Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky.

Our future success depends on addition of new Next Door Photos Local Owners who are responsible for driving business in their markets. There can be no assurance that we will be successful in attracting and retaining other Local Owners which we require to successfully grow our business.

Potential strategic relationships may not achieve their objectives, which could impede the Company's growth. The Company anticipates that it will enter into strategic relationships in the future. The Company is continually exploring strategic relationships designed to expand its product offerings, enter new markets, and improve its distribution channels. The Company's existing strategic relationships and any new strategic relationships may not achieve their intended objectives, and parties to the Company's strategic relationships may not perform as contemplated. The failure of these relationships may impede the Company's ability to manufacture and source products and introduce new products and enter new markets, thus potentially impacting the success of the business.

If the Company fails to maintain and promote its brand, its business and operating results will be harmed. The Company believes that maintaining and promoting its brand is critical to expanding its base of consumers and sponsors. If the Company is unable to achieve viable widespread recognition in a relative short period of time it will not achieve the anticipated revenue growth.

The Company's performance is influenced by a variety of economic, social, and political factors. General economic conditions and consumer spending patterns can negatively impact the Company's operating results. Economic uncertainty, unfavorable employment levels, declines in consumer confidence, increases in consumer debt levels, increased commodity prices, and other economic factors that may affect the real estate market or consumer spending on discretionary items can adversely affect the demand for the Company's products.

Political and other factors also can affect the Company's performance. Concerns about presidential, congressional, and state elections and legislature and policy shifts resulting from those elections can affect the demand for our products. Additionally, international political risks including, but not limited to, legislation, policy shifts, and presidential policy associated with our strategic partners could impact the bottom line.

A significant disruption in the Company's computer systems or a cyber-security breach could adversely affect our operations. The Company relies extensively on its computer systems to run and manage its products. The Company's systems are subject to damage or interruption from various sources, including power outages, computer and telecommunications failures, computer viruses, cyber security breaches, vandalism, severe weather conditions, catastrophic events, and human error, and our disaster recovery planning cannot account for all eventualities. If the Company's systems are damaged, fail to function properly, or otherwise become compromised or unavailable, the Company may incur substantial costs to repair or replace them, and the Company may experience loss of critical data and interruptions or delays in its ability to perform critical functions, which could adversely affect the Company's business and operating results. Any compromise of the Company's data security could also result in a violation of applicable privacy and other laws, significant legal and financial exposure, damage to the Company's reputation, loss or misuse of the information, and a loss of confidence in the Company's data security measures, which could harm its business.

The Company has limited operating history. Therefore, the Company can only provide financial information using projections based on financial assumptions. Actual results may differ materially from those included in the Company's financial projections.

An investment in the Company may not meet the investment criteria for certain tax-exempt participants. In considering an investment in the Units of a portion of the assets of a trust or of a pension or profit-sharing plan qualified under Code Section 401(a) and exempt from tax under Code Section 501(a), a fiduciary should consider: (i) whether the investment satisfies the diversification requirements of ERISA Section 404; (ii) whether the investment is prudent, as the Units are not freely transferable and there will not be a market created in which participants can sell or otherwise dispose of the Units; and (iii) whether the Units or the underlying assets owned by the Company constitute “Plan Assets” under ERISA.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$100,000**

Use of Proceeds: **10% Marketing (Copy Writer), 40% Growth Team Addition (Regional Director), 42.5% Working Capital (Day to Day Operations), 7.5% Intermediary Fee**

If we raise: **\$500,000**

Use of Proceeds: **10% Marketing (Copy Writer, Content Creation), 40% Growth Team Addition (Regional Directors, Sales Director), 10% New Product Development (Expand Listing Media Offering), 32.5% Working Capital (Day to Day Operations), 7.5% Intermediary Fee**

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

- Investor Commitment.** The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
- Acceptance of the Investment.** If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
- Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- Progress of the Offering.** The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
- Closing-Original Deadline.** Unless we meet the target offering amount early, investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
- Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
- Book Entry.** Investments may be in book entry form. This means that the investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investor's "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

In addition, we may cap at 450 the total number of investors who will be allowed to invest through the offering that are not "accredited investors," as defined in Rule 501(a) of Regulation D under the Securities Act of 1933. In the event that more than 450 non-accredited investors are initially accepted into an offering in step (2) described in Question 11, the Company may cancel investments based on the order in which payments by investors were received, or other criteria at the discretion of the Company, before the offering deadline.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Priced Round: \$10,000,000 pre-money valuation.
See exact security attached as [Appendix B, Investor Contracts](#)

3DMia, LLC is offering a total of 60,000 shares of Common Stock.

