Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

RISK FACTORS

The SEC requires the Company to identify risks that are specific to its business and financial condition. The Company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and is just beginning to implement its business plan. There can be no assurance that it will ever operate profitably. The likelihood of its success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by companies in their early stages of development. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

As of June 1st, 2020, the Company had \$25,488.75 in aggregate cash and cash equivalents, leaving the Company with approximately 1 month of runway. The stockholders of the Company plan to fund its operations for the duration of this offering. However, in order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause a Purchaser to lose all or a portion of his or her investment.

We rely on other companies to provide components and services for our products.

We depend on suppliers and subcontractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or subcontractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our and our customers' expectations. Our suppliers may be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two subcontractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on certain key personnel in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

Like others in our industry, we continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could

significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of large volumes of customer and employee data, including credit and debit card numbers and other personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that customer and employee data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

Our business is subject to seasonal fluctuations.

Our business is subject to seasonal fluctuations in that our sales are typically higher during certain months, affecting performance during affected quarters of the fiscal year. As a result of these factors, our financial results for any single quarter or for periods of less than a year are not necessarily indicative of the results that may be achieved for a full fiscal year.

Risks Related to the Offering

The Company's management may have broad discretion in how the Company uses the net proceeds of an offering.

Unless the Company has agreed to a specific use of the proceeds from an offering, the Company's management will have considerable discretion over the use of proceeds from their offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investors commitment amount based on the Company's determination of an Investor's sophistication.

The Company may prevent Investors from committing more than a certain amount to this Offering based on the Company's belief of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation Crowdfunding rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering deadline. The Company has the right to end the Offering early.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you. The Company may also end the Offering early; if the Offering reaches its target Offering amount after 21-calendar days but before the deadline, the Company can end the Offering with 5 business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

Like others in our industry, we continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

Compliance with the criteria for securing exemptions under federal securities laws and the securities laws of the various states is extremely complex, especially in respect of those exemptions affording flexibility and the elimination of trading restrictions in respect of securities received in exempt transactions and subsequently disposed of without registration under the Securities Act or state securities laws.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds of the offering committed and captured during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

Risks Related to the Securities

The Units of SAFE will not be freely tradable until one year from the initial purchase date. Although the Units of SAFE may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Units of SAFE. Because the Units of SAFE have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Units of SAFE have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Units of SAFE may also adversely affect the price that you might be able to obtain for the Units of SAFE in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Investors will not become equity holders until the Company decides to convert the Securities into CF Shadow Securities or until there is a change of control or sale of substantially all of the Company's assets.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Series Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity Securities Investors are entitled to receive upon such conversion). In certain instances, such as a sale of the Company or substantially all of its assets, an IPO or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company.

Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities; upon the conversion of the Crowd SAFE to CF Shadow Securities (which cannot be guaranteed), holders of Shadow Securities will be required to enter into a proxy with the intermediary to ensure any statutory voting rights are voted in tandem with the majority holders of whichever series of securities the Shadow Securities follow.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (which the occurrence of cannot be guaranteed). Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to enter into a proxy agreement with the Intermediary ensuring they will vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to enter into a proxy that allows the Intermediary to vote the same way as a majority of the Series B Preferred Shareholders vote. Thus, Investors will never be able to freely vote upon any manager or other matters of the Company.

Investors will not be entitled to any inspection or information rights other than those required by Regulation CF.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information – there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in "default" and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which the Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions. The Company may pay dividends to its existing and future holders of capital stock without triggering the SAFE or incurring additional liabilities or obligations to Purchasers.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Investor is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

Equity securities acquired upon conversion of SAFE securities may be significantly diluted as a consequence of subsequent financings.

Company equity securities will be subject to dilution. Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from SAFE conversion will be subject to dilution in an unpredictable amount. Such dilution may reduce the purchaser's control and economic interests in the Company.

The amount of additional financing needed by Company will depend upon several contingencies not foreseen at the time of this offering. Each such round of financing (whether from the Company or other investors) is typically intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds are not sufficient, Company may have to raise additional capital at a price unfavorable to the existing investors, including the purchaser. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to predict accurately the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain such financing on favorable terms could dilute or otherwise severely impair the value of the purchaser's Company securities.

Equity securities issued upon conversion of company SAFE securities may be substantially different from other equity securities offered or issued at the time of conversion.

Company may issue to converting SAFE holders equity securities that are materially distinct from equity securities it will issue to new purchasers of equity securities. This paragraph does not purport to be a complete summary of all such distinctions. Equity securities issued to SAFE purchasers upon their conversion of Company SAFE securities will be distinct from the equity securities issued to new purchasers in at least the following respects: to the extent such equity securities bear any liquidation preferences, dividend rights, or anti-dilution protections, any equity securities issued at the Conversion Price (as provided in the SAFE Agreements) shall bear such preferences, rights, and protections only in proportion to the Conversion Price and not in proportion to the price per share paid by new investors in the equity securities. Company may not provide converting SAFE purchasers the same rights, preferences, protections, and other benefits or privileges provided to other purchasers of Company equity securities.

There is no present market for the Securities and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

In a dissolution or bankruptcy of the Company, Investors will not be treated as priority debt holders and therefore are unlikely to recover any assets in the event of a bankruptcy or dissolution event.

In a dissolution or bankruptcy of the Company, Investors of Securities which have not been converted will be entitled to distributions as described in the Crowd SAFE. This means that such Investors will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred stock holders, have been paid in full. If the Securities have been converted into CF Shadow Share Securities or SAFE Preferred Securities, the Investors will have the same rights and preferences (other than the ability to vote) as the holders of the Securities issued in the equity financing upon which the Securities were converted. Neither holders of Crowd SAFE nor holders of CF Shadow Share Securities nor SAFE Preferred Securities can be guaranteed a return in the event of a dissolution event or bankruptcy.

While the Crowd SAFE provides for mechanisms whereby a Crowd SAFE holder would be entitled to a return of their purchase amount, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

In certain events provided in the Crowd SAFE, holders of the Crowd SAFE may be entitled to a return of their principal amount. Despite the contractual provisions in the Crowd SAFE, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential purchasers should not assume that they are guaranteed a return of their investment amount.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Crowd SAFE agreement, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Crowd SAFE agreement, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on its investment or that it will not lose its entire investment. For this reason, each Investor should read this Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

Legal Matters

Any prospective Investor should consult with its own counsel and advisors in evaluating an investment in the Offering.

The summaries of, and references to, various documents in this Form C do not purport to be complete and in each instance reference should be made to the copy of such document which is either an appendix to this Form C or which will be made available to Investors and their professional advisors upon request.

Prior to making an investment decision regarding the Securities described herein, prospective Investors should carefully review and consider this entire Form C. The Company is prepared to furnish, upon request, a copy of the forms of any documents referenced in this Form C. The Company's representatives will be available to discuss with prospective Investors and their representatives and advisors, if any, any matter set forth in this Form C or any other matter relating to the Securities described in this Form C, so that prospective Investors and their representatives and advisors, if any, may have available to them all information, financial and otherwise, necessary to formulate a well-informed investment decision. Additional information and materials concerning the Company will be made available to prospective Investors and their representatives and advisors, if any, at a mutually convenient location upon reasonable request.

BUSINESS

Description of the Business

AERA sells luxury, handmade, vegan and sustainable footwear. It primarily conducts direct to consumer sales online through its website, but the company also works with retail partners at the wholesale level. The company designs timeless and seasonless women's and men's shoes, using Italian made, eco-friendly and all vegan materials, and then works with small, family owned, artisan footwear manufacturers in Veneto, Italy, the world's center of luxury shoe-making for centuries, to produce these shoes. The company then conducts an extensive Life Cycle Assessment (LCA) study on all its products, in cooperation with SCS Global Services, a leader in third-party environmental and sustainability certification, through which it measures and transparently presents the full environmental impacts of the manufacturing and transportation of its products. Finally, the company works with accredited third parties and invests in environmental Offsets that mitigate the aforementioned environmental impacts by 110%, including Global Warming Emissions and Fresh Water Use and Plastic Use, which allows the company to accurately claim that AERA shoes are Good for People and Good for the Planet. The products are Carbon Negative Certified and the company is also a pending B Corp.

