Independent Accountant's Review Report

Kingmakers Ops LLC

4/7/2020

To Whom it May Concern:

I have reviewed the accompanying income statement, balance sheet, cash flow statement and statement of changes in shareholders' equity of Kingmakers Ops LLC for the period of March 27 - March 31, 2020. This review includes primarily applying analytical procedures to management's financial data and the performance of inquiries to the company's management. A review is substantially less in scope than an audit, the objective of which is to express an opinion regarding the financial statements. Accordingly, I do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States. As part of this responsibility management has a duty to design, implement, and maintain internal controls relevant to the preparation and presentation of the financial statements.

My responsibility is to conduct a review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. These standards require me to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. I believe the results of my review procedures provide a reasonable basis for my report.

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States.

Respectfully,

Christopher Velez, CPA
