The Company and its Business

Company Overview

General Business

Fluz helps you earn while you sleep: members use Fluz to earn cash back on their everyday shopping. But unlike other rewards programs, Fluz harnesses social networks to earn cash back for an ever-expanding web of connections; whenever you, your friends, or even their friends make a purchase, you keep earning. And they earn, too.

Fluz pays you to save socially: anytime someone joins through you, they become part of your Fluz network, even total strangers. Your network grows quickly as friends invite friends of their own — and it's all tied back to you. As members of your network use the Fluz app to pay at our list of 250 stores, you both earn together.

No other app helps friends earn together like Fluz. Fluz is uniquely positioned to take advantage of a social world in which each person's network is part of a larger cooperative.

At a time when people are looking for ways to stretch their dollars, Fluz is an

opportunity for members to earn from home.

Business Model

Fluz charges the merchant partners a commission on every transaction processed. Part of that commission is shared with the member, the friend who invited them and part is kept by Fluz. Fluz earns a weighted 1.2% on every transaction.

Corporate Structure

The Company, Fluz App, Inc., is a Delaware company formed on February 25, 2020. The Company has no commercial or business activity of its own and serves as a holding company for Fluz Fluz LLC (the "LLC"). Pursuant to certain contribution agreement, the Company owns all equity interests in the LLC and all revenue received from the LLC flows to the Company.

The LLC was registered in Delaware on January 23, 2018. The LLC started as a sole member LLC to reduce the complexity of growing the necessary banking relationships. The LLC manages the General Business including the Fluz app, the employment of staffs, and the development of intellectual property. The LLC also owns Fluz Inc., a subsidiary that manages the sale of B2B gift cards. All revenue received from Fluz Inc. flows to the LLC.

Competitors and Industry

Fluz operates in the overall digital cash back, rewards & loyalty space. Within the industry, there are various verticles (as listed bellow). Fluz operates specifically in the gift card space.

Other players that also offer cash back in the form of digital gift cards are Raise, Gyft, and Ibotta. Fortunately for Fluz, gift card offers can be stacked with most other rewards programs.

- Affiliate Cash Back - These are programs like Rakuten, Drop, BeFrugal, etc. Users need to start with the affiliate cash back sites to begin to get the affiliate cash back.
- Coupons - These are either coupons given away by the retailer directly or posted on the coupon affiliate sites/chrome extensions like Honey, Retail Me Not, Coupon Cabin, etc. It also works in brick and mortar with traditional coupons or coupons displayed off the user's mobile phone.
- Retailer Loyalty Programs - Retailers have their own loyalty programs that are generally payment method agnostic.
- Receipt Scanning - Programs like Checkout 51, Get Upside, ShopKick and even Ibotta all run on receipt scanning. They are able to give the customer cash back on the item level rather than on the entire purchase.
- Credit Card Bonus Categories - Most bank credit card reward programs offer a blanket cash back rate and a bonus cash back rate on specific categories, (i.e. groceries,

restaurants, travel etc.) The bank is able to determine the category based on the SIC code on the specific transaction.

Current Stage and Roadmap

We built a category defining technology that enables a whole new payment network for referral marketing.☒☒

We are growing at 15% MoM, with highly viral effect (75% of new users being referred). We just broke 42,000 users with zero in paid advertising and we are now transacting over \$2 MM per month. There are over 200 National merchants partnered with Fluz.

We are now developing a more robust solution for members to better connect with friends and facilitate community building within the Fluz app. The solutions are product features that will allow members to connect with each other in the Fluz product, share deals and offers with friends, and help their friends save money at specific stores. Key product deliverables will include an event management system for members to host live events with friends for better saving opportunities. We will develop AI to help recommend products to friends leveraging shared earnings with friends.

Risk Factors

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the Company:

Uncertain Risk

An investment in the Company (also referred to as “we”, “us”, “our”, or “Company”) involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the Convertible Note should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company’s Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company.

Our business projections are only projections

There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our product, that people think it’s a better option than a competing product, or that we will be able to provide the service at a level that allows the Company to make a profit and still attract business.

Any valuation at this stage is difficult to assess

The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

The transferability of the Securities you are buying is limited

Any Convertible Note purchased through this crowdfunding campaign is subject to SEC limitations of transfer and the Company’s stockholders agreement. Pursuant to SEC limitations, this means that the stock/note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an “accredited investor,” as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce. Pursuant to the stockholder’s agreement, this means you may not resell your stocks prior to obtaining first the company’s refusal to purchase and then the founder’s refusal to purchase.

Your investment could be illiquid for a long time

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the financial rewards industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

If the Company cannot raise sufficient funds it will not succeed

The Company, is offering Class A common stock in the amount of up to \$1,070,000 in this offering, and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds, sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

We may not have enough capital as needed and may be required to raise more capital.

We anticipate needing access to credit in order to support our working capital requirements as we grow. Although interest rates are low, it is still a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

Terms of subsequent financings may adversely impact your investment

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Common Stock. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Common Stock. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share.

Management Discretion as to Use of Proceeds

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

Projections: Forward Looking Information

Any projections or forward looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants. These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

We are reliant on one main type of service

All of our current products are variants on our Fluz App. Our revenues are therefore dependent upon the market for our app and the transactions to be processed via our app.