Business Plan

The company does not expect to achieve positive EBITDA or net profit in the next 12 months. Based on our 3 year (2020-2022) plan, we expect the company to turn profitable in 2022. In the meantime, the company will focus on increasing direct-to-consumer online sales in the United States, and entering into more wholesale agreements with select retail partners around the world.

The Company's Products and/or Services

Product / Service	Description	Current Market
AERA luxury footwear	Handmade in Italy, luxury, vegan and 110% sustainable footwear.	We currently focus on both the direct-to-consumer and wholesale markets, primarily in the United States, with a more limited current focus on international sales.

Competition

Although no other luxury footwear brand that we know of can claim that they measure and present their full environmental impact, and then invest to offset it by 110%, thus being certified Carbon Negative, a number of brands offer footwear with a sustainable or ethical message. These include Taylor & Thomas, Veerah, Sydney Brown, Beyond Skin, Bhava, Mink and other companies that offer footwear in general or companies that provide products that they market as sustainable. We also consider Stella McCartney and similar companies to be competitors, although this particular and other similar brands are not focused on shoes.

In addition, the markets in which our products are sold are highly competitive. Our products compete against similar products of many large and small companies, including well-known global competitors, such as Chanel, Christian Louboutin, Jimmy Choo, Dolce & Gabbanna and Gucci. In many of the markets and industry segments in which we sell our products, we compete against other branded products as well as retailers' private-label brands. Product quality, performance, value and packaging are also important differentiating factors, and we may not be able to compete successfully in either the socially conscious and sustainable product markets, or the broader consumer product market in general.

Customer Base

Our initial focus is targeted primarily at women in the United States, but we also carry men's shoes and have begun to expand our international wholesale sales. We have initially targeted consumers who are 25 to 55 year who are eco-conscious, vegan, or sustainability or ethically focused.

Intellectual Property

The Company currently does not have any issued or pending patents or patent applications. The Company has submitted trademark applications for AERA in the United States, Canada, the European Union, the United Kingdom and China, but currently does not hold any issued trademarks.

Governmental/Regulatory Approval and Compliance

The Company is subject to and affected by laws and regulations of U.S. federal, state and local governmental authorities. The Company may also be subject to the laws and regulations of other jurisdictions, including the laws of Italy and the European Union with respect to its manufacturing processes. These laws and regulations are subject to change.

Litigation

None

Total	100.00%	\$25,000	100.00%	\$1,070,000

The Use of Proceeds table is not inclusive of payments to financial and legal service providers and escrow related fees, all of which were incurred in preparation of the campaign and are due in advance of the closing of the campaign.

The Humble Shoe Company, Inc. (d.b.a. AERA)] (the “**Company**”) was incorporated on November 16, 2018 under the laws of the State of Delaware, and is headquartered in New York, New York. AERA sells luxury, handmade in Italy, vegan and sustainable footwear. It primarily conducts direct to consumer sales, primarily online through its website, but the Company also sells to retail partners at the wholesale level. The company designs timeless and seasonless women's and men's shoes, using Italian made, eco-friendly (as much as possible) and all vegan materials, and then works with small, family owned, artisan footwear manufacturers in Veneto, Italy, (the world's center of luxury shoe-making for centuries,) to produce these shoes. The company then conducts an extensive Life Cycle Assessment (LCA) study on all its products, in cooperation with SCS Global Services, a leader in third-party environmental and sustainability certification, through which it measures and transparently presents the full environmental impacts of the manufacturing and transportation of its products. Finally, the company works with accredited third parties and invests in environmental offsets that mitigate the aforementioned environmental impacts by 110%, including Global Warming Emissions and Fresh Water Use and Plastic Use, which allows the company to accurately claim that AERA shoes are “Good for People and Good for the Planet.” The products are Carbon Negative Certified and the company is also a pending B Corp.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 1,070,000 of worth of Crowd Safe Units of SAFE (Simple Agreement for Future Equity) of the Company (the “**Securities**”), under Regulation CF (this “**Offering**”) for a total of \$1,070,000 (the “**Maximum Offering Amount**”). The Company is attempting to raise a minimum amount of \$25,000.00 in this Offering (the “**Target Offering Amount**”) with oversubscriptions to be allocated at the Company’s discretion. The Company must receive commitments from investors in an amount totaling the Target Offering Amount by December 1, 2020 (the “**Offering Deadline**”) in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Target Offering Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion.

The price of the Securities does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

The Offering is being made through OpenDeal Portal LLC dba Republic, the Intermediary. In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by the Intermediary, including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security, indefinitely and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.** Investor funds will be held in escrow with Prime Trust, LLC until the Target Offering Amount of investments is reached. Investors may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. **Any investor using a credit card to invest must represent and warrant to not claim fraud or claw back their committed funds to cancel their investment commitment, any cancelled investment commitments must be requested through the Intermediary 48 hours prior to the Offering Deadline or Closing.** The Company will notify Investors when the Target Offering Amount has been reached. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Target Offering Amount and providing notice to the Investors. If any material change (other than reaching the Target Offering Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Investor’s investment commitment will be cancelled, and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon closing of the Offering and the Investor will receive the Securities in exchange for his or her investment. Any Investor funds received after the initial closing will be released to the Company upon a subsequent closing and the Investor will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

In the event two-times the Minimum Amount is reached prior to the December 1, 2020 (or such earlier time the Company designates pursuant to Reg. CF Rule 304(b) (“**Offering Deadline**”)), the Company may conduct the first of multiple closings of the Offering early, provided all investors will receive notice of the new offering deadline at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Investors who committed on or before such notice will have until 48 hours before the new offering deadline to cancel their investment commitment. In the event the Company does conduct one of multiple closes, the Company agrees to only withdraw half of the proceeds that are in escrow and will only conduct a close if there will be more than twenty-one (21) days remaining before the Offering Deadline.

The Company may only conduct another close before the Offering Deadline if: (i) the amount of investment commitments made exceeds two times the amount committed at the time of the last close and at the time of the next close; and (ii) more than twenty-one (21) days remain before the Offering Deadline.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of any subsequent closes.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Investor's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that an Investor may invest in the Offering is \$100.00.

PRIME TRUST, THE ESCROW AGENT SERVICING THE OFFERING, HAS NOT INVESTIGATED THE DESIRABILITY OR ADVISABILITY OF AN INVESTMENT IN THIS OFFERING OR THE SECURITIES OFFERED HEREIN. THE ESCROW AGENT MAKES NO REPRESENTATIONS, WARRANTIES, ENDORSEMENTS, OR JUDGEMENT ON THE MERITS OF THE OFFERING OR THE SECURITIES OFFERED HEREIN. Conversion

Upon each future equity financing of greater than \$1,000,000.00 (an "**Equity Financing**"), the Securities are convertible at the option of the Company, into CF Shadow Series Securities, which are securities identical to those issued in such future Equity Financing except 1) they do not have the right to vote on any matters except as required by law, 2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and 3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the "**Purchase Amount**") by:

(a) the quotient of \$5,000,000.00 divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable Securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) the issuance of all shares of capital stock reserved and available for future issuance under any of the Company's existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, "Safes"), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes.

OR

(b) the lowest price per share of the securities sold in such Equity Financing.

The price (either (a) or (b)) (determined immediately above) shall be deemed the "First Financing Price" and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

If the Securities are not converted, the more preferable conversion found above will be deemed the first equity financing price "**First Equity Financing Price**".

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of an initial public offering of the Company ("**IPO**") or Change of Control (see below) (either of these events, a "**Liquidity Event**") of the Company prior to any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of shares of Common Stock of the Company equal to the Purchase Amount divided by the quotient of (a) \$5,000,000.00 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company's capital stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of common stock reserved and available for future grant under any equity incentive or similar plan; (ii) any Safes; and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and holders of other Safes (collectively, the "Cash-Out Investors") in full, then all of the Company's available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

"Change of Control" as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than 50% of the outstanding voting securities entitled to elect the Company's board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of shares of the most recently issued preferred stock equal to the Purchase Amount divided by the First Equity Financing Price. Shares of

preferred stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of preferred stock issued in connection with the Company's most recent Equity Financing.