Subscription Price. The Units of 3DMia, LLC are being offered based on a pre-money valuation of \$10,000,000 (the "Valuation Cap"). Accordingly, the subscription price for each Unit of 3DMia, LLC is \$10.00 and the Company is offering a total of 100,000 Units of 3DMia, LLC for purchase. The minimum number of Units of 3DMia, LLC being sold is 10,000 Units of 3DMia, LLC for subscriptions totaling \$100,000. When purchasing Units of 3DMia, LLC, the subscriber will also receive for no additional consideration, certain Units in 3DMia Management, LLC, such that the subscriber has the same ownership percentage in 3DMia Management, LLC that the subscriber has in 3DMia, LLC. Notwithstanding the Valuation Cap, if Wefunder, Inc., in its sole discretion, determines that the Investor has satisfied all conditions necessary to participate in the early bird special (such conditions, the "Early Bird Conditions"), the applicable valuation will be \$8,000,000. Wefunder, Inc. shall promptly notify the Investor if, and only if, Wefunder, Inc. determines that the Investor has satisfied the Early Bird Conditions.

Irrevocable Proxy; SPV Reorganization. The Investor hereby appoints, and shall appoint in the future upon request, the Manager or its designee, as the Investor's true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Investor, (i) vote all Units issued pursuant to the terms of this instrument as the holders of a majority of the Units vote, (ii) give and receive notices and communications, (iii) execute any instrument or document that the MANAGER determines is necessary or appropriate in the exercise of the MANAGER's authority under this instrument and (iv) take all actions necessary or appropriate in the judgment of the MANAGER for the accomplishment of the foregoing. The proxy and power granted by the Investor pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the investor is an individual, will survive the death, incompetency and disability of the investor and, so long as the investor is an entity, will survive the merger or reorganization of the investor or any other entity holding the Units issued pursuant to the terms of this instrument. The MANAGER is an intended third-party beneficiary of this Section and has the right, power and authority to enforce the provisions hereof as though he or she was a party hereto.

Other than with respect to the gross negligence or willful misconduct of the MANAGER, in his or her capacity as the Investor's true and lawful proxy and attorney pursuant to this Section (collectively, the "Proxy"), the Proxy will not be liable for any act done or omitted in his, her or its capacity as representative of the Investor pursuant to this instrument while acting in good faith, and any act done or omitted pursuant to the written advice of outside counsel will be conclusive evidence of such good faith. The Proxy has no duties or responsibilities except those expressly set forth in this instrument, and no implied covenants, functions, responsibilities, duties, obligations or liabilities on behalf of the Investor otherwise exist against the Proxy. The Investor shall indemnify, defend and hold harmless the Proxy from and against any and all losses, liabilities, damages, claims, penalties, fines, forfeitures, actions, fees, costs and expenses (including the fees and expenses of counsel and experts and their staffs and all expense of document location, duplication and shipment) (collectively, "Proxy Losses") arising out of or in connection with any act done or omitted in the Proxy's capacity as representative of the Investor pursuant to this instrument, in each case as such Proxy Losses are suffered or incurred; provided, that in the event that any such Proxy Losses are finally adjudicated to have been directly caused by the gross negligence or willful misconduct of the Proxy, the Proxy (or, in the case of the MANAGER, the Company) shall reimburse the Investor the amount of such indemnified Proxy Losses to the extent attributable to such gross negligence or willful misconduct (provided that the Proxy's aggregate liability hereunder shall in no event exceed the Purchase Amount). In no event will the Proxy be required to advance his, her or its own funds on behalf of the Investor or otherwise. The Investor acknowledges and agrees that the foregoing indemnities will survive the resignation or removal of the Proxy or the termination of this instrument. A decision, act, consent or instruction of the Proxy constitutes a decision of the Investor and is final, binding and conclusive upon the Investor. The Company, its members, and any other third party may rely upon any decision, act, consent or instruction of the Proxy as being the decision, act, consent or instruction of the Investor. The Company, its Members and any other third party are hereby relieved from any liability to any person for any acts done by them in accordance with such decision, act, consent or instruction of the Proxy. The Investor hereby agrees to take any and all actions determined by the Board in good faith to be advisable to reorganize this instrument and any Units issued pursuant to the terms of this instrument into a special-purpose vehicle or other entity designed to aggregate the interests of holders of Safes

