Forward Looking Statement Disclosure

This Form C-AR and any documents incorporated by reference herein or therein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C-AR are forward-looking statements. Forward-looking statements give the Issuers' current reasonable expectations and projections relating to their respective financial conditions, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C-AR and any documents incorporated by reference herein or therein are based on reasonable assumptions the Issuers have made in light of their industry experience, perceptions of historical trends, current conditions, expected future developments and other factors they

believe are appropriate under the circumstances. As you read and consider this Form C-AR, you should understand that these statements are not guarantees of performance or results. They involve risks, uncertainties (many of which are beyond the Issuers' control) and assumptions. Although the Issuers believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect their actual operating and financial performance and cause their performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect or change, the Issuers' actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Any forward-looking statement made by either of the Issuers in this Form C-AR or any documents incorporated by reference herein or therein speaks only as of the date of this Form C-AR. Factors or events that could cause our actual operating and financial performance to differ may emerge from time to time, and it is not possible for the Issuers to predict all of them. The Issuers undertake no obligation to update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

The Business

The company publishes and distributes children's books, products, and content promoting bilingual education and early literacy.

RISK FACTORS

Risks Related to the Company's Business and Industry

The Company's reliance on social media for marketing could have a negative impact if interrupted as it could slow down our visibility, growth, and profitability.

The Company relies on third party technology vendors such as Shopify, Google, Paypal, Shipstation for payments, financial services, and shipping.

Any interruption in the availability of these services could have a material negative impact on our ability to deliver service to customers, as well as the profitability of these operations. Interruptions could occur due to both Internet outages as well as policy changes or terms violations according to these third parties. The prospect of increased regulation may create access challenges to our users and service offerings.

The children's media industry is a highly competitive market.

We cannot assure that our current or potential competitors will not provide products or services comparable or superior to those provided by us or adapt more quickly than we do to evolving industry or market trends. Increased competition may result in price reductions, reduced gross margins and loss of market share, any of which would materially and adversely affect our business, prospects, financial condition or results of operations. We cannot assure investors that we will be able to compete effectively against current and future competitors.

In order to respond to market changes, the founders from time to time may make changes to the Company to adapt to market.

The Company will continue its research and development activities for its new products and begin its production operations which require capital.

There is no certainty that the initial financing will be sufficient to establish that our future products are viable, in which case additional development financing will be required.

Economical changes may affect the Company's profit margin and slow distribution, such as increase in raw materials, global supply issues, and political unrest.

The Company founders may not be able to work full-time in the event of health, family, or other extenuating circumstances.

Our future success depends on the efforts of a small management team.

The loss of services of the members of the management team may have an adverse effect on the Company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business

Additional issuances of securities.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities.

The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer.

As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets.

Transactions with related parties.

The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

BUSINESS

Description of the Business

The Company publishes and distributes children's books, products, and content promoting bilingual education and early literacy.

Business Plan - The Company

Our business model relies on the continued growth and success of our existing books and products, as well as the creation of new products. The markets and industry segments in which we offer our products are highly competitive. We utilize our marketing, authenticity, grassroots approach, and online presence to educate consumers about the importance of culturally relevant media. We work collaboratively with our distributor and customers to improve our presence and products and earn our customer's trust. We believe we must continue to provide new, innovative books and products in order to grow our business. Research and product development activities, designed to enable sustained organic growth, carry a high priority. While many of the benefits from these efforts will not be realized

until future years, we believe these activities demonstrate our commitment to future growth. We develop and distribute high-quality and culturally-relevant content for parents, children and schools. We manage our brands with creativity, expertise and discipline to produce and distribute multicultural books and children's media experiences across a wide variety of platforms and engage consumers in many facets of their lives. With a strategic focus on content, we aim to: * expand, enhance and evolve our brands worldwide by creating and acquiring necessary content and resources, building new partnerships who share the same goals and innovating in other forms of media; * foster a creative, dynamic and diverse company culture that reflects the diverse audiences we serve and strengthens our position as a leader in media for consumers around the world; * deepen our connection with audiences by investing wisely in content that fits our core businesses and brand portfolios and resonates with targeted audiences; * continue to develop and refine innovative ways to distribute our content; * fuel organic growth by developing products with local, regional and multinational appeal; * limit the impact of intellectual property theft by providing compelling, legitimate offerings, as well as through technology solutions, communications, legal enforcement and other activities; * drive efficiencies, execute strategies and maintain a strong financial position through operational discipline; and * generate significant long-term value for our stockholders.