Pro-Rata Rights of Major Investors

Certain Investors of the Securities, "Major Investors", will receive pro-rata rights through the Offering, allowing them to avoid dilution in future rounds. Investors that make investments of \$107,000 or greater in the Offering will gain the right to continue investing in the Company and avoid dilution while others will not. Major Investors will have the right to participate in new securities offerings unless the securities (i) are issued as a dividend or distribution on outstanding securities, (ii) are issued upon conversion or exercise of outstanding securities, (iii) are issued to employees, directors or consultants pursuant to a plan, agreement or arrangement approved by the Company's Board of Directors, (iv) are issued pursuant to the acquisition of another corporation or its assets by the Company, or (v) up to one million dollars (\$1,000,000), of such, are issued by the Company annually to fund obligations to make cash dividends or interest payments on outstanding securities.

Dissolution

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company's board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) and all holders of Common Stock.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur: (i) the issuance of shares in the CF Shadow Series to the Investor pursuant to the conversion provisions or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

The Securities have no voting rights at present or when converted.

The Company does not have any voting agreements in place.

The Company does not have any shareholder/equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that the Investor may eventually have in the Company. For the anti-dilution rights of Major Investors, please see the section titled "***Pro-Rata Rights of Major Investors***", above, and the Crowd SAFE agreement.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act, 3) as part of an IPO or 4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any Securities into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

Notes to the Financial Statements
December 31, 2018

(1) ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization:

The Humble Shoe Company, Inc. (“the Company”), was incorporated under the laws of the State of Delaware on November 16, 2018. The Company is engaged in the business of producing and distributing luxury footwear products with materials from sustainable sources, primarily in the United States.

Basis of Accounting

The Company uses the accrual basis of accounting for both financial reporting and income tax reporting purposes.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable

The Company's trade accounts receivable are recorded at amounts billed to customers, and presented on the balance sheet net of the allowance for doubtful accounts, if required. The allowance is determined by a variety of factors, including the age of the receivables, current economic conditions, historical losses and other information management obtains regarding the financial condition of customers. The policy for determining the past due status of receivables is based on how recently payments have been received. Receivables are charged off when they are deemed uncollectible, which may arise when customers file for bankruptcy or are otherwise deemed unable to repay the amounts owed to the Company. As of December, 31, 2018 the accounts receivable balance was \$-0-.

Merchandise Inventory

Inventory is valued at the lower of cost or market on first-in first-out basis. In calculating the inventory allowance, the Company measures the difference between the cost and market value of the inventory based upon a formula that considers the quantities of certain raw materials on hand and the historical usage of these items.

Marketing, Promotions, and Advertising

The Company expenses the cost of marketing, promotions, and advertising as incurred. The expense for the period ended December 31, 2018 was \$26,000 for such expenses.

THE HUMBLE SHOE COMPANY INC.
Notes to the Financial Statements
December 31, 2018

**(1) ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Income Taxes

Generally accepted accounting principles in the United States of America require the Company to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including the resolution of any related appeals or litigation processes, based on the technical merits of the position. The Company determined that there are no uncertain tax positions that require financial statement recognition. The Company's tax returns remain open for examination by tax authorities for a period of three years from when they are filed.

(2) COMMITMENTS AND CONTINGENCIES

Concentration of Credit Risk for Cash Held in Bank

The Company maintains its cash in bank deposit accounts which at times may exceed \$250,000 – the maximum amount insured by the Federal Deposit Insurance Corporation. The Company has not experienced any losses in these accounts. The financial institutions have strong credit ratings and the Company believes that credit risk related to these accounts is minimal.

Showroom

As part of a consulting agreement commencing November 2018 for a term of 24 months, the Company committed to a \$2,000 per month payment for use of the consultant's showroom.

(3) SUBSEQUENT EVENTS

Subsequent events have been evaluated through April 16, 2020, which is the date the financial statements were available to be issued.

Effective July 1, 2019, the Company leases office space from one of its shareholders under one year lease term. Rent expense is currently \$5,000 per month.

On September 9, 2019, the Company executed a bridge loan facility agreement with its preferred shareholder. This loan, in the amount of \$300,000 is interest free due to its short term nature, and is payable on the earlier of receipt of second round financing by the Company, or September 9, 2020.

(1) ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization:

The Humble Shoe Company, Inc. (“the Company”), was incorporated under the laws of the State of Delaware on November 16, 2018. The Company is engaged in the business of producing and distributing luxury footwear products with materials from sustainable sources, primarily in the United States.

Basis of Accounting

The Company uses the accrual basis of accounting for both financial reporting and income tax reporting purposes.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable

The Company's trade accounts receivable are recorded at amounts billed to customers, and presented on the balance sheet net of the allowance for doubtful accounts, if required. The allowance is determined by a variety of factors, including the age of the receivables, current economic conditions, historical losses and other information management obtains regarding the financial condition of customers. The policy for determining the past due status of receivables is based on how recently payments have been received. Receivables are charged off when they are deemed uncollectible, which may arise when customers file for bankruptcy or are otherwise deemed unable to repay the amounts owed to the Company. As of December, 31, 2019 the accounts receivable balance was \$-0-.

Merchandise Inventory

Inventory is valued at the lower of cost or market on first-in first-out basis. In calculating the inventory allowance, the Company measures the difference between the cost and market value of the inventory based upon a formula that considers the quantities of certain raw materials on hand and the historical usage of these items.

Marketing, Promotions, and Advertising

The Company expenses the cost of marketing, promotions, and advertising as incurred. The expense for the period ended December 31, 2019 was \$181,669 for such expenses.

Start-up costs

Generally accepted accounting principles in the United States of America require the Company to expense start-up costs as incurred.

Problem

Fashion is costing the Earth. Literally.

Fashion is a massively polluting industry that is accelerating the pace of climate change, often mistreats workers and abuses animals.

The fashion industry is the second-largest consumer of water worldwide, produces 20% of global wastewater and is responsible for 10% of global carbon emissions - more than all international flights and maritime shipping combined. If nothing changes, by 2050 the fashion industry will use up a quarter of the world's carbon emissions budget.

The effects of climate change are happening *right now*: ice caps *are* shrinking, global water shortages *are* happening, sea levels *are* rising and the weather *has* become less predictable than ever before. Something needs to be done – and sooner rather than later. Otherwise, the world as we know it could quickly become a very different place, and not for the better.

Then there is the human cost of fashion: many workers are often paid inadequate wages and forced to work long hours in appalling conditions. A lot of fashion brands are produced in third world countries, where workers' rights are often overlooked.

Finally, the use of animal derived materials by the fashion industry, such as leather (exotic or not) and fur, raises additional concerns. Not only does it significantly contribute to fresh water pollution and global warming, but it also raises significant ethical questions regarding the abuse of animals.

Yet, people will always love fashion, and especially luxury fashion. There must be a better way...

Solution

AERA: Certified Vegan and 1 10% sustainable luxury footwear

AERA is leading the luxury footwear industry forward by placing equal value on product, people and the planet. With timeless designs that are ethically crafted from certified vegan materials, we strive to make sustainability the new normal.

AER A's philosophy has been built on three principles, and everything we do adheres to them. Our principles are even described in our Certificate of Incorporation as a Delaware Public Benefit Corporation.

1. **"Good for You"** : Our shoes are beautifully designed, of the highest quality and comfort, accessible (*within the luxury market segment*) and timeless fashionable. And knowing that by buying a pair of AER A shoes you are "looking good" but also "doing good" makes customers "feel good" too.
2. **"Good for People"** : We only work with highly ethical, like-minded suppliers, who pay their employees, at the least, a living wage. We will share our success with all our employees and invest in their well-being.
3. **"Good for the Planet"** : We use high quality, vegan, eco-friendly materials and processes, as much as possible, without jeopardizing our first principle. We then scientifically measure all the environmental impacts of our shoes, transparently present them via our website, and then work with certified third parties to **offset these impacts by 110%**, thus not only reversing all our negative impacts, but actually leaving the planet better off.

AER A offers luxury without guilt. 100% luxury footwear that are cruelty free, ethically crafted by Italian artisans and 110% sustainable.

Product

Luxury footwear without a footprint

Handmade with care by local artisans in Veneto, Italy. Certified vegan. Measuring and offsetting our environmental impacts by 110%. That's what "100% Luxury 110% Sustainable" footwear means.

Our luxury shoes are designed by our co-founder Jean-Michel Cazabat, a world renowned shoe designer, to be timeless and seasonless, so that they can be enjoyed for many years. We believe that this should be the first step of any truly sustainable fashion brand.

