Notes to condensed financial information (Unaudited)

Note 4. Investment in NSURE, Inc., page F-56

6. We note disclosure that on September 21, 2020 you purchased the domain 5minuteinsure.com, which utilizes artificial intelligence and data mining to provide competitive insurance quotes within five minutes, with minimal data input. Please revise your filing to clearly disclose whether you purchased only the domain name or a pre-existing, fully operating website, a business, etc. Please revise MD&A to provide additional material details regarding this transaction including the purchase price, how this acquisition is expected to impact current and future financial results, how this acquisition impacts your strategy related to your investment in Nsure, and any other relevant

information.

Note 6. Goodwill and Other Intangible Assets, page F-57

7. Please refer to comment 28. We note your response and revised disclosures that beginning in January 2020 you began to consolidate your insurance operations to streamline management of operations and achieve operational efficiencies, which has resulted in closing certain offices and transferring several policy holders to other entities. As a result, you assert that you have lost the ability to discretely report meaningful results for your legal entities and therefore aggregate your insurance agencies as they are all economically similar and can be expected to have essentially the same prospects. We also note your disclosure on page F-57 that beginning with the October 1, 2020 impairment test, you will test for impairment at the insurance agency level. Additionally, we note that you have goodwill totaling \$9.3 million as of September 30, 2020, representing 51% of total assets and have realized losses since the recapitalization and common control transactions in 2018.
- Please revise to clarify what "at the insurance agency level" means in your goodwill impairment disclosure. For example, disclose whether you test for impairment at each individual insurance agency or only at the consolidated level.
  - Please provide us with a summary of your goodwill impairment analysis as of October 1, 2020 in accordance with ASC 350-20-35.
  - For each reporting unit that is at risk of failing step one of the impairment test please revise MD&A to disclose the following information:
    - The percentage by which fair value exceeded carrying value as of the date of the most recent test;
    - The amount of goodwill allocated to the reporting unit;
    - A description of the methods and key assumptions used and how the key assumptions were determined;
    - A discussion of the degree of uncertainty associated with the key assumptions. The discussion regarding uncertainty should provide specifics to the extent possible (e.g., the valuation model assumes recovery from a business downturn within a defined period of time); and
    - A description of potential events and/or changes in circumstances that could reasonably be expected to negatively affect the key assumptions.