Operations

Our most recent financing was conducted in April 2023. Following the Offering, we do not intend to raise capital again until we reach a milestone that requires capital. We are currently focusing on elevating our brands by investing in marketing, expanding our team, creating more resources, increasing our consumer product line, and acquiring companies in the bilingual/publishing space. We are not certain when or if we will generate profits in the future, and intend to devote our resources to meeting our goals.

Lil' Libros objectives for the next 12 months include: Increase online sales by 150% through targeted marketing and optimization of our website. Expand distribution in the education market, bookstores, mass merch, and specialty retailers nationally and internationally. Launch two new business segments: subscription service and school book fairs. Launch at least two new product lines: STEAM bilingual series and interactive children's books. Increase brand awareness and engagement on social media platforms by 50%, including Instagram, TikTok, and Facebook. Improve profitability by increasing gross margins. With our recent strategic partnership with Bitty Bao, we will look at expanding our distribution network, reach new markets, and increase brand awareness. To achieve these objectives, we plan to: Conduct a market analysis of the current trends and competition to identify areas of growth and potential expansion for subscription service and book fair segments. Develop a clear and concise marketing strategy to promote Lil' Libros and Bitty Bao's brand and products. This may include strategic partnerships, influencer and targeted advertising campaigns, and attending industry events and conferences. Focus on expanding the distribution network for both Lil' Libros and Bitty Bao to reach a wider audience. This may include leveraging partnerships with retailers such as bookstores, specialty retailers, and educational institutions that align with our mission and target audience to increase the visibility and accessibility of our products. Leverage existing distribution to expand and deepen our reach in Latin America and new territories such as Asia. Collaborate and deepen relationships with early childhood educational institutions that promote bilingual literacy in children. This may include book fairs, student workshops and integration of our bilingual books into classroom curriculums. Collaborate and develop deeper relationships with non-profit organizations that promote early literacy in children. This may include offering access to bilingual children's books and other educational resources to help support their mission and showcase the value of our products to a wider audience. By implementing these strategies, Lil' Libros can reach new customers, expand our brand presence, and increase sales, in turn driving profitability and growth, but most importantly help continue to enrich the lives of young children!

Liquidity and Capital Resources

On November 30, 2021 the Company conducted an offering pursuant to Regulation CF and raised \$2,485,784.00.

The Company does not have any additional sources of capital other than the proceeds from the Regulation CF Offering.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Financial Statements

For the calendar years ended December 31, 2021 and 2020

April 1, 2023

Re: 2021-2020 Financial Statements

Below are the financial statements of LITTLE LIBROS, LLC (a limited liability company organized in California) (the "Company"), which comprise the balance sheets as of December 31, 2021 and 2020, and the related statements of income, members' equity/deficit, and cash flows for the calendar year periods thus ended, and the related notes to the financial statements.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations, members' equity/deficit and cash flows for the calendar year periods thus ended in accordance with accounting principles generally accepted in the United States of America.

Sincerely,

Jemin Na, CPA

NOTE 1 - NATURE OF OPERATIONS

LITTLE LIBROS, LLC ("the Company") is a limited liability company organized under the laws of the State of California on September 4, 2014. The Company publishes and distributes children's books, products, and content promoting bilingual education and early literacy.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP"). In the opinion of management, all adjustments considered necessary for the fair presentation of the financial statements for the years presented have been included.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the footnotes thereto. Actual results could differ from those estimates.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include: recession, downturn or otherwise, changes in regulations or restrictions in imports, competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations. As of December 31, 2020, the Company is operating as a going concern.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits. As of December 31, 2021 and 2020, the Company had \$139,085 and \$231,486 cash on hand, respectively.

Receivables and Credit Policy

Trade receivables from customers are uncollateralized customer obligations due under normal trade terms, primarily requiring payment before services are rendered. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoice. The Company, routinely assesses its outstanding accounts. As a result, the Company believes that its accounts receivable credit risk exposure is limited. As of December 31, 2021, and 2020, the Company had \$223,165 and \$291,756 in accounts receivable, respectively. The Company has not accrued for any bad debts as of these dates.

Sales Taxes

Various states impose a sales tax on the Company's sales to non-exempt customers. The Company collects the sales tax from customers and remits the entire amount to each respective state. The Company's accounting policy is to exclude the tax collected and remitted to the states from revenue and cost of sales.

Property and Equipment

Property and equipment are recorded at cost if the expenditure exceeds \$1,000. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are expensed as incurred. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the balance sheet accounts and the resultant gain or loss is reflected in income.

Depreciation is provided using the straight-line method, based on useful lives of the assets which range from three to fifteen years depending on the asset type.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. As of December 31, 2021 and 2020, the Company maintained fixed assets with a net book value of \$0 and \$0 as of December 31, 2021 and 2020, respectively.