Minority Holder; Securities with Voting Rights

The Class A common stock that an investor is buying has voting rights attached to them. However, your voting rights much inferior than the voting rights of class b common stockholders. Therefore, you will be part of the minority shareholders of the Company and therefore will have a limited ability to influence management's decisions on how to run the business. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our company, you will only be paid out if there is any cash remaining after all of the creditors of our company have been paid out.

You are trusting that management will make the best decision for the company

You are trusting in management discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the

right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

Our new product could fail to achieve the sales projections we expected

Our growth projections are based on an assumption that with an increased advertising and marketing budget our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

We face significant market competition

We will compete with larger, established companies who currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify.

We are an early stage company and have not yet generated any profits

Fluz App Inc was formed on Feb 2020. Accordingly, the Company has a limited history upon which an evaluation of its performance and future prospects can be made. Our current and proposed operations are subject to all business risks associated with new enterprises. These include likely fluctuations in operating results as the Company reacts to developments in its market, managing its growth and the entry of competitors into the market. We will only be able to pay dividends on any shares once our directors determine that we are financially able to do so. Fluz App Inc has incurred a net loss and has had limited revenues generated since inception. There is no assurance that we will be profitable in the next 3 years or generate sufficient revenues to pay dividends to the holders of the shares.

The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business

To be successful, the Company requires capable people to run its day to day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, design, development, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your

investment.

Our ability to sell our product or service is dependent on outside government regulation which can be subject to change at any time

Our ability to sell product is dependent on the outside government regulation such as the FENCEN (Financial Crimes Enforcement Network), State laws regulating multilevel marketing and other relevant government laws and regulations. The laws and regulations concerning the selling of product may be subject to change and if they do then the selling of product may no longer be in the best interest of the Company. At such point the Company may no longer want to sell product and therefore your investment in the Company may be affected.

We rely on third parties to provide services essential to the success of our business

We rely on third parties to provide a variety of essential business functions for us, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance.

The Company is vulnerable to hackers and cyber-attacks

As an internet-based business, we may be vulnerable to hackers who may access the data of our investors and the issuer companies that utilize our platform. Further, any significant disruption in service on Fluz App Inc or in its computer systems could reduce the attractiveness of the platform and result in a loss of investors and companies interested in using our platform. Further, we rely on a third-party technology provider to provide some of our back-up technology. Any disruptions of services or cyber-attacks either on our technology provider or on Fluz App Inc could harm our reputation and materially negatively impact our financial condition and business.

Merchant Budgeting Risks

We face the risk that merchants may cut back marketing budgets to fund rewards and loyalty programs.

Competitive Risks

Competitors may execute our marketing concept better and roll it out to their user base faster than us. While we may be first to market, their larger scale will allow them to dominate.

Risk Of Merchant Participation

Because the Fluz offers are funded by the merchants, we are subject to their participation. Should the critical merchants pull out of the program, that will severely impact the Fluz revenues and profits.

What it means to be a minority holder

As a minority holder of Class A Common Share of the company, you will have limited rights in regards to the corporate actions of the company, including additional issuances of securities, company repurchases of securities, a sale of the company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors, and will have limited influence on the corporate actions of the company.

Dilution

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;
- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Financial Condition and Results of Operations

Financial Condition

You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Memorandum. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled "Risk Factors" and elsewhere in this Offering Memorandum.

Results of Operations

Circumstances which led to the performance of financial statements:

We formed the LLC and started the business in 2018. We used initial monies to build out a technical, marketing and operational team. That team would be responsible to develop all of the various components of the product. This included securing purchasing agreements with national retailers, building the application, developing the marketing communications and much more.

We had a transactional application by Q2 of 2019. We rolled that out to friends and family as we refined all areas of the app. We launched our app to the public in Q4 of 2019.

Revenues went up as we saw product market fit with the user base. Users were purchasing gift cards from the app. There was minimal spend on advertising, thus increasing the overall profit margins.

There is some money being used to pre-fund key merchants inventory on a one day rolling balance.

Historical results and cash flows:

Initial cash was used to fund the development of the product. At this point, the product is now operational and growing at an exponential rate. Furthermore, when we first launched, we chose to operate at a smaller gross margin. By offering higher cash back rates to consumers, we would grow faster.

As we have now hit a critical volume, we have been focusing on improving the gross margin. For Q1 of 2020, we have seen an increase in our overall sales volume at a better margin.

With slightly more gross revenue and an additional increase in the gross margin, Fluz may become cash flow positive. We plan to achieve this milestone within the next 6-12 months.

Liquidity and Capital Resources

What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)

Cash on hand - \$500,000

Line of credit - \$650,000

Shareholder loans - \$1,000,000

How do the funds of this campaign factor into your financial resources? (Are these

funds critical to your company operations? Or do you have other funds or capital resources available?)

The funds from the campaign will be used for growth of the business. The growth will help accelerate the company's path to profitability.

Are the funds from this campaign necessary to the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)

The funds from the campaign and the individual contributors will help drive additional growth of the business. Despite that, the company is already on a path to profitability. We have spent years and millions developing the product that is now performing far better than expected. With a few more months of operations, the company plans to become cashflow positive.

How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?

18 months. This is based on the current expense structure and a 20% annual increase in overhead costs in line with continued revenue growth.

How long will you be able to operate the company if you raise your maximum funding goal?

The funds raised during the Start Engine campaign will help accelerate the company's path to profitability. The funds will be used to support additional customer acquisition and retention.

Once the company is profitable, the company will be able to support ongoing operations as it will be cash flow positive.

