EARLY DISRUPTOR

The stunning content generated from the AirSelfie aerial camera has made it a global social media hit.

Forbes

“AirSelfie is a king of the consumer selfie world.”

Mashable

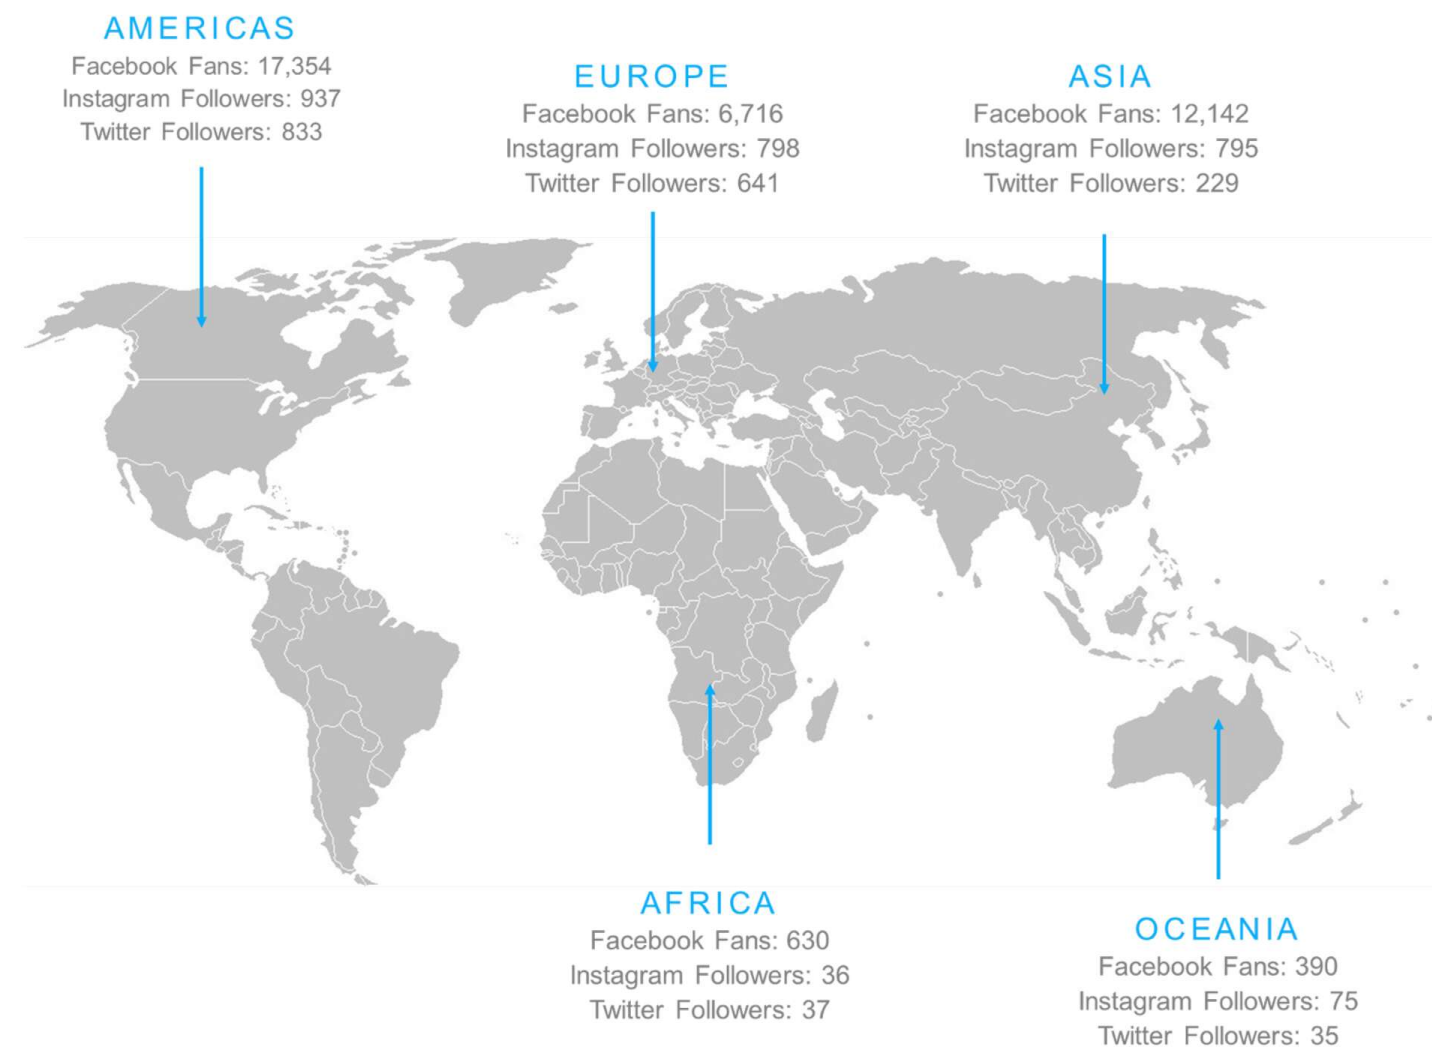

“This pocket-sized flying camera takes the perfect aerial selfies.”

WIRED

“If you are looking for a cool way to revolutionize your selfies here’s an Italian idea that could help you: AirSelfie.”

HUFFPOST

“If you just got used to selfie sticks we are sorry for you. Get ready to shoot flying images with AirSelfie.”

18,000 Backers: AirSelfie raised over \$2M on its crowdfunding campaigns featuring AIR PIX. This 3x the number of backers on its 1st Kickstarter, highly successful Kickstarter campaign in 2016.

Retail Distribution: Continue to draft off an extremely strong showing at CES 2020 and signing distribution contracts around the world and attract the biggest and best retailers.

Aerial Camera: Changed the photography industry forever by shipping 28,000 AirSelfie and AirSelfie 2 units in 2017 & 2018 respectively.

Product Category: The AirSelfie line expands with 3 new aerial camera models in 2020 that feature ground-breaking, proprietary new A.I.R. (Aerial Imaging Robotics) technologies and offer specific functionality at strategic price points.

This is SO COOL!

