

Reach

Community Delivery Network

What is it

A community-based system (coordination)

matching those who **want** to help (helper)

with those who **need** help (community member)

managed by a Community group (local community group)

enabling lockdown policies to be adhered to (protecting us all)

while ensuring they get the help they need from the community (supporting lives)

Need

Who

1. People living on their own or in assisted-living complexes with no close relatives / friends
2. People working as key workers who can't get what they need
3. Venerable or housebound people
4. Those in Lockdown, isolation, infected

What do they need?

- Prescriptions
- Groceries
- Supplies
- A friendly Chat / Prayer

How does it work

- Someone who needs help raises a request (via Reach app, facebook, phone, email, friend)
- The system allocates the request to the relevant Community group
- The community group assigns the request to a helper
- The helper updates the request via the REACH app as they proceed through the help process

Who's involved

- NZ Surf lifesaving 8000 members, 76 clubs
- NZ Red Cross

- Lake Church, 2000 members
- Association of churches, synagogues & mosques

- Love Thame, 200 helpers
- Covid-19 mutual aid UK, 1000+ groups

COMPANIES INVOLVED

PEOPLE INVOLVED

- Mike Derric, Chris, Alan, Thabo, Sagar, Dimitrios, John, Alexis, Ben, Rob, Colin, Westley, Jacob, Margarita, Brenton, Stefan, David, Mike....

How do I get involved?

- Approach your local community group and ask them if you can help (Facebook groups, Whatsapp groups, church, mosque, club, association etc)
- Get your community group using REACH
- Contact us if you can help get a network of community groups connected
- Share and spread the work about REACH
- Download the REACH community app from the Google and apple Play stores
- The REACH website can be found at www.CommunityDeliveryNetwork.com
- Our email is reach@CarDeliveryNetwork.com
- Contact phone number are on the website