Are there any additional future sources of capital available to your company? (Required capital contributions, lines of credit, contemplated future capital raises, etc...)

Previous investors and founders have accepted to invest whatever is required to get the company cash flow positive. This will be used as a contingency. In light of current growth, the anticipated investment from the current investors and founders is perceived to be within scope of what they are able to invest.

Valuation

Pre-Money Valuation: \$23,051,723.52

Valuation Details:

For valuation we considered various factors.

First, we already have a working product (the Fluz App) in the market and are beginning to see real user growth. It is also performing and growing.

We have been growing 30% Month over month, propelled exclusively from our existing user base. 75% of new members are coming through the referral program. Furthermore, we are seeing an average of 4.25 referrals per member. This is a highly viral growth rate.

Second, we used the present value formula of the future forecasted profits. We are considering the value of the future cash flows from the earning. Furthermore, the profit forecasts are built on the current commission and cost structure. We aim to be profitable by Q4 of 2020. Additionally, we anticipate the following areas that will increase in our operating margin:

Volume based commission increases - The rates we are currently offering are solely based on the initial negotiated discounts with the merchants. As our volume grows, Fluz will be more meaningful to the merchant partners and subsequently command a higher commission.

Adjacent offerings:

- Interest earned on cash back balance

- Paid placements by merchant partners
- Installment Payment offerings
- Payments made with user balances
- Monetizing content feed

Vertical Cost Savings:

- Payment processing
- Direct merchant relations
- Money transfer costs

Third, users/members are sticking with the product. New members are compelled to try the Fluz product because our offers are enticing. They are staying with the product as it is becoming habit forming. As users grow accustomed to the product, they are making more transactions. That's why we are seeing a disproportionate growth between users and sales. As users stay with the platform, they do more revenue and invite more.

The Company set its valuation internally, without a formal-third party independent valuation.

FLUZ FLUZ, LLC.
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2019 AND 2018

NOTE 1 – NATURE OF OPERATIONS

FLUZ FLUZ, LLC (which may be referred to as the “Company”, “we,” “us,” or “our”) was registered in Delaware on January 23, 2018. The Company provides a platform of sales of discounted gift cards to popular retailers. The Company’s headquarters are in New York, New York. The company began operations in 2019.

The founder of the Company also formed Fluz App, Inc. (“Newco”), a Delaware company formed on February 25, 2020. Since formation, Newco has no commercial or business activity on its own.

Upon closing of the Crowdfunded Campaign (discussed below in Note 8) the sole owner of the Company has agreed to contribute all of the equity interest in the Company to Newco. After the contribution, Newco will operate the business of the Company. The Company was started as a sole member LLC to reduce the complexity of growing the necessary banking relationships. Now that the banking relationships have been established, the Company can be operated under Newco.

Since Inception, the Company has relied on contributions of its founder and loans from its founder to fund its operations. As of December 31, 2019, the Company had negative retained equity and may incur additional losses prior to generating positive working capital. While the Company has produced positive gross margin on its sales to date, the scale of the sales has not yet been sufficient to cover the Company’s other expenses. These matters raise substantial concern about the Company’s ability to continue as a going concern (see Note 7). During the next twelve months, the Company intends to continue its operations with funding from a crowdfunding campaign (see Note 8), funding from its founder, and/or funds from revenue producing activities. If the Company cannot secure additional short-term capital, it may cease operations; however the Company’s founder has previously and intends in the future to provide the requisite funding for the Company to continue operations. These financial statements and related notes thereto do not include any adjustments that might result from these uncertainties.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). The accompanying unaudited financial statements do not include all the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for the fair presentation of the unaudited financial statements for the years presented have been included.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term. Significant estimates inherent in the preparation of the accompanying financial statements include valuation of provision for refunds and chargebacks, equity transactions and contingencies.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could

cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America, which it believes to be credit worthy. The Federal Deposit Insurance Corporation insures balances up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investment with original maturities of three months or less at the time of purchase to be cash equivalents. Cash consists of funds held in the Company's checking account. As of December 31, 2019 and 2018, the Company had \$258,059 and \$52,534 of cash on hand, respectively.

Fixed Assets

Property and equipment is recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income. Depreciation is provided using the straight-line method, based on useful lives of the assets which range from three to forty years depending on the type of equipment.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. As of December 31, 2019, the Company had no fixed assets and no impairment recognized.

Fair Value Measurements

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

Income Taxes

The Company is a limited liability company. Accordingly, under the Internal Revenue Code, all taxable income or loss flows through to its members. Therefore, no provision for income tax has been recorded in the statements. Income from the Company is reported and taxed to members on their individual tax returns.

The Company complies with FASB ASC 740 for accounting for uncertainty in income taxes recognized in a company's financial statements, which prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. FASB ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the fee for the arrangement is fixed or determinable and collectability is reasonably assured. For years ending December 31, 2019 and 2018 the Company recognized \$5,713,866 and \$0 in revenue respectively.

Advertising

The Company expenses advertising costs as they are incurred.

Recent Accounting Pronouncements

In February 2019, FASB issued ASU No. 2019-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In June 2019, FASB amended ASU No. 2019-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In August 2019, amendments to existing accounting guidance were issued through Accounting Standards Update 2019-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – LIABILITIES

During 2019, the Company has taken loans from founders for a total of \$633,303 to fund the start-up and growth of the Company. The founder charges the Company interest equal to the interest the founder pays its outside lender. The outside lender charges approximately 5.5 percent per annum on the \$250,000 loaned to the founder. Total interest expense charged to the Company by the founder for 2019 and 2018 is \$5,200 and \$0, respectively.