It's so much fun to watch it just take off from my hands! I've played with a few drones, and they're always so hard to control. AIR PIX is so easy and fun! And it's super convenient when I want a group or couple photo. Don't need to have someone sit out of the photo to take the shot anymore!

Advertising Metrics:
Conversion 1.9%,

THE OPPORTUNITY

- .3.2 billion smartphones in the world by 2020.
- .Over 1.2 trillion photos are taken by smartphones each year.
- .Over 1/3 of those photos are selfies.
- .Social media users share content that will incite engagement and “likes” – the better the content, the more engagement and the more likes.

**AIRSELFIE CAN BE AN
ACCESSORY FOR ALL
3.2 B SMARTPHONE

THE AERIAL IMAGING ROBOTICS PLATFORM

AIRSELFIE TECHNOLOGY OVERVIEW

A.I.R. (Aerial Imaging Robotics)

Proprietary Software/hardware platform built to optimize the app features with the aerial camera's capabilities, leveraging a modular platform architecture.

Artificial Intelligence

Integrated Artificial layer in A.I.R. cameras allow the app and hardware to interact supporting face tracking, in-flight shot selection, best picture recommendation, visual library management optimization and more.

Intellectual Property

Since 2016, AirSelfie, Inc. is aggressively filing design and utility patents, protecting its technology in multiple jurisdictions around the world including