We source all of our vegan materials from Italian suppliers, so as to guarantee their quality, ensure that they have been ethically produced, and to minimize their transportation impacts to the environment. Each pair of our shoes is handmade over two days, by true artisans in family operated factories in the Veneto region of Italy, the birthplace of luxury shoe making. Our supply chain has been tested over our test-launch phase in 2019, and is scalable to cover our planned needs.

Our product line consists of **15 timeless and seasonless Women's** and 5 Men's styles - *although we have now decided to focus on women's shoes for the next phase of our development*. Prices range from \$325 for ballerinas to \$695 for knee-high boots. We created a line of **timeless and seasonless essentials** to avoid taking part in the seasonal markdown calendar. We intend to thoughtfully introduce more styles in the future, always under a "less is more" philosophy.

We use natural, recycled and synthetic materials. Currently, on average, our shoes' materials consist of 50% natural (such as cotton and wood) and 50% synthetic materials, some of which are recycled. **We aim to continuously improve the eco-friendliness of our materials, as better alternatives become available.**

We have a strong relationship with our main materials' supplier, who has over 60 years of experience pioneering vegan leather alternatives. Together, we are innovating on materials that are not only vegan, but look identical to their non-vegan counterparts.

Our shoe boxes are of equivalent quality to any luxury shoe box, however, ours are made in Italy, of material that contains 40% post-consumer recycled waste and 15% residues of organic waste. The paper used is FSC certified and GMO free, and is produced with EKOenergy, resulting in a 20% reduction in carbon emissions. Inside the box, you will find 100% post-consumer-waste recycled tissue paper and our 100% Global Organic Textile Standard certified cotton dust bag.

During our soft launch (June to December 2019), when we tested our operations and sales setup, we achieved \$83k in sales (166 pairs, average per pair net price \$284). In 2020, and while we have not yet invested in a full launch (given the circumstances since February), we have already achieved about \$47.5K in sales (Jan-Apr).

Customers

Fashion-forward consumers who care about looking good and doing good

According to the 2019 edition of *Pulse of the Fashion Industry*, published by the Global Fashion Agenda, Boston Consulting Group and Sustainable Apparel Coalition, **75% of (fashion) consumers surveyed view sustainability as extremely or very important. More than a third** of consumers report they have already switched from their preferred brand to another because it credibly stands for positive environmental and/or social practices. **More than 50%** of consumers plan to switch brands in the future if another brand acts more environmentally and socially friendly than their preferred one. However, consumer considerations of sustainable practices are not yet powerful enough to be the most important driver of purchasing behavior. For 7% of consumers, "sustainability" is the key purchasing criterion, while 23% prioritize "high quality", 17% "looking successful" and 16% "receiving good value for money".

AERRA has been built to satisfy **all of the above**: we offer luxury, high quality, handmade in Italy, vegan and 110% sustainable footwear, that are gaining traction with celebrities and the press, and are priced much more competitively vs. comparable luxury footwear brands.

WHAT OUR CUSTOMERS SAY ABOUT US

"These shoes and this company are wonderful."

First, the shoes. I love the different styles and the color choices. I am always in search of the "perfect nude" and I found it at AERA. I am loving my Audleys and Olyans!

Next, this company. 100% sustainable has never been so fashionable both literally and environmentally speaking. I appreciate the efforts AERA has made to be mindful of their impact from start to finish.

"Well done AERA!"

WHAT OUR CUSTOMERS SAY ABOUT US

"Dear From AERA,

A huge thank you for creating shoes that are not only chic and beautiful but incredibly comfortable too! I have so many pairs of AERA shoes, ranging from your booties to your boots, and I can honestly say they are the favorite go-to's in my closet. Especially in today's world, I feel better knowing that I am supporting a brand that has the planet and our future at the forefront of its mission.

"Thank you!"

Business Model

Primarily Online & D2C

AERA's first stage business model is built as 80% online (and pop-up store) D2C in the US only, and 20% wholesale (US and International) in order to make the brand more widely available.

Shoppers can purchase our shoes directly online from our website - www.aerawork.com - and this helps our pricing be competitive vs. other luxury footwear brands. Currently, we ship to all US States only. Prices range from \$325 to \$695, which is much less expensive than comparable handmade-in-Italy, luxury footwear brands, that have no or limited sustainability claims. We offer free shipping and returns on all orders, and we offset all associated environmental impacts. Our pricing includes all the costs of measuring and offsetting each pair's environmental impacts by 110%.

PUMPS	HEELLED SANDALS	KNEE HIGH BOOTS	DEERSES	LOAFERS	ANYLE BOOTS
 AERA \$375	 AERA \$375	 AERA \$695	 AERA \$345	 AERA \$325	 AERA \$495
 Narciso Black \$665	 Gianfranco Rossi \$895	 Jimmy Choo \$1,350	 Christian Louboutin \$850	 Gucci \$695	 Saint Laurent \$895

We believe that a truly sustainable business model cannot be a part of the vicious cycle which is the seasonal markdown calendar of the fashion industry. Thus, our styles are timeless and seasonless, and we intend to have the same styles available for a long time, and will only carefully introduce new styles once we reach a wider audience. We plan, on average, to sell each pair D2C at a 12.5% discount - *our 2019 test phase sales were at an average of just 6% discount.*

We plan to launch a pop-up location in NYC, when the conditions are right, using a modular, sustainable setup that can then be transported and used in popups in other major US cities. In this way, we can offer our customers an omnichannel experience.

We plan for 20% of our sales to come from wholesale, either to brick & mortar or online retailers. To date we've had discussions with retailers such as Nordstrom, Farfetch and Net a Porter. In addition, we are considering international wholesale partnerships as well. In February 2020, we delivered 243 pairs to Bloomingdale's Dubai and Ounassae in the Middle East. Our CEO's strong international expansion experience and network guarantees our international potential.

Based on the above 80-20 planned sales split, our average gross margin is planned at **67%**

Our 3 year plan (2020-2022) takes the company profitable, with an 18% Net Margin, in 2022. Overall, under our planned financial model, **the company can break even once we hit the 10k pairs per year mark.** For comparison purposes, in 2018, **2.4 billion pairs of shoes were sold in the US alone.**

Market

Sustainable and vegan brands are evolving into a mega trend

Sustainability is becoming a big trend in the fashion industry, as environmental concerns are increasingly top-of-mind for consumers.

In a recent study, Nielsen predicts that by 2021 the US sustainability market will reach **\$150B**. "Nearly half (48%) of U.S. consumers say they would definitely or probably change their consumption habits to reduce their impact on the environment. Since 2014, these influential shoppers have grown sustainable product sales by nearly 20%, with a compound average growth rate (CAGR) that's four times larger than conventional products (3.5% vs -1.0% comparatively)"

A 2019 survey led by Hotwire found that 47% of internet users worldwide had ditched products and services from a brand that violated their personal values. Protecting the environment topped that list. US shoppers also said they wanted to do business with retailers that were environmentally conscious. Fully, 47% of consumers surveyed said so.

In 2019, 32 fashion companies, including Chanel, Ralph Lauren, and Prada, as well as fast fashion players like H&M Group and Zara, signed the Fashion Pact, a non legally binding agreement to combat greenhouse gasses and emphasize sustainability in the industry . This shows that sustainability, which was just a niche concern a few years ago, is now a top industry priority.

Based on a 2018 Bain & Co. global market study, the Personal Luxury Goods market (*luxury footwear is part of this segment*) is valued at **\$290B globally**, and is growing at 6% annually. Overall, shoes and jewelry were the top luxury growth categories, gaining 7% each, followed by hand-bags and beauty. Luxury sales in the Americas reached **\$90 billion**, representing a growth rate of 5%. Online luxury shopping continued to accelerate in 2018, growing 22% to nearly **\$30 billion**; it now represents 10% of all luxury sales. The American market made up 44% of these online sales.

Finally, the vegan shoes market is large and growing as well. According to a Feb 2020 report conducted by Grand View Research Inc., "*the global synthetic leather market size was valued at \$29.2 billion in 2019 and is projected to expand at a revenue-based CAGR of 7.8% during the forecast period (2020-2027). Increasing demand from the footwear sector is expected to be a key factor propelling the growth*".

AERA is positioned within all 3 of these globally growing trends, as a luxury, vegan and sustainable footwear brand.

(for Sources please see FAQ section)

Competition

Luxury, vegan and sustainable is a less crowded space

AERA fills a large void in the footwear market as the only brand positioned as both LUXURY and SUSTAINABLE, that is also accessibly priced and vegan.

