INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To Management
JJ Pfister DSP, LLC
Roseville, California

We have reviewed the accompanying financial statements of JJ Pfister DSP, LLC (an Oregon Limited Liability Company) which comprise the Balance Sheets as of December 31, 2019 and 2018, and the related Statements of Income, Statements of Members' Equity, and Statements of Cash Flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

JJ PFISTER DSP, LLC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 and 2018

Note 1: The Company

JJ Pfister DSP, LLC (the “Company”) is a limited liability company organized in the State of Oregon. The Company was organized in 2016 as an Oregon LLC and registered with the State of California as a foreign company on August 4, 2017.

The Company holds distilling equipment that it leases to a related company, JJ Pfister Distilling Company, LLC. The building and equipment are located in Sacramento, California.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Company are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (“GAAP”) as determined by the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”).

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of management’s estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at fiscal year-end. Actual results could differ from those estimates.

Risks and Uncertainties

The Company has a limited operating history. The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include, recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments purchased with maturities of three months or less to be cash equivalents. As of December 31, 2018 and 2019, the Company held no cash equivalents.

Accounts Receivable

The Company’s trade receivables are recorded when billed and represent claims against third parties that will be settled in cash. The carrying value of the Company’s receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value. At December 31, 2018 and 2019 there were no accounts receivables reported.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Equipment is depreciated over seven years and leasehold improvements are depreciated over fifteen years. Repair and maintenance costs are charged to operations as incurred and major improvements are capitalized. Additional information on fixed assets is included below in Note 4.

Note 2: Summary of Significant Accounting Policies-Continued

Income Taxes

The Company applies ASC 740 Income Taxes (“ASC 740”). ASC 740 provides criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. A tax benefit from an uncertain position is recognized only if it is “more likely than not” that the position is sustainable upon examination by the relevant taxing authority based on its technical merit.

The Company is subject to tax filing requirements as a partnership in the federal jurisdiction of the United States. The Company sustained net operating losses during both years ended December 31, 2018 and 2019. As a partnership, the members are taxed on their proportionate share of the Company’s taxable income. Therefore no provision for federal taxes have been included in these financial statements.

The Company is subject to franchise and income tax filing requirements in the States of California. Oregon does not impose a separate franchise fee on LLCs.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company’s assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

Level 1- Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2- Include other inputs that are directly or indirectly observable in the marketplace.

Level 3- Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of Inception. Fair values were assumed to approximate carry

Concentrations of Credit Risk

From time to time cash balances, held at a major financial institution may exceed federally insured limits of \$250,000. Management believes that the financial institution is financially sound and the risk of loss is low.

Advertising Expenses

The Company expenses advertising costs as they are incurred.