NOTE 4 – INCOME TAX PROVISION

The Company's income tax return obligations have or will be fulfilled for the period ended December 31, 2019, which will remain subject to examination by the Internal Revenue Service under the statute of limitations for a period of three years from the date it is filed.

NOTE 5 – MEMBERS' CAPITAL

Member contributions

During 2019, the sole member of the Company has contributed \$2,283,845 to the Company.

NOTE 6 – COMMITMENTS AND CONTINGENCIES

Pending litigation

The Company is not currently involved with and does not know of any pending or threatening litigation against the Company.

Lease obligations

The Company took over the lease obligation of \$5,600 per month from a party related to the founder for their office space in New York City. There is approximately one year remaining on the lease term.

NOTE 7 – GOING CONCERN

These financial statements are prepared on a going concern basis. The Company began operation in 2019 and incurred a loss since inception. The Company's ability to continue is dependent upon management's plan to raise additional funds (either through equity issuances or founder loans) and achieve profitable operations. The financial statements do not include any adjustments that might be necessary if the Company is not able to continue as a going concern.

NOTE 8 – SUBSEQUENT EVENTS

The Company is offering (the "Crowdfunded Offering") up to \$1,070,000 in securities. The US Securities and Exchange Commission has discussed the possibility to raise the limit that the Company could raise during the Crowdfunded Offering up to \$5,000,000. The exact amount of the offering is not yet known at this time.

The Crowdfunded Offering is being made through StartEngine (the "Intermediary").

Management's Evaluation

Management has evaluated subsequent events through April 10, 2020, the date the financial statements were available to be issued. Based on this evaluation, no additional material events were identified which require adjustment or disclosure in the financial statements.

"Social earning that reaches far"

OUR STORY

We want to reward consumers for their true value

Fluz was born from the realization that no credit card, bank or mobile payment company was offering users benefits for the lifetime value of their referrals. We believe that all consumers deserve to sincerely profit from their purchases and we built our model to reflect the strength of the social networks that consumers provide. Fluz is uniquely positioned to take advantage of a social world in which each person's network is part of a larger cooperative.

At a time when people are looking for ways to stretch their dollars, Fluz is an opportunity for members to earn from home. With many people needing to find work and save money, our app allows people to make real money while helping others save. Despite the global economic climate, our business is continuing to grow in profits and users every month.

THE PROBLEM

Cash back programs today only pay you once for each referral

Users are being short-changed. Existing cash back programs only pay you once, and nobody gets rich on the 2-5% cash back they typically receive from these programs.

THE SOLUTION

We created a “win-win” for users to get cash-back... forever

We’ve figured out how to pay you cash back when you buy, when the friends you referred buy, and when the friends they referred buy. And it is sustainable, forever.

It’s social earning that reaches far. Anytime someone joins through you, they become part of your Fluz network. Whenever they pay with Fluz, they earn cash back on their purchases and you earn cash back with them. Your network grows quickly as friends invite friends of their own — and it’s all tied to you.

WHAT WE DO

We make earning money as easy as spending it

Fluz is not just another cash back app; we're making it possible for friendship and influence to create real income opportunities for everyone. Rather than paying for placement to build our engagement, we've focused on creating a culture that rewards users for sharing with their friends — 75% of our new members come from referrals.

Because Fluz is easy to sign up for, get started, and share, the app is built to grow exponentially. We help members take advantage of this expansion by rewarding them for each new user who joins their network, offering 35% cash back when a user signs up with a friend. We also host weekly events where potential users can connect with successful members to learn their stories and replicate their successes. We offer in-app tools to help members teach their friends how to get the most out of the app.