When designing the brand proposition, we found only a handful of established brands in the luxury, vegan and sustainable footwear space. Our "10% Sustainable" philosophy and execution (LCA and Offset) sets us apart and ahead of other brands as far as sustainability is concerned, while our disruptive pricing - nearly 50% less vs. established luxury brands - sets us apart as well.

We believe that we have positioned ourselves in a new space within the industry, with little direct competition, and with a combination of product, price and brand philosophy which, combined, are superior to what the competition is offering.

Vision

Leading the fashion industry forward by placing equal value on Product, People and the Planet

Luxury, vegan and sustainable footwear is only the beginning.

To date, we have worked to bring the brand to full-launch-ready mode. We have product in our warehouse in New Jersey, the right people on the team, a great marketing message and materials ("Luxury footwear *without a footprint*") and a great plan. We have made waves with both the press and celebrities. We have completed and published all the Life Cycle Assessment work and have invested in certified Offsets for all the shoes produced to date. We have already gained listings with international retail partners, like Bloomingdale's in Dubai. Based on our Public Benefit Corporation status, we have earned the "Pending B-Corporation" certification from B Lab and will work on attaining full certification as a B-Corp over the coming months.

Over the next months, we will focus investment on:

- Creating content for our social and digital media
- Executing a well focused digital media advertising plan
- Developing our first pop-up shop in New York City
- Further developing our press and celebrity endorsements
- R&D of new styles based on even more eco-friendly materials

We will also continue the discussions with potential, select retail partners, in and outside the US, in order to further expand the brand's presence in both online and brick & mortar retailers, aiming to maintain a 80% D2C - 20% wholesale sales balance.

Once our brand has been established enough and has gained a significant following, we intend to expand the proposition "*luxury, vegan and 110% sustainable*", gradually and selectively, into additional, relevant product categories, such as handbags and accessories.

Ultimately, we want to build, from the ground up, the world's first **'100% Luxury | 110% Sustainable'** fashion brand, and prove that luxury and sustainability can harmoniously and profitably, coexist.

Founders

Founded and managed by 3 highly experienced professionals, with proven track records in the fashion, design and business spaces

Tina Bhojwani - Co-Founder & CEO

Fashion executive **Tina Bhojwani** has held key leadership roles at global fashion brands including **Donna Karan** (*Director International Sales & Marketing*), **Theory** (*Senior Vice President*) and **Dolce & Gabbana** (*President, North America*). Throughout her 20+ year career, she has seen the impact of fashion on people and the planet, and recognizes the need for change not only as a business imperative, but more importantly as a deeply human one. She built AERPA as a platform to address these environmental and social challenges, with the hope of making its practices the new normal in fashion. With AERPA, she aspires to show consumers that style, design and quality can be analogous with sustainability.

Jean-Michel Cazabat - Co-Founder & Creative Director

Designer **Jean-Michel Cazabat** has spent his career immersed in luxury footwear. He was the president of **Stephane Kélian** and the creative director of **Charles Jourdan** prior to launching his eponymous brand in 2000. The birth of his daughter Aria five years ago brought about a greater consciousness of the world and the future of our planet, and he began to think about a new project centered around sustainability. Jean-Michel's tremendous experience, as well as relationships with suppliers and factories in Italy, brought AERA to life.

Alvertos Revach - Co-Founder, Investor & Sustainability Advisor

Entrepreneur **Alvertos Revach** ran his multi-million dollar premium beverages import, marketing and distribution company in Greece for 20 years, prior to starting his investment company, Humble Holdings, in Luxembourg in 2016, as **an investment vehicle for truly sustainable businesses**. He believes that businesses should take the lead in undoing the harm caused to the planet and its people, by making sustainability the right and easy thing to do. Through AERA, Humble's three principles, 'Good for You, Good for People, Good for the Planet,' are put into practice.

Founding story

AERA's founding began with three friends, each with a deep expertise in their respective fields, who share a common passion: sustainable manufacturing and the well-being of people and our planet.

Tina Bhojwani and Alvertos Revach met as students at Georgetown University in the early 90s, and remained in touch, meeting over the years in either Athens or New York City. Over dinner one night in 2017, Tina described how, after 20 years of working for large corporations, she was ready to do something different that contributed to the greater good. Alvertos had recently left his family business to set up an investment fund focused on sustainable businesses. They discussed the urgent need for sustainable practices in the fashion industry and how they could work together in this pursuit.

Soon after, as Tina was in the process of researching a platform to create luxurious yet sustainable products within the fashion industry, she bumped into shoe designer Jean-Michel Cazabat. Having worked together in the past, they easily fell into conversation. Jean-Michel described his own career turning point, as he had just sold his shoe company and was looking to the future - and a way to make a difference.

Tina and Jean-Michel met days later and started discussing the possibility of making vegan and sustainable shoes that, Tina insisted, "*cannot look like they are vegan*." Jean-Michel was up for the challenge, and already had some ideas regarding materials, along with strong relationships with factories in Italy's Veneto. Once the business model was solidified, they shared it with Alvertos, who was immediately intrigued. He was convinced after he tried a pair of vegan shoes that Jean-Michel had made for him in the summer of 2018 - and so AERA was born.

FAQ

What does it mean to be vegan?	A product is "vegan" when it is made using and containing no animal products at all whatsoever. Donald Watson coined the term "vegan" in 1944 when he co-founded the Vegan Society in England. At first, he used it to mean "non-dairy vegetarian," but from 1951 the Society has defined it as "the doctrine that man should live without exploiting animals." In addition to our respect for animals, our shoes are certified vegan because we believe that the environmental impact of leather, in total, outweighs the environmental impacts that are generated from the making of our shoes with man-made materials.

What is a Life Cycle Assessment (LCA) study?	According to M.A. Curran, in the Encyclopedia of Ecology, 2008, a "Life-cycle assessment, or LCA, is an environmental accounting and management approach that considers all the aspects of resource use and environmental releases associated with an industrial system from cradle to grave. Specifically, it is a holistic view of environmental interactions that covers a range of activities, from the extraction of raw materials from the Earth and the production and distribution of energy, through the use, and reuse, and final disposal of a product."
--	---

Is your Lifecycle Assessment (LCA) cradle-to-grave?

No, our LCA is cradle to consumer. The data we examined to determine our environmental impacts through the LCA includes raw materials processing (sourcing/extraction), materials production (including all packaging), transportation of the materials to the factories where we make the shoes, the making of the shoes, transportation of the shoes from the factories in Italy to our warehouse in New Jersey, and delivery of the shoes by ground courier service to our customers in the United States, including an additional margin for potential returns. The care associated with owning and using footwear is not harmful to the environment, as opposed to, for example, clothes that need washing, and thus a cradle to consumer LCA was determined to be sufficient.

Can you explain what the various impacts, like Global Warming Potential (GWP), Ozone Layer Depletion (ODP), etc., mean?

You can find this information on pages 8 and 9 of our Lifecycle Assessment.

What are offsets? How do they work?

To offset means "to counteract (something) by having an equal and opposite force or effect." Nearly all products and services impact the planet in some way. Impacts can be both mild and far-reaching. For example, a mild impact could be organic farming and a far-reaching impact could be flying on a commercial jet. If you can measure and quantify these impacts, as we have done through the LCA, then you can also try to offset them.

Offsets are intended to "counter-balance" the environmental impacts of a particular project or activity. So, for example, if you take a direct flight from JFK in New York to LAX in Los Angeles in Economy class, you can calculate the emissions from taking that flight. In this case, you would've contributed to the emission of 1.1 metric tons of CO2eq (carbon dioxide equivalent), a gas that contributes to Global Warming. A "carbon offset," in this case, is a way to compensate for your emissions by funding an equivalent carbon dioxide saving elsewhere. Carbon emissions do not create local environmental issues only, but contribute to Global Warming, so a reduction of emissions in any part of the world can offset emissions anywhere. An example of an offset for your JFK-LAX flight would be to contribute towards the reforestation of an area anywhere in the world, like we are doing. Trees absorb CO2 and thus help reduce the CO2 content of the atmosphere. It is possible to calculate how many trees you need to plant, or how many wind turbines or solar panels that generate green energy instead of burning fossil fuels that need to be funded, in order to offset a particular amount of CO2.

Are all offsets certified?

