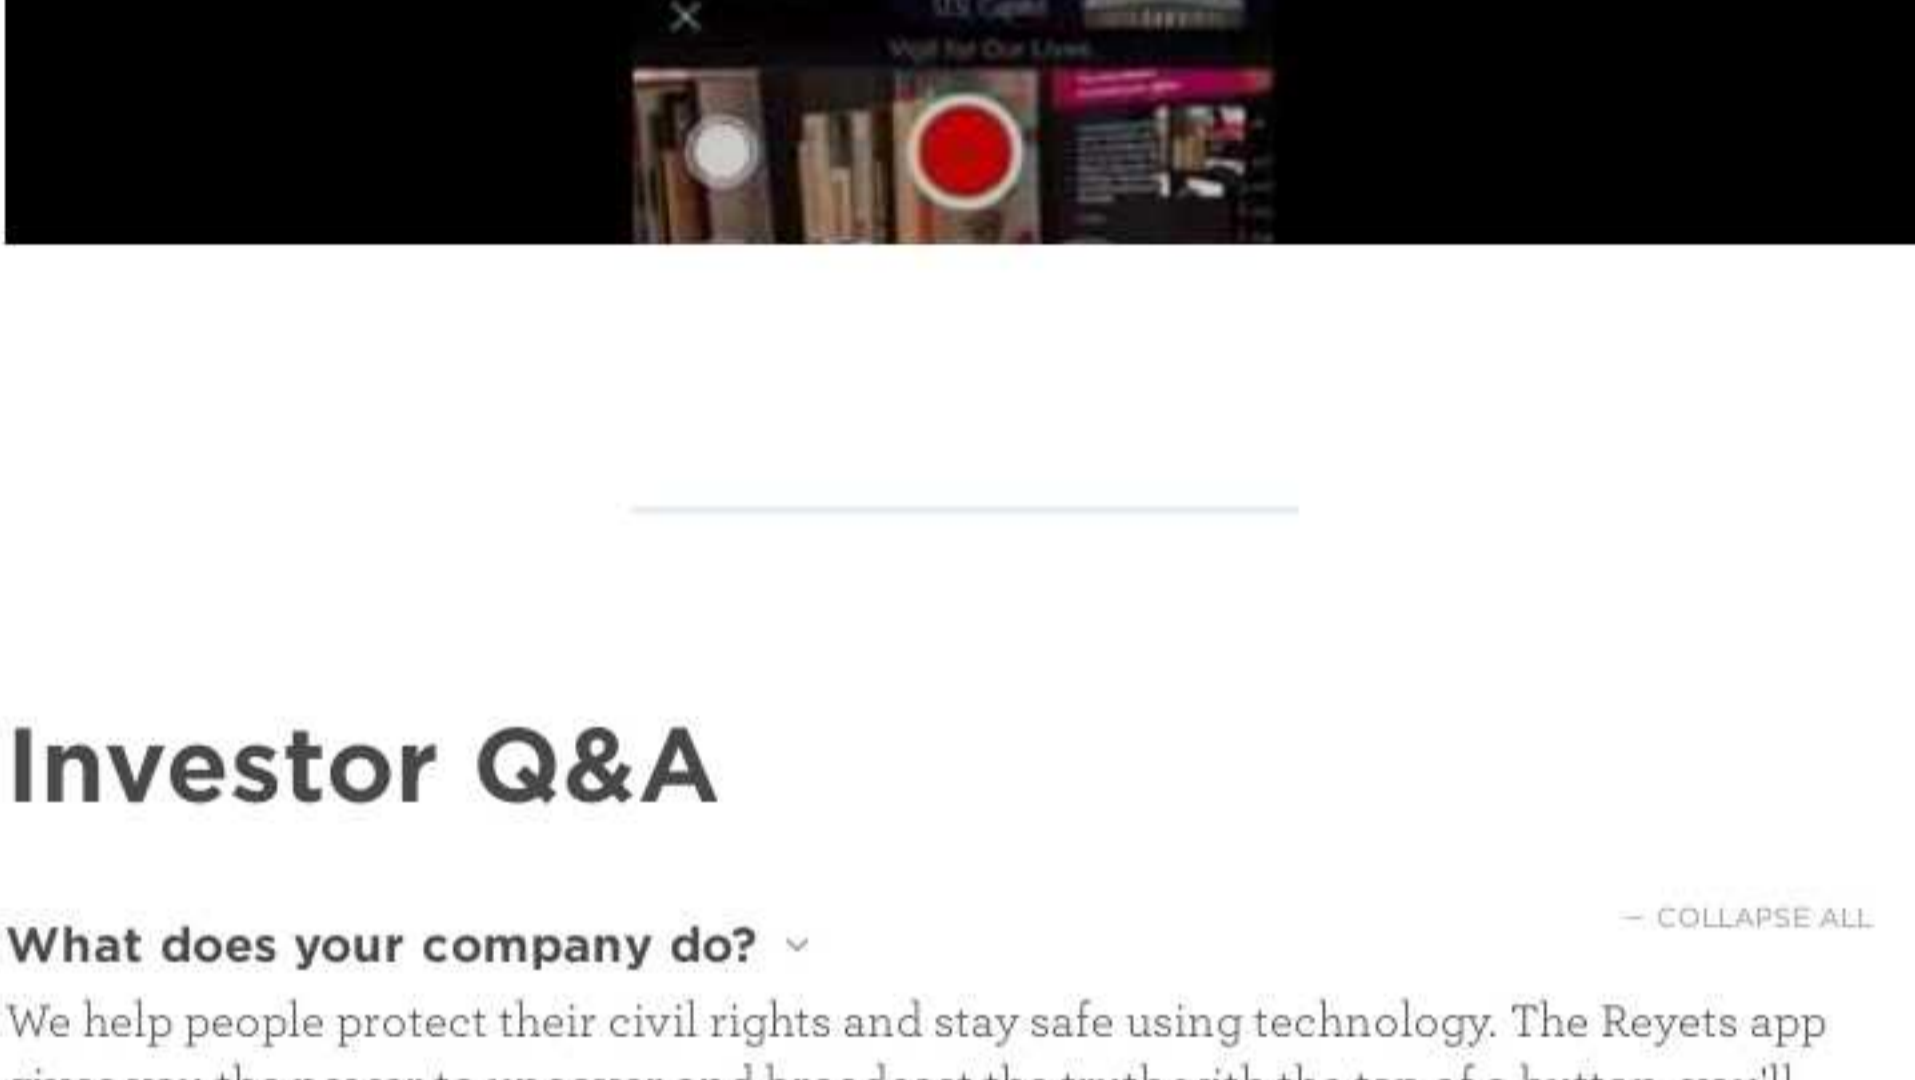

While some situations go from bad to worse in the blink of an eye, you can rest easier knowing we've got your back. We want to help you capture the truth and broadcast it almost instantly around the globe, to wake up the world. The new civil rights movement has started, and Reyets was made to protect and help as you take part.

HOW IT WORKS

If you are one of the 77 percent of Americans who own a smartphone, then there's a good chance that every time you leave the house, you carry with you the most powerful tool for police accountability that exists today.

The Reyets app gives you the power to uncover and broadcast the truth with the tap of a button you'll stream, record video and know your rights to help you understand and navigate a potentially volatile situation.

Investor Q&A

- What does your company do? We help people protect their civil rights and stay safe using technology.
Where will your company be in 5 years? Our goal is to be the worlds leading platform for civil rights protection and community policing.
Why did you choose this idea? Over 25 years ago as a 17 year old college freshmen, I was arrested.
How will you make money? We intend to make money in 3 ways: 1) Collecting referral fees from lawyers...
What would make users want to use your app, vs the default camera app? A camera phone is just a tool to record.
I saw a press release from 2018, did you launch the app already? The founder of LinkedIn famously said: "If you're not embarrassed by the first version of your product, you've launched too late".
Why is this a good idea, right now? Why wasn't this done a few years ago? When we first pitched the idea of Reyets, police brutality and civil rights violations were on the rise.
What's unique about your company? Most organizations trying to solve this problem are approaching it from a social, legislative reform side...
Why did you choose to be a for profit business, given the social cause of Reyets? Organizations such as the ACLU, NAACP and other have been instrumental in driving change.
What are your plans for expanding the team? It's easy for any company to say diversity and inclusion is a priority...
When will a Reyets be available on Android? We anticipate within 3 months after our fundraising we will be able launch an Android version of the app.
What is your track record as a team? We are childhood friends and have know each other for over 30 years.