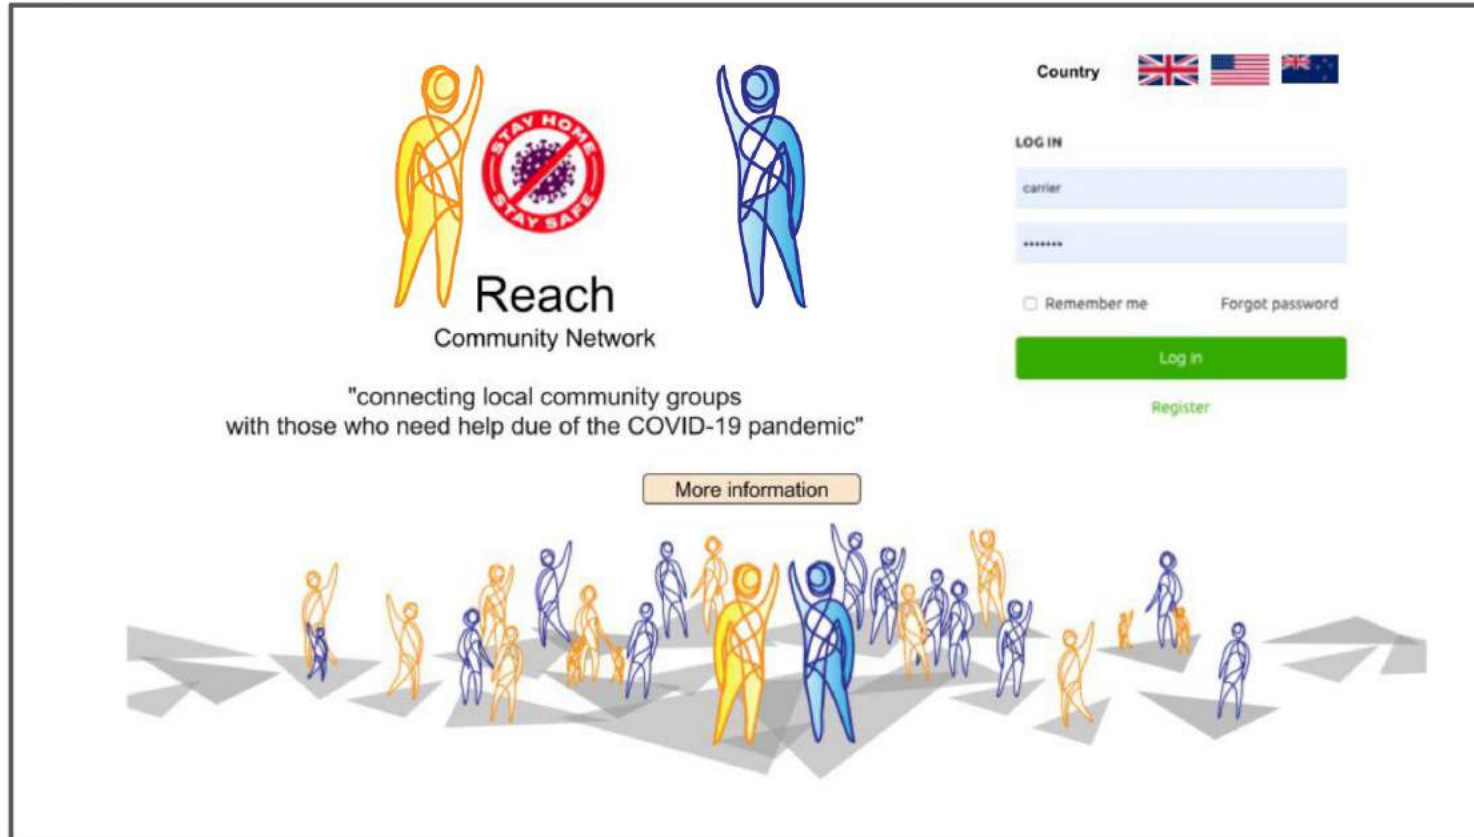

How do I get help?

- If you need emergency help call your local first responders
- If you need community help contact your local community group
(search for a Facebook or Whatsapp group, call your local church, church, mosque, club, association etc)
- **COMING SOON:** As soon as we have Community groups registered we will be matching those who need help with your local group for you to request help via the website and mobile app.

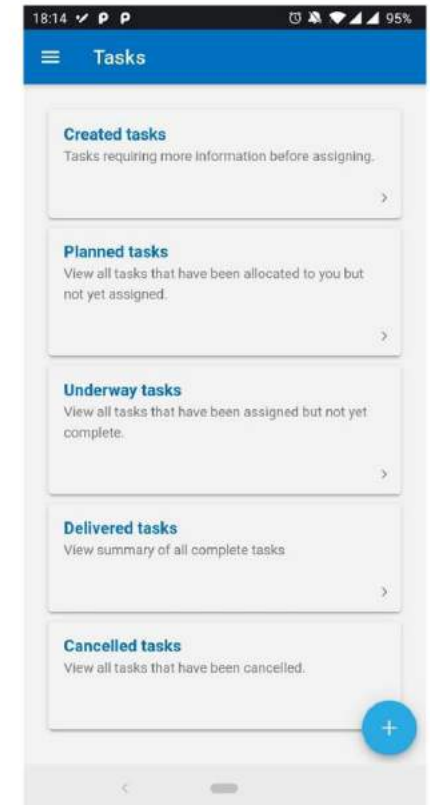

THE WEB PORTAL

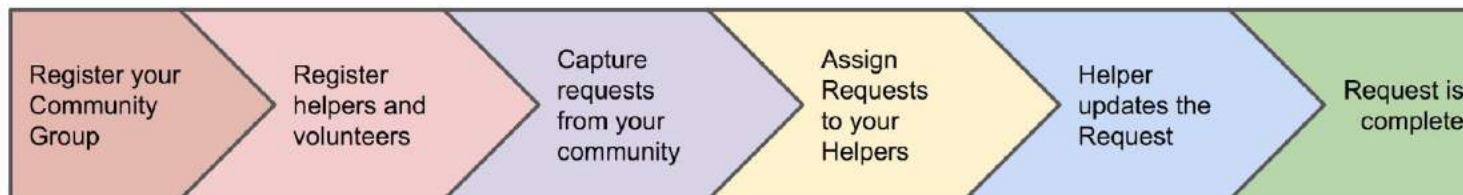

The web portal features a header with two stylized human figures, one yellow and one blue, flanking a red circular logo with a virus and the text "STAY HOME STAY SAFE". Below this is the "Reach Community Network" logo and the tagline "connecting local community groups with those who need help due of the COVID-19 pandemic". A "More information" button is located below the tagline. The main content area includes a "Country" selector with flags for the UK, USA, and Australia. A "LOG IN" section contains input fields for "carrier" and a password, a "Remember me" checkbox, a "Forgot password" link, a green "Log in" button, and a green "Register" link. At the bottom, a large group of stylized human figures in various colors are shown walking towards the right.