No. Scientifically speaking, only Global Warming / Carbon Offsets are certifiable. Our offsets for carbon emissions are certified by SCS Global Services, a leading provider of environmental certification, that also worked on our LCA. We were also able to obtain certified offsets for our Fresh Water (FW) use through investment in Water Restoration Projects. The remaining offsets for the other impacts that we are working on with SCS Global Services are not certifiable, however, they are designed to offset, as accurately as possible, the additional environmental impacts of our product lifecycle from cradle to consumer. We are committed to doing the right thing, whether it is certifiable or not.

Why 110% offsets?

We don't believe a product is good for the planet if it is "carbon neutral." Not causing harm is not the same as doing good. To do good we need to go a step further. To do this, we measured our environmental impact through an LCA and then offset as many of our impacts as possible by 110%. In doing so, we are helping reverse the damage done to our planet, and hope to inspire others to join in to do the same.

Why are you offsetting plastic if you are already offsetting everything else?

We have calculated that, on average, a little over 50% of the total material that goes into the making of our shoes is composed of some sort of plastic, recycled or not. And although the environmental impacts identified by the LCA and associated with this plastic is offset by 110%, we recognize that there is an additional issue with plastic in general: it often ends up in our oceans. To address this, we decided to go an extra step, and offset the plastic used in our shoes by 110% as well. We work with Plastic Bank, who provides a consistent, above-market rate for plastic waste, thus incentivizing its collection in third world countries, where the plastic pollution problem is more prevalent, to stop plastic waste from entering our oceans. Moreover, the people who gather this plastic can trade it for money, items, or services to make a living. Plastic Bank also gives local entrepreneurs the ability to set up and operate convenience stores for the poor, where plastic waste is the currency. Plastic collected through Plastic Bank is recycled and sold at a premium as Social Plastic®. For more information, please visit www.plasticbank.com.

<p>Are you going to be making more styles, colors, etc.?</p>	<p>Yes, we are. We believe in timeless, seasonless designs, and in making shoes that you can buy now and wear forever. We believe that less and better is more, and that owning a few high quality pairs of shoes, that will not break the bank, and will last you a long time, is better for you, for people and for the planet. We do plan to introduce some additional timeless styles in the future, and also to offer additional colors and vegan materials, but always in a mindful and sustainable way.</p>
<p>Are you Certified Vegan?</p>	<p>Yes we are PETA Approved Vegan!</p>
<p>Why "Luxury footwear"?</p> <p>Why not "mainstream" footwear?</p>	<p>2 main reasons. The first is that we see that there is a big gap and a large business opportunity in the luxury/footwear segment for a vegan and sustainable offering, whereas there is a number of already successful vegan and "sustainable" brands competing in the "mainstream" footwear space. The few other brands which are close to our vegan and sustainable positioning within the luxury/footwear space are also early stage, which means less direct competition. Furthermore, the existing luxury footwear brands' business models are not easy to transform into vegan and sustainable models, as these brands have built their heritage on exotic leathers, etc.</p> <p>The second reason is that we believe that luxury fashion has a very powerful voice, it resonates with consumers globally. Our socially and environmentally conscious philosophy can spread much faster and stronger if we are successful within this space. Luxury brands are both inspirational and aspirational, so successful brands in this space have a very strong, global voice. And we'd like our message to be heard and inspire as many people as possible.</p>
<p>What does the name "AERA" mean?</p>	<p>Our brand name was inspired by the ancient Greek verb "anpw" / "aero" (one of our founders is Greek!), which means "to lift / to raise". Through our work and brand philosophy we want to inspire the fashion industry to raise its standards.</p>

<p>Why do you only ship to the US? Do you plan to ship internationally?</p>	<p>From an environmental perspective, it does not make sense to have shoes made in Italy, then shipped to a warehouse in New Jersey, to cover the US market, and then shipped from there all over the world. As we consider every detail in our business plan to adhere with our Good for the Planet philosophy, we decided that, when the time comes to expand our online DTC business outside the US, we will need to set up logistics hubs in other parts of the world, such as the EU, to cover the European market, etc. Our Life Cycle Assessment study currently measures the environmental impacts of manufacturing in Italy, shipment of the goods from Italy to New Jersey, and from there shipping by courier to all US States, including a 30% return rate.</p>

How does PU leather compare to cow leather, from an environmental perspective?

Compared to cow leather, Polyurethane (PU) synthetic leather (one of the materials in our shoes) has a much lower environmental impact on the planet. According to the Higg MSI (Material Sustainability Index), the apparel industry's most trusted tool to accurately measure the environmental sustainability impacts of materials, developed by the Sustainable Apparel Coalition, PU leather has the following environmental impacts vs. Cow leather:

- 72% less Global Warming Potential (GWP)
- 93.5% less Eutrophication Potential (the build-up of a concentration of chemical nutrients in an ecosystem which leads to abnormal productivity)
- 93.2% less Fresh Water Use

The Humble Shoe Company, Inc. (d.b.a. AERA)

Crowd SAFE
(Crowdfunding Simple Agreement for Future Equity)

Series 2020A

THIS CERTIFIES THAT in exchange for the payment by [Investor Name] (the “**Investor**”, and together with all other Series 2020A Crowd SAFE holders, “**Investors**”) of \$[] (the “**Purchase Amount**”) on or about [Date of Crowd SAFE], The Humble Shoe Company, Inc., a Delaware Public Benefit Corporation (the “**Company**”), hereby issues to the Investor the right to certain shares of the Company’s Capital Stock (defined below), subject to the terms set forth below.

The “**Valuation Cap**” is \$5,000,000

See Section 2 for certain additional defined terms.

1. Events

(a) Equity Financing.

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Company shall promptly notify the Investor of the closing of the First Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the First Equity Financing. The number of shares of the CF Shadow Series of such Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(ii) If the Company elects to continue the term of this Crowd SAFE past the First

Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the CF Shadow Series of the Capital Stock (whether Preferred Stock or another class issued by the Company) sold in the Subsequent Equity Financing. The number of shares of the CF Shadow Series of such Preferred Stock shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) automatically receive from the Company a number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price, if the Investor fails to select the cash option. In connection with this Section 1(b)(i), the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

(ii) If there is a Liquidity Event after one or more Equity Financings have occurred but before the termination of this instrument, the Investor will, at its option, either (i) receive a cash payment equal to the Purchase Amount (as described in the foregoing paragraph) or (ii) automatically receive from the Company a number of shares of the most recent issued Capital Stock (whether Preferred Stock or another class issued by the Company) equal to the Purchase Amount divided by the First Equity Financing Price, if the Investor fails to select the cash option. Shares of Capital Stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of Capital Stock issued in connection with the Company’s most recent Equity Financing.

If the Company’s board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Company’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Stock, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) and all holders of Common Stock.

(d) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of shares, whether in Capital Stock or in the CF Shadow Series, to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

This instrument constitutes a valid and binding obligation of the Investor, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors’ rights generally and general principles of equity.

(b) The Investor has been advised that this instrument and the underlying securities have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act. The Investor understands that neither this instrument nor the underlying securities may be resold or otherwise transferred unless they are registered under the Securities Act and applicable state securities laws or pursuant to Rule 501 of Regulation CF, in which case certain state transfer restrictions may apply.

(c) The Investor is purchasing this instrument and the securities to be acquired by the Investor hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Investor has no present intention of selling, granting any participation in, or otherwise distributing the same. The Investor understands that the Securities have not been, and will not be, registered under the Securities Act or any state securities laws, by reason of specific exemptions under the provisions thereof which depend upon, among other things, the bona fide nature of the investment intent and the accuracy of each Investor’s representations as expressed herein.

(d) The Investor acknowledges, and is purchasing this instrument in compliance with, the investment limitations set forth in Rule 100(a)(2) of Regulation CF, promulgated under Section 4(a)(6)(B) of the Securities Act.

(e) The Investor acknowledges that the Investor has received all the information the Investor has requested from the Company and the Investor considers necessary or appropriate for deciding whether to acquire this instrument and the underlying securities, and the Investor represents that the Investor has had an opportunity to ask questions and receive answers from the Company regarding the terms and conditions of this instrument and the underlying securities and to obtain any additional information necessary to verify the accuracy of the information given to the Investor. In deciding to purchase this instrument, the Investor is not relying on the advice or recommendations of the Company or of Republic.co and the Investor has made its own independent decision that an investment in this instrument and the underlying securities is suitable and appropriate for the Investor. (g) The Investor understands that no public market now exists for any of the securities issued by the Company, and that the Company has made no assurances that a public market will ever exist for this instrument and the securities to be acquired by the Investor hereunder.