THE MARKET

Cash Back Market

Retailers pay our users, rather than a billboard

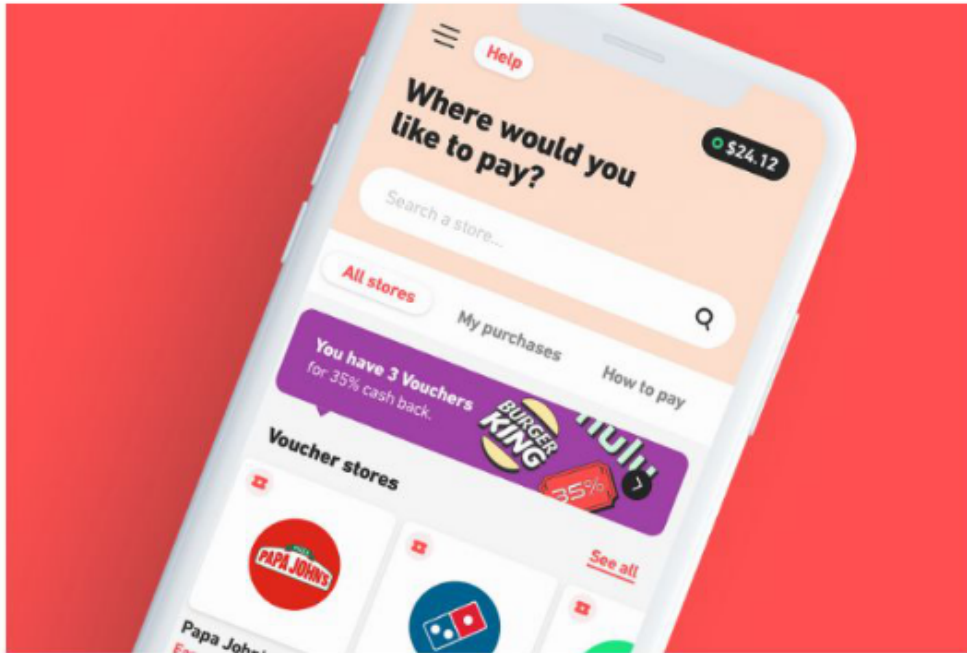

Retailers pay Fluz to advertise their brands on the app. Fluz will keep a small percentage of that fee to maintain the system and the rest of the money is given back to Fluz Members in the form of cash back deals. What's unique about Fluz is that our model gives users significant money back. Instead of offering members unsustainably high cash back percentages, we share cash back earnings across the Fluz Network. When cash back earnings are shared, the numbers add up fast, and members earn a lot more.

Connecting shoppers and expanding our financial solutions

We use dozens of apps to connect to each other and to brands. At Fluz, we're trying to bridge the two. Our mission is to connect as many shoppers as possible, so that earning money becomes as easy as spending it. In the future, we envision offering a mobile wallet/banking solution to our members with a full suite of financial products and issuing credit cards that allow our users to earn even

more.

Isn't it great when life rewards you — like when you get money back on the things you buy?

With Fluz, you can get even more.

Fluz is a new app that allows you to instantly earn extra cash back on top of the 1-2% you're already receiving from your rewards credit card.

You can also shop at all your favorite stores for everyday things like food, gas and entertainment.

And the best part — when you invite your friends, you earn more than ever, because only Fluz pays you for other people's purchases.

Let's say you invite your best friend and they buy something — you both get paid.

And not just one time. Whenever you, your friends, or even their friends make a purchase, you keep earning. And they earn too. It's how it works.

It's social earning that reaches far. Anytime someone joins through you, they become part of your Fluz network, even total strangers. Your network grows as friends and friends of friends invite friends of their own — and it's all tied to you. But everybody is earning.

Fluz is a way for friends and influencers to make real money. Download the app today; then shop, invite and get paid.

STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)

Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 6-8% (six to eight percent) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of a closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.

Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be cancelled and the funds will be returned.

Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50% and 100% of the funding goal. If the issuer hits its goal early, and the minimum offering period of 21 days has been met, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the new target deadline via email and will then have the opportunity to cancel up to 48 hours before new deadline.
- Oversubscriptions: We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$1.07M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its

target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

Minimum and Maximum Investment Amounts

- In order to invest, to commit to an investment or to communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- Investor Limitations: Investors are limited in how much they can invest on all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$107,000, then during any 12-month period, they can invest up to the greater of either \$2,200 or 5% of the lesser of their annual income or net worth. If both their annual income and net worth are equal to or more than \$107,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is less, but their investments cannot exceed \$107,000.

(b) **Tag-Along Sale Exceptions.** Notwithstanding anything herein to the contrary, the provisions of this Section 3.04 shall not apply to any Transfers that is:

- (i) permitted by and made in accordance with Section 3.02;
- (ii) made to either the Company or any Founder Stockholder pursuant to the exercise of a ROFR set forth in Section 3.03;
- (iii) a Proposed Sale subject to Section 3.05; or
- (iv) made pursuant to a Public Offering.

(c) **Tag-Along Notice.** A Selling Stockholder shall deliver to the Company, each Founder Stockholder and each other Tag-Along Stockholder a written notice (a "**Tag-Along Notice**") of any proposed Tag-Along Sale within five (5) Business Days following the expiration of the Additional Founder Stockholder ROFR Exercise Period in the event that the Company and/or any ROFR Exercising Founder Stockholders have not, in the aggregate, exercised their respective rights to purchase all and not less than all of the Offered Stock pursuant to Section 3.03. The Tag-Along Notice shall make reference to the

Tag-Along Stockholders' rights under this **Section 3.04** and shall describe in reasonable detail:

- (i) the aggregate number of shares of Tag-Along Stock that the Selling Stockholder proposes to Transfer;
- (ii) the proposed date, time and location of the closing of the proposed Tag-Along Sale, which shall not be earlier than sixty (60) days from the date of the Tag-Along Notice;
- (iii) the purchase price per share of Tag-Along Stock (which shall be payable solely in cash) and the other material terms and conditions of the Transfer Offer;
- (iv) the identity of the Prospective Transferee;

(d) **Exercise of Tag-Along Right.**

(i) Each Tag-Along Stockholder may exercise Tag-Along Right on the terms and conditions set forth the Tag-Along Notice by delivering to the Selling Stockholder, the Company and each Founder Stockholder a written notice (a “**Tag-Along Exercise Notice**”) stating its election to do so by no later than expiration of the Tag-Along Exercise Period. The election of each Tag-Along Stockholder set forth in a Tag-Along Exercise Notice shall be irrevocable, and, to the extent the offer in the Tag-Along Notice is accepted, such Tag-Along Stockholder shall be bound and obligated to consummate the Transfer on the terms and conditions set forth in this **Section 3.04**. If one or more Tag-Along Stockholders elects pursuant to this **Section 3.04(d)(i)** to participate in the Tag-Along Sale, the number of shares of Tag-Along Stock that the Selling Stockholder may Transfer to the Prospective Transferee in the Tag-Along Sale shall be correspondingly reduced in accordance with **Section 3.04(d)(ii)**.