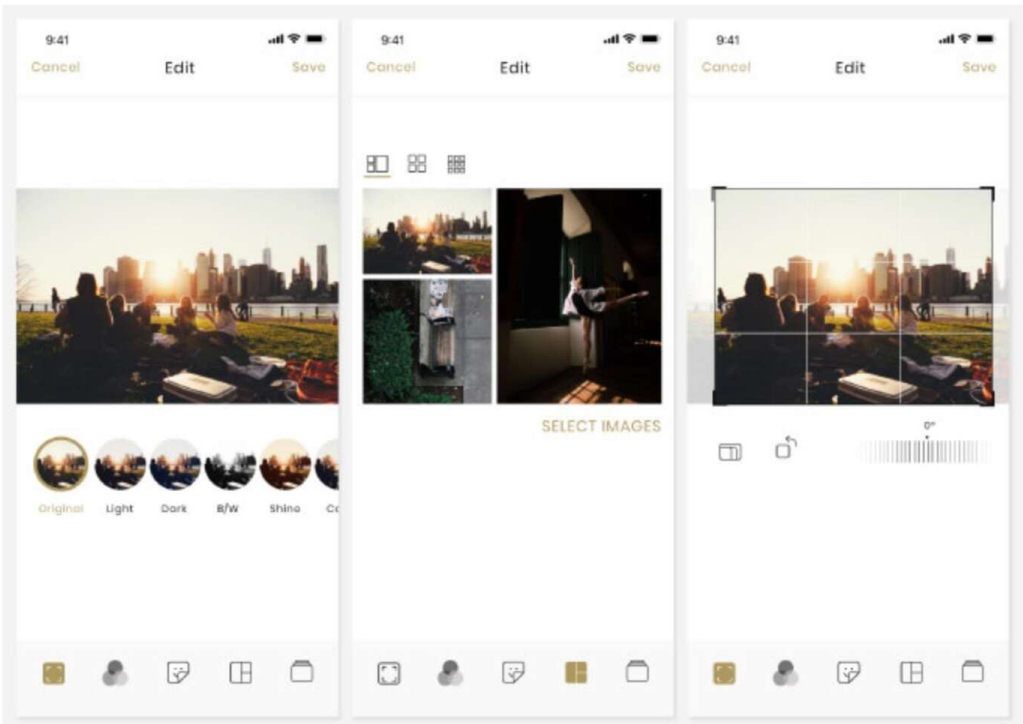

- Design for the iconic AirSelfie air frame and highly efficient propeller design
- App autonomous and app-free autonomous flight
- Global brand trademark for the category defining AirSelfie brand name.

PROPRIETARY AIRSELFIE ONE-TOUCH APP

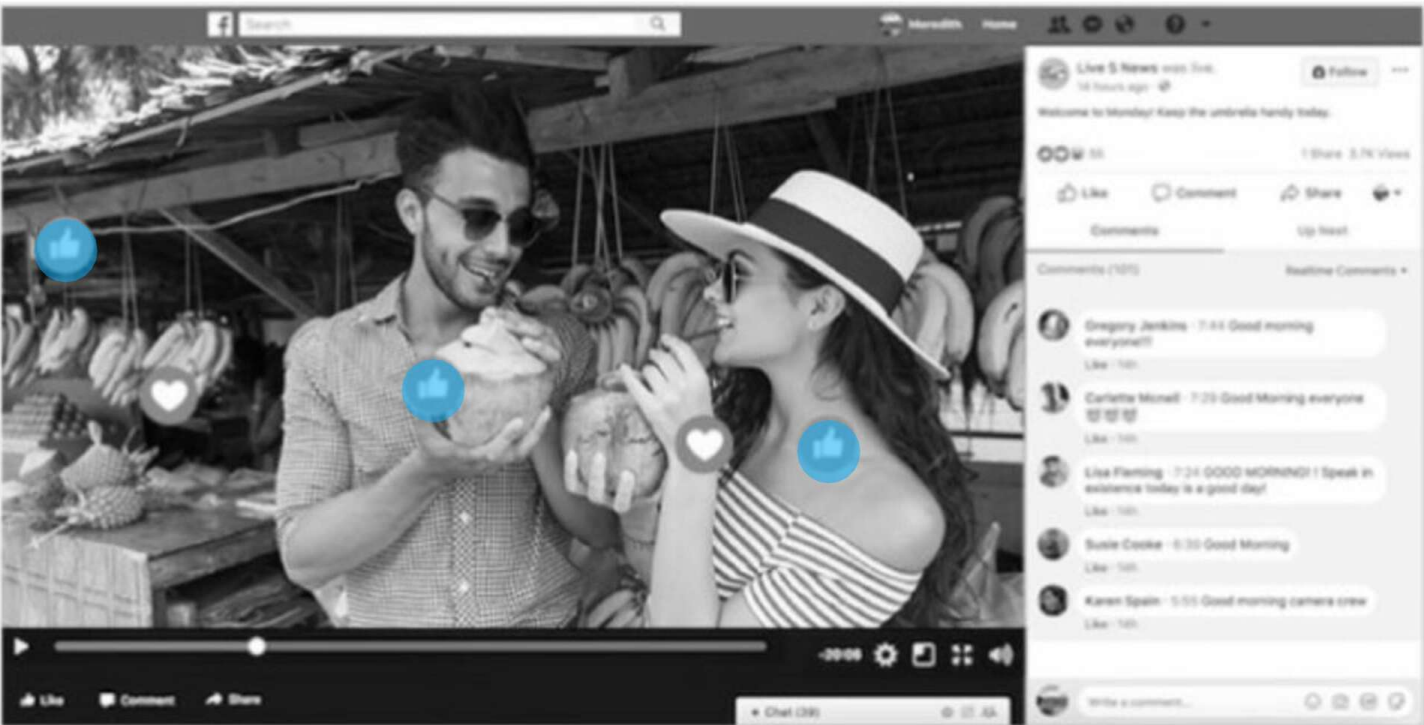

Simple to use AirSelfie app works with the entire line of AIR aerial cameras and allows the user to stay immersed in any life activity while AirSelfie captures the event in HD photos or video and then allows easy sharing on popular social media platforms.