(h) The Investor is not (i) a citizen or resident of a geographic area in which the purchase or holding of the Crowd SAFE and the underlying securities is prohibited by applicable law, decree, regulation, treaty, or administrative act, (ii) a citizen or resident of, or located in, a geographic area that is subject to U.S. or other applicable sanctions or embargoes, or (iii) an individual, or an individual employed by or associated with an entity, identified on the U.S. Department of Commerce's Denied Persons or Entity List, the U.S. Department of Treasury's Specially Designated Nationals List, the U.S. Department of State's Debarred Parties List or other applicable sanctions lists. Investor hereby represents and agrees that if Investor's country of residence or other circumstances change such that the above representations are no longer accurate, Investor will immediately notify Company. Investor further represents and warrants that it will not knowingly sell or otherwise transfer any interest in the Crowd SAFE or the underlying securities to a party subject to U.S. or other applicable sanctions.

(i) If the Investor is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the Investor hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation, subscription and payment for, and continued ownership of, its beneficial interest in the Crowd SAFE and the underlying securities will not violate any applicable securities or other laws of the Investor's jurisdiction, including (i) the legal requirements within its jurisdiction for the subscription and the purchase of its beneficial interest in the Crowd SAFE; (ii) any foreign exchange restrictions applicable to such subscription and purchase; (iii) any governmental or other consents that may need to be obtained; and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, conversion, redemption, sale, or transfer of its beneficial interest in the Crowd SAFE and the underlying securities. (j) If the Investor is a corporate entity: (i) such corporate entity is duly incorporated, validly existing and in good standing under the laws of the state of its incorporation, and has the power and authority to enter into this Agreement; (ii) the execution, delivery and performance by the Investor of the Agreement is within the power of the Investor and has been duly authorized by all necessary actions on the part of the Investor; (iii) to the knowledge of the Investor, it is not in violation of its current charter or bylaws, any

material statute, rule or regulation applicable to the Investor; and (iv) the performance the Agreement does not and will not violate any material judgment, statute, rule or regulation applicable to the Investor; result in the acceleration of any material indenture or contract to which the Investor is a party or by which it is bound, or otherwise result in the creation or imposition of any lien upon the Purchase Amount.

(k) The Investor further acknowledges that it has read, understood, and had ample opportunity to ask Company questions about its business plans, "Risk Factors," and all other information presented in the Company's Form C and the offering documentation filed with the SEC.

(l) The Investor represents that the Investor understands the substantial likelihood that the Investor will suffer a **TOTAL LOSS** of all capital invested, and that Investor is prepared to bear the risk of such total loss.

5. *Transfer Restrictions.*

(a) The Investor hereby agrees that during the Lock-up Period it will not, without the prior written consent of the managing underwriter: (A) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock (whether such shares or any such securities are then owned by the Investor or are thereafter acquired); or (B) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities; whether any such transaction described in clause (A) or (B) above is to be settled by delivery of Common Stock or other securities, in cash, or otherwise.

(b) The foregoing provisions of Section 5(a) will: (x) apply only to the IPO and will not apply to the sale of any shares to an underwriter pursuant to an underwriting agreement; (y) not apply to the transfer of any shares to any trust for the direct or indirect benefit of the Investor or the immediate family of the Investor, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer will not involve a disposition for value; and (z) be applicable to the Investor only if all officers and directors of the Company are subject to the same restrictions and the Company uses commercially reasonable efforts to obtain a similar agreement from all stockholders individually owning more than 5% of the outstanding Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock. Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Company may impose stop transfer instructions with respect to the Investor's registrable securities of the Company (and the Company shares or securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. The Investor agrees that a legend reading substantially as follows will be placed on all certificates representing all of the Investor's registrable securities of the Company (and the shares or securities of the Company held by every other person subject to the restriction contained in Section 5(a)):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE COMPANY'S REGISTRATION STATEMENT FILED UNDER THE SECURITIES ACT OF 1933, AS

AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN THE COMPANY AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT THE COMPANY'S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

(d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Company to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Company of the proposed disposition and shall have furnished the Company with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Company, the Investor shall have furnished the Company with an opinion of counsel reasonably satisfactory to the Company that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Company's competitors, as determined by the Company in good faith.

(f) The Investor understands and agrees that the Company will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Company's charter or bylaws, any other agreement between the Investor and the Company or any agreement between the Investor and any third party:

THIS INSTRUMENT HAS BEEN ISSUED PURSUANT TO SECTION 4(A)(6) OF THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND NEITHER IT NOR ANY SECURITIES ISSUABLE PURSUANT HERETO HAVE BEEN REGISTERED UNDER THE SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE. THESE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED, PLEDGED OR HYPOTHECATED EXCEPT AS PERMITTED BY RULE 501 OF REGULATION CROWDFUNDING UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT OR EXEMPTION THEREFROM.

6. Miscellaneous

(a) The Investor agrees to take any and all actions determined in good faith by the Company's board of directors to be advisable to reorganize this instrument and any shares of Capital Stock issued pursuant to the terms of this instrument into a special purpose vehicle or other entity designed to aggregate the interests of holders of Crowd SAFEs.

(b) Any provision of this instrument may be amended, waived or modified only upon the written consent of either (i) the Company and the Investor, or (ii) the Company and the majority of the Investors (calculated based on the Purchase Amount of each Investors Crowd SAFE).

(c) Any notice required or permitted by this instrument will be deemed sufficient when delivered personally or by overnight courier or sent by email to the relevant address listed on the signature page, or 48 hours after being deposited in the U.S. mail as certified or registered mail with postage prepaid, addressed to the party to be notified at such party's address listed on the signature page, as subsequently modified by written notice.

(d) The Investor is not entitled, as a holder of this instrument, to vote or receive dividends or be deemed the holder of Capital Stock for any purpose, nor will anything contained herein be construed to confer on the Investor, as such, any of the rights of a stockholder of the Company or any right to vote for the election of directors or upon any matter submitted to stockholders at any meeting thereof, or to give or withhold consent to any corporate action or to receive notice of meetings, or to receive subscription rights or otherwise until shares have been issued upon the terms described herein.

(e) Neither this instrument nor the rights contained herein may be assigned, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this instrument and/or the rights contained herein may be assigned without the Company's consent by the Investor to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Company may assign this instrument in whole, without the consent of the Investor, in connection with a reincorporation to change the Company's domicile.

(f) In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

(g) All securities issued under this instrument may be issued in whole or fractional parts.

(h) All rights and obligations hereunder will be governed by the laws of the State of New York, without regard to the conflicts of law provisions of such jurisdiction.

(i) Any dispute, controversy or claim arising out of, relating to or in connection with this instrument, including the breach or validity thereof, shall be determined by final and binding arbitration administered by the American Arbitration Association (the "AAA") under its Commercial Arbitration Rules and Mediation Procedures ("**Commercial Rules**"). The award rendered by the arbitrator shall be final, non-appealable and binding on the parties and may be entered and enforced in any court having jurisdiction. There shall be one arbitrator agreed to by the parties within twenty (20) days of receipt by respondent of the request for arbitration or, in default thereof, appointed by the AAA in accordance with its Commercial Rules. The place of arbitration shall be the City of New York, Borough of Manhattan. Except as may be required by law or to protect a legal right, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

(j) The parties acknowledge and agree that for United States federal and state income tax purposes this Crowd SAFE is, and at all times has been, intended to be characterized as stock, and more particularly as common stock for purposes of Sections 304, 305, 306, 354, 368, 1036 and 1202 of the Internal Revenue Code of 1986, as amended. Accordingly, the parties agree to treat this Crowd SAFE consistent with the foregoing intent for all United States federal and state income tax purposes (including, without limitation, on their respective tax returns or other informational statements).