(ii) The Selling Stockholder and each Tag-Along Stockholder timely electing to participate in the Tag-Along Sale pursuant to **Section 3.04(d)(i)** (each such Tag-Along Stockholder, a “**Tag-Along Exercising Stockholder**”) shall have

the right to Transfer in the Tag-Along Sale the number of such Tag-Along Exercising Stockholder's shares of Common Stock equal to (and in no event less than) the product of (A) the aggregate number of shares of Tag-Along Stock set forth in the applicable Tag-Along Notice and (B) such Stockholder's Tag-Along Pro Rata Portion.

(e) **Waiver.** Each Tag-Along Stockholder who does not deliver a Tag-Along Exercise Notice in compliance with Section 3.04(d) shall be deemed to have waived all of such Tag-Along Stockholder's Tag-Along Right with respect to any Common Stock owned by such Tag-Along Stockholder, and the Selling Stockholder shall (subject to the exercise by any Tag-Along Exercising Stockholders of their Tag-Along Rights pursuant to this Section 3.04) thereafter be free to Transfer to the Prospective Transferee the Tag-Along Stock identified in the Tag-Along Notice, on terms and conditions substantially similar to (and in no event more favorable to the Prospective Transferee than) the terms and conditions set forth in the Tag-Along Notice, it being understood and agreed that (i) any such Transfer shall be subject to the other terms and restrictions of this Agreement, including, without limitation, the terms and restrictions set forth in Section 3.01 and Section 3.02, and (ii) any Prospective Transferee, upon becoming a Stockholder, shall remain subject to the terms and conditions of this Agreement, including, without limitation, all provisions of this Article III.

(f) All Stockholders participating in the Tag-Along Sale shall receive the same consideration per share of Common Stock Transferred in such Tag-Along Sale. In addition, no Transfer of any shares of Common Stock in the Tag-Along Sale by the Selling Stockholder shall occur unless the Prospective Transferee simultaneously purchases all the shares of Common Stock in respect of which each Tag-Along Exercising Stockholder has exercised its Tag-Along Right pursuant to Section 3.04(d), and if any such Transfer is in violation of this Section 3.04, it shall be null and void in accordance with the provisions of Section 3.01(d) hereof.

(g) **Cooperation.**

(i) Subject to Section 3.04(g)(ii) below, each Exercising Tag-Along Stockholder shall take all actions as may be reasonably necessary to consummate the Transfer(s) contemplated in the Tag-Along Sale, including, without limitation, entering into agreements and delivering certificates and instruments (including stock certificates (if any) evidencing the applicable shares of Common Stock, duly endorsed in blank or accompanied by stock powers or other instruments of transfer duly executed in blank), in each case, consistent with the agreements being entered into and the certificates and instruments being delivered by the Selling Stockholder.

(ii) In connection with entering into such agreements as required by Section 3.04(g)(i) above, each Tag-Along Exercising Stockholder shall make or provide the same representations, warranties, covenants and indemnities as the Selling Stockholder makes or provides in connection with the Tag-Along Sale; *provided*, that each such Exercising Tag-Along Stockholder shall only be obligated to make representations and warranties that relate specifically to such Exercising

Tag-Along Stockholder with respect to such Exercising Tag-Along Stockholder's title to and ownership of the applicable shares of Common Stock, the authorization, execution and delivery of relevant documents, enforceability of such documents against such Exercising Tag-Along Stockholder, and shall not be obligated to make any of the foregoing representations and warranties with respect to any other Person or Stockholder or such other Stockholder's shares of Common Stock; *provided, further*, that all indemnities and other obligations shall be made by the Selling Stockholder and each such Exercising Tag-Along Stockholder severally, and not jointly and severally, (A) pro rata based on the aggregate consideration received by the Selling Stockholder and each such Exercising Tag-Along Stockholder, respectively, in the Tag-Along Sale with respect to breaches of representations, warranties and covenants made by the Selling Stockholder and such Exercising Tag-Along Stockholder, respectively, relating to the Company and its business, if any, and (B) in an amount not to exceed for the Selling Stockholder or any such Exercising Tag-Along Stockholder, the aggregate consideration received by the Selling Stockholder and each such Exercising Tag-Along Stockholder, respectively, in connection with the Tag-along Sale, as applicable, *plus* the amount of any consideration forfeited by the Selling Stockholder or such Exercising Tag-Along Stockholder, respectively and as applicable, to which it is entitled but has not yet received (including, without limitation, as a result of an escrow agreement, earn-out or similar arrangement).

(h) **Consummation of Tag-Along Sale.** Subject to the requirements and conditions of this Section 3.04 and the other applicable provisions of this Agreement, including Section 3.01 hereof, the Selling Stockholder shall have sixty (60) days following the expiration of the Tag-Along Exercise Period in which to consummate the Tag-Along Sale, on terms not more favorable to the Prospective Transferee than those set forth in the Tag-Along Notice. If at the end of such sixty (60)-day period the Selling Stockholder has not completed such Transfer, the Selling Stockholder may not then effect a Transfer (including, for avoidance of doubt, the Tag-Along Sale) that is subject to this Section 3.04 without again fully complying with the provisions of this Section 3.04. At the closing of such Transfer(s), each Tag-Along Exercising Stockholder shall deliver such agreements, certificates and instruments, against payment therefor directly to such Tag-Along Exercising Stockholder of the portion of the aggregate consideration to which each such Tag-Along Exercising Stockholder is entitled in such Transfer in accordance with the provisions of this Section 3.04.