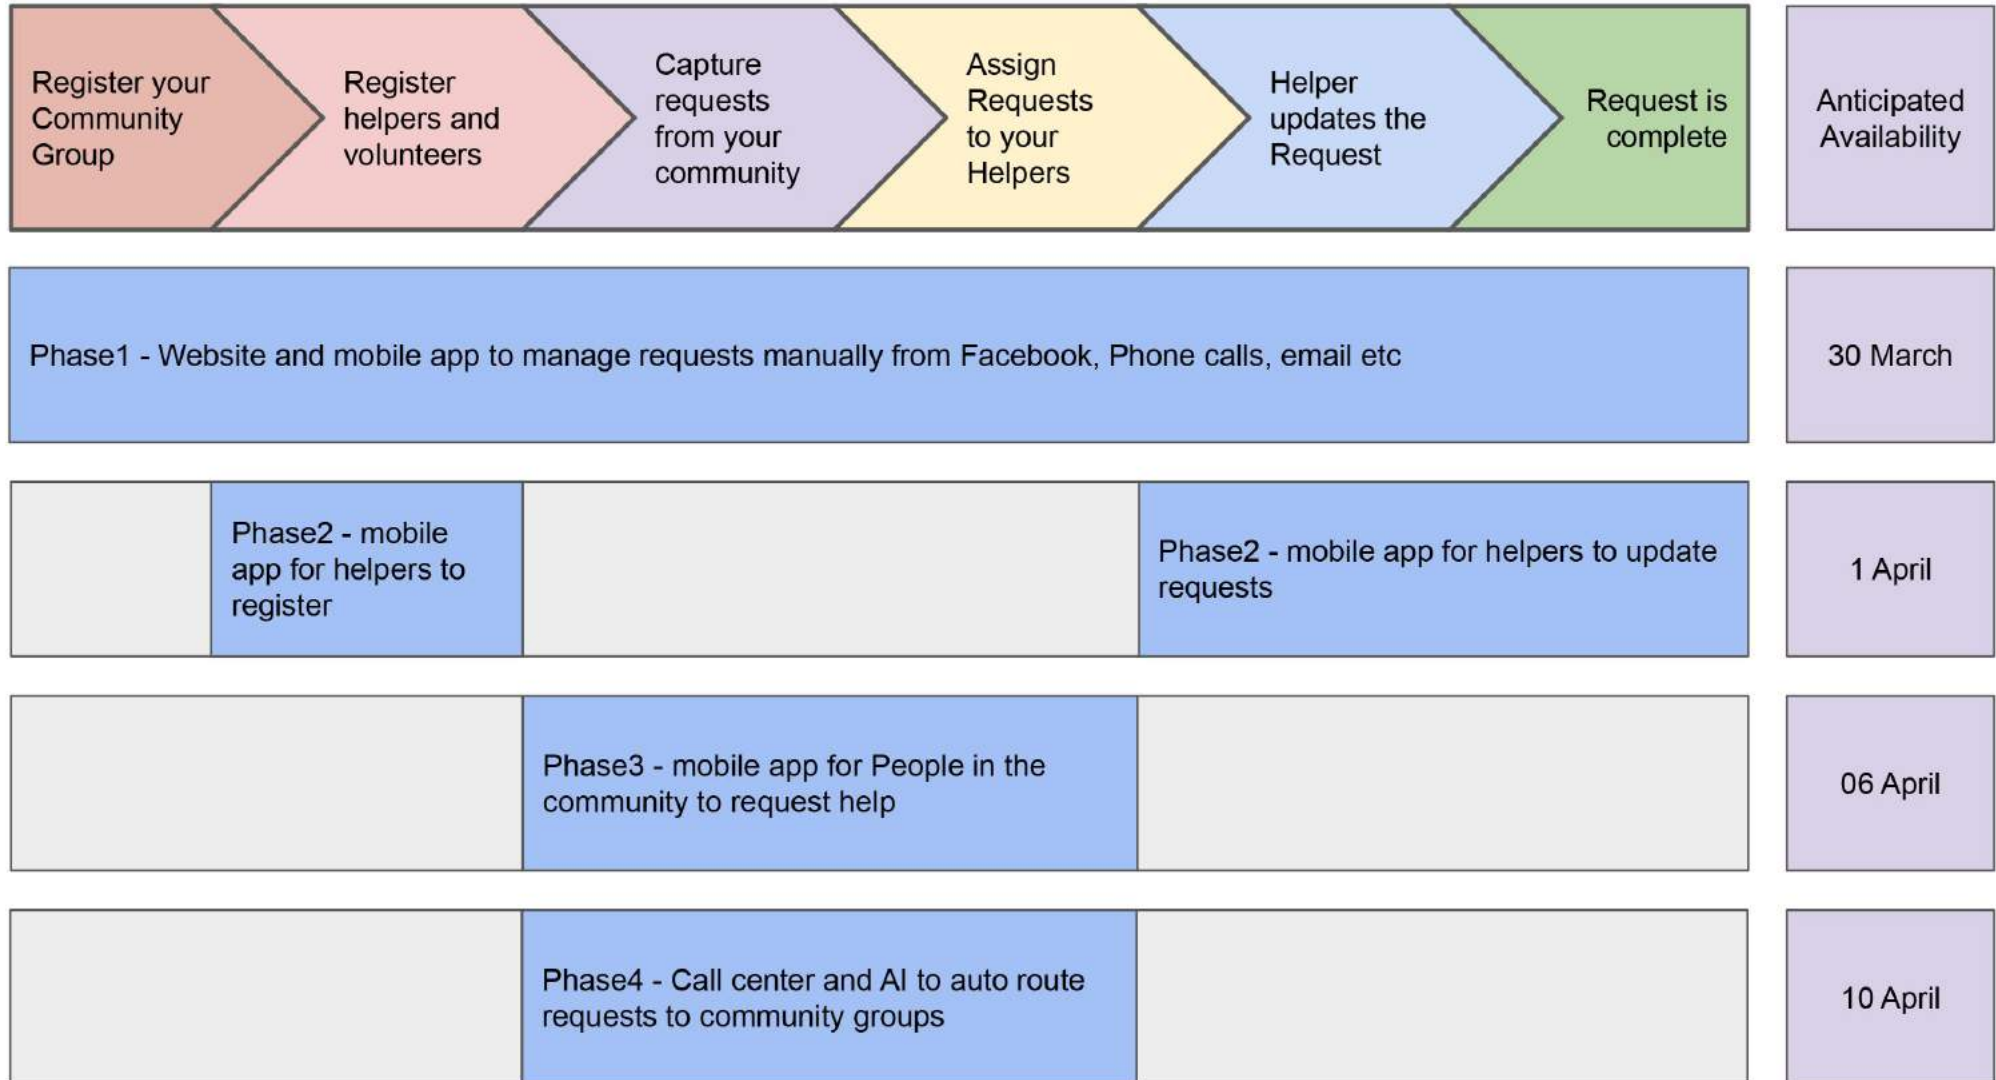

THE MOBILE APP

The mobile app interface shows a status bar at the top with the time 18:14, battery level 95%, and various icons. Below the status bar is a blue header with a menu icon and the word "Tasks". The main content area is divided into five sections, each with a title and a description, and a right arrow icon: "Created tasks" (Tasks requiring more information before assigning.), "Planned tasks" (View all tasks that have been allocated to you but not yet assigned.), "Underway tasks" (View all tasks that have been assigned but not yet complete.), "Delivered tasks" (View summary of all complete tasks), and "Cancelled tasks" (View all tasks that have been cancelled.). A blue circular button with a white plus sign is located at the bottom right of the app.

The Timeline

Why

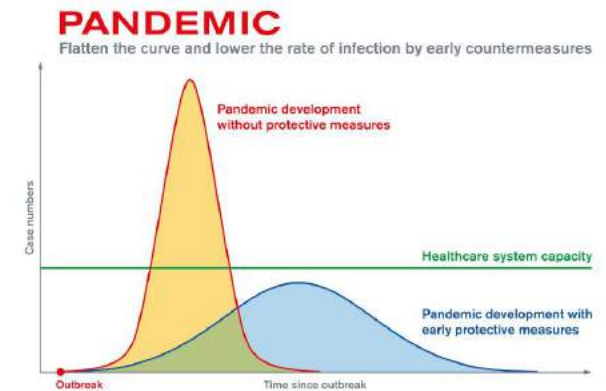

Our company mission is to help, connect and simplify, we believe we can make a difference through the use of software and technology

With our industry shutting down and shelter-in-place initiatives implemented, we began searching for ways to help, we quickly realized a **HELP** potential for our logistics software.