Capture Me function identifies subject that AirSelfie will follow in the air.

Smart Gallery for managing and organizing photos and videos. Image editing suite with crop, zoom, rotate, filter and sticker editing.

S.E.N.D. (Share Experience Now Direct) function that allows direct posting to social media platforms.

DRONE/CAMERA INDUSTRY OVERVIEW

AirSelfie is uniquely positioned to capture significant market share in the growing drone sectors of the camera industry.

AIRSELFIE AERIAL CAMERA LINE FOR 2020

NEW PRODUCTS '19/20

AIR PIX
NEW

AirSelfie's most affordable and intuitive entry-level aerial camera is geared toward casual photographers and videographers ages 10+.

FOURTH QUARTER 2019
SRP: \$99.95

AIR PIVOT
NEW

Revolutionary aerial camera features 180° manual tilting camera delivering landscape and zenith photos and HD videos giving photographers great versatility at a great price.

SECOND QUARTER 2020
SRP: \$179.95

AIR DUO
NEW

AirSelfie's first aerial camera to feature dual lenses for landscape and zenith photos and HD videos giving photographers great versatility in an aluminum chassis.

SECOND QUARTER 2020
SRP: \$229.95

AIR SKY
NEW

Airselfie's autonomous flight, zenith and birds-eye camera's flies and captures photos and 4K videos with or without a connection to a smartphone. 3D printed Airframe

FIRST QUARTER 2021
SRP: \$249.95

AIR BLADE
NEW

Airselfie's technology focused on use in tactical markets. Multi-camera, multi sensor for Military, Polices, Fire and First Responders who need visual access to unapproachable areas.

2021
SRP: NDA

AIRSELFIE TACTICAL

AirSelfie is uniquely positioned to capture significant market share in the growing drone camera space supporting applications for Military, Police, Fire and First Responders

Active Program with US Army: AEWE - Army Expeditionary Warfare Experiment

- Extreme close quarters intelligence without exposure.
- Tactical Observation Surveillance System – T.O.S.S.

Example: infantry soldiers lack the capability to conduct personal aerial reconnaissance especially in close quarter combat scenarios.

- . Incorporates advanced camera options (thermal, iR, 3D).
- . Anti-collision one-touch flight profiles & future autonomous operation.

A much smaller, lighter footprint and lower cost than current personal surveillance systems.

AIRSELFIE SALES GLOBAL DISTRIBUTION STRATEGY

AirSelfie's Broad Appeal Aligns Globally with Omni-Channel Retailers Who Sell Smartphones & Photography Accessories

STRATEGIC PRODUCT ROLLOUT

Scalable Growth Through a Strategic Product Roadmap

	AIR DUO				●	●				●			
AIR SKY											●	●	

Mission:

Execute a product roadmap with devices that have differentiated and complementary features and price points with launch dates that allow for maximum market traction for each device.

Change the Game

Global launch of a feature rich camera at an industry disruptive price point to quickly establish the aerial camera category.

Expand the Market

Launch 2 new devices globally with higher performance features at higher price points (& margins) to an existing customer base & beyond.

Create Demand

Delay launch in APAC region for the higher price point device in order to create demand.