14. Do the securities offered have voting rights?

Yes
 No

15. Are there any limitations on any voting or other rights identified above?

Yes: No Voting Rights
 No

16. How may the terms of the securities being offered be modified?

Any provision of this instrument may be amended, waived or modified as follows:

(i) If the Investor is not a Major Investor, any provision of this instrument (other than the Valuation Cap) may be amended, waived or modified only upon the written consent of the Company and either (A) the Designated Lead Investor or (B) the holders of a majority of the Purchase Amounts payable to the Cash-Out Investors; (ii) If the Investor is a Major Investor, any provision of this instrument (other than the Valuation Cap) may be amended, waived or modified only upon the written consent of the Company and the holders of a majority of the Purchase Amounts payable to the Cash-Out Investors who are Major Investors; and (iii) regardless of whether the Investor is or is not a Major investor, the Valuation Cap may be amended, waived or modified only (i) upon the written consent of the

Company and the holders of a majority of the Purchase Amounts payable to the Cash-Out Investors or (ii) as contemplated in the definition of Valuation Cap.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Class A Common Units	1,000,000	1,000,000	No

Securities Reserved for Issuance upon Exercise or Conversion

Warrants: N/A
Options: N/A

Describe any other rights:

Investors in this Offering will not be receiving voting rights. Instead, their voting rights will be proxied to the Company's CEO.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the unitholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the unitholders may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The unitholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The unitholders have the right to redeem their securities at any time. Unitholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the

Units that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **management**.

Among the factors we may consider in determining the price of **Units** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **units** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

In 2019 we worked with over 300 editors located in Philippines, Kenya, and Nepal to professional edit photos, floor plans, and 3D models. The demographic are Survivors of Human Trafficking, At Risk populations, and underemployed populations.

Since then, we have:

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$352,000 in debt, \$1,050,000 in equity, and \$175,000 in convertibles.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 12 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

3DMia, LLC cash in hand is \$49,689.97, as of February 2020. Over the last three months, revenues have averaged \$141,102/month, cost of goods sold has averaged \$76,776/month, and operational expenses have averaged \$138,105/month, for an average burn rate of \$73,779 per month. Our intent is to be profitable in 6 months. Due to seasonality, we hope (but not guarantee) to achieve break-even by March and profitability by April of this year based on historical figures. If for whatever reason that does not happen, the founding team can infuse personal capital to cover short-term operations.

Since the end of 2018, Next Door Photos (NDP) has launched 15 additional Local Owners in the US and Canada bringing the total to 41 NDP locations. Revenue for 3DMia increased to approximately \$2.06M in 2019. Remote editing locations increased to 3 partnerships in 3 separate geographical locations. This was accomplished to increase capacity, build a scalable supply base, and reduce risk of interruption of supply. Collectively across all NDP locations, there over 200 photographers with over 5,000 repeat customers.

2019 focus was to create the foundation for scaling. Investments in the remote editing locations, product development, platform and system infrastructure, and the advancement of an outward marketing campaign.

3DMia hopes (but not guarantees) to achieve profitability in Q2 of 2020 based on the growth of existing NDP Locations along with the addition of 30-40 new NDP Locations in 2020. Historically the contribution of Local Owner NDP profit share has been low due to initial launch and this is anticipated to become a more significant contribution to 3DMia income in 2020 and going forward.

The entities are LLC's partnerships and are the direct relationship with the Clients. These are individual partnerships that exist in a determined territory for business development and operations locally. 3DMia provides all the back office activity, platform systems, product development, ecommerce, etc. Operating agreement exist that provides a process fee and profit share to 3DMia.

There are 250 NDP Location territory opportunities in N. America and the objective is have 250 NDP Locations in the next 5 to 7 years. 2020 plans include onboarding the remaining leadership team roles of finance, sales, marketing, and regional leaders. Digital platform automation in 2020/2021 and increasing outward facing marketing for expansion and NDP Local Owner clients.

Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 29 and these instructions refer to the issuer and its predecessors, if any.