(k) In the event the Investor, together with its affiliates, purchases one or more Crowd SAFEs with an aggregate Purchase Amount equal to or exceeding \$107,000 (a “**Major Investor**”), the Company shall provide such Major Investor at least ten (10) business days prior written notice (“**Notice**”), including the price and terms thereof of the First Equity Financing consisting of any new equity securities other than Excluded Securities (such Securities other than Excluded Securities the “**New Securities**”). The Investor shall have the right, upon Notice from the Company, within ten (10) days following receipt of the Notice, whether such Notice is provided before or after the issuance (the “**Exercise Period**”), to elect to subscribe for, at the price and on the terms stated in the Notice, such number of New Securities equal to the product obtained by multiplying the number of New Securities (calculated on an as-converted basis) by a fraction, the numerator of which is the Common Stock (calculated on an as-converted basis) held by the Investor on the date of such Notice (and prior to the issuance) and the denominator of which is the total number of Common Stock (calculated on an as-converted basis) issued and outstanding on the date of such Notice (and prior to the issuance); provided, however, the denominator shall not include shares of Common Stock reserved and available for future grant under any equity incentive or similar plan of the Company. If all or any portion of the New Securities are not subscribed to by the Investor as described above, then the Company may, at its election, during a period of thirty (30) days following the expiration of the Exercise Period, issue the remaining New Securities to other parties at a price and upon terms not more favorable than those stated in such Notice. In the event the Company has not issued the New Securities within such thirty (30) day period, the Company shall not thereafter issue any New Securities without first offering such securities to the Investor in the manner provided in this clause. Failure by the Investor to exercise its option to subscribe with respect to one offering and issuance of New Securities shall not affect its option to subscribe for equity securities in any subsequent offering and issuance. This clause shall not apply to “**Excluded Securities**” issued by the Company which shall mean (i) securities issued as a dividend or distribution on outstanding securities, (ii) securities issued upon conversion or exercise of outstanding securities, (iii) securities issued to employees, directors or consultants pursuant to a plan, agreement or arrangement approved by the Company’s Board of Directors, (iv) securities issued pursuant to the acquisition of another corporation or its assets by the Company, or (v) up to one million dollars (\$1,000,000) in securities issued by the Company annually to fund obligations to make cash dividends or interest payments on outstanding securities.

Exhibit A – CF Shadow Share Proxy

Irrevocable Proxy

Reference is hereby made to a certain Crowdfunding Simple Agreement for Future Equity (the “**Crowd SAFE**”) dated [\$crowd_safe_date\$] between The Humble Shoe Company, Inc., a Delaware corporation (the “**Company**”) and [\$investor_name\$] (“**Stockholder**”). In connection with a conversion of Stockholder’s investment in the Crowd SAFE into Capital Stock of a CF Shadow Series (as defined in the Crowd SAFE) pursuant to the Crowd SAFE, the Stockholder and OpenDeal Portal LLC (the “**Intermediary**”) as another holder of Capital Stock of a CF Shadow Series hereby agree as follows:

1. Grant of Irrevocable Proxy.

- a. With respect to all of the shares of Capital Stock of CF Shadow Series owned by the Stockholder as of the date of this Irrevocable Proxy or any subsequent date (the “**Shares**”), Stockholder hereby grants to Intermediary an irrevocable proxy under Section 212 of the Delaware General Corporation Law to vote the Shares in any manner that the Intermediary may determine in its sole and absolute discretion. For the avoidance of doubt, the Intermediary, as the holder of the irrevocable proxy (rather than the Stockholder) will vote the Shares with respect to all shareholder meetings and other actions (including actions by written consent in lieu of a meeting) on which holders of Shares may be entitled to vote. The Intermediary hereby agrees to vote all Shares consistently with the majority of the shares on which the CF Shadow Series is based. This proxy revokes any other proxy granted by the Stockholder at any time with respect to the Shares.
- b. The Intermediary shall have no duty, liability or obligation whatsoever to the Stockholder arising out of the Intermediary’s exercise of the this irrevocable proxy. The Stockholder expressly acknowledges and agrees that (i) the Stockholder will not impede the exercise of the Intermediary’s rights under this irrevocable proxy and (ii) the Stockholder waives and relinquishes any claim, right or action the Stockholder might have, as a stockholder of the Company or otherwise, against the Intermediary or any of its affiliates or agents (including any directors, officers, managers, members, and employees) in connection with any exercise of the irrevocable proxy granted hereunder.
- c. This irrevocable proxy shall expire as to those Shares on the earlier of (i) the date that such Shares are converted into Common Stock of the Company or (ii) the date that such Shares are converted to cash or a cash equivalent, but shall continue as to any Shares not so converted.

2. Legend. The Stockholder agrees to permit an appropriate legend on certificates evidencing the Shares or any transfer books or related documentation of ownership reflecting the grant of the irrevocable proxy contained in the foregoing Section 1.

3. Representations and Warranties. The Stockholder represents and warrants to the Intermediary as follows:

- a. The Stockholder has the all necessary rights, power and authority to execute, deliver and perform his obligations under this Irrevocable Proxy. This Irrevocable Proxy has been duly executed and delivered by the Stockholder and constitutes such Stockholder’s legal and valid obligation enforceable against the Stockholder in accordance with its terms.

- b. The Stockholder is the record owner of the Shares listed under the name on this Appendix A and the Stockholder has plenary voting and dispositive power with respect to such Shares; the Stockholder owns no other shares of the capital stock of the Company; there are no proxies, voting trusts or other agreements or understandings to which such Stockholder is a party or bound by and which expressly require that any of the Shares be voted in any specific manner other than pursuant to this irrevocable proxy; and the Stockholder has not entered into any agreement or arrangement inconsistent with this Irrevocable Proxy.
- 4. Equitable Remedies.** The Stockholder acknowledges that irreparable damage would result if this Irrevocable Proxy is not specifically enforced and that, therefore, the rights and obligations of the Intermediary may be enforced by a decree of specific performance issued by arbitration pursuant to the Crowd SAFE, and appropriate injunctive relief may be applied for and granted in connection therewith. Such remedies shall, however, not be exclusive and shall be in addition to any other remedies that the Intermediary may otherwise have available.
- 5. Defined Terms.** All terms defined in this Irrevocable Proxy shall have the meaning defined herein. All other terms will be interpreted in accordance with the Crowd SAFE.
- 6. Amendment.** Any provision of this instrument may be amended, waived or modified only upon the written consent of the (i) the Stockholder and (ii) the Intermediary.
- 7. Assignment.**
- a. In the event the Stockholder wishes to transfer, sell, hypothecate or otherwise assign any Shares, the Stockholder hereby agrees to require, as a condition of such action, that the counterparty or counterparties thereto must enter into a proxy agreement with the Intermediary substantially identical to this Irrevocable Proxy.
- b. The Intermediary may transfer its rights as Holder under this instrument after giving prior written notice to the Stockholder.
- 8. Severability.** In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

IN WITNESS WHEREOF, the undersigned have caused this instrument to be duly executed and delivered.

Tina Bhojwani, AERA Co-Founder and CEO

“Hi, my name is Tina Bhojwani, I'm the co-founder and CEO of AERA New York. I wanted to prove that there was a way that you could combine both luxury and sustainability and we didn't have to make a choice. With AERA we looked at sustainability from a 360 degree point of view. We designed a group of shoes that are timeless and seasonless so anyone who buys the shoes can rest assured that the quality is there, the style is going to be right some years from now, and the purchase has value. From a social point of view we support artisans in Veneto. Veneto is the birthplace of luxury Footwear. The most treasured piece for me is that we keep an artisanal craft alive. So we started out with materials and processes that were as sustainable as possible, but we went one step further in that we scientifically measured all of our impacts and we actively offset our impacts by a 110%. And what that means is we don't only neutralize the impact we make on the planet, we in fact give back an additional 10% to help our planet heal.”

Jean-Michel Cazabat, AERA Co-Founder & Creative Director

“AERA it's a luxury, vegan, 110% sustainable shoe brand. The concept of AERA is timeless luxury woman collection. So the idea behind this is to have every item, every piece become a classic. Something you can keep in your wardrobe for years. The shoes are cruelty free and made of vegan material. To design the collection we were inspired by iconic women. For example, you can find the ballerina with the name “Brigitte”, it was like Brigitte Bardot. The platform sandal it was “Bianca”, Bianca Jagger dancing at Studio 54. The “Tina” loafer like my partner Tina. The “Audrey” flat pointy toe slingback is completely Breakfast at Tiffany by Audrey Hepburn. The pointy toe mule “Blondie”, Debbie Harry, New York 1980, “Call Me”! From this collection the silhouettes have stood the test of time”.