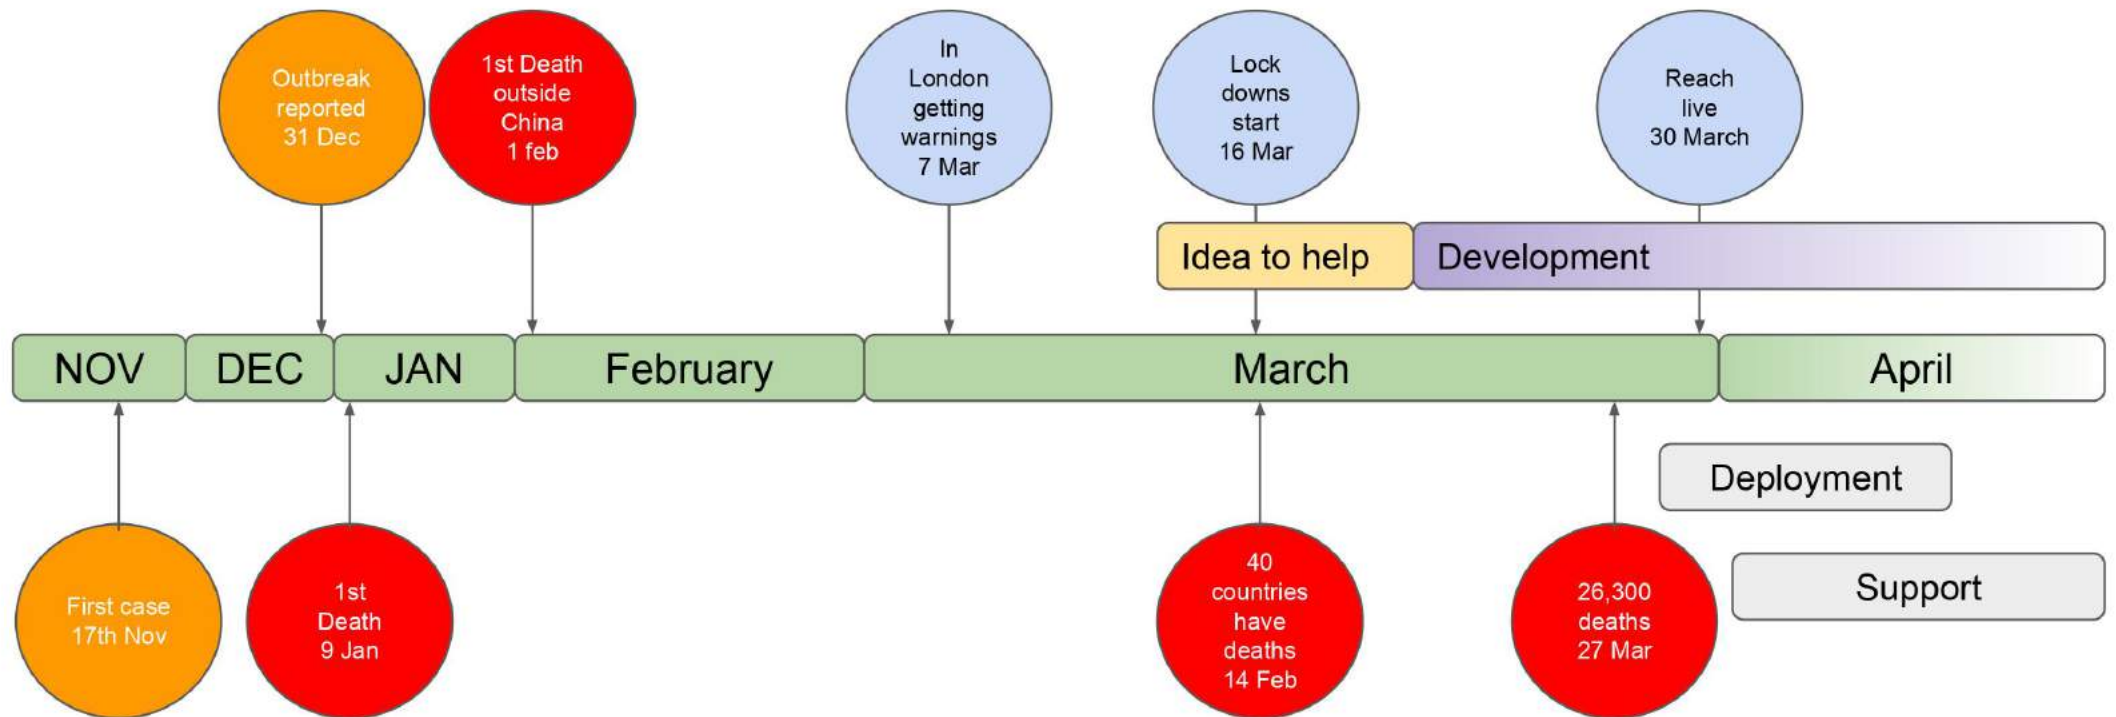

Our software can **CONNECT** people who need help with people who want to help

So we began to **SIMPLIFY** the logistics of managing a community response for its citizens

We have been amazed at the response from people and businesses offering to help us on this journey. University students in New Zealand, companies such as Rackspace and New Relic and many individuals in the many communities in New Zealand, United Kingdom and the United States.