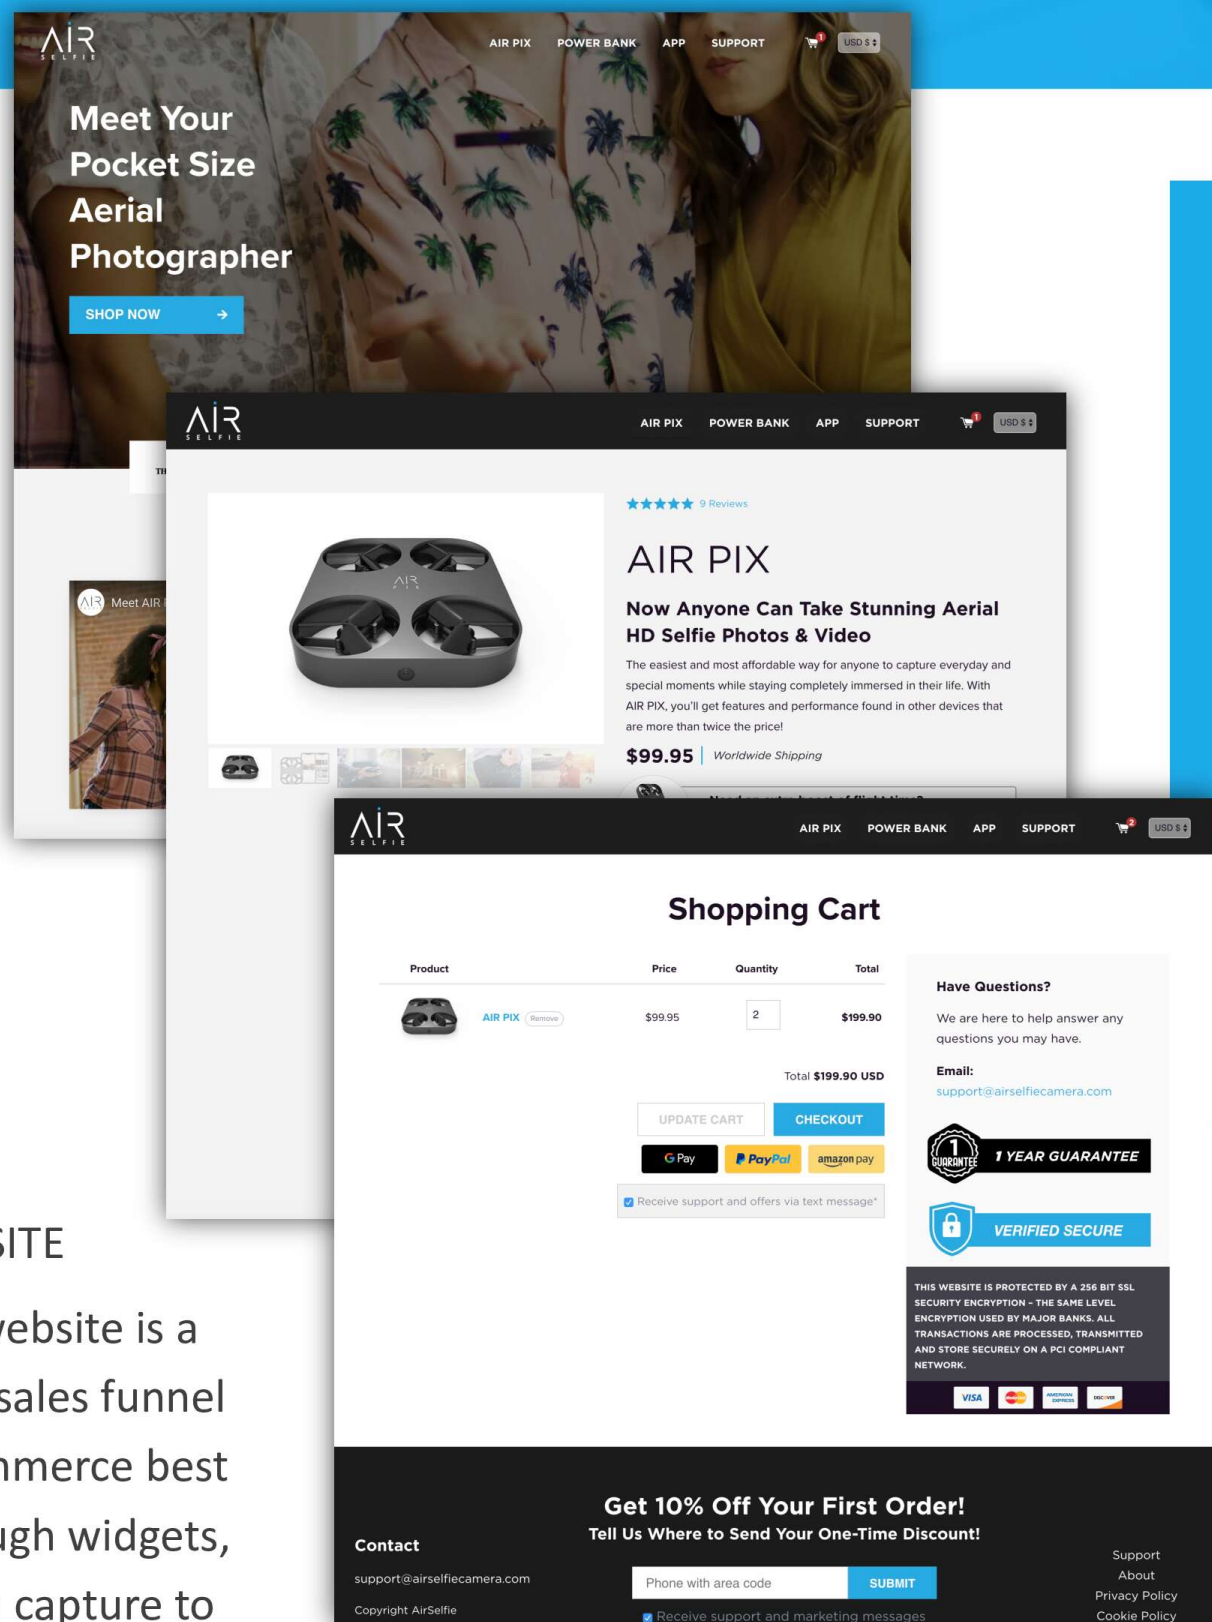

Shake Up the Industry

Disrupt the category again with an aerial camera that has Unparalleled features & dramatic manufacturing advantages.

This slide contains forward looking projections which are not guaranteed.

AIRSELFIE MARKETING LEVERS

Global Direct to Consumer

SHOPIFY WEBSITE

The AirSelfie website is a highly refined sales funnel that uses ecommerce best practices through widgets, feeds and data capture to maximize conversion.

DRIVEN BY STRATEGIC FACEBOOK & GOOGLE ADS

AirSelfie has implemented a highly successful Facebook and Google ad campaign that has become a key traffic driver to the website. Constant monitoring, analysis and adapting to the most productive messaging, timing, images, etc has led to an extremely strong ROAS and high conversions rates.

STRONG PERFORMING FACEBOOK ADS

AIRSELFIE MARKETING LEVERS

Retail Bricks & Mortar and E-Commerce Marketing

Bricks & Mortar Marketing

AirSelfie has developed a catalog of assets that communicate the unique selling proposition of AirSelfie aerial cameras:

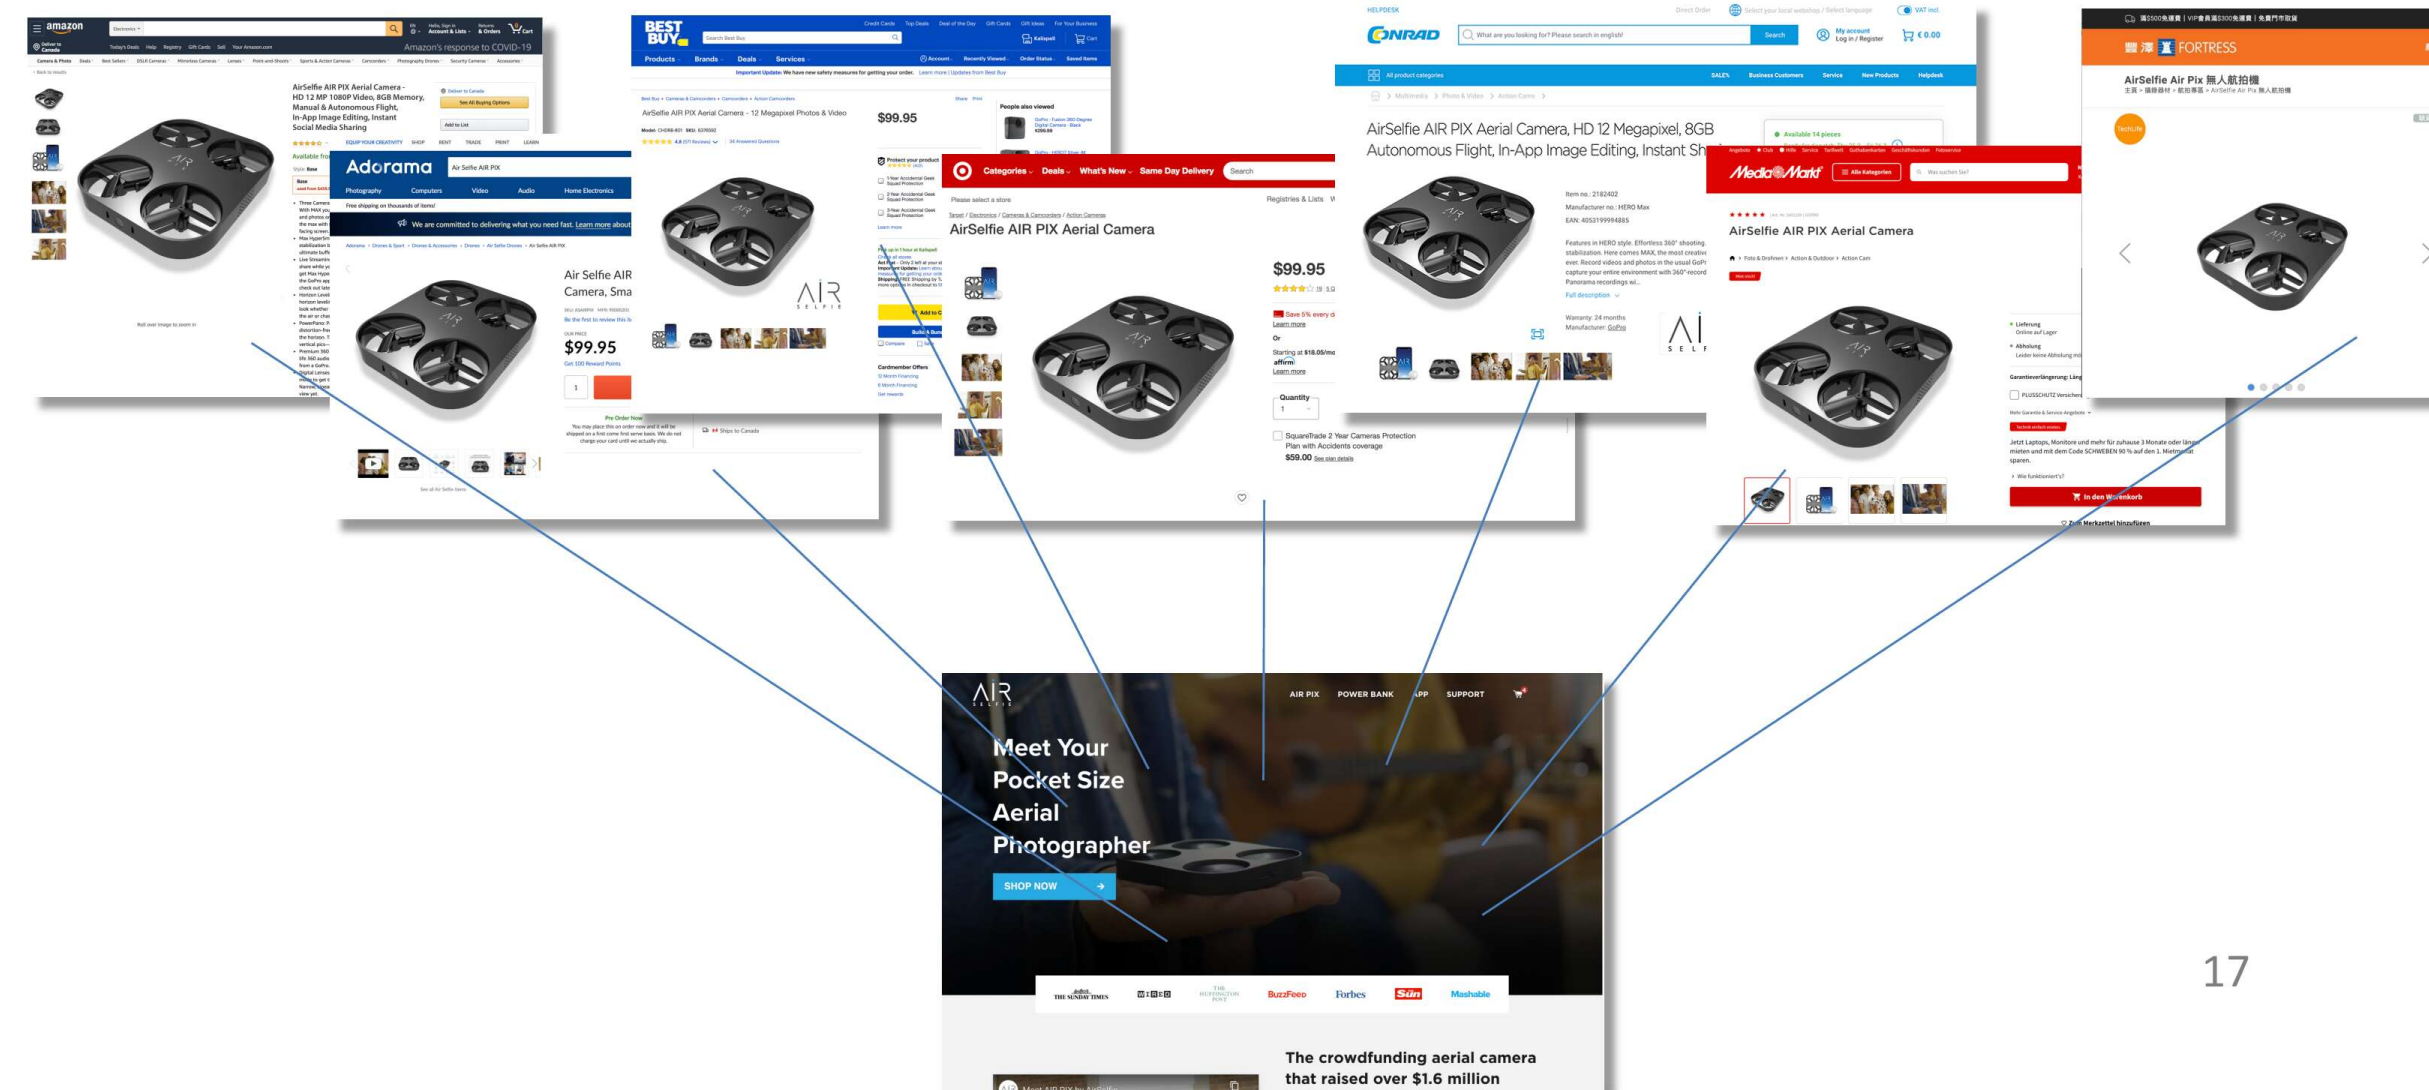

- Multiple sales & marketing tools for AirSelfie representatives and distributors
- Dramatic, upscale and friendly packaging
- A series of either free-standing or table top acrylic displays that allow for complete modularity, flexibility and localization.

E-Commerce Marketing

AirSelfie is leveraging the successful practices employed on the AirSelfie DTC e-commerce website to maximize the success potential on our retailer partner's e-commerce sites plus e-commerce sites like Amazon and Adorama.

- Strong product positioning and messaging
- Compelling product and lifestyle photography
- Engaging user generated content

AIRSELFIE MARKETING LEVERS

Influencers, PR & Collaborators

Aligned Nano & Macro Influencers

AirSelfie is identifying strategic celebrity macro influencers and use case nano influencers in parallel industries like travel, outdoor, photography and others.

Forbes

HUFFPOST

BuzzFeed

WIRED

Influential Reviews

AirSelfie has already benefitted from multiple reviews by influential publications and blogs. This will continue with the introduction of new aerial cameras with more functionality.

Collabs with Like-Minded Groups

AirSelfie is in discussions with high profile organizations that share our energy & demographic appeal like the USA Olympic Skateboarding team.

ARC'TERYX

MØNSTER ENERGY

Brand Collaborations

AirSelfie is identifying brands that have products that appeal to the same demographics and have aligned use cases across multiple and varied product categories.

Note: Pro Forma Financial Assumptions - Next Page

Projections are not guaranteed.

PRO FORMA FINANCIAL STATEMENT ASSUMPTIONS

Significant Assumptions

Management has completed detailed modeling in support of the operations and cash flows required for the year ending April 30th, 2021:

- Revenue, margin and product have been forecasted highlighting the business' geographic and channel diversity.
- Operating Expenses reflect the required investments in developing the business to business and retail channel development as well as in the necessary operating and administrative infrastructure.
- Cash requirements also considered given the need to finance receivables and inventory to support growth.
- Management has conservatively treated its crowdfunding orders and left the orders unfilled for the year ending April 30th, 2021. The orders (approximately 18k units) are classified as deferred revenue in the consolidated balance sheet as of March 31st, 2020 and represent approximately \$2 million.
- Management intends to use excess available cash from operations to fulfill such orders which would improve forecasted performance for the year ended April 30th, 2021.

Management's approach for the other years presented is currently for the income statement only and is based upon management's assessment of the market parameters and conversion improvements expected as product acceptance and visibility are enhanced by the successful operations in 2021.