Fair Value Measurements

The Company has determined the fair value of certain assets and liabilities in accordance with United States generally accepted accounting principles ("GAAP"), which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Income Taxes

The Company is taxed as a C corporation as of 2020 and was taxed as an S corporation prior to 2020. The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

Revenue Recognition

The Company adopted ASC 606, Revenue from Contracts with Customers, as of January 1, 2019 (the "transition date") using the full retrospective method. There was no transition adjustment recorded upon the adoption of ASC 606. Under ASC 606, revenue is recognized when a customer obtains control of promised goods or services, in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services.

To determine revenue recognition for arrangements that an entity determines are within the scope of ASC 606, the Company performs the following steps: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract and (v) recognize revenue when (or as) the entity satisfies a

performance obligation. At contract inception, once the contract is determined to be within the scope of ASC 606, the Company assesses the goods or services promised within each contract and determines those that are performance obligations and assesses whether each promised good or service is distinct. The Company then recognizes as revenue the amount of the transaction price that is allocated to the respective performance obligation when (or as) the performance obligation is satisfied.

Revenue from the sale of tangible products are recorded when the goods are shipped and delivered.

Sales and Marketing Expenses

The Company expenses advertising costs as they are incurred.

Recent Accounting Pronouncements

In February 2017, FASB issued ASU No. 2017-02, "Leases (Topic 842)," that requires organizations that lease assets, referred to as "lessees," to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2017-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. The Company is currently evaluating the effect that the updated standard will have on its financial statements and related disclosures. The Company will adopt this standard after required to and when applicable to the Company.

In May 2018, FASB issued ASU 2018-09, "Compensation- Stock Compensation (Topic 718): Scope of Modification Accounting", clarifies such that an entity must apply modification accounting to changes in the terms or conditions of a share-based payment award unless all of the following criteria are met: (1) the fair value of the modified award is the same as the fair value of the original award immediately before the modification. The ASU indicates that if the modification does not affect any of the inputs to the valuation technique used to value the award, the entity is not required to estimate the value immediately before and after the modification; (2) the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the modification; and (3) the classification of the modified award as an equity instrument or a liability instrument is the same as the classification of the original award immediately before the modification. The ASU is effective for all entities for fiscal years beginning after December 15, 2018, including interim periods within those years. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating the impact that this standard will have on our consolidated financial statements and will adopt this change when applicable to the Company.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to the Company, or (iv) are not expected to have a material impact the Company's financial statements.

NOTE 3- INCOME TAX PROVISION

As discussed above, the Company is a C corporation for federal income tax purposes starting in 2020 and has accrued tax expense at the statutory rate.

Tax returns once filed which will remain subject to examination by the Internal Revenue Service under the statute of limitations for a period of three years from the date it is filed.

NOTE 4- MEMBER CAPITAL

The Company has two classes of membership units: Common Units and Preferred Series Seed Units. The Common Units are held by two individuals and the Preferred Series Seed Units are held by multiple individuals (i.e. employees, advisors, and SPV).

NOTE 5 -DEBT AND ROYALTIES

PPP Loan Payable

The Company procured \$67,927 of funding under the CARES Act of 2020 in Paycheck Protection Program loans ("PPP Loans") backed by the US Small Business Administration (the "SBA"). The PPP Loans are forgivable if the Company uses the funds in accordance with the SBA's regulations. The Company expects to meet those requirements and have the loan forgiven. The PPP Loans were forgiven in 2021.

Due to Kabbage

Loan from Shareholders

Royalties

The Company's deferred royalty liabilities are royalties owed to the founders who authored 38 books published and distributed since 2014. The royalty expense is recorded as a cost of goods sold.

NOTE 6 - COMMITMENTS AND CONTINGENCIES

Litigation

The Company, from time to time, may be involved with lawsuits arising in the ordinary course of business. In the opinion of the Company's management, any liability resulting from such litigation would not be material in relation to the Company's consolidated financial position, results of operations and cash flows. There is no pending or threatened litigation.

NOTE 7 - RELATED PARTY TRANSACTIONS

Related-Party Transactions

The Company owes royalties to the members of the Company that have not been paid nor bear interest.

As the transaction was between related parties, there is no guarantee that the terms of the sale represent an arm's length transaction. However, the Company believes that the royalty rate paid to the authors to be representative of industry practices.

NOTE 9- SUBSEQUENT EVENTS

Reg CF Securities Offering

The Company is in the process of preparing for a securities offering exempt from registration under Regulation CF. The securities offering will be listed with WeFunder and they will receive compensation for the listing commensurate with its standard terms.

Management's Evaluation

Management has evaluated subsequent events through December 31, 2021, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.