(i) **Termination.** This Section 3.04, and the covenants contained herein, shall terminate on the consummation of a Public Offering.

Section 3.05 Drag-Along Right.

(a) **Drag-Along Right.** Subject to Section 3.05(b), if a Deemed Liquidation Event or a Sale of the Company is approved by the Board and all the Founder Stockholders (a "**Proposed Sale**"), then each Stockholder shall vote (in person, by proxy or by action by written consent, as applicable) all of such Stockholder's Voting Shares in favor of, and adopt, such Proposed Sale to the extent necessary, and shall execute and deliver all related

documentation and take such other action in support of the Proposed Sale, as may reasonably be requested by the Company to carry out the terms and provisions of this Section 3.05, including executing and delivering instruments of conveyance and transfer, and any purchase agreement, merger agreement, indemnity agreement, escrow agreement, consent, waiver, governmental filing, share certificates duly endorsed for transfer (free and clear of impermissible liens, claims and encumbrances) and any similar or related documents and instruments.

(b) **Exceptions to Drag-Along Right.** A Stockholder need not comply with Section 3.05(a) in connection with any Proposed Sale unless:

(i) any representations and warranties to be made by such Stockholder in connection with the Proposed Sale are limited to representations and warranties related to authority, ownership and the ability to convey title to such shares of Common Stock owned by such Stockholder, including representations and warranties that (A) the Stockholder holds all right, title and interest in and to such shares, free and clear of all liens and encumbrances, (B) the obligations of the Stockholder in connection with the transaction have been duly authorized, if applicable, (C) the documents to be entered into by the Stockholder have been duly executed by the Stockholder and delivered to the acquirer and are enforceable against the Stockholder in accordance with their respective terms, and (D) neither the execution and delivery of documents to be entered into in connection with the transaction, nor the performance of the Stockholder's obligations thereunder, will cause a breach or violation of any agreement, Applicable Law, or other judgment, order, or decree of any Governmental Agency;

(ii) such Stockholder will not be liable for the inaccuracy of any representation or warranty made by any other Person in connection with the Proposed Sale, other than the Company (except to the extent that funds may be paid out of an escrow established to cover breach of representations, warranties, and covenants of the Company as well as breach by any Stockholder of any identical representations, warranties and covenants provided by all Stockholders);

(iii) the liability for indemnification, if any, of such Stockholder in the Proposed Sale and for the inaccuracy of any representations and warranties made by the Company or its Stockholders in connection with such Proposed Sale, is several, and not joint and several, with any other Person (except to the extent that funds may be paid out of an escrow established to cover breach of representations, warranties and covenants of the Company as well as breach by any Stockholder of any identical representations, warranties, and covenants provided by all Stockholders), and is in proportion to, and does not exceed, the amount of consideration paid to such Stockholder in connection with such Proposed Sale;

(iv) liability will be limited to such Stockholder's applicable pro rata proportion (determined based on the respective proceeds payable to each Stockholder in connection with the Proposed Sale in accordance with the provisions of the Certificate of Incorporation or, if not so specified in the Certificate of

Incorporation, based on the respective percentages of the aggregate number of shares of Common Stock held by each Stockholder) of a negotiated aggregate indemnification amount that applies equally to all Stockholders but that in no event exceeds the amount of consideration otherwise payable to such Stockholder in connection with such Proposed Sale, except with respect to claims related to fraud by the Stockholder, the liability for which need not be limited as to such Stockholder; and

(v) upon the consummation of the Proposed Sale, each Stockholder will receive the same form of consideration for each share of Common Stock such Stockholder is Transferring in such Proposed Sale, as will be received by each other Stockholder for each share of Common Stock that each such other Stockholder is Transferring in such Proposed Sale.

(c) **Termination.** This Section 3.05, and the covenants contained herein, shall terminate on the consummation of a Public Offering.

ARTICLE IV COVENANTS

Section 4.01 Confidentiality. Notwithstanding anything in this Agreement to the contrary, no Stockholder by reason of this Agreement shall be entitled to access any trade secrets or confidential, proprietary or commercially-sensitive information of the Company. Each Stockholder shall keep confidential and shall not disclose, divulge, or use for any purpose (other than to monitor such Stockholder's investment in the Company) any confidential information obtained from the Company other than to any of such Stockholder's attorneys, accountants, consultants, and other professionals, to the extent necessary to obtain their services in connection with monitoring such Stockholder's investment in the Company, and who are under a duty or other obligation of confidentiality to such Stockholder.

Section 4.02 Market Stand-Off. To the extent requested by the Company or an underwriter of securities of the Company, each Stockholder shall not sell or otherwise transfer or dispose of any Capital Stock then owned by such Stockholder (other than to donees or partners of the Stockholder who agree to be similarly bound) for up to one hundred and eighty (180) days following the effective date of any registration statement of the Company filed under the Securities Act; *provided however* that, if during the last seventeen (17) days of the restricted period the Company issues an earnings release or material news or a material event relating to the Company occurs, or before the expiration of the restricted period the Company announces that it will release earnings results during the sixteen (16)-day period beginning on the last day of the restricted period, and if the Company's securities are listed on the Nasdaq Stock Market and Rule 2711 thereof applies, then the restrictions imposed by this Section 4.02 will continue to apply until the expiration of the eighteen (18)-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event; *provided, further*, that such automatic extension will not apply to the extent that the Financial Industry Regulatory Authority has amended or repealed NASD Rule 2711(f)(4), or has otherwise provided written interpretive guidance regarding such rule, in each case, so as to eliminate the prohibition of any broker, dealer, or member of a national securities association from publishing or distributing any research report, with respect to

