Pitch

In an effort to grow this iconic brand in the grass roots manner in which we set out to do, we decided to open our first funding round with a REG CF campaign. We loved this idea when we heard about it!

This is a unique and rare opportunity to align your investment portfolio with an iconic brand name that has tremendous potential in the relaxation beverage space... Dare we say, the "highest potential" in the space?!

Being a father of 2 girls who suffer from an anxiety disorder our Founder saw a need for a ready to drink, convenient, better tasting solution to consuming traditional relaxation remedies. He also saw a need to align with a recognizable brand that stood for a tradition of quality with a recognizable name. He enlisted the partnership of Cheech & Chong, comedic icons, who have a 50 year history of bringing awareness to the space and Cheech & Chong Ready to Drink Chill Shots were born.

Cheech & Chong Ready to Drink Chill Shots will launch in 2 options. A non-CBD relaxation shot formulated with Valerian Root, Rose Hips & Vitamin-B. Our CBD option will launch later this year and will contain 25mg of broad spectrum, water-soluble nano CBD. Both contain zero caffeine, zero sugar & zero calories to help you get chill while still maintaining that summer bod.

It's no secret that the CBD & Relaxation Beverage space is the fastest growing segment of the beverage industry and will see record breaking gains in the next 2 - 3 years. We believe the Cheech & Chong Chill Shot brand will be poised to grow rapidly within the space making it one of the fastest growing relaxation beverage brands on the market.

We are looking for investors that align with our vision of bringing the highest quality, most trusted name in relaxation to millions of people seeking a better relaxation alternative all while giving back to anxiety and depression foundations Nationwide.

Whether you're a Cheech & Chong super fan or just an investor looking to make a solid investment, we want to be able to say this brand was built outside the "norm" and was built by passionate, good hearted people like you!

Thank you for taking a look at our project!

Stay Chill friends,

John

WHAT IS CBD & IS IT LEGAL? (ASKING FOR A FRIEND, RIGHT?)

You might have realized that CBD has gone from being sort of around to absolutely everywhere all at once. Almost every beverage you can think of is being developed with a CBD formula. Everyone from your anxious coworker to your arthritis-suffering dad wants to get their hands on some CBD gummies. It's everywhere.... But what's the big deal?

While CBD is a component of marijuana (one of hundreds), by itself it does not cause a "high." According to Harvard Health, CBD is commonly used to address seizure disorders, anxiety, and for patients who suffer through the misery of insomnia, studies suggest that CBD may help with both falling asleep and staying asleep. CBD may offer an option for treating different types of chronic pain. A study from the European Journal of Pain showed, using an animal model, CBD applied on the skin could help lower pain and inflammation due to arthritis.

The 2018 Farm Bill lifted a nationwide ban on producing hemp products from which CBD oil is made. The Federal Government states CBD products are legal to possess as long as they contain no more than .3 percent THC however, state laws can vary of hemp/CBD used in food and beverage. We are encouraging all future consumers to check their locals laws unless this is otherwise stated by the Federal Government.