the securities of an “emerging growth company” (as defined in the Jumpstart Our Business Startups Act of 2012) before or after the expiration of any agreement between the broker, dealer, or member of a national securities association and the emerging growth company or its stockholders that restricts or prohibits the sale of securities held by the emerging growth company or its stockholders after the initial public offering date. In no event will the restricted period extend beyond two hundred and fifteen (215) days after the effective date of the registration statement. For purposes of this Section 4.02, “Company” includes any wholly-owned subsidiary of the Company into which the Company merges or consolidates. The Company may place restrictive legends on the certificates representing the shares subject to this Section 4.02 and may impose stop transfer instructions with respect to the shares of Common Stock held by each Stockholder (and the shares or securities of every other person subject to the foregoing restriction) until the end of such period. Each Stockholder shall enter into any agreement reasonably required by the underwriters to implement the foregoing within any reasonable timeframe so requested.

Section 4.03 Termination. The covenants contained in this Article IV shall terminate on the consummation of a Public Offering.

The execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby, by such Stockholder require no action by or in respect of, or filing with, any Governmental Authority;

(d) the execution, delivery and performance by such Stockholder of this Agreement and the consummation of the transactions contemplated hereby do and will not (i) conflict with or result in any violation or breach of any provision of any of the organizational documents of such Stockholder, if applicable, (ii) conflict with or result in any violation or breach of any provision of any Applicable Law or (iii) require any consent or other action by any Person under any provision of any material agreement or other

instrument to which such Stockholder is a party or by which such Stockholder is bound; and

(e) subject to the other provisions of this Agreement, the representations and warranties contained herein shall survive the date of this Agreement and shall remain in full force and effect for the full period of all applicable statutes of limitations (giving effect to any waiver, mitigation or extension thereof).

Section 6.04 Severability. If any term or provision of this Agreement is held to be invalid, illegal or unenforceable under Applicable Law in any jurisdiction, such invalidity, illegality or unenforceability shall not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. Upon such determination that any term or other provision is invalid, illegal or unenforceable, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.

Section 6.05 Entire Agreement. This Agreement, and all related Exhibits and Schedules hereto, constitutes the sole and entire agreement of the parties to this Agreement with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings, agreements, representations and warranties, both written and oral, with respect to such subject matter.

Section 6.06 Successors and Assigns; Assignment. Subject to the rights and restrictions on Transfers set forth in this Agreement, this Agreement shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns.

Section 6.08 Amendment; Waiver. Except as otherwise expressly set forth herein, no provision of this Agreement may be amended, modified or waived (either generally or in a particular instance and either retroactively or prospectively) except by an instrument in writing executed by (a) the Company, and (b) each Founder Stockholder. Any such written amendment, modification or waiver will be binding upon the Company and each Stockholder. No failure to exercise, or delay in exercising, any right, remedy, power or privilege arising from this Agreement shall operate or be construed as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege.

Section 6.09 Governing Law. All issues and questions concerning the application, construction, validity, interpretation and enforcement of this Agreement shall be governed by and construed in accordance with the internal laws of the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction).

Section 6.10 Submission to Jurisdiction. The parties hereby agree that any suit, action or proceeding seeking to enforce any provision of, or based on any matter arising out of or in connection with, this Agreement or the transactions contemplated hereby, whether in contract, tort or otherwise, shall be brought in the United States District Court for the District of Delaware or in the Court of Chancery of the State of Delaware (or, if such court lacks subject matter jurisdiction, in the Superior Court of the State of Delaware), so long as one of such courts shall have subject-matter jurisdiction over such suit, action or proceeding, and that any case of action arising out of this Agreement shall be deemed to have arisen from a transaction of business in the State of New York. Each of the parties hereby irrevocably consents to the exclusive jurisdiction of such courts (and of the appropriate appellate courts therefrom) in any such suit, action or proceeding and irrevocably waives, to the fullest extent permitted by law, any objection that it may now or hereafter have to the laying of the venue of any such suit, action or proceeding in any such court or that any such suit, action or proceeding which is brought in any such court has been brought in an inconvenient form. Service of process, summons, notice or other document by certified or registered mail to the address set forth in Section 6.02 shall be effective service of process for any suit, action or other proceeding brought in any such court.

Section 6.11 Waiver of Jury Trial. Each party hereto hereby acknowledges and agrees that any controversy which may arise under this Agreement is likely to involve complicated and difficult issues and, therefore, each such party irrevocably and unconditionally waives any right it may have to a trial by jury in respect of any legal action arising out of or relating to this Agreement or the transactions contemplated hereby.

Section 6.12 Equitable Remedies. Each party hereto acknowledges that a breach or threatened breach by such party of any of its obligations under this Agreement would give rise to irreparable harm to the other parties, for which monetary damages would not be an adequate remedy, and hereby agrees that in the event of a breach or a threatened breach by such party of any such obligations, each of the other parties hereto shall, in addition to any and all other rights and remedies that may be available to them in respect of such breach, be entitled to equitable relief, including a temporary restraining order, an injunction, specific performance and any other relief that may be available from a court of competent jurisdiction (without any requirement to post bond).

Section 6.16 Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement.
